Chapter 1361: Very Dangerous

Chen Xiaofeng also sneered and said, “When you expelled Xi Yue from Heaven Medical Branch, why didn’t you say that he didn’t belong to Huang Medical Branch? Only now you such a thing? Won’t you feel embarrassed? Do you all even feel shameful!”

The young man from the pioneer branch who spoke looked pale. He said while bearing the humiliation, “Then even if Xi Yue stays in Huang Medical Branch, at least Senior Xuan Mu should join other branch. Even if it’s not our pioneer branch, he can join the Heaven or Earth Medical Branch! It would be too wasteful to let him be with a group of trash with the strength of senior!”

The young man’s words immediately made everyone in the other branches felt eager.

No one didn’t know about Xuan Mu’s strength. If he could joined their groups, whether it was their scores or safety, it would be guaranteed.

Tong Bing looked at Xuan Mu expectantly, thinking that as long as Xuan Mu’s brother went to another branch, he must follow. He would never leave Xuan Mu’s side.

All eyes fell on Xuan Mu.

However, Xuan Mu treated like they didn’t exist. Not to mention their sight, he didn’t even put these people into his eyes at all.

His eyes fell on Xi Yue as he said in a deep voice, “It’s dangerous here, follow me.”

As soon as these words came out, Nangong Yu’s eyes turned gloomy immediately. He looked over coldly: *Do I need you to protect my woman?*

But the people from Huang Medical Branch let out a long sigh of relief. There were smiles on their faces.

Zhang Yi, the youngest, even made a grimace at the people in the other branches and said with a grin, “Senior Xuan Mu is willing to come here only because Brother Xi Yue is here. He wants to protect Brother Xi Yue. You want Xuan Mu to go to your group? In your dream!”

The faces of the people in other branches all turned green due to shame, but the people of the Huang Medical Branch laughed loudly.

Zeng Shouyue was also in a happy mood. He even said generously, “If you really think it’s unfair, you don’t need to assign the accompanying elders to us. It’s enough for me to protect my students!”

Lu Zhixi’s face turned grim. She made a gesture to the people next to her.

Immediately, 2 Doctors Association elders and 1 academy elder stood up and said, “We are ordered to accompany and protect the students of Huang Medical Branch. This is our duty. We must follow.”

Of course, Zeng Shouyue would not object to 3 more people protecting the students. After receiving the inscribed jade slip for emergency help, he took the students of the Huang Medical Branch and left first.

Looking at these people leaving, Lu Zhixi showed a sneer.

Hexi walked side by side with Nangong Yu and Xuan Mu in the dense jungle.

The excited voice of the Huang Medical Branch could be heard from time to time in the distance as they hunted down low-level magical beasts.

Although hunting low-level magical beasts was not the mission of this trial, the inner core of magical beasts was very good for cultivation. Of course, they would not let them go.

Hexi looked around and frowned deeply.

Everything here is normal. There is no dead silence. Low-level magical beasts, birds, small animals, green vegetation; everything here is very similar to a normal mountain forest.

But why does it look so weird from a distance on the airship?

“Is it really my illusion?”

Hexi’s murmured voice was heard by Nangong Yu and Xuan Mu. Xuan Mu responded immediately, “No, this place... is very dangerous!”

Chapter 1362: Beastkin Cub

Tong Bing had been following behind the three of them step by step. He really wanted to stand beside Xuan Mu, and even being cuddled in his arms.

However, Tong Bing turned his eyes to Xi Yue. As long as Xi Yue was around, Xuan Mu wouldn’t even look at him.

Hearing Xuan Mu say that this place was very dangerous, Tong Bing shuddered subconsciously and wanted to step forward and grab Xuan Mu’s sleeve, but he silently withdrew his hand.

Nangong Yu didn’t bother to quarrel with Xuan Mu anymore. He frowned and said, “This place seems to be the same as other places in the magical beast forest, but I always have a strange feeling...”

Nangong Yu hadn’t finished speaking when an exclamation came not far away.

“Beastkin, it’s a beastkin cub. I found a beastkin cub that can transform. Everyone come here!”

As soon as these words came out, Hexi’s complexion changed slightly. Her figure flickered and disappeared in place.

Nangong Yu and Xuan Mu also disappeared at the same time.

No one cared about Tong Bing behind him, and no one gave him a hand. Everyone, including Xi Yue, seemed to have forgotten his existence.

Tong Bing’s eyes were slightly red. There was a flash of deep jealousy in his eyes. He enchanted his feet with a gale wind spell and quickly ran toward the direction of the sound.

It was not a student of Huang Medical Branch who found the beastkin cub, but a medicinal boy of an elder of the Doctors Association.

When Hexi arrived, she saw only a beautiful girl surrounded by dozens of people. Her face was full of panic.

This girl looked to be only 12 years old, not much older than Xiao Li, and her appearance was almost the same as that of a human child.

However, Hexi could detect the beastkin aura surging from this girl without using Divine Sense to investigate carefully.

The medicinal boy who found the girl said with excitement, "This beastkin cub has transformed so perfectly, the inherited bloodline must be very rare. Master, if we can catch her, President Lu will definitely..."

Before the medicinal boy finished speaking, he was glared at by Elder Chen of the Doctors Association and stopped talking immediately.

But Elder Chen was very excited. Their real purpose here was not to hunt beastkin cubs, but he also knew how eager the president and the people above were to get the inherited bloodline beastkin. If this beastkin could be caught, his future status in the Doctors Association... No, perhaps, he might still be favored by those above.

The students of Huang Medical Branch all showed expressions of unbearable.

Several girls even frowned and said, "Could we have made a mistake? This is obviously a little girl. We... we are so many, how can we attack a little girl?"

Elder Chen's medicinal boy snorted and said with a sneer, "Have you forgotten the purpose of this trip? The beastkin aura on this little beastkin is almost overflowing, and you still can't smell it? You guys are indeed trash?"

The students of Huang Medical Branch all had ugly faces.

The 2 elders of the Doctors Association also glanced at them contemptuously. Elder Chen took out a magic weapon similar to a whip and lashed at the surrounded little girl.

"Ah!" The little girl staggered and stumbled over, crying out in pain.

Her original legs also turned into the shape of a snake because of the pain.

"It's a snake beastkin, and it's a very rare amethyst snake in the Miluo Continent. *Hahaha*, we got a big one!"

Seeing the little girl transformed into a half-snake, Elder Chen became excited, "Quick, you guy surround her quickly. I want to put her in my Qian Kun Mirror."

Chapter 1363: There Are Traps

Most of the students of Huang Medical Branch showed a look of unbearable, some couldn't help but said, "Even if she is a beastkin, she is just a child. So many of us deal with a little girl, it's too..."

"Bah! What little girl!" Elder Chen's medicinal boy said with contempt and disgust, "If she is not of our race, her heart must be different. Beastkin is beastkin after all. They are born to be enslaved by us. They thought they could live like normal people by turning themselves into human appearance? Hehe, stop dreaming!"

The scene was silent. Even though the people from Huang Medical Branch felt pity, they all stopped their movements when they thought of the phrase "If she is not of our race, her heart must be different".

At this time, no one noticed that the little girl who was knocked down on the ground showed a cold and malicious light in her drooping eyes.

Seeing that Elder Chen was about to use the Qian Kun Mirror to take away the little beastkin, the little beastkin let out a strange cry, then she turned into a small snake and fled toward the distance.

"Hurry up, don't let her run away!" Elder Chen yelled and anxiously chased after her.

Although the people from Huang Medical Branch couldn't bear it, after remembering the purpose of this trip, they also chased after her.

Zeng Shouyue always felt that something was wrong, but before he could call the students back, those people had already hurriedly chased after her.

He stomped his feet, and he had no choice but to say to the rest of the crowd, "Follow me! Also, don't leave too far from me!"

The group of people clamored while chasing in the direction where the little snake fled.

Hexi, Nangong Yu and Xuan Mu also followed slowly with indescribable seriousness in their eyes.

They flew at low altitude at high speed for about 15 minutes, then Elder Chen suddenly screamed in front, "No, it's a trap!"

"Ahh!!" Followed by the miserable scream of the Medicinal Boy.

The scream was so sharp and terrifying that the hearts of everyone who were still flying forward were tense. There was a bit of fear on their faces.

The next moment, everyone felt a blur in front of their eyes. A mist rose from the forest, covering everyone.

The person who was originally flying in mid-air suddenly fell from the air, unable to fly anymore.

Zeng Shouyue got up from the ground in embarrassment and hurriedly looked around.

Everything in front was normal, and there didn't seem to be any fatal crisis, but there seemed to be a white mist in the distance.

However, when Zeng Shouyue was about to fly again, he found that he seemed to be suppressed by something.

Someone couldn't help asking in panic, "I seem to have heard a scream just now? What happened? Where's Elder Chen?"

As soon as this person finished speaking, everyone saw 2 figures ejected from the white mist in front and fell heavily in front of them.

Seeing these 2 people, everyone gasped in unison.

These 2 people were Elder Chen and his medicinal boy. Both of them were covered with scars.

Elder Chen was better. Although his head and face were covered with scars and blood, after he consumed a medicinal pill, the wounds began to heal slowly.

But that medicinal boy could almost be described as horrible.

His face was completely blood. His nose and ears had been bitten off by something, revealing jagged wounds.

One of his legs was missing, and it was bleeding. It seemed to be forcibly torn off by something.

Chapter 1364: Confinement Space

In addition, his abdomen was also cut open. The viscera, food residues and feces flowed out all over the floor, emitting a disgusting stench.

But the most frightening thing was that the medicinal boy was already like this, yet he was not dead yet. He had 1 eye open, looking forward in horror. He kept mumbling in an intermittent voice, "Help... help me....."

After Elder Chen healed his injury, he immediately took out medicinal pills to treat the medicinal boy.

However, the internal organs were destroyed, so the medicinal pills could not be absorbed by the medicinal boy at all.

Even if Elder Chen was a senior doctor of the Doctors Association, there was nothing he could do.

Suddenly, he looked up at Xi Yue and ordered eagerly, "Xi Yue, cure him! Quick!"

Hexi raised her eyebrows, and her expression was calm. She didn't even move a step. She just said indifferently, "Why?"

Elder Chen was choked by her attitude, then he was furious, "Did you forget that we are here to practice together? He is also your teammate, how can you refuse to save him?"

Before Hexi could speak, someone from the Huang Medical Branch said angrily, "Damn, you are the elder of the Doctors Association? You want Xi Yue to treat the person whom you can't cure? Won't you feel ashamed?"

“Hehe, it’s fine if you don’t have the skill to save people, but you even yell at Xi Yue? Is this the attitude you should have when asking for help?”

Elder Chen and another elder from the Doctors Association trembled angrily.

With this delay, the medicinal boy finally swallowed his last breath in unparalleled fear and pain.

Elder Chen stared at Hexi with resentment and said, “Xi Yue, you will face your retribution later for not saving him!”

“Enough!” Zeng Shouyue said coldly with a straight face, “Is this the time to argue about this? Don’t you realize that we are trapped in this place?”

As he said that, he turned his head to look at Elder Chen, “Elder Chen, what happened just now? Who attacked you?”

Elder Chen was stunned for a moment. A trace of fear flashed in his eyes. After a while, he whispered, “I... I don’t know.”

“Just now I chased the little beastkin to this ace, then the white mist suddenly appeared. Then, I heard the screams of my disciples. So I rushed into the white mist. When I came into the white mist, I couldn’t see anything, but I felt countless pairs of claws were attacking me and sharp teeth were biting my body.”

“If I didn’t self-destruct my magic weapon, I would be dead like my apprentice now.”

Elder Chen’s words made everyone’s eyes fall on the white mist.

The students of Huang Medical Branch showed panic expressions. After all, they were just children. Even though they had experienced ups and downs, they had never faced such a strange crisis.

At this moment, Hexi also frowned and said in a deep voice, “It seems that we were ambushed.”

Nangong Yu also nodded and said, “The little beastkin just now is obviously a bait.”

Hexi looked around, “What’s the matter with this white mist?”

Before Nangong Yu could speak, the Little Golden Dragon in the void had already uttered like a cannonball, “Boss, it’s the confinement space. My God, it’s even a very high-level confinement. And this space is not filled with spiritual power coercion, but beastkin aura. It seems to be jointly cast by high-level beastkins!”

Chapter 1365: King of the Forest

“Confinement space?” Hexi murmured and repeated.

Nangong Yu, who was about to speak, and Xuan Mu, who was silent, looked over in surprise.

Nangong Yu said, “Xi’er, you know about enclosed space?”

Because of Xuan Mu’s presence, Hexi couldn’t explain it, so she could only vaguely say, “I’ve seen something similar in ancient books before.”

Nangong Yu nodded and said, "This is exactly a confinement space, and it is cast by beastkin."

"Is there a way to crack it?"

Nangong Yu frowned, "If we didn't enter the enclosed space, it would be easy to break the array. But now that we are deep inside the array, it will be a little troublesome."

Hexi looked at Nangong Yu, then at Xuan Mu. Her face also looked solemn.

Xuan Mu, who had always been reticent, suddenly said coldly, "Only beastkins above rank 9 can activate the confinement space."

Hexi gasped.

A rank 7 magical beast is already extremely difficult for me to deal with. A beastkin who is above rank 9 and is much stronger and smarter than the magical beast, what kind of overpowered existence is that?

Nangong Yu hugged her into his arms and said softly, "Don't be afraid, as long as I'm here, no one can hurt you."

As they were talking, there was a faint clamor and screams in the distance.

"Everyone be careful, there is an ambush—! It's a high level array!"

Hexi frowned. She heard Wei Chengyuan's voice. It seemed that not only Huang Medical Branch was caught in this trap, but most likely the entire Miracle Healer Academy.

What on earth are the beastkins in the magical beast forest trying to do? Do they... want to wipe us out?

As soon as Hexi thought of this, Hexi saw a large group of people thrown in by some powerful force.

This time it was the students of the Heaven Medical Branch.

Compared with the people in Huang Medical Branch, among this group of people, there were 4 people who were injured as badly as Elder Chen's medicinal boy.

Every one of them was bloody, missing arms and legs, and even disemboweled.

They were dead before their companions could feed them medicinal pills.

Wei Chengyuan got up from the ground carrying the dust, looked around, and soon saw Hexi.

"Xi Yue, you're here too." Wei Chengyuan rushed over happily, "What kind of place is this? Why are you..."

Hexi glanced at the group of students who died miserably and frowned, "Did you meet beastkin cubs and chase them here?"

Wei Chengyuan's eyes widened, "You too?"

He looked around with a gloomy face, "Although I don't know the array here, this array is very profound. I can't even find the center and eyes of the array. Is this... a trap for us? Who is setting us up?"

“What? This is a trap?” The students of Heaven Medical Branch were surprised and angry when they heard Wei Chengyuan’s words, “Who is so vicious to set a trap against our Miracle Healer Academy? Are they tired of living?”

Hexi squinted, feeling a little surprised, “This is the magical beast forest. No human can do whatever they want here, except... the king beastkin of this forest.”

“Beastkin?” Wei Chengyuan showed a look of shock, “Xi Yue, you mean, it is a who set the trap for us?”

“How is it possible?!” Someone immediately retorted, “Even if those beastkins can transfigure human form, they are still just animals! I admit that their strength is good, but how can they have the brains to set such a trap?”

[The King of Hell's Genius Pampered Wife](#)

Chapter 1366: Explore the Way

“Yeah! Beastkins are just animals after all. The best they can do is to stay with us as spiritual pets. *Hehe*, where did they get the brains to plot against us?”

Hexi frowned, looking at this group of people like looking at fools.

Wei Chengyuan, Zeng Shouyue, and most of the Huang Medical Branch were lost in thought. They all had solemn expressions.

There were always someone who thought they were superior. They felt that beastkins were born stupid and inferior to themselves. They were still ignorant even at this point.

In the void, Little Golden Dragon originally planned to come out to see if he could help break the array.

Hearing these people’s words, he immediately burst into a rage and refused to come out.

Xiao Li even said with a serious face, “These scumbags are worse than animals. They should all be damned!”

If it weren't for these greedy and stupid human beings, how could Wu Qi be in such an unknown state now?

I wish that all these bad guys would die!

Little Egg and Little Dumb Cow, of course, shared the same hatred with Xiao Li, and they went along, “Mother, these are bad people. Let’s not help them and let them be bitten to death by beastkins!”

Hexi didn’t respond to the little ones, but her expression became more and more solemn.

Even my spiritual pets react like this? What about the beastkin outside?

Time passed by bit by bit. Another half an hour later, Hexi and the others were still trapped in the “confinement space”.

However, people from other branches of Miracle Healer Academy were lured here one after another.

An hour later, even Lu Zhixi and others from the pioneer branch and Deputy Dean Jiang, who was in charge of protecting them, were drawn into the white mist.

A small open space was densely packed with students and elders.

On this clearing, except for a small cave, there was not even any place to rest.

However, the number of corpses lying on the side had increased to 20. Each of which was beyond recognition.

When Deputy Dean Jiang couldn't do anything about the array shrouded in white mist, all the students finally panicked.

There was also a trace of panic in Lu Zhixi's eyes. She never thought that she would encounter such danger.

However, she calmed down soon and pulled an elder of the Doctors Association to whisper a few words in his ear.

Hearing Lu Zhixi's words, the gray-haired elder's eyes darkened. He jumped up and grabbed a student of the Huang Medical Branch.

The student only had Meridians Stage cultivation. When he saw a martial artist at the Nascent Soul Stage grabbing him, he froze in place and couldn't move.

The gray-haired elder grabbed the student and threw him into the white mist.

"Ahh!" The student screamed tragically. His eyes were full of despair and fear.

The next moment, a purple light flashed, quickly wrapped around the student's body and pulled him back into the array.

There were already several wounds on the student's back. Each of which was deep enough to see the bones.

When he was pulled back, he was in a state of panic and his body kept shaking.

When he raised his head and saw the handsome young man in front and the purple vines curling around his body, he couldn't help crying out loud, "Xi Yue, Xi Yue—! Woooo—!"

Hexi's face was as cold as frost, and he stared coldly at the gray-haired elder, "What are you doing?"

The gray-haired elder glanced at the surviving boy displeasably and snorted coldly, "This array is so profound that we can't dispel in a short time, so we of course need someone to explore the way. Don't you want all of us to be trapped to death?"

[The King of Hell's Genius Pampered Wife](#)

Chapter 1367: Law of the Jungle

"The so-called exploring the way is to let our Huang Medical Branch people die? To be bait?!" Qian Dazhuang shouted violently. His tiger eyes widened. He was really angry, "Why don't you let the people of your pioneer branch to explore the way? Why use our people?!"

Zeng Shouyue was also full of anger. He glared at the gray-haired elder fiercely, "Elder Qi, you didn't inform me, and you sent my student to die? What do you mean?!"

The gray-haired Elder Qi didn't feel guilty at all when he heard the words. Instead, he said mockingly, "Who made you the weakest? The law of the jungle is the rule of this world. Is it that you want to use the Gold Core Stage elites as bait instead of the Meridians Stage trash? *Hehe*, to be able to explore the way for us, it is your honor!"

The people of the Huang Medical Branch trembled angrily when they heard these words.

The people of the other branches all looked at each other in blank dismay. They gradually stepped back. They didn't want to be trapped to death here, and they didn't want to be the bait. It would be the best if people of the Huang Medical Branch could be used as the bait to crack the array.

Hexi sneered sinisterly. Her eyes flickered, but her expression became even more aggressive, "Okay? The law of jungle, right? Very good! I remember you are an elder who follows the Earth Medical Branch, right?"

"I will tell you right now. Who dares to touch a person of the Huang Medical Branch, I will throw 10 people from your branch into the white mist. If you don't believe me, you can try it!"

As soon as the words were finished, purple vines suddenly emerged behind Hexi, swaying in the wind with a menacing aura.

The deans of several branches and the elders of the Doctors Association all turned pale when they heard such a threat.

Elder Qi even sternly said, "Xi Yue, you are just a trash at the Foundation Establishment stage. Dare to threaten us? Do you really think we dare not kill..."

Elder Qi hadn't finished his sentence, and he felt 2 terrifyingly powerful coercions rushing toward his face.

"*Poof—*" He suddenly spat out a mouthful of blood, and he fell to his knees.

Nangong Yu and Xuan Mu took 2 steps forward and stood beside Hexi.

Nangong Yu's icy eyes swept over all the Nascent Soul Stage martial artists present and said in a deep voice, "Who dares to touch Xi Yue! I guarantee you, you will regret living in this world!"

Xuan Mu's words were concise, but the meaning was also very clear, "Whoever touches Xi Yue, die!"

As soon as this statement came out, everyone present was dumbfounded.

The elders at the Nascent Soul Stage were all ashen-faced and wanted to vent their anger, but because they felt the overwhelming strength of these 2 people, they were so aggrieved that they couldn't move.

Looking at the purple vines flying behind Xiyue, people of the other branches all looked fearful. They were worried that Xiyue would turn her anger on them.

The people of the Huang Medical Branch stood behind Hexi with a smile and proud faces.

They used to be the most frustrated and saddest people in Miracle Healer Academy, but now they were the proudest people.

Because Xi Yue came to Huang Medical Branch; because Xi Yue was willing to help them, willing to stand behind them, to protect them from being humiliated and not considering them as sacrifices.

They had never been so fortunate to be classmates with Xi Yue.

In the entire Huang Medical Branch, Tong Bing was the only one with a pale face. Standing alone in the corner and looking at Xuan Mu who was guarding Hexi's side, he felt his heart was riddled with jealousy bit by bit.

Chapter 1368: This Is Human

In the confinement space of the white mist, people from Miracle Healer Academy were making noises endlessly.

Lu Zhixi and the people of the Doctors Association didn't give up. The people of the Huang Medical Branch couldn't be touched, then no one was stopping them from touching the people from other branches?

This white mist array was full of dangers. There were unknown dangers waiting for them. How could they just wait for their own death?

However, would anyone be willing to be sacrificed? Of course not!

So the entire confinement space became chaotic; some people cried, some cursed, some went mad, and some were thrown into the white mist miserably.

In the distance, a boy without a palm was leaning on a big tree, watching the scene in the white mist with great interest. A bloodthirsty smile was shown on his face from time to time.

Suddenly, a little purple snake emerged from the ground. In a flash, it slowly transformed into a 12 years old girl, then she slowly transformed from a girl into a graceful woman with long hair.

It turned out that this girl was the amethyst snake beastkin who had just lured Hexi and the others into the confinement space. She was not a beastkin cub at all, but a high-level beastkin who had cultivated for thousands of years. She had already been transformed into a human.

The long-haired woman walked to the side of the young man, leaned her frail and boneless body against him, giggled and said, "Feng Luan, don't you hate them to the bone? What are you waiting for?"

The young man glanced at her with an interesting smile, "Look, these are human beings, greedy, stupid, and selfish. Even at such a critical moment of life and death, they only care about their own interests. *Hehe*, I don't even have to do anything, and they are already fighting."

The long-haired woman laughed even more when she heard the words. Her undulating chest was alluring, "Feng Luan, you don't just plan to watch them kill each other, do you?"

"How is it possible? Wouldn't that be too easy for them?" Feng Luan gritted his teeth with burning hatred in his eyes, "Just wait for it. It's just an appetizer now. The real hell is waiting for them later! "

As Feng Luan was talking, a shadow suddenly flashed beside him. A beautiful and elegant girl appeared beside him.

The girl's face showed a bit of anxiety, and she said as soon as she saw Feng Luan, "Feng Luan, I can feel the aura of our benefactor among those people, what should we do? We can't repay kindness with enmity..."

Before the girl could finish her words, the long-haired woman suddenly said in shock, "No, someone among them can break the array!"

Feng Luan and the beautiful girl immediately looked over upon hearing this.

7 people walked out of the crowd, walking toward the 7 directions of the white mist.

Each of them held a metal magic weapon in their hands. They stood in a specific position, and the magic weapons in their hands also began to accumulate energy.

Feng Luan's face changed drastically, "How could it be? They are standing in the direction of the array eyes? How do they know the position of the array eyes?"

"And metal restrains wood!" The long-haired woman said anxiously, "If the array eyes are destroyed, the array center will definitely be revealed. At that time, the confinement space will also be dispelled."

Feng Luan clenched his hands into fists. His eyes were full of crazy killing and tyranny. He gritted his teeth and said, "Even if they find the array eyes, so what? As long as I kill them before they break the array, I can trap all these people to death!"

As he said that, Feng Luan turned into a hurricane and rushed toward the direction of the white mist.

The beautiful girl stretched out her hand anxiously, trying to grab Feng Luan, but it was in vain.

Chapter 1369: The King of Beastkin

With an anxious expression on her face, she shouted, "Feng Luan, among those 7 people are our benefactors, don't hurt them! Please don't hurt them!"

The long-haired woman was not worried about this, but she said with a little panic, "Li Yu, I'm going to inform the king. 2 of these 7 people are very powerful, so strong that I feel afraid just looking at them. Feng Luan is definitely not their opponent!"

"Oh? Soul Splitting Stage? And there are two of them? Really interesting." The lazy and magnetic male voice suddenly came from behind the two.

The long-haired woman and Li Yu suddenly turned their heads and knelt in surprise and awe, "King, why are you here?"

Appearing behind the 2 of them was a man with an unparalleled face. At this time, he was still a young man, wearing a dark red robe, which made his face unparalleled.

The man's gaze was fixed on the white mist in the distance. There was indifferent cruelty in his voice, "Of course, I came to see how miserable the people who tortured my people will end up. However, I discovered an interesting toy by accident."

The long-haired woman showed a complimenting smile and said, "I was just worrying about Feng Luan's safety, but now that King is here, they will never be able to destroy this confinement space."

The man in a red robe smiled leisurely and did not speak. He looked at the crowd in the white mist as if he were looking at a group of lowly ants. He said casually, "Let Feng Luan keep a hundred people, my Toad Jade Palace just needs some servants who can entertain me. Hehe, just abolish their cultivation."

"On your command, king!"

Seeing that the man in a red robe was about to disappear and step into the confinement space, Li Yu, who had been thinking, finally couldn't help saying, "King, Li Yu still has something to report!"

The man in a red robe paused, turned around and looked at her with gentle eyes.

Li Yu swallowed and took a deep breath. She seemed to have calmed down, and seemed to be soothed by the King's soft eyes. She finally spoke, "King, there are 3 people in that group who saved us. It was them who broke into that dreadful dungeon that night and got us all out."

"Moreover, I also got Sister Lian Qing's last words. She said that it was a young man who saved her from being humiliated by human beings. That young man was accompanied by a fox beastkin. He broke into the dungeon to save a wolf beastkin. Although she still did not escape the fate of death in the end, she was really grateful to that boy before she died."

"King!" Li Yu raised her head and looked at the man in a red robe with clear eyes, "King, I also hate those humans who imprisoned us and hurt us, but this boy and his 2 companions are very very good people. Can we let them go?"

The man in a red robe looked slightly dazed.

The long-haired woman's eyes were red, and she sobbed softly, "Sister Lian Qing, wuuu... Sister Lian Qing..."

Then she knelt down and said, "King, please let Sister Lian Qing's saviors go!"

The man in the red robe sighed and said, "Okay! You point out those three people, and I will send them out of the confinement space and throw them into a certain place in the magical beast forest. Whether they live or die after that depends entirely on their luck." "

Li Yu was overjoyed and quickly kowtowed, "Thank you, Wang!"

Chapter 1370: Break the Array

Li Yu was overjoyed and quickly kowtowed, "Thank you, King!"

She stood up, pointed to the direction of Hexi, Nangong Yu and Xuan Mu in the white mist array with incomparable precision, and said in a crisp voice, "King, I'm transformed from Yue Min Bird. We are born with the most sensitive 5 senses, so I will never sense it wrong."

2 Soul Splitting Stages, 1 Meridians Stage peak stage, really interesting combination.

The man in a red robe raised his eyebrows and said with a smile, "Okay, as you wish!"

===

In the confinement space.

The elders of the Doctors Association looked at Nangong Yu suspiciously and distrustfully.

Although this person seemed to have a good cultivation base, his appearance didn't look good. His body didn't exude any aura at all. He didn't look like a person who can break such a powerful array.

Elder Qi sneered and said, "With just 7 Gold Core Stage, do you really think you can break the array? You are simply overreaching yourself."

In the confinement space, there were 7 people standing in 7 directions.

Most of them belonged to Huang Medical Branch, but because there were too few people from the Huang Medical Branch, they could only rely on other branches to make up the number.

For example, Wei Chengyuan, Han Qianer, etc., and there were also students who were rescued by Hexi when they were searched for souls.

In Miracle Healer Academy, the person who had the deepest grudge against Xi Yue was the people from Heaven Medical Branch.

When they saw that Wei Chengyuan and Han Qianer, the most outstanding members of their branch, actually went to help their enemies, they all had extremely ugly faces.

Hearing Elder Qi's words, they all showed mocking expressions.

But then, something that shocked everyone happened.

As the metal magical weapons in these people's hands attacked, the originally thick white mist retreated tens of meters away.

Obviously, this attack was effective.

The few people standing at the array eyes were overjoyed. They quickly increased the output of spiritual power according to the instructions.

Hexi leaned against Nangong Yu. Seeing that he and Xuan Mu had settled the array eyes, just waiting for these 7 Gold Core Stage friends to completely break the confinement, she couldn't help smiling a little, "I didn't expect you to be able to even crack the confinement space."

Nangong Yu smirked slightly. He glanced at Xuan Mu, then he hugged the girl into his arms, "Now you know how powerful your man is?"

Hexi's ear tips were slightly red, but her eyes were shining without refuting.

Xuan Mu glanced at them, inexplicably feeling very displeased.

However, Nangong Yu said, "This is not a real confinement space. Maybe the other party didn't expect that there would be me and that guy with such a level of cultivation, so he didn't hide the array center. This is why I can break the array. Otherwise, even I can't..."

Nangong Yu's face suddenly changed before he finished speaking.

Immediately afterward, the thin white mist that had faded away suddenly thickened again. The boundary of the white mist returned to its original position.

The 7 people who were in charge of breaking the array seemed to be attacked by something and fell to the ground.

Although they were not seriously injured, they looked extremely ugly.

Nangong Yu's eyes became dark for a moment, but a faint smile was evoked on his face. It was such an ordinary face, but it gave people a charming feeling for no reason.

"It's a pity. It seems that the master here doesn't want to let us out easily."

Hexi's complexion also changed slightly. She soon understood it, "The array center has been hidden?"

Before Nangong Yu answered, Hexi heard a low, charming and deep laughter from the air.
