Chapter 1221: Troublemaker

Hexi sneered at the man in the Gold Core Stage in front of him, and he said slowly, “Why? Don’t want to make way? You want to taste the feeling of being thrown out? Or, you really want me to slice open your throat?”

Hexi never forgets it. Maybe she didn’t recognize him when she saw Tu Yonghao, but after searching in her memory, she quickly remembered it.

Isn’t he the Gold Core Stage student who provoked her and didn’t let me sit down in the Heaven Medical Branch?

It seemed that he didn’t learn from the previous lesson.

From Hexi’s right wrist, a purple vine flew out quietly and swayed slightly in the air, but her face was full of threatening half-smile.

Tu Yonghao only felt a burst of anger in his heart, but when he saw the young man’s cold eyes and the purple vine, his original anger turned into panic.

The students who were originally instructed by Tu Yonghao all backed away with disheartened faces. They were unwilling to provoke the troublemaker, Xi Yue.

Yeah, the person in front of him was Xi Yue.

Although she was also a student of Huang Medical Branch, Xi Yue was not expelled. She abandoned Heaven Medical Branch and ran to Huang Medical Branch. Many people saw Dean Li Chengqun trying his best to keep her, but he was rejected by Xi Yue.

Xi Yue’s strength shocked everyone even more. Even though she was only at the Foundation Establishment Stage, she defeated Feng Yunqing at the Gold Core Stage intermediate stage, and she was able to compete with rank 7 magical beast in Illusive Forest.

In addition to those who offended and framed Xi Yue at the beginning, Chen Jiancheng and Feng Yunqing were dead; Cai Yu was expelled to Spirit Extinct Valley for his lifetime; even Elder Qin and Elder Fu, one was kicked out of the Miracle Healer Academy and one was demoted to guard the equipment warehouse.

Everyone who offended Xi Yue didn’t end well, so how could they not be fearful of her?

Tu Yonghao felt the atmosphere around him, no matter how unwilling he was, he could only obediently back away under Xi Yue’s sneering gaze.

There was no obstacle in front of Hexi. She went straight to the heaven-level mission bulletin board. After looking around, she found that there was still a mission with a very high level of difficulty – collecting snow ganoderma grass. She didn’t even think about it before walking to the officer counter.

"I want to take the heaven-level mission to collect snow ganoderma grass, please help me register." As Hexi said, she took out her inscribed jade slip and handed it to the officer of the heaven-level mission area.

However, after she handed out her hand for a long time, the officer looked at her in a dazed. He didn't come back to his senses for a long time.

Hexi frowned and said displeasely, "Did you hear me?"

"Brother Xi Yue!" Before the officer could answer, a boy's delighted voice came from her ears.

Hexi turned around and met Zhang Yijing's adoring eyes, and she couldn't help but smile, "Little Yi, why are you here?"

Zhang Yi grabbed Zhang Chong and came to Hexi, "Brother Xi Yue, this is my brother Zhang Chong. My brother and I came here to take over the task."

Hexi glanced at Zhang Chong. He immediately lowered his head in shame, not knowing how to place his hands and feet in embarrassment.

For Xi Yue, Zhang Chong couldn't help but feel guilty. He had never done anything bad in his life, but he did something against his conscience on this young man.

Even if it was made up later, there was no way to offset the unease and regret.

Chapter 1222: Team Mission

Of course, Hexi recognized Zhang Chong, but she didn't have much anger. After all, Zhang Chong was just a pawn that was used by others. She just nodded slightly at Zhang Chong.

For Zhang Yi's sake, Hexi would not blame him.

Zhang Chong felt relieved when he saw the young man's natural smile.

Hexi's attention had turned to the mission. Zhang Yi saw this, and he remembered how these people made things difficult for him and his brother just now. He complained furiously, "Brother Xi Yue, they are too bad. Just now my brother and I came to accept the mission, they said that the students of Huang Medical Branch are only worthy of receiving the huang-level missions. No one wanted to process our request to accept the 4 upper level missions, and they even ridiculed us!"

Zhang Chong was a little stunned.

My younger brother, who was still afraid of causing trouble, actually... complained to Xi Yue with righteous indignation.

Moreover, my younger brother looks at Xi Yue with confidence as if he is not worried that Xi Yue will be in trouble.

Is this Xi Yue really so powerful?

“Oh?” Hexi responded with a slightly upturned voice as if mocking and sneering. She glanced at the officer, “I’m a student of the Huang Medical Branch, so I can’t take on the heaven-level mission, is that right?”

“No! No! No! Absolutely not!” The officer in charge of the heaven-level mission suddenly recovered his sense. His face turned pale, and he immediately denied it, “Accepting missions is the freedom of every student, we will never dare to change the rules without authorization. It’s just...”

“Just what?” Hexi raised her eyebrow, “Is there any problem with me taking this mission?”

“No... no problem.” The officer shook his head again and again, then he reminded cautiously, “It’s just that the heaven-level missions are very dangerous. In order to ensure the safety of the students, the academy has stipulated the conditions for accepting the heaven-level missions. That is, the number of people involved must be more than 10 to avoid too many casualties in the mission. Therefore, Xi... Student Xi, if you take the mission now, you have to gather 10 people. Only then we can initiate the teleportation array to send you guys to the mission location.”

This regulation was understandable. After all, the safety of students was still very important to Miracle Healer Academy.

For example, in this mission to collect snow ganoderma grass, the snow ganoderma grass was only rank 5, but it belonged to a kind of magical beast companion grass. Generally, there will be rank 6 magical beast next to the snow ganoderma grass, and more than one.

Rank 6 magical beast, even the martial artists of Nascent Soul Stage had some difficulty to deal with it, let alone Gold Core Stage students.

It was just this rule that stumped Hexi. She hadn’t been in the academy for long, so she had just known a few people.

Even if Zhang Yi, Zhang Chong, and Wei Chengyuan were included, there were only 4. Moreover, Wei Chengyuan had been busy arranging the diagnosis and treatment of the mysterious man recently. It was even a problem to see him.

Zhang Yi said without hesitation, “Brother Xi Yue, can my brother and I also participate?”

The corner of Zhang Chong’s mouth twitched. My brother decided for me without even asking me? He suddenly felt that his position in his younger brother’s mind had been left far behind by Xi Yue.

Holding the inscribed jade slip, Hexi said helplessly, “Even so, there are only 3 of us.”

Zhang Yi looked around and asked in a clear voice, “Any of you willing to do this heaven-level mission with us?”

Chapter 1223: 3 More

The students in the Immortal Mission Hall shook their heads one after another, secretly laughing at Zhang Yi for being ignorant. He didn’t understand the horror of the heaven-level mission at all.

However, Xi Yue was there, so they didn't dare to say bad words. They just took a step back, expressing their unwillingness.

Zhang Yi puffed up his cheeks depressedly. These people are really stupid! Brother Xi Yue is so powerful, he will definitely be able to complete the heaven-level mission. By then, won't they get a lot of points? You will regret missing such a good opportunity in vain, hmph!

Suddenly, Zhang Yi's eyes fell on Jin Zeyu. He suddenly remembered his brother saying that Jin Zeyu used to be so powerful.

Moreover, when they were bullied by Tu Yonghao and the others, they didn't give in, which made Zhang Yi both sympathize and admire them.

He ran in front of Jin Zeyu and said with shining eyes, "Would you like to join us in the heaven-level mission?"

Jin Zeyu was stunned for a moment. The boy's eyes were clear and his expression sincere. He didn't mean to ridicule him at all.

Jin Zeyu raised his head and looked at the mission of collecting snow ganoderma grass. That is snow ganoderma grass!

The originally dark and deep eyes fluctuated for a while, and there seemed to be a trace of emotion on the calm and unwavering face.

However, the surrounding discussions, especially Tu Yonghao's laughter, just came into his ears, "Hahaha, you actually asked Jin Zeyu to join the team? I advise you to change someone else. Otherwise, I don't know how miserable you will be during the mission!"

Jin Zeyu's eyes darkened. He looked at Zhang Yi and said softly, "You have seen it. My current cultivation is not stable even in the Meridian Stage intermediate stage. If I follow you, I will only drag you down."

Zhang Yi was stunned when he heard the words, and he immediately turned his inquiring eyes to Hexi.

Hexi glanced at Jin Zeyu and raised his eyebrows, "How many people do you have?"

Jin Zeyu was stunned for a moment. Before he could speak, a man beside him immediately said, "The 3 of us must follow boss to protect him!"

3 plus Jin Zeyu, that's 4? Great, so there are 7.

Hexi nodded happily, "Okay, Little Yi, convince them to join in!"

Jin Zeyu's eyes flickered, and he blurted out, "Didn't you see it? Our cultivation is only Meridians Stage, and Da Zhuang is seriously injured. He can't recover in a short time..."

Hexi glanced at the muscular man who was staggering back from the door, then she smirked, "It doesn't matter. He just has to come. As for the injury, it's just a small problem. It will definitely be cured before departing."

Zhang Yi pulled his eyes back from Hexi, looking at Jin Zeyu with a proud expression of 'look, my Brother Xi Yue is so cool, handsome and arrogant!', "Bro... Brother Jin, can you join us? Brother Xi Yue is very powerful. As long as he is there, we will definitely be able to complete the mission!"

Jin Zeyu looked stunned, stood for a long time, finally nodded and said, "Okay, we join!"

7 people, 3 more.

Hexi touched her chin with a headache. She glanced across the faces of everyone on the field.

She was thinking whether to feed someone with the hundred day death powder and threaten them to sign up first.

The students present felt immense stress being glanced by Hexi. They took a few steps back in fear.

Chapter 1224: Bunch of Trash

"Se... Senior Xi Yue, can I... can I join too?" A pale young man walked out of the crowd.

Hexi quickly recognized the young man. He was from the Huang Medical Branch too, and he was an acquaintance.

It was the young man who helped her processed the herbs when she was refining the blood healing pill some time ago.

The young man's face was still pale at this time. He walked up to Hexi anxiously, lowered his head and said, "Senior Xi Yue, my name is Fang Yuan. My 2 friends and I are willing to join, but... our cultivation is only at the Meridians Stage later stage. Moreover, except from refining some low grade medicinal pills, we can't do anything else. Senior Xi, can we join too?"

Hexi looked at the 2 people behind. Indeed, their cultivation and their roots were only average.

However, she didn't care about their cultivation at all because she could complete the mission on her own. Now all she lacked is the number of people.

So she smiled, "Okay, welcome to join."

Fang Fun was stunned for a moment, then there was a hint of ecstasy in his eyes.

But Fang Yuan's friend stepped forward and pulled him, then they said to Hexi anxiously, "Se... Senior Xi Yue, we can join, but if we can survive, can you promise us 1 thing?"

"Say it."

Fang Yuan had an anxious look on his face. He wanted to pull his friend back, but the young man's expression was firm, and he was less nervous. He said, "Senior Xi Yue, Fang Yuan has blood deficiency since young. No matter what medicine he takes, it is useless. The blood healing pill can relieve the pain, but it increases the fire poison in his body. Senior Xi Yue, I... I heard that your medical skills are very high, can you cure Fang Yuan's illness?"

"Blood deficiency?" Hexi smiled and said without hesitation, "Okay, no problem."

Without a trace of hesitation, she promised decisively.

Fang Yuan's body trembled heavily, and tears were rolling in his eyes, "Senior Xi Yue, can my illness really be cured?"

Before Hexi could speak, Zhang Yi rushed over and boasted, "Student Fang, don't worry. Brother Xi Yue's medical skills are amazing. My illness is much weirder than yours, but Brother Xi Yue only uses half a month to cure it. Your blood deficiency is not a terminal illness, so you must be fine!"

Fang Yuan nodded heavily when he heard the words. His friends also showed looked joyfu;

Qian Dazhuang and others on the side also heard Hexi's conversation. Qian Dazhuang couldn't help but grab Jin Zeyu's hand and said in a trembling voice, "Boss, did you hear that? They said that Xi Yue's medical skills are very high... "

Jin Zeyu's eyes lit up, but then dimmed again. A bitter smile emerged on his mouth.

Hexi no longer hesitated and immediately submitted the inscribed jade slip to let the officer register the mission.

The students on the side whispered gloatingly, "See, it's a whole team of Huang Medical Branch. If this kind of team can complete the heaven-level mission, that would be a miracle."

"Yeah! No matter how powerful Xi Yue is, with a group of Meridians Stage trash, what can he do! He will only drag himself down. Hahaha..."

Tu Yonghao looked even more sullen. He gave Jin Zeyu a cold look, waved to the person behind him and left.

Chapter 1225: Illness

The Sun Moon Mountain Range was located in the northwest of Miracle Healer Academy, not far from Miracle Healer Academy.

It was covered with green spiritual plants all year round, and the spiritual power in the mountains was strong, giving birth to a lot of magical beasts. Like the magical beasts in Breaking Spirit Mountain, the magical beasts here usually didn't have intelligence. They couldn't transform into human form.

Miracle Healer Academy had set up many enchantments and teleportation arrays in the Sun Moon Mountain Range for students to practice and find rare materials here.

Of course, because the magical beast level in the Sun Moon Mountain Range was usually relatively high, the difficulty level of missions related to this mountain range was relatively high.

The map that Hexi stole from Lu Zhixi also marked the Sun Moon Mountain Range, but it wasn't in detail. It only roughly differentiated the level area of ??the magical beast, and it also indicated the locations where the 5th grade spiritual grass might appear.

But that was already enough for Hexi.

She never backed down on the matter she decided. After confirming the approximate location of the snow ganoderma grass, she decided to set off the next day.

It was just dawn. The dormitory area of ??Huang Medical Branch was still in complete silence.

But in a dormitory in a remote area to the west, the lights were lit on amid a piercing cough.

“Boss, how are you? Is it the illness again?”

Qian Dazhuang, Chen Xiaofeng and the another one suddenly woke up from their sleep and rushed to Jin Zeyu’s bed.

Jin Zeyu’s face flushed with fright, and the heart-breaking cough couldn’t stop no matter what.

Qian Dazhuang hurriedly took a packet of medicinal powder from the side and wanted Jin Zeyu to eat it, but Jin Zeyu knocked it away.

The medicinal powder was scattered all over the place, and the powder filled the air, exuding a sweet floral fragrance.

Qian Dazhuang panicked, “Boss, you... what are you doing?”

Jin Zeyu coughed again for a while, and he spurted blood on the sheets and bedding.

Qian Dazhuang and Chen Xiaofeng looked at each other with ugly expressions.

However, Jin Zeyu finally recovered. His face had returned to normal, only the frightening purple was still on his lips.

.

Chen Xiaofeng said worriedly, “Boss, if you don’t take medicine, your next onset will be more serious. Moreover, that is the last package of medicine we have.”

There was a sneering wry smile at Jin Zeyu’s mouth, “You guys really didn’t find out? I have taken this medicine for so long, can it heal me? No, it will only completely destroy my body and cultivation little by little, turning me into complete trash.”

Qian Dazhuang and Chen Xiaofeng both showed sad expressions.

In fact, how could they not know the side effects of this medicine, but if he didn’t take the medicine, his illness would become more and more serious.

They and Jin Zeyu were brothers who had been through life and death. Watching their boss dying little by little, the feeling couldn’t even be described as burning with anxiety.

Jin Zeyu’s expression immediately regained his composure. He glanced out the window, and a faint light came in through the window.

“Dazhuang, is your injury really healed?”

Qian Dazhuang immediately patted his chest when he heard the words. He said with a face full of surprise, “Yeah, I’m fully recovered! Hey, boss, this kid named Xi Yue really has some skills. Previously if I

suffered such an injury, I need at least 8 days to recover. But after taking his medicine, I actually recover in one day. Not only that, I also feel that my spiritual power seems to become more pure and solid.”

Chapter 1226: Ignorant

Jin Zeyu’s brows moved slightly, and he murmured, “Xi Yue...”

Chen Xiaofeng reached out and grabbed the window edge of the upper bunk, and he looked at Jin Zeyu nervously, “Boss, do you think Xi Yue’s medical skills are really that high? If... if he can cure your disease... then...”

Qian Dazhuang’s eyes lit up, and he nodded again and again, “Boss, I think so too. As long as Xi Yue can cure your disease, even if he let us be his servant for a lifetime, we will do it!”

Jin Zeyu shook his head with a wry smile, “Don’t forget who caused my injury. No matter how good Xi Yue is, can he be better than that person? Can he heal the internal injuries he left behind?”

The dark and deep eyes slowly shrouded the numbness of despair and the unwillingness of resentment. He clenched his teeth tightly as if he wanted to tear something alive.

However, everything was like an ever ending dark night. There was no light of hope at all.

“The greater the hope, the greater the disappointment.” Jin Zeyu closed his eyes. His voice was indescribably desolate, “Forget it, this time we only need to protect ourselves and get a snow ganoderma grass. That’s enough. “

Chen Xiaofeng’s heart shuddered when he heard the words. His eyes were hot and wet. He slammed the wall with 1 hand.

He knew that boss had given up on himself. He agreed to join Xi Yue’s party in this heaven level mission, mainly because they could earn more points. He didn’t want to drag them down.

He wanted the snow ganoderma grass to let him advance, so he risked his life to pick it.

Chen Xiaofeng’s spiritual root attribute was the dual spiritual root of mutated ice and earth. Over the years, his cultivation had been stuck at the peak of Meridians Stage and couldn’t make any progress. That was because the cultivation environment and resources of Huang Medical Branch were really poor.

With snow ganoderma grass, Chen Xiaofeng could promote to the Gold Core Stage within half a year.

But, boss... is there really no cure for him?

In the morning, the teleportation array to the Sun Moon Mountain Range was already crowded with people.

Zhang Yi, Fang Yun and the others were waiting there early. All of them were excited.

Last night, Zhang Chong watched his silly brother stay up all night. He was so excited that he couldn’t sleep.

Now seeing Fang Yun and his 2 friends, he couldn’t help shaking his head helplessly and worriedly.

These little guys have been in the Huang Medical Branch all the time, so they don't even know the horror of the heaven level mission. They actually treat this mission like an outing.

But think about their team, except me and that Qian Dazhuang are at the Gold Core Stage, others are at the Meridians Stage. Oh, no! There is also a Xi Yue at the Foundation Establishment stage... How can such a party complete the heaven level mission?

It's already good that all of us don't die!

Do they see the gloating look of the students around?

Zhang Chong gritted his teeth and could only swear to himself that he would protect his younger brother no matter what, even sacrificing his own life.

When Jin Zeyu and his 3 subordinates arrived, the laughter grew louder.

"A bunch of rubbish from Huang Medical Branch dares to challenge the heaven level mission? Hahaha, they are so ignorant."

"Should we bet how many days they can stay in the Sun Moon Mountain Range before they run away like a dog?"

"How many days? I think they will be able to hold on even in a few hours. Especially when they even stupidly brought Jin Zeyu. That trash can't even take care of himself, what else can he do except be a burden? Hahaha"

Chapter 1227: Brain Is Crazy

"I think Xi Yue has been touted too much recently that his brain is crazy. He actually..."

Before the person could finish speaking, he suddenly felt a pain in his left cheek.

A terrifying killing intent came to him. The hair on the temple beside his left cheek fell, accompanied by hair that fell from his cheek.

The man trembled. His first reaction was not surprise and anger, but the fear of being completely suppressed.

Immediately afterward, everyone saw the beautiful young man toward them.

The dense long eyelashes were like small fans, gently drooping and lifting.

She glanced at the man whose temple hair was cut with ridicule and said with a smile, "I'm sorry, whose brain did you say is crazy? I didn't hear it clearly. Can you say it again?"

The soft and slow voice was so pleasant to the ear, but it made the student step back in fear.

His head was shaking anxiously and his eyes were full of fear, but he couldn't say a word for a long time.

Beside the teleportation array, there was silence.

Even if Heaven and Earth Medical Branch were dissatisfied with Xi Yue's arrogance, no one spoke up at this time.

Not only because offending Xi Yue on this trivial matter was not worth it, but also because the young man exuded an unmatched king aura, which made people inexplicably fear and surrender.

Hexi looked around. Seeing that no one spoke, he waved to Zhang Yi and the others, "Let's go."

The light of the teleportation array flickered and dimmed. The 10 figures disappeared without a trace in front of everyone.

This time, all people breathed a sigh of relief and looked at each other for a while. They couldn't even curse.

Someone couldn't help but mutter, "Why do I feel that facing Xi Yue is more stressful than facing President Lu Zhixi!"

There were also the Academy Student Council's officers among the onlookers. Hearing this, they complexion looked ugly. Xi Yue used her face slaps and strengths again and again to make the people in the Miracle Healer Academy dare not underestimate her.

After they got teleported away, the people who were watching the excitement naturally retreated.

However, after the crowd dispersed, a group of people quietly came to this teleportation array.

Each of these people was at the level of the Gold Core Stage. The young man leader even reached the Gold Core Stage later stage. He looked at the center of the teleportation array with scorching eyes and sneered, "Jin Zeyu, if you have been obediently staying in Miracle Healer Academy, I really can't do anything about you. I didn't expect that you want to look for death yourself. It seems to be your destiny to die in the Sun Moon Mountain Range!"

A young man dressed in Heaven Medical Branch beside him said in a low voice, "Brother Wu, I heard that Jin Zeyu enters the Sun Moon Mountain Range with Xi Yue. If we meet Xi Yue..."

"Hmph... that Xi Yue is just at the mere Foundation Establishment Stage. Why would our Brother Wu, the Gold Core Stage later stage, be afraid of him?" Another man next to the young man called Brother Wu sneered, "If Xi Yue doesn't meddle into our business, let him be. If he dares to stand up for Jin Zeyu, then don't blame us for being rude!"

Angkor sneered, "This time, no matter what, I will let that Jin Zeyu die in agony to repay the hatred for humiliating me. Let's go!"

After speaking, several people took out their inscribed jade slips and entered the teleportation array.

Chapter 1228: Reserved Food

A white shadow flashed somewhere in the Sun Moon Mountain Range, and the 10 figures of Hexi's party appeared on the field. It was a lush jungle.

Zhang Yi had lived in towns since he was a child. Apart from his experience in the entrance examination, he had never seen a real jungle and wilderness.

Fang Yuan and his friends were all focused on the spiritual herbs around him.

Fang Yuan threw himself on the ground, stoke a green spiritual herb, and said excitedly, "Is this the Sun Moon Mountain Range? It's really like what they said, there are spiritual herbs everywhere. Look, this is the grade 1 qiyang herb, and that... that is the grade 1 lingling flower. I have never seen so many herbs even in the medical field of Miracle Healer Academy."

"Bumpkin! Do you need to make a fuss about grade 1 spiritual herbs?"

Fang Yuan and his friends were amazed when a childish voice with contempt suddenly came from the side.

As soon as this sound came out, 9 people all looked over.

Around Xi Yue, there were 4... spiritual beasts, right?

A pink pig, a black magical beast dragon with the size of 2 palms, a pink fox with silver fur, and an indescribable ugly cow.

Everyone present looked at these 4 little animals and couldn't even describe their feelings.

But shouldn't spiritual beasts look like the domineering tiger, lion and dragon that were kept in the spiritual beast garden in the Miracle Healer Academy? This pig, cow, etc were in mini size. Were they still considered spiritual pets?

But if they weren't spiritual pets, how could Xi Yue take them out of thin air?

In the audience, Zhang Yi was probably the only one who thought they were very cute. Because of his talent in animal taming, he always felt that these 4 little ones were not easy.

"Brother Xi Yue, are these your spiritual pets?"

Hexi nodded and said helplessly, "Don't worry about them. We will do our own mission. These little guys are bored in the spirit beast space, so they have to come out for a stroll."

Standing beside Jin Zeyu, Chen Xiaofeng said worriedly, "But, the Sun Moon Mountain Range is very dangerous. Xi Yue, do you spiritual beasts have the ability to protect themselves? We don't have the ability to save them."

"Hmph—!" Chen Xiaofeng's good-hearted worries were exchanged for the disdainful eyes of Little Egg and Little Golden Dragon, "Who wants you to save me! With your cultivation, you aren't even worthy of holding shoes for me!"

As Little Egg said, he ran to Hexi's side, grabbed her trousers and said coquettishly, "Mom, there is no food left in the void, Little Egg can only eat crystal stones and spiritual fruits now. I can't even taste anything now."

The Hexi's mouth twitched, and she said angrily, "You still dare to say it! Who ate all the reserved food?"

This group of foodies who only know to eat, but can't grow up. I prepare so many delicious foods in the space, but I didn't even take a few bites... I only sent Nangong Yu a few portions, then these 4 little ones had finished them all.

Little Egg shrank his neck in a guilty conscience, then he crawled onto her neck to please. He smiled and said, "Don't be angry, mom. Aren't we here to stockpile food?"

"Right right!" Little Golden Dragon also flew to Hexi's ear, smiling flatteringly and saying expectantly, "Boss, you don't have to do anything on this journey. We promise to help you get rid of the magical beasts, but we still need boss to process them after getting the spiritual beast meat. Hehe... Boss, we haven't eaten your food for a few days. We're almost dying of hunger, so have pity on us!"

Chapter 1229: So Unlucky

Hexi put her arms around her chest and smiled slightly, "Okay, that's what you guys said. Before entering the snow ganoderma grass area, I won't do anything. You all have to do it all for me."

"Got it!"

"No problem!"

"Don't worry, young master. Just these spiritual beasts, we can definitely get it done."

"Moo moo... get it done!"

Zhang Chong and the others were stunned when they saw this conversation between the 5 spiritual pets.

The least scheming Qian Dazhuang couldn't help but be stunned, "My God, don't see that they are all so small, they have quite a big tone. They actually said that they can get the magical beast below rank 6 done? They won't get eaten by the magical beasts right?"

Chen Xiaofeng grabbed Qian Dazhuang and motioned him to stop talking nonsense and offended Xi Yue.

However, Qian Dazhuang suddenly rolled his eyes, leaned closer to Chen Xiaofeng and said with a low smile, "If Xi Yue's spiritual beasts are in danger and we rescue them, will Xi Yue treat our boss for the saving grace?"

Chen Xiaofeng rolled his eyes at him, but Qian Dazhuang felt that the idea was good. Therefore, they both followed behind the 4 little ones.

After walking a few miles into the center of the Sun Moon Mountain Range, Jin Zeyu suddenly said solemnly, "Be careful, there is a magical beast approaching, and the level is not low."

As soon as Jin Zeyu said these words, their expressions changed greatly, and they were all ready.

The only one who was at ease, without being worried or nervous at all, was Hexi, who condensed various shapes with water balls and flames while walking in order to practice her spiritual power control precision.

After a while, a magical beast's roar came with a strong coercion.

The ground began to shake slightly, accompanied by the violent shaking of trees.

At the end of the mountain wall not far away, an ugly magical beast with black wings soon appeared.

This magical beast had a pointed face, green eyes, no hair all over his body, slender limbs and bat-like wings.

Chen Xiaofeng breathed a sigh of relief, "Fortunately, it's just a rank 3 bat-winged beast."

As soon as he finished speaking, he was shocked immediately. The bat-winged beast slowly came forward, and its wings began to vibrate slightly.

The dust was flying behind it. When the dust settled, the second, third, fourth... bat-winged beasts all appeared.

Chen Xiaofeng's face turned pale. He muttered, "10... No, there are 12 rank 3 bat-winged beasts in total. What should we do?"

The attack power of bat-winged beasts was not particularly strong, and its defense was average, but the problem was that it could fly and attack from a distance.

Surrounded by 12 bat-winged beasts, although they wouldn't all be dead, with the strength of the team, there would definitely be casualties.

Zhang Chong's face turned gloomy. He took a step forward and said solemnly, "People with cultivation below the Meridians Stage find a place to hide. Qian Dazhuang and I will deal with them. Don't come out until the bat-winged beasts are killed!"

Qian Dazhuang nodded again and again and looked at Jin Zeyu worriedly, "Boss, you must be careful."

A look of humiliation and unwillingness flashed in Jin Zeyu's eyes, and he finally nodded in pain.

But before Jin Zeyu could speak, they heard the 4 adorable spiritual pets not far away, complaining one by one.

"What a bad luck. Why the first wave of magical beasts are these ugly magical beasts with little meat! Even if all 12 are killed, they won't be able to cook a few dishes!"

Chapter 1230: Murderous Magical Beasts

The little fox's weak voice also had regrets, "The taste of rank 3 magical beast meat is not as good as that of rank 4 magical beast meat, and it can't show the cooking skill of young master."

Little Egg had a crying face, "Wuuuu... Little Egg hates such an ugly magical beast. It doesn't look delicious at all. Will Little Egg have nightmares after eating it!"

Little Golden Dragon said impatiently, "Really noisy, do you want this meat or not?"

"Want!" Little Fox, Little Egg and Little Dumb Cow said in unison.

The little fox continued to add weakly, "Even if it's a mosquito, it will also have meat when there are many. What if there are no good ingredients in this Sun Moon Mountain Range, we better save them first."

As soon as Xiao Li said this, the 4 little ones reached an agreement.

Immediately afterward, without even stopping for a moment, the 4 figures all rushed toward the bat-winged beasts.

Everyone present, "... Is there something wrong with this script?

Qian Dazhuang suddenly woke up. He immediately shouted and rushed out anxiously, "Hey, you 4 little guys, don't run around! Those are rank 3 bat-winged beasts. You will be eaten. Come behind me and I'll protect..."

Before the last word "you" was uttered, Qian Dazhuang stood there in a daze.

No, it wasn't just Qian Dazhuang. Everyone present, except Xi Yue, widened their eyes in disbelief.

Qian Dazhuang even rubbed his eyes again and again. It took a long time before he uttered a curse, "What the fuck, are they still spiritual pets! They are clearly murderous beasts!"

That's right, it was a slaughter without resistance.

However, what was slaughtered was not the weak spiritual pets that everyone thought just now, but the 12 black bat-winged beasts.

There was a bloody and pungent smell in the air.

The corpses of the huge black bat-winged beasts fell from the sky one by one, making "bang bang bang" sound.

Soon, the ground was covered with their corpses.

The only 3 bat-winged beasts left in the air wanted to escape, but the Little Golden Dragon sneered, "3 idiots, you stepped into my bowl and still want to escape? Don't even dream about it!"

As soon as he said that, a sword aura transformed by lightning whistled and pierced the neck of 1 of the bat-winged beasts.

"Bang", the bat-winged beast's body fell to the ground, and a heavier smell of blood permeated.

Little Egg below wrinkled his nose and said angrily, "Little Dragon, why are you attacking their necks every time? It's such a waste that the blood has flowed out. Their blood can still be made into assorted soup!"

Little Golden Dragon was stunned in the air, then he retorted, "Their blood is too stinky. If you want to make assorted soup, of course find a better magical beast!"

While speaking, the last 2 bat-winged beasts also died and fell.

With a wave of Little Egg's little paw, all 12 bat-winged beasts were sent into the void.

“Mom, mom!” Little Egg ran back to Hexi with his short legs and asked excitedly, “Mom, can these bat-winged beasts make something delicious?”

Hexi put away the water ball that she had just cast and smiled leisurely, “Of course, the taste may be a bit like salt and pepper snake steak. You will know when I cook for you later.”

“Salt and pepper snake steak~~~” Little Egg sucked in his saliva. Suddenly, he became depressed. Why are there only 12 bat-winged beasts? If there were more, wouldn’t there be more points of salt and pepper snake steak? That’s delicious!
