#### Chapter 1241: Why All The Fuss

Zhang Yi pouted and muttered, "Hmph, they are just worse than Brother Xi Yue!"

Hexi fluttered down from the top of the tree. Jin Zeyu walked in front of her, and he said with a face full of guilt, "Xi Yue, I'm sorry, I drag you down, but I still thought you would be cruel to not let Da Zhuang heal..."

Hexi glanced at him and interrupted him, "You're just worried about your brother, no need to apologize. Besides, with your ability, you can't drag me down yet."

These words were domineering without giving face to Jin Zeyu, but Jin Zeyu felt relieved for no reason. He looked at Hexi with gratitude.

After being driven to Huang Medical Branch, his life was full of despair and grief.

However, since the appearance of this young man, something seemed to have changed.

Xi Yue's medic... Xi Yue's medical skills... Xi Yue's cultivation... he, is there really hope?

While thinking in a trance, Qian Dazhuang's voice suddenly came without hesitation, "Xi Yue, I heard that you are the young master of Shengde Hall? Does Shengde Hall have a medicine called bone muscle enhancement pill? Uhm, can... can you sell me a bottle of the best bone muscle enhancement pill? I'm willing to pay no matter how much it cost. Uhm, I will owe you if my crystal stones aren't enough, but I will definitely pay you back in the future!"

Hexi glanced at the stunned Jin Zeyu, then at the anxious Qian Dazhuang.

She glanced at Little Egg, and Little Egg immediately reached out and grabbed knowingly. A bottle of medicinal pills appeared in his little paw.

The short claw threw it hard, and the porcelain bottle drew a parabola and fell in Qian Dazhuang's hands. It was a completely careless move.

Qian Dazhuang was startled. He hurriedly reached out to grab it. A drop of cold sweat ran down his forehead.

This is the best bone muscle enhancement pill!

In Miracle Healer City, no, it's the best quality pill that everyone is raving about in the entire Miluo Continent.

Now, I actually own a whole bottle. Am I dreaming?

Little Egg was wondering why Qian Dazhuang was holding the porcelain vase as if holding a rare treasure. His hands were even trembling.

Isn't it just a bottle of medicinal pills? There is even no place in the void that they can only be piled directly in the Lingxiao Palace.

Why all the fuss?!

Little Egg's little head couldn't understand it, but he remembered that he had been thinking about the food cooked by his mother recently, and he hadn't "drugged" for several days.

So, the little paw grabbed again, but this time he grabbed a dozen bottles.

He threw them to Little Golden Dragon, Little Fox and Little Dumb Cow respectively.

Under the stunned gaze of everyone, these little ones were crunching the best quality pills overflowing with spirit like eating soybeans.

Qian Dazhuang looked that the bottle full of sweat in his hands, then he looked, with a tearful face, at the little ones eating the pills while complaining about the taste. a bottle of sweat-soaked baby medicinal pills in his hand, and looked at how these little guys kowtowed while still disapproving of the taste, and burst into tears.

This is too hateful!

"Bone muscle enhancement pill, it's useless to him." Just as he was complaining, a young man's transparent voice suddenly came from Qian Dazhuang's ears, "But it's useful for you guys."

Qian Dazhuang snapped back to his senses, no longer caring about the little guys who were eating the pills. He stared straight at Xi Yue with big eyes, "What... what did you just say?"

Hexi half-smiled, and she glanced at Jin Zeyu who was tense and straightened.

Chen Xiaofeng and Hong An also came back to their senses. They quickly asked, "Xi Yue, how do you know that bone muscle enhancement pill is useless for boss? Do... do you know what illness does boss have?"

### [The King of Hell's Genius Pampered Wife](#)

#### **Chapter 1242: Never Betray**

Qian Dazhuang also regained his senses at this time. He immediately squeezed the bone muscle enhancement pill in his hand and said urgently, "But Xi Yue, you... you don't know that boss' meridians were damaged a few years ago. If he can take the medicinal pills that can repair meridians, it can definitely..."

Hexi sneered and interrupted him. Her deep eyes looked at Jin Zeyu, "I think he knows better than anyone that the damage to the meridians is only a symptom, not the real cause. Otherwise, he would not drink poison to stop the poison for so long!"

Jin Zeyu shuddered violently. His hoarse voice was as if broken, "How... how did you know?!"

Hexi hadn't spoken yet, but Zhang Yi said with a face of 'I told you', "I've already said that Brother Xi Yue's medical skills are invincible! My illness was so strange back then, Brother Xi Yue could also see it at a glance."

Jin Zeyu's eyes trembled violently. A layer of redness appeared in his eyes. Tears were about to flow out because of his excitement.

His body and lips were trembling, and the muscles on his face could not be controlled, so he shivered for a long time before finally putting together a sentence, "Can... can you heal my body?"

Hexi put her arms around her chest and chuckled, "What do you think?"

Jin Zeyu bent his knees and knelt down in front of her with a thud. His choked and hoarse voice condensed his pain and hope over the years, "Xi Yue, please help me heal!"

Qian Dazhuang and the other 2 were still in a daze, but when they saw Jin Zeyu kneeling down, they finally realized something.

Qian Dazhuang said in disbelief, "Can it really be cured? Boss Jin's illness can really... can really be cured?"

No one answered his words. Chen Xiaofeng and Hong An didn't hesitate as they knelt down and kowtowed to Hexi.

Although Qian Dazhuang's reaction was slow, he wasn't stupid. He quickly realized it. He also followed suit and said loudly, "Xi Yue, as long as you can cure the boss' illness, I, Qian Dazhuang, are willing to be your servant and go through hell with you without hesitation!"

The expression on Hexi's face didn't change much. She glanced at Jin Zeyu and said slowly, "I don't mind saving people. As long as the person being saved is not someone I hate. However, I won't try to save a stranger and get myself into a mess. Jin Zeyu, do you understand what I mean?"

Jin Zeyu shuddered. The hope in his eyes slowly extinguished, turning into a deadly despair.

But Hexi said again, "After the mission is over, I can give you a chance. Tell me what happened. As long as you don't hide anything, I will treat you."

Jin Zeyu raised his head suddenly. He said tremblingly, "Even if... even if it will get you killed after knowing the truth?"

"Yes." Hexi nodded decisively, "I'm not afraid of being killed, I'm just afraid of saving the wrong person."

Jin Zeyu's eyes suddenly became hot. His red eyes looked directly at Hexi, and he said hoarsely, "Okay! Xi Yue, as long as you can cure my illness, I, Jin Zeyu, are willing to follow you and never betray!"

Hexi smiled lightly. She was like a scorching sun, making people unconsciously eager to get closer, but also afraid of being burned by the splendor, "I'll wait and see!"

The surprise cheers of the 3 came from their ears.

Jin Zeyu slammed his head down, his hands clenched into fists, and a hot tear seeped into the soil.

#### **Chapter 1243: It's Not That Hard**

"Chen Xiaofeng on the left increases the spiritual power barrier! Zhang Chong on the right don't let it rush out!"

"Fang Yuan, is the powder ready? Hurry up and spread it out!"

“Aiya, why are you so stupid! Attacking the magical beast like this will definitely drive it crazy! Can’t you all kill it in 1 move?”

Roar~~~~~

The sky-shattering roar resounded in the space. The four-horned rhino had red eyes, and its movements were frantic. A cloud of smoke was exhaled from its nose, then a flame shot out from its mouth toward the surrounding people.

Chen Xiaofeng and the others all looked pale, but there was no fear in their eyes. They all looked ready.

At the critical moment, a purple whip shadow descended from the sky, blocking the flame effortlessly.

The purple vine opened a small opening, greedily and contentedly swallowing the flame.

After a moment, the deadly flame disappeared without a trace.

“What are you still waiting for?” Little Golden Dragon, who was flying in the air, shouted angrily. “Boss has already helped you block the dying counterattack of the four-horned rhino, go and kill it right now?”

Only then did everyone wake up. Seeing the four-horned rhino gasping for breath and couldn’t stand still, they were overjoyed.

The sword light flickered; spiritual power was scattered all around; murderous aura was intense.

In the end, Qian Dazhuang swung the giant hammer, roared wildly, and slammed it down at the four-horned rhinoceros.

With a loud “bang”, the skull of the four-horned rhino shattered, dying instantly.

Happy cheers resounded through the sky.

Under the shade of a tree not far away, the beautiful young man, dressed in clean blue and white clothes, lay lazily in the shadows, flipping through the ancient books in his hands from time to time.

Jin Zeyu, who was sitting next to Hexi, did not participate in the battle. He looked at Xi Yue with gratitude, “Xi Yue, thank you for giving them the opportunity to improve their strength so quickly!”

Hexi just smiled lightly and didn’t mean to answer. Jin Zeyu looked at her beautiful and delicate face from the side, but he couldn’t help showing a trace of confusion in his eyes, “Xi Yue, what is your true cultivation?”

Hexi smiled and didn’t answer his words, but she closed the book in her hand and waved it, “Thank you for your book! If there are any more of this type, you can bring them to me in the future.”

This ancient book was accidentally given to Hexi by Jin Zeyu. It recorded neither cultivation methods nor pill formula, but some interesting anecdotes.

What interested Hexi was that in addition to some remote places in Miluo Continent, the ancient book also mentioned a small town in Siam Continent.

Many of the customs and customs described in it were completely different from Miluo Continent, but they also had a vague and distant feeling, which made people wonder if this was true or false.

Jin Zeyu immediately smiled and said, "I have seen this kind of book on the third floor of the academy library. If you are interested in Xi Yue, you can borrow it with your points."

Academy library?

While they were talking, Zhang Yi, Qian Dazhuang and the others were already running over excitedly.

Zhang Yi held a snow ganoderma grass in his hand and handed it to Hexi with a smile on his face, "Brother Xi Yue, this is already the fifth snow ganoderma grass? Hehe, it turns out that picking snow ganoderma grass is not so hard!"

Zhang Chong and Chen Xiaofeng, who came behind Zhang Yi, staggered at their feet. Their faces looked complicated and strange.

That is a heaven level mission, the disability rate is 100%, and the death rate is at least 20%.

### [The King of Hell's Genius Pampered Wife](#)

#### **Chapter 1244: Gain**

Zhang Yi actually said that this mission is not difficult?

Well, it's not difficult! This is the fifth snow ganoderma grass we have obtained, and it only took one day. If it is a difficult mission, I won't even admit it myself.

If I tell other students that the Heaven Level mission is very simple, I bet I will be beaten up badly.

Qian Dazhuang dragged the huge four-horned rhino back and said to Zhang Yi with a stupid smile, "Yeah, I also find it very strange, why is the Heaven Level mission so simple this time? Xi Yue doesn't even need to do anything, we alone can get rid of those magical beasts! Are those magical beasts really rank 6? Could it be that we got the rank wrong?"

"Nonsense!" Chen Xiaofeng glared at the stupid burly man and said, "You idiot, don't you understand? When dealing with the magical beasts, if it wasn't for Xi Yue to protect us with enchantment, do you think we can really fight the rank 6 magic beast? Like the last counterattack flame of the four-horned rhino, do you think you can stop it?"

"Oh Yeah!" Qian Dazhuang suddenly recalled it and looked at Xi Yue with admiration, "Xi Yue, thanks to you and the commands of your spirit beasts. It's such a pleasure to do mission with you! "

As he spoke, he threw the four-horned rhino in front of Little Egg and said with a grin, "Here, didn't you say you want monster essence pill and magical beast meat? I'll give you this too!"

Every time they picked snow ganoderma grass, they would definitely encounter the guardian magical beast; sometimes 1 and sometimes 2 or 3.

At first, when Qian Dazhuang and others saw rank 6 magical beast, they could only tremble, let alone organize an offensive.

They wholeheartedly hoped that Xi Yue or her spiritual pets could help so that they could finish this mission without breaking a sweat.

However, at this time, Xi Yue reversed her attitude of taking care of the overall situation. She sat on the side leisurely and let Little Golden Dragon command them to fight the magical beasts together.

The precious best quality pills were provided in unlimited quantities; the simple combined strike formation taught by Little Golden Dragon on the spot; in times of crisis, Xi Yue and Purple Abyss Vine would assist...

Slowly, everyone found that rank 6 magical beast was not so difficult to deal with.

From trembling in fear to slowly becoming more and more handy; even when facing the rank 5 magical beast, they could easily win with their own strength.

The only 1 who did not participate in the battle was Jin Zeyu, because Xi Yue determined that his illness would worsen every time he used spiritual power.

Therefore, Jin Zeyu, who was on the sidelines, knew better than anyone what Qian Dazhuang and the others had gained in this battle.

Fang Yun and one of his friends' strengths were promoted from the Meridian Stage intermediate stage to the later stage.

Zhang Yi could better grasp the breath of magical beasts to predict their next moves, and he could sense the low rank magical beast's emotions and subdue them.

Qian Dazhuang and Zhang Chong, although they had not advanced, their combat experience had improved by leaps and bounds. Now they could join forces to fight against the rank magical beast. Before that, Qian Dazhuang even found it difficult to fight against the rank 4 magical beast.

The ones who benefited the most were definitely Chen Xiaofeng and Hong An. Especially Chen Xiaofeng, after taking a large number of best quality pills, his gold core would form soon.

And all this was brought to them by Xi Yue!

### [The King of Hell's Genius Pampered Wife](#)

#### **Chapter 1245: Advancement**

Therefore, everyone present gave Little Egg and Xi Yue the magical beasts, monster essence pills and the snow ganoderma grass without any hesitation and unwillingness. The only thing left in their hearts was gratitude.

Little Egg happily put the four-horned rhino into the void.

Then he rolled his eyes and whispered a few words in Hexi's ear. Hexi smiled and whispered in his ear.

Little Egg stood up immediately, walked to the crowd with his short legs, threw a few medicine bottles on the ground, raised his chin and said proudly, "Mother said that we can't take other people's things for nothing. So these medicinal pills are all given to you! It's just to exchange the magical beast meats and monster essence pills with you!"

The whole place was silent. The wind blew through the leaves and made rustling sounds.

Suddenly, Qian Dazhuang swallowed his saliva and looked nervously at Little Egg, "Really... give them all to us?"

"Of course!" Little Egg waved his paws with a look of a local tyrant, "I didn't choose these medicinal pills at random. Mom said that it is good for you to advance. After taking them, you will advance to the Gold Core Stage. And you guys, the impurities in your bodies will be removed. Your cultivation will not be stagnant in the future."

The people who were being pointed looked at the pills with even more fiery eyes. They could no longer keep calm.

Little Egg smiled. He ignored everyone's reaction and ran back to Hexi to ask for her praise.

Little Egg's words were astonishingly accurate.

That night, Chen Xiaofeng, who took the medicinal pills given by Little Egg, began to advance.

The advancement lasted for 3 hours. Qian Dazhuang, Hong An and Jin Zeyu all guarding nervously beside him.

From the starry night until the dawn of the sky.

The brilliant colorful lights emanated from Chen Xiaofeng's body, and the air was filled with a strong spiritual power. If it wasn't for the Purple Abyss Vine enchantment, it would have attracted countless magical beasts.

Chen Xiaofeng opened his eyes. He channeled spiritual power in his body, feeling the Gold Core in his dantian, then he raised his head in a daze.

Seeing Jin Zeyu and Qian Dazhuang's worried gazes, Chen Xiaofeng suddenly felt a sore nose and choked: "Boss, I've advanced. I've really reached the Gold Core Stage."

"It's great! So great!" Qian Dazhuang danced with joy, then he couldn't help wiping his tears and laughed, "So many years, after so many years! Some of us finally took a step forward... wuwu... I always feel that we're about to come out of that quagmire!"

Chen Xiaofeng stood up, walked in front of Hexi and knelt down straight.

With tears in his eyes, he bent down deeply. His forehead slammed on the rough ground. The tears seeped into the soil. His hoarse voice carried indescribable sadness, fear and gratitude, "Xi Yue, thank you! Really thank you!"

Hexi frowned and said indifferently, "Can you simply kneel to someone else as a man? Your strength is accumulated over time. It has already reached a breakthrough point, so it has nothing to do with my pills."

Chen Xiaofeng wiped away his tears in embarrassment and stood up, turning to look at his 3 good brothers.

The three looked at each other for a while, then they hugged each other tightly. Their trembling bodies illustrated their excitement and their longing for the future.

The deadline for the mission was approaching. They took advantage of this last period of time to kill 2 more magical beasts and a snow ganoderma grass, then they were ready to leave with satisfaction.

#### **Chapter 1246: True Elite**

“Help—! Help!”

“Ah-! Don’t eat me, don’t, help me... stop it!!”

Suddenly, shrill screams and cries for help came from a distance.

Zhang Chong and the others looked at each other with surprise on their faces.

Chen Xiaofeng raised his eyebrows and said in a low voice, “You guys wait here, I’ll go and check it.”

Chen Xiaofeng’s agility was originally the highest among everyone except Xi Yue. Now that he had advanced to the Gold Core Stage, he was even more faster.

As soon as he said it, his figure disappeared like a gust of wind. Even his shadow couldn’t be seen.

After a short while, Chen Xiaofeng returned again. The screams also got closer and closer and sounded more and more frantic.

Chen Xiaofeng looked calm. He brushed off his clothes that had been ruffled by the wind, and he smiled slightly, “It’s a group of students from the Xuan Medical Branch who are being chased by the peak of rank 5 magical beast dark-patterned python! “

If Zhang Chong and others heard that, they would definitely be frightened and run away.

However, now it was the exact opposite.

The remaining 8 people were not moved when they heard the name of the dark-patterned python.

Instead, Zhang Yi asked innocently, “Are we going to save them?”

Chen Xiaofeng smiled, rubbed his chin and said, “I see that they have excellent magic weapons and powerful spell. 4 of them are even at the Gold Core Stage. I believe they must be the elites of Xuan Medical Branch. The students in the 4 upper courtyards have always looked down on us who come from the 4 lower courtyards. If we save them, their expression must be very funny.”

“I like watching those elites being ashamed!” Qian Dazhuang waved his hammer and said excitedly, “Let’s go and save these weaklings. Show them who are the real elites!”

While speaking, the students from the Xuan Medical Branch had already come to them.

The dark-patterned python also arrived.

The size of this giant python was indeed huge and frightening. It had a body as thick as a basin, and a huge head that spitting a red tongue.

Every time it swept, there would be an earth shattering noise. The trees all fell to the ground.

Almost all the people in Xuan Medical Branch were desperate. When they saw the figures of Hexi and others, they naturally rushed over to ask for help.

But when they got closer, they found that all of them were wearing Huang Medical Branch's costume, and they suddenly changed from surprise to despair.

A group of trash from the Huang Medical Branch, even if they were all fed to the pythons, it wouldn't buy much time for them to escape. In the end, they still had to die.

Just when the people in Xuan Medical Branch thought that Xi Yue and the others would follow them to run wild, a scene that stunned them happened.

The trash from the Huang Medical Branch jumped over them one by one. 8 people stood around the dark-patterned python and stopped its way.

A fiery fireball was launched on the eyelid of the dark-patterned python. Although it failed to hurt it, it still triggered it.

In the blink of an eye, the python shifted its target from the students of the Xuan Medical Branch to them.

Several students in Xuan Medical Branch looked at each other, confused by the scene in front of them. They even forgot to run for their lives in time.

"Are they crazy? They dare to attack the dark-patterned python? Don't they know that this is the peak of rank 5 magic beast?"

"Are the people of the Huang Medical Branch stupid or have they not been encountered a rank 5 magical beast before?"

### **[The King of Hell's Genius Pampered Wife](#)**

#### **Chapter 1247: Easy**

"Do they really think that with just 3 Gold Core Stage and 5 Meridians Stage can deal with a rank 5 magical beast?"

The students at Xuan Medical Branch thought they were crazy. If not, who would do such a thing?

Of course, there were also people who gloated over their misfortune, "Since they want to court death, it is not just right. With these dumbasses dragging the python, we can just run to the teleportation array!"

Other students of the Xuan Medical Branch nodded.

When they were about to slip away when suddenly, the painful and frantic cry of the dark-patterned python came from behind.

The violent crash was accompanied by the breaking of the roots of the towering giant tree and a violent shake. The students of the Xuan Medical Branch were unable to stand still.

They looked back in astonishment, then they were horrified to discover that the dark-patterned python that made them desperate was now heavily injured.

Especially its 2 eyes, which turned into a hollow, were gurgling blood.

At seven inches of it, a flying sword was also nailed on the spot. Zhang Chongzheng, who had just let go of his hand, rose into the air and landed steadily on the side.

A lazy voice came from the air, "Okay, its seven inches is being nailed, which means its cultivation has lost by half. It can no longer cast spell. Now all you have to do is to break its defense bit by bit and grind it to the death!"

Fang Yuan retracted the arm that had just been injured by the python, frowned and shook it.

His friend immediately asked, "Ah Yuan, are you alright?"

"I'm fine!" Fang Yuan said excitedly, "The poison given by senior Xi Yue is really good. It can actually corrode the high defense scales of the rank 5 magical beast!"

As he said, he looked at Zhang Yi gratefully, "Zhang Yi, thank you just now. If it wasn't for your beast-taming skill [Illusionary Mind], which stunned the dark-patterned python for a moment, I couldn't have poisoned it."

Zhang Yi had an innocent and happy smile on his face, and his voice was clear and bright, "You should thank Brother Xi Yue. Before yesterday I couldn't use the skill of [Illusionary Mind]! But I actually did it after eating the pills given by Brother Xi Yue. Brother Xi Yue is really amazing!"

The students of the Xuan Medical Branch could no longer run away.

They watched the dark-patterned python in front of them being ravaged by these 8 people little by little, losing its vitality little by little without resistance. They couldn't believe that this was the python that

However, the fact was right in front of them.

Every desperate attack of the dark-patterned python had earth-shaking power. They couldn't block a single hit of it at all.

But this group of people did it, and they did it very easily.

"Aren't they from the Huang Medical Branch? How the hell did they do it?"

Exclamations sounded in their mouths.

Afterward, someone saw the young man who was leaning against the tree trunk and reading a book not far away.

It was a few dozen meters away, and the space was filled with dust and bloody smell, but all these didn't affect the young man's leisure and comfort.

"Xi Yue—!" The man let out an inexplicable exclamation.

Afterward, all eyes of Xuan Medical Branch fell on Xi Yue.

"It's Xi Yue! That's right, it must be Xi Yue! It's him who gave the trash of the Huang Medical Branch so much power."

## The King of Hell's Genius Pampered Wife

### Chapter 1248: Envy

"I heard that his medical skills are superb, and his medicinal pills are even rarer."

"I heard that his cultivation is terrifyingly high. Even Feng Yunqing at the Gold Core Stage intermediate stage can't even resist his single blow."

"I always thought it was just a rumor, but it seems to be true?!"

Just when the students of the Xuan Medical Branch were in shock and awe.

There was a loud "bang" from the front.

The peak of the rank 5 magical beast was finally knocked down. Its huge head was cut off.

A pink pig ran over immediately. It waved its paw and collected the giant python corpse.

Afterward, more than a dozen bottles of medicinal pills were thrown to Qian Dazhuang and others without hesitation.

The students of the Xuan Medical Branch widened their eyes.

Many people knew that little pink pig. It was Xi Yue's spiritual pet, so the medicinal pills were given by Xi Yue.

Those are the best quality pills of the Shengde Hall!

Xi Yue just casually gave away a dozen bottles to the trash of the Huang Medical Branch without even blinking an eye?!

Then, someone suddenly discovered a fact that shocked them even more.

"I... isn't that Chen Xiaofeng? Isn't he at the Meridians Stage? Why is he at the Gold Core Stage now?"

"Yeah. I have met Chen Xiaofeng a few days ago. He is indeed at the Meridians Stage."

"Could it be that he advanced in just a few days? How... how is this possible?! Is it so easy to advance to the Gold Core Stage from the Meridians Stage?"

They moved their shocked eyes from Chen Xiaofeng to the medicinal pills that were instantly divided up.

They saw Qian Dazhuang and the others holding the medicinal pills with joy. Qian Dazhuang patted Hong An's shoulder and said, "Little An, I give you mine as well. You should eat more. Maybe you can advance like Xiaofeng in 2 days."

How could the students of the Xuan Medical Branch not understand now?

Chen Xiaofeng was able to advance; this group of 8 trashes could fight against the mighty rank 5 magic beast because of 1 person—Xi Yue!

The leader of the group had a burst of excitement on his face. He walked quickly to Xi Yue and bowed, "Thank you for your life-saving grace."

“Flap,” Hexi turned over a page of the book and read the box. She didn’t even bother looking at him.

There was an embarrassed look on the leader’s face, but there was no resentment. In fact, the scene that just happened gave him too much shock.

At this time, he only feared and envied Xi Yue; how could he feel resentment?

Jin Zeyu, who was sitting beside Hexi, smiled slightly and said, “Why are you being chased by the dark-patterned python?”

The leader was new to the academy a few years ago and didn’t know Jin Zeyu. Since he was sitting beside Xi Yue, he didn’t dare to neglect him and hurriedly said, “We found a rank five snow ganoderma grass and were about to pick it, then the dark-patterned python suddenly came out.”

Jin Zeyu nodded and said, “Do you remember the location of the snow ganoderma grass?”

Behind the leader, several students of the Xuan Medical Branch showed resentment. The dark-patterned python had been removed, and they were going to secretly pick the snow ganoderma grass later!

That was a rank 5 spiritual plant. It was so rare that it was almost impossible to find anywhere else in Miluo Continent except the Sun Moon Mountain Range.

If they could take one out, they would gain a huge fortune.

But the leader was clear that without Xi Yue’s help, they would have died in the belly of the python long ago.

### [The King of Hell's Genius Pampered Wife](#)

#### **Chapter 1249: Malicious Speculation**

Besides, they didn’t kill the python themselves, so the snow ganoderma grass wasn’t something they should be greedy for.

After thinking for a moment, he said solemnly, “I remember.” Then, he said the location of the snow ganoderma grass.

The teammates behind him desperately pulled his clothes, hoping that he would say the wrong location, but the leader did not hesitate.

Hexi, who was reading ancient books, suddenly closed the book and stood up. Her cold and clear gaze fell on the leader.

The leader swallowed, feeling nervous for no reason; he was even more nervous than facing the elder.

Hexi suddenly reached out and threw a porcelain bottle, and she said casually, “Your dual spiritual roots are conflicting with each other, causing impurities to stack in your spiritual roots, so your cultivation has been stucked in the intermediate stage of the Gold Core Stage. This is a grade 4 bone muscle enhancement pill that can help you break through the bottleneck. Just treat it as your compensation for giving me the snow ganoderma grass.”

After she finished speaking, she waved at the others and flew toward the direction of the snow ganoderma grass without stopping.

The leader stood there in a daze, holding the porcelain bottle in his hand. He couldn't say a single word for a while.

The student of Xuan Medical Branch next to him swallowed his saliva and muttered after a while, "I... I'm not dreaming right? This is the best quality bone muscle enhancement pill; a whole bottle of the best quality bone muscle enhancement pill?!"

The leader suddenly came back to his senses, suppressed the excitement in his heart and said to his teammates, "Our mission deadline is approaching, let's go to the teleportation array first. This bottle of medicinal pills is our common reward. When we leave this place, I will share it equally with everyone."

The students of Xuan Medical Branch looked eager and excited. They walked toward the teleportation array.

They thought they would be dead in the mouth of the python, but who knew that they not only did not die, but they also completed the mission and even got a bottle of the best quality bone muscle enhancement pill. It was really a blessing after escaping from the disaster!

The 5 days soon came to an end. The hall of the Immortal Mission Hall was unexpectedly crowded with people on this day.

Everyone's eyes fell on the Heaven Level mission – the hourglass to find snow ganoderma grass.

The deadline was getting closer and closer. It was less than an hour away.

But no one came to submit the mission at all, and there was no response from the teleportation array.

The onlookers all showed their gloating expressions. The students who were trembling in fear because of Xi Yue 5 days ago also began to whisper loudly.

"As I said earlier, it's impossible for their team to complete the Heaven Level mission! They haven't even gotten out until now, I'm afraid they have already died in the Sun Moon Mountain Range."

"In terms of strength, Xi Yue is really a genius, but he is too arrogant. He asked for such a result himself!"

"Hehe, is there a need to pity him? As long as he has a little brain, he will not refuse Dean Li's invitation to stay in Heaven Medical Branch instead of going to the trash Huang Medical Branch."

In this hall, there were also students from the Huang Medical Branch.

Everyone's unbridled ridicule and malicious speculation made them all look pale. They huddled in the corner, not daring to move.

Tu Yonghao was also in the crowd. His cold and vicious eyes looked at the hourglass not far away. He smiled grimly, "Jin Zeyu and the others of course can't come out alive. Wu Jinshui and the others have probably fed their corpses to the magical beasts! "

A Meridians Stage peak stage student next to Tu Yonghao heard the words and smiled flatteringly, “Brother Tu, your tactic is always excellent. This time, you can get rid of the trash Jin Zeyu and the scourge Xi Yue through other people’s hands. You are really clever!”

### [The King of Hell's Genius Pampered Wife](#)

#### **Chapter 1250: What Was Going On**

A smug and cheerful expression appeared on Tu Yonghao’s face.

Just as he was about to speak, a shocked voice came from a student beside him, “Someone is coming in! The strong smell of blood and the unique smell of grass and trees in the Sun Moon Mountain Range, they must have come to finish the mission!”

The cultivation methods that the student practised made him extremely sensitive to smell, so no one doubted his words.

Before the person entered the enchantment, Tu Yonghao had a gloomy face, “How is it possible? Did they really get away with it?!”

The other students in the Immortal Mission Hall also showed nervous expressions, looking at the door eagerly.

Soon, several figures walked into the hall.

When everyone saw their appearance, they suddenly laughed, “It turned out to be the group of Xuan Medical Branch people who took the Heaven Level mission! It’s not Xi Yue at all!”

It was the Xuan Medical Branch students who had just parted with Hexi in the Sun Moon Mountain Range.

At this time, each of them was tattered and scarred. The strong smell of blood and the tired look on their faces could not be concealed.

However, their eyes were full of excited smiles.

“I heard that the Heaven Level mission is also very dangerous. It is very likely that you will encounter rank 5 magical beasts. When these people took the mission, many elders were not optimistic to them. I didn’t expect them to actually succeed!”

“That’s thanks to the fact that their team has 4 Gold Core Stages, and the leader is even at the Gold Core Stage later stage. Unlike Xi Yue’s team, they only have 2 Gold Core Stage martial artists, and they dare to take Heaven Level mission? Hehe!”

“Right, even these Xuan Medical Branch students are scarred, how can Xi Yue and the others survive?”

Students from Xuan Medical Branch walked to the submission counter.

The leader was about to hand over the things, and there was an exclamation from behind.

“Xi Yue?!”

“Jin Zeyu—! They actually came back?”

Students of the Xuan Medical Branch turned around and saw Xi Yue and her party members.

Different from the people from Xuan Medical Branch, Xi Yue and the others were clean and tidy, their hair was not messy, and even their spiritual power was stable. They didn't look like they had gone through difficult battles at all.

The students in the Immortal Mission Hall were stunned with their eyes almost popping out.

How... how is this possible?! Xi Yue and the others actually all survived the Heaven Level mission? Not a single one is injured?

That's a Heaven Level mission!

"I got. They must have found a place to hide after they entered the Sun Moon Mountain Range! Then, they will say that they couldn't find snow ganoderma grass, isn't that a good excuse?"

"That's right! Just relying on the strength of these trashes, how can they all come back unscathed?"

The shock on the faces of the onlookers turned into contempt. Once they accepted Xi Yue's cowardly hiding setting, it all became very reasonable.

This group of students also believed in their own guesses. They looked at the 10 people with contempt.

But then, something unexpected happened.

The team leader of the Xuan Medical Branch, who was about to submit the mission, actually walked quickly to Xi Yue and bowed to her respectfully, "Xi Yue, you come out so soon? Why don't you submit the mission first?"

This move immediately made the onlookers who laughed at Xi Yue dumbfounded.

What is the situation? Why does the Gold Core Stage master of the Xuan Medical Branch bow to Xi Yue, the junior of the Foundation Establishment stage? He even used honorifics?
