

## King of Hell 1391

### Chapter 1391: Pain

As soon as the words were finished, Fang Yuan, who had just taken the medicine powder given by Hexi, suddenly trembled violently.

Then he straightened up abruptly and spat out a mouthful of black blood on the ground with a gulp.

As soon as the black blood touched the ground, it eroded the ground and grass.

Fang Yuan stood up slowly. Although his face was still a little pale, the blood red in his eyes and the blackness on his face disappeared.

Even the festering wounds were slowly healing.

Everyone's eyes widened in shock. Some even raised their hands and rubbed their eyes, unable to believe what they saw.

Fang Yuan touched the scar on his thigh that had begun to heal, and he even trembled all over his body.

He looked up at Hexi and said in a trembling voice, "Senior Xi Yue, am... am I cured? I don't have to die and I won't become that kind of monster?"

Hexi said lightly, "It seems so for the time being, but you still have the virus of the corpse puppet in your body. I just suppress the virus that was about to spread and let it go dormant again. I still need time to research how to dispel it."

"That's enough!" Fang Yuan cried, "I survived, I actually survived, wuu wuu..."

The desperation and fear all burst out at this moment, turning into the joy of surviving the catastrophe.

Fang Yuan's friends hugged him and comforted him non-stop. Their eyes were red red.

Qian Dazhuang excitedly rushed in front of Hexi and said, "Xi Yue, medicine! Medicine! Quick, let me save Xiaofeng!"

Hexi smiled. Qian Dazhuang even stuttered excitedly.

She was not stingy either. She walked up to Chen Xiaofeng, sprinkled 2 kinds of medicine on the wound, and poured the other into his mouth.

Soon, Chen Xiaofeng developed the same symptoms as Fang Yun, then all the symptoms of turning mad disappeared without a trace.

There was laughter in Huang Medical Branch, and those who defected to Huang Medical Branch were even more ecstatic.

They originally just wanted to find a pure land where they could rest in peace before despair, but they didn't expect to find the hope of life.

Hexi was about to treat others when her body suddenly shook slightly.

Her complexion changed. There was a burning pain in her chest.

“Brother Xi Yue, what’s wrong with you?” Zhang Yi was the first to notice that something was wrong with Hexi.

He hurriedly supported Hexi. Seeing her instantly pale face and the beads of sweat on her forehead, he couldn’t help but feel anxious.

Hexi didn’t know what was wrong with her. She just felt as if a huge palm was churning her dantian.

She was in so much pain that she couldn’t stand. She almost groaned in pain.

The students of Huang Medical Branch also noticed Hexi’s abnormality, and their faces changed drastically. They gathered around one after another.

Hexi endured the great pain and handed the medicine bottle in her hand to Zeng Shouyue, “Dean, the black porcelain bottle is taken internally and the white porcelain bottle is applied externally, you... you go and treat them first. Otherwise, if the corpse puppet virus is triggered, they will turn into a corpse. Even I can’t do anything...”

Zeng Shouyue took the medicine bottle, but he felt full of anxiety. He probed the spiritual power into Hexi’s body, only felt the huge spiritual power in her body running around, but he couldn’t detect anything at all.

Upon Hexi’s persistent gaze, Zeng Shouyue could only take the medicine and heal those students who got bitten.

His eye sockets were slightly red. This student looks ruthless on the surface, but in fact, she is so soft on the inside.

### **Chapter 1392: Condensing Gold Core?**

Especially as a doctor, she couldn’t even turn a blind eye to a patient.

Those students who were poisoned by the corpse puppet were all stunned. Their eyes were sore and red.

They vowed one by one in their hearts that no matter what, they would repay Xi Yue’s life-saving grace in the future.

After handing over the antidote, Hexi finally couldn’t take it anymore. She fell to the ground.

At this time, the majestic and hot spiritual power in her body almost crushed her internal organs.

Both ears were buzzing. She could no longer hear any sound, nor could she see the scene in front of her. Her consciousness was even more blurred as if she would faint at any time.

Hexi knew something was wrong, but there was nothing she could do.

Suddenly, the fluctuation of Purple Abyss Vine came from Divine Sense, then the anxious voice of Little Golden Dragon came into her ears, “Boss, you are about to break through. Your gold core is condensing, and it is the perfect gold core. You must immediately retreat to condense the gold core!”

Damn-!!

Despite Hexi's calmness, she couldn't help but want to swear at this time.

I thought I was tricked by something, but I didn't expect it to be a breakthrough. My gold core is actually condensing?

Condensing gold core is of course a good thing. I have waited too long to break through to the Gold Core Stage.

But, why at this time? This kind of place? When I'm surrounded by powerful enemies with malicious intentions!

"Boss, it must be because you absorbed the attack of the Nascent Soul Stage old man, so you break through the last bottleneck. But, the situation is really bad now! Boss, you are a perfect stage breakthrough, which will inevitably trigger a natural phenomenon. Your spiritual root are even five elements, which contain almost everything in nature. It will definitely arouse the resonance of this magical beast forest. It's over, really over! Your wood spiritual root may not be able to hide. What should we do now!"

I also know it's bad! You think I want this!?! Hexi gritted her teeth and complained viciously.

However, no matter how crazy Hexi was, she must calm down. She must retreat and condense the gold core. She had to succeed, otherwise it would be an irreversible ending.

"Jin Zeyu, Wei Chengyuan..." A weak voice came out of Hexi's mouth, "There is something that I need... you guys to... help me..."

Jin Zeyu and Wei Chengyuan, who had been watching her anxiously, quickly surrounded her, "Xi Yue, tell me! Anything, as long as we can do it!"

"My... my body is in some condition, and I may have to break through." Hexi said in a low and hoarse voice, "I need to retreat. During this period, don't let anyone disturb me."

Wei Chengyuan and Jin Zeyu were startled suddenly, then they woke up suddenly.

Breakthrough?! Xi Yue is going to advance from the Foundation Establishment stage to the Meridians Stage?

If so that would be great! Xi Yue is so amazing at the Foundation Establishment stage. If he advances to the Meridians Stage, he must be able to help us out of this confinement space.

Wei Chengyuan immediately patted his chest and said, "Xi Yue, don't worry. I will definitely guard you!"

Jin Zeyu's words are very concise, but his voice is full of determination, "Want to touch you? Unless I die!"

Hexi's blurred eyes swept over Lu Zhixi and the elders of the Doctors Association not far away. Her vision was blurred at this time and she could no longer see their expressions clearly.

But she could predict that Lu Zhixi would never allow her to break through smoothly.

But now, everything was too late.

With Jin Zeyu's support, Hexi sat down beside a rock, then she entered the void.

In the eyes of outsiders, Hexi was leaning cross-legged against the rock to the left as if she had fallen asleep.

### **Chapter 1393: Do It**

But in fact, Hexi was already sitting next to the Ninth Secluded Spirit Spring and starting to channel the spiritual power in her own dantian.

Several little guys watched outside vigilantly, just waiting to jump out if someone wanted to harm Hexi.

Purple Abyss Vine had long been floating around Hexi's body outside the void, forming a protective barrier.

Therefore, no one in the void and the spiritual pets noticed that the Ninth Secluded Spirit Spring, which was originally clear and clear, now emitted a faint green light that floated toward Hexi.

The dazed Xiao Chi seemed to have sensed something. He turned around suddenly and muttered, "Sister... protect... sister..."

He quickly put both hands on the ground and galloped towards Hexi like a beast, then he squatted obediently beside her like a loyal dog protecting her.

From his dantian, faint green gas also flowed and entangled toward Hexi.

===

Xia Zhu was going crazy.

She didn't know what happened. After she routinely purified the Heavenly Mulberry Sacred Tree today, the light of the sacred tree didn't brighten, but it gradually dimmed.

Moreover, dark green lines slowly appeared on the tree like blood-sucking vines that tightly entangled the Heavenly Mulberry Sacred Tree and sucked up its vitality bit by bit.

The divine light that originally covered a large area became dimmer and smaller, and the light circle became smaller and smaller.

In the end, not even Toad Jade Palace could stay within the circle of protection.

"What happened? Why did the sacred tree become like this?" A rank 9 beastkin asked Xia Zhu fiercely.

Xia Zhu's eyes were red. She shook her head desperately, "I don't know. I really don't know. I just purified the sacred tree as usual!"

The beastkins guarding the sacred tree showed panicked expressions.

Several old beastkins even knelt down toward the sacred tree and muttered, "God of Beastkin and God of Forest, please forgive our sins. Please bless us again..."

At this moment, a sneer suddenly came from behind the crowd, "I'm afraid that your gods are in trouble now. They have no time to bless you at all."

The beastkins turned around, only to find several human martial artists walking slowly toward the sacred tree.

Each of these martial artists was above the Nascent Soul Stage. That was equivalent to rank 8 and rank 9 beastkin.

“Who are you? How did you get in here?!”

The leader of the martial artists was an arrogant young man who looked about 30 years old, named Li Wei, but his real youth was over 200 years old. His strength had even reached the terrifying Soul Splitting Stage intermediate stage.

In Miluo Continent, this was an almost invincible existence. And everyone who followed him was at least at the level of Nascent Soul Stage later stage.

Li Wei sneered when he heard the words, “Just a mere magical beast forest. Do you really think it can trap those of us from the upper realm? Hehe, if we weren’t afraid of the Heavenly Mulberry Sacred Tree and that dem-divine beast, we would have entered the magical beast forest a long time ago and take all of you beastkins back to do experiments.”

The beastkin who asked was a rank 9 tree beastkin. The beastkins transformed from plants were usually gentle and kind-hearted, but he was trembling with anger now. There was a mixture of anger and killing intent in his eyes, “It is you guys who harm the Heavenly Mulberry Sacred Tree?”

Li Wei had a smug look on his face. He didn’t deny it at all, “You animals still have some brains.”

“No! How is this possible?”

“No one can even get close to the Heavenly Mulberry Sacred Tree! How could you possibly do that?!”

#### **Chapter 1394: Catch All of You**

Li Wei laughed out loud. His voice was indescribably cheerful and full of sarcasm.

He glanced at a person behind him and said, “President Lu, let these animals understand before they die.”

As soon as Li Wei finished speaking, a slender man slowly walked out of the crowd.

The man looked to be in his thirties. He had a short beard on his lips. He had a gentle and elegant demeanor, which made it easy for people to have a good impression.

Xia Zhu stared at this man with eyes full of surprise and uneasiness.

The next moment, a cloud of white mist rose from the man’s body. Immediately afterward, his face distorted and changed. He quickly turned into a gentle and handsome young man in his early twenties.

“Ah!” Xia Zhu screamed. She knelt on the ground. Her eyes fixed on the man with shock and disbelief, “Impossible! Impossible! This is impossible! Absolutely impossible!!”

A gentle smile appeared on Lu Xuyang's face. He glanced at Xia Zhu with a gentle gaze as if he had confided affectionately a few days ago, "Xia Zhu, it is really thanks to you that we can poison the Heavenly Mulberry Sacred Tree. We can also catch... all of you in one go!"

"No! No!" Xia Zhu screamed in despair, "Lu Lang, you lied to me, didn't you? You said that I was your savior and you said that you were sincere with me! How could you lie to me?!"

Lu Xuyang smiled lowly. His eyes were still gentle, but his words were as cruel as poisonous arrows, "Savior? Hehe... Xia Zhu, why are you so naive until now? My injuries and I got saved by you were under my deliberate arrangement. The purpose is to get close to and find the weakness of Heavenly Mulberry Sacred Tree through you."

"Fortunately, my hardwork paid off. I finally found it."

As Lu Xuyang said, he took out a black bead exuding an ominous aura, "I found these 2 Nether Beastkin Beads with great difficulty. One was ground into powder and stained on your body. As soon as you get close to the Heavenly Mulberry Sacred Tree, the powder of the Nether Beastkin Bead will automatically attach to it, slowly eating away its vitality."

"And this one in my hand! It's just used to devour the Heavenly Mulberry Sacred Tree." As Lu Xuyang said, he glanced at the Heavenly Mulberry Sacred Tree not far away. His eyes were full of greedy and scorching light, "If such a precious sacred tree is only used by you beastkins, it would be too wasteful!"

Xia Zhu listened to Lu Xuyang's words in a daze. The scenes of being with "Lu Lang" day and night still flashed in her mind, but all these turned out to be fake. It was just to deceive her and exterminate her fellow race.

"Ah-!! I will kill you!"

Crazy and powerful spiritual power suddenly erupted from Xia Zhu's body. She screamed and rushed toward Lu Xuyang.

There was a cruel sneer at the corner of Lu Xuyang's mouth. When Xia Zhu rushed in front of him, he suddenly reached out and grabbed Xia Zhu's lower abdomen.

The next moment, a powerful suction force radiated from his palm along with the majestic beastkin power.

Xia Zhu widened her eyes in horror. Her body began to convulse.

Why... why does a human have beastkin power?!

Why is my beastkin power leaving me little by little? It is all swallowed up by Lu Xuyang.

"Bang—" Lu Xuyang waved his hand. Xia Zhu, who was almost sucked into a mummified corpse, was mercilessly thrown on the ground.

## **Chapter 1395: Bait**

The originally pretty girl looked like a dry leaf at this time, then after a burst of convulsions, she finally slowly turned into her original form—a dying Spirit Purifying Rabbit with shedding hair.

Li Wei smacked his tongue twice. He looked at Lu Xuyang with jealousy, “President Lu is really amazing! You could deceive a rank 8 beastkin to let you devour its life back then. Now you deceived another small beastkin to ruin its own sacred tree. Tsk tsk, no wonder Sir Golden Wolf values ??you so much!”

There was no trace of arrogance on Lu Xuyang’s face. He bowed his head and stepped back respectfully.

The beastkins beside the Heavenly Mulberry Sacred Tree stared blankly at this scene. Until they saw Xia Zhu being killed, their eyes turned blood red and stared at the humans hatefully.

Countless tentacles suddenly emerged from the rank 9 tree beastkin and shouted furiously, “Humans, how dare you hurt our people like this! I will kill you all!”

The beastkins roared in unison and rushed toward Li Wei and the others.

However, the battle ended in just a quarter of an hour.

The beastkins were all seriously injured and knocked to the ground. They were all tightly bound with golden silk.

The rank 9 tree beastkin even had burn marks all over his body, and blood overflowed from his mouth. It was obvious that he had suffered a lot of damage.

Li Wei looked at their dire state and laughed, “How? Is my Thunderbolt Divine Fire powerful? Does it feel good to be burned by the fire? You animals really think you can fight against us humans?”

The body of the rank 9 tree beastkin kept trembling. His lower limbs had turned into tree roots, but they were burned. It was horrible.

Hearing Li Wei’s laughter, he raised his head and stared at them fiercely. He said loudly, “You will suffer retribution. You humans will all suffer retribution!! Our King will not let you go! All of you will all die under the hands of the King!!”

“Your King?” Li Wei laughed again. His voice was full of sarcasm, “Do you think your King can live long enough to avenge you? Haha, don’t joke. He has already become our captive. In the future, he will also become our greatest experiment! I believe that with the rank 11 demi-divine beast, Lord’s experiment will be a success!”

“Impossible!” All the beastkins who heard it screamed, “You humans, how could you hurt King!”

Their King was an overpowered existence. He was at the top of rank 11, almost close to rank 12. No one in the Miluo Continent was a match for the King.

As long as their King and Heavenly Mulberry Sacred Tree were there, the magical beast forest was a paradise for all beastkins.

They would never believe that the sacred tree would be destroyed and the king would die.

However, Li Wei’s following words interrupted all their fantasies, “Hehe, in order to destroy your King, we have spent a lot of effort!”

“A whole half of Miracle Healer Academy’s elites are all used as bait just to keep your Jing from noticing our move against the Heavenly Mulberry Sacred Tree. By the way, he is also affected by Sanskrit Voodoo Illusive Silk.”

“Hahaha... Although those garbage students of Miracle Healer Academy are going to die now, 80% of your King’s spiritual power is sealed by Sanskrit Voodoo Illusive Silk. Even if he is a demi-divine beast, with 80% of his spiritual power being sealed, when facing our Sir Golden Wolf, he can only be caught. Tell me, is there any possibility of your King escaping?”

### **Chapter 1396: Extinction**

The rank 9 tree beastkin desperately shook his head, but he seemed to hear beastkin’s angry shouts, screams, and wailings from the Toad Jade Palace in the distance.

The tree beastkin glanced at the Heavenly Mulberry Sacred Tree. At this time, Lu Xuyang had already placed the Nether Beastkin Bead in the center of the tree. As the Nether Beastkin Bead emitted a terrifying aura of death, the vitality of the Heavenly Mulberry Sacred Tree became weaker and weaker.

The branches and leaves that were originally shining with silver light were all withered as if the sacred tree would collapse and die anytime.

King... our King, and our sacred tree, our home!

The tree beastkin closed his eyes in despair. Blood and tears fell from the corners of his eyes.

God of Beastkin! Have you really abandoned your people? Is this really the day of our extinction?

===

Toad Jade Palace.

Feng Luan desperately attacked the humans besieging him while letting out crazed and desperate roars.

The intact hand had lost its weapon. The originally sharp nails had long been turned up, revealing bloody wounds.

However, he didn’t have the slightest intention of surrendering.

There was only one thought in his mind. Kill! Kill these despicable humans! Kill these invaders!

The human martial artists who besieged Feng Luan laughed mockingly, “This monster’s toughness is really good. After being besieged for so long, it is still so energetic.”

“Hehe, if he isn’t tough, can he escape from the Mojing Pavilion?”

“Okay, stop messing around. Catch him quickly. Sir Golden Wolf is still waiting to capture the King of beastkin here!”

Human martial artists no longer played around. Feng Luan, who had already been severely injured, had no strength to resist. He was quickly tied into a ball and thrown aside.

Even, because of his crazy resistance, his other hand and left foot were chopped off. Red blood flowed all over the ground, but no one cared about him at all.

Feng Luan's eyes were red. He kept struggling, but he couldn't do anything.

There were subdued beastkins being thrown around him.

Every beastkin's body was covered with wounds. Some of them had their hands and feet cut off, some had their scales cut. Each of them looked horrible.

Even after some martial artists threw the female beastkins, they would remove their clothes and wantonly molest and insult them.

The female beastkins were all beautiful and enchanting. The porcelain-white skin was full of temptation. These martial artists stared straight at their bodies, and their faces were full of lust.

Surrounded by Elder Fei, Elder Cen and others, Golden Wolf walked slowly into the palace. When he saw the subdued beastkins, he showed a satisfied expression on his face, "You guys did a good job."

There was a gleam of joy on Elder Fei's face. He was about to speak, but Elder Cen took a step forward and said, "This is also thanks to the poison provided by President Lu. Those poisons are very effective on these beastkins. Most of their fighting power has been lost, so we were able to subdue them without much effort."

Golden Wolf laughed and nodded heavily. These beastkins were important materials for making wood spiritual roots. It would be a pity if 1 or 2 died.

"Lu Xuyang deserves most of the credit this time. When I get back, I will definitely report your credit with Lord!"

A trace of anger and unwillingness flashed across Elder Fei's face, but Elder Cen smiled. He and Lu Xuyang had formed an alliance. If Lu Xuyang got the benefit, it would naturally benefit him as well.

Golden Wolf walked slowly to the innermost floor of Toad Jade Palace, where Beastkin King retreated.

There was a most powerful defensive enchantment here. No one could simply break into it.

### **Chapter 1397: The Strength of the Demi-divine Beast**

Golden Wolf had a greedy look on his face when he thought that the rank 11 beastkin inside would soon become their experimental subject.

He suddenly raised his voice and used spiritual power to transmit the voice into the retreat room, "Beastkin King, if you don't want your people to die here one by one, you'd better remove the defensive barrier obediently."

There was no sound in the retreat room.

Those beastkins shouted frantically, "King, don't bother about us! Don't come out!"

"King, we would rather die! Please avenge us!"

Golden Wolf sneered, turned around and gestured to one of his subordinates.

An expression of ecstasy immediately appeared on that subordinate's face. There was even burning desire in his eyes.

He dragged a female beastkin to the front of the confinement room, then he pressed her under him as the female beastkin screamed and struggled frantically.

Golden Wolf slowly said in a cold voice, "Beastkin King, if you don't open the defensive barrier, I have no choice but to let my men enjoy this female beastkin in front of your door."

"This fox beastkin has a soft body and delicate skin. I believe my subordinates will have a great time playing it!"

"Let go of me! Let me go!" The female beastkin cried and struggled desperately, trying to transform into a beastkin, but she was powerless. Her face was full of despair.

Seeing that disgusting human martial artists were about to possess her, the door of the confinement room suddenly opened.

A young man in a red robe slowly came out of the dark room. His coquettish peach blossom eyes stared at Golden Wolf coldly with killing intent.

Golden Wolf was taken aback for a moment. Looking at the young man's stunning appearance, a flash of surprise flashed in his eyes, then he laughed loudly, "Beastkin King, I have long heard of your great name!"

The young man in a red robe's complexion was normal, except his originally bright red lips showed traces of dark purple. It was obvious that the poison of Sanskrit Voodoo Illusive Silk had not been completely removed.

He looked at Golden Wolf coldly, then he suddenly sneered and said, "The Sage King of God Domain has made it clear that martial artists in the high-level planes are not allowed to act freely in the low-level planes, otherwise you will be punished heavily. How dare you have the audacity to do this! As the people of the Siam Continent, but you dare to come to the Miluo Continent to act wildly!"

The Golden Wolf didn't show any fear on his face when he heard the words. Instead, he smiled even more wildly, "Whether we will be punished or not, Beastkin King doesn't have to worry about it. All I know is that before we are punished, Beastkin King, you will become our prisoner. And your people will also fall into our hands, hahaha..."

A cold killing intent flashed in the man in a red robe's eyes. Suddenly, his red brocade robe fluttered without wind.

Then, the originally gorgeous and sturdy Toad Jade Palace was shaken for a while. The roof and wall tiles were overturned by a tornado-like force.

Rumble—

The devastatingly powerful beastkin power swept with a radius of a few miles.

All of Golden Wolf's subordinates showed terrified expressions. They desperately inserted their weapons into the ground, trying to stabilize their bodies, but they couldn't do anything.

Even Elder Fei and Elder Cen turned pale. They exhausted all their strength to be able to barely resist it.

Is this the strength of the rank 11 demi-divine beast?

Golden Wolf's eyes were flickering with shock, but more of it was greed and longing.

If I can catch this rank 11 beastkin, my achievements will be unrivaled!

Thinking of this, Golden Wolf suddenly roared, bursting out with a powerful aura and flew toward Beastkin King.

There was a flash of light, and the sky and earth shook.

### **Chapter 1398: Colorful Clouds**

The short confrontation didn't even have time for 10 minutes, and a red figure flew out like a kite with a broken string, slamming into a broken wall.

Beastkin King spat out a mouthful of blood. The originally shining peach blossom eyes became dull at this moment. His face was even paler than paper.

Golden Wolf stood still in place. Looking at the young man in a red robe's distressed look, he laughed loudly, "The rank 11 Beastkin King is just so so! You can't even withstand my 1 blow. Or is it because Lord's Sanskrit Voodoo Illusive Silk is so powerful that you have no strength to resist?"

The Beastkin King's body trembled slightly. He stared fiercely at the Golden Wolf with fierce killing intent in his eyes.

Golden Wolf, on the other hand, gave a half-smile look at the beastkin who was captured not far away.

Many of these beastkins were untied from their ropes, waiting for an opportunity to escape.

"Tsk tsk, what an admirable Beastkin King!" Golden Wolf sneered sarcastically, "You can't even save myself, but you still want to save your own kind. But what a pity, can you really save them?"

With that said, Golden Wolf gave an order to Elder Cen with a smile, "Don't these beastkins really want to run? Then sever their tendons. Anyway, all I want is their monster essence pill and inherited bloodline. Their beastkin skins and tendons have no use to us."

"Yes, Sir!"

After Elder Cen responded, he immediately instructed the subordinates, "Peel off the skins of those beastkins and pull out their tendons as well!"

"You—! How dare you—!!" Beastkin King's entire face was distorted. His eyes were burning with flames.

If he could, he was willing to pay all the price and die with this group of humans.

Golden Wolf laughed even more arrogantly, "What? You want to perish together with us? It's a pity that your cultivation is sealed by Sanskrit Voodoo Illusive Silk. It is impossible to dispel it within 8 hours. But after 8 hours! Believe me, your people have already become a mass of flesh and blood!"

"Ah!"

As if to confirm what Golden Wolf said, a little girl's miserable scream came from the beastkins.

Her skin was peeled off, and the man in black ruthlessly pulled her tendons out little by little.

Beastkin King let out a roar, jumped up from the ground, and rushed toward Golden Wolf frantically.

The destructive power shocked Golden Wolf. He stretched out his hand and dragged one of his subordinates to block without hesitation.

With a tearing sound, the subordinate was instantly torn apart by the Beastkin King.

However, after launching this attack, Beastkin King also fell to the ground, spat out a big mouthful of blood again, and was no longer able to fight back.

Golden Wolf gasped for breath with lingering fear, then his eyes turned cold as he said angrily, "Pull out this damn beastkin's tendons first. I'll see what else he can do!"

The subordinates hurriedly obeyed and walked toward the Beastkin King cautiously.

Beastkin King's eyes were red. He closed his eyes in despair.

Is it fate that we beastkins and the magical beast forest have to die here!

At this moment, there was a rumbling thunder in the distance.

Immediately afterward, in the direction of the confinement space, there was a colorful brilliance. It was captivating

The sky, which was originally only dim, was illuminated by this light like daytime.

Then a colorful cloud floated slowly from the sky, covering the magical beast forest.

Golden Wolf and others looked up at her in shock. People kept asking nervously what happened.

### **Chapter 1399: Hand Over**

The next moment, they saw that the colorful clouds turned into whirlpools and began to spin wildly. In the end, they turned into white whirlpool light balls that hurt people's eyes.

"What is this? What the hell is happening?"

"Is this Evil Sun in the Night? I remember that Evil Sun in the Night once happened in Jinyao Kingdom!"

"No! No, it's not Evil Sun in the Night. Evil Sun in the Night only happens at midnight!"

After seeing the white ball of light clearly, Golden Wolf let out an exclamation, "This is... a break through to the perfect Gold Core Stage?"

It turns out to be a perfect stage breakthrough?! How is this possible?!

Even our Lord, it is said that his breakthrough is only 70%. We can't even reach 50%.

However, in this mere Miluo Continent, there is actually someone who can reach the perfect stage breakthrough?

Who?! Who is it?!

The already desperate Beastkin King also raised his head at this time. Looking at the white vortexes, his eyes were first surprised, then he was astounded.

No! This is not just a perfect stage breakthrough.

Beastkin King looked around. He... he felt the joy of the vegetation, insects and birds in the forest; the celebration of all creatures.

They were growing crazily. They were crazily eager to absorb power.

It was as if the magical beast forest that had been dormant had suddenly come to life.

What kind of power is this?

Who is it that triggered such a terrifying and majestic force?

===

In the confinement space.

At the beginning, Hexi's retreat breakthrough did not attract the attention of others.

Even Lu Zhixi and the others paid more attention to the 2 bottles of medicine in Zeng Shouyue's hands.

Seeing that all the people who took Xiyue medicine improved and became normal.

All the people who had been bitten couldn't sit still and fled from Lu Zhixi and the others to Huang Medical Branch one by one.

Elder Qi's face was very ugly. He stretched out his hand and scratched his forearm. There was a scratch mark there once. Although it had been cured, he always felt itching constantly. He even started to feel a little numb now.

He didn't know if it was his own delusion, but when he thought of the appearance of those people who went crazy, he had a spooky feeling.

Elder Qi approached Lu Zhixi and said in a low voice, "Zhixi, I always feel that those of us who were scratched may have been infected with corpse puppet virus, but the effect is not so severe. If we can snatch Xi Yue's medicine ..."

Lu Zhixi's face changed when she heard the words. In fact, she didn't feel it before Elder Qi mentioned it.

As soon as Elder Qi said, she only felt that her face was itchy. She couldn't help stretching out her fingers to scratch it several times.

But now, she just felt that scratching could no longer calm the itching.

Could it be that I'm really infected?

Lu Zhixi shuddered at the thought of those people's hideous and mad appearances. She immediately agreed with Elder Qi's opinion.

Hearing Lu Zhixi's words, Zeng Shouyue frowned and said, "I only have 2 bottles of medicine in my hand. Of course, I have to give priority to treating those who have been bitten. Your corpse puppet virus won't trigger in a short time, so wait until Xi Yue wakes up!"

Elder Qi was furious, "Zeng Shouyue, that medicine, you have to hand over!"

Compared with his own safety, the life and death of those students was none of his business. Since they were about to become monsters, it was better to kill them.

Lu Zhixi walked up to Xi Yue, but Wei Chengyuan stopped her before she got close to Xi Yue.

#### **Chapter 1400: Being Discovered**

Lu Zhixi said with an ugly face, "Brother Wei, what do you mean? I just want Xi Yue to provide more antidote medicine. It's good to save people, and it's what doctors should do. Why are you stopping me?!"

Wei Chengyuan said with a blank face, "Xi Yue lost too much spiritual power in the magical beast battle just now. Now, she needs a little time to recuperate. You all saw it just now. Xi Yue dragged his tired body to heal all of you, so she almost collapsed out of tiredness. Why can't he rest now? What's more, the virus on your body has not taken effect now. If you really want him to treat you, just wait for him to wake up!"

How can I wait for him to wake up? What if he refuses to treat me when he wakes up?

What if my face is ruined by the virus?!

Lu Zhixi's internal organs were all twisted together. Why does everyone support Xi Yue? What's so good about him?

Zeng Shouyue and Elder Qi were already fighting together.

The students and elders of Miracle Healer Academy were also divided into 2 factions. Some of them panicked because they had scratches and hoped to get medicine. Some felt that the Doctors Association was too much and would rather stand on the side of Huang Medical Branch.

At this moment, a young man's clear voice suddenly came from the crowd. He seemed to raise his voice so that everyone could hear him.

"Is Brother Xi Yue advancing? Great, Brother Xi Yue is already so powerful at the Foundation Establishment stage, even the Gold Core Stage is no match for him. If he advances to the Meridians Stage, I believe we will be able to leave the confinement space. Moreover, no one in Miracle Healer Academy will be a match for Brother Xi Yue in the future!"

The one who spoke was Tong Bing.

As soon as these words came out, the entire confinement space fell silent instantly.

The faces of Wei Chengyuan, Jin Zeyu and others were extremely ugly.

They kept looking at Xi Yue pretending to be nonchalant because they just didn't want people to find out that she was advancing.

Coupled with the tight defense of Purple Abyss Vine, that's why the aura didn't leak out.

However, now that Tong Bing said it, everyone knew about it.

So would those who want to be unfavorable to Xi Yue miss this opportunity?

The answer of Lu Zhixi and others was: Of course not.

The elders of the Doctors Association looked at each other with cruel and murderous intent on their faces.

They came to the magical beast forest this time under the order of President Lu Xuyang.

The biggest objective was to take advantage of the chaos in the magical beast forest to get rid of Xi Yue.

In the beginning, none of them took such a kid from the Foundation Establishment stage seriously, thinking that killing her would be a matter of minutes.

Who knew, in the end, they lost 2 Nascent Soul Stage elders, but this kid was unscathed.

Just like what the boy said just now, the Foundation Establishment stage was already so difficult to kill. If she successfully advanced, could they still complete the mission assigned to them?

Thinking of this, the elders who were lazily watching the show gathered around Hexi one after another.

Without the slightest hesitation, Wei Chengyuan and Jin Zeyu immediately stood in front of Hexi.

People from Huang Medical Branch, including Zeng Shouyue, also rushed over, all of them looked nervous and shocked.

Zeng Shouyue asked Jin Zeyu, "Xi Yue, is he really going to advance?"

Jin Zeyu nodded in silence. His eyes fixed on the elders of the Doctors Association. Although their strength was far comparable to the Nascent Soul Stage, Xi Yue must be protected no matter what.
