

# King of kings 1105–1106

1105

"Tzu-Chen, let's wash up first."

"Mm, good."

After Omi finished washing up, Li Xuan Er said, "Your hair is so long, do you want me to brush it for you?"

"Uh." Omi was stunned, yeah, his hair was long now.

Omi laughed, "Long hair is really inconvenient ah, every morning I have to wake up and comb it like a pussy for half a day."

Li Xuan Er paused to cover her mouth and sneak a laugh.

"What are you laughing at."

"omi, but I feel, you look pretty good with long hair, if you really cut it into a flat head, it would be weird, I always feel, your current body is suitable for long hair, and the ancient costume, otherwise it looks weird."

Omi said, "If I have to return to the other world, then I have to keep my hair, otherwise, my master and mistress will blow me out of the mountain, after all, the other world is still very feudal, even my hair can't be cut easily."

"Hmm." Simran went up to comb Omi's hair.

Omi hugged Simran backhandedly and said, "It's been a long time since I've touched a woman, Xuan'er, I've really missed you." The first website [m.kanshu8.net](http://m.kanshu8.net)

"What are you doing in the morning." Li Xuan Er blushed.

Omi smiled, yes, Omi's real body is still a virgin.

Simran also seemed to have thought of something, blushing, she asked, "The real you, shouldn't be still a virgin."

Omi asked, "How do you know."

"Yesterday you were drunk, Xiangyun and I served you to sleep, we were the ones who scrubbed your body, saw that what, it felt like."

"Uh." Omi was embarrassed.

Simran giggled.

Omi pushed Simran down at once.

"Stop it, in case someone comes in, it's already morning." Simran struggled.

Omi asked, "You'll feel uncomfortable if I change my body?"

"A little, especially when I scrubbed your body yesterday, but something's not quite the same," Simran said.

Omi said, "Which part is different?"

"Oh my, don't ask knowingly." Simran blushed.

"Hey, so what do you think, was it better before, or is it better now?"

"Uh, you pervert."

"Say."

Simran stared and shyly said, "Definitely now, you're obviously much stronger now, you look very manly." There was one more thing that Simran didn't dare to say, something that both she and Lina admitted, and it was about a certain size aspect of her body that was clearly a level larger than before.

At that moment, footsteps came from outside, and Omi let go of Simran.

It was Xiaomeng who came in.

"Brother omi, you're still not up."

"Ahem, Xiaomeng, you're here."

"Yes, I've been practicing martial arts for half a day, I wanted to come to accompany you."

"Good, go wait for me first."

Xiao Meng knew that Omi was warming up to Simran and smiled, "No need, you guys go on."

Omi harrumphed, "Ah, we're not doing anything."

Xiao Meng threw out her tongue, "Just look at Sister Xuan'er's blushing face, haha, I'm leaving, I'll close the door for you guys."

Xiaomeng ran out of the room and also closed the door, Simran shyly giggled at Omi.

r /> Omi saw this appearance of Simran, extremely alluring, can't help but love, and suddenly pounced on it.

The first thing you need to do is to take a look at this.

Xiao Meng thought of herself, still alone, the person she liked, could not be with her, and could only watch him be happy with another woman.

Only after two hours, Omi walked out of the room, a moment of refreshment.

Omi came to the main hall, where Yan Long was drinking tea.

"Get up."

"Mm." Omi nodded his head.

"What are your plans for next?" Yan Long asked.

"I don't know yet, but I want to pay my respects to the Lord of Wulin Island first." Omi said.

"You're leaving after paying your respects? Travel to the other world?"

"What are you trying to say?"

"That, when you travel to the other world, can you take me with you." Yanron smiled.

"Uh, you want to go too."

"Yeah, I want to see if I can go a hundred feet further to that world of yours."

Omi directly shook his head, "Forget it, big brother Yanlong, it's not that I'm looking down on you, but to tell you the truth, if you want to step into the Ancestor Realm, with the talent you're showing now, it's impossible. If you were to reach the level of Ten Thousand Dharma Heaven and Yang Guan now, then it would definitely be possible for you to step into the Ancestor Realm if you went to another world. But right now, you're only at the second level of the Unity Realm Great Perfection, and it's completely impossible for you to become a Grandmaster Realm."

"Ugh." Yan Long sighed.

Omi patted him on the shoulder.

“Brother Tang, can you tell me if it’s really that difficult to become a Sect Master Realm?What will it take?”

“First, you have to comprehend your own martial dao, and I’m afraid you don’t even know what your own martial dao is right now.Then, you have to research a martial art that completely matches your own martial dao, then, you are considered to have stepped into the shoes of a martial arts master.”

“Understood.”Yan Long smiled.

Omi had previously invented something called ‘Yin Yang Finger’ himself, that wasn’t a concept, because there was no foundation of his own martial dao, that was just using the control of internal force to focus the power a little to produce some power, without his own understanding of martial dao, he couldn’t become a grandmaster.

The other world is either positive or demonic. Thousands of years of positive and demonic enmity, and the various factions have declared themselves to be peaceful and peaceful, but secretly, they are too tired to live, so they might as well be a world ruler here.Of course, if you want to improve your martial arts skills, then you have to go to a place full of fighting.I shouldn’t be returning to the other world so soon, and even if I do, I have no plans to take anyone with me for now, as I can’t guarantee safety.”

“Understood.”

“Alright, I’m off to pay my respects to the Martial Island Lord.”

Omi called everyone together and headed to Martial Island to pay homage to the Martial Island Master.

Xiao Meng drove the flying ship, which was very fast.

Omi suddenly wondered if he could take the flying ship to the other world.

If it could, it would be a real oxymoron.

However, nine times out of ten, it wouldn’t work, unless it was something small and something large.

Previously, Mu Qianji was trapped in the mechanism lock, and even the people with the mechanism lock were thrown into the Thousand Mountain Tomb, and in the end, the mechanism lock was gone, which meant that the flying ship would not work as well.

However, Omi would give it a try, and moreover, Omi would let the people of this world work on a small piece of flying ship.

Soon, they arrived at Martialwood Island.

Omi brought the crowd to the Martial Forest Island Lord's grave.

"Island Master, I didn't expect that you would leave so soon, I have found the way to the other world, but unfortunately, you can't know anymore." Omi poured a cup of wine for the Island Lord's grave.

After paying his respects to the Island Lord, Omi returned to Wangjing City.

"Xiao Meng, you do one thing for me."

"Brother omi, what is it?"

"Help me find a group of top scientists, preferably those who build flying ships, and see if you can work on one, a small piece of a flying machine."

"Uh, a small piece of a flying machine? Isn't a spaceship small enough?"

"Not enough, I'm afraid flying ships can't take it to the other world."

"Oh, and what kind of flying ship would it take?"

"A flying machine on your back? A flying machine the size of a book bag at most can be as fast as a horse without being too fast, just faster than a horse, but the energy must be sufficient." Remember the URL .kanshu8.net

"Good, don't worry, I'll immediately have someone find top flying ship scientists to design and build it, Brother omi, then I'll go."

"Go."

After Xiao Meng left, Xu Mei Qian came up and asked, "Are you leaving so soon?"

"No. I'll be staying for another six months, after which I should return to the other world."

"Then shall we go with you too?"

Don shook his head, "You continue to stay in this world."

"Why? Don't you want us?"

"Mei Qian, how could I not want you, you're so beautiful now, you're definitely on the level of the number one beauty in the rivers and lakes when you go to the other world, you'll make the entire rivers and lakes coax for you, and you've got the talent now, what reason do I have not to want you. Even before, I didn't even think of not wanting you, let alone now."

“Then why don’t you take us with you? I also want to visit that world of yours.”

Omi laughed, “It’s really strange, my senior sister and senior aunt, would love to come to this world to have a look, while you, you want to go to that world to have a look. Mei Qian, the entrance to the passage of that world, in the Devil’s Territory, I have to be careful myself for fear of being discovered, and taking you guys with me again, this is simply an act of seeking death, I don’t want to lose you guys again. So, you guys stay here for now, and I’ll come visit you whenever I get the chance.”

“Okay.”

“Well, behave, if the relationship is long lasting, how can it be in the morning and evening. Now with your talents, it’s very possible for you guys to step into the Ancestor realm, and we’ll have a long time to live in the future. When I’m in another world and my abilities are strong enough to protect you, I’ll naturally pick you up.”

“Mmhmm.”

Omi hugged Xu Mei Qian and kissed her gently on the lips.

Thirty-four year old Xu Mei Qian, if it was before, looked obviously older than Omi, but now, she was like twenty years old, much younger and more beautiful than when Omi met her in Linjiang City, when she was still a police captain, and had an unexplainable charm that made Omi feel as if he liked her even more than before.

Omi couldn’t help but smile bitterly, seeing them even younger and prettier, immediately feeling more like them from the inside, it seemed that no matter who they were, they all liked beauty. In the past, they were not able to compare with their little sister, but now, in terms of beauty, they were already completely worthy of losing, also in terms of martial arts talent, which might be slightly inferior, but it was already a very high talent, after all, they could all be compared to Xiao Meng, but Xiao Meng was very talented.

Tang

Tzu-Chen and Xu Mei Qian kissed each other obliviously, every time their lips touched, it felt like an electric shock of passion.

“Ahem.” There was a coughing sound from the side.

It was Samira.

Omi caught Samira as well, enjoying the blessing of Qi people.

Just like that, Omi lived in this world, for five months.

In another month, Omi would be leaving.

"Xiao Meng, how's the research on the flying machine going?" Omi asked.

"Brother Omi, I think we're almost done with the research, right."

"Good."

Omi arrived at a house in the Yanhuang Empire.

Hundreds of flying ship scientists were discussing in a research room.

The flying machine that Omi wanted, they had to build it even if they worked day and night.

After five people's research, the flying machine was already taking shape, or at least all sorts of theoretical things had been solved.

"See Senior Tang."

"Well, you're welcome, how is the flying machine now?" Omi asked.

A scientist took out something like a satchel and said, "Senior Tang, this is designed by us according to your request, buckle it on the back and activate the button, it can perform jet flight, flying at a speed of about fifteen hundred kilometers per hour, which is equivalent to twice the speed of a normal airplane."

"Wow, not bad." Omi was overjoyed, Omi no longer had to ride a horse until his butt was sore, twice the speed of an airplane, this was equivalent to riding a horse thirty times faster, it used to take twenty days to ride a horse, with a flying machine on his back, it only took a few hours, great.

"But, Senior Tang, there's still one problem that hasn't been solved." The scientist said.

"What problem?"

"With a flying machine on your back, the speed is fast, but flying in the sky at such a fast speed, the force of that wind resistance will almost tear one's hair and skin."

"Well, that's not a problem for me, I'm not an ordinary person, I'm a strong person of the Unity Realm, what kind of problem is that." Omi said.

"Since that's the case, then this flying machine is ready for official production."

"Good, can it be officially produced within a month?"

"Of course you can, is there anything else Senior Tang needs to tell you about the flying machine?"

“For one thing, the flying machine must only be able to be activated and controlled by me, and even if it’s taken away from me, I can control it to fly back on its own, just like a flying ship.”

“Of course, the flying machine is only fingerprint controlled by the switch, and no one but you can start it.”

“There’s one more requirement, it has to fly as long as possible, it can’t run out of power without two days.”

“Don’t worry Senior Tang, the energy of the flying machine is the same as that of a flying ship.”

“How long is the service life?”

“Cumulatively combined, it can fly about six million kilometers, and after six million kilometers, the energy device can be used again when it is replaced again.”

“Six million kilometers, that’s good, produce it.”

“Yes.”

Six million kilometers was enough for a period of time for the other world’s rivers and lakes, after all, the other world’s rivers and lakes were estimated to be the same size as the Yan Huang Empire.

In the future, if there was a chance in the other world, one could also try crossing the ocean to see the distant, other continents.
