King of Gods

Chapter 1561: Sweeping Away All

Up in the sky, the Gods battled with the Heaven Lord, the scene inspiring dread in all who beheld it.

On the God Eye side were the five God Eyes, the Bright Sun God, the Celestial Sword God, and Sikong Dao, eight Gods in total. The Myriad Forms God Eye and Life God Eye together with the genius God Sikong Dao were responsible for defense. The Death, Divine Punishment, and Spacetime God Eyes together with the Bright Sun God and the Celestial Sword God were responsible for offense.

But in this situation, they still didn't have much of an advantage.

"No matter who you are, none of you can stop me." The Heaven Lord's calm face radiated majesty and tyranny. Hwoooooom!

Around the Heaven Lord, wind, lightning, and fire, all of them infused with Destruction energy, wreaked havoc, making it so that no one dared to approach him.

After absorbing the Destruction Origin, the Heaven Lord had reached a whole new level of offensive power. Ordinary Gods were incapable of blocking his attacks. Thus, the God Eye alliance had three Gods focused on nothing but defense.

"Kill!" the Death God roared.

The three God Eye Deities responsible for offense simultaneously attacked. A pitch-black stream of energy mixed together with Divine Punishment lightning and then was further shrouded by Spacetime energy. The final result shot toward the Heaven Lord.

At this time, the three God Eye Deities were better able to cooperate, as they could now fuse their attacks together to increase their power.

On the other side, the Celestial Sword God gripped an ancient sword and lightly waved it. A heaven-shaking white sword beam instantly shot forward.

The Bright Sun God had already transformed into a massive golden-red crow. He opened his mouth and unleashed a scorching storm of fire.

"Scram!" the Heaven Lord coldly bellowed, his Ancient God-Devil Body unleashing a terrifying Divine Power that caused space around him to crumble.

He punched again and again, his fists of energy obliterating everything in their path.

The fierce battle occurred at lightning-fast speed. In the space of a second, the two sides had already exchanged several dozen blows.

"What a powerful Ancient God-Devil Body! It's somehow gotten even stronger!" Zhao Feng was internally quite shocked.

The Heaven Lord should have only evolved his Heavenly Dao God Eye, but Zhao Feng sensed that the Ancient God- Devil Body had also gotten stronger.

Even without the Heavenly Dao God Eye, the Heaven Lord could rely on his Ancient God-Devil Body to fight against any single God Eye Deity. If this was indeed the case, the Heaven Lord definitely possessed a complete Ancient Race bloodline, and he was capable of using the full extent of its power!

Thumpthump! Thumpthump!

After focusing on the battle of the Gods for some time, Zhao Feng felt his left eye beginning to pulse. The dreamy silver ball was trembling constantly, his Dream Origin quaking.

“For now, I should just do what I can.” Zhao Feng turned away from the God battlefield.

Although he had the Ninth God Eye, his current level of strength was not enough to intervene in the God battlefield.

On the contrary, he would just end up creating a gap that the Heaven Lord could exploit.

In addition, Zhao Feng’s Dream God Eye was apparently very stimulated by the battle between the God Eyes and the Heavenly Dao God Eye, and large amounts of Dream Origin were flowing out of it. Zhao Feng felt like he had an endless stream of Dream Origin energy available to him, and this war was the perfect place to use it all.

“Kill!” Zhao Feng’s body vanished as he charged forward.

With the Space Pseudo Ancestral Artifact and his own Spacetime Law, Zhao Feng possessed an unsurpassed advantage in speed.

Plush!

He flew through the battlefield, a silver streak of light that left blood and gore in its wake as it swept aside all opposition.

When he used his full strength, Zhao Feng could kill even top-class God Kings. There was basically nothing on this battlefield that could threaten him. To his enemies, he was a god of death, a forbidden existence.

“Retreat...!” Cries of panic rang out as the nearby experts tried to run, but Zhao Feng was just too fast. If he wanted to kill someone, there was basically no chance of escape.

Zhao Feng was an unrestrained beast on the battlefield, ceaselessly massacring all his foes.

“Oh no!” Divine Emissary Wu trembled in fear. Zhao Feng had noticed him!

Thwish!

Divine Emissary Wu’s body erupted with a tyrannical and wicked demonic power, black streams of light revolving around him as he fled.

“Die!” Zhao Feng went after him, rapidly closing the distance.

“No...!” Divine Emissary Wu was enraged.

He had watched Zhao Feng’s battle with the two God Kings. Once the two God Kings were defeated, he did his best to stay far away from Zhao Feng, but they still ended up running into each other.

Two Samsara Immortal Body God Kings died to Zhao Feng, so what hope did he have? Even running was a pointless endeavor.

Swoosh!

Zhao Feng waved a palm, creating several dozen Primal Chaos Tribulation Lightning Swords that flew forward and sealed off all of Divine Emissary Wu's escape routes. Two of the swords pierced through his body, making his body go stiff.

"Primal Chaos Lightning Eye!" A powerful eye-bloodline technique shot out of his left eye.

Kacrack!

A twisted lightning sword brand suddenly appeared on Divine Emissary Wu's head. In a thunderous explosion, Divine Emissary Wu was dead!

After killing Divine Emissary Wu, Zhao Feng continued to go around the battlefield, specifically targeting the remaining Divine Emissaries.

Wasn't it fine to just remain dead? They just had to come back to life so that he could kill them again.

But Zhao Feng would not be stingy with his sword! The cold and vicious killing intent he exuded caused all the enemies around him to scatter in panic.

A few moments later, another Divine Emissary was killed. Then a second, a third, a fourth...

The upper echelon members of the Heaven Defying Faction were watching all this from their black-gold warships.

"If this kid continues his slaughter, we'll be finished!" a Heaven's Legacy Race elder said, his eyes burning with rage.

To think that he would mature so quickly!" Yu Liuping was stunned. Zhao Feng's strength had already left a shadow on his heart.

"We can only send a God King to hold him down for a moment...." The Right Protector gnashed his teeth in helplessness.

The God Eye alliance had come very prepared, and it had the Sage Faction's help. Its strength far exceeded the Heaven Defying Faction's imagination. Despite that, the Heaven Defying Faction still had the advantage.

But now, Zhao Feng's massacre was having a rather large effect on the battlefield and was on the verge of turning the tables.

The Right Protector concluded that there was almost no one on their side capable of killing Zhao Feng. Since that was the case, they could only suppress Zhao Feng so that he could no longer keep massacring their forces.

Plush!

Zhao Feng continued to kill his way across the battlefield, his enemies fleeing in disarray.

At this moment, a bloody roar rang out; “Brat, cease your impudence!”

A dark red streak of light shot over and turned into a middle-aged man wearing a red robe.

“The Blood Spirit Sacred Land’s God King Fiendblood.”

The Blood Spirit Sacred Land was one of the Sacred Lands conquered by the Heaven Lord, and God King Fiendblood was now a Samsara Immortal Body.

“If you want to fight, then fight!” Zhao Feng exploded forward, his body crackling with Primal Chaos and Tribulation Lightning energies.

As he got close to God King Fiendblood, he created several dozen Primal Chaos Tribulation Lightning Swords and shot them forward.

Whoosh! Whoosh!

God King Fiendblood began to dance, creating various bloody ripples in the air as he avoided Zhao Feng’s attack while minimizing the damage he received.

“Die!” Zhao Feng focused, a massive and heavy Primal Chaos Tribulation Lightning Sword forming in his hand, which he then swung.

God King Fiendblood waved a hand, created a blood-colored vortex to block the attack. The Divine Power within this vortex was violent and murderous, possessing immense strength.

Thwish!

As Zhao Feng destroyed the vortex, God King Fiendblood backed up, dodging the swing of the sword. “He wants to hold me down?” Zhao Feng understood what was going on.

Although God King Fiendblood had charged in so valiantly, he was actually there to just hold Zhao Feng down. The killing intent he exuded was innate to his body and was not targeted at Zhao Feng at all.

“It doesn’t matter if you know.” God King Fiendblood bizarrely smiled.

He was a top-class God King, so if he didn’t fight with Zhao Feng, would Zhao Feng still be able to kill him? He also did not think that Zhao Feng would choose to avoid this battle.

“You’re too confident, and you’re still underestimating the Ninth God Eye.” Zhao Feng couldn’t help but smile.

Dreamy lights began to spin within his left eye as Dream Origin energy poured out.

“Dreamification!”

The world around Zhao Feng was covered in a dreamy haze. Everyone in this dreamy region felt an inexplicable feeling of weakness.

Zhao Feng instantly focused the effects of Dreamification entirely on God King Fiendblood.

Run!

God King Fiendblood immediately began to retreat, hoping to escape the range of Dreamification.

“Spatial Isolation!” Zhao Feng activated Heaven Ascendant.

As a Pseudo Ancestral Artifact, it didn’t just have defensive abilities. Spatial Isolation was one of the other abilities it possessed.

Swish!

Space seethed in front God King Fiendblood, transforming into a thick spatial wall that blocked his way.

“Pseudo Ancestral Artifact!?” God King Fiendblood’s face turned dark as he cursed and changed directions.

Zhao Feng had already used Spatial Isolation to temporarily stop God King Fiendblood, so he wouldn’t let his prey so easily run away.

“Primal Chaos Domain!”

Primal Chaos energy spread outward. A region of dark and twisted energy overlapped with the Dreamification region.

The effects of the two domains increased the suppression on God King Fiendblood. He possessed rather decent speed and movement techniques, but they were rendered completely ineffective by the dual suppression.

“Blood Spirit Explosion!” God King Fiendblood’s face hardened as a fiendish and bloody energy erupted from his body.

Boom! Bang!

God King Fiendblood turned into a ball of dark red blood and burst apart. That fiendish and bloody energy instantly scattered the Primal Chaos energy, allowing God King Fiendblood to flee the scene as a bloody streak of light.

“You can’t run!” Zhao Feng’s face chilled as he brought his hands together, the Primal Chaos Domain seething at his command.

With his Dream God Eye, Zhao Feng had a complete understanding of God King Fiendblood’s movements, and he had already prepared a way to deal with God King Fiendblood’s secret technique.

God King Fiendblood only needed to hold down Zhao Feng, which involved two things. The first was that Zhao Feng couldn’t kill him, and the second was that he needed to fight with Zhao Feng so that Zhao Feng didn’t kill anyone else.

Bzzz!

Using large amounts of Dream Origin energy, Zhao Feng activated his Realization ability. God King Fiendblood’s speed suddenly slowed to a crawl.

Just a second was enough.

“Primal Chaos Lock!”

The energy of the Primal Chaos Domain completely engulfed God King Fiendblood.

Once the Primal Chaos Lock was formed, it would constantly devour all the energy an enemy possessed.

After using his secret art, God King Fiendblood was already in a weakened state. Now, not only did he fail to escape, he was captured by Zhao Feng.

“Extinguish!” Using even more Dream Origin, Zhao Feng activated Dreamification again.

He had abundant Dream Origin energy at this time, so he could use as much as he wanted.

God King Fiendblood was incapable of blocking the Dream Origin energy, and his body began to vanish. Not even his Samsara Immortal Body could outpace the devouring of the Primal Chaos Lock and the oblivion of Dreamification.

God King Fiendblood began to disappear.

“I didn’t think that I would die again so quickly.” God King Fiendblood chuckled.

It was not his will to attack Zhao Feng. As a Samsara Immortal Body, he could only follow the orders of the Heaven Defying Faction.

Whoosh!

A few moments later, God King Fiendblood was gone. Zhao Feng had singlehandedly killed a God King!

The members of the Heaven Defying Faction were stunned, their minds trembling.

At this moment, Yu Tianwu suddenly sent Zhao Feng a message; “Zhao Feng, I have a mission for you. Distract the enemy warships, and if you can destroy some of their weapon systems, that would be even better!”

The two warships of the Heaven Defying Faction possessed immense offensive power and were some of the most lethal weapons on the battlefield.

“Okay! I was going to do that anyway.” Zhao Feng nodded. Thwish!

Turning into a streak of light and shrouded in Primal Chaos Tribulation Lightning energy, Zhao Feng began to kill his way toward the Heaven Defying Faction warships.

The upper echelon members of the Heaven Defying Faction could already guess at Zhao Feng’s objective.

“He’s coming for us!” Yu Liuping began to shiver in fear.

“Hmph, perfect! If he dares to approach our warships, I’ll make sure he doesn’t go back!” The Left Protector’s dour face twisted in savagery.

Chapter 1562: Unstoppable

The Sage Faction’s white warships were not fully equipped, as they were short on time. Thus, the Sage Faction focused on defense.

But this was not the case for the black-gold warships of the Heaven Defying Faction, whose offensive capabilities were simply unmatched.

The two warships were equipped with large-scale Destruction weapons. However, the chaos of the current battlefield and the mixing of friend and foe meant that these weapons were not very useful. But the warships were also equipped with numerous small-scale Destruction weapons and offensive arrays, and both were playing a huge role on the battlefield.

The forces of the God Eye alliance could only defend or dodge the attacks from the Heaven Defying Faction warships.

In clashes between experts, a slight lack of attention could be fatal, much less the interference of a warship.

This wasn't something they could do anything about though. The firepower of the two warships was just too fierce. Normal experts wouldn't even dare to get close. One God King had tried to get close to warships, but they instantly became the focus of its numerous weapons. A few moments later, they were heavily injured and forced to flee.

But now, Zhao Feng had reached the rear of the battlefield. Everyone nearby couldn't help but guess at his motives.

"I wonder if he can disrupt the enemy warships."

"I hope so!"

Many of the members on his side felt a sliver of hope.

"Impossible! Even a top-class God King will find it hard to get close to those black-gold warships!" The Tongtai Zone's God King Heaven Dragon shook his head.

The upper echelon members of the Heaven Defying Faction on the black-gold warships had sensed Zhao Feng's movements, and all the arrays and weapon systems began to move, apparently preparing to give Zhao Feng a painful blow.

"Come!" Zhao Feng had a solemn but fearless expression. In fact, he was a little excited, his left eye trembling in seeming excitement as well.

Zhao Feng had only one goal at present: fight!

By fighting the strong, he could squeeze even more power out of the Dream God Eye. Ever since the battle started, he could clearly sense his Dream God Eye getting stronger and stronger.

And Zhao Feng was anxious to get stronger and stronger.

"Once I can use the full power of the Dream God Eye, I can join the God battlefield!" Zhao Feng said to himself.

The battlefield he fought on seemed vast and boundless, but the only battlefield that could truly influence the outcome of this battle was the God battlefield, and even though he was the Ninth God Eye, he could not participate in that battle, a fact which Zhao Feng accepted with great reluctance.

Whoosh!

Zhao Feng flew toward the Heaven Defying Faction warship in front of him.

“Fine! Since you’ve delivered yourself to death’s door, this old man will fulfill your wish!” Within the black-gold warship, the Left Protector snarled.

He and the Right Protector were both Protectors of the Heaven Defying Faction, but they were skilled in different aspects.

The Left Protector possessed immense strength and could use the Shaman arts and curses of the Ancient Shaman Race. Even God King Radiant Peak could only hold him down.

The Right Protector was a member of the Heaven’s Legacy Race and didn’t have a powerful combat bloodline. He only had his Eye of Samsara. He remained in the shadows, managing the Heaven Defying Faction and controlling its technology. He could only display the full extent of his abilities in the territory of the Heaven’s Legacy Race.

“Attack!” the Right Protector bellowed.

The other members of the Heaven’s Legacy Race in the warships began to follow the Right Protector’s orders. All the firepower of the two black-gold warships focused on Zhao Feng.

Quite a few of the experts in the God Eye alliance were instantly scared out of their wits by this sight.

The Heaven Defying Faction seemed to regard Zhao Feng very highly. This level of firepower was enough to instantly kill any other God King.

“Dream Dimension Expansion!”

Dream Origin energy poured out of Zhao Feng’s left eye. Using his Thought power, he quickly constructed a powerful Dream Dimension that he fused into the space around him.

Within the Dream Dimension, Zhao Feng’s strength was boosted in all aspects.

Swish!

Zhao Feng created several Primal Chaos Tribulation Lightning Swords around himself.

All those countless attacks would have to pass through the Dream Dimension to reach him. And in this dimension,

Zhao Feng’s strength surpassed common sense.

Boom! Plush!

Zhao Feng used his mind to control the Primal Chaos Tribulation Lightning Swords, and they flew around and obliterated all the attacks before they got close.

Zhao Feng was strong enough to kill a top-class God King, and within the Dream Dimension, his strength neared that of a God.

“Don’t stop!” the Right Protector roared.

Dream Dao energy was extremely taxing on one's soul. He was confident that Zhao Feng wouldn't be able to last for long.

Thwish ...

The barrage continued.

Zhao Feng turned the swords into a Primal Chaos Domain, the surging torrents of energy within rising up to constantly fend off the salvos. By the time the first wave of Primal Chaos Tribulation Lightning energy was broken, a second would be ready.

After a few moments, Zhao Feng wasn't showing any signs of stress, and he was now extremely close to the warships. "Use the medium-scale Destruction weapons!" the Right Protector ordered.

The large-scale Destruction weapons had the most power, but their area of effect was so great that they would strike the soldiers of their own side.

"They're ready! Fire!" the Heaven's Legacy Race members immediately responded.

Bzzz!

Several dozen metal holes appeared on the sides of the two warships, terrifying pulses of Divine Power emerging from within.

"Is it coming?" Zhao Feng focused, his Primal Chaos Domain roiling around him, ready to take on the attack. Hwoooooom!

White beams of light several dozen feet thick shot out from the warships, the Divine Power within them so pure that it was apparent that they were fired using supreme-quality God Crystals. These white beams of light had also been infused with the Destruction Laws.

Each beam of light had a strength close to that of an ordinary God King. Under the control of the Heaven Defying Faction' each beam was timed so that they would strike Zhao Feng simultaneously.

Without his Dream Dimension, Zhao Feng would have never dared to take this attack directly.

"Dreamification!" Zhao Feng's left eye once more sent vast amounts of Dream Origin energy into the surrounding world.

The Dream Dimension strengthened Zhao Feng while Dreamification weakened the enemy. These two produced a wondrous result when combined. The overlapping of Dreamification and the Dream Dimension Expansion turned the world around Zhao Feng into a dazzling paradise. It was hard to believe that this was the scene from a battlefield.

"Defend!" After using Dreamification to weaken the Destruction weapon attacks, Zhao Feng focused completely on defense.

First, he condensed the Primal Chaos Domain into a dark sphere around himself.

"Spatial energy!" Zhao Feng activated his Pseudo Ancestral Artifact, fusing its perfected Space Law into the Primal Chaos Domain to further strengthen its defenses.

Finally, Zhao Feng created a Primal Chaos Lightning Vortex.

This was the strongest defense Zhao Feng could create at present.

Booom! Bzzzz!

Within his layers of defense, Zhao Feng could feel everything shaking.

With his left eye, he could see what was going on outside. The immense Destruction weapon attack tore through his Dream Dimension. If it wasn't supported by a vast quantity of Dream Origin energy, it might have already crumbled away.

Boom! Hissss!

The defensive layer of the Primal Chaos Domain was slowly worn away, and the attack finally reached the Primal Chaos Lightning Vortex.

The Heaven Defying Faction's attack had already been weakened after punching through the first layers of defense, but it was still beginning to break through.

"Spatial Spirit Cloak!" Zhao Feng used another defensive ability of Heaven Ascendant.

Translucent silver spatial energy condensed into a barrier of light that engulfed Zhao Feng.

Within the warship, the Heaven Defying Faction members were all nervous. None of them knew if Zhao Feng could hold out against the attack or not. The spatial barrier around Zhao Feng was slowly being worn away, but their own attack was on the verge of being exhausted.

In the end, Zhao Feng emerged unscathed.

"How risky!" Zhao Feng sighed in relief.

He was able to block this attack primarily because of his seemingly endless amount of Dream Origin energy and the outstanding defensive capabilities of the Pseudo Ancestral Artifact.

"Blocked it?"

Many experts on the battlefield stared at Zhao Feng like he was a monster. There was no other person on the battlefield who could have blocked such a powerful attack!

"This brat... is there really nothing I can do to him?" The Right Protector scowled.

Zhao Feng possessed a God Eye, and the many battles and the stimulation from the other God Eyes only made him stronger and stronger. It probably wouldn't be long until another God Eye Deity emerged.

"Hmph, the Heaven Lord will handle him." The Right Protector's expression suddenly calmed down as he coldly grunted.

At this moment, Zhao Feng suddenly spoke; "I should give you a present in return! Eye of Heaven!"

Zhao Feng's Eye Intent coupled with his bloodline energy broke off from his body. A massive dreamy silver eye appeared, exuding an indescribable pressure.

"God Eye Duplication!" a soul voice cried out.

A vast cloud of dreamy mist gushed out of the silver eye.

Suddenly, a white light flashed within the rainbow mist. A white beam of light exploded out of the cloud. Its target was the black-gold warship holding the Right Protector.

Zhao Feng would have found it very difficult to duplicate such a powerful attack in the past, but he had a nigh endless supply of Dream Origin energy right now. Though it had taken a little longer to duplicate, he succeeded.

Within the warship:

“How could this be!?”

“This is bad!”

“What do we do?!”

Everyone trembled in panic at this sight, not knowing what to do.

None of them had expected for Zhao Feng to use this kind of attack. Their own offensive was being turned against them.

Although the black-gold warship possessed formidable defenses, it was still in an offensive state and could not shift so quickly.

Boom! Bang!

The white beam of light pierced through the heart of the warship. Various areas of the warships immediately exploded in fire and smoke.

“Wonderful!” The members of the God Eye alliance hadn’t expected this sort of reversal.

Zhao Feng didn’t just damage a small part of the warship. Rather, he had destroyed its core, essentially crippling the warship.

Back in the rear, upon one of the white warships, Yu Tianwu showed a sliver of surprise.

Whoosh!

Once the Eye of Heaven vanished and his soul returned to his body, Zhao Feng charged toward the damaged black- gold warship.

Devastating losses had been inflicted on the crew of this warship.

“Run!” The surviving members could guess that Zhao Feng would not let this chance go, so they immediately began to flee.

Thwish!

The Right Protector turned into a black stream of smoke and fled.

Although the Right Protector was also a top-class God King, battle was not his strong suit, nor would he ever battle with the current Zhao Feng.

“You can’t escape,” Zhao Feng’s cold and indifferent voice rang out. He could ignore the small fry, but he could never let someone as important as the Right Protector go.

King of Gods

Chapter 1563: Heavenly Dao Versus Heavenly Dao

The Right Protector’s mind shivered in fear, as he could see that Zhao Feng had long ago set his sights on him and was ignoring everyone else. Although he was not skilled in battle, he was still a top-class God King of the Heaven’s Legacy Race. However, he also knew that he was no match for Zhao Feng, so he chose to flee.

Swishswishswish!

Zhao Feng waved his hand, instantly creating several dozen Primal Chaos Tribulation Lightning Swords that flew forward.

The Right Protector made no attempt to dodge and simply fled as quickly as possible.

Boom! Bang!

Several swords pierced through his body, but the Right Protector had a Samsara Immortal Body, so his wounds quickly healed.

At the same time, the other warship of the Heaven Defying Faction shifted to a defensive state and moved over to save the Right Protector.

“Stay here, old turtle!” Zhao Feng coldly roared.

The insult had the Right Protector infuriated. As the Right Protector of the Heaven Defying Faction, he had never before been so humiliated. However, the Right Protector managed to maintain his rationality and continued to flee.

But Zhao Feng was much faster than the Right Protector, and there was a tiny moment where the Right Protector had slowed.

Thwish!

Zhao Feng rapidly approached the Right Protector.

“Intrusive Dream!”

His left eye quickly constructed a Dream Dimension. Zhao Feng’s left eye began to exude a fatal allure that the Right Protector found hard to guard against, and he slowed down.

“The Intrusive Dream has gotten even stronger!” Zhao Feng was elated.

The power of the Dream God Eye was getting stronger and stronger, and it didn’t strengthen just Realization and Dreamification, but the Intrusive Dream as well.

Zhao Feng only planned to disrupt the Right Protector for a few moments, but the power of Intrusive Dream far surpassed his expectations. Unfortunately, it was still not enough to directly draw the Right Protector into the Intrusive Dream.

“Primal Chaos Lightning Eye!” He had his left eye unleash his powerful eye-bloodline technique.

Kacrack!

A dark lightning sword brand exploded over the Right Protector’s head, sending vast amounts of energy into his body.

The Intrusive Dream had left the Right Protector’s mind in a muddled state, allowing the full might of the Primal Chaos Lightning Eye to blast away at his soul and body.

“Primal Chaos Lock!” Zhao Feng released vast amounts of Primal Chaos energy and brought his hands together.

The vast sea of Primal Chaos energy circled around the Right Protector, intent on engulfing him.

At this moment, the Right Protector came back to his senses.

Swish!

He threw out several pieces of metal that gleamed with mysterious Heaven’s Legacy words and radiated powerful energy.

“An array?” Zhao Feng focused his left eye, his Dream Origin energy circulating as he activated his Realization ability.

One of the metal pieces disappeared. Zhao Feng was capable of easily wiping out a small object like this that did not inherently possess much power.

“What?” The Right Protector was stunned.

The metal instruments he just threw out were tools for activating an array, but before they could completely activate, Zhao Feng made one of them vanish with a single glance. The array naturally could not fully activate now.

“Primal Chaos Lightning Eye!” Zhao Feng fired off another eye-bloodline technique from his left eye.

At the same time, the Primal Chaos Lock activated.

“Ah ...!”

By the time the Right Protector had recovered from the Primal Chaos Lightning Eye, he was trapped by the Primal Chaos Lock. His strength was now gradually being devoured.

Samsara Immortal Bodies were unkillable, but within the Primal Chaos Lock, they were powerless.

The Primal Chaos Lock was constantly devouring the energy of its prisoner. While the Right Protector could heal any damage done to his body, he could not recover his lost energy.

“Intrusive Dream!” Zhao Feng once more used this move. The weak Right Protector didn’t last long before he was drawn into the Dream Dimension.

“Where... where is this?” The Right Protector inspected his surroundings in confusion.

He was clearly in Zhao Feng’s Primal Chaos Lock a moment ago. Why was he now here?

At this moment, Zhao Feng appeared before him. However, this Zhao Feng seemed like a majestic and invincible being to the Right Protector.

Hisssss!

The area seethed as terrifying energy gathered around the Right Protector.

“How could this be?” The Right Protector was pressed to the ground and rendered incapable of movement, a fact that left him dumbfounded. In this strange dimension, Zhao Feng was incomparably strong, and he was somehow incapable of fighting back.

“Talk! Where is the last Space Ancestral Artifact fragment?” Zhao Feng coldly asked as he constantly squeezed the Right Protector’s body with his energy.

In the previous melee, Zhao Feng was constantly running around the battlefield in the hopes of using the reaction from the Pseudo Ancestral Artifact to find the last Space Ancestral Artifact fragment, but he was left disappointed.

“Haha, you’ll never find it in this lifetime!” The Right Protector laughed.

“It seems that you still don’t understand your situation.” Zhao Feng’s face turned cold. He stretched out a hand and placed it on the Right Protector’s head.

The Right Protector knew that Zhao Feng wanted to search his soul, but he suddenly discovered that he couldn’t even self-detonate.

A few moments later, Zhao Feng found out the answer, and his face turned cold.

“Hmph!” With a snort, he sent out a supreme energy that exterminated the Right Protector in the Dream Dimension.

In the outside world:

Boom! Bang!

The Right Protector’s exploded, leaving behind no trace. In this situation, not even a Samsara Immortal Body could recover.

“What’s the situation?” Pseudo Ancestral Artifact Heaven Ascendant couldn’t help but ask. It was only missing one piece before it became a complete Ancestral Artifact. How could it not be anxious?

“Destroyed!” Zhao Feng lowered his head and said.

The Heaven Defying Faction was not made of fools. They knew that Zhao Feng would try to repair the Pseudo Ancestral Artifact after obtaining it. Thus, the Heaven Defying Faction had destroyed the Ancestral Artifact fragment in its possession!

On the God battlefield, the Heaven Lord’s face turned grim upon seeing the situation down below.

Boom! Bang! Crash!

The Heaven Lord suddenly erupted with an aura that dominated the heavens, endless streams of golden-silver light painting the skies.

"This Ancient Race bloodline is basically like the real thing!" The Death God shivered.

Even if the Heaven Lord did not use the Heavenly Dao God Eye and relied only on the Ancient Race bloodline, the Death God would still be no match.

"Eat this attack!" A head of gold and silver gradually formed between the Heaven Lord's hands, radiating an ancient energy that shook the heavens.

The energy the Heaven Lord had gathered caused the fabric of space itself to tremble.

The God Eye Deities all turned grave upon seeing this. Not even they were sure if they could take this attack.

"Let's use it!" the Divine Punishment God solemnly said.

In one of the white warships, Liu Qinxin had a rather complicated expression. "Once we use this, not even my Destiny God Eye will be able to predict what will happen!"

Up until now, Yu Tianwu and Liu Qinxin had been using Destiny energy to secretly influence the battlefield, but once the God Eyes used their trump card, it would be very difficult to predict how the battle would develop.

"There's nothing to be done. This is the only way to defeat the Heaven Lord!" The Death God's pitch-black eyes were extremely grim.

Their God Eyes had already reached their limits while the Heaven Lord's Heavenly Dao God Eye could still grow. If they did not eliminate him now, when the Heaven Lord next appeared, he would be even stronger.

"If you all agree, then let's do it." Liu Qinxin sighed. Only by taking risks could they win.

"Fury of the Ancients!" the Heaven Lord roared as he pushed his hands forward. The gold and silver head flew forward, opening its mouth and giving its own enraged bellow.

As the Heavenly Dao God Eye activated, the head erupted with flaming hair. A moment later, the head's eyes began to crackle with lightning. A layer of thick rock appeared around the head, and the savage maw began to exude Destruction energy.

"Don't get too ahead of yourself!" The Divine Punishment God's eyes flashed with lightning as immense amounts of Origin energy flowed out.

The other God Eye Deities did the same. They formed spells with their hands, and their God Eye Origin energies began to gather above them, fusing together and creating a turbid cloud of energy.

The energy unleashed caused the entire Fan Universe to tremble in fright, and even the Heavenly Dao God Eye shivered.

"God Eye Fusion Art...!" The Heaven Lord's eyes widened in recognition.

"Tianwu, it was you!" The Heaven Lord grimaced as he gazed at the white warship in the rear.

"Correct. I also know this secret art," Yu Tianwu bluntly replied.

The God Eye Deities were all extremely agitated. They were not sure if gathering their God Eye Origins together would actually summon the supreme Ancestral Eye.

They had been fusing their Origin energies to attack in this battle precisely to prepare for this secret art. After all, Yu Tianwu only told the Gods about this secret art right before the battle, and they had never tried it out. In addition, Liu Qinxin could not take part in this fusion. After all, her Destiny God Eye had not fully recovered; if she joined in, she might adversely affect the fusion.

Kaboom!

An ethereal eye appeared in the turbid cloud of energy. A moment later, the Ancient Desolate Realm of Gods and the entire Fan Universe shook, with numerous parts of the universe simply exploding into bits.

“This is the most we can do!” The Divine Punishment God clenched his teeth.

The five God Eyes only performed this art with great difficulty, and each of them felt an immense pressure. And as this was their first time using the art, the fusion was not very stable.

Bzzzzz! Boom!

A gray-white beam of light shot out from that ethereal Heavenly Dao God Eye.

The gold and silver head was caught in the beam, and the various layers of energy around it were shorn away. In the end, even that Ancient Race energy began to fade away!

“This is the power of the Heavenly Dao Ancestral Eye!” The Heaven Lord was extremely agitated, his three eyes opened wide as he stared at the ethereal eye.

Bzzz!

The eye in the center of his forehead pulsed in excitement.

“Seize!” the Heaven Lord bellowed, the Heavenly Dao God Eye madly turning. The eye began to exert an indescribable pull.

These eyes both had the power of the Heavenly Dao, so he could naturally use his eye to absorb the power of the other.

Fwoosh!

As this was the first time the five Gods had used his art, they found it difficult to control this power. The Heaven Lord managed to absorb a significant amount of the leaked Heavenly Dao energy.

A look of extreme pleasure appeared on the Heaven Lord’s face as he sighed.

One had to realize that he had only become proficient with the Heavenly Dao God Eye over several years of combat. It was naturally difficult for the Gods using the God Eye Fusion Art to control the Heavenly Dao energy of their own Heavenly Dao God Eye. His Heavenly Dao God Eye could use this chance to absorb more energy.

“Hmph!” The five God Eye Deities realized this, but they were slowly beginning to gain control over this power.

Of course, the Heaven Lord's Heavenly Dao God Eye was not the only one to be stimulated by this sight. Down below, Zhao Feng's left eye was pulsing in pain as a vast torrent of Dream Origin energy poured out of his God Eye Dimension.

Chapter 1564: Complete Ancestral Artifact

The five God Eye Deities were using the God Eye Fusion Art to create an even more powerful Heavenly Dao God Eye.

But although it was more powerful, it was also less stable. After all, the five Gods created it through an art while the Heaven Lord had created his eye by actually absorbing the energy, thus making his eye permanent.

Everyone for a radius of tens of millions of li was awed by this monstrous power. The heavens and earth cracked while the sun and moon were thrown into disarray. The surrounding region had been completely devastated.

"A power even greater than the Heaven Lord's?" The Left Protector was shaken.

On the white warship, Liu Qinxin and Yu Tianwu observed the distant battle.

"This is part of the Heavenly Dao Ancestral Eye's power! It should be enough to deal with Yu Tianshu," Yu Tianwu muttered to himself.

As these two Heavenly Dao God Eyes radiated their power, Liu Qinxin's Destiny God Eye began to exude immense amounts of Destiny energy, and its aura was growing stronger and stronger. It was obvious that the two Heavenly Dao God Eyes were also stimulating Liu Qinxin's God Eye.

But even so, the emergence of two Heavenly Dao God Eyes had thrown the Fan Universe and the course of destiny into complete disarray. Not even the Destiny God Eye could predict what would happen next.

In the sky:

"The power of the Heavenly Dao!" The Heaven Lord was ecstatic as his Heavenly Dao God Eye pulsed. The energy created by the five Gods was extremely familiar to him, and he was anxious to obtain it.

"Swallow!" The Heaven Lord pushed his own Heavenly Dao God Eye to absorb the powerful and unknown energy of this other Heavenly Dao God Eye.

As this was their first time using this art, the five Gods could not control the energy very well. The Heaven Lord used this unfamiliarity to strengthen himself.

Bzzzzz! Kaboom!

Even though the two Heavenly Dao energies had yet to clash, their combined presence had already cast the surrounding world into shadow. In the battlefield down below, everyone trembled in fear before this supreme energy, the lower-ranked experts simply dropping to the ground in subservience.

"Go!" God King Radiant Peak ordered.

The battle between the Gods was far too terrifying. If one got too close, they might be instantly slain without even knowing why.

“Retreat!” On the other side, the Left Protector ordered his own forces to withdraw.

As both sides withdrew, Zhao Feng was left alone on the chaotic battlefield.

Zhao Feng stood still, his left eye exploding with dazzling light.

Bzzz!

The revolving left eye released a dreamy vortex of light that caused the space around Zhao Feng to scatter and vanish like it was fog.

At this moment, the energy being released by Zhao Feng’s left eye made even God King Radiant Peak and the Left Protector tremble in fear, not daring to get close.

“Brother Feng!” Zhao Yufei couldn’t help but call out.

Both forces had withdrawn, but Zhao Feng appeared to be unaware and continued to stand there.

“Don’t worry about him! Zhao Feng’s Ninth God Eye is about to truly appear. When the time comes, he might even be able to participate in the battle of Gods!” A hint of delight could be seen on God King Radiant Peak’s surprised face.

Far in the distance, the two Heavenly Dao God Eyes were in a standoff, the world around them crumbling into a void. This void was still brimming with dreadful energy that would kill ordinary God Lords that got too close.

“Divine Punishment, you take control while the rest of us assist you!” the Spacetime God called out.

The five of them trying to control this power at the same time would only make things messier. It was better to have one person take control while the others supported.

They could not allow the Heaven Lord to continue devouring the Heavenly Dao energy. They didn’t come here to bolster the Heaven Lord’s power, but to kill him.

“Okay!” The others agreed.

After a short period, the five Gods managed to take control of their Heavenly Dao God Eye. The speed at which the Heaven Lord devoured the Heavenly Dao energy immediately slowed.

“Heaven Lord, you die today!” the Divine Punishment God roared.

The ethereal eye above them seemed to stare at the Heaven Lord’s Heavenly Dao God Eye.

“The outcome isn’t decided yet!” The Heaven Lord’s face darkened, a hint of madness appearing.

He had absorbed a significant amount of Heavenly Dao energy, and he could sense that his Heavenly Dao God Eye had gotten even stronger.

Although the five God Eye Deities had created their Heavenly Dao God Eye, which made him rather afraid, the Heaven Lord was confident that he was far more proficient in using Heavenly Dao energy.

“Kill!” the Divine Punishment God roared.

The dark and blurry eye unleashed a soul-shaking energy. The powers of Life, Death, Spacetime, Myriad Forms, and Divine Punishment shot forward.

“Hmph!” The Heaven Lord snorted and activated his own Heavenly Dao God Eye.

Boom! Bang!

A twisted light of destruction shot forward, containing a power that could destroy all laws and principles. The power unleashed by the five God Eye Deities was swiftly shattered.

This immense power was something the Heaven Lord only discovered after spending some time researching his newly-fused Heavenly Dao God Eye. He was confident that the five God Eye Deities did not understand it.

As expected, the five God Eye Deities could only have their Heavenly Dao God Eye release powerful attacks to block the Heaven Lord’s strike.

Boom! Bang!

The Heavenly Dao God Eye formed by the five God Eye Deities was struck by a mighty strike and swayed. A large amount of Heavenly Dao Origin energy spilled out, causing the spatial fabric of the Fan Universe to tremble.

“Swallow!” The Heaven Lord had his eye absorb this Heavenly Dao energy.

“This scoundrel....” The five God Eye Deities scowled.

Although they had created their own Heavenly Dao energy, their lack of skill with it allowed the Heaven Lord to get the upper hand.

But while they weren’t as proficient in using the Heavenly Dao God Eye, the five God Eyes seemed to be more efficient. Gradually, the five God Eye Deities became accustomed to the Heavenly Dao God Eye.

“As expected of the God Eyes, they’re very fast when it comes to learning how to use this power.” The Heaven Lord became cautious.

“Die!” The five God Eye Deities had their Heavenly Dao God Eye unleash a gray-white wave of energy that swept forward.

“Ancient Divine Fist!” The Heaven Lord activated his Ancient Race energy, and a fist of supreme energy hurtled forward.

The Heavenly Dao God Eye turned, boosting the energy fist in various ways. The gold and silver fist became cloaked in wind, fire, and lightning, and it began to radiate a Destruction energy that viewed the entire world with contempt.

Boom! Bang! Crash!

The two energies clashed, sending a forbidden storm ripping through the world.

The two sides were battling in the Qingling Zone. The Qingling Zone at this moment was falling apart, and countless low-star factions were wiped out in this calamity.

The storm of energy continued to sweep out, affecting the entirety of the Ancient Desolate Realm of Gods.

Hwoooooom!

The battle of the five Gods versus the Heaven Lord continued. In the distance, among the armies of the Heaven Defying Faction and the God Eye alliance, only the God Kings could vaguely see what was going on. The others could only hide behind defensive barriers.

Within the white warship:

“Good! The five God Eye Deities are slowly getting the upper hand!” Liu Qinxin, with her Destiny God Eye, was able to clearly make out the battlefield.

The Heavenly Dao God Eye formed by the five God Eye Deities was definitely stronger than the Heaven Lord’s. The Heaven Lord only had a minor advantage at the beginning because of his familiarity with Heavenly Dao energy, but this was not important. As the five God Eyes became more proficient with this power, the Heaven Lord began to lose.

Boom! Bang!

A chaotic wave of gray-white energy shattered the Heaven Lord’s attack and slammed into his body. The Heaven Lord’s body was almost instantly wiped out, only a tiny portion left.

“Restore!” The Heaven Lord pushed the power of Samsara Origin to its limits, and his body was rapidly restored.

“This scoundrel is truly difficult to deal with!” The Divine Punishment God sighed.

Not even the Heavenly Dao energy formed from five God Eyes could kill the Heaven Lord for now. Although they had the upper hand, the Heaven Lord was far too difficult to kill. Moreover, they could also sense that the Heaven Lord was occasionally taking the chance to absorb their Heavenly Dao energy.

The Heaven Lord also understood that his opponents’ energy was stronger than his, so he relied on his Ancient God- Devil Body and Samsara Immortal Body to take their attacks and absorb some Heavenly Dao energy. Once he became strong enough, he could turn the tides.

“If he can devour our Heavenly Dao energy, can we devour his?” The Death God had an idea.

The Heaven Lord’s greatest advantage was his Heavenly Dao God Eye. If they could absorb its energy, what else would the Heaven Lord have?

The five Gods gradually began to grasp this skill.

“Swallow!” The five Gods had the Heavenly Dao God Eye exert a terrifying pull. All other energies in the area shattered. Only the Heavenly Dao energy was collected.

You old rascals, you're looking down on me too much!" The Heaven Lord instantly increased his power, his Heavenly Dao God Eye exerting its own powerful pull.

"This scoundrel was hiding his strength!" The Divine Punishment God was alarmed.

The Heaven Lord, by absorbing their Heavenly Dao energy, had been making his Heavenly Dao God Eye stronger and stronger, but the Heaven Lord didn't use the full extent of this new power. Instead, he pretended to be weak, hoping to absorb more Heavenly Dao energy until he had enough to completely turn the tides.

This realization had the five Gods' minds in turmoil. This Heaven Lord was truly too crafty. The slightest negligence would have them falling into his trap.

Kaboom!

The two Heavenly Dao God Eyes erupted with invincible strength, both of them pulling at each other's Heavenly Dao energy.

In this contest of Heavenly Dao energy, the Fan Universe quaked. The zones around the Qingling Zone began to shatter, and it seemed like the end of days had come.

Zhao Feng was closest to this contest of power.

As time passed, the stabbing pain in his left eye began to fade, but the God Eye's evolution was not over. Within the God Eye Dimension, an endless sea of Dream Origin energy seethed.

This Dream Origin energy surged out of his left eye and turned his surroundings into a dreamy paradise. It was just that the battle of Heavenly Dao God Eyes was so shocking and frightening that no one noticed this phenomenon.

"Is this the power of the Dream God Eye?" Zhao Feng felt like his mind was invigorated.

This Dream Origin energy wasn't just working on his left eye, it was seeping into every part of his body. He felt as if his left eye was exuding a supreme strength – the strength of a God. Everything seemed possible.

"But Dream energy doesn't seem to be much good for offense." Zhao Feng began to think.

Of course, even without a powerful offensive nature, it could still be incredibly useful.

"I wonder if it can repair Ancestral Artifacts...!" Zhao Feng suddenly had a shocking idea.

Ancestral Artifacts were born from the Dao of the universe and were completely unique. If a piece was missing, an Ancestral Artifact would never be complete.

But Zhao Feng didn't care, and he immediately went to try.

The power of Realization activated, focusing on the idea. The Dream Origin energy within Zhao Feng's body began to rapidly vanish.

Meanwhile, Heaven Ascendant began to shine with a gorgeous light.

“What’s going on?” Heaven Ascendant was shaken. It sensed an energy that was both extremely powerful and extremely intimate working on its body.

Amid its shock and confusion, Heaven Ascendant suddenly sensed its power leap to a new level.

“Ancestral Artifact!?” Heaven Ascendant was stunned and flabbergasted.

It had returned to being a complete Space Ancestral Artifact!

King of Gods

Chapter 1565: Pseudo Ancestral Eye

As Zhao Feng sensed the power of the perfected Space Law, he knew that he had succeeded.

“I can’t believe this!” Zhao Feng was internally quite shocked.

He was just curious to see if it would work, knowing that his God Eye’s power was not great for attacks. He didn’t expect the Pseudo Ancestral Artifact, missing its last piece, would actually be made whole.

At Zhao Feng’s level, he probably could have succeeded in duplicating an Ancestral Artifact fragment if he had it in hand, but each Ancestral Artifact fragment was different, and Zhao Feng had never even seen the missing piece before. But the power of Realization still worked.

Moreover, as Zhao Feng’s God Eye was in the middle of evolving, he sensed that this didn’t cost him much.

“Just what level has my strength reached?” Zhao Feng found himself rather curious.

He found it impossible to know if he could use the entire strength of the Dream God Eye. If he could, then the Dream God Eye together with the Space Ancestral Artifact would be enough to make him a God.

But Zhao Feng continued to feel like there was a power in his Dream God Eye that he could not draw out.

“No rush. I already have a complete Ancestral Artifact, so I’ll first comprehend the Space Law inside it so that I become a God King!” Zhao Feng was in no rush.

No one noticed Heaven Ascendant turning from a Pseudo Ancestral Artifact to an Ancestral Artifact. Their attention was completely focused on the battle between the Heavenly Dao God Eyes.

Zhao Feng closed his eyes and continued to stand still, but in actuality, he used his Dream God Eye to construct a Dream Dimension. His mind then entered the dream to cultivate.

With a complete Space Ancestral Artifact, Zhao Feng was extremely confident in his ability to bring his Space Law to the perfected stage.

And a God King with a God Eye was a God. Once Zhao Feng became a God King, he would become a God Eye Deity!

In the boundless void, the Heaven Lord was still in a stalemate with the five God Eyes.

The Heavenly Dao God Eye in the center of the Heaven Lord's brow was staring at the Heavenly Dao God Eye above the five Gods. The Heavenly Dao energies of these two God Eyes were fiercely clashing and devouring each other.

Although there was no grandiose clash of energies, the space between the two Heavenly Dao God Eyes was a forbidden zone. Any energy besides Heavenly Dao energy could not exist in this region, and if a God King entered, they would instantly be turned to dust.

The power of the two Heavenly Dao God Eyes was far above that of Gods. This was precisely why the Bright Sun God, Celestial Sword God, and Sikong Dao had not intervened in this battle of Heavenly Dao God Eyes. There was also another factor; it appeared that the God Eye Deities had the upper hand.

"If this scoundrel hadn't been devouring our Heavenly Dao energy and saving it up, he would have already lost!" The Divine Punishment God was rather angry.

Of course, the Heaven Lord was only able to devour Heavenly Dao energy because they were using the Heavenly Dao God Eye for the first time and weren't proficient in operating it. Otherwise, if they had used this move from the start, the Heaven Lord would have been finished.

"Do the five of us really have to be afraid of him?" The Death God coldly snorted. Of the Eight Great God Eyes, he hated the Heaven Lord the most. Samsara and Destruction had both died to this man.

With this Heavenly Dao God Eye formed from their five energies, they were certain to win.

"I worry that it's not that simple!" The Life God was worried. The fact that the Heaven Lord could resist the five of them was the finest proof of this.

The Heaven Lord continued to hold some sort of secret.

And now, the Life God suddenly realized that the Heaven Lord's aura had begun to change.

"I forgot to tell you – the original body of the Heavenly Dao Ancestral Eye was the Ancient God-Devil Body. It was called the Ancient Ancestral God. Thus, the Ancient Race bloodline and the Heavenly Dao God Eye can boost each other to a certain extent." The Heaven Lord suddenly gave an eerie smile.

"Is that so?" The God Eye Deities were only a little surprised to hear this.

In their minds, the holder of the Heavenly Dao Ancestral Eye would be an invincible existence, so it would be quite normal if they also had an Ancient God-Devil Body.

The Heaven Lord's words also answered one of their questions, telling them why the Heaven Lord's Ancient God-Devil Body was now strong enough to defeat a single God Eye on its own.

But just when all of them thought that the Heaven Lord was just casually boasting, the Heaven Lord's Heavenly Dao God Eye changed.

The eight differently-colored eyes began to gather around the center, and the Heavenly Dao God Eye began to exude a purer energy, one that reigned as God over the world.

The God Eye illusions behind the Heaven Lord also changed, turning blurry and faint while the eye in the center became clearer. That gray-white and turbid eye had many blurry inscriptions within it that shifted according to some mysterious rule.

Upon glancing at this eye, one would feel tiny and insignificant, that cold, emotionless, and intimidating energy making anyone feel tiny and helpless.

“Haha...” The Heaven Lord began to laugh, his forehead erupting with a supreme Heavenly Dao energy that shook the heavens.

“What’s going on?” The Divine Punishment God, alarmed, put all his strength into controlling the Heavenly Dao God Eye above him.

“Why did his eye suddenly get stronger!?”

“We’re gradually losing ground!”

The other God Eye Deities were also shocked. The Heaven Lord’s Heavenly Dao energy was getting stronger and stronger, and he was gradually beginning to devour more and more of their energy.

On the white warship, Liu Qinxin and Yu Tianwu grimaced and began to panic.

“The Heavenly Dao God Eye formed by the five God Eye Deities not only strengthened the Heaven Lord’s Heavenly Dao God Eye, it also stimulated its evolution and fusion...!” Liu Qinxin’s eyes widened.

The God Eyes could boost each other’s powers, and the same principle applied to the Heavenly Dao God Eye. Although the Heavenly Dao God Eye of the five Gods was stronger, the Heaven Lord’s Heavenly Dao God Eye was more complete and more evolved. The stimulation had furthered its fusion.

“This eye has already surpassed the domain of God Eyes. It wouldn’t be too excessive to call it a Pseudo Ancestral Eye!” Yu Tianwu appeared calm, but inside, he had already begun to panic.

He wasn’t the only one. The others spectating the battle, such as God King Radiant Peak, God King Heaven Dragon, and God King Charflame, had turned frantic.

This battle had attracted the attention of all the top-class experts of the Ancient Desolate Realm of Gods. This battle was one that would decide the fate of the realm!

“We can’t lose!” the Divine Punishment God bellowed. As a God Eye, he could not permit himself to lose to someone who had seized the eyes of others and fused them into a Heavenly Dao God Eye.

But at this moment, it was no longer proper to call the Heaven Lord’s eye a Heavenly Dao God Eye. The eye at the center of his brow was simply too powerful. God Eyes simply couldn’t compare. It was truly better to call it a Pseudo Ancestral Eye.

“There are five of us! How can we lose?!”

The other God Eye Deities were also enraged, and they put all their energy and attention onto pushing their God Eyes to their limits.

“Haha, just submit!” The Heaven Lord found it hard to conceal his joy. The evolution of the Heavenly Dao God Eye had allowed him to reverse the unfavorable situation.

Kaboom!

A wave of mysterious and turbid light rippled out from his brow. Wherever it went, it scattered and extinguished all other kinds of energy.

When it reached the eye above the five Gods, it dealt a massive blow. The five Gods felt their heads buzz like they had been struck by a hammer.

But the five God Eye Deities were not that easy to deal with. The Heaven Lord was not so powerful that he could directly defeat them.

Liu Qinxin's voice rang out in their minds. "We are God Eyes, so we can grasp the power of the Heavenly Dao God Eye faster than the Heaven Lord. Since the Heaven Lord's God Eye can evolve, so can ours!"

These words immediately changed the mood of the five God Eye Deities, and their eyes shone with resolve.

At the same time, Liu Qinxin sent her Destiny Origin energy drifting out of the white warship.

Liu Qinxin's Destiny God Eye wasn't fully awakened before, so she didn't join in the God Eye Fusion Art, but after the continuous stimulation of the two Heavenly Dao God Eyes, she was now able to use the full power of the Destiny God Eye.

Bzzz!

The faint white Destiny Origin energy floated next to the Heavenly Dao God Eye above the five Gods.

As this was not a direct fusion, Liu Qinxin did not dare to have her Destiny Origin energy mingle with the others. This would possibly lead to the exact opposite effect. But the five Gods could use the Heavenly Dao God Eye to devour her Destiny Origin energy!

The five Gods understood Liu Qinxin's intent and began to focus on devouring the Destiny Origin energy.

"Don't even think about it!" The Heaven Lord's face chilled.

He didn't think that he would lose to the six God Eyes, but nothing was absolute, and he would not permit any factor that could lead to his defeat.

Thwish!

A gray-white light shot out of the Pseudo Ancestral Eye, transcending space to appear from the other side.

"Scram!" the Divine Punishment God bellowed.

Their Heavenly Dao God Eye unleashed an energy that could destroy all laws and principles, and it clashed with the gray-white light.

The Bright Sun God, Celestial Sword God, and Sikong Dao also took action, using their strongest moves to stop the Heaven Lord. Fire, swords, and fists of energy shot forward.

Hwoooooom!

A thunderous explosion resounded through the heavens.

Although the Pseudo Ancestral Eye was powerful, the Heavenly Dao God Eye it faced was formed from five God Eye Deities, so it was strong enough to take one or two blows.

At the same time, the blurry pupil of the Heavenly Dao God Eye focused on the Destiny Origin energy and began to absorb it. The massive Heavenly Dao God Eye began to buzz and hum, the fog around it beginning to radiate strange divine light.

“It’s getting stronger....” The Heaven Lord’s eyes dimmed.

Fighting so many God Eye Deities at once truly was not easy. It was difficult for them to defeat him, but also for him to defeat them.

Bzzzz!

The blurry eye within the dark fog became clearer, its gray-white pupil beginning to manifest countless tiny inscriptions. It exuded a cold and emotionless aura, one that was impervious to all energy and that forced all others into submission.

The five God Eye Deities sensed the difference in this energy – that its strength had risen to a new level.

The Bright Sun God and the other two Gods could only retreat and watch the battle from a distance.

And while Zhao Feng was still cultivating in his dream, he was also paying attention to the shift in the battle.

“How terrifying! I wonder if I can actually participate in the battle even after I become a God.” Zhao Feng was stunned, but then his lips curved into a smile.

With his Dream God Eye stronger, his comprehension abilities had also increased. Everything was proceeding smoothly, and he was already infinitesimally close to the perfected stage of his Space Law.

Chapter 1566: A Plan to Turn the Tables

“What powerful energy!” As the Divine Punishment God felt the power of their Pseudo Ancestral Eye, he felt he was capable of anything and everything.

Fortunately, the Divine Punishment God had a frank and upright personality, and he was facing a powerful foe. Otherwise, even someone like him would have been influenced by this power.

The other four Gods also felt this power.

“I wonder just how powerful the real Heavenly Dao Ancestral Eye is.” They couldn’t help but sigh in wonder.

But right now, eliminating their enemy was the most important thing. The Heaven Lord was far too crafty. Even if they had the upper hand, they couldn’t let their guard down.

“Kill!” the Divine Punishment God bellowed as he wielded the power of their Pseudo Ancestral Eye.

Incredible energy emerged from the dark and turbid eye, and the eye itself began to transform, becoming more imposing, mysterious, and unreachable. It was like the god of the world, its very presence inspiring respect and awe.

Boom! Whoosh!

The eye became stronger and stronger, and gray-white energy seethed around it. A massive gray-white figure began to take form in the surrounding void, exuding limitless majesty.

This figure extended a hand, and suddenly, the hand crossed space to descend on the Heaven Lord's head.

Kaboom!

Space collapsed as all energies were obliterated. This hand was the hand of the heavens, each groove on it like a law or rule that could decide all, stripping away the will to resist.

The God Kings viewing this battle from a distance felt their legs tremble and a desire to get down on their knees.

"I am the true inheritor of the Heavenly Dao Ancestral Eye!" The Heaven Lord's face turned vicious, his three eyes gleaming with a fearless and wicked light.

Boom! Bang!

A powerful Heavenly Dao energy erupted from the Heaven Lord's eye. Like lava erupting from a volcano, the energy slammed into the ethereal hand. The two supreme energies clashed.

Kaboom! Crack!

The space around the impact crumbled and cracked.

"Hmph! In the end, your power can't compare to that of six God Eyes." The Divine Punishment God was calm and dignified as he coldly spoke.

"It's still too early to decide anything!" The Heaven Lord revealed an insane smile.

His body gradually became larger, his Ancient Race bloodline getting stronger and stronger. At the same time, the chaotic Heavenly Dao energy radiating from his eye gradually gathered together into a massive arm.

Boom! Bang!

The two hands slammed together with a terrific boom.

"What? This scoundrel...!" The Death God was startled.

As God Eyes, they were better able to grasp this higher level of power, but the Heaven Lord also had a powerful learning ability. Perhaps this was due to his Heaven's Legacy Race blood. He also had a far greater desire and resolve for victory.

“No one can defeat me!” The power of the Heaven Lord’s central eye was getting stronger and stronger, and his body was getting larger and larger, like that of a God-Devil emerging from the original chaos of creation.

“Hurry and kill him!”

The six God Eyes were deeply afraid of the Heaven Lord.

The Divine Punishment God once more had the Pseudo Ancestral Eye unleash a powerful attack. The gray-white hand became larger and larger as its power increased.

Boom! Bang!

The Heavenly Dao energy gathered by the Heaven Lord was obliterated by this massive hand.

The Heaven Lord shot backward as he punched at the God Eye Deities.

“Defend!” The Divine Punishment God gathered up Heavenly Dao energy.

To his right, a gray-white wall formed and divided this part of the world away from the rest.

Boom! Bang!

The supreme attack of the Ancient Race bloodline slammed into the wall and fell apart like it was made of tofu.

“This battle ends here!” The Divine Punishment God stared at the Heaven Lord.

The five God Eye Deities began to slowly move, unleashing powerful attacks as they approached the Heaven Lord.

Although the Heaven Lord was getting stronger and stronger, he still found it difficult to overcome six God Eye Deities. Boom! Bang! Crash!

In an immense explosion, the Heaven Lord flew back tens of thousands of li. His tattered body was quickly restored by the power of the Samsara God.

“These old rascals...!” His face was rather ghastly pale. The power of six God Eye Deities was just too strong. Even escape would be difficult.

Suddenly, a strange pulse of energy from far in the distance drew everyone’s attention.

Boom!

Zhao Feng’s body exuded the powerful energy of a perfected Law, and his left eye slowly turned, radiating boundless rays of dreamy light. His strength was gradually rising, causing all the God Kings watching from the distance to tremble in shock.

“Has he become a God King?” God King Radiant Peak was delighted.

“Wonderful! Brother Feng has the Ninth God Eye. If he can join the battle...” Zhao Yufei was extremely excited.

The six God Eye Deities and the members of the Sage Faction also glanced at Zhao Feng.

Originally, someone becoming a God would have shaken the entire realm, and no one would have disregarded such an event. However, the six God Eye Deities and the Heaven Lord had gotten accustomed to the power of their Pseudo Ancestral Eyes. To them, the power of a God was nothing to be surprised about anymore and could even be described as weak.

It was merely Zhao Feng's status as a God Eye that earned a little of their attention.

"Okay!" Zhao Feng suddenly stood up and scanned the six God Eye Deities and the Heaven Lord.

He had finally become a God King and thus a God Eye Deity.

Thwisch!

His body flashed as he began to approach the God Eye battlefield.

The Heavenly Dao energy is so powerful!" As he got closer to the God Eye Deities, Zhao Feng felt the invisible suppression of the Heavenly Dao energy.

Zhao Feng felt that his perfected Space Law was greatly weakened and that his Primal Chaos and Tribulation Lightning energies could not be used to their full extent.

Zhao Feng was originally planning to join the God battle, but this sensation put a damper on his plans. But as he got closer to the Pseudo Ancestral Eyes, his Dream God Eye became more excited.

Suddenly, Zhao Feng had an idea and covered himself in Dream Origin energy.

Zhao Feng immediately noticed that his Dream Origin energy canceled out Heavenly Dao energy, and the suppression he felt gradually began to fade.

The five God Eye Deities were startled by this. For some reason, their hearts thumped in fear.

"This brat..." The Heaven Lord's expression turned grim.

In his mind, Zhao Feng was definitely not in the same group as the Eight Great God Eyes. This was because the Heavenly Dao Ancestral Eye was formed through the fusion of the Origin energies of the Eight Great God Eyes.

He just needed to seize the eight Origins to fuse together the Heavenly Dao Ancestral Eye. The Ninth God Eye was not needed. Thus, after creating the Heavenly Dao God Eye, the Heaven Lord had stopped targeting the Ninth God Eye.

"There is no Ninth God Eye, so then his eye..."

The Heaven Lord was sure that there were only Eight Great God Eyes. Though the legends of the Ninth God Eye existed, he believed that the legends were false. But what was Zhao Feng's eye then? A fake?

"Zhao Feng, work together with the other three Gods to disrupt the Heaven Lord!" the Divine Punishment God bellowed.

In his view, Zhao Feng's participation was not necessary. After all, they had the firm upper hand now. Besides, the power of a God seemed rather weak compared to the power of the Pseudo Ancestral Eye.

Thus, he decided to have Zhao Feng work together with the other three Gods. Four Gods together would probably be able to have some effect against the current Heaven Lord.

“Okay!” Zhao Feng joined with the other three Gods and began to disrupt and suppress the Heaven Lord.

It was too difficult to wound the Heaven Lord, but disrupting his actions was possible.

Boom! Bang!

As Zhao Feng’s group began to move, the God Eye Deities began their attack. The terrifying energy they unleashed made the hearts of Zhao Feng and the other three Gods tremble in fear.

“Spacetime Barrier!”

“Celestial Moat Sword!”

Zhao Feng and the others used their strongest skills to disrupt and hinder the Heaven Lord.

“You...!” The Heaven Lord, his face pale and grim, scanned his surroundings.

He was on the back foot, and when facing this powerful Pseudo Ancestral Eye, he didn’t even have a hope of running.

But he still did not give up. In this perilous moment, his mind was whizzing as it tried to find a plan that could turn the tables.

Suddenly, the Heaven Lord had a flash of insight. A clue suddenly emerged from his memories. He had initially ignored this clue, but now that he thought about it, this was a critical piece of information.

Boom! Bang! Crash!

At this moment, the Heavenly Dao energy formed from the power of six God Eye Deities approached. Unable to contend with it, the Heaven Lord retreated again and again.

Zhao Feng’s group continued to launch attacks from an extreme distance to disrupt the Heaven Lord.

“I’ll make a bet!” The Heaven Lord’s face was grim and crazed.

“Let me expose your true face!” the Heaven Lord bellowed as he charged at Zhao Feng.

“Oh no!” Zhao Feng paled. The Heaven Lord suddenly staring at him was a suffocating sensation.

The other three Gods paled and retreated. They knew that the Heaven Lord was powerful, so they had been keeping very far away. In addition, they believed that since the Heaven Lord’s target was the Eight Great God Eyes, he wouldn’t attack them.

Zhao Feng joined the other three Gods in retreating. With his perfected Space Law, Zhao Feng was instantly able to flee one million li.

The six God Eye Deities moved to stop the Heaven Lord.

Boom!

The ethereal figure hanging above the Pseudo Ancestral Eye swung its arm, and a massive arm instantly placed itself in the Heaven Lord's way.

"Break!" the Heaven Lord roared, turning his central eye and unleashing a frenzied power.

"Not good! He's burning his Heavenly Dao Origin!" The six Gods were alarmed.

Although they had pushed the Heaven Lord into desperate straits, the Heaven Lord had never once burned so much of his Heavenly Dao Origin.

Boom! Bang! Crash!

The massive arm was instantly blown apart, and a white-robed figure flew through it.

"Shift!" The Heaven Lord's central eye focused on a few grains of dust one million li away.

Suddenly, the Heaven Lord appeared where those grains of dust were while the grains of dust appeared where the Heaven Lord was. The two of them had silently switched places.

The Heaven Lord was now extremely close to Zhao Feng.

"Run!" Zhao Feng activated his perfected Space Law and his Ancestral Artifact and turned into a blur.

"Die!" The Heaven Lord punched with both fists, even using his Heavenly Dao God Eye to bolster the strength of his Ancient Race bloodline attacks.

Ordinary Gods were helpless against the Heaven Lord in his current state.

Thumpthump! Thumpthump!

The power of the Ancient Race bloodline, the Heavenly Dao energy, and the unprecedented danger caused Zhao Feng's left eye to madly pulse, the stabbing pain almost making him fall unconscious.

Fwooosh!

A moment later, Dream Origin energy howled out of his left eye, wrapping around Zhao Feng as if preparing to save him.

Chapter 1567: Defeat?

In a weakened state, the Heaven Lord had decided to burn his Heavenly Dao Origin to attack Zhao Feng. This was something that the six God Eye Deities had not predicted.

The intense danger of the Ancient Race bloodline and the Heavenly Dao energy stimulated the Dream God Eye to release a tsunami of Dream Origin. Zhao Feng was instantly engulfed in Dream Origin energy. He appeared like a crystal of dreamy hues, shining with the world's most gorgeous colors.

The Heaven Lord stared at Zhao Feng.

What he remembered a moment ago was an intelligent report he had received on Zhao Feng. In this report, it was noted that Zhao Feng had used the abilities of his eye to neutralize the God Eye Fusion Art of eight God Eye descendants in Heavenly Demon Hall.

It sounded rather absurd, but if it was true, it could be used to resolve his crisis.

In addition, the Heaven Lord always felt that Zhao Feng's God Eye was concealing some sort of incredible secret. His own eye had already evolved to the Pseudo Ancestral Eye level, capable of absorbing even the strongest Heavenly Dao energy. Although he still didn't know what kind of power it was, perhaps it could also absorb the power of Zhao Feng's eye.

At this moment, as Zhao Feng's left eye erupted with incredible amounts of Dream energy, the Heaven Lord was even more sure that something wasn't right.

On the other side, the six God Eye Deities were also focused on this scene.

They always had their questions about Zhao Feng's Ninth God Eye. Although they admitted that Zhao Feng was a God Eye, they had never considered him as belonging to the same group as the Eight Great God Eyes. And now that they saw the immense ball of dreamy light around him, they inexplicably felt uneasy.

"Feng..." Liu Qinxin revealed a nervous expression.

Right when the battle began, she realized that victory in this battle did not rest on the Eight Great God Eyes, but on Zhao Feng. However, Liu Qinxin wasn't sure about the exact details.

Now that the Heaven Lord was attacking Zhao Feng, how could she not be nervous?

But there was nothing she could do.

"That shouldn't be a God Eye...!" The Divine Punishment God was startled.

The Heaven Lord's energy fist slammed into the dreamy light.

Fwoosh!

The Dream Origin energy became incredibly agitated, like a slow-flowing stream suddenly transforming into a massive wave.

As the two energies clashed, they actually neutralized each other.

"How could this be?" The Heaven Lord was shocked.

An attack from his Ancient God-Devil Body was enough to crush regular Gods, and he had also fused the fist with Heavenly Dao energy, but the energy released by Zhao Feng's God Eye was actually able to neutralize it?

Of course, this energy was still too weak to completely neutralize the Heaven Lord's attack, but this energy was rapidly getting stronger.

Hwoooooom!

Dream Origin continued to gush out of Zhao Feng's left eye in an endless torrent. The intense pain from his left eye rendered Zhao Feng nearly unconscious.

Zhao Feng had previously consumed small amounts of Dream Origin energy, and there was always a process. He naturally found it difficult to endure this vast and uncontrolled release of Dream Origin energy.

“So much Origin energy!” Zhao Feng was also surprised by the immense amount of energy contained in his left eye.

His Dream Origin seemed on the verge of being exhausted, but the Heaven Lord’s attack had not been completely neutralized.

“Am I still going to die?” Zhao Feng was somewhat unwilling to accept this.

But just when it seemed like his Dream Origin was about to run out, another power, unfathomable and terrifying, charged out of the dreamy silver ball.

The dreamy silver ball instantly took on a more dazzling hue, the last traces of silver utterly vanishing. The silver ball became a dreamy crystal, and the image of the eye on the crystal shone with an even more dazzling light and a sliver of charm. It was like it was really turning into an eye.

Boom!

Pure Dream Origin energy rushed out of Zhao Feng’s left eye.

Before, Zhao Feng’s Dream Origin could be compared to balls of mist, but now, his Dream Origin energy was like viscous sea water.

The final gleam of silver vanished from his left eye, completely supplanted by dreamy colors.

As this Dream Origin energy emerged, the distant Heaven Lord felt his Pseudo Ancestral Eye tremble.

The six God Eye Deities felt their God Eyes pulse. Their God Eye Fusion Art suddenly became extremely unstable; the gray-white ethereal figure in the air instantly became blurry and began to scatter.

“Just what...?” The Heaven Lord was struck dumb. Zhao Feng not only didn’t die to his attack, his eye actually erupted with another powerful energy.

He found it rather strange that he failed to kill Zhao Feng despite paying such a great price.

On the other hand though, his plan achieved its goal, as the God Eye Fusion Art of the six God Eye Deities had become unstable. The Heaven Lord noticed that, while his own Pseudo Ancestral Eye was also affected, the effects were minor.

“Fury of the Divine!” The Heaven Lord didn’t have the leisure to worry about so many things.

Regardless of what was going on with Zhao Feng’s eye, he couldn’t let this chance go. The Heaven Lord immediately activated his Pseudo Ancestral Eye and attacked the six God Eye Deities!

Fwoosh!

The Pseudo Ancestral Eye released waves of turbid gray-white energy that soared into the air and took the form of a massive ethereal head. The head opened its mouth, unleashing a roar at the six God Eye Deities. This roar made all beings tremble in fear and exuded boundless divine might.

The God Eye Deities were already caught off guard by the disorder in their God Eye Fusion Art, and the Heaven Lord chose this exact moment to attack!

“Oh no!”

“Too fast!”

Fear and panic appeared on their faces. The Heaven Lord apparently knew what was going to happen ahead of time and attacked as soon as a problem appeared in the God Eye Fusion Art.

The six God Eye Deities could only forcefully have their Pseudo Ancestral Eye use its power to block this attack.

Boom! Bang!

A gray-white wave of energy erupted from the Pseudo Ancestral Eye, colliding with the roar. However, the wave of energy instantly shattered, allowing the roar to strike the eye itself.

“Hold!” The Divine Punishment God clenched his teeth, the veins on his forehead bulging.

The other God Eyes also focused.

Suddenly:

Boom!

The massive Pseudo Ancestral Eye trembled and then fell apart. The God Eye Fusion Art was undone!

The six Gods simultaneously vomited blood, their bodies staggering and their faces turning ghastly pale. Had they actually lost?

“Haha!” The Heaven Lord loudly laughed.

Nothing was more exciting than turning the tables while in desperate straits!

The Heaven Lord was ecstatic to see the six God Eyes suffering the backlash of their technique.

Boom!

He immediately punched. The gold and silver fist, bolstered by the Pseudo Ancestral Eye, multiplied in power, gaining an unstoppable strength.

Without the Pseudo Ancestral Eye, the six God Eyes would not be able to stop it.

“Retreat!” the Divine Punishment God roared.

Their only options were to dodge and run from this attack.

The warship carrying Liu Qinxin immediately began to move away.

Swishswishswish!

The other five God Eye Deities as well as the Bright Sun God, Celestial Sword God, and Sikong Dao also began to retreat.

“Stop!” The Heaven Lord activated his Pseudo Ancestral Eye.

A peerless strength that permitted no resistance descended upon the world. Everyone for a radius of tens of millions of li was suppressed by this energy and stopped for a moment.

This moment put those five God Eyes who should have been able to escape in grave peril. The Life God and Myriad Forms God were in range of the Heaven Lord’s fist and no longer had time to escape! Although the Life God and Myriad Forms God were skilled in defense and had tenacious vitalities, not even they could block this attack!

“Seal of Life...!” In this perilous moment, the Life God’s eyes began to burn with dazzling green flames. Vast amounts of Life energy gushed out of her body.

Boom!

This supreme energy pushed the Myriad Forms God, who was at the edge of the Heaven Lord’s attack range, several li away. At the same time, the Myriad Forms God was also able to absorb the Life God’s burning Life Origin, allowing him to explode with power.

“Life!” Once the Myriad Forms God had escaped the attack range of the Heaven Lord’s fist, he couldn’t help but turn back and call out.

But before he could even turn his head...

Boom!

That unstoppable energy fist howled over, engulfing the Life God and obliterating everything.

The other God Eye Deities couldn’t help but be aggrieved by this sight. Just now, the Life God and Myriad Forms God were both in grave danger, so the Life God used her power to save Myriad Forms.

The remaining God Eyes sensed a mysterious seal on their bodies. It was shaped like a leaf and was brimming with Life energy that instantly healed all their wounds.

“Before dying, the Life God used all her Life Origin to use this secret art....” The Divine Punishment God shook his head.

In this way, even though she was dead, the Heaven Lord would receive very little Life Origin. He would need time to recover it rather than instantly becoming stronger.

The Life God was dead, but before she died, she did everything that she could do.

“We’ve already lost....” The Death God’s body trembled.

Even though the Life God had done her best, they still lost.

Although they could once more use the God Eye Fusion Art, it would not be as strong as the one from before. In addition, the Heaven Lord, after devouring another God Eye Origin, was certain to be even stronger.

On the other end:

“Hahaha... Hahaha...!” The Heaven Lord was madly laughing as the Pseudo Ancestral Eye on the center of his forehead received the power of the Life God from the Fan Universe.

The matter was settled. The God Eyes were now powerless.

But as he received the Life God’s power, the Heaven Lord suddenly remembered something, and his face went stiff. Within the white warship, Liu Qinxin and Yu Tianwu stared at Zhao Feng.

Zhao Feng’s body was engulfed in a dreamy sea, his entire body shining with dazzling colors. The silver luster of his hair had retreated, leaving thin dreamy threads that fused with the sea of energy around him.

His left eye slowly turned, radiating with dreamy light as its energy became stronger and stronger.

The energy had surpassed a God Eye. This energy was actually close to a Pseudo Ancestral Eye....

King of Gods

Chapter 1568: A New Pseudo Ancestral Eye

The Heaven Lord had killed the Life God and received her power from the Fan Universe, but he was not the main focus at this time.

On the other end of this dark world, an indescribable dreamy light coupled with an astonishing Origin energy that instilled fear in all was gradually spreading, attracting everyone’s attention. This terrifying energy instantly exceeded the God Eye level and was now infinitesimally close to the Pseudo Ancestral Eye level.

“How could this be? Such a powerful energy!” The Divine Punishment God was stunned.

At this moment, his Divine Punishment God Eye felt a deep fear. Only the Pseudo Ancestral Eye of the Heaven Lord had ever inspired this kind of fear, but now, it had a comrade.

“Is this possible? Is his eye not a God Eye?” The Death God shivered.

God Eyes were the absolute limit. Without special methods, their power could not be further increased. However,

Zhao Feng’s Dream God Eye had broken through the limit and evolved on its own, pushing toward a higher level. All of the God Eye Deities inexplicably felt afraid when they looked at Zhao Feng’s left eye.

Within the white warship, as Yu Tianwu and Liu Qinxin witnessed Zhao Feng’s evolution, their expression constantly shifted.

“His eye isn’t a God Eye?” Yu Tianwu muttered to himself. This was the only possibility at this time.

“Although I’m not sure of the exact details, the situation is still salvageable...!” Liu Qinxin’s Destiny God Eye was also inexplicably shivering in fear.

Before the war, she had already divined that Zhao Feng was the key to this war. Now, she could only depend on Zhao Feng.

Far in the distance, the top-class experts of the Ancient Desolate Realm of Gods despaired when the Life God died, believing that everything was over, but Zhao Feng's evolution had reignited the hope in their hearts. That dazzling light was a source of warmth in this cold and monotonously dark world, enchanting and alluring.

The Heaven Lord, who was still absorbing the Life God's power, showed a grim expression in all three of his eyes.

"This kid's eye..." His face turned solemn and sinister.

He could clearly sense that Zhao Feng's eye was rapidly approaching the Pseudo Ancestral Eye level. This fact was in defiance of the rules governing God Eyes.

In addition, for some reason, the Heaven Lord's Pseudo Ancestral Eye suddenly became agitated, the Heavenly Dao Origin within becoming frantic and berserk. It seemed to have an intense hatred toward Zhao Feng's eye!

The Heaven Lord's mood was influenced by this, and his hatred for Zhao Feng soared.

"Die!" The Heaven Lord's three eyes glared at Zhao Feng and exploded with killing intent.

Boom!

His Pseudo Ancestral Eye pulsed with frightening energy, and then a gray-white beam of light shot forward, callously annihilating everything in its path.

"Zhao Feng, watch out!" the Divine Punishment God roared.

Even when the God Eyes worked together, they could not block an attack from the Pseudo Ancestral Eye, not unless they used the God Eye Fusion Art. The Heavenly Dao Pseudo Ancestral Eye was just too powerful. It could suppress all energies in the world. Other than perfected Laws, no Law energy could exist in front of Heavenly Dao energy.

"Oh no!" Zhao Feng sensed that something was wrong, but he was currently unable to use the energy in his body and could not dodge.

Get... get back! This was the only thought in his mind.

If he couldn't dodge this attack, he was dead. Nothing else was more important. However, the Dream God Eye was making it so that Zhao Feng could only use a portion of his power, and this power was practically useless under the suppression of the Heavenly Dao.

That gray-white beam, cold and callous, shot toward him.

Whoosh!

The beam of divine energy swept past. Strangely, it didn't strike Zhao Feng.

"Eh?" Zhao Feng gasped in surprise.

Just now, his body had suddenly retreated several thousand li, allowing him to avoid the Heaven Lord's attack.

But he didn't use Instant Movement just now. Under the suppression of the Pseudo Ancestral Eye, even someone with a perfected Space Law would find it difficult to use a technique like Instant Movement.

At this moment, feeling finally returned to Zhao Feng's left eye. Earlier, he wasn't even able to sense his left eye's existence. The sea of Dream Origin began to return back to his left eye.

"Was it the Dream God Eye?" Zhao Feng sensed what was going on.

He might have used Realization just now. This was the only thing that could explain his suddenly being transported to another place.

And Zhao Feng was also beginning to more clearly sense his left eye and use its power.

"Not dead?" The Heaven Lord frowned.

Not even the power formed from the fusion of six God Eyes would have been able to so easily avoid the attack from his Pseudo Ancestral Eye.

"If I want you to die, you'll die!" the Heaven Lord suddenly roared.

Boom!

His Heavenly Dao Pseudo Ancestral Eye unleashed a fierce wave of gray-white energy. The area affected by the Heaven Lord's attack this time was even larger, its suppression of other Laws even more intense. Even perfected Laws would be unable to exhibit much power!

"Go!" Grimacing, Zhao Feng activated the Dream God Eye.

Bzzz!

His body was covered in a dreamy haze and slowly vanished out of existence.

Of course, this process was actually very short.

Whoosh!

One hundred thousand li away, Zhao Feng's body suddenly appeared, placing him out of range of the Heaven Lord's attack.

"What power is this? It's not suppressed by my Heavenly Dao energy?" The Heaven Lord was alarmed, and then his face darkened. Heavenly Dao energy could suppress any energy in the world, so why could it not suppress Zhao Feng's power?

The God Eye Deities were also flabbergasted by this sight. Before the evolution of the Heaven Lord's Heavenly Dao God Eye, they would still have been able to fight back, but after its evolution, they could only fight back using the God Eye Fusion Art. But Zhao Feng was singlehandedly able to deal with the Heaven Lord's attacks.

"Seeking death!" The Heaven Lord's brows locked together in anger.

He had finished absorbing the Life God's power. There wasn't much, but it was rapidly recovering.

Swish!

The Heaven Lord flew toward Zhao Feng. This time, the Heaven Lord was going to personally deal with Zhao Feng.

“Zhao Feng, watch out...!” the Divine Punishment God couldn’t help but call out, and the God Eye Deities were on the verge of rushing forward.

“Die!” The Heaven Lord punched with his right fist, sending a beam of gold and silver energy blasting through the world.

“Go!” Activating his Dream God Eye, Zhao Feng activated his Realization ability and locked onto a certain point.

Swish!

His body was covered in a dreamy membrane of light and vanished, upon which he appeared in the place he had been focusing on.

“It’s not Instant Movement.” Now that he was closer to Zhao Feng, the Heaven Lord was sure that Zhao Feng’s movement technique had no connection to the Space Laws.

But how could one suddenly move from one place to another without using the Space Laws? Of course, this was excluding Heavenly Dao energy.

You can’t run!” The Heaven Lord activated his Pseudo Ancestral Eye.

Swish!

The Heaven Lord’s body darkened, and then it vanished. A moment later, the Heaven Lord appeared next to Zhao Feng. “Go!” Shocked, Zhao Feng once more fled.

But the Heaven Lord doggedly pursued Zhao Feng, giving him no time to rest.

Swish! Swish! Swish!

Two figures blinked back and forth across the void.

This ability to go wherever one wished without using the Space Laws was truly absurd. If an assassin had this kind of ability, they would be able to carry out almost any mission without failure.

“So strong!” Zhao Feng did not dare to let down his guard as he fled. This ability was the only thing that was keeping him alive.

And for some reason, the Heaven Lord’s hatred toward Zhao Feng was only growing. It was like the two had innumerable quarrels between each other, an irreconcilable feud. The five God Eyes had been completely forgotten.

Of course, the Heaven Lord was so strong now that he could easily kill the five God Eyes if he wanted, but he wanted to kill Zhao Feng even more.

Swish! Swish! Swish!

However, the Heaven Lord could not stop Zhao Feng’s movement ability, nor could he predict where Zhao Feng would appear.

“Heaven Falls, Earth Rends!” the Heaven Lord roared, his central eye erupting with a power that reigned as god over the world that soared into the void.

Brrrooom!

The surrounding void for millions of li began to shudder, the shaking only intensifying as time went on. A moment later, boundless Destructive energy erupted through the region, filling every inch of the world. It seemed like the world itself was being annihilated.

Fortunately, everyone else had kept their distance from the pair, or else their chances of survival would have been slim. “I’d like to see where you can run!” the Heaven Lord growled as he chased after Zhao Feng.

Zhao Feng had nowhere to run now. Wherever he went, he would run into a terrifying energy that could easily kill a God.

Zhao Feng truly did sense an intense danger. The Destruction energy permeated the world and he was being pursued by the Heaven Lord. A moment later, Zhao Feng would be dead.

“Dream Dimension Expansion!” Zhao Feng activated his Dream God Eye, creating a Dream Dimension and expanding it around himself.

Bzzzz!

A dreamy landscape appeared around Zhao Feng, overlapping with the world.

Within his Dream Dimension, Zhao Feng was strengthened to a certain extent. And his Dream God Eye was given the final push into the Pseudo Ancestral Eye level.

Disappear...!

Zhao Feng activated his Thought power and swept it over all the Destructive energy within his Dream Dimension. A moment later, the raging storm of energy began to weaken and calm down.

“What?” The Heaven Lord was stunned. Zhao Feng had the ability to render his technique ineffective?

“Take my sword!” Zhao Feng’s face went cold as he gathered his Primal Chaos and Tribulation Lightning energies into a sword.

He was not one to just stand around and be beaten down. Moreover, as Zhao Feng gradually gained back control of the Dream God Eye, he began to develop an understanding of its true power.

He wasn’t able to fully control the Dream God Eye before not because he lacked the ability, but because the Dream God Eye was far from reaching its limits! Now, Zhao Feng was confident that he could use the higher power of the Dream God Eye.

Stronger... stronger... Zhao Feng focused his Dream Pseudo Ancestral Eye on the Primal Chaos Tribulation Lightning Sword.

Bzzz!

A dreamy membrane of light appeared on the sword, and a moment later, the sword began to swell in size, the strength of its Primal Chaos and Tribulation Lightning energies multiplying. Soon, a sword that was like a pillar holding up the heavens was descending.

Primal Chaos and Tribulation Lightning energies were far inferior to Heavenly Dao energy, but the amount of energy contained in this Primal Chaos Tribulation Lightning Sword was far more immense than one could imagine.

When strength reached the apex and surpassed common sense, it could break through all shackles!

Boom! Bang!

The entire world trembled as Primal Chaos and Tribulation Lightning energies swept through it.

[King of Gods](#)

Chapter 1569: Dream Versus Heavenly Dao

A vast sea of Primal Chaos Tribulation Lightning energy seethed and churned.

Countless experts in the far distance needed to circulate their Divine Power and put all their focus into resisting this sea of energy. Quite a few Third Heavens, and even some God Kings, needed to retreat.

“Let’s withdraw for now!” the Divine Punishment God called out.

Whether it was the Heaven Lord or Zhao Feng, they were both getting stronger and stronger, seemingly without limit.

They were initially thinking about joining with Zhao Feng to fight the Heaven Lord, but it now seemed better to withdraw. They were still the Heaven Lord’s targets, so it was best to make some distance.

They would not have Zhao Feng handle everything though. The backlash they had suffered from the undoing of the God Eye Fusion Art would probably heal quickly since the Life God used the Seal of Life. When the time came, they might be able to use the God Eye Fusion Art again.

Boom!

At this moment, a formidable Heavenly Dao energy surged out from the center of the energy sea. The gray-white torrent of energy began to form into a massive human in the air, a person so vast that they seemed to occupy the entire sky.

The Heaven Lord was planning to use his true strength.

“Zhao Feng, no matter what category your eye belongs to, all must bow before the Heavenly Dao Pseudo Ancestral Eye!” The Heaven Lord’s face seethed with anger, his killing intent almost tangible.

“Then let’s try it out!” Zhao Feng’s face was calm and solemn.

In the past, he would have never dared to directly fight the Heaven Lord, but as his Dream God Eye got stronger and stronger, he was able to extract an even deeper layer of power. He no longer feared the Heaven Lord.

Moreover, now that the Dream God Eye had evolved into a Pseudo Ancestral Eye, several images began to form in Zhao Feng's mind. Though they were still blurry and indistinct, Zhao Feng sensed that he needed to stop the Heaven Lord. This was his duty.

Boom!

Torrents of Dream energy surged out of the Dream Pseudo Ancestral Eye, circling around Zhao Feng and creating a Dream Domain.

"Die!" the Heaven Lord savagely roared.

The massive gray-white phantom waved a hand. A gray-white hand of unimaginable size appeared above Zhao Feng's head. Cold and emotionless, it exuded a pressure that could crush everything to bits. This palm covered a vast area and possessed incomparable might.

Weaken... weaken... Zhao Feng activated his Dream Pseudo Ancestral Eye and used his Realization ability.

Bzzz!

Dreamy fog appeared on the surface of the giant hand, and then the energy contained in the hand began to gradually weaken.

"The effect is this lacking?"

Zhao Feng's Realization ability could alter everything, but when targeting Heavenly Dao energy, it had a very muted effect that came at an immense price.

Zhao Feng had no idea that, on the other side, the Heaven Lord's mind was reeling. This was the power of the Heavenly Dao – the energy that reigned over all other energies and governed all beings, established all Laws. For it to be affected by Zhao Feng's Pseudo Ancestral Eye was simply inconceivable.

Could it be that his eye is related to the Ancestral Eye? the Heaven Lord wondered.

This was not the first time he had this idea, but he had immediately rejected it earlier. Now, however, the Heaven Lord was extremely confident in this theory.

But regardless, as long as he killed Zhao Feng, everything would be resolved. Perhaps he could even obtain the power of Zhao Feng's eye.

Boom!

The Heaven Lord boosted the power of the hand and had it crush downward.

Under the supreme Heavenly Dao energy, any other energy would be turned to dust, but Zhao Feng's Dream Origin continued to surge back and forth, resisting the pressure.

Illusory Oblivion...! Zhao Feng's left eye paused and then began to turn again.

The gray-white hand was rapidly enclosed within a dreamy membrane. A moment later, the hand became somewhat transparent. It was obvious that it had been significantly weakened.

“Heaven-Closing Primal Chaos Hand!” Zhao Feng used his powerful Primal Chaos combat skill, and within his Dream Dimension, this skill possessed incredible strength.

Stronger... Dream Origin energy poured out as Zhao Feng focused his Thought power.

That dark hand crackling with lightning multiplied in both power and size. Although it was still not comparable to the gray-white hand, it could not be underestimated.

Boom! Bang!

The two enormous hands collided, their impact creating a destructive storm.

“God Eye Duplication!” Zhao Feng called out, his left eye turning.

Boom!

Dreamy lights gathered above Zhao Feng’s body, turning into an enormous dream-hued eye. This manifestation was extremely similar to the Heaven Lord’s gray-white phantom.

Suddenly, the dream eye began to spew out countless torrents of dreamy energy, and amid this chaotic storm, a gray- white hand appeared.

“No... even Heavenly Dao energy can be duplicated?” The Heaven Lord was struck dumb.

He knew a little about Zhao Feng’s duplication ability, but he never would’ve imagined that Zhao Feng could duplicate Heavenly Dao energy. This was simply impossible!

Boom!

The gray-white phantom above the Heaven Lord thrust out a palm.

The two identical palms collided in the void, but a few moments later, Zhao Feng’s duplicate shattered with a bang.

“I can’t completely duplicate Heavenly Dao energy?” Zhao Feng muttered.

In the end, Heavenly Dao energy was too unique, and he could not completely duplicate it.

Far in the distance, within the white warship, while Liu Qinxin did not have a very high cultivation, her Destiny God Eye allowed her to see everything that was going on.

“Feng’s Dream energy can resist Heavenly Dao energy....” Liu Qinxin analyzed.

As the Destiny God Eye, she was extremely interested in anything that she knew nothing about.

Although Zhao Feng’s Dream energy could not completely suppress Heavenly Dao energy and vice versa, Liu Qinxin sensed that Zhao Feng’s Dream energy was slightly superior. At least, Dream energy weakly countered Heavenly Dao energy. For example, while it could weaken or copy Heavenly Dao energy, Heavenly Dao energy could do nothing to limit Dream energy.

Boom! Bang! Crash!

The battle between the Heaven Lord and Zhao Feng once more erupted, even fiercer than before. The clash of supreme energies produced one shockwave after another, sweeping through the Ancient Desolate Realm of Gods and beyond.

“Anything and everything are suppressed by the Heavenly Dao!” The Heaven Lord fumed. He could never accept anyone having the strength to singlehandedly defy him.

“Pillar of the Heavenly Dao!” the Heaven Lord bellowed.

The massive phantom brought its hands together and began to form a spell.

Boom!

Eight gray-white pillars manifested in the void, covered in strange inscriptions and suffused with a cold and emotionless luster. The pillars hurtled down, suppressing everything under the power of the Heavenly Dao.

To be caught between the eight pillars was to be thrown into an eternal prison, and the eight pillars were constricting.

“What a powerful restriction!” Zhao Feng’s eyes dimmed. He could sense that his Primal Chaos energy and Tribulation Lightning energy had lost seventy to eighty percent of their strength.

But this didn’t mean that he was powerless.

God Eye... Duplication... Zhao Feng once more activated his Dream Pseudo Ancestral Eye.

A layer of dreamy haze appeared around the massive eye above him, and within the eye, dreamy streams of light seemed to be building up power.

Ordinary moves would be no good here.

Zhao Feng’s Dream Origin was rapidly consumed. At the same time, an endless flood of energy flooded out of his left eye, which was getting stronger and stronger.

Boom!

Suddenly, the massive eye flew upward, a massive dream-colored manifestation slowly forming. This dream manifestation was so similar to the gray-white giant manifested by the Heaven Lord that they seemed to be of the same kind.

A dreamy vortex suddenly appeared within the dream giant, and eight gray-white hands shot forward!

Boom! Bang!

The eight hands flew off in separate directions and collided with the descending pillars.

“...this is impossible!” The Heaven Lord trembled.

The dream phantom created by Zhao Feng’s eye was incredibly similar to his own gray-white phantom.

The Heaven Lord was keenly aware that the gray-white figure was a manifestation of the owner of the Heavenly Dao Ancestral Eye – the Ancient Ancestral God!

“Could his eye be an Ancestral Eye?” The Heaven Lord’s eyes went wide in disbelief. There was another Ancestral Eye in this world besides the Heavenly Dao Ancestral Eye?

Power... increase... Zhao Feng continued to use the power of his Dream Pseudo Ancestral Eye.

The eight giant hands were covered in a dreamy membrane, and then a mysterious power made them grow stronger and stronger.

At this moment, Zhao Feng could not only hold off the Heaven Lord’s attack, he could even push back!

“Not good! His eye is getting stronger and stronger, and it’s getting stronger so quickly....” The Heaven Lord suddenly realized something.

At the start of the battle, Zhao Feng’s eye wasn’t at the Pseudo Ancestral Eye level, but as he used more and more of its power, it reached the Pseudo Ancestral Eye level and then manifested that massive dreamy giant. This strengthening speed was far too fast!

“No good! I need to get stronger!” His face dark, the Heaven Lord looked to his right.

“Danger!” The Divine Punishment God and the others suddenly felt a soul-chilling danger.

“Retreat!” The Death God immediately fled.

“You’re all mine!” the Heaven Lord angrily roared as he shot forward, instantly covering millions of li as he charged at the five God Eyes.

“Die!” The Heaven Lord’s gaze was cold and emotionless. It was like killing a few God Eye Deities was a mere trifle for him.

Zhao Feng also noticed the Heaven Lord’s goal.

The Heaven Lord could kill the Eight Great God Eyes and obtain their Origins to get stronger and stronger. If the Heaven Lord was allowed to kill the remaining God Eye Deities, his strength would explode to such a terrifying level that his Dream Pseudo Ancestral Eye might no longer be a match.

“Get back here!” Zhao Feng focused his left eye on the Heaven Lord, his Dream Pseudo Ancestral Eye madly revolving. Shockingly, the Heaven Lord really was forced backward several li.

Whoosh!

The Heaven Lord was pushed back another several li, and then even more. In the blink of an eye, he was dragged away from the five Gods.

You...!” The Heaven Lord’s chest burned with rage.

His own body was inexplicably going backward. He was left speechless and could only watch as his prey fled.

[King of Gods](#)

Chapter 1570: The Battle of the End

Zhao Feng's left eye was simply growing too quickly. At the start, the Heaven Lord had the absolute upper hand while Zhao Feng had to use all his strength to barely keep himself alive. But now, Zhao Feng could directly resist the Heaven Lord and even counterattack.

"Scram!" the Heaven Lord roared as he used the abilities of his eye. He swiftly vanished and once more closed the distance with the five God Eye Deities.

"Don't even think about it!" Zhao Feng roared, activating his Realization ability to get closer to the Heaven Lord.

"Intrusive Dream!" His Dream Pseudo Ancestral Eye turned, causing the Dream Dimension around him to become larger and more realistic.

Once Zhao Feng was close enough to the Heaven Lord, the Dream Dimension suddenly closed shut like a flower in reverse bloom, wrapping up Zhao Feng and the Heaven Lord.

Zhao Feng was previously only able to pull his foes into the Dream Dimension by pulling on their minds, but now, Zhao Feng could use his projected Dream Dimension to swallow his enemy.

"Break for me!" The Heaven Lord sensed danger and his central eye began to blaze. The gray-white giant became more solid as it opened its hands and unleashed a dreadful Heavenly Dao energy that sought to shatter everything in its path.

Bzzz! Boom!

The entire Dream Dimension swayed, numerous cracks appearing on it where the palms of the gray-white giant struck.

"The Dream Dimension can't hold him?" Zhao Feng's heart shivered.

He had long ago guessed this. After all, Heavenly Dao energy had absolute control over all other energies, and it was very difficult to suppress it with other energies.

Of course, Zhao Feng was only planning to hold the Heaven Lord for a while so that the other God Eyes could escape.

"However, if the Heaven Lord leaves the Dream Dimension, it will be even harder for me to capture him again." Zhao Feng's face turned grim as he began to think.

The Heaven Lord was powerful, and the most Zhao Feng could do right now was defend and counterattack. Trying to stop an expert like this was rather difficult; Zhao Feng's Dream Dimension was already on the verge of being destroyed.

Even though Zhao Feng could do as he wished within the Dream Dimension, he would still find it hard to kill the Heaven Lord. After all, the Heaven Lord now had the Ancient God-Devil Body, the Samsara Immortal Body, and the power of the Life God Eye. He would have to instantly be killed or not be killed at all. Crucially, Heavenly Dao energy was extremely resistant to Dream energy.

In addition, Zhao Feng's Dream God Eye did not have the ability to attack. If he wanted to stop or defeat the Heaven Lord, he needed greater offensive power, or else his left eye needed to far exceed the Heaven Lord's Heavenly Dao God Eye.

“Right, the Ancient God-Devil Body is connected to the Ancestral Eye!” Zhao Feng suddenly remembered what the Heaven Lord had said before.

The power of the Ancient Race was also resistant to Heavenly Dao energy and was much stronger than any other kind of energy. If he could grasp this energy and use it to boost his Dream Pseudo Ancestral Eye, his offensive ability would be greatly boosted.

God Eye... Duplication...

Just as the Dream Dimension was about to shatter, Zhao Feng focused his left eye on the Heaven Lord's body.

Bzzzz! Hwoosh!

A dreamy wave of light passed through the Heaven Lord's body, thoroughly analyzing the composition of the Ancient Race bloodline.

Logically speaking, Zhao Feng would never be able to duplicate the Heaven Lord's Ancient Race bloodline. After all, the Heaven Lord's Ancient Race bloodline was of a higher level than any single God Eye. However, the Dream Pseudo Ancestral Eye was no longer governed by logic and common sense.

And besides, the Dream Dimension had yet to shatter. Within the Dream Dimension, Zhao Feng could use Dream Origin energy to its greatest extent.

The three abilities of God Eye Duplication, Realization, and the Dream Dimension were brought together.

Bzzz!

A bit of gold and silver blood appeared in the dream sea around Zhao Feng, exuding an energy that made all other beings tremble in fear. More and more of this blood appeared and seeped into Zhao Feng's body.

The Heaven Lord suddenly sensed the bloodline energy of the Ancient Race.

“What's he planning?” The Heaven Lord darkly stared at Zhao Feng.

It was pointless for Zhao Feng to create the Ancient Race bloodline in the Dream Dimension. After all, when the dream was broken, everything created in the dream would disappear.

He had researched the Dream Dao. Within the Dream Dimension, one could influence one's foes and even kill them, but the effects of the Dream Dimension could not be used to alter oneself. Otherwise, one could just dream themselves to be a God and then wake up as a God.

“Ancient Race!” Zhao Feng roared as his blood was gradually replaced with the blood of the Ancient Race.

Boom!

A wild bloodline energy that shook the heavens erupted from his body, shooting into the sky together with chaotic streams of golden-silver light. Zhao Feng's body was wrapped in golden-silver light and grew to a height of one thousand feet, almost identical to the Heaven Lord's body.

“Break for me!” the Heaven Lord coldly roared as he exploded with all his strength.

The Heavenly Dao’s enormous phantom shattered the Dream Dimension, turning it into countless shards. Everything within the dream disappeared.

But... Zhao Feng’s God-Devil Body still existed!

“No, how can this be?” The Heaven Lord was as stunned as he could possibly be.

Logically speaking, what Zhao Feng dreamed should have vanished with the dream.

“Okay!” Zhao Feng was elated. The Ancient Race bloodline imbued him with even greater offensive power.

Boom! Bang!

He threw a punch, sending forth a ball of golden-silver light.

Stronger... stronger...

His Dream Pseudo Ancestral Eye turned, and dreamy light twisted and writhed on the energy fist. The fist suddenly expanded, and its power multiplied.

“Impossible! This is a fake Ancient Race bloodline!” The Heaven Lord was in disbelief, his face showing hints of madness as he circulated his own Ancient Race bloodline and punched.

Boom! Bang!

An enormous explosion shook the void.

Before the explosion could disperse, there was yet another explosion.

The Ancient God-Devil Body hasn’t just increased my offensive power, but my defensive ability as well!”

Previously, Zhao Feng had not dared to get too close to the Heaven Lord, but now that he had the Ancient God-Devil Body and the power of Dream Origin, what was the harm in getting close?

Moreover, Zhao Feng discovered that the Ancient God-Devil Body truly was boosting the power of his eye. In just a little while, both of them had gotten much stronger. The Dream Pseudo Ancestral Eye was now evolving at an even faster rate.

Boom! Bang!

The world trembled as the Heaven Lord’s tattered body flew out of the chaotic storm, but it took only a few moments for his wounds to heal. However, although his wounds were healed, the panic on the Heaven Lord’s face remained.

“Heavenly Dao Divine Rage!” The Heaven Lord’s face snarled in madness, and the Heavenly Dao Pseudo Ancestral Eye madly turned, his Heavenly Dao energy burning.

The massive gray-white phantom blazed with white flames and exuded such terrifying pressure that all of the Fan Universe trembled.

“Die!” The Heaven Lord snarled.

The gray-white phantom transformed into balls of divine light that shot forward.

This was the strongest attack the Heaven Lord could use, and it required burning large amounts of Heavenly Dao Origin.

“Dream World!” Zhao Feng was unmoved and activated his Dream Pseudo Ancestral Eye.

A dreamy light spread out from him, turning everything around him into ethereal objects that seemed like they could only exist in dreams.

Boomboomboom!

Those terrifying balls of divine light flew through the region, flew through Zhao Feng’s Ancient God-Devil Body, and flew through the dream-colored giant.

But Zhao Feng simply stood there, utterly unscathed. It was like everything in the world except Zhao Feng was an illusion. Since it was an illusion, it naturally couldn’t affect Zhao Feng.

As his eye awakened, Zhao Feng saw many scenes and understood many truths that people knew nothing about. This move had been recorded in his left eye; it could instantly turn everything around himself into illusion.

“It’s over, Heaven Lord,” Zhao Feng gazed at the Heaven Lord and calmly proclaimed.

“No...!” As Zhao Feng began to walk over, the Heaven Lord turned fearful and began to run.

“Stop!” Zhao Feng roared. His Ancient Race and Dream Pseudo Ancestral Eye energies activated and unleashed a terrifying attack.

The Heaven Lord, after fighting for so long, had basically used all his Heavenly Dao Origin. The last attack, in particular, had consumed a vast amount of energy.

He had only gotten weaker while his enemy had gotten stronger. He was now no match for Zhao Feng.

“Zhao Feng, you can’t kill me, so why don’t we end things here?” the Heaven Lord called out, but he still fled as quickly as he could.

“Impossible.” Zhao Feng’s expression was cold and indifferent.

Zhao Feng was able to understand much through the memories sealed within his left eye.

The strength of the Eight Great God Eyes maintained all the laws of the Fan Universe, and the Heaven Lord’s goal was to leave this universe. Once he left with the power of the Eight Great God Eyes, the entire Fan Universe would be destroyed.

Boom! Bang!

Every time Zhao Feng got close to the Heaven Lord, he would unleash a fierce attack to weaken the Heaven Lord’s Heavenly Dao energy.

This pursuit didn’t last for long, but the two were strong enough to cover more than half of the Ancient Desolate Realm of Gods in one second.

“Is it all destroyed?” Zhao Feng lowered his head and took a glance.

The battle of the two Pseudo Ancestral Eyes had left the entire Ancient Desolate Realm of Gods crumbling and falling apart. Even the outer dimensions were seemingly affected. Zhao Feng couldn’t help but think about the Continent Zone and the Azure Flower Continent.

“Let’s end this!” Zhao Feng’s left eye was getting stronger and stronger, and it now completely surpassed the Heaven Lord’s Pseudo Ancestral Eye.

He waved his hand, sending forth a dream-colored sphere.

“No...!” The Heaven Lord’s body trembled as he yelped in fear.

But he was extremely weak now, and Zhao Feng was now so strong that it was impossible for him to fight back. He could not dodge this attack.

Bzzz!

The dream sphere engulfed the Heaven Lord, and no matter how he struggled, he couldn’t escape.

“Zhao Feng, let me live! I’m willing to give up the Heavenly Dao Ancestral Eye. Moreover, your left eye is an Ancestral Eye. You’re an invincible existence, and no power can threaten you!” the Heaven Lord pleaded.

He was sure now that Zhao Feng’s left eye was an Ancestral Eye. Only this could explain how Zhao Feng’s left eye was able to get so strong so quickly. This was because the left eye at its prime was an Ancestral Eye, and now, it was on the verge of fully awakening!

The Heaven Lord was forced to admit that he had been defeated. He never imagined that there was another Ancestral Eye beside the one he had discovered through his investigations.

Zhao Feng was expressionless, and he appeared unmoved by this news. As the Heaven Lord had said, his left eye truly was an Ancestral Eye.

At this moment:

Whoosh!

A damaged white warship flew over, and an imposing elder slowly walked out.

“Tianwu!” The Heaven Lord looked at Yu Tianwu with a complicated expression.

“Tianshu, you’ve lost!” Yu Tianwu looked at the Heaven Lord and sighed.
