

King of Hell 841

Chapter 841: Replantation of Severed Limbs?

Although his other hand was fractured, the fracture was very clean, so the treatment was very simple.

Hexi raised her eyebrows when she heard what the soldiers said, "The replantation of severed limbs of the martial artist needs to be done within a dozen hours. If it is ordinary people, it must be done within 6 hours. If it exceeds this duration, even I can't help it. Moreover, the severed limbs that can be sutured usually are those with a clean cut wound, and the meridians must not be damaged. Otherwise, even if it is sewn up, it is just useless dead cells which will rot sooner or later."

When the soldiers heard Hexi's words, the expressions on their faces became more depressed and sad.

"But..." Hexi paused and continued, "Although the limb cannot be replanted, if a prosthesis is installed, walking like ordinary people is absolutely not a problem."

This Miluo Continent was a world of cultivation, and various spirit plants were planted in her void.

Some spirit plants had very strong rhizomes, just like pines and cypresses, but the roots of these spirit plants were much stronger than pines and cypresses. They were also born with spirit.

If these were made into artificial limbs, although it was impossible to be as flexible as before, there was no problem in living like ordinary people. Even lifting heavy objects and waving swords were not difficult.

With the help of spiritual power in this world, she had dozens of ways to make the compatibility of the prosthesis and the original body to be more than 90%. These prostheses did not need to be removed, nor did they cause pain.

The soldiers' eyes widened when they heard this. Someone couldn't help but exclaimed: "Miracle Healer Xi, are you telling the truth?"

"My brother can really stand up again?"

"My father can live like ordinary people?"

"Miracle Healer Xi, are you an eight grade doctor? You can reshape people's severed limbs? But that must require a lot of rare materials right?"

Hexi held Ouyang Haoxuan's arm with one hand, checking the bone fracture with her spiritual power.

Hexi couldn't help frowning and said, "I'm not an eight grade doctor, and I don't know what method the eight grade doctor uses to reshape the severed limb."

Speaking of which, I really want to see how this world can truly reshape the limbs. That is almost against the common sense of medical science right? How can it be done?

After a pause, she continued, "The prosthesis I'm talking about requires only a small amount of thousands years old fine iron and a main branch of the songyang wood over a hundred years old."

“It only needs thousands years old fine iron and songyang wood?!” Some of the soldiers couldn’t help but exclaimed, “These are not expensive. I saw a few hundreds years old songyan wood in the Longhu Mountain!!!”

“I also have thousands years old fine iron at my home!”

“Miracle Healer Xi, is this really enough?”

The so-called thousands years old fine iron came along in the crystal stone mine. Although it was expensive, it was not rare.

And the songyang wood more than a hundred years old could be found in many dense jungles.

They are not the rare materials used by eight grade doctor to reshape body parts. We can’t get those rare treasures even if we try our best for a lifetime. However, our relatives can live a normal life with just thousands years old fine iron and songyang wood?

Is all this true?

The soldiers thought of their family members who had lost hope in their lives and that they might get better, and their eyes were red.

Someone knelt down first and kowtowed to Hexi, “Miracle Healer Xi, please save my father. As long as you can make my father stand up again and make my father live like a normal person again, I’m willing to do anything for you!”

Chapter 842: Compassionate Hear

Even Xuan Wu clenched his fists and looked at his master with fluctuating eyes.

If princess really has this ability, does that mean that the soldiers who were removed from the Iron Kirin because of their disability can return to their normal lives? They can even return to Iron Kirin.

Nangong Yu received Xuan Wu’s excited and pleading gaze, and he slightly raised the corners of his mouth.

He looked at Hexi again. The girl’s side face was delicate and beautiful with a hint of coldness, but her eyes were so as if they could purify everything in the world.

This is my Xi’er!

With such amazing medical skills, mysterious origin, amazing talent, and a compassionate heart that she herself did not want to admit.

As long as he thought that such Xi’er belonged to him and would become his wife, Nangong Yu couldn’t help the surging happiness in his heart. He wished he could hold her in his arms and swear his dominance fiercely.

Chen Guang had walked up, cupped his fist at Hexi and said in a tremble voice, “Miracle Healer Xi, I heard that you healed our young master’s broken meridians. I’m really grateful to you. Miracle Healer Xi please treat my soldiers’ relatives for the sake of their loyalty toward the kingdom and citizen. No matter what is the price, we are willing to pay.”

“There is no cost, I will help them and their relatives. They can also come to me if they have any illness in the future.”

As Hexi said, her expression slowly became solemn. She had already confirmed the bone fracture on Ouyang Haoxuan’s arm.

Chen Guang couldn’t help sobbing, and he said in a trembled voice, “Miracle Healer Xi, you really...”

“Don’t get happy so soon.” Hexi interrupted him, then she looked at Ouyang Haoxuan, “Are you ready?”

Ouyang Haoxuan was taken aback. He habitually curled up the corners of his mouth. As he was about to nod, he felt so painful that his facial expression suddenly distorted.

A crisp crackling sound could be heard from the bones of his arms. It was followed by a second crisp sound.

The pain of the bones being twisted couldn’t be described in a few words.

After the two crisp crackling sound, Ouyang Haoxuan’s deformed and drooping arm immediately became normal, but the pain still remained in his bones, making his pale face even paler.

Hexi took out a bottle of ointment, rubbed it around his broken bone, then she threw a bottle of medicine to him. She said with a sneer, “Every three hours, apply the ointment externally and eat the medicinal pill. It takes time for the medicine to be active, so the fractured bone can’t move for 12 hours, otherwise it will be dislocated again. Since you are so daring, I don’t think the splint is needed anymore, you can hold your arm and keep it still for 12 hours.”

Ouyang Haoxuan’s body stiffened, then he touched his nose and whispered, “Xi Yue, are you angry?”

“What’s there to be angry about?” Hexi snorted and stood up. “You haven’t gotten your revenge, your cultivation hasn’t complete, and your family hasn’t been revitalized, then you are rushing to die. It has nothing to do with me. It’s okay, you can keep torturing yourself in the future. If you are injured, I will still treat you. But...”

After a pause, Hexi looked at Ouyang Haoxuan’s eyes and revealed a devilish smile. She stretched out her hand, “Severed arm replantation, 10 million crystals; fractured bone repositioning, 2 million crystals; other external or internal medicinal pills, 3 million crystals. The total is 15 million crystals, please pay it off in one go!”

Chapter 843: Swear Allegiance

The mask-like smile on Ouyang Haoxuan’s face finally froze on his face. He was unable to speak for a long while.

But Bai Hu on the side couldn’t help laughing, “Aiyaya, I said you’ve been tossing too much. You said it’s okay. Mr. Xi can be cured when he comes. Now he will lift a rock and hit himself in the foot. Come on! Ouyang Haoxuan, you really think no one can deal with you!”

Ouyang Haoxuan gave a low cough and said helplessly, “I... don’t have so many crystal stones now, but I will try my best to earn crystal stones.”

Hexi nodded immediately, "Okay, then when the time comes, you will pay all together with interest."

"Hahahahaha..." Bai Hu laughed so much that even tears were coming out.

Our princess is so mighty and domineering!

Ouyang Haoxuan lowered his head in embarrassment, but a slight smile appeared on his mouth unconsciously.

Chen Guang and the soldiers of the Zhenwei Army couldn't help but smile.

When they first saw their young master, they just thought he was very powerful.

However, his body exuded a kind of death and despair like he wanted to destroy the world.

It made people feel terrified for no reason when watching him; they couldn't help feeling sadness and pain.

But now, as soon as this Miracle Healer Xi appeared, their young master seemed to have changed instantly.

The energy in his eyes had returned, the vitality of his body had returned, and even his expression had been stained with the emotions and desires of mortals.

Chen Guang couldn't help but wiped the corner of his eye. He secretly thought in his mind: General Ouyang, if you can see how well young master is right now, you should rest in peace!

But just after he was happy for the young master, Chen Guang immediately remembered the previous promise. He looked at Hexi eagerly, "Miracle Healer Xi, you just said that you can treat our soldiers for free, is this... is this true?"

She even blackmailed my young master for 15 million crystals!

Hexi looked at Chen Guang upon hearing the words. A smile that looked a bit terrifying appeared on her face, "Of course it is true, because from then on, the Zhenwei Army will be my private army. Since you 100,000 soldiers are mine, so what if I give you free treatment?"

"Huh?" Chen Guang was dumbfounded.

The Zhenwei Army soldiers who had just bowed to Hexi were also dumbfounded.

Hexi slowly took out the animal-shaped commander's seal of the Zhenwei Army and the imperial decree given by Shangguan Wenji. She raised them into the air and said loudly, "Before General Ouyang died, he entrusted both the Zhenwei Army and Ouyang Haoxuan to me. Shangguan Wenji has also issued an imperial decree, promising that Zhenwei Army will no longer be under the Jin Ling Kingdom; the Shangguan Family can no longer say anything about Zhenwei Army."

Her cold gaze slowly swept across the dense crowd below. They all looked shocked and astounded. She said word by word, "From now on, you no longer belong to the Jin Ling Kingdom and no longer belong to the Ouyang Family. Are you willing to follow me Xi Yue and continue your following journey?"

Chen Guang's mouth grew wide. After a long time, he turned around stiffly and looked at Ouyang Haoxuan, "Young master, this... this is..."

Ouyang Haoxuan had already walked to Hexi's side at this time. He said with a smile, "Uncle Chen, I think I have made it clear just now. Zhenwei Army is indeed entrusted to Xi Yue by my father. I heard it myself. I have also said that I won't lead the Zhenwei Army because it has already belonged to Xi Yue."

As he said, he looked at Xi Yue and knelt down slowly.

His right hand which had just been connected was at his chest and his right hand was at his back, swearing allegiance to Hexi.

Chapter 844: May Mister Give Orders

"I, Ouyang Haoxuan, will like to admit Xi Yue as my master. Heaven and earth will be the witness. I will always follow Xi Yue's side, listen to his command, and never betray him! If I violate this oath, I will be punished by heaven and earth!"

At the foot of Dragon Tiger Mountain, there were 100,000 people standing in a daze, but at the moment, they were silent as if someone had pressed the pause button.

Time flowed quietly. There was only the rustle of the wind blowing through the blades of grass in their ears.

Finally, the soldier who had just held the broken arm of Ouyang Haoxuan couldn't help asking, "Miracle Healer Xi, you... can you really heal my brother's leg?"

Hexi smiled proudly, "I can't cure all diseases, but if I say it can be cured, I will definitely do it. Are you satisfied with this answer?"

The soldier trembled all over. His knees suddenly became soft as he knelt to the ground, "Miracle Healer Xi, I said that as long as you can cure my brother, I'm willing to do anything for you, let alone recognizing you as my master. I... I'm willing to follow you as the commander!"

"I'm willing too!"

"I'm willing too!"

Among the soldiers, some people knelt down one after another, from one to two, ten to one hundred, but then thousands of people all knelt down.

Some people who didn't kneel down looked at Chen Guang, waiting for his instructions.

Ouyang Haoxuan stood up and looked at Chen Guang and said, "Uncle Chen, what are you still hesitating? Have you forgotten the Zhenwei Army's dispatch conditions? As long as there is the commander's seal of the Zhenwei Army, plus the recognition of the Ouyang Family's bloodline, Xi Yue does not need any answer from anyone. She is already the new commander of the Zhenwei Army."

Chen Guang was shocked, looking at Ouyang Haoxuan with complicated eyes, "Young master, do you really have no intention in taking over the Zhenwei Army?"

Ouyang Haoxuan chuckles and said, “No matter who leads the Zhenwei Army in the expedition in the future, the Zhenwei Army must be loyal to and belong to Xi Yue alone. This is my will.”

Chen Guang looked at Hexi with tears in his eyes, and he said in a hoarse voice, “We are not unwilling to ask me to follow mister as our commander in command, but I want mister to promise us one thing.”

Hexi nodded and smiled with majestic solemnness and determination, “Don’t worry, one day, I will let Feng Family pay their debts and let them fall into the boundless hell to repay the debts they once owed, and this one day will never be far away!”

Chen Guang closed his eyes and did not hesitate this time. He knelt down on one knee to Hexi and kowtowed, “Chen Guang, Deputy General of the Zhenwei Army, will follow the command of mister. From now on, you are the only master of our Zhenwei Army!”

With this kneeling of Chen Guang, the remaining soldiers of the Zhenwei Army no longer hesitate. They knelt down and shouted in unison.

“We will follow mister’s commands!”

The voices of a hundred thousand people were uniform. That was truly earth-shaking!

Even the birds on Dragon Tiger Mountain were startled; they soared into the sky with fluttering sounds.

Another loud shout happened again; it was more unison and more shocking than the last time.

“May mister give orders—!”

Bai Hu watched this scene dumbfounded, and he murmured, “Mom, princess is so powerful, even I want to shout ‘mighty princess’!”

Xuan Wu couldn’t help but squint slightly. The young woman dressed in a male costume stood above the 100,000 Imperial Guard with a calm expression. Her eyes looked clear with a hint of persistence. Her body seemed to be shining brightly. The most beautiful scene on the whole world seemed to be her only.

Such a woman will be master’s wife and our princess!

Chapter 845: Burning Fire

Xuan Wu’s eyes shone brightly, and he suddenly looked forward to the future of King of Hell Mansion.

As for Cai Jie and Feng Family’s guards on the side, their emotions could no longer be described as shock and panic.

Cai Jie just heard Bai Hu saying that Zhenwei Army belonged to their princess.

Besides, he knew who this handsome young man was.

He was the rising star of the Yanjing City in the past 6 months, the young miracle healer – Xi Yue.

He appeared out of thin air a few months ago and suddenly became the focus of everyone.

In the beginning, he was just a young miracle healer who could heal broken meridians. Later, he inherited the Purple Golden Palace from the Sealed Dragon Domain and cured the Blood Drunk Poison. Later, Shengde Hall and its best quality pill became famous all over the continent. In the Breaking Spirit Mountain, the Feng Family was also being oppressed by him. He even befriended the Shen Family. Now, he had even completely subdued the 100,000 Zhenwei Army.

Such a stunningly talented young man, Bai Hu actually called him 'princess'. So, she is a woman disguised as a man? Not only that, she will even enter the King of Hell Mansion and become Nangong Yu's help?

Who is this person, and what is her origin?

Cai Jie thought this way, and his expression became more unsightly.

He suddenly discovered that ever since Xi Yue appeared, their Feng Family had been declining step by step. It became more and more difficult for them.

Is this Xi Yue the nemesis of the Feng Family?

Could it be that the Feng Family, which has been passed down for thousands of years, is about to be utterly destroyed by such a young girl?

Thinking of this, Cai Jie's body couldn't help shaking.

At this time, Ouyang Haoxuan has also slowly walked toward Cai Jie.

Facing Ouyang Haoxuan's dark eyes with a smile, Cai Jie suddenly remembered Sun Mingyuan's fate. No... he didn't need to remember it. Sun Mingyuan couldn't make a sound anymore, but his body was still burning and his spirit was still tumbling in his body. That meant, he... was still alive, enduring the pain of burning fire.

Cai Jie had a horrified expression on his face. Before he thought about it, he grabbed a flying sword on the side and swiped it toward his neck.

Instead of suffering a living hell before dying like Sun Mingyuan did, he might as well die now.

Ouyang Haoxuan snorted, and dozens of fingernail-size fireballs flew out of his hand.

Those fireballs were aimed at the wrists of Cai Jie and others. The fireballs accurately penetrated their wrists and burned their wrist bones.

Cai Jie screamed! The flying sword in his hand fell to the ground, and he could no longer use it to suicide.

Seeing Ouyang Haoxuan walking step by step, Cai Jie's face was full of horror and despair. He muttered, "Kill me... just kill me... please..."

The Red Lotus Sword in Ouyang Haoxuan's hand was raised. The red flames spread on it, fluttering slightly.

There was still a small smile on his mouth. He said with his gentle voice, "My parents begged you like this before. My parents also wanted to beg for a quick death, but you didn't give them this chance. Now, why should I spare you?"

As soon as the voice sounded, the Red Lotus Sword turned into several sword lights and shot out.

All of a sudden, the flames engulfed the bodies of these 30 people. The wailing sound spread throughout the foot of the Dragon Tiger Mountain again.

Ouyang Haoxuan took back the Red Lotus Sword, did not look at them again, and returned to Hexi.

Feng Family, Feng Yunjing... Don't worry, my revenge has just begun!

Chapter 846: Settle Down

In the battle of Dragon Tiger Mountain, the Zhenwei Army became Hexi's private army, and the horn of the Iron Kirin Guard also sounded throughout Yanjing City.

The army, dressed in black and strong outfits, shuttled uniformly in Yanjing City. Their purpose was to eliminate all the forces of the Feng Family in Yanjing City and get rid of their bases one by one.

At this time, the Zhenwei Army had been transferred to Sealed Dragon Domain's Secret Territory by Hexi.

The scope of the Sealed Dragon Domain's Secret Territory was extremely wide, otherwise it would not be able to accommodate countless martial artists to treasure hunt.

Although there were many Zhenwei Army 100,000, it just occupied a small corner of the Sealed Dragon Domain.

What Hexi arranged for them was the Ice Snow Realm. Most of the land in the Ice Snow Realm was covered by snow, but it was survivable.

There was a huge ancient tree planted in the center of the Ice Snow Domain. The roots of the ancient tree covered hundreds of kilometers around. The place was like picturesque scenery, and the climate was pleasant.

But the place outside of the ancient tree was freezing; the temperature was a dozen degrees below zero. Ordinary people would be frozen to death within half an hour.

Just like Xi San and the others were shocked and unbelievable when they saw the Sealed Dragon Domain, Chen Guang and the 100,000 Zhenwei Army were in a state of stagnation, aphasia, and confusion since they were brought into the Sealed Dragon Domain.

Feeling the rich spirit here and seeing the spiritual grass and spiritual fruit within reach, many soldiers couldn't help but pinch their faces.

Does it hurt? Does it hurt?

Ouch! It isn't a dream? But, where does the Jin Ling Kingdom have such a place? If there is, wouldn't it be divided by the major sects?

Chen Guangxiang was a steady man, but stepping on the soft grass and feeling the spiritual power surging in, he still couldn't help but look at Hexi tremblingly, "Mister, we... can we really live here? "

Hexi waved her hand and said, "This is the most suitable place for your training and living. In the future, you can build your own houses here. If you need any materials, go to the Green Wood Domain through the teleportation array next to the ancient tree. If there is something you need, just look for the manservants in the Green Wood Domain, they will do it for you."

Chen Guang opened his mouth for a long time and couldn't speak.

Soldiers with ordinary knowledge like them, although they knew that Sealed Dragon Domain's Secret Territory was opened a few months ago, no one knew what the secret territory looked like. Of course, they did not know that they were in the famous Sealed Dragon Domain's Secret Territory.

If they knew it, they would be even more restless and unable to sleep for a few nights due to overexcitement.

Hexi took out a few inscribed jade slips and handed them to Chen Guang. She said in a deep voice, "Here are 2 relatively simple sets of cultivation techniques and a set of battlefield formation techniques. The cultivation techniques are created in accordance with the formation technique. They aren't powerful, but if they become a formation, they would become a great weapon to capture or kill the martial artist who is below the Gold Core Stage."

Chen Guang tremblingly took the inscribed jade slip and took a look at it. He found that the techniques inside were written as "unnamed technique no. 1, unnamed technique no. 2", but the formation had a name called "Seven Stars Death Seal Formation".

The so-called 7 stars naturally required at least 7 people, or a multiple of 7 people, to form a formation.

These 7 people all cultivated the same techniques. Once they formed a formation, they could exert power dozens of times higher than their ordinary strength.

If the formation became 49 people formation, and they had reached a certain proficiency, even the martial artists of the Meridians Stage could easily be killed.

Chapter 847: Lucky

Chen Guang took a deep breath. Isn't this formation too powerful? And the formation process is so simple, it can be said that it is the most suitable formation on the battlefield.

Hexi was very dissatisfied with the [Seven Star Death Seal Formation], for no other reason, too weak. By gathering a maximum limit of 7 people, it could only kill the martial artist at the Meridians Stage. For her who could simply find an opponent above the Gold Core Stage, it was useless.

But this [Seven Star Death Seal Formation] was recorded in the Record of Everything by Old Man Xu Mi. Hexi let Nangong Yu read it. He also didn't know how to improve it. He just said that the formation seemed simple, but it had the power that didn't belong to the Miluo Continent. It couldn't be changed easily.

But this formation was useless for Hexi and her little ones, but it was very useful for Zhenwei Army.

This was because the requirements for learning this formation were really low, and the supporting cultivation techniques were also very simple.

Chen Guang's hands holding the few inscribed jade slips trembled even more. He put away all these inscribed jade slips like a hidden treasure and solemnly bowed to Hexi again.

"This is Zhenwei Army's greatest luck to be able to serve mister after General Ouyang's death!"

If Chen Guang knew that the inscribed jade slip he cherished was despised by his master + general, how would he feel?

But remembering that there were still many mortals in his army who couldn't practice cultivation techniques, Chen Guang couldn't help but raise this question.

Hexi shook her head and said nonchalantly, "The so-called mortals cannot cultivate cultivation techniques because their spiritual root is too impured that they couldn't absorb the spirit of heaven and earth. After a while, you count the number and go to Xi San to get the second grade bone muscle enhancement pill. They just have to take one bone muscle enhancement pill and soaked with medicine for a few days, then they will naturally begin to absorb spirit into their bodies."

"Wh... what?!!!" Chen Guang was no longer shocked this time, but horrified, "Mortals can also cultivate? What kind of medicine is bone muscle enhancement pill?"

The Zhenwei Army was stationed outside the city all year round and had little contact with people. Apart from Ouyang Family-related matters, they didn't know much about it.

His exclamation shocked all the Zhenwei Army soldiers. After hearing Chen Guang's words clearly, the mortals who could not be cultivation suddenly felt ecstatic; they couldn't believe their ears at all.

Hexi waved her hand and said, "Don't get too excited. You all only have 2 months to adjust. In 2 months, people who are able to cultivate initially need to learn the 1st level of the supporting cultivation techniques of the Seven Star Death Seal Formation. People who could not cultivate must be able to absorb spirit into their bodies. 2 months later, you all will be tested in the Ice Snow Domain."

"I will let Xi Jia and the others supervise your training. Only if you pass the test I set through diligent training, can you rest or leave here to visit your family. If most people can't survive..."

Hexi's mouth revealed a grim smile, "I don't think you guys want to try the punishment of ice and fire!"

Although they didn't what the punishment of ice and fire was, most people still trembled all over.

However, compared to the unknown test, everyone still couldn't help having tears in their eyes when looking at the wonderland-like environment around them.

A soldier couldn't help but stepped forward and asked Hexi carefully, "Mister, I... can I bring my family to live here?"

Chapter 848: Rations

After asking this sentence, he was flushed with shame and waved his hands again and again, "If can't, it doesn't matter. I'm sorry, I'm so greedy!"

Who knows, Hexi said decisively, "Can. If you want to bring your family in, you can report to Xi San. If your family members are in poor health or want to cultivate, then report to Xi San to receive the bone

muscle enhancement pill. In addition to your own bone muscle enhancement pill, I will give each of you one more portion.”

“But before you come in, you must first vow with your soul to not disclose anything about this place including the bone muscle enhancement pill. You must not simply bring in outsiders. Your family also needs to go through this process. Once the secret is leaked, your soul will be destroyed!”

“Ahh—!” The soldier never thought of such a consequence. He was astounded at the moment, then his eyes were red.

He knelt down on his knees respectfully, kowtowed at Hexi a few times, and said with a sobbing tone, “Mister, no matter what you ask me, Wang Xiaowu, to do in the future. If I frown at your order, I will... I will jump down into that glacier just now!”

The glacier Wang Xiaowu said was a cliff-like place in the Ice Snow Domain. It was bottomless. Even the Gold Core Stage martial artist would be dead if he fell into it.

Wang Xiaowu’s words immediately made the other soldiers laugh. They slapped him on his shoulders and sneered, “What kind of oath is this? Shouldn’t you say if you betray mister, you will be punished by God and suffer a living hell?”

“What the hell is jumping down into the glacier?”

“Ah! If my parents knew that they can live in such a fairyland-like place, they will definitely cry out excitedly!”

“I really hate why I didn’t meet mister a few years earlier. My parents could still be alive. But fortunately, I still have a sister, and her talent is not bad. After eating bone muscle enhancement pill, she will definitely be able to achieve great success!”

“I still feel like I’m dreaming. Can I really live here? Not only can I live by myself, but I can also take my brother to live with me?”

“From now on, mister is our master, and we must follow the general’s will and be loyal to him. If anyone dares to betray, our 100,000 Zhenwei Army will never forgive the person!”

“Yes! Loyal to mister! If there is betrayal, we will never forgive!!”

A group of people changed from excited discussions to more excited slogans.

When Hexi came out of Ice Snow Domain, she even felt a headache due to the shouts.

100,000 people are really troublesome!

Moreover, I need to prepare the rations for 100,000 people. In the future, I also have to find ways to get weapons and other mobile tools like horses.

Haiz, how much crystal stone does this need; how much?!

Thinking of the first batch of rations and clothes that needed to be provided, Hexi had a headache. So many people, I just can’t let them eat the fierce beast in the Sealed Dragon Domain right? Wouldn’t that exhaust all the resources? Even if the Sealed Dragon Domain has rich resources, it can’t support it!

Hexi was depressed. Suddenly, her body was being hugged into a warm and familiar embrace.

Nangong Yu's deep magnetic voice sounded in her ears, "What are you thinking about? Why are you so unhappy? Even your little mouth can a gourd now.

His slender fingers with thin calluses rubbed her lips, bringing her trembling numbness.

Hexi blushed, pushed his fingers away, and told him her worries again.

Chapter 849: Marry Me

Nangong Yu suddenly smiled and said, "How is this a problem? I naturally have a way to help you solve it."

Hexi raised her eyebrows and looked at him. She knew that what this guy said must not be a normal way. She couldn't help but squint and said, "Tell me about it first."

Nangong Yu really loved her arrogant and cunning look. He pinched her little nose, then he leaned close to her ear and whispered, "As long as you marry me, my betrothal gift will be delivered to you. Xi'er, you naturally have the crystal stones to keep these people. I can promise that my betrothal gift will be able to let you keep this 100,000 Zhenwei Army for hundreds of years.

Hexi was taken aback for a moment. Feeling the warm breath of the man blowing her sensitive earlobe and neck, she couldn't help blushing. She pushed him away and said in anger, "Don't make trouble! I'm talking serious business with you!"

Nangong Yu looked at her innocently, "I'm now talking about serious business to Xi'er right!?"

As he said, he slowly grabbed Hexi's hand and pressed it on her chest. Once again, he asked in a very solemn and earnest voice, "Xi'er, when will you marry me?"

Hexi blushed and wanted to withdraw her hand. Her voice was low like a mosquito fluttering, "We were just talking about serious business, why are you saying this again?"

How would Nangong Yu let her withdraw her hand? He said softly, "I have already proposed a marriage, and you did not object that day."

Hexi shook her head quickly, "That was just to deal with the Nalan Family, how can you take this seriously..."

"How can I not?" Nangong Yu flipped his wrist, and a red marriage proposal appeared in his hand, "Look, I even got Xi'er marriage proposal too. Does Xi'er still want to renege it?"

Seeing Hexi blushing and not speaking, Nangong Yu squeezed her chin and forced her to raise her head to meet his eyes. His voice was low and dull with the loss and anxiety that he would never have usually, "Xi'er, you still don't trust me enough; don't like me enough, right? So you regretted it; you don't want to marry me as my wife?"

Nangong Yu also knew that it was too fast to marry Xi'er now. He knew that this little girl was overcautious and independent, and her feelings for people were even slower.

Therefore, it was best to take his time to spoil her little by little and to let her get used to him so that she would never leave him.

But today, seeing Hexi's performance under Dragon Tiger Mountain, seeing the fanatical admiration of Zhenwei Army soldiers for her, and seeing the tacit interaction between Ouyang Haoxuan and her, Nangong Yu suddenly felt uneasy.

The girl in front of her was so dazzling and outstanding, and her light would become more and more unconcealed. If one day, everyone knows her goodness, will someone take Xi'er from him? ?

Hexi also felt Nangong Yu's anxiety, even sadness. She didn't know why Nangong Yu was suddenly upset, but his emotions still infected her and made her feel bad.

She stretched out her hand to hug Nangong Yu, and couldn't help but softly said, "I have no regrets, Nangong Yu. For me, I have decided to follow you in my lifetime. If you don't abandon me, I won't leave you."

"It's just that now is really not the time. Xiao Chi's illness is still not healed; there are still many hidden dangers in about my origin; the Feng Family and the Doctors Association are also lurking in the dark. I just..."

When Nangong Yu heard Hexi saying words like 'not leaving him', his worries and lost were all gone.

Chapter 850: Thank You

Before waiting for Hexi to finish speaking, he hugged her into his arms, kissed her lips, and whispered, "No need to say anything, I'll wait for you!"

Hexi was stunned. She didn't understand how Nangong Yu's mood changed so easily like the face of a 6 months old child!

But Nangong Yu said 'I'll wait for you' decisively, she was still moved by him. She felt she was being loved unconditionally.

She gently grasped Nangong Yu's wide palm in her hands, drew on his palm print with her slender fingertips, and whispered, "Nangong Yu, thank you. Thank you for your unconditional tolerance of me. You have been protecting me since the beginning..."

Before she finished speaking, her red lips were blocked by a hot, humid breath.

When the kiss was over, Hexi's body was already weak. She only had the strength to gasp.

She grabbed Nangong Yu's clothes and heard his low-pitched voice whispering in her ears, "Xi'er, you never need to say thank you to me..."

Hexi was feeling moved and warmth in her heart, but Nangong Yu continued to use a more hoarse and passionate voice to say, "As long as you can fulfill my hunger after marrying, it is fine! Because I'm really holding back too much!"

"Get lost—!" Hexi kicked him away. Her face was flushing as if it was burning.

This man really dares to say anything; he is getting more and more shameless!

Nangong Yu ignored Hexi's resistance and embraced her soft body again. As the 2 were about to get their intimate moment, Hexi suddenly sensed that a stranger had entered the Sealed Dragon Domain.

She looked at Nangong Yu, "It seems that Xuan Wu has come in. He should be looking for you for something."

As Hexi said, she controlled the space with Divine Sense; they came to the Green Wood Domain instantly.

Xuan Wu was still marveling at the magic of Sealed Dragon Domain's Secret Territory, and his princess actually took Sealed Dragon Domain's Secret Territory into her bag, then he saw Nangong Yu and Hexi appeared in front of him.

He hurriedly bowed and said, "Greetings, my master and princess!"

Nangong Yu asked directly, "What happened?"

"Reporting to master!" Xuan Wu stood up and said, "Something has indeed happened. In the past few days, I lead the Iron Kirin Army to check most of the Feng Family's bases in Yanjing City. The Feng Family people either escaped or were dead. They basically couldn't resist."

Xuan Wu paused and said, "Because the Benevolence Hall (Jisheng Hall) is also the secret property operated by the Feng Family and the fourth rank doctor, Chang Sheng, of the Benevolence Hall is Hei Sha's subordinate, so I ordered them to let go of the people of the Benevolence Hall and the fifth rank doctor and to arrest Chang Sheng."

Nangong Yu raised his eyebrows, "Did you let that Changsheng escape?"

Xuan Wu shook his head quickly, "Chang Sheng was found in the backyard cellar of the Benevolence Hall, but... a riot broke out in the Benevolence Hall."

"Riot?"

"Yes, riot! Almost 30% of the martial artists in Yanjing City, especially the martial artists of the major families have been involved."

As soon as Xuan Wu said this, Nangong Yu and Hexi both showed surprised expressions, "30% of martial artists? What is going on?"

Xuan Wu did not dare to neglect, and he quickly said what had just happened in quick and simple words.

He was still waiting for the princess to save the situation!

It turned out that when Iron Kirin rushed into the Benevolence Hall, they didn't find Chang Sheng.

Doctor Tang and the other manservants of the Benevolence Hall were also tied up in the corner, shivering in desperate.
