

## King of Hell 1011

### Chapter 1011: Debt Note

“What... what? What does it have to do with master?” Bai Hu was taken aback for a moment, then he exclaimed, “No way? Did the master come up with these ideas?!”

Gu Liufeng’s eyes flashed slightly, and he chuckled, “The rules were indeed made by Qingxia Sect and I, but thanks to your family master’s reminder that I can think of such a vicious plan. Even this list was already given to me by him. You tell me, who is the one who really has a black heart?”

Bai Hu took a breath; his face turned pale.

My master is really... it’s too hard to describe.

He usually hates those dirty tricks. Now, in order to stand up for the princess, he even came up with such ideas.

Tsk tsk, I must be more respectful to the princess in the future.

Otherwise, I might be hated by master and be punished severely!

The 2 talked and laughed for a while, and they soon came to the Changle Gambling House.

When Gu Liufeng and Bai Hu took out the proof of the bet, all the eyes of the entire Changle Gambling House focused on them.

Everyone’s eyes were full of envy, jealousy and hatred.

However, Gu Liufeng and Bai Hu’s strength was self-evident, plus the sanctions imposed on several families by Shengde Hall, which had been rumored on the streets of Yongan City in the past few days.

Among them, even the most domineering Li Family and Ren Family in Yongan City were blacklisted by Shengde Hall. Now their families were in serious trouble.

Many martial artists who originally worked for the Li Family and Ren Family resigned after hearing the news. Otherwise, this implication of the blacklist even banned them from buying.

Therefore, whether it was the Changle Gambling House or the people in Yongan City who participated in the bet, although they had lost all their crystal stones to Bai Hu and they hate him, no one dared to say anything.

When Bai Hu counted the crystal stone he won, he was so happy that his mouth couldn’t even close.

Gosh! Even the storage ring and storage bag for shipping crystal stones are folded like a hill.

Haiz, Gu Liufeng and I have to transport these storage rings back by bare hands!

These are 2 whole sacks of storage devices, wouldn’t we be exhausted to carry them back?

Except for artifacts like Hexi’s void, other storage devices in Miluo Continent couldn’t be stored in stacks.

In other words, storage rings cannot be placed in storage rings or storage bags that also have the void attribute.

Most of the storage devices on the Miluo Continent didn't have much space inside, and the crystal stone covered a very large area, so in the end, they were packed with 2 large sack bags of storage rings and storage bags.

Bai Hu laughed and couldn't help complaining to Gu Liufeng unscrupulously.

The onlookers really wanted to beat this guy who got so many crystal stones, but he still complained.

However, when Bai Hu saw a piece of paper, he couldn't help but raised his eyebrows, "What is this?"

The guy at the casino looked a little ugly. He whispered, "This is... This is the debt note written by Senior Li."

"Debt note?" Bai Hu squinted and smiled. "When is it possible to use debt note for betting at the gambling house? And, you actually took pay me with a debt note?"

### **Chapter 1012: All Crystal Stones**

Bai Hu sneered and said, "You have no way, then you want us to keep a blank paper..."

Before Bai Hu's words were finished, Gu Liufeng suddenly took the piece of paper from his hand. After taking a look, a deep smile appeared on his mouth, "Just let it be. Bai Hu, let's go."

"En? What do you mean? We don't want all these crystal stones? This amount of crystal stones is very large..."

"Who said we don't want it?" Gu Liufeng turned around with his eyes flickering; the pair of eyes was indescribably charming. "Didn't you see the stamp of the Li Family? We will of course look for the one who owes us crystal stones. What's the point of troubling a small gambling house? Don't you think so?"

Bai Hu was taken aback for a moment, then his eyes lit up with an incredibly carefree and sinister smile on his face.

The 2 carried the bags containing the storage devices, then they hurried to the city lord's mansion without stopping.

===

In the Lanxiang Courtyard, Hexi and Nangong Yu were playing chess.

Hexi frowned tightly, and the white chess piece in her hand wasn't placed for a long time.

Nangong Yu, however, had a leisurely look, drinking tea while watching and admiring Hexi's frowning look.

Little Egg, Little Golden Dragon, Little Dumb Cow, and Xiao Li were playing in the open space. Purple Abyss Vine was spinning in the air. Mo Xiaotu and Shen Qingchuo surrounded Xiao Chi and taught him to speak and some simple movements.

Suddenly, the door was pushed open.

Bai Hu and Gu Liufeng carried 2 sacks, stunning everyone in the house.

Mo Xiaotu couldn't help but stupidly said, "Bai Hu, Liufeng, did you use the crystal stones you won to buy spiritual rice? Why did you buy so many? Is Xi Yue going to cook a big meal today?"

Bai Hu and Gu Liufeng looked curiously at the crowd in the room, and they couldn't help but laugh.

Bai Hu said, "2 sacks of spiritual rice? Little rabbit, stop you kidding okay? Even if you gather all the spiritual rice of the entire Miluo Continent, they don't even worth the 2 sacks in our hands!"

With that said, in the amazed eyes of everyone, Bai Hu dropped the sack and poured out all the things inside.

Gu Liufeng also did the same.

For a while in the room, there were endless clanging sounds.

The people in the room were stunned by the scene.

Even Qing Long, who had always been calm, couldn't help but widen his eyes and exclaim, "These... are these all crystal stones?"

"Hehehe! Are you scared?" Bai Hu smiled triumphantly, "This is all the best that princess won for us! Tsk tsk, when I first saw it, even my eyes almost fell out of fright."

Little Egg rushed to the mountain with his short legs, pulled out a storage ring, and probed inside.

### **Chapter 1013: Clear the Accounts**

The shiny crystal stones exuded a strong spirit. With so many crystal stones piling up in the room, one could feel the spiritual power without using Divine Sense. The feeling was comfortable.

"Wow! There are so many crystal stones!" Little Egg couldn't help but exclaim. He happily threw himself on the pile of crystal stones, then he picked up a 2nd grade crystal stone and gnawed at it.

Seeing this, the other little guys followed suit and happily rushed to the pile of crystal stones and rolled in it.

Little Golden Dragon even took out a pile of crystal stone mountain from the storage device pile, then he competed with Little Egg to eat the crystal stones faster.

The little guys were divided into 2 teams at once, Little Egg teamed with Little Dumb Cow, Little Golden Dragon teamed with Purple Abyss Vine, and Xiao Li was the judge.

All of a sudden, there were sounds of gnawing the crystal stones and the happy laughter of the little ones.

Bai Hu's mouth twitched.

Although I that master and princess always squander; although I also know that we won a lot of crystal stones this time, but... but no matter how many crystal stones, they shouldn't be squandered like this!

Looking at the speed at which a few little guys gnawed the crystal stones and princess' calm expression, they obviously gnawed a lot of her crystal stones.

Alas, if I knew this, I would bet more. I should just mortgage several properties of the King of Hell Mansion in the Tian Gang Kingdom first!

Gu Liufeng was extremely calm.

With Xi Yue's ability to refine medicinal pills, the amount of crystal stones she earns every day is beyond measure. So what if she wants to raise this group of foodies? My master has the ability and financial resources to support them, who can say anything?

However, he still counted the crystal stones bet by Nangong Yu, Qing Long, Bai Hu and Qing Luan at the first time, then he handed over the shares of the King of Hell Mansion to Nangong Yu and others.

After all, even brothers had to keep the accounts clear. Although Xi Yue was likely to marry Nangong Yu, she must be on par with Nangong Yu in terms of money and strength, let alone letting Xi Yue be looked down upon by King of Hell Mansion. possible.

Among all the crystal stones won, Nangong Yu's share was definitely the most.

Qing Long took 2 armfuls of crystal stones from Gu Liufeng's hands before finally accepting Nangong Yu's winning bet.

Compared to when Nangong Yu took out the row of storage rings to bet, Qing Long's expression was all astounded all the time.

It is great that master can marry princess!

No, he hasn't married yet, and the princess has already earned so much for master - such a huge amount of crystal stones, the industry under King of Hell Mansion may not be able to earn them in one year!

If he marries her back, how strong the King of Hell Mansion would be!

Nangong Yu was not polite. He smiled and took out the crystal stones from the storage rings and put them in his storage device.

Nangong Yu's storage device was a decorative object similar to a rivet, but it was completely different from the ordinary storage device.

This storage rivet was called [Black House]. It looked unremarkable on the outside, but it could hold more than the items of a city inside. Even if he put a mansion inside, it would only occupy a fraction of the space.

#### **Chapter 1014: Ask for Support**

At this time, the little guys had eaten the crystal stone, each holding a bulging belly, laying on the ground and shouting, "So full! So full!"

Little Egg looked up and saw that most of the storage rings were missing on the ground, then he looked at the hills in front of Nangong Yu. He couldn't help but say, "Daddy, you are so rich! Even more money than mom!"

As he said, he smiled and threw himself in front of Nangong Yu, holding his feet, blinking his big eyes and saying, "Daddy, please support!"

Nangong Yu smiled and flicked the storage rings on the table lightly. Soon, a dozen storage rings appeared in front of Little Egg.

Nangong Yu chuckled and said, "The support fee, remember to pack together with your mom and send it over."

Little Egg was overjoyed when he saw the dozen or so storage rings. He didn't hear what Nangong Yu said. After cheering, he threw the storage rings into the Void.

Then the calls of "Daddy" were even more affectionate.

Hexi was speechless for a while. This little thing with no conscience, he is tempted by the enemy so easily! Why do I need this spiritual pet for!

Bai Hu saw the dozen or so storage rings taken away by the little pink pig, and he felt so disheartening again.

He wasn't reluctant to give them to princess, but giving to these little guys was the same as being eaten away. This was such a waste!

Suddenly, Bai Hu's eyes flashed, and he took out a debt note from his arms, and the pain on his face instantly turned into a sinister smile.

Hey, what does it matter if there are less than a dozen storage rings? There are still a lot of crystal stones in the Li Family waiting for us to collect!

Thinking of this, Bai Hu immediately waved to Little Golden Dragon, Little Egg and Xiao Li, then he took out the debt note and shook it in front of the little guys, whispering, "Little Egg, Little Golden Dragon, do you want more crystal stones?"

Little Egg looked at the words written on it with shiny eyes; Little Golden Dragon sneered and said, "That's great, I was just worried that I haven't done enough for boss last time. This time, we will take them back with interest!"

Gu Liufeng also smiled gently and said, "I don't know if the crystal stones of the Li Family is enough to repay the debt note, but I heard that their family has a lot of precious magic weapons and medicinal pills accumulated over the years. I believe it will be enough to repay the debt."

The few people and spiritual pets smiled at each other with their eyes flashing dim light.

Hexi looked at these guys whispering and smiling secretly, and she couldn't help shaking her head.

In a blink of an eye, she saw Xiao Chi standing by her side with a confused face, watching them discussing. His eyes were full of curiosity and slight envy.

She sighed lightly, touched Xiao Chi's soft hair, and said softly, "Don't worry Xiao Chi. One day, you can live like them, think and cultivate like a normal person. Sister assures you!"

Xiao Chi heard Hexi's voice, felt her gentle touch, and didn't notice what she said. He no longer bothered the people in the room. He hugged Hexi's arm, rub her shoulder and said, "Sister... Sister... I like sister the most..."

Hexi's heart was soft. As she was about to say something more, Xiao Chi's collar was suddenly pulled up.

Note: How many more Divine Soul Jades are needed to recover Xiao Chi's mind?

### **Chapter 1015: Not Brother-in-law Yet**

Nangong Yu sneered, "I remember that I warned you, if you dare to throw yourself into Xi'er again..."

Before Nangong Yu had finished speaking, Xiao Chi, who had always been quiet when facing Nangong Yu, suddenly said, "No... you are not... brother-in-law!"

Nangong Yu's movements paused. He squinted slightly, and a dangerous aura exuded from him.

Xiao Chi continued to say without fear of death, "You're not... brother-in-law... not married... you can't... control me..."

"Puff-!" Hexi sprayed a sip of tea on the chessboard, took the silk kerchief from Qing Luan and laughed as she wiped it off.

Qing Luan was also holding back her laugh, and she quickly cleaned up the wet chessboard.

Nangong Yu's face was gloomy like water was going to drip out, but he still put down Xiao Chi in the end.

Once Xiao Chi was free, he immediately ran back to Hexi and made a grimace at him with purple eyes shining brightly.

The smile in Hexi's mind was suddenly replaced by a feeling of touch.

After getting Divine Soul Jade, Xiao Chi had just absorbed the essence of Divine Soul Jade.

Maybe it was obvious as he just absorbed it, but now she had seen that Xiao Chi had become smarter and more like a normal person.

Her only brother in the past and this life; her brother who had suffered for her, she could finally do something for him.

Xiao Chi felt Hexi's gentle gaze, and a bright smile appeared on his face. He crawled down, resting his head on Hexi's lap and whispering, "Sister... I like sister the most..."

Hexi bowed her head and kissed the tip of his hair, and she said with a hoarse voice, "Xiao Chi, sister also likes you, so... you must get better, understand? You're the only relative of sister in this world."

Qing Long couldn't help but glance at his master's face. Hmm, although his face was ugly, Nangong Yu didn't do anything else or say anything this time.

However, his gaze looking at the Hexi was hot and affectionate as if it would burn at any time.

Nangong Yu: The only relative huh? Hmph, then I will be Xi'er's only lover.

===

The mansion of the Li Family was located in the south of Yongan City. It had a strong spirit and a wide view. It was not far from the central street. It could be said to be the prime location in the entire Yongan City.

At this time, it was just after noon, the sun was still scorching the earth.

The guards at the entrance of the Li Mansion were a little dispirited.

In the past few days, the Li Family was chaotic because of not being able to buy the best quality pill.

Coupled with Li Zhenyu's embarrassing speech and actions in front of the entire Yongan City people, it put shame on the entire Li Family.

Regarding this matter, the Li Family held more than a dozen meetings. Each time the topic was whether to expel Li Zhenyu from the Li Family in order to calm the anger of Shengde Hall and Xi Yue.

However, in the end, it was still suppressed by Li Zongming, the current patriarch of the Li Family and Li Zhenyu's father.

Moreover, Li Zhenyu had the cultivation base of Gold Core Stage at a young age, and he was also the elder of the Yunlan Sect. Although he had been dismissed by the Yunlan Sect, his identity and strength couldn't be underestimated.

So now, the Li Family was divided into 2 factions. 1 faction agreed to expel Li Zhenyu from the Li Family in exchange for the right of purchasing the best quality pill for the other children of the Li Family.

The other faction thought that they should take the opportunity to let Li Zhenyu be the family master to let him please the Doctors Association so that the Li Family could form a connection with the Doctors Association.

### **Chapter 1016: Debt Repayment**

After all, the Doctors Association was so powerful. If they bootlicked the Doctors Association, the benefits they could get were by no means comparable to just a few best quality pills.

But no matter which decision, it is an inevitable fact that Li Family's vitality had been severely injured and its status in Yongan City had plummeted. Therefore, the guards of Li Family were somewhat dispirited.

At this moment, a man's voice suddenly sounded in the ears of the guards, "Where is Li Zhenyu? Let him get out and pay the money!"

The guards were all startled. When they looked up, they saw 2 young and tall men standing in front of the gate.

The guard of Li Family was in a bad mood. Now seeing these 2 came to cause trouble to the Li Family, they shouted furiously, "Who are you to cause trouble here? Can our young master's name be simply mentioned by you? Get lost, otherwise don't blame us for being rude!"

Before he finished speaking, his vision blurred, and he heard a bang.

The whole person was thrown out like a cannonball and hit the door panel hard.

In the pain of broken bones, the heavy door of the Li Mansion was creaking under the huge impact.

Then he collapsed to the ground.

In mid-air, Little Dumb Cow, which had drummed into a big ball, returned to his original shape and fell to the ground with a bang.

Little Egg immediately leaned forward, touching his ugly little head and complimenting him, "Little Cow, good job. When we return, I will let mom cook for you!"

Little Dumb Cow was praised and caressed by Little Egg, and his whole body was shaking with excitement. He was making a silly laugh.

But Little Egg had already returned to Little Golden Dragon and the others. The few little guys lined up and shouted loudly, "Pay the debt, Li Zhenyu. Get out and pay off the money you owe!"

At this moment, everyone in the Li Family was shocked.

The first one who came out was an old man who looked like he was in his early fifties. Seeing Bai Hu and the others walking in, his eyes widened as he shouted angrily, "Who are you? How dare you cause trouble in our Li Family?"

Bai Hu crossed his arms and sneered, "Where is Li Zhenyu? Let the turtle grandson meet his grandpa!"

The old man said angrily, "You should report your name first and make it clear why are you looking for Zhenyu. If you dare to walk in bluntly, don't blame me for being rude!"

Bai Hu said leisurely, "I'm Bai Hu, the guard of Xi Yue. I'm here to collect the debt from Li Zhenyu for my young master."

Because of the sound just now, a lot of people have gathered outside Li Family's door at this time, and they were poking their heads at the door to watch the excitement.

Bai Hu was very satisfied with the current situation. He took out the debt note and showed it to the old man.

"May I know who you are of the Li Family? But no matter what your cultivation is, you should understand words right? This is the debt note written by Li Zhenyu himself to Changle Gambling House. Now he has lost the bet, but Changle Gambling House gave us this piece of waste paper to our young master to repay the debt. If you are our young master, would you accept it?"

The old man was startled first, then he glanced at the debt note intently.

With just a glance, he took a deep breath. The number of crystal stones written on it almost made him faint.

## **Chapter 1017: Might as Well Rob**

While showing it, he smiled and said, "Can you all see clearly? This is written by Li Zhenyu himself. The handwriting is his, and there is Li Family's seal on it. Everyone here please see it clearly, lest Li Family refuse to admit it later and say that our young master is blackmailing them!"

Most of the people who could live in the vicinity of the Li Family were big families in Yongan City. They were not afraid of the Li Family and were even willing to watch the Li Family make a fool of themselves.

So when Bai Hu asked, they immediately laughed and echoed loudly.

The old man of the Li Family looked pale, and he couldn't speak for a long while.

At this moment, a majestic voice came from behind, "Cheng'an, what happened?"

The old man turned his head and saw the visitor, and he immediately said in surprise, "Patriarch, they are here to make trouble! They claimed that Zhenyu owes them crystal stones and we must pay them back."

What came out was a middle-aged man who looked younger than the old man, but he seemed to have an extraordinary vibe. His cultivation was obviously extremely high.

Many people immediately recognized the identity of this person. He was Li Zongming, the patriarch of the Li Family and the father of Li Zhenyu.

As Li Zongming heard this, he glanced at Bai Hu and Gu Liufeng with a cold gaze and said coldly, "You 2 break into my Li Family and cause trouble, what are your intentions?"

Bai Hu dug his ear and said impatiently, "Do you people of the Li Family understand human language? Didn't I just say clearly enough? Li Zhenyu owed our young master crystal stones, so we are here to collect debts."

The old man Li Chengan, who came out earlier, approached Li Zongming and whispered the amount on the debt note and the ins and outs of the matter in his ear.

Li Zongming's eyes widened slightly, and his face turned gloomy. He gritted his teeth after a long while, "How do you prove that this debt note was written by Zhenyu? It is clear that you are working with the Changle Gambling House to blackmail our Li Family. This is simply ridiculous. If you get lost now, I can still let you go..."

"Hahahaha—!" Before Li Zongming could finish his words, Bai Hu had already laughed and interrupted him. He turned to the people at the gate, "See? I told you earlier that Li Family will refuse to admit it. He even said that the Changle Gambling House forged this debt note. Changle Gambling House was able to forge Li Zhenyu's handwriting, and they also forged the seal of your Li Family?"

Immediately, he put away his smile and coldly, "Whether this debt note is real, can't we make it clear after Patriarch Li let Li Zhenyu confront us?"

Li Zongming was infuriated hearing the ridicule of the crowd.

He said bluntly, "Zhenyu fell from the city wall that day because of you guys. Now, he is recuperating in the Yunlan Sect. If you want to find him, wait a few months."

Bai Hu was amused by the shamelessness of the Li Family.

He didn't smile, but he released a faint murderous intent, "Then does Elder Li mean that you don't want to pay the debt?"

Li Zongming sneered, "Showing an inexplicable debt note, and you want us Li Family to pay such a large number of crystal stones? In your dream! You might as well rob us!"

Bai Hu sneered and said slowly, "Elder Li is really smart, how do you know that we are going to rob?"

### **Chapter 1018: Whoever Got Hit Knew the Pain**

But everyone present, including the spiritual pets, wasn't bothered by this.

Bai Hu even squinted and smiled, "It seems that Li Family is really poor. They can't even pay the crystal stones they owe. Little Egg, what if they don't have the money? Wouldn't we lose a lot?"

Little Egg immediately clutched his little paw and said without hesitation, "Isn't that easy? If they don't have money, just pay the debt with items. Comrades, let's go! Let's take all the treasure in this house; all of them!"

With that said, without waiting for everyone's reaction, his little pink body had already rushed forward like a cannonball.

Bai Hu wanted to ask what "comrades" meant, but Little Egg had already run far away.

Because Little Egg rushed out, Little Golden Dragon, Purple Abyss Vine and Mo Xiaotu rushed out immediately without hesitation.

Only the best-behaved Xiao Li and the unresponsive Little Dumb Cow remained in place.

Li Zongming's face was distorted by their arrogant faces, but he didn't feel much fear for them in his heart.

Although the 2 in front of him were both at the Gold Core Stage, the Li Family had 5 Gold Core Stage cultivators. Even if Li Zhenyu was currently recovering from injuries, there were still 4 at the Gold Core Stage later stage.

As for the remaining few spiritual pets and women who didn't seem threatening, they wouldn't take them seriously.

They want to cause trouble in my Li Family with just these few guys? They are simply ignorant.

Li Zongming jumped up. A long sword appeared in his hand as he rushed toward Gu Liufeng.

He had already seen that Gu Liufeng had the highest cultivation among them, almost comparable to him.

As long as he killed Gu Liufeng first, the remaining people were simply not his opponent at all.

Gu Liufeng stood on the spot leisurely, he smirked slightly. The peach blossom eyes under the mask were gleaming as if they were shining with a different kind of light.

Just when Li Zongming's sword was about to pierce Gu Liufeng's heart, suddenly there was a bang from the tip of the sword.

The flying sword seemed to have hit an iron stone, and it bent and broke abruptly.

Before Li Zongming realized what had happened, a huge shadow already appeared in front of him.

Little Dumb Cow's body had grown for 100 times, then he used the most primitive attack, headbutt, on Li Zongming's head.

“Bang—“

With a loud noise, Li Zongming only felt dizzy. The spiritual power shield that he cast shook for a while. Under the intense pain in his internal organs, he spouted a mouthful of blood and fell to the ground.

But, how could Little Dumb Cow let him go so easily?

The huge body bounced on the ground like a ball. It rushed into the air, then it landed quickly, pressing on Li Zongming again.

Li Zongming seemed to hear the sound of his bones breaking, and he spouted a mouthful of blood. Finally, he couldn't take it and fainted.

At this moment, everyone in the Li Family was in a mess.

They didn't pay attention to Mo Xiaotu and the spiritual pets at all, they just wanted to focus on dealing with Gu Liufeng and Bai Hu.

But when they really fought, they found out that they were wrong.

Throughout the battle, Bai Hu and Gu Liufeng both stood leisurely and watched the show. It was the group of little guys who actually fought.

Little Dumb Cow knocked out Li Zongming who was at the Gold Core Stage later stage.

Mo Xiaotu's fist; whoever got hit knew the pain.

### **Chapter 1019: Turned Upside Down**

The most ruthless was actually Xiao Li who had the cutest look.

This was Xiao Li's first real battle after coming out of the Secret Realm. She tried to prove that she had other strengths in addition to using illusion. When those guards of the Meridians Stage and Foundation Establishment stage just got close to her, they were blown back instantly and fainted right away.

In just a short time, the entire Li Family was actually turned upside down.

Even the remaining 2 Gold Core Stage elders were defeated by Little Golden Dragon and Little Purple, they tied them together and threw them on the ground.

Little Egg and the other little ones rushed into the Li Family happily, searching every inch of the Li Family's corners and keeping all the valuables into the storage ring.

Little Purple searched everyone in Li Family and confiscated all of their storage rings.

Li Zongming had already woken up at this time. Seeing such a mess in his eyes; all the Li Family's disciples had been stripped, he really wanted to faint again.

"Father, what happened?!"

Li Zhenyu's voice came from outside the door. Seeing such a mess in the Li Family, he couldn't help exclaiming.

Bai Hu, who was counting the treasures that Little Purple looted, heard Li Zhenyu's voice and raised his head. He said with a half-smile, "Oh, Elder Li? I thought you had run to the Yunlan Sect to avoid the debt!"

Li Zhenyu saw Bai Hu and Gu Liufeng and quickly recognized their identities.

Thinking of the humiliation and embarrassment Xi Yue had caused him on the city wall, new hatred and old hatred suddenly surged up together.

"Bai Hu, Gu Liufeng, why are you doing this? You guys won the medical skill match and earned the fame and fortune, but now you even come to trouble my Li Family!? Don't you think this is too much!"

"Too much?" Bai Hu sneered as he took out the debt note and shook it. "We are just here to collect what we deserve. How is it too much?"

Li Zhenyu's face changed drastically when he saw the debt note in Bai Hu's hand.

At first, he knew that Nangong Yu had bet a lot of crystal stones on Xi Yue. He thought they were trying to help Xi Yue gain momentum, and he was full of disdain for their behavior.

In addition, Lu Zhixi intentionally talked about this in front of him with a sad face. Li Zhenyu wanted to please Zhixi, so he wrote a debt note to increase Lu Zhixi's win rate again.

In addition to helping Lu Zhixi build momentum and allowing rumors about Xi Yue to spread better, it was also because Li Zhenyu believed that Lu Zhixi would definitely win.

He was badly injured on the city wall and lost all his face, so he had forgotten the existence of this debt note.

Now seeing the debt note in Bai Hu's hand, he immediately looked shocked.

The number of crystal stones was simply a sky-high price. If he really wanted to pay it back, he probably needed to dismantle the entire Li Family and exchange it for money.

However, if Li Family was dismantled and lost all funds, what was left of Li Zhenyu?

Thinking of this, Li Zhenyu immediately gritted his teeth and said, "I don't know anything about this debt note!"

"You don't know?" Bai Hu sneered, "Hehe, it doesn't matter to us whether Young Master Li knows it or not. We just want to confirm that the seal belongs to the Li Family. Since Young Master Li wants to renege, we will just take all the things in the Li Family to pay the debt!"

**Chapter 1020: What's Left?**

Then he looked at the mess in his home and his father's dying look, his body trembled suddenly.

At this moment, Little Egg and Mo Xiaotu had searched everything and ran out happily.

Mo Xiaotu said, "Bai Hu, their marble is made of green jade. I heard from my grandfather that green jade can be used to make inscribed jade slip, which is of good value, so I dug out their floors and took them away."

Bai Hu immediately smiled and praised, "Little Rabbit is really smart, well done! When we return, I will let young master cook you a good meal!"

Mo Xiaotu immediately smiled delightedly.

Little Egg held his face with his paw and smiled, "They have planted a lot of precious spiritual grass in their backyard. I have pulled out all the spiritual grass. I believe mom will like it."

Xiao Li also got together with Little Egg and said in a gentle voice, "I also helped Aunty Little Purple to collect storage rings. I haven't missed any of them. Aunty Little Purple, right?"

The purple vine shook immediately, and she affectionately touched Xiao Li's little face.

Li Zhenyu, who listened to their conversation, felt dizzy and barely fainted on the ground.

Storage rings, spiritual grass, and even the green jade bricks, these people have taken them all. What is left in the Li Family? What is left for me, Li Zhenyu?

"Asshole, I will fight to the death with you—!!!" Li Zhenyu screamed. He even forgot to take out his spiritual weapon, and he rushed toward Bai Hu frantically.

Bai Hu didn't even move, but the purple vine rose up into the sky and whipped at Li Zhenyu's chest.

Li Zhenyu's ribs that healed just now made a crackling sound, and he flew out directly and collapsed to the ground.

Bai Hu laughed and waved his hand, "Since we have collected the debt, let's go back!"

The little ones responded in unison, each with their heads up and their chests tall; they seemed indescribable domineering.

Gu Liufeng slowly followed behind a few people and shook his head with a smile, but after walking a few steps, he suddenly turned around and looked at Li Zongming.

Li Zongming was sinisterly looking at Little Golden Dragon, Little Dumb Cow and the others.

Gu Liufeng's eyes dimmed. He frowned slightly, then he revealed a hint of sneer before catching up with Bai Hu and the others.

===

In Tian Gang Kingdom's Yongan City, the medical skills match between Hexi and Fairy Zhixi was known to everyone.

But in the remote Jin Ling Kingdom's Yanjing City, many people didn't know anything about this.

At this time, Feng Yunjing was also entering Yanjing City.

It was just that compared to when they came, they all disguised themselves.

On the streets of Yanjing City, 3 soldiers lined up patrolling from time to time.

These soldiers were wearing black armor with distinctive signs. Fengyun Jing recognized them as the Iron Kirin soldiers of King of Hell at a glance, and they were called Iron Kirin, the first elite army of the Miluo Continent.

A middle-aged man next to Feng Yunjing gently stroked his long beard and said in a deep voice, "It seems that the news is right. The King of Hell Mansion has now completely controlled the entire Yanjing City. Even the Imperial Guard who is in charge of protecting Yanjing City has also been replaced by Iron Kirin."
