#### Chapter 1111: Other Way

Everyone's faces were full of panic and fear, but they were looking at Chen Jiancheng with doubts and resentment.

If this person didn't do that, maybe the black bear would still be trapped up.

Chen Jiancheng shook his head and screamed after being looked at like this, "It's not my fault, not my fault! It's obvious that Wei Chengyuan's enchantment is useless, otherwise how could it not be able to trap the black bear. That five color liuyan can obviously kill all magic beasts below rank 6, how could it fail? That's not my fault at all! It's not my fault!"

Hexi glanced at him coldly, "The five color liuyan can indeed kill all magical beasts below rank 6, but this black bear has already advanced to rank 7. So your five color liuyan didn't kill it, it instead became a catalyst for its success advancement."

"W-what?! Rank 7 magical beast?!"

Everyone couldn't help but scream in disbelief, "Didn't you say that the highest rank magical beast in the Illusive Forest is only rank 6? How can there be a rank 7 magic beast?"

Hexi gave everyone a cold look, "So, you'd better stop expecting the academy to save us in a short time. The highest admission examiner of the Miracle Healer Academy is only the peak of Nascent Soul, which is lower than this black bear by 1 rank. Now the control of this secret realm has been completely taken away by this black bear, even the elders of the academy will not be able to enter in a short time."

"Then what are we going to do? Are we just waiting to die in there?"

"Wuuu... I don't want to die yet! I'm only 20 years old. I'm the most outstanding genius in our family. How can I die here!"

Wei Chengyuan said in a deep voice, "Xi Yue, even if this black bear is a rank 7 black bear, there are elders at the Nascent Soul later stage in the academy, so as long as they come, we can be saved, right?"

Hexi nodded, then she looked at Chen Jiancheng with cold eyes, "So originally, the dozen of us had great hope of survival. As long as Wei Chengyuan's enchantment could trap the black bear for a while, the academy will find the elders of the Nascent Soul later stage. By then, we will naturally be saved."

"However, the appearance of five color liuyan made the black bear advance successfully. For the rank 7 magic beast, killing us is just a matter of moments!"

As soon as Hexi's remarks came out, everyone glared at Chen Jiancheng fiercely, wishing they could tear him to pieces.

Chen Jiancheng now also knew what he had done. He was not ashamed, but he regretted it.

Although he wanted to win against Xi Yue and Chen Jiancheng, he cherished his own life more. Now that this black bear had become rank 7, didn't it mean that he would die in the secret realm.

I can't accept this result!

Hexi looked at Wei Chengyuan, "Wei Chengyuan, do you have any other way to subdue this black bear?"

Wei Chengyuan frowned and coughed lowly before saying, "There is another way. 13 of us can form a sword array. This sword array is very simple and can be learned without practice. Everyone just needs to stand in their respective positions, and it can play the biggest defense. Even the martial artists of Nascent Soul Stage can be resisted."

"Is there any difficulty in forming this sword array?"

Wei Chengyuan nodded, "Although sword array doesn't need to be practiced, it needs strong spiritual power support from martial artists, but in this Illusive Forest, we can't absorb and channel spiritual power well. This is the first difficulty."

#### **Chapter 1112: Can or Cannot**

Hexi nodded and said without hesitation, "Okay, just these 2 points, I will solve them."

As she said, she took out a dozen medicinal pills in her palm. The pills exuded a faint medicinal fragrance, "Medicinal pills, I will provide. This is a spirit healing pill that I have refined myself, one can be worth the effect of the 4th grade spirit healing pill, and it can last for a quarter of an hour to help absorb spiritual power. You let everyone take one."

What Hexi took out was actually five spiritual pills. In the past few days, she only had time to figure out how to make five spiritual pills, but she was interrupted by Chen Jiancheng and this black bear.

Wei Chengyuan's eyes widened in shock, "You... you refined these medicinal pills? But isn't this Illusive Forest unable to absorb spiritual power? I have tried to refine pill, but I couldn't succeed at all."

The others also looked at Hexi with suspicion in their eyes.

Hexi was only at the Foundation Establishment stage. How could he refine pills under such circumstances, and the spiritual power of the medicinal pills is so abundant.

Hexi sneered, "You guys are sure to discuss this issue with me at this time."

At the right time, the black bear in the distance finally relieved the pain and charged at them furiously.

Everyone shuddered. No one dared to hesitate and grab the medicinal pills from Hexi.

Even Chen Jiancheng wanted to shamelessly grab the medicinal pills, but he was kicked away by Hexi.

Hexi ignored Chen Jiancheng's roar and said to Wei Chengyuan, "The second difficulty, I will be the main attack, you guide them to form a formation. I will give you 10 minutes at most, can you do it?"

Wei Chengyuan opened his mouth wide with his lips trembling slightly, "Xi Yue, are you kidding me? You only are only at the Foundation Establishment stage..."

Hexi narrowed her eyes and said coldly, "Don't talk nonsense. You only have 2 answers, can or cannot?"

Wei Chengyuan stared blankly at the young man's clear phoenix eyes. There seemed to be clear lights flowing and rippling in his eyes.

She obviously looked weak, but when she showed that expression, it made people want to trust her unconditionally.

Wei Chengyuan suddenly seemed to be enchanted, and he replied, "Can-!"

Hexi slowly raised the corners of her mouth. She finally revealed the first sincere smile since the 2 met.

All Wei Chengyuan's thoughts were almost drowned in the young man's bright and confident smile.

===

In the monitoring room, everyone held their breath when they saw that Han Qianer was caught.

Although if Han Qianer was dead, Miracle Healer Academy could still handle it.

However, the students and elders who were responsible for the entrance examination might all be implicated.

Fortunately, Xi Yue arrived in time to save Han Qianer who was at stake.

As for how Xi Yue, who was obviously at the Foundation Establishment stage, had such powerful strength, they couldn't care much.

Only Cai Yu frowned slightly, and he clenched his fists.

"Da da da-" Quick footsteps came from not far away.

#### **Chapter 1113: Overestimating Themselves**

When Elder Qin saw the old man, he frowned and thought: Why is it him?

The boy in green clothes said while panting, "Master, I searched all the branches, and I only found the Branch Dean Zeng."

The Academy Student Council's members were still fine, but the elders looked awkward seeing this messy and wine-smelling person.

The old man hiccupped and said impatiently, "What happened? Why asked me over in a hurry? I'm sleeping soundly in my room!"

Elder Qin coughed, lowered his eyes and said, "Branch Dean Zeng, the matter is urgent. Sorry for disturbing your rest."

He pointed to the recording stone screen behind him and said solemnly, "In the Illusive Forest, a sleeping rank 6 black bear suddenly started to advance to rank 7, our... our cultivation is not enough, so we have lost control of the secret realm. Right now, those students who participated in the assessment are still in the secret realm, facing a life-and-death crisis. We have to ask Dean Zeng Fen for help."

"Rank 7 black bear?" The old man surnamed Zeng suddenly opened his eyes with fiery eyes.

He appeared in front of the image in a flash, frowning deeply as he looked at the candidates who were in fear and panic and the roaring black bear not far away.

"I can take back the control of the secret realm, but it will take at least 10 minutes." The old man said decisively, "Judging from the cultivation of these people in the secret realm, not to mention 10 minutes, they can't even last for 5 minutes."

Elder Qin and the other elders, despite being mentally prepared, still looked extremely ugly.

But now, there was no other way. They had to still do it.

Save as much as they could after regaining control of the secret realm.

Elder Qin gritted his teeth and said, "Branch Dean Zeng, please help."

Hearing this, the old man glanced at him with burning eyes, then he said with a deep smile, "Okay, bring me enough crystal stones."

Crystal stones of 5th grade and 6th grade were extremely rare outside, but as soon as Branch Dean Zeng spoke, the 5th grade and 6th grade crystal stones were sent in batches as if they were free of money.

The old man was about to start channeling spiritual power to invade the secret realm, then he suddenly fixed his gaze on the image with a somewhat shocked expression.

Because of the old man's expression, everyone turned their attention to the influence, and then their eyes widened, their faces full of disbelief.

Those little guys whose highest cultivation level is just at the Gold Core Stage, and the lowest cultivation level is even at the Foundation Establishment stage. Facing the rank 7 black bear, instead of running away, they even stand around the black bear in different directions.

The black bear looked at the people around it and let out a roaring roar. It wanted to smash all these weak creatures who dared to provoke it and hurt it again and again.

Someone from the Academy Student Council exclaimed, "Are they crazy? Why are they surrounding the black bear? Are they going to fight the black bear? How could they be the opponents of rank 7 magical beast? Shouldn't they run for their life to buy time now?"

The others nodded with faces full of worry and disapproval.

Even the elders above looked ugly. They secretly scolded these candidates for overestimating themselves.

#### **Chapter 1114: Tired of Living?**

Branch Dean Zeng glanced at Wei Chengyuan, then he shook his head, "However, what is the use of the formation? Without the main attacker, the formation will not be formed in time, and it will be destroyed by the black bear."

Sure enough, just as Branch Dean Zeng expected, the black bear didn't care what these weak two-legged creatures were doing around it. It just charged toward 1 person.

The huge palm swept toward a young examinee with a fierce gale. The examinee was so frightened that his face turned pale, his arms trembled, and his eyes were full of despair.

Many people in the monitoring room showed unbearable expressions.

It is impossible for these people to escape, and this little guy is the first victim.

“Eh—!” Before the expected bloody scene happened, Branch Dean Zeng suddenly exclaimed in surprise, “This... how is this possible? Who is this little guy?”

A blue figure approached silently behind the black bear.

When the black bear was about to slap the young examinee, a sharp sword light slashed on the black bear’s most vulnerable palm.

“Roar~~~~~” The shocking roar was mixed with incomparable anger and pain.

Obviously, the black bear’s almost invulnerable body was injured by the blue figure.

The black bear no longer bothered attacking the young examinee as it immediately turned around and charged at the blue figure.

Cai Yu looked at the blue figure. The originally clenched fists were clenched tightly again. He bit his teeth until his cheeks were aching.

He couldn’t describe how he felt at the moment. The behavior of this young man who disgusted him was beyond his expectations.

Xi Yue, Xi Yue! Are you a big villain? Or a truly peerless genius?

Standing next to Cai Yu, Zhang Chong finally saw the true face of the blue figure, and he couldn’t help exclaiming, “Xi Yue? How could it be Xi Yue of the Foundation Establishment stage? He... what is he doing? He actually provokes the black bear by himself? Is he tired of living?!”

Zhang Chong’s exclamation expressed the minds of everyone present.

Even Han Qianer of Gold Core Stage is no match for the black bear, what can this beautiful young man of the Foundation Establishment stage do?

But the next moment, everyone’s eyes widened in shock.

Zhang Chong opened his mouth even more, wishing to swallow everything he had just said.

There was a strange silence in the monitoring room, and it took a long time before someone blurted out to break the silence, “This can work too?!”

That’s right, this was the thought in the minds of everyone present.

Is this even possible to deal with the rank 7 black bear like this?

The screen displayed by the recording stone kept flickering, but everyone could still see it clearly.

In the eyes of everyone, Xi Yue’s figure had turned into a blue afterimage, spinning around the black bear.

From time to time, the black bear stretched out its huge palm and swooped toward the tiny Xi Yue, but it was often escaped by Xi Yue at a critical moment.

The black bear was getting more and more irritable and angry.

#### **Chapter 1115: Cut Off the Root Cause**

The black bear let out a painful growl and quickly retracted its tongue, but it was already a step too late...

Its tongue, which had been badly wounded, was injured even more again. It almost got rampage due to the pain.

However, when the black bear pounced on Xi Yue again, Xi Yue's figure once again turned into an afterimage and disappeared in front of its eyes.

If the black bear impatiently wanted to attack other people, Xi Yue would stop at the right time to attract the black bear's attention back.

In the monitoring room, someone swallowed his saliva and said, "I remember that the black bear has the weakness of slow movement, but its attack has the attribute of lightning, and the effect is very wide. Just a slight touch will cause one to be annihilated!"

The other pouted and said, "Slow? Why don't you go around the black bear and try it out? Although the speed of the black bear that has risen to rank 7 is incomparable to other magical beasts of the same rank, it is a Foundation Establishment Stage martial artist can deal with!"

"Interesting, really interesting!" The old man looked at Xi Yue, who kept walking around playing black bears, and Wei Chengyuan, who was instructing other candidates to form a formation, and sneered, "It seems that they can probably survive for 10 minutes. Since that's the case, I have to put some effort too."

After speaking, he sat down with his knees crossed, and his Divine Sense slowly extended toward the entrance of the secret realm. He never looked looking at the image again.

Elder Qin and the others all breathed a sigh of relief, but everyone's eyes on Xi Yue were full of complexity.

"Have you found out the details of this Xi Yue?"

Hearing Elder Qin's voice, Elder Fu, who was standing beside him, nodded quickly and passed an inscribed jade slip into his hand.

Elder Qin used Divine Sense to read, then he frowned immediately and said slowly, "Have a grudge with the Feng Family? He is close to Nangong Yu?"

A dark light flashed in his eyes, and the corner of his mouth raised a cold arc, "A Foundation Establishment Stage can have such speed and combat power, it seems that she has quite a few trump cards in her hands."

Elder Fu nodded and said, “The time is short, so we can’t find much information, but there are definitely a lot of secrets hidden in this Xi Yue. Just the best quality pill produced by Shengde Hall and the inheritance of the Purple Golden Palace in the Sealed Dragon Domain’s Secret Territory, he can’t be underestimated.”

Elder Qin gave a low smile. His eyes turned cold and deep, “I have heard Zhixi mentioned this person. Although I’m also very interested in many of his secrets, there are too many variables hidden in him. Keeping him alive may pose a threat to us, it is better to cut out the root cause now.”

Elder Fu’s expression froze. He closed his eyes without speaking.

At this moment, an exclamation suddenly sounded in the monitoring room, “Oh no, the black bear is going rampage!”

“My God! Is this Xi Yue crazy? Isn’t it safe to circle around the black bear?”

“It’s over, it’s too late to wait for Branch Dean Ceng to gain control of the secret realm!”

Elder Qin and Elder Fu were startled. They looked up quickly, and they both showed unbelievable expressions for a while.

In that image, the slender figure of the young man was as small as an ant compared to the huge body of the black bear.

But at this moment, the ant stepped on the black bear’s face and the other foot stepped on its nose, staring calmly at the black bear’s scarlet and frantic eyes.

#### **Chapter 1116: These Idiots**

Dark black blood flowed out, causing the black bear to twitch in pain.

“Roar~~~~~” The shocking roar shook the entire image of the recording stone. The situation in the Illusive Forest could no longer be seen.

===

In the Illusive Forest, Hexi held a long sword and swiftly retreated from the mad black bear.

As soon as her feet landed, she turned around and shouted, “Wei Chengyuan—!”

Wei Chengyuan was walking away from the last person he just instructed and returned to his position.

Hearing Hexi’s voice, Wei Chengyuan’s expression froze, and his slender fingers formed gestures, depicting a beautiful and strange rune in the air.

“Hell Seal—!” A clear whistling sounded, and the rune rushed straight toward the black bear.

At this time, the black bear had fallen into a state of complete madness, and the darkness and pain from its left eye made its anger soar to the peak.

The lightning that was originally released from its palm suddenly overflowed from its body.

Wherever the lightning went, earth and rocks burst, the grass was overturned, and the entire valley trembled.

Seeing that the rune was about to cover the black bear, trapping it completely in the formation.

But the lightning just happened to struck 1 of the examinee. The examinee was so scared that he actually forgot Wei Chengyuan's instructions and fell to the ground.

The rune that originally completely enveloped the black bear suddenly lacked a piece.

The black Bear slapped at the fallen examinee.

"Squash", the examinee was smashed to pieces. There wasn't even any residue left.

Wei Chengyuan's face turned even paler. He spat out a mouthful of blood with a desperate look.

All the candidates were stunned by the scene in front. The hope that was raised because of Hexi's excellent skills turned into panic and despair at this time.

Chen Jiancheng suddenly said sharply, "Xi Yue, it's all your fault! You could have kept distracting the black bear, then we can at least stall until someone comes to rescue. But you tried to be a hero and stabbed the black bear's eye. We are all dragged down by you. Now that the formation cannot be completed, it is you who caused us to die here!"

Chen Jiancheng's words made most of the people present look suspicious.

Just now, Xi Yue suddenly turned around and attacked the black bear's eye, making them puzzled.

If Xi Yue could keep the black bear under control, the black bear would not have gone rampage at all.

That innocent examinee didn't have to die!

"Stop it—!" Wei Chengyuan clutched his chest, and he suddenly gritted his teeth fiercely, "You idiots know sh\*t!"

The angry voice and words made the candidates stunned. They didn't understand why Wei Chengyuan, who should be most angry, should speak for Xi Yue.

Wei Chengyuan closed his eyes and glanced at Xi Yue, who still tried to look calm even though she looked pale and was sweating profusely. He took a deep breath and said slowly, "You don't understand why Xi Yue attacked the black bear? Then let me tell you the reason. It's because I'm too weak, and you all are too weak!"

"What?!"

"Wei Chengyuan, what do you mean by that?!" Chen Jiancheng gritted his teeth and said, "Just because you know Xi Yue well, you can speak for him regardless of facts and morals?"

### [The King of Hell's Genius Pampered Wife](#)

#### **Chapter 1117: Cooperate**

"Chen Jiancheng, you are the one who shouldn't talk! If you hadn't used five color liuyan on the black bear, would we have gotten to this point?!"

As soon as Wei Chengyuan said this, everyone immediately remembered what Chen Jiancheng had done. They looked at him as if they wished to smash him into pieces.

Han Qianer suddenly said, "Young Master Wei, what do you mean when you say Xi Yue is for us?"

Wei Chengyuan coughed, and his cheeks flushed abnormally. He said self-deprecatingly, "Although the formation I used is powerful, I was seriously injured when I trapped the black bear, and the cultivation of you guys is also uneven. This cannot exert the true power of the formation at all."

"I didn't say it at first, just because I never thought that we still had a chance; I never thought that the formation could be formed. However, I didn't expect that Xi Yue actually managed to contain the black bear, and he also discovered the weakness of the formation."

Wei Chengyuan looked at Xi Yue with a guilt face, "Xi Yue, did you hurt the black bear first because you knew that we couldn't trap the black bear with our immature formation?"

Everyone looked at Xi Yue with faces full of guilt.

The young man in front was frail, and his face was even paler than Wei Chengyuan's, making his face look more lonely and vulnerable at this time.

It was this Foundation Establishment Stage young man who held off the black bear by himself. He was always at the brink of death, and he had to think about them. Who knew he would be misunderstood by them like this.

Many people couldn't wait to slap themselves.

Who knows, the young man sneered instead of nodding, "This is just your whimsical thought. I didn't have much hope for this formation at all. I chose to take risks and hurt the black bear not for you guys, but it was to cooperate with someone outside who is trying to take control of the secret realm."

"What?" Wei Chengyuan's eyes widened in shock, then he suddenly realized, "That's right! As long as we hurt the black bear here, its ability to control the secret realm will be weakened, and the chance for us to escape will increase!"

As Wei Chengyuan was going to ask more, an angry roar came.

Of course, the broken runes couldn't hold back the black bear much, but it made him even more mad and angry that it wanted to die with everyone.

Lightning struck at them. 1 of the examinees was slowed by a beat, and he was engulfed by the lightning.

When the lightning dissipated, he had turned into a charred corpse.

Everyone was so frightened that they couldn't move, watching their companions die one after another without the ability to fight back.

Not to mention resistance, they couldn't even take a step.

Seeing the huge body of the black bear rushing over, the crowd screamed in despair.

Suddenly, they felt pain on their bodies, then they were tied into a ball and were ejected violently.

As soon as Hexi withdrew her whip, these people were thrown aside, then she rushed toward the black bear.

#### **Chapter 1118: Must Hold On**

Han Qianer looked at Xi Yue who rushed up to fight with the black bear, and she gritted her teeth, “Xi Yue has done enough. We have so many Gold Core Stage, how can we let a Foundation Establishment Stage save us?!”

After speaking, she jumped up and joined the battle.

Several other Gold Core Stage examinees looked at each other, and they calmed down, “We only need to hold on for a while! If Xi Yue alone is not enough to delay the time, then we will go together.”

“Yes, we have been cultivating for many years, is it just to hide behind a Foundation Establishment Stage young man?”

“We are the Gold Core Stage. We should at least stand up to protect the juniors of the Meridians Stage. Otherwise, if we enter the Miracle Healer Academy in the future, how do we the doubts of others.”

On the chaotic plain, all the Gold Core Stage candidates soared into the sky and flew toward the black bear.

The power of lightning made the black bear’s surroundings fill with smoke. These Gold Core Stage examinees were engulfed by the smoke as they rushed in. Their life or death was unknown.

The Meridians Stage examinees were all waiting outside. No one fled. They just looked at the direction of the black bear with red eyes.

Of all the people present, only Chen Jiancheng’s face was distorted. His eyes were full of resentment and unwillingness.

“Everyone, listen, we will be teleported right away!” Wei Chengyuan’s joyful voice suddenly came from not far away, and it clearly reached everyone’s ears, including those who were fighting desperately against the black bear in the smoke.

All the Gold Core Stages rushed up, but Wei Chengyuan didn’t move. He stayed where he was and formed an enchantment with the only monster essence pill left.

He wanted to get in touch with the elders of the college who was seizing control outside of the secret realm to save everyone.

Fortunately, he really got in touch with Dean Zeng’s Divine Sense.

Dean Zeng told them that the teleportation enchantment would be activated soon. All of them would be able to escape.

“Are... are we really going to be saved?”

“Very good!”

The Meridians Stage martial artists who remained outside burst into tears of joy and hugged each other.

Then someone shouted in the direction of the smoke, “Xi Yue, seniors of the Gold Core Stage, you must hold on. We will be out soon!”

The cheering voice resounded throughout the mountains and the secret realm. Even the roar of the black bear was overwhelmed by their voice.

That was their hope of survival.

In the audience, only Chen Jiancheng’s face was distorted. The hope to survive in his eyes was devoured bit by bit by jealousy and selfishness.

Suddenly, he sneaked into the smoke while everyone was not paying attention.

The thunderbolt kept sounding in their ears, but the shock and fear brought by the lightning could not affect the good mood of these examinees.

Hexi glanced at the injured people and said solemnly, “You all form a sword formation. We are going to retreat. I will hold this black bear first!”

“Yes-!”

“Xi Yue, be careful!”

Hexi was only at the Foundation Establishment Stage, but all the Gold Core Stage present did not question her order at all. Their eyes were even full of gratitude.

In just a few seconds, if it wasn’t for Xi Yue protecting them, they would have been killed by the black bear.

It was impossible to wait for the moment of surviving this.

How could they not be grateful of Xi Yue?

### [The King of Hell's Genius Pampered Wife](#)

#### **Chapter 1119: Swallowed!**

Xi Yue was very close to the black bear. While avoiding the attack of the bear’s paw and lightning, she kept attracting its attention, preventing it from attacking other examinees.

Suddenly, everyone felt that the air around them was turbulent as if there was some powerful collision that made the entire space unstable.

Outside the smoke, Wei Chengyuan’s surprised and eager voice came, “Everyone gets ready, we are leaving the secret realm!”

Wei Chengyuan’s words made everyone in the smoke overjoyed. The joy and pride of surviving the crisis made them put down the long swords in their hands. Their eyes were full of tears.

Even Hexi, while not completely letting down her guard like them, couldn’t help but let out a long sigh.

Rank 7 magical beast was really not something she could deal with now. She had no spiritual power left at all.

If this dragged for a few minutes, she would die in the hands of the black bear.

However, when everyone felt at ease.

The black bear slapped, and Hexi's body flying high in the sky dodged easily, but suddenly she felt a huge force coming from behind.

No! Not just 1! But 2!

Hexi was caught off guard. She wanted to mobilize spiritual power, but her spiritual power had long since exhausted.

Her entire body was pushed in the direction of the black bear helplessly.

She smelled a bloody stench, and the last thing she saw were the sharp teeth of the black bear and the scarred dark red tongue.

"Ahhh-!!"

"Xi Yue—!!!"

"How did it happen?!!"

The shrill and panicked shouts echoed in the valley, causing endless panic in the hearts of everyone outside the smoke who didn't know what was going on.

Wei Chengyuan had an ominous premonition in his heart when he heard them shouting Xi Yue.

Seeing that several people in the Gold Core Stage were pushed out by the black bear, he hurriedly stepped forward and said, "What happened?"

He glanced around, but he didn't see the familiar figure. He said with worried, "Where's Xi Yue?!"

From the smoke came the roar of the black bear, and lightning was launched on them.

Han Qianer was trembling all over. Her face was even uglier than when she was attacked by black bear just now, "Xi Yue... Xi Yue, he was swallowed by black bear!"

"What did you say?!" Wei Chengyuan was in shock. He almost said with a roar, "Stop joking?! How could Xi Yue..."

Han Qianer's eyes were red, and several other Gold Core Stage examinees were crying with regret.

Suddenly one of them gritted his teeth and said, "I saw it. I saw a pair of hands behind Xi Yue's back. Someone was trying to kill Xi Yue, but I didn't see that person clearly!"

Wei Chengyuan only felt a buzzing sound in his head, and he rushed toward the black bear without thinking.

"Are you crazy!" Someone hurriedly grabbed him, "Xi Yue can't be saved anymore. Wei Chengyuan, even if you go there, you can only die with him!"

“Yeah! Xi Yue doesn’t want you to do this either!”

Wei Chengyuan shoved them away. His eyes were filled with murderous intent, “If I know who is the one who attacked companion from behind, if I know who harmed Xi Yue, I will let him die horribly!”

After he finished speaking, he didn’t say a word, and he jumped toward the black bear.

However, at the moment Wei Chengyuan flew up, the air and spiritual power in the secret realm all violently fluctuated.

#### **Chapter 1120: Come Out**

The figures of the 10 remaining examinees disappeared 1 by 1 in the [Illusive Forest].

“Xi Yue—!!” Before Wei Chengyuan’s figure disappeared, he couldn’t help but let out a roar.

And Chen Jiancheng, who was hiding in the grass, showed a sinister smile and also disappeared into the secret realm.

===

In the square in front of Miracle Healer Academy, many people were waiting anxiously.

They were all relatives or servants of those who participated in the assessment this time, because the stipulated time for the second round of assessment was 10 days. Today was the last day.

Soon, the people they were waiting for came out.

But some came out intact, while others came out dead.

Some people lost their hope of entering the Miracle Healer Academy this year after this round of assessment, and some people joined the path to become a powerhouse.

So at this moment, all the people waiting outside looked solemn and anxious.

Even Bai Hu and the others were no exception.

“Qing Luan, don’t walk around in front of me anymore. I’m dizzy. Young master’s skills are so good. He will definitely pass a mere assessment in the secret realm!”

Qing Luan frowned and glared at him, “Don’t keep drinking water if you’re not worried! Who didn’t know that Bai Hu would keep drinking water whenever you’re nervous?”

Bai Hu laughed twice, put down the teacup in his hand, and glanced at Gu Liufeng on the side.

He found that only this guy was always calm. He was even holding the account book and inscribed jade slip to check Shengde Hall’s account.

However, after observing for a while, Bai Hu suddenly realized that Gu Liufeng had been looking at the page for almost a quarter of an hour. He didn’t turn the page at all.

“They are here! Look, the teleportation array is on!”

“How is that possible? There are still more than half an hour before the end of the assessment... Eh? The teleportation array is really lit on? Is the assessment really over?”

Everyone gathered in front of the 8 teleportation arrays.

After the white light flashed, several figures quickly appeared in front of everyone, accompanied by a strong smell of blood.

Everyone couldn't help but tremble when seeing their red eyes and the murderous intent.

What... what's going on? Why are there only so few people?

What about the rest?

Soon, their answers were answered.

The white light of the teleportation array lights up again, and there were many more things in the center of the teleportation array.

Yes, things.

Some were broken arms, some were half heads, some were broken pieces of meat, and some were half bodies.

A more intense bloody smell filled the square, making people want to spit it out.

Soon people in Miracle Healer Academy work clothes stepped forward and quickly cleaned up the corpses.

These candidates who died in [Illusive Forest] could no longer tell which parts were whose remains, so they could only be buried together.

At this time, the people in the square who were stunned by this scene finally reacted.

Someone couldn't help exclaiming, “What happened? Where's my brother? Why are only these few people coming out?”

“My young master is a Gold Core Stage? He is impossible to die. Where is my young master?”

There was a panic in the crowd.

Soon, in the barrier of Miracle Healer Academy, Elder Qin and the boy in green clothes slowly walked out.
