#### Chapter 1351: Narrow Escape

Nangong Yu sneered and said with deep eyes, "You think it is so easy to devour the vitality of beastkin? Beastkin's vitality and soul are stronger than humans. Even if humans are 4 levels higher than beastkins, they may not be able to swallow it. If they do it by force, it will only destroy their bodies. Otherwise, with the greed of many people, how can they not covet such benefits. Unless..."

"Unless what?"

"Unless that beastkin trusts this person very much, and it even has the good intention of using its own vitality to heal the person's wounds and maintain his life at the beginning. At this time, if this person tries to ruthlessly devour the beastkin's vitality at the cost of his own cultivation, it may be possible. However, in this way, that beastkin with good intentions will end up in an extremely miserable end."

Hexi took a deep breath, "Requite kindness with enmity?"

"That's right!" Nangong Yu sneered, "It's simply ungrateful and cruel. So Xi Yue must be careful when facing person like Lu Xuyang."

Hexi nodded with a cold gleam in her eyes.

Then, some important information flashed across her mind, but it was just a glimpse. She couldn't grasp it anymore.

By the time Hexi and Nangong Yu arrived at the square, almost all the people from the other branches had already arrived.

This time, it wasn't just the students who came, almost 90% of the academy's deans and elders appeared on the square.

Moreover, Hexi also saw Zeng Shouyue, who was standing in front of him and the others, with a livid complexion and wounds on his body.

Seeing Xi Yue, Zeng Shouyue showed a trace of guilt and worry on his face. He stepped forward and said in a hoarse voice, "Xi Yue, when you arrive at the magical beast forest, you must follow me and don't run around."

Hexi nodded, then she frowned and said, "Dean, your injury?"

"It's nothing, just a minor injury." Zeng Shouyue said indifferently, "All the deans disagree with you all going to the magical beast forest for training, but the academy insists on this decision, and those bastards in the Mojing Pavilion..."

Having said that, Zeng Shouyue's voice stopped. He gritted his teeth to calm the anger in his heart, "In short, it has become a fact for you to go to the magical beast forest, but... Xi Yue, your cultivation is only at the Foundation Establishment stage, why don't you stay in the academy..."

As Zeng Shouyue was talking, Deputy Dean Jiang suddenly said from above, "Everyone, please listen to me. Most of you must already know the reason why you are gathered here today. That is to go to the magical beast forest for training."

As soon as the words "magical beast forest" came out, even those who knew the truth a long time ago were in an uproar.

That is the magical beast forest known as the human grave, even the martial artists at the Nascent Soul Stage could die in it.

Let alone these low-level students?

Deputy Dean Jiang's eyes were full of worry and panic, but the man in black next to him stepped forward and glanced at him coldly. He could only take a deep breath and continued, "This time, the training will be recorded in your assessment results this year. During the training process in the magical beast forest, whoever can capture the beastkin cubs alive will be directly promoted to the high-level academy and rewarded with 10,000 points. Those who perform particularly well will receive the slot of going to the Siam Continent."

As soon as these words were said, half of the originally worried people became excited and eager to try.

#### **Chapter 1352: Voluntary Registration**

These students are only under 30 years old, and most of them were inexperienced. They had always only heard about the horror of the magical beast forest, but they had not really realized the horror of this mission.

Now that they heard that capturing beastkin cubs alive would bring so many benefits, they had long forgotten about the danger.

Deputy Dean Jiang continued: "Besides, sending everyone to the magical beast forest is not disregarding everyone's safety. Deans from our 8 branches and several Nascent Soul elders from the academy will go with you. There are also several senior doctors from the Doctors Association. The academy will do everything possible to ensure everyone's safety."

This time, even the remaining half of the worried people were a little eager to try.

But they didn't see the pitiful and mocking eyes of the man in black above.

Deputy Dean Jiang breathed a sigh of relief and wiped the sweat from his forehead, "This training is a compulsory mission. Half of the people in each branch must go. Students above the the Gold Core Stage intermediate stage are not allowed to evade, otherwise they will be expelled from the academy. The remaining insufficient slots will be made up according to the power ranking. Of course, we also welcome those who voluntarily sign up. All voluntary signups, regardless of the final experience results, will receive an additional reward of 500 points."

"Okay, next, each branch will compile the list of participants. We will set off tomorrow by 7am."

7am? Hexi's eyes were full of astonishment.

*Isn't this too rush? It's like they can't wait to send all the students to the magical beast forest.*

Hexi was thinking, then Qian Dazhuang's voice came, "Xi Yue, shall we participate?"

Hexi turned around, raised her eyebrows and said, "Of course."

Wu Qi was now in a coma. If she wanted to cure him, apart from retrieving Wu Qi's Wood Vitality Pearl, the most likely way to find a way might be in the magical beast forest. She could take the opportunity to check it out.

Qian Dazhuang and others laughed immediately after hearing the words, "Great, Xi Yue will participate, then we will also volunteer to sign up!"

In fact, Qian Dazhuang, Jin Zeyu and others were all at the Gold Core Stage. In addition, there were few people in Huang Medical Branch, and there were very few Gold Core Stage. They must participate whether they volunteered or not.

But when they heard that Xi Yue was going together, they suddenly felt relieved.

Even Zhang Yi and Fang Yun, who had a lower level of cultivation, asked to sign up one after another.

Zeng Shouyue had been worried about what to do. If the students resisted, did he really have to kick them out?

But unexpectedly, in the end, just because Xi Yue said that she would go, more than half of the people in Huang Medical Branch wanted to sign up voluntarily.

"Great, I was worried about the danger of the magical beast forest just now. Now that Xi Yue is going too, I don't worry anymore."

"That's right! Xi Yue led Qian Dazhuang and a group of trash by herself back then to complete the Heaven Level mission with ease. Even the magical beast forest is nothing to be afraid of."

"Damn, who are you calling trash? I'll beat you up!"

"*Hahaha*, Dazhuang, don't even think of bullying me with your Gold Core Stage. I took the medicinal pills given by Xi Yue, plus this short period of training, I have now reached the Pseudo Gold Core Stage. After a while, I'm not afraid of you anymore!"

Different from the fearful and intriguing atmosphere of other branches, the Huang Medical Branch was full of laughter.

#### **Chapter 1353: Good, Very Good**

Zeng Shouyue stared blankly at the boys and girls laughing and cursing around Xi Yue. He couldn't believe that they were students from his own branch.

Once upon a time, these people were dispirited, cowardly and humble. They only wanted to escape when they encountered danger. When they saw the students in other branches, they were resentful and felt inferior.

But now, in just a few months, they had undergone such a big change.

And all of this was just because of—Xi Yue.

Zeng Shouyue was in a daze when suddenly a man's deep and cold voice came into his ears, "I'll join too."

Zeng Shouyue was startled by the sudden sound. When he turned around and saw the person who spoke, he was so frightened that he jumped back several meters before exclaiming, "Xuan... Xuan Mu?!"

That's right, the man in front of him was dressed in a black robe, his eyes were cold, and his stern face was expressionless. He was none other than Xuan Mu from the Huang Medical Branch?

Although Zeng Shouyue was a dean of Huang Medical Branch, he knew better than anyone else that Xuan Mu's cultivation level was far higher than him.

And his identity was even more... terrifying.

Zeng Shouyue took a deep breath and asked a little stammeringly, "Student Xuan Mu, what... what did you just say?"

Xuan Mu frowned, looking annoyed. He didn't want to talk more.

As he looked at Xi Yue, there was an imperceptible wave in his eyes, which seemed gentle and moved.

Xuan Mu smelled a conspiracy from the arrangement of the Miracle Healer Academy. He never wanted to be related to someone else, but this time, for the first time, he did not want anything to go wrong with Xi Yue. He wanted to protect her by his side.

Nangong Yu who was standing behind Hexi knew his intention immediately. He glared at him: *Xi'er is mine, so I will protect her. I don't need you to meddle in my business!*

Xuan Mu sneered: *None of your business!*

Seeing that Xuan Mu didn't speak, Zeng Shouyue was about to ask again tremblingly, then Qian Dazhuang, who was relatively heartless, yelled, "Dean Zeng, didn't you hear? Xuan Mu is also going to the magical beast forest. *Haha*, with Master Xuan Mu here, what magical beast are we afraid of!"

Zeng Shouyue still couldn't react to it, but after all, he was a Nascent Soul expert and a branch dean. His expression and voice quickly recovered from the shock.

"Xuan Mu, don't you never participate in the activities of the academy?"

Xuan Mu squinted with a hint of impatience.

Qian Dazhuang laughed heartlessly and said, "Isn't it obvious? Master Xuan Mu is worried about Xi Yue's safety! Isn't that right, Senior Xuan?"

Zhang Yi on the side also said in a childlike manner, "Senior Xuan Mu has always taken good care of Brother Xi Yue. In the past, Senior Xuan Mu never let other people live in Huang No. 1 Dormitory, but not Brother Xi Yue. Last time, Senior Xuan Mu stopped those villains from capturing Brother Xi Yue. The magical beast forest is so dangerous this time, of course Senior Xuan Mu will follow!"

Nangong Yu gritted his teeth: *Good, very good!*

*If this man with bad intentions is allowed to get close to Xi'er again, my name will not be Nangong Yu!*

He held Hexi firmly with one arm, showing his sovereignty.

Hexi was dumbfounded. *These people are really imaginative!*

At this time, Zeng Shouyue also remembered the scene of the theft of the Mojing Pavilion, and he immediately accepted this explanation very happily.

Indeed, with Xuan Mu present, the safety of the Huang Medical Branch was guaranteed by 50% more.

#### **Chapter 1354: Stupid**

However, at this time, a person shouted in a panic, "Brother Xuan Mu, why are you going? Don't you know that the magical beast forest is very dangerous! Can you and Brother Xi Yue don't go, okay?"

The young man's face was pale. His eyes were filled with real panic and worry. He rushed over in a hurry and wanted to grab Xuan Mu's sleeve to stop him.

The original harmonious and cheerful atmosphere of Huang Medical Branch was instantly destroyed.

Everyone looked at the inexplicably disruptive person with subtle expressions. Many whispered mockingly.

"This Tong Bing is really stupid. Who is Senior Xuan Mu? What is he? He actually calls Senior Xuan Mu brother? So disgusted!"

"I heard that he got into Miracle Healer Academy through the back door. This kind of person has no strength at all. What else can he do besides riding on someone's coattails?"

The voices of the people from Huang Medical Branch were not low, so Tong Bing of course heard them too.

Tears of shame, anger and embarrassment filled his eyes. He didn't understand why these people always used such malice to speculate and humiliate him.

Tong Bing wanted to escape from this painful place, but when he thought of Xuan Mu's safety, he held back his tears and let himself bear the humiliation to stay.

Seeing that Xuan Mu didn't even look at him, he wanted to go to Hexi and grab his sleeve, but he met Nangong Yu's cold and piercing eyes.

Tong Bing was so frightened that he could only take a step back and begged in a low voice, "Xi Yue, you are at the Foundation Establishment Stage like me, so we don't need to participate in this experience. As long as you don't go, Xuan Mu Brother won't take risks. Can... can we not go? With our Foundation Establishment Stage cultivation, we will only be their burden."

Before Hexi had time to say anything, Qian Dazhuang had already sneered mercilessly and said, "*Bah, you'll of course be our burden, but how can a trash like you compare yourself with Xi Yue.*"

“That’s right! Just don’t go if you’re afraid of death, why drag Xi Yue along with you? None of us expect you to go.”

“Yeah, won’t he drag us down if he comes?”

These ridicules became louder. Tong Bing felt a twinge of shame and anger at what they said. He looked at Xi Yue with tears in his eyes, hoping that he could clarify for him.

However, Xi Yue didn’t even look at him. She just talked to Nangong Yu on her own.

Xuan Mu didn’t even look at him; he only had Xi Yue in his eyes.

Tong Bing clenched his hands into fists with tears streaming down his face. He just felt that at this moment, the whole world was isolating and humiliating him, making him feel indescribably lonely and cold.

Those who had signed up all left to make preparations before departure.

Tong Bing stood there blankly. No one paid attention to his existence, let alone his tears and heartache.

After a long time, most of the students in the square left.

Tong Bing was about to go back in a daze when he suddenly heard a low and gentle male voice in his ear, “Tong Bing, people in this academy bullied you and humiliated you so much, don’t you want to take revenge? That Xi Yue, he is just a Foundation Establishment Stage like you, you should have what he has too. Don’t... don’t you want to revenge?”

Tong Bing’s breathing stopped suddenly. He suddenly turned his head with his mouth closing and opening without making a sound, but there was a scorching light coming from his eyes.

#### **Chapter 1355: Conspiracy**

“Father!” Lu Zhixi squatted in front of Lu Xuyang with a face full of unwillingness and panic and said, “Father, you know how scary and dangerous the magical beast forest is. Why do you want your daughter to go there?”

Lu Xuyang glanced at her with a gentle smile, but there was not much affection in his eyes. His words were full of kindness, “Zhixi, listen to father. You suffered several losses under that Xiyue, right?”

Lu Zhixi’s eyes were fixed, and a deep hatred and resentment flashed in her eyes. She raised her voice, “Xi Yue, that despicable and insidious villain, he just relies on the ancient pill formula obtained from the Sealed Dragon Domain!”

Lu Xuyang patted her lightly and said in disapproval: “Zhixi, what did I tell you? Never underestimate your enemies and don’t let your enemies have a chance to grow. Xi Yue and the existence of Shengde Hall are a great threat to our Doctors Association. We must get rid of this person.”

“This time will be the best opportunity.”

Lu Zhixi’s eyes suddenly lit up, and his expression became a little excited, “Father, you mean in the magical beast forest...”

A glimmer of light flashed across Lu Xuyang's eyes as he smirked, "This is the best chance to get rid of him. I have dispatched 80% of the Nascent Soul intermediate stage and later stage elders of the Doctors Association. They will all obey your orders. We will get that Xi Yue's life and the ancient pill formula in his hand. Zhixi, can you do it?"

Lu Zhixi was excited when she heard the words. Even her body trembled with excitement.

*Is the person, who made me taste humiliation and defeat for the first time in my life and me sleepless and jealous, finally going to die this time?*

However, Lu Zhixi immediately thought of something and said worriedly, "But I heard that Xuan Mu also signed up. Xuan Mu's strength is unfathomable, and he cares about that Xi Yue very much... Plus, there is also a mysterious guard with a high cultivation beside Xi Yue. I suspect the person is sent by King of Hell Nangong Yu..."

When she said these words, the jealousy in Lu Zhixi's heart was like ten thousand ants gnawing at her heart.

*Never mind that Nangong Yu does everything possible to protect Xi Yue, but why does Xuan Mu, who has never cared about anyone in the lower realm, look at Xi Yue with admiration?*

*Why am I not the one who got all this?*

Lu Xuyang was not worried when he heard the words, but he showed a more gentle and deep smile, "Don't worry, I have arranged everything. Whether it is the guard sent by Nangong Yu, Xuan Mu or the academy elders, they will all be transferred away. I also planted a kindling beside Xi Yue. I promise that when the time comes, I will burn him to ashes."

Lu Zhixi stood up abruptly and said in a trembling voice, "Father, please tell me what to do. As long as Xi Yue can be eliminated, I'm willing to venture into the magical beast forest!"

Lu Xuyang smiled with flickering eyes, and he slowly revealed his plan.

Early the next morning, almost half of the students of Miracle Healer Academy gathered in the square.

At this time, 2 airships had parked in the square.

These airships could accommodate thousands of people.

This trip to the magical beast forest was the biggest operation of Miracle Healer Academy in recent decades, so the airships, medicinal pills and magic weapons that could be prepared were the best.

All students participating in the training would receive a high-level storage bag from the academy, which contained many healing and spiritual power-replenishing medicinal pills, rank 6 or rank 7 magic weapons, and many high grade crystal stones.

**Chapter 1356: Too Disgusting**

Most of the students in Huang Medical Branch were poor. Although they had become a lot richer after doing missions with Qian Dazhuang and others during this period of time, they were still happy to see such a magnificent scene.

Everyone was laughing and joking when they got on the airship as if what they were going to was not the dangerous magical beast forest, but some kind of outing in the wild.

In fact, most of the students who participated in this trial were very relaxed. After all, there were so many elders and deans accompanying them.

In their subconscious minds, they felt that the crisis in the magical beast forest was far away from them.

Everyone didn't know what kind of terrible disaster they were about to encounter in the magical beast forest.

People in each branch were assigned to different cabins.

When the people from Huang Medical Branch entered their cabins, they all looked surprised.

Because there was an unexpected person in their cabin.

The straightforward Qian Dazhuang exclaimed when he saw this person, "Tong Bing, why are you here? Didn't you fear to death yesterday and refused to participate? What are you doing here? Aren't you dragging us down?"

Tong Bing originally put on a friendly and innocent smiling face when waiting for everyone to come in, but when he heard Qian Dazhuang's words, his expression suddenly became sullen. There was a faint mist in his eyes.

Fang Yun on the side frowned and said in a low voice, "Yesterday, I asked Dean Zeng for advice on pill formula, then Tong Bing suddenly came over and said that he wanted to join this trial. Dean Zeng persuaded him for a long time, telling him not to overreach himself, but he insisted to participate. He even said that since Brother Xuan Mu is going, he must be by his side to protect him. *Tch...*"

Fang Yun was kind by nature, so he didn't finish it, but a burst of laughter suddenly broke out in the cabin.

"Did I hear you right? Tong Bing, a cowardly scum, actually said he wants to protect Xuan Mu? Just try your best not to be trampled to death by the magical beast!"

"Brother Xuan Mu all day long, and you cried at almost everything. *Tch tch*, does he prefer the same gender and like Senior Xuan Mu?"

"No way?! This... is too disgusting! This weakling even fantasizes about getting the powerful Xuan Mu?"

Listening to everyone's merciless ridicule, Tong Bing trembled with shame and anger.

He opened his mouth, wanting to say: *Xi Yue also flirts with men, why don't you call him disgusting?*

*Why everyone is humiliating me with the utmost malice? Torture him? What the hell have I done wrong?*

At this moment, Xi Yue, Nangong Yu and Xuan Mu also entered the cabin.

Nangong Yu never concealed his possessiveness and pampering toward Xi Yue.

Therefore, as soon as the 3 of them entered, everyone found that Xi Yue's shoulder was being hugged by her inconspicuous guard.

When they walked to the couch on the side, everyone consciously stepped aside.

Nangong Yu took it for granted and sat down on the couch with Xi Yue in his arms, poured her a cup of spiritual tea, and gently combed her temples.

Xi Yue accepted all these services and tenderness, and she seemed to be at ease as if she had long been used to Nangong Yu's intimacy and pampering.

On the contrary, Xuan Mu, who was admired by everyone at Miracle Healer Academy, was left alone.

People from Huang Medical Branch couldn't help but secretly commented, "I always feel that Xi Yue's guard and Senior Xuan Mu have ulterior feelings for Xi Yue."

### [The King of Hell's Genius Pampered Wife](#)

#### **Chapter 1357: Envy**

A girl looked at Xi Yue's delicate smooth face, and she couldn't help muttering, "Xi Yue is so beautiful. Even if a man is attracted to him, it's reasonable! "

"Yeah! And Xi Yue is so powerful. He is almost omnipotent!"

Miluo Continent also had a lot of men who like men. Although the custom wasn't mainstream, it wasn't too shocking.

Compared with the obsession with men, the people of Huang Medical Branch paid more attention to—  
—

"But I think Xi Yue is too blind. Compared to his guard, isn't our Senior Xuan Mu more handsome, stronger, and more imposing?"

"That's right! I think Xi Yue and Senior Xuan Mu are a good match!"

"They are even roommates. Being together in the same room every day, they must have a good relationship..."

Suddenly, Nangong Yu exuded an aura so powerful that it made people tremble.

The entire cabin suddenly succumbed a strange silence. It was so quiet that everyone even held their breath in a panic.

Nangong Yu's cold gaze swept over the face of the person who just said that he was not a good match for Xi'er. His eyes seemed to be quenched with cold poison, making everyone who was being glared at shiver.

It wasn't until Hexi laughed out loud and gently shook Nangong Yu's hand that the atmosphere in the entire cabin returned to normal.

In fact, if His Royal Highness King of Hell regained his original appearance, he might be able to drop the jaws of everyone in this cabin.

At that time, they even felt that there was no man or woman in the world worthy to stand with such this amazing king.

Hexi pursed her lips. Her eyes gleamed with faint satisfaction and sweetness. She quietly grabbed the hand of the man behind her.

Tong Bing stared blankly at Xi Yue who was surrounded by everyone, smiling sweetly.

His heart was full of envy. Xi Yue was always the focus of the crowd, the darling of everyone.

He also likes men. They are disgusted about me, but when they talk about Xi Yue, they feel that Xi Yue and Xuan Mu are a good match.

As long as Xi Yue exists, I will always be like dust, being isolated and completely ignored.

Brother Xuan Mu never even look at him.

He remembered the person who asked him before departing: Entering Miracle Healer Academy with the Foundation Establishment stage is considered very good, but because of the existence of Xi Yue that you appear so incompetent, don't you hate him?

Tong Bing clenched his hands hidden in his sleeves. His nails were embedded deep into his flesh.

He was so jealous of Xi Yue to the point of hating her.

In the depths of the magical beast forest, there were towering trees all over the place. The forest was surrounded by clouds and mist all year round.

This was a forbidden place for humans and a holy place for beastkins. No human martial artist could enter this area, not even a demigod who had broken through to the Soul Splitting Stage.

So, no one knew that there was a palace on a clearing in this jungle.

This palace was not luxurious and noble but simple and elegant.

At this time, in the palace, a young man with long hair hanging down to the ground and gorgeous eyes was sitting at the top, looking down lazily.

Kneeling below were many good-looking boys and girls, but they more or less retained the characteristics of beastkin.

Some were ears, some were tails, and others were partial scales.

A beastkin could transform itself when it became an adult, but once it was severely damaged, it would reveal its real body and transfigure a part of its real body.

[The King of Hell's Genius Pampered Wife](#)

**Chapter 1358: Revenge**

A handsome young man knelt on the ground, but he had a dark scar on his face. His left hand hanging on the ground was severed too.

The young man said with a hoarse voice full of resentment and pain, "... those human beings are even more ruthless than the demons in hell. We watched our brothers and sisters die in their hands one by one, but there was nothing we could do. King, you must avenge us!"

After the young man finished speaking, he slammed his head on the ground.

The other beastkins who were kneeling behind the young man recalled their painful experience during this period and remembered those relatives and friends who had died. They cried bitterly and kept kowtowing while kneeling on the ground.

The man in red clothes sitting at the top breathed out slowly. He made a captivating smile, but his words were filled with malice, "Human beings are really getting more and more greedy and stupid. It seems that if we don't teach them a lesson, they will really think that we beastkin is easy to be bullied!"

At this moment, a girl kneeling behind the boy raised her head and said in a sobbing tone, "King, there are good people among humans too. This time, we were saved by 3 humans. Otherwise, we would be trapped in that dark dungeon until we die. "

The eyelashes of the man in red clothes trembled, and he said in a deep voice, "Our kind always repay kindness and enmity. Li Yu, do you know who saved you?"

The girl shook her head, bit her lips and said, "I don't know their identities, but if I meet them again, I can sense their smell..."

Before Li Yu could finish speaking, the boy who kowtowed first interrupted her abruptly and said hatefully, "King, although I don't know who saved us, I do know where is the person who harmed us!"

"Oh? Where?"

The young man suddenly raised his head, and his eyes were sparkling with blazing fire, "It's Miracle Healer Academy. I saw the plaque. We have been imprisoned in the courtyard of Miracle Healer Academy!"

The man in red clothes' eyes suddenly turned cold as he murmured, "Miracle Healer Academy, *hehe*. Miracle Healer Academy, very good! Really good!"

At this moment, a report came from outside the door.

A pangolin beastkin that was not fully transformed ran in, knelt down in front of the man in red clothes and said, "King, there are many human martial artists approaching the magical beast forest in airships."

The man in red clothes frowned and said, "Do you know who it is?"

The pangolin beastkin immediately nodded and said: "My subordinates have already sent skylark to investigate. It is the students and elders of Miracle Healer Academy who have come to practice in the magical beast forest, and they want to capture the beastkin cubs alive!"

"What?!"

“How dare they—!!”

As soon as the pangolin beastkin said this, all the beastkin in the palace were in an uproar.

The young man with broken arm even jumped up from the ground and said hatefully, “Those scum, those demons; they actually dare to come to the magical beast forest.”

The young man looked up at the man in red clothes. His eyes were full of burning hatred and pleading, “King, please let me personally lead the army of magical beasts and tear our enemies to pieces!”

The man in red clothes sneered and slowly stood up from his seat, “I didn’t go to them, but they even delivered themselves to our door. *Hehe*, good, this saves me a lot of trouble.”

“Feng Luan, remember, don’t kill them all at once, let them taste the pain that is worse than death.”

### [The King of Hell's Genius Pampered Wife](#)

#### **Chapter 1359: Bad Premonition**

“As King commands!” Feng Luan knelt on the ground excitedly. When he raised his head, his face was already twisted with hatred, “I will let them all taste the hellish fear and pain the moment they close their eyes!”

The speed of the airships was very fast. After only a day and a night of flying, the magical beast forest had already appeared in sight.

The magical beast forest occupied an unimaginably large area, almost across the borders of 5 countries in the Miluo Continent.

There were rare materials in the forest that were unimaginable outside, and this was one of the reasons why beastkins only lived in this place and rarely come out to attack the human kingdom.

Hexi stood on the deck and looked down. All she could see was the lush vegetation, and she couldn’t see the situation inside at all.

However, she frowned, “It’s so strange!”

Nangong Yu stepped forward, embraced her from behind and said softly, “What’s wrong?”

Hexi looked down, “Nangong Yu, you have entered the magical beast forest many times right?”

Nangong Yu nodded, “But it’s only the peripheral area, and I haven’t gone deep into the real hinterland.”

Hexi asked, “Is the magical beast forest you entered also like this?”

“What are you referring to?” Nangong Yu didn’t understand her for a while.

“Quiet, deathly quiet.” Hexi said in a deep voice, “Even if I release my Divine Sense, I can’t detect any aura of living things. Even these trees exude a smell of death.”

Nangong Yu was taken aback for a moment, then he let out his Divine Sense and his eyes also turned gloomy slightly.

He really didn't realize it before Hexi reminded him. Now that he examined it carefully, the magical beast forest was really terribly silent. It seemed to be shrouded in an ominous aura of death.

Hexi curled her fingers and tapped the ship's side lightly. Her delicate eyebrows were slightly frowned, "For some reason, I have a bad feeling."

At this moment, Wei Chengyuan came to look for Hexi. When he heard her words, he couldn't help but nervously said, "Xi Yue, did you notice something's wrong?"

Wei Chengyuan's voice was a little louder, which quickly attracted the attention of many people.

Hexi didn't hide it, but she just repeated her worries, "No matter how lush the vegetation is, it's impossible not to see a bird. This kind of quietness is like a pre-set trap, waiting for us to jump into it ourselves."

The people of the Huang Medical Branch had unconditional trust in Hexi. Hearing what she said, their expression immediately became dignified and anxious.

But immediately, a soft and pleasant female voice broke the atmosphere, "Xi Yue, I know you are just at the Foundation Establishment stage, so it is normal to be afraid of entering the magical beast forest, but you don't know anything about the magical beast forest at all. Magical beast forest is indeed dangerous, but the real danger lies in the depths of tens of miles deep in the forest. In this peripheral area, even if there are magical beasts and beastkins, they are not to be feared. You don't have to be so nervous that you even affect other people students' emotions."

Hexi looked up, not surprised that Lu Zhixi would speak at such a time.

She wasn't interested in talking nonsense with her either, so she just sneered, turned around and entered the cabin.

The people of the Huang Medical Branch followed behind Hexi without even looking at Lu Zhixi.

Among the remaining students, some agreed with Lu Zhixi and some were jealous of Xi Yue, but none of them dared to speak out.

Xi Yue had already proved her strength with her actions. There were very few people in this school who could beat her, but there were many who had been treated by him and had taken her medicinal pills.

### [The King of Hell's Genius Pampered Wife](#)

#### **Chapter 1360: Arrangement**

Lu Zhixi only felt that the rhetoric she brewed was like hitting the cotton.

She felt aggrieved that her body trembled slightly because of anger.

*Everyone used to listen to her, respected her and praised her in the past, but Xi Yue has stolen most of her limelight after coming in for a few months.*

*If this person is going to die, he must die in the magical beast forest!*

Soon, the airships hovered above the magical beast forest.

The airships shield opened, and each student and elder controlled their flying magic weapons to slowly descend from the sky.

Young men and women, with fluttering robes, descended from the sky. This scene was spectacular.

When the students of Miracle Healer Academy landed, they all maintained an elegant posture. There was a hint of self-satisfaction and arrogance on their faces.

They were the most anticipated and admired children in the Miluo Continent.

However, this group of people did not realize that in the darkness, there were many scarlet eyes staring at them, waiting to pull them into the abyss.

The last student landed in the forest, and the airships were kept away by Dean Li Chengqun.

The vegetation in the forest was dense. It was impossible to find a spacious open space to gather so many students.

However, when the first few elders landed, they had already waved their long swords and cut down all the surrounding trees.

Deputy Dean Jiang, who led the team, was also full of worries at first, but now he had checked within a radius of more than 10 kilometers and found that there were only some low and intermediate level magical beasts, and he was immediately relieved.

*It seems that this time the trip is not so dangerous.*

Although the magical beast forest was full of dangers, what really scared people was the high-level beastkin hidden deep in the forest. But those high-level beastkins had an agreement with the human powerhouses. Most of the time they would not come out at will.

Deputy Dean Jiang cleared his throat and explained the rules and arrangements of the operation to the students below.

In summary:

First, they were divided into 9 groups, namely the 8 branches of the academy and the elite class where Lu Zhixi and others belong, also known as the "pioneer branch" of Miracle Healer Academy.

Second, each group would be assigned a branch dean and 3-5 elders to protect the safety of the students.

Third, everyone's mission is to hunt beastkin cubs. When calculating the scores, they would be divided into individual and group calculations. The performance of everyone would be counted by Deputy Dean Jiang and academy elders in the dark.

Most people had no objection to this.

However, someone from the leading branch suddenly said, "Deputy Dean Jiang, I think, according to the strength of Senior Xuan Mu and Xi Yue, they should be assigned to our pioneer branch. Only us who have capable strength can cooperate with them well so as to better complete the mission!"

“Besides, there are only a few dozen people in Huang Medical Branch, and the overall strength is also obvious. With such a huge disparity in strength, it would be lucky if they don’t drag us down. Master Xuan Mu, Xi Yue, what do you think?”

As soon as this remark came out, the people of Huang Medical Branch suddenly rioted collectively. At the same time, they looked at Xuan Mu and Xi Yue with a little worry.

“Fuck you—!” Qian Dazhuang cursed angrily, “Our Huang Medical Branch can’t have people with powerful strength? Why should our people go to your group? You bastards can’t wait to see us all die in the magical beast forest right?”
