"Boom! Boom! Boom!"

The three triple-mounted 380mm main guns of the battlecruiser "Mackenson" fired first, and shells weighing more than one ton roared into the downtown area of Tokyo.

When a violent explosion sounded in the urban area of Tokyo, it meant that the city was beginning to be destroyed.

The other battlecruisers and light cruisers of the German Expeditionary Fleet also joined the bombardment of Tokyo. Cannonballs roared and flew towards Tokyo.

Intense explosions, one after another in downtown Tokyo. One building after another was destroyed in the explosion. Among them, there are many cultural monuments and well-known buildings in the urban area of Tokyo.

"Amaterasu! The Germans are really calling, run!"

Countless Tokyo residents fled desperately outside Tokyo city. When the government issued the evacuation order before, it had already caused panic. However, there are still many Tokyo residents who do not want to leave their homes and places where they live and live. However, when the shells of the German expeditionary fleet fell, they had no other choice but to escape. Compared with leaving one's hometown, preserving one's own life is undoubtedly the most important thing.

The residents of Tokyo crowded on the roads out of the city suffered extremely heavy losses under the heavy shelling of the German expeditionary fleet. Often a shell explodes in the crowd, and it will take away countless lives.

"Boom!" A 380mm artillery shell fell on a street. At this moment, the streets are full of Tokyo residents carrying big bags and small bags, dragging their families with them. The huge power after the shell exploded killed all these islanders immediately. The stumped limbs and arms were flying everywhere. The whole scene is like hell.

"God! What mistake did we make? Why do we have to suffer such pain?" An old man from the island country whose legs had been blown off cried out in pain.

No one can answer him, so they can only continue to bear the pain.

Although, this war may have nothing to do with these ordinary islanders. But who let their government make the wrong choice? Thinking that Germany would swallow their humiliation for their invasion of the Pacific colonies and Southeast Asia. As a result, I did not expect that Germany's reaction would be so intense.

All of this is due to the greed of the islanders, which caused the current situation. The islanders certainly had reason to hate the Germans, believing that they had brought disaster upon them. However, allies should also hate their government. It is precisely because of their government that the current suffering has been caused.

Under the fierce artillery fire of the German expeditionary fleet, the bustling city of Tokyo is burning and reduced to ashes.

The cabinet ministers of the island country hid in the strong anti-gun holes, their faces pale. Although, the anti-blasting hole is very strong. However, occasionally they can still feel that the ground seems to be trembling. This is the shells fired by the German Expeditionary Fleet exploding!

"Damn Germans, one day we will recover from you a thousand times the atrocities you have inflicted on the island country!" Said Lu Xiangoka Ichinosuke gritted his teeth.

However, Shanxian Youpeng and Dashanyan who were beside him did not say a word. From the unbearable and guilt that occasionally flashed in their eyes, you can feel their thoughts. Obviously, the two are rushing to the shame of the devastation in Tokyo. If it weren't for their persistence, all this might not have happened in Tokyo.

Although their original purpose is also good, it is for the benefit of the island country. However, the final result was not what they expected to see. Perhaps, even they did not expect that everything would evolve into what it is now.

"Perhaps, we should find a way to end this disaster! Southeast Asia is very important to the empire, but we are not yet capable of occupying this waste land. Forcibly occupying it there will make us pay an extremely heavy price!" Shan County A friend said.

Marshal Da Shanyan nodded, he thought so too.

After hearing the conversation between the two, Oka Ichinosuke wanted to explain something, but he didn't know how to say it, so he had to keep silent.

"The Germans cannot be allowed to continue like this. Otherwise, the entire empire will be destroyed by the Germans. Now, the Germans seem to have some restraint and only attack our big cities. If their patience runs out If we directly attack all the coastal cities of the empire, the empire will pay an even heavier price!" said Okuma Shigenobu.

In front of him, sat Kaoru Inoue and Masayoshi Matsukata. The two are elders, and their status and status are higher than that of the prime minister Shigenobu Okuma.

"Prime Minister, after the German bombardment is over, we will find time to talk to Mr. Yamagata!" Masayoshi Matsukata said.

"Thank you, Senator. You will save the entire empire!" Okuma Shigenobu said excitedly.

Okuma Shigenobu is very dissatisfied with the army's forcible occupation of Southeast Asia, which caused the island country to suffer such a catastrophe. However, if he wants to fight against the army, he can only get the support of other veterans. Otherwise, everything will be empty talk.

Fortunately, the two elders Masayoshi Matsukata and Kaoru Inoue still supported him. Although their influence is not as good as Yamagata Youpeng, if the two of them support Okuma Shigenobu, Okuma Shigenobu is still very likely to succeed.

Island National Palace, located in Chiyoda. Not too far from the coastline. Although, the German expeditionary fleet did not cover this area during the initial bombardment. However, the sound of

rumbling artillery fire still scared the people in the palace enough. Emperor Taisho, the spiritual leader of the island country, was immediately stuffed into the strongest anti-blasting hole.

"Baga! Baga! What happened to my country? What happened to the cabinet? How could they let the Germans come to Tokyo Bay?" Emperor Taisho looked terrified.

His body was trembling slightly, and there was a puddle of water under his feet. If you smell it carefully, you can even smell a smell of urine.

Obviously, the great emperor was so scared that he peed his pants amidst the rumbling guns of the German expeditionary fleet. However, the attendants on the left and right acted as if nothing had happened at all.

Although Emperor Taisho had a problem with IQ, he was not a fool, and he knew his own situation, which made him even more ashamed. At the same time, he hated the incompetent cabinet even more.

However, the emperor has no power at all. Even if he was dissatisfied, there was nothing he could do.
