“Hmph, Tao Lin, you’re not necessarily any better, don’t say that as if you’re much above me.”

“That means you have to kill Omi.”

“Yes.”

“Then come on, let me see your Heaven’s Expanse Gate’s mastery again.”

The Heaven’s Expanse Gate Master went up for the kill, the two of them were no longer simply direct palm to palm, direct palm to palm, using internal blast, I’m afraid that everyone wouldn’t last more than a few palms, just like ordinary people fighting head to head.

The Martial Island Lord and the Heaven’s Destruction Gate Lord, their figures scurrying around on the snowy mountain, a while east and a while west, the intensity was no less than half a month ago in the Moonless Empire.

Omi stood in mid-air, the duel between the two peak experts of the world was not unexciting, it was just that the Martial Forest Island Master was so old and still had to fight with the Heaven’s End Gate Master, Omi felt very guilty and heartbroken. Although they were martial arts practitioners, but being so old, actually using martial arts would be very harmful to them all.

At this time, at the palace of the Heaven’s Destruction Gate, a man looked at Omi and said angrily, “Are you the one who stole my Heaven’s Destruction Gate’s greatest treasure?”

Omi followed the sound, and a strong man at the third level of the Unity Realm was looking at Omi with an angry gaze.

This person was the Vice Master of the Heaven's Expanse Gate, and the second greatest expert of the Heaven's Expanse Gate.

Omi said, "I'm the one who ate the Ice Crystal Snow Lotus." Remember the website . kanshu8. net

"Suffer death."The Vice Gate Master immediately killed Omi.

As a result, two battlefields appeared on the snowy mountain of the Heaven's Destruction Gate.

The Martial Island Master and the Heaven's Destruction Gate Master were fighting hard to distinguish between them.

Omi's side, on the other hand, was not so hard to distinguish from that Vice Gate Master.

It was because Omi's strength was obviously much higher than that Vice Gate Master.

Omi was someone who had comprehended the killing intent, while that Vice Gate Master on the other side was only at the third level of the Unity Realm Great Perfection, and had not comprehended any killing intent, even though he was old enough to be Omi's grandfather.

"You're not my opponent."Omi said.

Omi hadn't used his full strength at all, and the other party was already holding on very barely.

The other party's Vice Gate Master shouted, "Heaven's Ultimate Hand." The cold air around him condensed for a moment, and the Vice Gate Master carried a palm strong enough to freeze, slapping it towards Omi.

Such a powerful palm, yet it did not give Omi any sense of oppression, enough to prove that also at the third level of the Unity Realm Great Perfection, Omi's strength was much higher than his.

Omi slightly struck out with a punch of immense power, scattering the powerful palm of the opposing Vice Gate Master, and that Vice Gate Master's body flew back more than ten meters with a clatter.

"You're not my opponent, if you don't do anything else, don't blame me for being rude." Omi said.

However, that Vice Gate Master was clearly unhappy, the more Omi said that he wasn't his opponent, the more unhappy he became, in terms of age, when he came out to hang out, Omi's mother was still in the womb, why should he not be his opponent.

The reluctant Vice Gate Master opened his mouth and inhaled fiercely, all the cold air around him was sucked into his abdominal cavity, and for a moment, the Vice Gate Master's entire body seemed like a layer of ice.

"Boom." The Vice Gate Master killed with another palm, this time, he sucked in a lot of cold air and circulated it into his meridians before striking it out through his internal force, it could be said that he was destroying his meridians by destroying them

The palm issued at the cost of his veins. Therefore, this palm strike was so powerful that Omi suddenly felt its incomparable power, and an icy palm wind almost froze him.

Omi was horrified, and immediately raised a must-kill intent within him, then his entire body met it with a punch of the greatest strength.

“Wow.” A sound like an iceberg cracking was emitted.

That Vice Gate Master’s body immediately flew down the mountain from the top of the snowy mountain.

The Heaven’s End Gate Master, who was battling in the middle of the mountain, seemed to have seen the battle between Omi and the Vice Gate Master, and was shocked inwardly at Omi’s strength, so young that even his Heaven’s End Gate’s Vice Gate Master was completely unbeatable, seeing the Vice Gate Master flying down the mountain, the Heaven’s End Gate Master suddenly left behind the Martial Islander and leapt into the air to catch the downward flying Vice Gate Master.

After catching the Deputy Gate Master, he realized that the Deputy Gate Master had actually used a forbidden art to deal with Omi, yet he was still blown down the mountain, and his horror couldn’t help but deepen a bit.

“Pah.” The Heaven’s Expanse Gate Master toned several acupuncture points on the Vice Gate Master’s body, and then an internal force was transmitted into the Vice Gate Master’s body to protect his meridians.

And then, the Martial Forest Island Master flew over, but he didn’t take the opportunity to do anything, otherwise, this was a good opportunity to severely injure the Heaven’s Destruction Gate Master.

The Wulin Island Lord said, “Qingfeng, I’m sure he’s your successor, you’re planning to give him the position of Gate Master after your death, but unfortunately, he’s no match for Omi, even if he uses the forbidden arts of your Heaven’s Destruction Gate, he won’t win.”

“Ah.” The Heaven’s Expanse Gate Master shouted, feeling a sadness inside, his successor, but he had lost miserably at the hands of a young man in his twenties.

The Martial Island Lord laughed, seeing the Heaven's End Gate's heir defeat at the hands of Omi, his heart was also very happy, Omi really hadn't let him down, stepping into the pinnacle of the Unity Realm in the future, it was really impossible to measure his achievements.

“Qingfeng, resign yourself to your fate, talented people emerge from the mountains and rivers, there is no benefit at all to offend the young people, besides, your Heaven's End Sect will be handed over to your successor sooner or later in the future, but your successor is no match for Omi, if you want the future of the Heaven's End Sect to continue, there is no benefit to offend Omi.”The Island Lord said.

The Heaven's Expanse Gate Master gritted his teeth and said, “He has today thanks to the fact that he took the Ice Crystal Snow Lotus of my Heaven's Expanse Gate, and now, he still comes to my Heaven's Expanse Gate to flaunt his power, I will kill such thieves.”

The Island Lord laughed, “Qingfeng, Omi has not only taken your Ice Crystal Snow Lotus, he has also taken Ten Thousand Year Ginseng, Vermillion Bird Grass, Emperor Insect, just short of the Sacred Brain of the Sword.”

“What.”The Heaven's End Gate Master's body trembled, this was too incredible.

“Qingfeng, the fact that one person can take so many of the world's wondrous treasures is enough to show that these wondrous treasures are fated with him, and no amount of power can stop the fated. Although the Ice Crystal Snow Lotus is yours, but unfortunately, you are not destined for it, Omi had already stepped into the late stage of the Unity Realm Great Perfection at the age of twenty-one before taking any of the strange treasures, you and I both know that he is the first person in history, and he will, in the future, have the most hope of surpassing the Unity Realm. Now that he's been eating for several years, he might as well become a friend and we'll make friends.”

“Ah.”The Heaven's End Gate Master hissed again, not knowing whether it was unwillingness or what.

Omi flew down and said, “Senior, I, Omi, did steal your Ice Crystal Snow Lotus, and I will always be ashamed of this matter, but my sister was forced to do so at the time, so I hope that Senior will be forgiving. I, Omi, assure senior that in the future, as long as I am still in this world, I will guarantee the

safety of the Heaven's Destruction Gate for as long as I am here, and I can be considered as making up for the gift of the Ice Crystal Snow Lotus from the Heaven's Destruction Gate."

The Island Lord smiled, "Hear that, Omi stepped into the pinnacle, it's only a matter of time, your Heaven's End Sect has his promise, at least in his lifetime, you don't have to worry about the safety of the Heaven's End Sect, and you can leave this world with peace of mind."

"Phew." The Heaven's Expanse Gate Master took a deep breath, seemingly resigned to his fate, if Omi hadn't come here today on his own initiative, he wouldn't even have been able to find the person who stole the Ice Crystal Snow Lotus.

The Heaven Extinguishing Gate Master said, "Omi, you take my palm, if you can take it, then I will settle this matter with you."

Omi said, "Okay, Elder can come." Omi said in his heart, it should still not be difficult to receive a palm from him.

The Island Lord said, "Omi, be careful, that palm of his is definitely one of the strongest palm techniques of the Heaven's Expanse Gate, the Cold Ice Palm."

"Mm."

The Heaven's Expanse Gate Master struck his palm towards Omi, it really did carry a strong cold wind, Omi knew very well that if he let the other party's cold internal energy enter his bones and stick to his meridians, it would definitely damage his meridians.

It was very likely that the Heaven's Expanse Gate Master had issued this palm strike in order to get some justice for the Vice Gate Master, who had damaged his own meridians by using a forbidden art when he

fought with Omi, so it would also be necessary for Omi to damage his meridians as well. Of course, if Omi was able to catch it, then count Omi as powerful, but if he couldn't, then he would be the same as the Deputy Gate Master.

“Bang.” The Heaven's Expanse Gate Master struck up, Omi was already prepared, gathering his whole body's strength in one fist, his internal strength surging and weighing 150,000 kg against the Heaven's Expanse Gate Master's palm.

Suddenly, Omi felt an icy cold air running through his body, his meridians seemed to freeze, his whole body clattered and flew backwards, Omi only stopped his body after dozens of meters, his internal power was running in his body, as if evaporating water vapor, dissipating the icy cold air in his body. Omi's punch was full of power after he had just faced off with the Heaven's Destruction Gate Master, but his internal strength was severely lacking, while the Heaven's Destruction Gate Master, whose strength might not exceed Omi's, but his internal strength was very thick, far from being comparable to Omi.

When Omi looked at the Heaven's End Gate Master, the Heaven's End Gate Master was actually knocked back several meters by Omi as well, after all, a punch of such power from Omi was never so easy to take, plus he had already suffered internal injuries from the intense battle with the Island Master first. One second to remember to read the book

“Hahaha, hahaha.” The Heaven's End Gate Master laughed miserably, his hair disheveled as if he was going crazy, or laughing bitterly at himself.

Omi flew up.

The Island Lord asked, “How are you?”

“I'm fine, but it will take me a little longer to clear the cold from my body.”

The Island Lord nodded.

The Heaven's End Gate Master said, "Omi, you're awesome, you won, remember your promise not to send."

"Thank you senior, but I still have a question about my sister, did you kill her?" Don was busy asking.

"No, I didn't catch up with her."

"So she's alive then?"

"I don't know."

"Oh, thanks."

The island master said, "Qingfeng, much obliged, farewell."

"Hmph."

Omi left the Heaven's End Gate, since neither the Moon Martial King nor the Heaven's End Gate Master had killed Mu Qianji, where the hell would she have gone?

Omi couldn't figure out that if Mu Qianji had managed to escape, then he would definitely come looking for him.

"Do I still have to go look around that vicinity of the Water Ape Empire now?"

Martial Islander said, "There's no need, both

It had been so long, if Mu Qianji hadn't died, he would have already fled that place, and if he had died, there was no point in going there. Moreover, there were many strong people in the Water Ape Empire, and in this world, the most powerful weren't humans, they were beasts. For example, the Beast King of the Forest of Ten Thousand Beasts, and the Old Ape King of the Water Ape Empire and so on. It's better to avoid going to places like that if nothing happens."

"Why are the beasts stronger than humans at their peak?"

"Because the life of many beasts is longer than that of humans, and also, the martial skills of beasts are relatively single, maybe only one move, so practicing this one move for years and years shows how far it has been practiced, and a random pouncing move, it's possible that even the strongest humans won't be able to resist it."

"Uh." Omi didn't expect the pinnacle of beasts to be so powerful.

"Then what do I do now?"

"After such a long time Mu Qianji hasn't shown up, there's only one possibility, in which corner she's healing her wounds, she must have paid a big price to escape from two peak powerhouses, now at a time like this, we can only wait for news slowly, if Mu Qianji isn't dead, sooner or later she'll show up again, if she is, never again." The Island Lord patted Omi's shoulder as a gesture of comfort.

At this moment, a voice suddenly came from the distance, "Old friend Tao Lin."

Tao Lin's eyebrows furrowed inwardly, as if he had recognized who it was from the voice.

Omi was busy asking, "Island Master, listening to this voice, the inner strength is very thick, it's a peak powerhouse."

“It’s him.”

“Island Master, who is it.”

“The world’s second ranked peak powerhouse, why would he appear here, oh right, he seems to have been hitting on the Heaven’s Destruction Gate’s Ice Crystal Snow Lotus.”

In the next moment, an old man abruptly appeared in front of Omi and the Island Master.

As soon as this old man appeared, he felt like he was giving people an extremely powerful oppressive force, and the Island Lord’s momentum all seemed to be completely at a disadvantage in front of him.

The Island Lord smiled, “Official Yang, it really is you.”

“Tao Lin Island Lord, long time no see.”

“Yes, long time no see, I didn’t think you were still alive.”

“Hahaha, Tao Lin, it’s rare to meet here today, old friend, won’t we cut to the chase? Let me see if you’ve surpassed me now.”

The Martial Island Lord said, “Brother Yang is laughing, I’m not your match.”

“Hahaha, Tao Lin, in this world, everyone knows that you are the third in the world ranked below me, after many years, I want to see if you have surpassed me.”

“Yang Guan, I don’t care about these vain names anymore, Brother Yang may have something to do, why don’t you go to your business earlier, it’s time for me to go back to Martial Island, if Brother Yang is free some other day, he can come to Martial Island to catch up with me.”

Official Yang snorted, “Tao Lin, then take my palm.”

“Uh.”

“Finished, Yang Guan struck at the island master with a palm.

That palm was like a volley of mountains and seas, and even Omi, who was standing a few meters behind him, felt an unmatched force.

The Wulin Island Lord had no choice but to meet it with all his might.

“Pah.”The two men’s palms were suddenly paired together.

“Wow.”The body of the Martial Forest Islander suddenly flew back hundreds of meters like a sandbag, while the other person did not move a muscle.

“Poof.”The Island Lord spurted out a mouthful of blood, his face pale and extremely weak.

“Island Master.”Omi panicked and ran up to help the Island Master.
