

King of Hell 951

Chapter 951: First Come First Serve

“Wait!”

As soon as Dr. Chen finished speaking, Li Zhenyu, who was standing next to Lu Zhixi, suddenly stepped forward and said, “Before that, I have to confirm one thing.”

As he said, he looked at Hexi with a cold gaze and said coldly, “Mr. Xi, Zhixi will start the treatment first, do you have no objection to this?”

Hexi narrowed her eyes slightly and said slowly, “I have no objection.”

A sneer flashed in Li Zhenyu’s eyes and continued, “Since Zhixi starts first, if Zhixi cures the young city lord, I don’t know how to determine the win and lose?”

After a pause, he said again, “Why not we do this, when Zhixi is treating, Mr. Xi will be waiting by the side. After Zhixi treatment is over, you can tell your treatment plan. If your treatment plan is the same as Zhixi’s treatment, we count you as winning. Zhixi, what do you think?”

Lu Zhixi nodded without hesitation. She said in a gentle voice, “Zhenyu’s suggestion is very good. I feel ashamed just because I have the advantage of treating first!”

She said, she looked at Hexi and said, “Mr. Xi, if your treatment plan is the same as Zhixi, then we will consider you win. We will also announce this to the people of Yongan City. It will be fairer to you too. What do you think?”

When the doctors heard Lu Zhixi’s words, they immediately admired her even more.

With such moral character and self-confidence, it was no wonder Fairy Zhixi had such a strong reputation in Miluo Continent.

Just when everyone thought Hexi would be grateful and happily agree to this condition, Hexi shook her head and said, “No need! Win is win; lose is lose. First come first serve is also one of the conditions for competition... Oh, if Fairy Zhixi still thinks that this time we are treating young city lord as a competition.”

When Lu Zhixi heard her, she met her half-smile eyes scanning at Li Zhenyu and Ren Xueling, and her face changed slightly, but she recollected herself in a short time.

Hexi continued, “As long as Fairy Zhixi cures the young city lord’s disease first, I lose. Whether it is the outcome of the Changlefang Gambling House or the final announcement to the people of Changan City, they will base on this results.”

“But...” Lu Zhixi wanted to say something, but Ren Xueling spoke before her, “Hahaha, senior sister, since she is looking for death, why are you still nice to her! Just wait until you cure the young city lord, she will taste the loss that she seeks for herself!”

Li Zhenyu also showed a satisfied look on his face and nodded, “Zhixi, Xueling is right. Since this is what Mr. Xi requested, why should we force her.”

Hmph, I said that just to make Xi Yue admit the order of first come first serve.

Although if Zhixi cures the disease first, Xi Yue will automatically lose, but if this kid doesn't admit defeat and try to ruin Zhixi's reputation by saying it is unfair?

So I called in all the doctors and used words to force Xi Yue to admit the treatment sequence.

Even if Xi Yue loses and wants to renege in the future, with these doctors as witnesses, this kid won't be able to stir up any troubles!

Chapter 952: Symptom

At this time, Zhuge Feng was a little sweaty, and his eyes were full of anxiety. When he saw Lu Zhixi and Hexi, he hurriedly stepped forward, "Greetings to 2 doctors."

Ren Xueling took a step forward and said, "Uncle Zhuge, didn't you say that Brother Xiaotian will be sent to Lanxiang Courtyard today for my senior sister to be treated? Where is he?"

Zhuce Feng wiped the sweat from his forehead and said, "Fairy Zhixi, I was planning to transfer my son here with a black cloth litter to let 2 doctors treat him. But this morning, my son's illness is acting again. I really can't move him..."

Lu Zhixi had seen Zhuge Xiaotian's illness, and she immediately nodded, "Anywhere can do the treatment, I will follow City Lord Zhuge to the young city lord's residence. Mr. Xi, how about you?"

Hexi naturally wouldn't disagree. For her, where to see a doctor is not the same.

It was just that she just agreed, then she saw Lu Zhixi's flickering eyes, and Ren Xueling on the side showed a look of gloating.

Zhuce Feng was overjoyed when the 2 agreed.

The doctors in Lanxiang Courtyard also wanted to follow; they couldn't wait to see how Fairy Zhixi treat this strange disease.

However, Zhuce Feng showed an embarrassed expression on his face, "Doctors, the situation of my son is really horrifying, it's better to wait here for a while..."

These doctors had treated Zhuge Xiaotian, but most of them were treating when Zhuge Xiaotian's condition was fairly stable. Many doctors had never seen Zhuge Xiaotian's real illness.

Of course, doctors such as Dr. Chen who was highly respected and had excellent medical skills, in order to give better treatment, had already seen this symptom a long time ago.

Dr. Chen would not be scared, but it did not mean that other doctors would not be scared. Especially.....

Zhuce Feng couldn't help but glance at Hexi, who seemed to be only 16. Will he faint when seeing Xiaotian's current condition?

Seeing that all doctors must go with him, Zhuce Feng had no choice but to agree.

Along the way, Zhuce Feng did not conceal his son's symptoms and told Lu Zhixi and Hexi in detail.

“In fact, Xiaotian has been a little different from other babies from the time he was born. He often bites his nanny when he drinks milk. When he gets older, he even bites when he catches people, and sometimes he even drinks human blood.”

“But this situation disappeared after he grew up to cultivate. I also forgot about these symptoms of his childhood. Until one time he went to a secret realm to practice, the same thing happened again. “

Zhuge Feng frowned. His face full of pain and self-blame, “When Xiao Tian came back from the beginning, he often felt uncomfortable when he saw the sun. He likes to stay indoors, and he likes to eat raw fish. When he eats meat, his eyes are bloodshot. I even urged him to quickly cultivate so that he can get to the perfect stage of the Meridians Stage as soon as possible.”

“But, one night, Xiaotian, ??who was originally meditating in the room, suddenly rushed out with a scream. He grabbed a wind spirit rabbit raised in the yard, bit it, and drank its blood. But he still didn’t get enough, he even bit the servant...”

Chapter 953: Strange Scene

The more Zhuge Feng said, the more solemn his painful expression became, “At this time, I knew that Xiaotian should have been seriously ill. But in the past 6 months, I have searched for all the doctors, no one can cure this disease. If I can discover it earlier and let Master Yuehua treat him sooner, maybe he won’t...”

Zhuge Feng closed his eyes and took a deep breath before continuing, “In desperation, I had to keep Xiaotian in the dark basement and let people collect fresh blood for him to drink every day. But last month, I found that his demand for blood is increasing, and he often can only drink the fresh blood just got from the beast. Even if it is delayed for a while, it is difficult for him to eat. If this continues, he... he may not live long!”

As Zhuge Feng, his eyes were slightly red. He gritted his teeth and said, “What’s more, Xiaotian had been proud of himself since he was a child. Now he could only feed on fresh blood and live under the basement. He is now more and more decadent now. He doesn’t want to live anymore...”

“Fairy Zhixi, Miracle Healer Xi!” Zhuge Feng bowed deeply to the 2 of them, “Please save my son.”

While listening to what Zhuge Feng said, Lu Zhixi showed a thoughtful expression on her face.

Ren Xueling couldn’t help but approached her and whispered, “Senior Sister, do you know what this disease is?”

Lu Zhixi smiled and nodded, and she responded in a low voice, “In fact, when I treated Zhuge Xiaotian last time, I was already suspicious. Now, after hearing City Master Zhuge say it in detail, I’m more confident in it. Last time, it was only a rough exploration. This time, I still need a careful examination before I can determine the treatment.”

Ren Xueling was overjoyed when she heard the words, and she said happily, “City Lord Zhuge, don’t worry, my senior sister already knew about Brother Xiaotian’s illness in her heart, and she has a treatment plan! A few days later, Brother Xiaotian will naturally be cured!”

As she said, she glanced at Hexi contemptuously. She sneered, "Unlike some people who don't know anything and dare to pretend to be a doctor. Pui! Let's see how she pretends when she is exposed!"

When Zhuge Feng heard Ren Xueling say that Lu Zhixi did have a cure, he was overjoyed. His attitude toward Lu Zhixi became more ardent, and he forgot about Xi Yue.

Although Xi Yue was somewhat famous, he was only a 16 years old boy if he really had the ability to treat strange diseases.

Several people quickly came down to an underground secret room under the lead of Zhuge Feng.

The secret room was very luxurious. The furnishings in the room were comfortable and beautiful. The only drawback was that the whole room was a bit dim. The lighting equipment used was not the popular crystal stone of Miluo Continent, but a dim candle.

As soon as they entered the secret room, everyone found a strange sight.

All the guard servants here are wearing a layer of hard and heavy armor from head to toe.

Bai Hu couldn't help but yelled, "This is obviously the city lord's home, not on the battlefield. Why do these people still wear heavy armor? Will someone come to assassinate this young city lord?"

Chapter 954: Porphyria

This time, only Nangong Yu, Bai Hu and Gu Liufeng came to diagnose with Hexi. Because of the special and terrifying disease, Hexi left Shen Qingchuo and Mo Xiaotu in the Lanxiang Courtyard.

Bai Hu was taken aback. As he was about to ask again, Hexi ignored him and walked inside.

Zhuce Feng led everyone to walk quickly to the door of a room. He gently pressed the door lock with his hand and said in a deep voice, "Everyone, please don't be frightened by what you see later."

The doctors present all showed disapproval expressions.

They WERE so knowledgeable. What kind of patients had they not seen before? Wasn't this Zhuge Xiaotian just like sucking blood? How terrible could it be?

Thinking like this, Zhuge Feng opened the door.

The light inside the door was more dim and darker than the outside, but everyone saw the scene inside through the luminous pearl.

A man with disheveled hair was sucking blood from a windy rabbit.

With the swallowing motion, his Adam's apple moved up and down. The blood leaked out from his mouth and dropped on his white finger.

Hearing the movement of the door, the man who was sucking blood raised his head, revealing a blood-stained face.

When everyone saw this face, they all took a deep breath; some timid people even stepped back and fell down on the ground.

At this time, the man bared his teeth and smiled because he had sucked blood, but his teeth were not ordinary white or yellow, but purple; his gums were completely rotted, revealing the dense roots of his teeth.

The man's facial features were already clearly visible at this time, because there were signs of ulceration in the area from his forehead to his nose. Even his eyelids were mostly corroded by that ulcer, revealing round, scary eyes.

A doctor couldn't help but say in a tremble, "This...this is Young City Lord Zhuge? It's impossible? I saw the young city lord a month ago. How... how did he become like this now?"

Zhuge Feng frowned and sighed, "My son's illness has become more and more serious now; he seems like he isn't going to live long. This is why I even took out my family treasure Divine Soul Jade as a reward."

Ren Xueling originally wanted to see Hexi make a fool of herself when the door was opened.

But now seeing Zhuge Xiaotian's current look, she also screamed in fright, but she quickly reacted and calmed down.

She saw Hexi staring at Zhuge Xiaotian in the room without moving, thinking she was too scared to move.

She immediately laughed, walked a few steps in her direction and ridiculed, "Miracle Healer Xi, didn't you just boast that you can definitely treat Brother Xiaotian's disease? Why? You are too frightened that you can't even move now??"

Yes, Hexi was a little stunned, but of course, it was not because of fear, but she finally confirmed that Zhuge Xiaotian's disease was the vampire disease she had seen in her previous life, the scientific name was porphyria.

Porphyria, also known as hematoporphyrimism, made the patient very sensitive to light. Once the patient was exposed to light, the porphyrin would be transformed into a "carnivorous" toxin, which would make the patient lose his sanity and become a bloodthirsty vampire.

In her previous life, Hexi had also encountered a patient suffering from porphyria, but due to drug limitations, she could not completely cure the patient. This was also one of her regrets.

Chapter 955: Blood-sucking Scene

Therefore, when Hexi heard Nangong Yu talk about Zhuge Xiaotian's illness for the first time, she suspected that he had gotten porphyria, so she was very anticipated to be able to treat it again.

Hexi was amused when she heard Ren Xueling's yelling. As she was about to speak, she suddenly noticed the changes in Zhuge Xiaotian's aura.

She almost didn't even think about it and took a step back, and she also pulled Dr. Chen who was the closest to her.

Ren Xueling couldn't help but laugh more when she saw her retreating, "Coward, you actually run away. You still dare to talk to my senior sister..."

Before she finished her words, everyone showed a horrified expression.

Immediately afterward, Zhuge Feng shouted in shock, “Miss Ren, step back!”

However, it was too late.

Ren Xueling only felt something pounced on her, followed by a bloody heat against her neck and ear.

Ren Xueling’s eyes widened in horror with a pale face. She wanted to look back to see what it was, but her whole body was trembling. She didn’t dare to move at all.

The next moment, she felt a sharp pain on her neck and heard the sound of the sharp teeth piercing her flesh, making her scream hysterically.

All the people in the basement panicked.

It turned out that Zhuge Xiaotian in the dark room hadn’t sucked enough blood yet, so he suddenly rushed to the Ren Xueling who was the nearest and bit her neck.

Zhuge Feng was panicking. He quickly commanded the heavy armored guards in the basement to get them to rescue Ren Xueling.

But Ren Xueling was already frightened. Her spiritual power was channeled like crazy. The frost condensed from the ice spiritual power attacked Zhuge Xiaotian, causing his body to be riddled with holes. He finally let her go.

Ren Xueling pushed a doctor beside her to Zhuge Xiaotian without thinking and shouted, “Don’t suck my blood! Go suck someone else’s! Suck his!”

Sure enough, Zhuge Xiaotian immediately bit on the doctor’s neck.

“Ahh—!!!”

Although the doctor was also at the Meridians Stage, he had never practiced any offensive skills. At this time, he fainted right away after being bit by Zhuge Xiaotian on his neck.

When other doctors saw him fainted, they thought he was killed by Zhuge Xiaotian. They shouted in shock, “Kill him! Kill him! Kill this monster!”

Everyone took out magic weapons one after another with faces full of horror, and they were about to attack Zhuge Xiaotian.

Zhuge Feng’s anxious eyes were red.

Although he knew that his son’s symptoms were terrible today, he didn’t expect that his son’s condition would have deteriorated to such an extent in 1 night.

In the past, he just had to suck 3 wind spirit rabbits to regain his consciousness, but this time, after consuming the blood of 6 wind spirit rabbits, the disease is still triggered.

In the past, even if he was bloodthirsty, Zhuge Xiaotian would not attack people madly, but today... why is it today!

If my son is killed as a blood-sucking monster, then I...then I...

Zhuge Feng was anxiously like an ant on a hot pot. Suddenly, he saw a figure move slightly and came to Zhuge Xiaotian and the fainted doctor.

Chapter 956: Admiration

Xi Yue spread the medicinal powder in his hand, then Zhuge Xiaotian paused slightly and loosened his teeth. His whole body shook too.

At this time, Lu Zhixi also moved.

A wisp of white smoke was suddenly released from her hand, and the white smoke hurried toward Zhuge Xiaotian in a spiral shape.

In the blink of an eye, it submerged in Zhuge Xiaotian's nose. After sucking in the white smoke, he looked even more dazzled.

Finally, he couldn't hold it up and fell to the ground.

When Lu Zhixi saw that Zhuge Xiaotian was finally subdued, she breathed a sigh of relief. She lifted up her shocked junior sister apprentice and said softly, "Xueling, it's fine now. Zhuge Xiaotian has been knocked out by my knock-out incense."

Everyone was overjoyed when they heard the words. At the same time, they also greatly praised Lu Zhixi's methods.

Although it was just a simple process of casting incense.

However, being able to condense the smoke into a wisp that only affected Zhuge Xiaotian, it could be seen that how high Fairy Zhixi's medical skills and cultivation was.

Ren Xueling finally settled down at this moment, touching the wound on her neck. Her body still trembled in fright, and she said in a sobbing tone, "Senior Sister, Senior Sister... that monster is so scary. He bit me... that scary face and teeth. That monster bit me... Senior Sister, will I be infected by this monster and become a monster too! Wuuuu... I don't want, Senior Sister, you must save me!"

Ren Xueling's remarks made Zhuge Feng's face looked extremely unsightly.

He also knew that his son was now like a monster that was crazy and ugly and loved to suck human blood.

But that was his only son, who would be happy if others describe his son as a monster?

Lu Zhixi and Ren Xueling did not notice Zhuge Feng's emotional changes at all.

Seeing Ren Xueling's anxiety, Lu Zhixi quickly comforted, "Xueling, you can rest assured that this disease is not contagious, and you will not become a monster. This bite wound will heal after a few days."

Ren Xueling was relieved now.

Li Zhenyu looked at Lu Zhixi admiringly and said, "Zhixi, thanks to you that the trouble was solved. Unlike someone, he did nothing except running away."

With that, he cast a scornful look at Hexi.

Lu Zhixi smiled slightly, glanced in the direction of Nangong Yu, and then faintly said, “Zhenyu, don’t talk like this. Everyone will react differently to the crisis. I’m not afraid of Young City Lord Zhuge because I have had a lot of experience in treating patients. I have seen a lot of diseases that are more terrifying than the young city lord. Mr. Xi is afraid is probably because of too little experience.”

Hexi had returned to her original position at this time. She just smiled casually hearing that and didn’t intend to argue at all.

The doctors present were all grateful and admired Lu Zhixi, but they all showed contempt and disdain for Hexi.

Although they didn’t see the appearance of the boy named Xi Yue running away, since Elder Li said that, it was naturally true.

In the whole basement, apart from Nangong Yu and the others, the only people who saw Hexi’s actions were Old Dr. Chen and Zhuge Feng.

Chapter 957: Rare Spiritual Power

But Dr. Chen was different.

He was dragged back by Hexi. If Hexi hadn’t dragged him away just now, then Zhuge Xiaotian would attack him first instead of Ren Xueling.

Later, he saw this young man come appeared beside Zhuge Xiaotian with his own eyes and used some kind of medicine to stop Zhuge Xiaotian’s blood-sucking action. Even his turbid eyes had become clear.

When Dr. Chen thought that Zhuge Xiaotian would soon wake up and regain his sanity.

But soon, Lu Zhixi released the incense to made Zhuge Xiaotian fall asleep.

Dr. Chen looked at Xi Yue. He was just a young man who looked delicate and handsome, but at this moment, he felt a mysterious feeling from him.

Dr. Chen coughed and said softly, “Mr. Xi, thank you for your life-saving grace just now.”

Hexi smiled carelessly, “It’s not a life-saving grace, just a simple help.”

Hexi was telling the truth. Even if he was sucked by Zhuge Xiaotian, as long as his blood wasn’t sucked dry, it would not be fatal. So, it was not a life-saving grace.

Dr. Chen hesitated for a moment and couldn’t help but whisper, “Mr. Xi, just now... the person, who let the young city lord release Dr. Mo, is you right?”

Hexi smiled and did not speak.

Lu Zhixi slightly bowed to Zhuge Feng and said, “City Lord Zhuge, the young city lord is now in critical condition and can no longer be delayed. I will treat him right now.”

Zhuge Feng nodded again and again. His only hope now was that his son’s illness would get better.

As for whether there would be rumors that Young City Lord Zhuge was a vampire monster in the future, he could no longer care about this.

The bed for temporary treatment was prepared quickly.

Lu Zhixi sat in front of the bed with a graceful figure. Her body was radiating a faint light because of the channeling of the spiritual power. She looked like a fairy who would bring salvation to the people.

As the water spiritual power and wind spiritual power went into Zhuge Xiaotian's body, Zhuge Xiaotian's complexion actually looked better.

A doctor found out and couldn't help but exclaimed, "This...what kind of spiritual power is this? Why can it heal by just running in the patient's meridians?"

Ren Xueling said triumphantly, "You don't know this? My sister's water spiritual power and wind spiritual power are extremely pure. When the 2 spiritual powers are used together, they can the human meridians and restore the vitality of martial artists. Even Nascent Soul stage martial artists ask my senior sister to treat their meridians!"

"It's just that my senior sister has always been low-key and never talks about her skills. Unlike someone who comes out of a small country, he only has a little bit of skill, but he still wants to boost himself. He isn't afraid of making a fool of himself at all!"

As soon as Ren Xueling said this, all martial artists looked at Lu Zhixi in shock and amazement.

Born with the spiritual power that heals the meridians? This... does this kind of spiritual power really exist in the world?

It's no wonder that Fairy Zhixi can become a six grade doctor at such a young and has such a reputation.

Chapter 958: Bring It On

Lu Zhixi only smiled when she heard the words; she couldn't help looking in Nangong Yu's direction with her peripheral vision.

She thought that this man would show a look of wonder when he heard her special and rarity and would look at her differently.

However, Lu Zhixi saw Nangong Yu leaning close to Xi Yue's ear to speak affectionately. Although she couldn't see clearly due to the mist, she could feel his tenderness and pampering.

Lu Zhixi grasped her hands tightly, then she immediately returned to normal. She smiled faintly to everyone, "Zhixi's skill is really insignificant; I really don't deserve to be praised by everyone. It is just that if I can use this ability to relieve the patient's pain, then I'm satisfied."

After hearing this, the doctors admired Lu Zhixi even more. They already regarded her as a master of medical skills instead of a girl in her early twenties.

Li Zhenyu stared at Landing Zhixi with fiery eyes; his eyes were full of fanaticism and reverence.

Lu Zhixi probed Zhuge Xiaotian for half an hour before retracting the spiritual power somewhat tiredly.

Zhuge Feng looked at her hopefully and asked quickly, "Fairy Zhixi, can my child's illness be cured?"

Lu Zhixi let out a sigh of relief, wiped the sweat from her face, and nodded, "I have learned about young city lord's condition in detail, maybe I can give it a try. I'm about 70 to 80% sure that the young city lord can be cured."

"Fairy Zhixi, is that true? Xiaotian's illness can really be cured?" Zhuge Feng was shocked that both eyes were almost protruding, and his body was trembling slightly with excitement.

Lu Zhixi nodded and said, "I wonder if City Lord Zhuge can get enough blood sucking golden silkworms?"

"Blood sucking golden silkworm?" Zhuge Feng was taken aback for a moment. "There is no blood-sucking golden silkworm in the city lord's mansion, but if Fairy Zhixi needs it, I will send someone to collect it immediately."

1 of the doctors hurriedly stepped forward after hearing the words, "Blood sucking golden silkworms? I have. A few years ago, in order to refine a kind of medicinal pill, I raised a lot of blood-sucking golden silkworms. I have hundreds of them!"

Zhuge Feng was overjoyed when he heard this, and he quickly called a guard to accompany the doctor back to get the blood sucking golden silkworms.

While waiting for the blood sucking golden silkworms, everyone in the basement sat down and waited to see Lu Zhixi's treatment method.

Ren Xueling saw Hexi and others sitting on a couch by the side, and she couldn't help dragging Li Zhenyu to them, condescendingly mocking, "Some people right! They really won't give up until they really lose! They obviously knew that my senior sister has won. If they know their limit, they should have given up earlier. They are just trying to hold on persistently. Won't they feel shame when they lose?"

Bai Hu looked up and sneered, "Hehe, I don't know who will be ashamed by then? Miss Ren is so anxious to ask my young master to quit, are you thinking that if Fairy Zhixi can't cure it, no one else will try to cure it right?"

Li Zhenyu listened to the insulting words to Zhixi, and he immediately said with a gloomy face, "You better put your mouth clean, otherwise don't blame me for being rude!"

Bai Hu laughed, leaning back on the couch and lazily said, "Oh, I really want to see you being rude. Why don't you do it right now?"

Li Zhenyu's eyes flashed sinisterly, and he kept the folding fan and was about to take out his weapon.

Chapter 959: True Face

Li Zhenyu's gaze full of sneer fell on Master Yuehua's face, then he snorted and turned back to Lu Zhixi.

Ren Xueling couldn't help but sneered and said, "Master Yuehua, you really like to favor this Xi Yue. I heard that you still bet all your belongings on this Xi Yue at the Changle Gambling House. Does Master Yuehua really think Xi Yue can win against my senior sister? Tsk tsk... Is it that Xi Yue and you have some sneaky business? After all, it's not the first time that people in Yanjing City say that Xi Yue likes ma..."

Before she finished speaking, Ren Xueling suddenly felt a strong wind hit her face, making her scream. She staggered back.

Immediately afterward, she spat out a mouthful of blood, and there was a tooth in it. Her left cheek swelled up quickly.

Ren Xueling was stunned for a while. She looked at the bloody teeth in her hand in disbelief, then she met Nangong Yu's bloodthirsty gaze as she looked up.

The cold and low male voice had a charming tone, but at this time it sounded like Shura from Hell, "Say that again if you dare!"

Ren Xueling shuddered all over, and tears of fear slid down her eyes uncontrollably.

Lu Zhixi had already rushed over at this time, guarding Ren Xueling behind her. She was looking at Hexi in distress and anger. She coldly said, "Mr. Xi, if you are angry, unleash it to me. Xueling is just a child. Why do you have to humiliate her in such a way? Don't you feel ashamed?"

Hexi raised her eyebrows and asked inconceivably, "Am I the one who hit her just now?"

Is this woman crazy or something? It's obviously Nangong Yu who beat her, what does she accuse me now?

Lu Zhixi sneered, "I have seen people like you a lot. You like to use men to shoulder your responsibility. But, I have to advise Mr. Xi to not go over your limit. Someone will notice your true face one day. By the time, it will be too late for you to regret it."

After Lu Zhixi finished speaking, without waiting for Nangong Yu and Hexi to refute, she dragged Ren Xueling back to their original position.

Hexi smiled meaningfully at Nangong Yu, and she suddenly said in enlightenment, "It turns out that she didn't say these things to me, but to someone! Your Highness King of Hell, when can you see through my true face?"

Nangong Yu scratched the tip of her nose and leaned close to her ear and whispered in a low voice, "Of course, it's when I have tasted you from your inside to outside."

The scorching gaze full of passion glanced around her body as he said those obvious words.

Hexi blushed and pushed the shameless man away.

Damn, I wanted to tease him initially, but I'm actually being teased back.

About a quarter of an hour had passed, Zhuge Feng led the doctor who took the blood sucking golden silkworms in hurriedly.

Lu Zhixi took the golden silkworms and checked it, and a smile appeared on her face, "These blood sucking golden silkworms are well raised, I believe they can save the young city lord."

Chapter 960: How To Treat

However, Lu Zhixi frowned when she saw Zhuge Xiaotian's exposed skin.

Ren Xueling, standing behind Lu Zhixi, couldn't help but exclaim: "Yikes, disgusting. It's all rotten. Sister, don't touch him, otherwise your hands will stink!"

The slender jade held the blood sucking golden silkworm actually hesitated for a moment.

The skin of Zhuge Xiaotian's hands and feet already had some ulcerated red spot; some even had purulent and bleeding. Just looking at it made one's scalp numb and nauseous. Not to mention reaching out to check his meridians and put the blood sucking golden silkworm.

Lu Yin, who was serving by Lu Zhixi's side, looked at the terrifying sore and was also disgusted. She frowned and said, "Miss, although you are a doctor, you are also an innocent girl. How can you touch the naked body of a man? I think you should let other doctors do this kind of thing!"

Lu Zhixi showed a look of embarrassment.

Dr. Chen, who was waiting to see Lu Zhixi's treatment method, saw that she was still not moving. He couldn't help but anxiously said, "Fairy Zhixi, if you don't want to touch the wounds of the young city lord, it's better to let me do it. You tell me what to do."

Lu Zhixi frowned first, then she immediately stood up with a gentle smile and apologized, "Zhixi just didn't think of the gender difference. If I directly touch Young Master Zhuge's body, it would be a bit improper. Thanks for that, Dr. Chen. "

Dr. Chen hurriedly sat in the place where Lu Zhixi had just been. Under the guidance of Lu Zhixi, he slowly found the meridians on Zhuge Xiaotian's hands and feet and put the blood sucking golden silkworms on them.

The blood sucking golden silkworm instinctively sucked blood when it was put on. The faint golden outer shell also gradually turned blood red.

As the blood was slowly sucked by the golden silkworms, Zhuge Xiaotian's face became pale, and his expression slowly changed from being drowsy to frowning pain.

Zhuce Feng said anxiously, "Fairy Zhixi, if this continues, wouldn't Xiaotian lose too much blood and die?"

Lu Zhixi smiled slightly, took out a medicinal pill from her storage device, stuffed it into Zhuge Xiaotian's mouth, and used spiritual power to run in his body to help digesting the medicinal pill.

After a while, Zhuge Xiaotian's originally pale complexion gradually turned into a blush, and his expression gradually changed from the original pain and irritability to calmness.

Lu Zhixi met Zhuge Feng's surprised eyes, then she slowly smiled, "I just let the young city lord take the Lingxue Pill made by my father himself."

"Lingxue pill?" Zhuge Feng was taken aback for a moment, then surprised, "Is it the 4th grade medicinal pills that can replenish human blood in a short period of time?"

Lu Zhixi nodded, then she looked at Hexi and Nangong Yu slightly before looking back at the doctors, saying loudly, "At the Lanxiang Courtyard, the doctors asked me about the treatment plan for young city lord's illness. Zhixi will now explain it in detail."

All the doctors were overjoyed when they heard the words. Everyone looked at Lu Zhixi eagerly.

Even Dr. Chen, who had just put the golden silkworm on Zhuge Xiaotian, looked at Lu Zhixi eagerly.

Lu Zhixi smiled and said, "This disease of young city lord can be said to have never been seen in the entire Miluo Continent. This is why the experienced doctors here are helpless against it."
