

King of Hell 1411

Chapter 1411: I Am Kind

But what happened in the end?

In the end, he actually took advantage of Brother Feng Shan's kindness to forcefully robbed Brother Fengshan of his beastkin aura, causing him to die of exhaustion.

Brother Feng Shan died, but Tong Bing got freedom because he got a new power.

It was also at that time that Brother Feng Luan hated humans to the extreme.

Li Yu bit her lower lip tightly. Her almond eyes were red and hot, and tears were streaming down her face.

Brother Feng Shan was such a good beastkin. He had kindness toward all humans and beastkins. How could Tong Bing do this? How could he be so shameless and ruthless!

Now, he even wanted to harm my savior! Li Yu gritted her teeth fiercely, soared into the air, and also flew toward the white vortex.

I must stop this bad guy!

Li Yu flew into the vortex desperately. In order to speed up, even half of her body turned into the Yue Min Bird.

When she came to the vortex, she saw the powerful beastkin power exuding from Tong Bing's body, madly absorbing Xi Yue's wood spiritual power.

Xi Yue, who was floating cross-legged in mid-air, was still at the last moment of advancing. She was unable to resist or move, but her face turned pale. Beads of sweat oozed from her forehead.

Without even thinking about it, Li Yu flicked her wings and launched a gust of wind toward Tong Bing.

Tong Bing staggered by the wind. He suddenly froze when he met Li Yu's angry eyes.

Li Yu said with a frosty face, "Tong Bing, do you still remember me? Do you remember Feng Shan and Brother Feng Luan?"

A flash of panic flashed in Tong Bing's eyes. He took a step back in mid-air, muttering, "What... what are you talking about? I... I don't know you!"

"You don't know me?!" Li Yu raised her voice, "How did Brother Feng Shan treat you? How did Brother Feng Luan treat you? How could you do this? How could you repay kindness with enmity and drain Brother Feng Shan's beastkin power? Tong Bing, are you still human? Are you not afraid of retribution?"

"No! I have no choice!" Tong Bing yelled hysterically. His trembling voice was loud as if he was desperately trying to convince himself, "I just want to live. I didn't do it on purpose. It's Feng Shan's fault. Since he gave me beastkin power to keep me alive, why didn't he give me more? Why couldn't he fulfill me and let me be free!"

"It's his fault, that's why I had to suck him dry! It's all his fault. It has nothing to do with me! I'm kind!"

Listening to his words, Li Yu trembled all over her body, but this little beastkin didn't stay in the human world for long. She didn't even learn how to curse people, so she could only keep repeating, "Tong Bing, you will die horribly. You will face your retribution! You will definitely have retribution!"

"And Xi Yue, I heard that he is your classmate and even your roommate, but you want to suck him up now. Tong Bing, are you still human?"

Tong Bing's body trembled violently. He lowered his head to his chest. Listening to Li Yu's words, his body trembled more and more.

Li Yu thought he was feeling guilt, so she couldn't help but soften her voice slightly, "If you really know that you are wrong, return the spiritual power you absorbed from Xi Yue..."

Before she finished, Tong Bing jumped up suddenly. A huge beastkin power instantly enveloped Li Yu's whole body.

Li Yu's eyes widened in horror, only feeling that her beastkin power was pouring toward Tong Bing at a rapid speed.

"You—!"

Chapter 1412: Devour

What responded to her was Tong Bing's distorted and ferocious face. There was no more shyness and innocence on this face. Only naked greed and madness were left. "As long as you die, no one will know about it. Yes, you are just an animal. Die! Die now!"

Glittering teardrops dropped from the corners of Li Yu's eyes. Her body shrank slowly, and her face was covered with feathers.

The beastkin power she had cultivated for thousands of years was gone at this moment, making her regress into an ordinary Yue Min Bird.

Tong Bing didn't abandon her until there was no trace of beastkin power in Li Yu's body.

However, this Yue Min Bird still fluttered its wings and refused to leave. Its bright eyes looked at the cross-legged Hexi with guilt and pain as if tears were about to fall.

Tong Bing slowly floated to Hexi's side, and he sneered. His face was filled with cold madness.

Hahahaha, Xi Yue! Xi Yue! You'll be a trash in no time!

Xi Yue, you have always looked down on me from such a high position, have you ever thought you would end up to this?

A more powerful and majestic beastkin power was condensed in Tong Bing's hand that slowly approached Hexi's dantian.

This was the brand new power he obtained after devouring Feng Shan, allowing him to devour beastkin power and other people's spiritual power for his own use.

He didn't use it before because he hoped to be a good person, a kind and weak person, longing to be protected by someone like Xuan Mu.

But now Tong Bing found that, instead of being weak and begging, the most reliable way was to take the power of others and make himself stronger.

Hexi's dantian was getting closer and closer, and the beastkin power had already felt the majestic wood spiritual power.

Tong Bing grinned and suddenly activated the beastkin power.

The next moment, the smile on his face froze, then it shattered inch by inch like petrification.

On the other side of him, Hexi, who hadn't woken up after the advancement, finally slowly opened her eyes.

The pair of clear and cold phoenix eyes stared straight at Tong Bing. There was a faint and cold smile in the eyes as if mocking and as if casually teasing.

"Devour human's spiritual root and beastkin power? What a rare ability." The faint and clear voice sounded in his ears. Hexi sneered with a bright and gorgeous smile, "It just happens that I also have the same skill. Why don't we try whose devouring ability is stronger!"

Maha Inheritance, Level 3 – devour. Whether it is spiritual power, beastkin power, monster essence pill, Gold Core Stage or Nascent Soul Stage. As long as the opponent is actively attacking, Maha Inheritance can choose to devour.

In the Illusive Forest that day, Hexi was able to escape from the belly of the rank 7 black bear due to this skill.

Tong Bing's eyes widened in horror. His body trembled unceasingly.

He desperately wanted to take back his beastkin power and his hand, but it seemed that Xi Yue had fixed him with something. He couldn't move at all.

The beastkin power that had been gathered in the body with great difficulty poured out crazily. His devouring ability was so powerful, but facing Xi Yue, he had no strength to fight back.

As the swallowed beastkin power was exhausted, Tong Bing felt that his spiritual power was pouring out.

His mouth grew wide and his teeth chattered.

At this moment, Tong Bing felt the fear of extinction.

"Brother... Xi Yue... For... forgive me. I... I didn't mean to... I... I won't dare again!"

Chapter 1413: Settle the Scores

Tears fell from his eye sockets like a broken thread. Tong Bing's eyes had already turned into the usual deer eyes that filled with mist and tears. He looked at Hexi with indescribably pity.

“Chirp Chirp Chirp~~” Yue Min Bird on the side flapped her wings desperately as if she was conveying something to Hexi.

Hexi’s eyes were cold, but her sneer was deeper, “Not bad, your crying is pitiful and touching enough. It’s a pity that your credit has gone bankrupt.”

As soon as the words were finished, Tong Bing only felt a sharp pain like being torn apart.

He clearly felt that his spiritual power disappeared, and his vitality was also slowly wandering away.

Tong Bing raised his hands and saw his white hair. Panic, despair, hatred and madness made him widen his mouth and let out a dreadful scream.

Until this moment, he finally felt Feng Shan’s pain and desolation of life force being taken away little by little before his death.

However, Tong Bing didn’t have the slightest bit of guilt or remorse, only hatred toward Xi Yue.

If... if I have another chance, I will definitely drain Xi Yue’s wood spiritual power immediately. I will make Xi Yue die...

“Bang——” Hexi kicked out Tong Bing who had been almost drained of all his vitality.

Tong Bing flew far away and flew straight for hundreds of meters before hitting a tree trunk. His spine broke, and he fell to the ground.

At this time, no one cared about Tong Bing’s life and death.

Hexi reinfused the beastkin power absorbed from Tong Bing back into Yue Min Bird.

Li Yu slowly opened her eyes, feeling that she had turned into a 14 years old girl. Finally, she couldn’t help sobbing softly, “Wuwu, thank you... Thank you for saving me again!”

Hexi didn’t pay attention to her thanks. She just said indifferently, “Whatever you saw today, don’t tell anyone or any beastkin.”

Hexi couldn’t imagine how many people would hunt and kill her if she was found to have a sky spiritual root of the wood spiritual power in her body.

Li Yu nodded again and again, then she turned into Yue Min Bird and flew out quietly.

Hexi took a deep breath. Feeling the 5 element spiritual powers in her body, she smiled with satisfaction.

Very good, the wood spiritual power has been perfectly hidden.

Now, it’s time to go and settle the scores with those people.

There was a loud noise. The dazzling white vortex burst from the inside. The wind was strong. The sun and the moon were dark.

All the people who were still fighting and in a hurry raised their heads and stared upward. Even the insects, birds, plants and trees quieted down as if they had been ordered.

In the sky, a young man wearing a blue and white Miracle Healer Academy uniform floated down slowly. Her black hair was like ink, her skin was like jade, and her clear face was brighter than the moonlight, brighter than the scorching sun. Everyone's eyes were dazzled for a while.

Hexi landed slowly. Her cold phoenix eyes shone with purple light as she glanced at everyone present and stopped at the elders of the Doctors Association.

"None of you are dead yet, that's great! If I can't kill you with my own hands, I will feel very troubled!"

"Those who dared to hurt my Little Purple, those who dared to hurt my Huang Medical Branch, are you ready to pay back!"

All the trees in the forest rustled, and the birds took off with flapping wings.

Chapter 1414: Instant Kill

The white mist that originally enveloped the crowd disappeared without a trace as if they had received some order.

The confinement space was dispelled.

Everyone in Huang Medical Branch stared blankly at the young man who seemed to be shining brightly under the sun. Everyone couldn't help crying with joy.

Xi Yue is back! Xi Yue is really back!

The elders of the Doctors Association all took a step back. Suddenly they felt as if their breath was choked by something. They felt the fear of death for a while.

As soon as Elder Qi took a step back, he said angrily in shock, "So what if he is powerful? So what if it is a perfect advancement? ??He is just at the Gold Core Stage. We have so many Nascent Soul Stage, why are we afraid of him! I'll teach this brat a lesson!"

As Elder Qi spoke, he clenched the long sword in his hand and rushed toward Hexi.

However, Hexi didn't seem to care Elder Qi's movements at all. She spread her slender fingers lightly and looked at her jade-like palm in a leisurely manner. A slender sword glowing with colorful light slowly appeared in her palm.

"Hi, buddy!" Hexi held the hilt of Li Shui Sword with a faint smile. "Now, I can finally unleash your true strength."

She had never understood how powerful the upgraded Li Shui Sword was. Until today, she could finally touch that realm.

The long sword swung lightly, drawing a beautiful arc in the air.

"I'll kill you—!"

Before Elder Qi could finish his words, his eyes suddenly widened in horror. He slowly lowered his head and looked at his body in shock. His body was split in half bit by bit. A viscous liquid seeped out from the severed part.

Gold Core Stage VS Nascent Soul Stage, instant kill!

Hexi flicked the Li Shui Sword that was not stained with any liquid, smiled and looked at the terrified Doctors Association's elders not far away. She said in a clear and sweet voice, "Who is next? Or, you all want to go together?"

===

At this time, in the magical beast forest, which was more than 10 miles away from the Heavenly Mulberry Sacred Tree, Lu Xuyang's face was gloomy. He looked unwillingly in the direction of the shining white light not far away.

Just now, almost just now, Heavenly Mulberry Sacred Tree was about to become his possession.

However, all of a sudden, the Heavenly Mulberry Sacred Tree, which had been slowly withering, suddenly revived again as if it had received some kind of life force.

Immediately afterward, the power of the Nether Beastkin Bead was swallowed by a mysterious energy, and the soft light of the sacred tree bloomed again. The intruders who did not belong to the magical beast forest were also expelled from the range of the divine light.

Beside the sacred tree, the beastkins who were originally wounded watched their wounds heal one by one.

The air seemed to be filled with a powerful source of life power, allowing them to recover from desperation and regain life and hope.

Rank 9 tree beastkin watched his scorched branches slowly sprout, and tears streamed from his eyes.

They knelt down one by one and kowtowed to the Heavenly Mulberry Sacred Tree, "Thank you for the blessing, sacred tree! Without sacred tree, our beastkin clan would have been wiped out."

Unexpectedly, the Heavenly Mulberry Sacred Tree suddenly trembled violently. The silvery leaves rubbed against each other and made a rustling sound.

The colorful light on the freshly grown flowers and fruits kept flickering as if telling the urgency and desire of the Heavenly Mulberry Sacred Tree.

The beastkins looked at each other, not knowing what happened.

Chapter 1415: Huge Power

At this moment, an old and ethereal voice came from the space. It sounded very far away and very near, "Wood source... it is wood source! I... need it... need it to save me!"

The voice was intermittent. It was saying with difficulty.

But the beastkins understood it. Because they understood it that they were extremely shocked.

Only the rank 9 tree beastkin's eyes shone with blazing light. He tremblingly said, "Is it really wood source? Le... Let's go and report to the king. We must let the owner of wood source saves Heavenly Mulberry Sacred Tree!"

"Grandpa tree beastkin, why save the Heavenly Mulberry Sacred Tree?" A beastkin asked curiously, "Isn't Heavenly Mulberry Sacred Tree alive?"

"No! No!" rank 9 tree beastkin shook his head again and again. His face was full of urgency and joy, "Because the Heavenly Mulberry Sacred Tree has been protecting us and absorbing the filthy aura from us, so we beastkins can successfully transfigure human figures. But because of absorbing too much filthy aura, the Heavenly Mulberry Sacred Tree has become extremely weak. The tree heart has been completely corroded."

"The only thing that can purify the filthy aura is the wood source. This is the only chance of the Heavenly Mulberry Sacred Tree, and it is also the greatest chance of our beastkin!"

"According to the guidance of the Heavenly Mulberry Sacred Tree, the person who owns the wood source is in the direction of the forest. We... we must find him as soon as possible!"

The beastkins all exclaimed in unison. The rank 9 tree beastkin rushed to inform the Beastkin King while the other beastkins continued to stand beside the Heavenly Mulberry Sacred Tree full of anticipation and urgency.

However, none of these beastkins noticed that behind a huge pine tree, there was a man wearing a scholar robe.

Lu Xuyang possessed beastkin power. Although he was expelled by Heavenly Mulberry Sacred Tree at first, after he completely covered up his human aura with beastkin aura, Heavenly Mulberry Sacred Tree couldn't notice him.

Originally, Lu Xuyang's heart was full of resentment. The Heavenly Mulberry Sacred Tree would soon belong to him, but it was in vain in the end.

But now, hearing the conversation between Heavenly Mulberry Sacred Tree and beastkins, the disappointment in Lu Xuyang's eyes instantly turned into deep ecstasy.

Did I hear it right?

Wood source, and it is a human or beastkin who owns the wood source.

What does that represent? Is it the purest and rarest wood spiritual root?

If I get this wood spiritual root, what a huge power I would have!

Growing flesh from bone, reviving the dead? Those are just trivial matters! More importantly, I can dominate the growth and death of all things, I can communicate with the nature, and I can become the master of one world.

Flames were burning in Lu Xuyang's eyes. He turned and rushed toward the direction pointed by Heavenly Mulberry Sacred Tree without hesitation.

I remember that there is the direction where the confinement space array is located.

In other words, the one who owns the wood source was either a student or an elder of Miracle Healer Academy or a beastkin of the magical beast forest, hehe. No matter who it is! I... will definitely find it!

===

Because of the arrival of the wood source, the Toad Jade Palace also underwent a change.

The Heavenly Mulberry Sacred Tree had not recovered enough, so the range of the divine light did not include the Jade Toad Palace.

However, due to the arrival of the wood source, the beastkins, who were seriously injured and dying, all recovered.

Even Feng Luan's hand, which had been cut off, had regenerated its skeleton and was covered with flesh and blood.

Golden Wolf and others were stunned. They never thought that such a change would happen.

Chapter 1416: Turning Point

Many beastkins had their limbs and tendons cut off and their skin was stripped away, so they were useless as a pile of meat. Therefore, they didn't even tie them up.

However, all of a sudden, these beastkins were healed. Even the skin that was stripped off grew out under their eyes.

Golden Wolf's eyes widened. He gasped loudly, "How is this possible?!"

The Beastkin King's reaction was extremely fast. With a wave of the red robe, those beastkins were gathered in the secret room.

He also retreated inside and used the last bit of spiritual power to quickly set up a defensive barrier.

Golden Wolf was too astounded for a moment. He watched all the beastkins run away, and his whole face twisted in anger.

"Beastkin King, what the hell have you done?!"

Before Beastkin King could speak, Feng Luan on the side was already looking at the far east. He knelt and kowtowed excitedly in the direction of the silver light, "It's the sacred tree, it's the sacred tree that blessed us! It's the sacred tree that saved us again!"

Many beastkins had not yet been liberated from the emotions of despair, pain, and hatred. At this time, they slowly came back to their senses. Seeing their intact bodies and regrown flesh, they burst into tears of joy and kowtowed in the direction of the Heavenly Mulberry Sacred Tree.

All beastkins thought that their salvation was due to the gift of the Heavenly Mulberry Sacred Tree.

But only the Beastkin King knew that this was not the case.

Heavenly Mulberry Sacred Tree has long been damaged and can't sustain itself. The sudden disappearance of the divine light is definitely due to a fatal attack.

Just relying on the Heavenly Mulberry Sacred Tree, it is impossible to heal beastkin's wounds, even if it is the Heavenly Mulberry Sacred Tree that was at its peak.

Only... only the wood source.

Beastkin King clenched his fists. The pair of peach blossom eyes shone brightly.

God really favors our beastkin!

Today was their desperation and tribulation, but it was also their turning point and hope.

Golden Wolf took a deep breath and suppressed the resentment in his heart.

He already believed the words of these beastkins. It was the resurrection of the Heavenly Mulberry Sacred Tree that gave these beastkins a chance to escape.

That Lu Xuyang is so useless. I even gave him 2 Nether Beastkin Beads, but he couldn't even take down that damn tree!

However, these animals, do they really think that they can escape from my hands?

If I can catch them once, I can catch them twice or thrice!

Golden Wolf sneered, "Beastkin King, if I saw it correctly, even if the wounds on these little beastkins are healed, the Sanskrit Voodoo Illusive Silk in your body cannot be dispelled. You can only exert 30% of your strength at best. How long do you think you can hold me with this little power?"

"You are all going to be enslaved by us in the end. Why don't you come out obediently! Do you think you can change your miserable fate of being a slave by hiding in there?"

Beastkin King's face was still a little pale. He sneered, "Of course there is a difference."

"I know that you can break this defensive barrier sooner or later, but you will also have to pay a high price. What's more, if the barrier really can't hold, we can explode ourselves. Don't you want our beastkin inheritance power? If we are dead, you will get nothing."

"Humans, do you still feel that there is no difference in all this?"

Chapter 1417: Would Rather Die

Golden Wolf's angry complexion was twisted. The hands hanging by his side were tightly clenched.

Yes, that's the damn difference! Just a slight carelessness, I lost the initiative.

"Go! Use all the magic weapons and blast the defensive barrier in the shortest possible time!"

“I don’t believe that all of them have the guts to commit suicide!”

Golden Wolf’s words made all the martial artists move. The lowest level of these martial artists was at the Nascent Soul Stage, and the highest level was at the Soul Splitting Stage. Every attack was unbearable for ordinary people.

“Bang—” There was a loud noise. The defensive barrier swayed violently.

In the secret room, Beastkin King’s face was pale. He spat out a mouthful of blood. The blood soaked the blood-red robe. The strong smell of blood spread in the room.

“King! Please don’t support the barrier anymore! Leave us alone!” All beastkins finally couldn’t help crying.

“King, with your ability, you will be able to escape by yourself. I beg you to leave quickly! We don’t regret dying. I only hope that King will avenge us in the future!”

All the beastkins knelt down in front of the red-robed and black-haired Beastkin King, crying and begging. Some beastkin even raised their sharp claws and wanted to commit suicide, but the Beastkin King stopped them.

He pursed his chapped lips and said with a leisurely smile, “Since you called me King, how can I run away alone? Without you, am I still King?”

Beastkin King’s voice was slightly hoarse and unusually calm, but the words made several young beastkins couldn’t help crying out.

The Beastkin King took a deep breath, looked at Golden Wolf who was madly attacking the barrier with his deep and cold eyes, and said with a low smile, “I said, even if I die, you will have to pay a high price. I always do as I say.”

As beastkin King said, he glanced at the little beastkins around him and slowly said, “Are you afraid of death?”

“We are not afraid!”

“Rather than being captured by the despicable humans, we would rather die!”

“King, please go first. We are all not afraid of death!”

“Great!” The young man in a red robe showed a seemingly gorgeous and innocent smile on his face, “I also feel that rather than letting these humans succeed, it is better to die... with them!”

As soon as Beastkin King finished speaking, his hands joined together suddenly, forming a weird symbol.

The next moment, his lips turned a bright crimson red, then he spat out a red light ball.

As soon as the red light ball appeared, everyone saw what it was.

It was a fiery red toad. It was only fist size, but it emitted a terrifying flame that could burn iron and stone into ashes.

“Ah—” Beastkins exclaimed and retreated one after another.

Most of them didn't know what this thing was. They just felt incomparable fear and awe in their hearts when they saw it.

With the appearance of the fiery red toad, the entire Toad Jade Palace suddenly trembled violently. Most of the palace had already collapsed. Even the foundation began to crack and collapse.

When the fire toad appeared, the Toad Jade Palace collapsed and the magical beast forest was turned upside down!

Beastkin King suddenly opened his eyes. the gorgeous peach blossom eyes turned into vertical pupils, shining with a terrifying bloody light.

Golden Wolf gasped. For the first time, a bad premonition surged in his heart.

Chapter 1418: Jade Fire Toad

And tens of miles away, Hexi, who was playing with the elders of the Doctors Association, suddenly froze. Her sharp and suspicious eyes suddenly looked in the direction of Toad Jade Palace, and the ground under her feet made a buzzing sound.

In the void, Little Golden Dragon and Little Egg, who just woke up and haven't even figured out the situation, screamed anxiously.

"Boss, it's Jade Fire Toad. I feel it. It must be Jade Fire Toad!"

"Mom, I feel it too. It is something that can heal Daddy. Hurry up! I feel that it is dying. Mom, hurry up and grab it!"

Hearing the words Jade Fire Toad, Hexi was no longer in the mood to deal with people like the Doctors Association.

The Li Shui Sword soared into the sky. Thousands of sword lights turned into the scythe of death and slashed toward Elder Zhang of the Doctors Association.

Elder Zhang's eyes were full of fear. He desperately took out a protective robe and put it on his head.

"Schla!" There was a terrifying tearing sound. Elder Zhang's eyes popped out with despair, looking at those sword lights tore the robe into pieces and eventually went through his body mercilessly.

"No—!"

For a moment, everyone in the nearby area was silent. Only the screams of Elder Zhang before his death echoed in the area.

Li Shui Sword circled and returned to Hexi's hand deftly.

Hexi's cold gaze swept over the few remaining elders of the Doctors Association elders as well as Lu Zhixi whose face was stained with blood and eyes were full of resentment and horror.

When Lu Zhixi spoke, she realized that her voice was trembling violently, "Xi Yue, what... what are you doing? You kill the elders of the Doctors Association like this, my father will not let you go..."

Before Lu Zhixi finished speaking, Hexi flicked her finger suddenly.

A black pill flew into Lu Zhixi's mouth with a whiz.

Lu Zhixi's voice stopped abruptly, then her body trembled. She swallowed the pill with a thud.

"You—! What the hell did you feed me?!" The screams sounded hysterically with fear.

But Hexi just sneered said, "Aren't you very afraid when will the corpse puppet virus in your body trigger? I just help you to advance that a little, but this is not the corpse puppet virus that will turn you into an insane monster, but a mutated poison that will make your whole body fester. I believe you will definitely like this poison!"

Lu Zhixi shook her head desperately with horror. She channeled the spiritual power to poison in her body, but with the channeling of the spiritual power, dense black spots appeared one after another on her jade white wrist like livor mortis.

"No! No—! Help me! Quick, someone help me!"

Seeing the disgusting appearance of her arm, Lu Zhixi was about to go crazy. She rushed to the elders of the Doctors Association and the deans of the Miracle Healer Academy, but everyone stepped back when seeing the black spots all over her and smelling the strong rancid smell. No one was willing to get close to her.

"Ah!!" Lu Zhixi let out a scream. Finally, she couldn't stand it anymore and passed out on the ground.

Hexi took out some more medicine bottles, handed them to Zeng Shouyue, and said lightly, "Dean Zeng, this is the medicine to detoxify the corpse puppet virus, you let everyone who has been scratched by the magic beast take it. After half an hour, the virus will be removed completely."

Chapter 1419: Never Let Go

Those students who had been worried about the corpse puppet virus in their bodies burst into smiles when they heard this.

Hexi glanced coldly at those from the pioneer branch who joined the attack and said with a half smile, "As for those who deserve to die, please don't waste my medicine!"

Zeng Shouyue nodded repeatedly, looking at Hexi with excited and complicated eyes.

He had valued her from the very beginning and regarded her as the most outstanding genius.

But Zeng Shouyue didn't expect that he still underestimated Xi Yue's strength and talent. Now, even Zeng Shouyue couldn't see through Xi Yue's true strength. He even felt that he wasn't her opponent at all.

Hexi gave the antidote of the corpse puppet virus to Zeng Shouyue, then she walked quickly to Li Chengqun, took out another bottle of medicinal pills and said faintly, "Although this is not the antidote for the Spirit Lock Pill, it has the opposite effect of the Spirit Lock Pill, and its effect is greater"

Li Chengqun took the medicinal pills with trembling hands, and his eyes were filled with tears, "I... I expelled you from the Heaven Medical Branch, why do you still save me!"

Hexi smiled indifferently, "You wanted to help me just now, didn't you? Besides, I also want to ask Dean Li for help."

"Say it, as long as I can do it!"

Hexi glanced coldly at the elders of the Doctors Association who had not yet fallen, and she said coldly, "I don't have time to deal with these people now. Watch them for me, and don't let anyone run away. If anyone dares to run away, kill without mercy!"

Li Chengqun looked at those people, and there was a burst of anger in his eyes. He nodded without hesitation.

Doctors Association actually tried to snatch Miracle Healer Academy, they really deserved to die 10,000 times.

Li Chengqun and Deputy Dean Jiang looked at each other. They saw the resolute cruelty in each other's eyes.

Since the Doctors Association was heartless, then don't blame them for being unjust. Even if Xi Yue didn't say anything, they would never let this group of people go, let alone the instigator behind them – Lu Xuyang!

The remaining elders of the Doctors Association saw the elders of Miracle Healer Academy, who took the antidote, exuded a sharp and powerful aura, and fear surged in their minds.

At this moment, they finally felt the despair of being cornered.

===

At this time, Hexi was speeding on the way to Toad Jade Palace.

It wasn't that Hexi didn't want to finish off the elders of the Doctors Association, but those elders were martial artists at the Nascent Soul Stage after all. Unless she went all out, otherwise she couldn't easily kill them with a single strike.

Most importantly, Hexi felt something was wrong with her body.

When she first advanced, she felt that she was full of strength. She even had the illusion that she could crush even the peak of the Nascent Soul Stage or even the powerhouse at the Soul Splitting Stage.

However, when the wood spiritual power that originally radiated outside was completely withdrawn, Hexi felt that her strength slowly returned to the normal level.

She was at the early stage of the Gold Core Stage, but she had a real strength that could rival the Nascent Soul Stage intermediate stage or even later stage.

But that was only 1 vs 1 situation. If she was besieged by a group of Nascent Soul Stages, she would definitely die without suspense.

However, recalling the seemingly invincible state just now, Hexi was still a little dazed. Why did my strength increase so much just now? Where did the huge energy go now?

Chapter 1420: Sneak Attack

“Mom, that is the life source of life. The most powerful and precious source of life that everyone covets crazily.”

“The source of life?” Hexi repeated in astonishment.

Then she discovered that Little Egg was not talking in the void, but talking to her directly with Divine Sense.

This is... to prevent other people from hearing it? Even Little Golden Dragon, Xiao Li and the others?

Although Little Egg was talking, his tone was flat and dignified, not like the usual lively Little Egg at all.

“Yes, the source of life. In God Domain, the source of life and the power of vital spirit are called the 2 greatest and most mysterious forces. Those who get them will control thousands of worlds.”

The source of life, the power of vital spirit? What is this all about? Huh? Vital spirit, why does it sound so familiar?

However, Hexi quickly put the thought behind her, “Then why do I feel weak again now?”

“Because mom, you still can’t really grasp the power of the source of life. Just now, the powerful spiritual power can make all things pilgrimage, make vegetation grow wildly, resurrect the dead, and regenerate the severed limbs, all because of the leaked source of life. But mom, you can’t really use it yet.”

“If you forcibly use the power of the source of life, it will overdraw mom’s lifespan and talent, so you must not do that. Mom, you must wait until 5 levels of the source powers are unlocked!”

Hexi frowned. Now she felt that her flight was becoming more and more difficult. Her spiritual power was full, but her vitality and physical strength were extremely overdrawn.

In other words, she only had spiritual power and spells now, but she didn’t even have the strength to stand up.

“So, I will become like this now because I have overdrawn my source of life?”

“No, it’s not just because of the source of life, the most important thing is because the Sumeru Ring Void is about to...”

Halfway through speaking, Little Egg stopped abruptly.

Hexi heard the anxious voice of Little Golden Dragon, “Boss, be careful! A sneak attack!”

Before Little Golden Dragon finished speaking, Hexi felt a sharp killing intent appear out of thin air.

She paused, and her whole body receded like an arrow.

The air in front of him slowly fluctuated, and a slender figure of a man in a scholar's long gown slowly appeared. He had a warm smile, but his eyes were flickering with sinister light.

"Lu Xuyang!" Hexi narrowed her eyes suddenly.

For such a long time, although she had not dealt with Lu Xuyang directly, it did not mean that she did not know this person. Since she came here, the Doctors Association had been around her all the time, but now she didn't expect to meet their highest authority.
