

King of Hell 1461

Chapter 1461: Condition

Hexi was smiling without speaking. She was just playing with Nangong Yu's hand while looking at Ran Yi casually.

It wasn't until Ran Yi, the Beastkin King, was slightly sweating on his forehead, that Hexi said calmly, "I'm a doctor. Although I don't know much about the symptoms of the spiritual plant, the Heavenly Mulberry Sacred Tree is no longer considered a simple tree, but an intelligent creature. Whether the spiritual power and breath fluctuation of each intelligent creature is disordered or sick, I can more or less tell the difference."

Ran Yi stared at Hexi in a daze for a long while, then he let out a breath and said, "Miracle Healer Xi is really capable."

He suddenly bent down and bowed deeply to Hexi. His tone was sincere, and the enchanting smile just now was no longer on his face, "Miracle Healer Xi, Heavenly Mulberry Sacred Tree is as important and precious to our beastkin clan just like a mother. If the Heavenly Mulberry Sacred Tree dies, it means that the beastkin of in the magical beast forest will also perish. I only hope that Miracle Healer Xi can save the sacred tree and our beastkin clan. Your great kindness, we will never forget it for the rest of our lives."

Hexi folded her hands on his chest and said with a leisurely smile, "I remember, you Beastkin King still owes me a life-saving favor, right? Now you owe me another favor of saving your mother, are you sure you can pay them back?"

Ran stood up suddenly. The pair of peach eyes were sparkling, looking charming and also persistent, "Even if Miracle Healer Xi asks me to devote my life and marry you, I will never refuse."

Nangong Yu drew out his long sword and said with a sneer, "Why don't I let you pay for it with your life?"

Ran Yi glanced at Nangong Yu with a dimmed glance, "Soul Splitting Stage. You haven't been mixed with any upper realm breath, and you haven't gone through the tribulation... I admit that your cultivation strength is really good. I'm really not your opponent before I have gone through the tribulation, but now? I'm afraid it will not be so easy for you to kill me."

Nangong Yu's eyes were cold and his lips curved slightly, "Try it, then you'll know."

Hexi quickly grabbed Nangong Yu's sword-holding hand and made a pause gesture to Ran Yi, "Beastkin King, I don't need you to devote your life to me. I hope you can help me save a beastkin. "

"Beastkin?"

Hexi didn't wait for Ran Yi to ask again, and she waved and released Wu Qi who was sleeping in the void.

Xiao Li came out together with Wu Qi.

"Ah!" Li Yu couldn't help exclaiming when she saw Wu Qi, "King, he's the brother of the wolf clan."

A trace of surprise flashed across Ran Yi's eyes.

He didn't know this little wolf beastkin, but he had a familiar beastkin heritage aura that belonged to their magical beast forest lineage.

Moreover, this little wolf beastkin's talent was very good, but now it had been hollowed out by people. He was almost relying on something to stay alive, otherwise he would have died already.

When Ran Yi's eyes fell on Xiao Li, his astonishment turned into shock in an instant, "The nine-tailed silver fox!!"

She also belongs to our magical beast forest lineage, but... But she is actually the nine-tailed silver fox that is rarer and nobler than me, the pterosaur?

Where did these two little guys come from? They obviously belong to our lineage, but why have I never seen them before?

Hexi pointed at Wu Qi and said, "If you can cure him, I will consider you repaying the grace of saving your life."

Ran Yi looked at Hexi with complicated eyes and said a hoarse voice, "Xi Yue, they are beastkins, why are you being so nice to them? Even if you don't let me save this little wolf beastkin, I can't watch my people die."

Chapter 1462: Terminate the Contract

Hexi frowned and said naturally, "They recognize me as their master, believe me, follow me, and treat me as a relative and friend, so I of course give them shelter. There is no why. Does it matter whether they are human or beastkin?"

Ran Yi was stunned for a while, then he murmured after a while, "Yes, it really doesn't matter."

He suddenly smiled and said slowly, "Okay, Xi Yue, I promise to save him."

"And because of you, I will cancel the revenge action against human beings. Even if I really want revenge, I will find the real mastermind and will not involve innocent people."

Hexi glanced at Wu Qi, "Can you cure Wu Qi?"

Ran Yi smiled faintly. He spread out his slender and fair hand, and a few green beads appeared in his palm.

Hexi was startled, "Wood Vitality Pearl?!"

"Originally, I didn't necessarily have a solution." Ran Yi said, "But there are quite a few Wood Vitality Pearls in the storage bags left behind by the people from the upper realm. Although they may not necessarily be extracted from the body of this little wolf beastkin, but with my current ability, there is still a way to purify the inherited bloodline in the Wood Vitality Pearl and reintegrate it into the little wolf beastkin."

"Perhaps after waking up, the little wolf beastkin's talent will decline and his cultivation will drop a lot, but at least he can survive."

As soon as Xiao Li heard that Wu Qi could survive, tears welled up in her eyes. She knelt down to Ran Yi, "It's enough as long as it keeps my brother alive. Brother Blue Dragon, thank you, wuuu... thank you! "

Ran Yi was stunned slightly.

I have been the Beastkin King for decades, and this is the first time someone calls me... Brother Blue Dragon. This little girl is only at rank 5, can she see through my original form?

He took a breath before smiling and said, "Little girl, if you want to thank, thank your master Xi Yue..."

Before Ran Yi finished speaking, Xiao Li threw herself into Hexi's arms, weeping with joy while hugging her waist.

Rescuing Wu Qi was not in a hurry, Ran Yi asked Li Yu to find someone to take Wu Qi to the bottom of the Heavenly Mulberry Sacred Tree, where there was abundant vitality. It could make Wu Qi recover better.

Ran Yi looked at Xi Yue and pleaded more solemnly, "Miracle Healer Xi, the Heavenly Mulberry Sacred Tree has reached the period when it bears holy fruits once in a thousand years. As long as you are willing to cure the Heavenly Mulberry Sacred Tree, we beastkin would like to offer half of the holy fruits to you."

Heavenly mulberry holy fruit was rare. Its value was unmeasurable by crystal stone even in Siam Continent.

It was not a small gain to get half of the holy fruits.

Hexi smiled and said, "I can help you cure Heavenly Mulberry Sacred Tree, but I still have 2 conditions."

Ran Yi hurriedly said in joy, "Please tell."

"First, during my treatment, except for Nangong Yu, no other beastkin or people can come near me."

Ran Yi was taken aback. Suddenly, he remembered the powerful vitality he felt when he was promoted. Something flashed in his mind. He nodded in agreement immediately without thinking too much about it.

"Secondly, I hope that after I revive Heavenly Mulberry Sacred Tree, you can terminate the life and death contract between me and Xiao Li."

As soon as Hexi said this, Xiao Li straightened up from her arms, looked at Hexi with red eyes in disbelief, and said in a hoarse voice, "Miss, why? You don't want Xiao Li?"

A blue light flashed in Ran Yi's eyes. He glanced at Hexi and Xiao Li, and he was slightly shocked, "You... you actually signed a life and death contract with this little fox beastkin?!"

Chapter 1463: Xiao Li's Tears

Many humans would sign a contract with beastkin, but almost no one would sign a life and death contract, usually a master-servant contract.

How many human beings would be willing to live and die together with a beast?

Xiao Li didn't seem to hear Ran Yi's words, but she just grabbed Hexi's sleeve and said with a panicked face, "Miss, you were just joking, right? You won't abandon Xiao Li, right?"

Hexi reached out and touched Xiao Li's head, and she said softly, "Xiao Li, I believe you can feel it too. You can't get any greater improvement by following me, whether you are in the Sealed Dragon Domain or by my side."

"But this magical beast forest has a great fit with your beastkin power. As long as the Heavenly Mulberry Sacred Tree is cured, you will definitely be able to get a good improvement if you stay here. In other words, as long as you stay here, you and Wu Qi can only improve."

Of course, Xiao Li has long felt the kindness and attachment to this magical beast forest.

Even, when she saw Heavenly Mulberry Sacred Tree, she felt like returning to her mother's arms and she was reluctant to leave.

But, so what? No matter how kind the magical beast forest is to me, it can't compare to Miss who saved me and cared for me.

Xiao Li held Hexi's hand and said in a sobbing tone, "Miss, I don't want to become stronger, I just want to stay by your side. Don't drive me away, okay?"

Hexi glanced at Wu Qi and said, "Even if you can bear it and stay strong, but after your brother wakes up this time, his body will become very weak. Only by staying in the magical beast forest can he heal his injuries better. He has no ability to protect himself now. Are you willing to leave him alone?"

Xiao Li took a look at Wu Qi who was still in a coma, and she immediately burst into tears.

She couldn't bear to leave Miss, and she also couldn't bear to leave Brother.

"Silly girl!" Hexi hugged her into his arms. She couldn't help but whisper, "The magical beast forest is not far away in another world. Even if you and Wu Qi stay here, I can still come to see you. When you 2 are strong enough, you can also come to me. We will always have a chance to meet again."

Xiao Li raised her tear-filled face, grabbed Hexi's sleeve, and said with an aggrieved face, "But why does Miss want to terminate the contract with me? It's like Miss doesn't want me anymore."

Hexi smiled and glanced at Ran Yi. After sensing Ran Yi's meaningful gaze, she smiled and rubbed Xiao Li's head, "The life and death contract was originally just to save you, so I had no choice. But now that we are going to separate, if the life and death contract is kept, it will become shackles instead."

"If one day I'm seriously injured and you are at the moment of breakthrough, your vitality will be passed on to me, and your breakthrough will fail at that time. In turn, Xiao Li, you also don't want that when I'm at a critical moment, I'm dead because my vitality automatically flows to you, right?"

"No! No! Xiao Li doesn't want Miss to die!" Xiao Li hugged Hexi nervously, feeling extremely aggrieved in her heart, but she still sobbed, "Xiao Li is willing to terminate the contract with Miss, but Miss, don't forget Xiao Li. You must come and visit Xiao Li in the future."

Hexi also felt sour in her mind. She even wanted to throw the little girl into the void and never let her out again.

But in the end, she endured it, patted Xiao Li on the head, and asked her to accompany Wu Qi to the Heavenly Mulberry Sacred Tree first.

Chapter 1464: Grateful

“Why don’t you tell her that you want to terminate the contract with her so that she can better inherit her beastkin bloodline? Maybe even become the king of this magical beast forest one day?”

Hexi turned her head to meet Ran Yi’s deep eyes, and she said with a faint smile, “It doesn’t matter. As long as I know that she is doing well, that’s enough.”

Since breaking through and activating the wood source, Hexi had a feeling of spiritual connection with this magical beast forest.

Therefore, as soon as Xiao Li appeared in the magical beast forest, she felt that Xiao Li belonged to this forest.

Moreover, Xiao Li’s inherited bloodline was extremely noble; so noble that she would one day stand at the top of this forest; so noble that she was destined to be a king by birth.

However, if Xiao Li still signed a life and death contract with her, regardless of whether Hexi would bring the crisis to her, not all beastkins in the magical beast forest would agree to a human spiritual pet to become their king.

When she signed the contract with Xiao Li, she just wanted her to live a good life. She never treated Xiao Li, Little Egg and the rest as spiritual pets.

Ran Yi clenched his fist and put it on his heart and bowed slightly toward Hexi. His movements were graceful and elegant like flowing clouds and flowing water, but his expression was very solemn, “Xi Yue, please let me express my gratitude to you again.”

Afterward, he raised his head and said with dignified and serious eyes, “This time, for real, do you want me to be your mount? Even without a contract, I’m willing to serve you for a hundred years.”

What responded to him was Nangong Yu who swept his long sword across the air and Hexi’s helpless smile.

===

Hexi stood under the Heavenly Mulberry Sacred Tree. There was no beastkin beside her. Only Nangong Yu was by her side.

But Hexi didn’t try to heal the sacred tree, but she looked at the handsome young man not far away who was emitting green light from his body.

Hexi looked at the young man with eyes full of doting and pity, just like looking at the most important relative in the world.

Nangong Yu looked down and saw her eyes looking at the young man, and jealousy surged in his heart.

In Xi’er’s heart, the most important thing was definitely this younger brother, even he had to stand back.

This made him even more determined to marry Xi'er immediately when they got home.

Nangong Yu narrowed his eyes. He decided to start preparing for the wedding as soon as he returned to Jin Ling Kingdom City.

But before that, he had to inform those people of his decision to marry Xi'er immediately.

No one could influence his decision!

After a long time, Xiao Chi who was sitting in front of the Heavenly Mulberry Sacred Tree finally opened his eyes slowly.

He blinked his long eyelashes, moved his hands and feet again, and felt indescribably comfortable all over.

The Heavenly Mulberry Sacred Tree above also swayed. The branches and leaves made a "rustling" sound. The five-color luster of the leaves flowed as if expressing their own comfort and gratitude.

Xiao Chi didn't understand why he was so comfortable. He only knew that his sister told him to channel the Circle of Life under the tree and inject green spiritual power into the tree, and he did it.

Xiao Chi quickly ran to Hexi's side, rubbing against Hexi's neck like a cute pet, and then obediently lay down on her lap, "Sister... it's done..."

Facing the young man's clear, crystal-like purple eyes, Hexi's eyes unconsciously showed a gentle and doting smile.

She gently stroked the young man's soft hair, "Xiao Chi did a great job and helped sister a lot."

Chapter 1465: Prophecy

Xiao Chi immediately frowned happily. His clear eyes were like amethyst reflecting the light of the sun.

He rubbed Hexi's hand on his face and murmured coquettishly: "Sister likes it... Xiao Chi is so happy!"

Hexi smiled and said, "Xiao Chi will also practice the technique that sister taught you every day without interruption, understand?"

Xiao Chi nodded obediently.

Every time Xiao Chi channeled the Circle of Life, he also felt comfortable all over. Originally, he couldn't cultivate, and he couldn't help his sister, but since he practiced this technique, he felt that he became more powerful and smart.

Xiao Chi didn't care if he was powerful or not. As long as he could help his sister, he would be very happy.

After sending Xiao Chi into the void, Hexi prepared to leave with Nangong Yu and told Beastkin King that her mission had been completed.

As they had just taken a step, Hexi suddenly heard an old voice, "Wood source, please wait a moment."

Hexi stopped and looked back, but she didn't see anyone talking.

Nangong Yu asked, "What's wrong?"

"Did you hear anything..."

"Wood source, humans can't hear my voice, and neither can ordinary beastkin. Only you, I can talk to you."

Hexi suddenly looked at Heavenly Mulberry Sacred Tree and said in disbelief, "It's you talking to me?"

A tree can actually talk?!

"It's me." The Heavenly Mulberry Sacred Tree shook its branches and leaves, and the old voice sounded again, "Can I speak to you alone?"

After a pause, Heavenly Mulberry Sacred Tree added, "It's just that you and I. The man next to you and your spiritual pets can't listen."

Hexi frowned, she somehow felt that there was urgency and worry in Heavenly Mulberry Sacred Tree's voice as if it wanted to tell her something important.

After hesitating for a moment, she let Nangong Yu leave first. The little ones in the void were also released and let Nangong Yu take them away.

Although Nangong Yu was full of doubts, he couldn't feel any danger around, so he didn't disobey Hexi's decision in the end.

After Nangong Yu and the others left, the Heavenly Mulberry Sacred Tree shook its branches and said urgently, "I can sense that a dangerous aura is approaching you. It is a greedy person who wants to snatch your wood source. You must be careful!"

Hexi frowned. She thought of Lu Xuyang who had escaped.

Lu Xuyang said at the beginning that the wood source was on her body. Although he hadn't confirmed it and the wood spiritual root had not been detected on her, it was obvious that the person was not dead. He was a huge hidden danger to her.

Hexi looked up at Heavenly Mulberry Sacred Tree, "Is this your prophecy ability?"

"Yes." The old voice was a little tired, but it was also grateful, "Our Heavenly Mulberry Sacred Tree Clan has the ability to protect, pray, purify, and prophecy. It's just that I'm too weak. I was infected before I became adult, so I can't grow into the real Heavenly Mulberry Sacred Tree."

"Without you today, the wood source, in a few years, I will be completely infested with filth and wither. So in order to thank you, I tried the ability of prophecy. But the result is chaos. Wood source, I can't see your future. I only know that it is very dangerous."

Hexi let out a breath slowly, "I know. I will be careful in the future. Sacred Tree, thank you!"

The Heavenly Mulberry Sacred Tree shook violently, then the fruits on it fell down.

Chapter 1466: Your Mission

Before the fruits landed on the ground, they jumped onto Hexi's body spontaneously. They even went into her void right away.

"These heavenly mulberry holy fruits are important to beastkin, but they are not necessary. I will give them to you, hoping to help you escape the catastrophe."

Hexi looked up at the Heavenly Mulberry Sacred Tree and saw that there were only 3 heavenly mulberry holy fruits left on the Heavenly Mulberry Sacred Tree. She was dumbfounded.

Ran Yi originally promised to give her half of the heavenly mulberry holy fruits, but now, the Sacred Tree gave her 90% of it.

If Ran Yi found out, he won't be mad right?

However, she would not refuse the kindness of the Sacred Tree. She solemnly thanked the Sacred Tree.

Heavenly Mulberry Sacred Tree said again, "Wood source, if... you don't mind, you can take a piece of my branch. Because the wood source in your body, as long as you keep it by your side and plant it well, one day it may become a real Heavenly Mulberry Sacred Tree."

Hexi was taken aback, "Break your branch? Wouldn't you be weak then? Why would you help me to such extent?"

Heavenly Mulberry Sacred Tree gently shook the branches, and a broken branch fell into Hexi's hand.

The branch and leaves were still emitting silver light, which dazzled Hexi's eyes.

But Hexi had an illusion that this branch and leaves seemed to be very happy after it was in her hand.

Heavenly Mulberry Sacred Tree's voice became weaker, but it was very happy. "Wood source is the source of power for all creatures in the world, especially plants, birds and animals. Only when the wood source survives well, can the grass and trees flourish. The wood source that is taken away is just a tool. A cluster of energy that is used. It cannot make everything grow. It can only destroy all natural creatures."

"So, you must protect the wood source! That is your mission. It is also the prayer of all creatures in the world!"

===

Until Hexi regrouped with the people of the Miracle Healer Academy, she was still thinking about the words of Heavenly Mulberry Sacred Tree in her mind.

The branch of the Heavenly Mulberry Sacred Tree had been planted in the Ancient Rhyme Spiritual Field.

Little Egg, Little Golden Dragon and Little Red Bird went crazy with joy when they saw Heavenly Mulberry Sacred Tree.

Seeing Hexi's puzzled face, Little Red Bird even despised her with disgust.

In Little Egg's words, it was, "That is the Heavenly Mulberry Sacred Tree. If you live with the sacred tree, you will get good luck and blessings. Especially the beastkin, its strength will improve by leap and bound."

Even Little Dumb Cow, who was usually dull and silly, liked to get close to the sacred tree.

The spiritual herbs in the Ancient Rhyme Spiritual Field, which were already growing well, were happily swaying branches, leaves and flowers. Even the man-eating bees finally started to build a nest on the Golden Bodhi Tree. Before that, the man-eating bees didn't regard the void as their own territory. Apart from collecting honey, they kept trying to find a way to return to their nest every day.

Hexi was also speechless. She didn't expect that the branch of the Heavenly Mulberry Sacred Tree would have this effect. She just didn't know if those holy fruits were really so miraculous.

Hexi didn't ask Xiao Li to see her off. She just told Ran Yi to take good care of the little fox.

The people of the Huang Medical Branch were naturally overjoyed to see Hexi safe and sound.

Zeng Shouyue even stroked his beard and smiled delightedly.

As for Deputy Dean Jiang, they felt a little complicated to see Xi Yue.

This was 17 years old young man was once kicked out of Heaven Medical Branch by them and insulted and rejected by many students, but in just a few months, he shook and changed the entire Miracle Healer Academy.

Chapter 1467: Back To Miracle Healer Academy

Advanced from the Foundation Establishment stage to the Gold Core Stage, could dispel the corpse puppet virus, healed the soul-searched people, and now she even saved more than half of the elders and students of the Miracle Healer Academy with her own power.

And her strength had surpassed most of the elders.

Deputy Dean Jiang didn't even know what attitude he should use to talk to this unusual student, "Student Xi Yue, would ... would you like to go back to Miracle Healer Academy?"

"Of course! Why don't you want to go back!" Zeng Shouyue was anxious when he heard that. He grabbed Hexi, pulled her sleeve tightly, and said with a fierce gaze, "Old Man Jiang, what do you mean by that? Xi Yue contributes the most this time. He is also the treasure of our Huang Medical Branch. Do you still want to drive him out of Miracle Healer Academy?! If you dare to drive Xi Yue away, I will go with him!"

"We will go too!" Huang Medical Branch shouted without hesitation, "Wherever Xi Yue goes, we will go too!"

Deputy Dean Jiang's face was flushed. He said embarrassingly and angrily, "What nonsense are you talking about? How could I drive Xi Yue away? I just... Xi Yue's current ability has far surpassed the elders like us. I just want to ask Xi Yue if she is still willing to stay at Miracle Healer Academy?"

When Deputy Dean Jiang said this, everyone was dumbfounded.

Zeng Shouyue pulled a bunch of his beard off, but he didn't feel any pain at all. Instead, he frowned tightly.

The people from Huang Medical Branch stared at Xi Yue nervously, for fear that she would say not going back to Miracle Healer Academy.

Not to mention Huang Medical Branch, people of the other branches were also staring at Xi Yue. After this disaster, Xi Yue was like a savior in their hearts. She had become an idol that most people admired and yearned for.

No one wants his idol to leave, right?

Hexi smiled slightly. Under Zeng Shouyue's anxious gaze, she slowly said, "I haven't finished reading many books in the Miracle Healer Academy library. At least until the end of this year, I will not leave Miracle Healer Academy."

Hexi's words made everyone present breathe a sigh of relief.

Deputy Dean Jiang said even more excitedly, "Xi Yue, don't worry, when you go back, I will give you the highest authority. You can borrow any books from the library at will. Except for top-secret materials, it doesn't matter even if you want to make a copy of all books."

"I just hope that Xi Yue, you can occasionally help the students of our academy in their cultivation if it doesn't bother you."

The students of Huang Medical Branch used to be trash before. However, after Xi Yue entered Huang Medical Branch, they improved quickly. 2 of them even advanced to the Gold Core Stages in just a few months. How could he not be excited by this?

Hexi smiled, neither refusing nor agreeing.

Seeing that Hexi was still willing to stay at Miracle Healer Academy, the people of the Huang Medical Branch jumped up excitedly. All of them wanted to accompany Hexi to walk out of the magical beast forest.

However, meeting the cold eyes of Nangong Yu who had disguised his face again, the group of people shrank back immediately.

They didn't know how strong this man was, but the aura exuding from him was really terrifying.

But this man's behavior of monopolizing Xi Yue was really annoying. They really wanted to throw him out.

Hexi glanced at Nangong Yu, whose eyes were somewhat gloomy, couldn't help but hold his finger, and said in a low voice, "Are you angry that I'm going back to Miracle Healer Academy?"

Chapter 1468: Wuliang Mountain, Feng Family

Nangong Yu looked down at her and snorted, "Anyway, you don't care about me at all. You would rather go back to Miracle Healer Academy than marry me."

Hexi blushed and looked around to make sure no one was paying attention, then she quickly stood on tiptoe, kissed Nangong Yu on the face, and said in a low voice like a mosquito, "It's not that you don't want to marry..."

It is just that I really have a lot to learn at Miracle Healer Academy. Many of the books there have been of great benefit to her.

Moreover, Nangong Yu and I have only known each other for a year after all. We should at least wait a little longer to marry.

Hmm... at least wait until I graduate right?

Nangong Yu's eyes lit up when he heard the words. The joy and smile on his face couldn't be concealed, "Xi'er, you said that yourself. Soon, you will be my bride."

Hexi froze for a moment. As she was about to explain, chirping sounds came from the sky.

A yellow Yue Min Bird and a fiery red bird flew down from the sky. One flapped its wings and flew in front of Hexi while the other unceremoniously stepped on Hexi's shoulder.

Li Yu handed the inscribed jade slip held in her claw to Hexi.

Hexi frowned slightly. She didn't check the content in the inscribed jade slip, and she just sneered, "It seems that Ouyang Haoxuan and Xuan Wu have already made their moves."

Nangong Yu's expression remained unchanged. He stretched out his hand to caress Hexi's smooth cheek and smiled slowly, "Feng Family, it's time to completely disappear from the Miluo Continent."

===

Wuliang Mountain; Feng Family was in chaos now.

Iron Kirin shuttled between the buildings in an orderly manner, sealing off all the paths. All the disciples of the Feng Family were arrested one by one.

In the past, this was the realm of immortals that everyone yearned for, but now it was the land of hell that was about to overturn.

Those who were tied up and thrown in front of Xuan Wu and Ouyang Haoxuan were the remaining elders and direct descendants of the Feng Family.

They all stared at Ouyang Haoxuan and Xuan Wu fiercely.

One of the elders with the oldest age and the highest cultivation level was the only remaining Nascent Soul Stage martial artist of the Feng Family; he was also the great elder of the Feng Family.

He glared at Ouyang Haoxuan with a poisonous gaze and said in hatred, "Sinister and shameless boy, if you didn't use despicable means, how could I fall into your hands?"

Ouyang Haoxuan's eyes were cold without any fluctuations, but he sneered, "Despicable means? Do you mean that I used your grandson and granddaughter to threaten you?"

"You shameless coward! Fight me if you dare!"

Ouyang Haoxuan had a barbed whip in his hand, and he whipped it at the great elder.

The voice was cold as if it came from hell, "It turns out that you Feng Family also know what shamelessness is. When you tortured my parents and used my parents' death to force out the Fire Element Spirit Pearl, did you ever think about what it means to be shameless?!"

"Fire Element Spirit Pearl!!" The great elder's eyes widened suddenly. He looked up and down at Ouyang Haoxuan as if he had seen a ghost, "You're Ouyang Haoxuan? You... you didn't die?!"

How can it be?! Those who trigger the Fire Element Spirit Pearl will inevitably be swallowed by the flames and reduced to ashes. Why did Ouyang Haoxuan not die?

Ouyang Haoxuan stepped forward slowly with a half-smile, "What? Disappointed to see that I didn't die?"

The whip in his hand whipped out with a swoosh.

Chapter 1469: Revenge Taken

A fiery flame burst out from the end of the whip. The great elder felt a burning pain in his chest. He couldn't help screaming loudly due to the pain.

That flame was the real fire of extreme yang that could melt the hardest things in the world.

The great elder channeled his spiritual power desperately, almost using half of his fundamental essence to barely be able to extinguish the flame on him.

However, he soon discovered that the originally indestructible golden silk on his body had also been burned to ashes.

He was free.

The great elder laughed loudly, "Ouyang Haoxuan, King of Hell Nangong Yu. Just wait for it. When I regroup with the Venerable and Patriarch, we will definitely tear you to pieces. Today humiliation you did to our Feng Family, we will repay it thousands of times in the future."

The great elder and everyone in the Feng Family on Wuliang Mountain still didn't know about it.

The large force of the Feng Family had been completely wiped out in the magical beast forest. Only Venerable Mu Hua, whose half dantian and heart had been hollowed out, managed to escape like a dog. He no longer had any power to resist.

The great elder was about to run away after finishing his harsh words.

Ouyang Haoxuan just smiled slightly. A quaint and elegant long sword — Red Lotus slowly appeared in his hand.

Just when the great elder thought he was about to reach a teleportation array of the Feng Family, Ouyang Haoxuan suddenly soared into the air and gently swung the Red Lotus Sword.

The great elder who was about to activate the teleportation array suddenly felt a strong crisis.

When he turned around, he saw a red flame flashing along the long red sword, which looked like a female saber, and rushing toward him.

The great elder wanted to take out his defensive magic weapon, but he couldn't. Only then did he remember that his storage ring had been taken away when he was caught.

It's still fine. Ouyang Haoxuan is only at the Gold Core Stage. I'm at the Nascent Soul Stage intermediate stage, can it be that my protective shield can't block a Gold Core Stage attack?

The great elder cast his shield. The flame was really blocked by it.

Just as the great elder smiled, he suddenly looked shocked. The next moment, the protective shield shattered.

Immediately afterward, the flame swept toward him. The overwhelming burning pain made him scream and roll around.

Ouyang Haoxuan sneered; his smile was elegant and cruel.

All the people present looked at him with weird eyes and kept silent.

Apart from the sound of the wind, what they heard was the heart-piercing screams of the great elder who was being burned, but couldn't be burned to death no matter what.

Xuan Wu swallowed. He looked at Ouyang Haoxuan and said, "Brother Ouyang, have you... advanced to the Nascent Soul Stage?"

Ouyang Haoxuan nodded, but he did not speak. He just looked at the distant sky.

There were white clouds and green mountains towering into the sky, but there was nothing else.

But there is also the direction of Jin Ling Kingdom City, his once warm and happy home.

Ouyang Haoxuan closed his eyes, feeling the turbulent emotions beating his heart like waves, but his face was calm.

Ouyang Haoxuan felt very reconciled for not being able to skin that bastard Feng Yunjing with his own hands and make him taste the feeling of living hell.

However, thinking that it was Xi Yue who killed Feng Yunjing herself, he felt relieved.

The revenge has taken, but my family also disappeared. Now, the only thing left for me is... Xi Yue.

"General Xuan, Mr. Ouyang!" An Iron Kirin soldier said anxiously.

Chapter 1470: Feng Lianying Was Missing

Ouyang Haoxuan turned around and heard Xuan Wu ask, "What happened?"

"Feng Lianying is gone!"

"What?!" Xuan Wu was startled. This was the person whom the master and the princess had named to capture, "How did she escape?"

The Iron Kirin soldier shook his head and said, "We have known the place where Feng Lianying was imprisoned, but when we arrived, the stone door of that place had been opened. There was no trace of Feng Lianying inside. In addition... we found one less person in the Feng Family."

“Who is it?”

“Nie Jincheng.”

Xuan Wu frowned suddenly. He knew that Nie Jincheng had been secretly in love with Feng Lianying for many years. Could it be that Nie Jincheng rescued Feng Lianying? What should we do now?

Xuan Wu knew that Feng Lianying and Feng Yunjing were the members of the Feng Family that his master wanted to kill the most, but now Feng Lianying actually ran away.

Ouyang Haoxuan squinted and said coldly, “I will chase Feng Lianying and Nie Jincheng. I’ll leave the matter here to you.”

“How did you find...”

However, before Xuan Wu could finish speaking, Ouyang Haoxuan turned into a ball of flame and flew toward the southwest direction.

Feeling the incoming scorching flames, Xuan Wu took a deep breath.

Ouyang Haoxuan, I remembered that as early as half a year ago, this young man was just an ordinary martial artist at the Gold Core Stage intermediate stage.

But now, his strength has reached the Nascent Soul Stage. Even when facing him, I feel more pressure than when facing Wu Xing.

Moreover, the dark aura emanating from this young man seemed to have climbed up from hell, making people shudder when they see his eyes.

Ouyang Haoxuan... Is he good or bad for the master and princess?

Xuan Wu sighed and put all these aside, then he let Iron Kirin continue to sweep Feng Family.

After tens of millions of years of accumulation, the wealth of the Feng Family was unimaginably rich. The master said that all of them would be swept away as a dowry gift for his master to marry the princess.

===

This trip to the magical beast forest, Miracle Healer Academy suffered a complete failure.

Not to mention that the mission was not completed, several students died due to the attack of the magical beasts and the outbreak of the corpse puppet virus.

However, because of Xi Yue’s return, everyone was full of smiles again.

Because in the boundary of the magical beast forest, everyone dared not fly, fearing to trigger the attack of those beastkins, so they could only leave the magical beast forest first, then they took the airship to Miracle Healer Academy.

Of course Hexi knew that those beastkins would not attack them again, but in the confinement space, many students lost their relatives and friends because of the magical beasts’ attack, Hexi would be stupid to say that she had a good relationship with the beastkins.

While walking, there was a weak cry for help not far away.

Immediately afterward, a disheveled woman stumbled over and fell in front of Deputy Dean Jiang.

After seeing the face of the person, the students standing in the front row couldn't help exclaiming, "Lu Zhixi?"

The girl who asked for help was Lu Zhixi.

She looked very miserable at this time. The clothes on her body were tattered. There were wounds caused by branches all over her body.

But the strange thing was that the disgusting rotten wound on her face before she disappeared was gone.

Lu Zhixi's appearance was delicate and beautiful now. Although there were many wounds on her body, instead of looking ugly, she looked more pitiful and alluring.
