

King of Hell 851

Chapter 851: The Benevolence Hall

Xi San just happened to see this scene when going to Shengde Hall. Seeing this scene, he immediately came up and said to the captain of the Iron Kirin Army, "Captain Lin, to be honest. Although Doctor Tang and these menservants are working in Benevolence Hall, they aren't Feng Family's people. They are just hired; they know nothing. They also take good care of our Shengde Hall usually."

The squad leader surnamed Lin inherited the usual cold-faced character of Iron Kirin; his complexion did not change, but his attitude toward Xi San was very respectful.

Each of them in Iron Kirin knew that Shengde Hall's owner was their future princess. How could the princess's confidant be easily offended? Even if the princess was not angry, their master would have to skin them off!

Captain Lin quickly ordered them to release Doctor Tang and the group of menservants.

As soon as Doctor Tang was free, he knelt down in front of Xi San in tears, "Shopkeeper Xi, your life-saving grace, I really don't know how I return it..."

The menservants of the Benevolence Hall also knelt down to Xi San. One of them was once a medicinal apprentice in Shengde Hall. At this time, he was even more ashamed and couldn't lift his face. He cried with tears, "Shopkeeper Xi, I abandoned Shengde Hall that day, but you are still willing to save me. Your great kindness..."

Xi San laughed and said, "It's just a simple help, how can that be kindness? What's more, you all are not from the Feng Family, so I'm telling the truth. How can it be considered great kindness? But if you really want to thank me, why not work in my Shengde Hall? Our branches are opening one after another. Now, we are lacking people with experience like you. Especially Doctor Tang, if we have you have to be in charge of a branch, that would be a blessing for our Shengde Hall!"

Doctor Tang and the other menservants others looked at each other. They could see the ecstasy in each other's eyes!

Today's Shengde Hall was totally different from the old Shengde Hall. Everyone couldn't wait to work for them. They heard that even the lowest class servant could get the upper grade medicinal pills.

Now that they had been invited by Xi San to work in Shengde Hall, how could they not burst into tears with excitement?

Doctor Tang and these menservants nodded again and again, expressing their infinite willingness to join. The misery and despair just now had turned into ecstasy.

Dr. Tang remembered something at this moment. He turned around and tremblingly said to Captain Lin, "Cap... Captain, you come to Benevolence Hall, are you... looking for Doctor Chang Sheng?"

Captain Lin's eyes lit up and nodded, "You know where he is?"

Physician Tang pondered for a moment and said, "Doctor Chang was still in Benevolence Hall a few days ago, and I haven't seen him leave. I guess he hasn't left here. Besides, there is a spot among the flowers

in the backyard of Benevolence Hall. The hidden cellar seems to be left by the former owner. I guess Doctor Chang will hide there!”

Captain Lin was overjoyed and immediately asked people to search. After a while, he saw several Iron Kirin soldiers walking over with Chang Sheng who looked embarrassed with disheveled hair.

Chang Sheng’s face was full of horror at this time; the arrogance and loftiness of the fourth rank doctor were no longer there.

The soldiers threw him in front of Captain Lin. His face hit the handle of the long blade in Captain Lin’s hand, and he trembled in fear. “Don’t kill me! Don’t kill me! I’m the fourth rank doctor; I have saved many lives. The Doctors Association has issued an order that all doctors who have saved people have the right to death exemption... You can’t kill me!”

Chapter 852: Horrifying Look

Captain Lin sneered and said coldly, “Chang Sheng, you said you have saved many lives, so can you tell me how many lives have been killed by following Hei Sha? A conscienceless doctor like you, letting you live in this world is the greatest sin!”

As he said, the tip of the long blade slid against his neck.

Chang Sheng instinctively backed off, but he still felt a pain in his throat. His hair on the side also fell down. He was scared witless instantly. He shouted, “Arhh—! I’m going to die! My head is chopped off!”

In fact, it was just a small wound on his throat, and only a few strands of his disheveled hair were cut off, but he was so afraid that he lost his mind. Even his shit and urine came out.

Xi San, Doctor Tang and others who watched this scene couldn’t help laughing.

When Chang Sheng heard the laughter, he realized that his head was still there. He was ashamed, then he looked desperately and fearfully at the long blade that was raised in Captain Lin’s hand again.

Just when he thought he was going to die, there was a sudden commotion outside the Benevolence Hall.

Immediately afterward, a person with disheveled hair rushed in. He shouted some meaningless sentences and his movements were crazy, but his strength was terrifying.

Iron Kirin’s soldiers tried to stop him, but they were pushed back for several meters by him instead.

As soon as this person rushed in, everyone smelled a strange fragrance mixed with blood.

It was obviously a fragrance, but it made people feel nauseous when smelling it. It even had a kind of unstoppable irritability.

Xi San was more shocked than everyone else. He seemed to have smelled it somewhere before.

He couldn’t help but look at the person, and he was even more shocked by this look.

Since running Shengde Hall, Xi San had known many reputable and well-known people in Yanjing City. Especially the descendants of several major families. He could recognize most of them.

Many of these people tried to get close to him, hoping to buy the best quality pill, but they were often rejected.

As for the person in front of him, Xi San recognized at a glance. He was the descendant of the Huangfu Family, Huangfu Ming.

This Huangfuming was only twenty-five years old this year, but he was already at the intermediate stage of the Meridians Stage. In the Huangfu Family, he was known as a genius.

However, his cultivation had stagnated for some reason 3 years ago. He had been staying at the Meridians Stage without any improvement.

This situation continued until Huang Fuming bought a top-quality second-grade bone muscle enhancement pill from Shengde Hall, then his stagnant cultivation suddenly broke through to the middle stage.

Huang Fuming was overjoyed. From then on, he went to Shengde Hall every day to buy the best bone muscle enhancement pill. However, the best quality pill originally sold at Shengde Hall was very little, not to mention the most precious bone muscle enhancement pill.

So Huang Fuming waited for a month, but he couldn't wait for the best bone muscle enhancement pill. Finally, he was ashamed into anger.

Xi San still remembered when he showed up for the last time, he sneered and said, "Do you think that only your Shengde Hall sells medicinal pills for enhancing cultivation? I tell you, I have already got medicinal pills that are better than the bone muscle enhancement pill. When I break through to the Gold Core Stage, I'll demolish your damn shit Shengde Hall!"

Xi San had long been accustomed to the harsh words of such people, so he didn't pay attention to Huangfu Ming's words at all.

Who knew that after not seeing him for a month, he suddenly turned into such a horrifying state?

Chapter 853: Cold Eating Pill

The lunatic with loose hair, sunken cheeks and cloudy eyes in front didn't look like the elite child of the Huangfu Family at all.

How did Huangfu Ming become like this?

Huangfu Ming rushed into the Benevolence Hall madly. He had terrifying strength, and he seemed to be unable to control his behavior at all.

But when his turbid and soulless eyes saw Chang Sheng, there was a sudden burst of fanaticism. He rushed past like an arrow, "Doctor Chang, give me the cold eating pill, please! Give me the cold eating pill!"

Cold eating pill?!

Xi San realized it immediately. Finally, he remembered that sweet and disgusting fragrance, and he knew why he felt familiar!

When Gu Liufeng's mother, Gu Youlan, was still under miss' treatment, her body used to emit such a scent.

I heard that Gu Liufeng's mother was crazily addicted at that time because of taking too many cold eating pills.

At this time, the soldiers of Iron Kirin hadn't reacted yet, and they didn't know what the cold eating pill was.

But Chang Sheng felt that he saw the hope of living.

There was a grinning smile on his face, and he said loudly, "Yes! Yes! Cold eating pill, only I have the cold eating pill! You can only beg me if you want the cold eating pill, hahaha!"

Huangfu Ming crawled under the feet of Chang Sheng, pulling his trouser tightly. He didn't have the dignity of a family boy. He kept muttering, "Doctor Chang, please, give me the cold eating pill, give me the cold eating pill quickly! I really can't stand it anymore!"

As he said, he scratched his neck and heart frantically; his clothes were torn, and his flesh and blood were torn, but he still didn't seem to feel the pain.

Chang Sheng hurriedly said, "The cold eating pill is not here, you... hurry up and save me, I will take you to get the cold eating pill."

"Okay! Okay! As long as you give me the cold eating pill, I can do anything for you!"

Huangfu Ming stood up abruptly, grabbing Chang Sheng and rushing out.

How would Captain Lin and the others let Chang Sheng escape. They soon controlled Huangfu Ming and tied him firmly.

It was just that Huangfu Ming's strength was really great, and the way he fought was completely disregarding his life; he really had lost his mind.

Chang Sheng was caught by Iron Kirin again. Seeing Huangfu Ming also fell into their hands, he couldn't help but shouted in horror, "You can't kill me! Cold eating pill, do you know what that is? The rich and powerful people in the Yanjing City have already taken it!"

"As long as they take cold eating pill, they will become addicted. If they stop consuming the cold eating pill, they will become crazy, irrational and aggressive like this person. If there is no cold eating pill for a long time, they will die! If you kill me, you will also kill this group of people, and the elders of those disciples will not let you go!"

As soon as this remark came out, everyone who was originally just watching the excitement couldn't help being shocked.

In the meantime, there were also many people who had taken the cold eating pill. Hearing Chang Sheng's words at this time, they felt shocked and angry.

When Huangfu Ming rushed in and said that he wanted the cold eating pill, they already had an ominous premonition.

They wondered if Huangfu Ming had done something wrong during cultivating, and it had nothing to do with medicinal pills, but Chang Sheng's words had completely destroyed their illusions.

Someone couldn't help taking a step forward, grabbing Chang Sheng's collar fiercely, and saying sternly, "What do you mean by this? What does it mean we will die without the cold eating pill?"

Chapter 854: Can't Live Without I

Chang Sheng's face was being pinched until it became purple. His eyes were full of panic, "You... you can't kill me. If you kill me... you will become the same as Huangfu Ming. You will die too!"

The man shook off Chang Sheng and roared, "You have to explain this clearly!"

Chang Sheng coughed a few times. When he saw that these people really didn't dare to kill him, he felt more relieved.

He smiled triumphantly, "This cold eating pill is made from a few rare medicinal materials and the cold eating flower cultivated carefully by our Feng Family. As long as you have eaten the cold eating pill, you will be inseparable from it for a lifetime. Didn't you realize that every time you ate the cold eating pill, you would get restless and anxious if you didn't take another pill after half a month?"

"Once you don't take the pill for more than half a month, you will fall into madness. You can't wait to dig out your own flesh and blood. In order to take the cold eating pill again, even if I let you be a dog or pig, you will still beg me for it without hesitation. If you still couldn't get the cold eating pill after a month, then you will all die."

In the last sentence, Chang Sheng's face was already full of sinister smiles, "From the day you took the cold eating pill, you have become the puppets of the Feng Family. You either swear allegiance to our Feng Family or dying slowly in living hell! Hahaha..."

Chang Sheng's laughter still reverberated in the room, and the crowd had all quieted down with extremely ugly expressions.

Their hearts were full of fear, and the gazes looking at Chang Sheng were full of dread and resentment. They wished they could tear him into pieces.

But no one had the guts to really tear Chang Sheng apart because their lives were in the hands of this despicable person.

At the earliest, the medicinal pills in Yanjing City were spread from Murong Mansion.

In order to expand the sales of the cold eating pill, the Murong Mansion even launched a period of promotion to provide free cold eating pills to the martial artists.

When the cold eating pill was first taken, it could expand the meridians and increase spiritual power. Therefore, it could make people feel that their cultivation had improved in a short time.

The martial artists who tasted the sweetness began to scramble to buy. Especially those elite children of famous families who could afford the cost of medicinal pills and were extremely eager to improve their strength. After discovering the effectiveness of the cold eating pill, they naturally bought the pills crazily.

As for those martial artists, who got the pills as a free gift, could only give up regretfully taking the cold eating pill for a period of time because they couldn't afford the high price.

But after giving up taking the cold eating pill, they found that something terrible had happened.

Their bodies desperately desired cold eating pills to the extent that they couldn't cultivate and think. They felt like their bodies were going to explode.

They had to cry and beg to Murong's house, begging Murong's family to give them another cold eating pill.

These low-level martial artists later disappeared. They either became the loyalist of the Feng Family or they died miserably in unknown places because of their resistance.

In this way, no martial artist knew the true effect of the cold eating pill.

This situation continued until the Murong Family was exterminated, and the cold eating pill supplied to the Yanjing City's martial artists also disappeared.

After the cold eating pill disappeared, those people who had taken the pills had symptoms of addiction, such as irritability, anxiety, regressive cultivation, and hot temper... When they were looking for the cold eating pill all over the street, they finally found it from the Benevolence Hall.

After the Benevolence Hall opened again, it started selling the cold eating pill.

Chapter 855: Can't Survive More Than 3 Days

Moreover, this kind of cold eating pill was more effective than the cold eating pill sold by the Murong Family. It only needed to be taken once and it was bound to become addictive. The effect of expanding muscles and meridians was also more significant at the start. This was why the children of famous families like Huangfu Ming would think that the cold eating pill could be compared with the best bone muscle enhancement pill.

After all, the cold eating pill could be purchased in unlimited quantities; the bone muscle enhancement pill, they had to queue for a month, and they weren't guaranteed to be able to buy it.

When the entire Benevolence Hall fell into silence, Xi San quietly walked to Captain Lin and whispered a few words to him.

Captain Lin showed a surprised expression on his face, "Shopkeeper Xi, are you telling the truth?"

Xi San smiled triumphantly, "You just need to pass the message!"

Captain Lin nodded when he heard the words. He immediately summoned a soldier from the Iron Kirin and asked him to tell what happened here and Xi San's words to Xuan Wu.

To be on the safe side, he also engraved an inscribed message jade slip and sent it out with simple words.

At this time, Huangfu Ming, who had been pressed on the ground by Iron Kirin, suddenly convulsed violently.

“Ahh—!! Give me the cold eating pill, give me the cold eating pill! I really can’t take it anymore!”

He broke free from the rope that bound him, then he began to scratch his body frantically. He even put his arm to his mouth, biting off his own flesh and blood one by one.

Everyone was stunned by the scene.

Only the expression on Chang Sheng’s face became more proud and unscrupulous.

He hehe sneered and said, “He is already in the third phase of the effect of the cold eating pill. If he doesn’t take the pill, at most 3 days later, his spiritual power will be exhausted, his vitality will burn out, and he will eventually become a corpse. If you want to keep him alive, you’d better let me go. Only I can get the cold eating pill...”

Before Chang Sheng’s words were finished, a gray-haired old man strode forward, grabbed Chang Sheng’s collar, and roared, “What did you just say? You dare to say that my son will die?”

The onlookers recognized at a glance that this old man was Huangfu Cheng, 1 of the 3 high rank elders of the Huangfu Family with the highest cultivation, the Gold Core Stage; he was also Huangfu Ming’s father.

Huangfu Cheng was originally breaking through to the perfect stage of the Gold Core Stage, then he suddenly heard his subordinate report that his only son was in a trouble, so he came to check it out hurriedly.

Who knows, his son, who originally made him proud, had become such a hideous look after not seeing him for a month.

Moreover, Chang Sheng even said that his son would not live for 3 days!

This was his only son, and his talent was so good. He was the hope of the Huangfu Family. How could he allow his precious son to die?

Chang Sheng was grabbed by his neck again, and his eyes were full of fear. He said in a tremble, “No! No! As long as he takes the cold eating pill again, he won’t die! And his cultivation will increase again. I’m telling the truth!”

Huangfu Cheng squeezed his throat and said sternly, “Then take out the cold eating pill right now! If my son is dead, I will strip your skin and bury you together with my son!”

“Don’t kill me! Don’t kill me!” Chang Sheng yelled in horror, “The cold eating pill is gone. Iron Kirin has sealed the city gate. The Feng Family people cannot get out, so I can’t get the materials of the cold eating pill at all. But I... I know the pill formula and how to make the cold eating pill. As long as you save my life and let me out of the city, I... I can get the ingredients from the base of the Feng Family, then I can refine the cold eating pill for Young Master Huangfu!”

Chapter 856: Pleading

Huangfu Cheng increased the strength of the grip abruptly, “Are you lying to me?”

“No, no! I really don’t dare to lie to you, Master Huangfu please spare me! Please spare me!” Chang Sheng was so scared that he almost peed in his pants. His face was full of tears and snots, “If you kill me, Young Master Huangfu will definitely die! Only I can get the cold eating pill. Young Master Huangfu will definitely die without the cold eating pill... You can’t kill me! You must not kill me!”

Huangfu Cheng was stunned for a while, and he finally let go of Chang Sheng.

As soon as Chang Sheng fell to the ground, he coughed again and again, but a proud smile appeared on his face.

He held his neck and said while laughing, “Master Huangfu, I advise you that if you want to save Young Master Huangfu, it is best to get me out early. Otherwise, the longer it takes, the more serious the illness of Young Master Huangfu will be. Even if he takes the cold eating pill and recovers at that time, it is difficult for his cultivation level to return to its peak.”

Huangfu Cheng glared at him fiercely; his eyes were so resentful like they were going to tear his body into pieces.

He had heard about his son Huangfu Ming taking the cold eating pill before his retreat. At that time, his son was so full of energy that he finally found the medicinal pill that could match the best bone muscle enhancement pill. He even said that he wanted to break through to the later stage of the Meridians Stage.

He was still happy and proud of his son at that time. Who would have thought that after only a month, his son would become like this?

The Feng Family and the Benevolence Hall were selling such harmful things. He couldn’t wait to skin this Chang Sheng.

However, if this Chang Sheng died, his son would die too; he would never allow this to happen.

Huangfu Cheng’s clenched fists slowly relaxed, then he clenched them again. After hesitating for a long time, he finally pleaded with Captain Lin on the side, “Captain Lin, please give the old man face and spare Chang Sheng’s life so that he can provide my son with the cold eating pill. I know this request is too much, but I only have this son. Please give this face to my Huangfu Family...”

Huangfu Cheng’s voice became hoarse, shameful and even embarrassed toward the end of the sentence.

After Huangfu Cheng spoke, the people in the crowd who had taken the cold eating pill immediately knelt down to plead with the soldiers of Iron Kirin.

When they thought that they would become like Huangfu Ming, they were full of horror. Despair and fear had filled their hearts. They just wanted to let Chang Sheng live and provide them with the cold eating pill.

As for the cold eating pill, there was no antidote. They had to continue taking it, and they couldn’t quit at all. What should they do after taking it once? They couldn’t think about solving this problem now.

Captain Lin frowned. The situation in front of him was overwhelming to deal with.

There were more and more people in the middle of Benevolence Hall, and some people who had taken cold eating pills got the news and rushed over and pleaded with Captain Lin.

Although Captain Lin realized that something was wrong, it was absolutely impossible for him to let Chang Sheng go.

“The military order must not be violated!” Captain Lin said coldly, “Chang Sheng has committed a terrible crime with medical skills. If I let him go, more people will be killed in the future. Forgive me for following the order of King of Hell. I can’t let him go.”

Huangfu Cheng immediately furiously said, “Captain Lin, what do you mean?”

You don’t even want to give this face to the old man? Where is His Royal Highness King of Hell, I will talk to him myself!”

Captain Lin shook his head decisively, “I don’t know where His Highness is, but I can only follow the order. Sorry that I can’t let Chang Sheng go!”

“Can’t let Chang Sheng go, do you want me to watch my son die?!”

Chapter 857: Alarmist Talk

Huangfu Cheng roared, and he had already released the pressure of the Gold Core Stage.

Captain Lin was only at the Meridians Stage, and his face instantly paled a bit.

And those in the crowd who had also taken cold eating pill saw someone sticking up for them, they also rushed out in a panic.

Someone rushed to untie the rope on Chang Sheng’s body, and someone obstructed the Iron Kirin’s soldiers.

They shouted, “Only when Chang Sheng is alive can we get the cold eating pill!”

“I don’t want to become like Huangfu Cheng even if I die. Chang Sheng, give me the antidote now!”

“Even King of Hell can’t let us go to death. Let Chang Sheng go and let him give us the cold eating pill!”

Captain Lin’s face was getting more and more ugly, and Huangfu Cheng was unleashing powerful pressure.

But at this time, Iron Kirin’s qualities of being powerful were shown.

His expression was very calm, including all the soldiers in his squad.

Seeing the crowd rioting, Captain Lin severely waved the long blade in his hand and said with a solemn face, “Whoever dares to move, kill without mercy!”

As soon as he spoke, the sharp murderous intent on the long blade spread with a strong smell of blood.

That could only be seen in the soldiers who had killed thousands of people in the war. This momentum couldn’t be simply understood by those who only focused on training.

The moment this breath spread, everyone present was silent for a moment. Even Huangfu Cheng was a little stunned.

Seeing that the situation was not right, Xi San quickly stepped forward and said, "Everyone, I'm shopkeeper Xi San of Shengde Hall, please listen to me. I know you are very afraid of the cold eating pill's effect on your body, but do you know if you let Chang Sheng go, how many people will be harmed in the future?"

"What's more, Chang Sheng said that he would give you the cold eating pill, do you believe that he will really give it? Even if he gives it to you, can it detoxify you all at once? If not, what will you do in the future? Do you want to keep begging Chang Sheng like a dog?"

Xi San's words quickly made everyone looked hesitant.

They didn't want to go crazy or die, but it was not a good thing to be controlled by Chang Sheng like a dog and be controlled by him for a lifetime.

Chang Sheng discovered that the people who were still helping him just now were full of hatred and malice toward him.

His face became ugly. He glared at Xi San and sneered, "Xi San, since you say so much, why don't you tell if your Sheng Hall has anything to cure the cold eating pill? If you don't, do you want to let these martial artists just wait for their own death?"

When it came to death, the faces of these people looked fear again.

Chang Sheng was even more sure of the selfishness and fear of death of these people, but he put up a distressed look.

"Everyone, don't listen to what Iron Kirin and Xi San say. They stopped you from saving me, didn't they just want to cause you to die miserably? Saying that I will harm people, it is just their alarmist talk."

"I tell you, as long as you keep taking cold eating pill, it is not harmful to the human body at all. Instead, it will help you to improve your cultivation. As long as you save me, no matter who you are, I will provide an unlimited amount of cold eating pill for you to take whatever you want. And as long as you can break through the Nascent Soul stage, you will be able to get rid of the side effects of cold eating pill. By then, you will know that cold eating pill is better than bone muscle enhancement pill. It is by no means a poison! "

Chapter 858: Fear

Xi San's face was dark, but he didn't refute Chang Sheng's words.

He knew Gu Youlan's treatment process. His miss only managed to cure it with great effort, and he didn't know whether she had developed the antidote for cold eating pill now.

Seeing that Xi San was silent, those people knew that Shengde Hall had no choice but to take the cold eating pill. They burst into an uproar again.

This time, the intimidation of Captain Lin and Iron Kirin could not stop them.

The fear of death and madness made them lose their minds. No matter how Iron Kirin's soldiers stopped and suppressed them, they still rushed over frantically.

Although Iron Kirin's combat power was very strong, seeing more and more martial artists joining the battle, plus there were Gold Core Stage masters like Huangfu Cheng among them, the scene became uncontrollable for a while.

Iron Kirin was also overwhelmed by the number; it was in a dangerous situation.

Chang Sheng was overjoyed when he saw this situation. He didn't forget to add fuel to the fire, "I tell you, cold eating pill can't be cured, you can only continue to take it. Only if I live, you can have hope. Someone will untie me now!"

As soon as Chang Sheng's voice sounded, he felt someone grabbing the rope tied to his shoulder.

He thought that someone had finally come to rescue him. He couldn't help but overjoyed. He turned around and shouted, "Quick! Help me untie quickly. You are the first to save me, I will give you double cold eating pill by then!"

"Double cold eating pill?" A clear and pleasant voice sounded in his ears, "Chang Sheng, are you sure that Feng Family can find the blood of so many virgins with spiritual roots in a short time?"

"You... how do you know... it's you!!!"

Chang Sheng saw the person's appearance clearly, and his face changed drastically.

He saw a young man with arch eyebrows and phoenix eyes; long eyelashes that curled up; snowlike fair skin. His body even exuded a faint herbal fragrance.

If he wasn't the owner of Shengde Hall, Xi Yue, who would he be?

When Chang Sheng saw Xi Yue, he was inexplicably full of jealousy and hatred. Of course, it was the kind of deep jealousy.

When he was only a teenager, he could already sell the best quality pill. He was even rumored to be the little miracle healer more amazing than the 8th rank doctor. Such an honor, Chang Sheng who had been fighting hard for dozens of years had never received it.

Such a young and inexperienced kid actually got it before him!

Moreover, Shengde Hall knew his identity that day, but they still didn't give him face and embarrassed him in front of everyone. How could he be reconciled?

Chang Sheng gritted his teeth and said, "Xi Yue, what are you doing here?"

Hexihalf looked at him with a spurious smile, "Of course, I came to see the famous cold eating pill in the legend!"

The people who were in conflict in Benevolence Hall stopped their hands at this time. They discovered at this moment that there were already a few more people in this hall.

In addition to the handsome Xi Yue miracle healer, there was also a man with a cold face in a black outfit.

As soon as Captain Lin saw the man, he immediately stepped forward and saluted in surprise, "Master Xuan Wu, you are here finally!"

Xuan Wu nodded. He glanced at the people who were blocked by Iron Kirin, then he looked at Chang Sheng who was still tied up. He praised, "You did a good job!"

A trace of excitement flashed across Captain Lin's face, and he immediately frowned, "Sir, these people are addicted to cold eating pill, and Huangfu Ming is almost dying because of it. To survive, they all demanded the release of Chang Sheng."

After Captain Lin finished speaking, Huangfu Cheng stepped forward and saluted Xuan Wu respectfully, "Mr. Xuan, we are not going to oppose King of Hell Mansion, but do you want me to watch my son die? This cold eating pill has no cure!"

Chapter 859: Incurable?

Xuan Wu's expression was cold as always like a dried-up well that didn't have any ripples. Most of the people in Iron Kirin were like him in this point.

He looked at Huangfu Cheng and only said one sentence, "Who said that cold eating pill is incurable?"

As soon as this statement came out, Huangfu Cheng was stunned. Everyone who had just been clamoring to release Chang Sheng was stunned.

Chang Sheng, who was held by Hexi in her hand, widened his mouth in shock.

But soon, he recovered and laughed, "Xuan Wu, even if you are Nangong Yu's confidant, you can't just tell a lie blatantly. You said cold eating pill can be cured, are you having a daydream now?"

Xuan Wu glanced at him coldly like he was looking at a dead man; it was full of disdain.

Huangfu Cheng couldn't help saying in a tremble, "Mr. Xuan, you just said that cold eating pill can be cured, is it true? Is it true that someone from King of Hell Mansion can save my son's life?"

Xuan Wu shook his head and said, "It is not me who can cure the cold eating pill, but Mr. Xi from Shengde Hall."

Xuan Wu's words made everyone's eyes fall on Hexi.

Chang Sheng was taken aback for a moment, then he laughed more mockingly, "Xi Yue, you said you can cure the cold eating pill? Hahaha, this is so ridiculous, do you know what the cold eating pill is? Do you think the cold eating pill is a kind of poison? You even want to detox the cold eating pill? I think you are really getting crazy to be in the limelight!"

Hexi threw the rope in her hand, and Chang Sheng rolled on the floor and smashed into a corner of the table embarrassingly.

She put her hands around her chest, looked at Chang Sheng condescendingly, and sneered, "You said cold eating pill has no cure? Are you sure about that?"

Chang Sheng was dizzy by the hit, and his hatred for Hexi surged up for several points, "Of course, there is no solution! You little boy who knows nothing, how do you know what the cold eating pill is!"

When the cold eating pill's pill formula was made known, the grand master level pill refiners of the Doctors Association studied it and finally confirmed that there was absolutely no cure for this pill formula.

Later, the cold eating pill was finally refined after several hardships. After determining some alternative formulas, the elders of the Doctors Association tested it again with various detoxification medicinal pills.

There was absolutely no cure for the cold eating pill.

Thinking of this, Chang Sheng became more confident as if he had foreseen the scene of Hexi being scolded by the crowd.

He said loudly, "Everyone, don't listen to this brat talking nonsense. I tell you that cold eating pill is not a poison at all. Since it is not a poison, how can there be an antidote?"

"Moreover, after taking the cold eating pill, the medicinal power directly penetrates into the dantian and meridians, and it merges with your meridians. If you want to completely remove the medicinal properties of the cold eating pill, there may be hope if you abolish your own spiritual root. Hahaha..."

Chang Sheng's words and arrogant laughter made all the hopeful people in the Benevolence Hall look painful and desperate.

Even Xuan Wu couldn't help but glance at Hexi.

Although he had never touched the cold eating pill, he had also heard of Liu Li Sect's disciplines.

It is said that people who entered Liu Li Sect couldn't betray no matter how. Once they betrayed, they would suffer eternally. The reason is that every Liu Li Sect's disciple was forced to take the cold eating pill.

This is a kind of addictive medicinal pill. If the antidote is not available, the person will be more painful than death.

If there is really a way to cure the medicinal properties of the cold eating pill, how can Liu Li Sect's people be so fierce and not afraid of death?

Does the princess really have a way to do it?

Chapter 860: Whimsical Thought

Facing Chang Sheng's ridicule, Hexi slowly shook her head and said, "You know the medicinal properties of cold eating pill quite well. It seems that you have really participated in the refining of the cold eating pill, and you naturally have harmed many people."

Chang Sheng said nonchalantly, "I of course participated in the refining of the cold eating pill. I know the pill formula and the effect of the cold eating pill clearly. In order to verify the effect of the improved cold eating pill, I found dozens of martial artists to do experiments, stopping them from taking the cold eating pill from half a month to a month."

“Haha, in the end, even if I let them kneel on the ground to eat shit, they did accordingly. The medicinal properties of cold eating pill can’t be overcome by human will at all. Xi Yue, you want to cure the cold eating pill, in your dream. Hahaha...”

Hexi sneered, “You will know soon whether I’m dreaming or not.”

With that, she glanced at Qing Luan next to her.

Qing Luan immediately took out a medicinal pill from his arms and walked to Huangfu Ming.

Huangfu Cheng stopped Qing Luan quickly. He said nervously, “What do you want to do?”

Qing Luan glanced at him coldly, “If you want your son to survive, just move aside.”

Although Qing Luan was Zhu Que, 1 of the 4 confidants of the King of Hell Mansion, Zhu Que who was walking outside before was not her, but the one in the Spirit Sealing Prison. Therefore, Huangfu Cheng knew Xuan Wu, but not her.

However, Qing Luan had the cultivation of the Gold Core Stage, and she was picked out of the hidden camp from a hundred miles away. The aura exuded from her body made Huangfu Cheng stepped aside after trembling.

Qing Luan no longer paid attention to Huangfu Cheng. She pinched Huangfu Ming’s chin, who was still wailing and struggling, and stuffed the medicinal pill into his mouth.

Chang Sheng laughed more wildly when he saw this, “Xi Yue, you won’t be thinking that just a single medicinal pill can make Huangfu Ming get better? You’re too whimsical!”

“Let me guess what medicinal pill you are using? Is it your best bone muscle enhancement pill from the Shengde Hall? Hahaha... I tell you, when the cold eating pill is acting, eating a pill that enhances spiritual power and meridians will only make him suffer more. In the end, he will even go crazy enough to dig out his heart.”

“By then, you are the one who kills Young Master Huangfu! Master Huangfu, you must not let this murderer go!”

Huangfu Cheng listened to Chang Sheng’s words, and his face turned green and white.

His eyes were red. He looked at Huangfu Ming who was still wailing, then he stared at Hexi fiercely.

Finally, he couldn’t help feeling the torment in his heart and threatened harshly, “Xi Yue, if my son is killed by you, I will definitely want you...”

Before Huangfu Cheng had finished speaking, he suddenly heard a long sigh from Huangfu Ming on the ground.

The original wailing and groaning stopped, and the hands that were scratching his body became relaxed.

He even murmured, “So comfortable... so comfortable...”

Huangfu Cheng was taken aback for a moment, then he immediately rushed in front of his son, picked him up, and said tremblingly, “Ming’er, how do you feel?!”

Huangfu Ming opened his eyes laboriously and saw his father's face full of anxiety. He couldn't help but be puzzled, "Father, why are you here? Are you... aren't you in retreat? Hss... what's wrong with me??"

Huangfu Ming suddenly felt pain everywhere in his body. When he lowered his head and saw that his body was covered with blood and blood scars, he was shocked, "Father, me, what's wrong with me? How come there are so many wounds on my body?!"
