Omi could only say, "Alright, Sister, to be honest, I can take out a few hundred of these flying machines in another three years."

"What?" Little Sister was greatly shocked.

"Oh, this flying tool, it's not a magic treasure, it's a flying tool brought back from another world, these two months I disappeared, I've already gone to another world and asked them to mass produce a few hundred for me, to be delivered in three years. When three years have passed, all the strongest members of our Divine Dragon Sect, each of us can wear one, now this one, let's give it to the Martial Lord, let's not get involved in this strife."

"Heavens, the other world is too incredible, isn't it?"

"Keep this a secret beforehand, don't ever spread it out, especially to the devil, if the devil knows, they can go straight to the other world, the entrance is exactly in the devil's bottomless abyss."

"Mhmm, I would never say that. However, you can't just leave like that, you have to go and explain it to the Master, otherwise the Master will be angry and expel you from the sect."

Omi thought about it, since he had already told his little sister, he didn't care if he told one more person.

"Just as well."

Omi immediately went to the palm master and told him the same thing.

The palm master said, "You gave the only flying machine to the Martial Master, what about yourself?"

Omi smiled, "Master Master Teacher, I'll just forget about it myself." Remember the website . kanshu8 . net

The headmaster said, "No, you that, give it to me, I don't care if what you say is true or not, I want it now, why wait three years."

Omi shook his head, "Sorry, I have to give this to the ally."

"Wind Lightning, you want to rebel against the Head Master's orders? The flying machine is worth far more to me than it is to you, and if given to me, the Martial Master may not be a match for me, and I will have the potential to become the new Martial Master."

Omi sighed, all that said, the palm still wanted to be an ally master at heart.

Omi said, "I've decided to give it to the ally master, this thing is just a disaster now, I don't want the Divine Dragon Sect to suffer as a result."

"Then I'll kill you."

Omi trembled inside.

"Wind Lightning, your main goal right now is to have a good quiet comprehension, step into the Ancestral Master as soon as possible, give me the Flying Heavenly Magic Treasure."

"Master Teacher, I've already said that it's impossible to give it to you, after three years, I'll give you one, and if I give it to you now, aren't you afraid of taking our Divine Dragon Sect into an abyss of doom?"

"Hmph, I possess a magic treasure, I can even ignore the Martial Forest Master, what am I afraid of."

Omi said, "Even if you can beat the Martial Forest Master, but don't forget, the various sects in the Jianghu Lake all have the existence of head elders and ancestral masters, do you think you can really take it for yourself?"

"Hmph, the Head Master and the Ancestor Master, have long since ignored the affairs of the world, besides, we can talk about such matters later."

"I'm sorry, Master Master Palm, in three years, I'll give it to you, not now." After saying that, Omi activated his flying machine and flew out of the palace in the blink of an eye.

"You." The Head Master was furious, but, couldn't catch up with Omi at all.

"Wind Lightning, how dare you eat the inside out." The headmaster was furious.

Omi flew in the sky and headed straight for the Inkstone Mountain Sect, the sect where the Martial Master was.

In half a day, Omi arrived at the Inkstone Mountain Sect.

"Wind Lightning, you colluded with the Devil Sect and still dare to come to the Inkstone Mountain Sect." A strong man from the Yanshan Sect immediately shouted after discovering Omi.

Omi said, "Notify the Alliance Master immediately, and tell him that I've come to find him and go immediately, otherwise any consequences will be borne by you."

"Uh." The other party hesitated and went to inform the Martial Alliance Master.

Omi soon met our ally master.

"Wind Lightning, you actually

Natural took the initiative to come to me." The ally looked at Omi in confusion, very confused.

Omi said, "Allied Master, I came here today for an important matter."

"What is it?"

"Why does the Alliance Master need to ask knowingly, of course it's about the Flying Heavenly Dharma Treasure."

"If that's the case, then why don't you hand over the Flying Heavenly Dharma Treasure."

Omi smiled, "Allied Master, I can't hand it over to you right now."

"If you don't hand it over to me, then what are you coming to me for? Aren't you afraid I'll leave you behind?"

"Yeah? Then the Alliance Master might as well try to see if he can leave me behind."

The Martial Ally moved instantly and rushed towards Omi, attempting to capture him.

However, no matter how fast he was, his movements and speed were not as fast as the reaction of the flying machine, and the flying machine's radar emitted radio waves that reflected back information, and as soon as the ally was more than twenty meters away from him, the flying machine immediately activated and ejected.

Our ally didn't manage to capture Omi.

Omi said, "Allied Master, don't waste your energy, you can't catch me."

When the alliance master saw that Omi's flying machine was really so ungodly, he became even more excited inside and wanted to take possession of it even more.

"Wind Lightning, if you don't hand over your magic treasure, you definitely won't be able to establish yourself in the Jianghu unless you want to become an outlaw forever."

"Alliance Master, don't get excited, I came to find you this time to give you this flying weapon, but what, I have to give you the magic treasure in front of all the righteous alliances, so that everyone will know that I don't have it on me and won't come looking for me."

"Uh, is that true?"

"Of course it's true, if you want the Flying Bird Magic Treasure, then hurry up and gather the major factions."

"Good, come, immediately send flying birds to send the major factions to the Inkstone Mountain Sect."

"Yes."

Omi said, "Alright, then wait for all the major factions to arrive and I'll give you the flying bird."

"Wind Lightning, if you lie to me, then don't blame me for being rude, although you can escape, your division can't escape."

"Don't worry, I don't have time to lie to you."

Omi flew away.

Omi came to a city at random, but as soon as he reached the city gates, he saw a notice that wanted him, saying that he had colluded with the devil.

Omi had no choice but to disguise himself first and stay in a restaurant, waiting for the ally to summon all the people from the various sects.

Omi lay on his bed, feeling a bit depressed, "I should have known, don't tell the Master Teacher Uncle, but now it's good that I have offended the Master Teacher Uncle instead, in fact, I should have known that the Master Teacher Uncle is an ambitious person, such a person can't be trusted."

Half a month later, the headmasters and other powerful people from all the major sects headed to the Yanshan School, as this time it was about the flying machine, so almost every headmasters from every sect came, which showed how precious the flying machine was to all the major sects.

One of the reasons Omi didn't want to give the head of the Divine Dragon Sect, one of the reasons was because of the Demon Sect, the Demon Sect would definitely also hit this flying machine, if the flying machine was in the hands of the Divine Dragon Sect, the Divine Dragon Sect really wouldn't have a quiet day, most likely, it would also have a conflict with Mu Qianji's father, the Demon Sect Master, in that case, why not give the flying machine to the ally and let them fight.

At this moment, in the main hall of the Yanshan Sect, powerful people from all factions were gathered together.

"Where is Wind Lightning?"

"He said he'd show up when all the major factions arrived."

"Now that all the major factions are here, won't he appear. Regarding the matter of the Flying Heavenly Magic Treasure, today everyone must make a decision on which faction will keep it." The head of one of the sects said.

"Right, today we must discuss which sect is better to keep."

"Hmph." The Martial Alliance Master snorted softly.

Just at this moment, a man outside shouted, "Wind Lightning is here."

Suddenly, inside the main hall, people from various sects stood up immediately, including the head of the Divine Dragon Sect and others, but his face was one of anger.

Omi shouted from outside, "Seniors, let's talk narrowly inside."

Everyone walked out of the main hall and saw Omi standing in mid-air at a glance.

"Wind Lightning, hand over the Flying Heavenly Magic Treasure, it's not yours." The head of a sect immediately shouted.

Omi smiled, "Daoist Qing Hua, if it's not mine, then whose is it?"

"This is the world's, you don't have the right to take it for yourself, I advise you to hand it over, the heads of all the sects are here today, so let's also discuss together who to give the Flying Heavenly Magic Treasure to." The strong man from another sect said.

"Hahaha, although I don't agree with your reasoning, but I don't bother theorizing with you today, I came here today to hand over the magic treasure to one of the strongmen, but I don't know who to give it to yet."

"Of course it's to be handed over to our Liang Shan Sect for safekeeping."

"Bullshit, it should be our Huanshan Sect."

"Let's all stop arguing, the custody of the Martial Lord is most suitable." One second to remember to read the book

At this time, the head of the Divine Dragon School, Song Dingtian, said, "Wind Lightning, if you are still a member of our Divine Dragon School, then I advise you to give me the Flying Heavenly Magic Treasure, otherwise, I will expel you from the school."

Omi said, "Master Teacher, why are you bitterly pressuring me, this Flying Heavenly Magic Treasure is owned by the people of the world, so naturally we should gather everyone together and we should discuss the ownership of the magic treasure."

"You."

The rest of them, however, shouted, "Wind Lightning did the right thing."

"Yes, Wind Lightning is really a sensible child, and if it were anyone else, it would have been handed over directly to the division."

"It should be brought out and let everyone deliberate before deciding on the attribution."

Everyone praised Omi's actions, but inside, they were ridiculing Wind Lightning for being so stupid.

Omi said, "Alright, now I'll explain how to use this Flying Heavenly Magic, press the button here and the Flying Heavenly Magic can immediately fly, the direction of flight can be mastered by yourself, I'll demonstrate it to you now." Omi immediately demonstrated, and everyone looked at Omi's Flying Heavenly Magic Treasure with burning eyes.

Omi added, "Now, I will take the Flying Magic Treasure to the ally for now, and then, you all can discuss who to give it to for safekeeping, so I won't participate in the discussion. By the way, the Flying Magic Treasure is very fragile, so don't let it get damaged in the slightest, or it will be scrapped."

Omi relieved the flying magic treasure and everyone stared at the flying magic treasure in his hand.

Omi threw the flying weapon directly at the Martial Forest Master.

The Martial Forest Master immediately greeted it and caught it, while at the same time, where the other sects were willing, they also rushed up to grab it.

For a moment, the scene was chaotic as all the sects fought.

By the time the Martial Alliance Master completely snatched the flying machine a few minutes later, the flying machine was already shattered.

The alliance master grabbed the flying machine and bellowed, "Whoever dares to come back up, don't blame me."

This roar made the rest of the sects not dare to come up again, and now that the flying machine was completely in the hands of the alliance master, the likelihood of trying to snatch it again was too low.

The alliance master this

Only then did he pick up the flying device in his hand and saw several cuts broken.

The ally was annoyed, Omi had said that this flying magic treasure must not be broken in any way, and now that several cuts were broken, there was no telling what would happen.

The rest of them also saw the gaping holes, but the rest of them thought differently, they hoped that the flying magic treasure was scrapped, and since they couldn't get it, no one should have it.

The ally carried the flying magic treasure on his shoulder, and in full view of everyone, he carefully pressed the start button.

"Swoosh."The flying machine sent the ally into the sky in the blink of an eye.

"Wow."The ally was stunned, he felt like blinking and he was lying on a cloud, so high, so high from the ground, he was standing so high for the first time in his life, and the ally had apparently forgotten Omi's words, that the flight direction controlled itself. When the ally rushed onto the cloud, he was so excited that he forgot to control the direction, as a result, but his body flew higher and higher, so high that it was far above the white clouds.

At this time, the ally felt the air became thin, and the clouds were going very, very down below, breathing a bit smoothly.

In a panic, the ally pressed the start button, which turned off the engine.

So the ally's body began to fall again in an emergency.

"Ahhhh."The ally shrieked as he fell to the ground.

His first time using a high-tech product, his hands and feet were too busy to know what to do.

Just as the ally felt like he was about to fall to the ground when his body was falling very fast, his hands hurriedly pressed at the start button again.

As a result, the ally, because this time his body was upright, was propelled by a tremendous pushing force, clamoring to propel the ally for the front.

However, thousands of meters ahead happened to be a cliff of the Yanshan School.

"Ah."The ally was scared silly, in a rush, he simply forgot to change direction, subconsciously unfastened the buckle of the aircraft, the body of the ally's good aircraft separated at once, and this time, also has crashed into the cliff rock wall.

"Bang."The flying machine crashed into the cliff, and the ally, although the clasp was undone in a thousand moments, but because of the strong inertia, his body also crashed into the stone wall, and the ally's entire body crashed into the pit of the stone wall, living and dying.

Not long after, the people from the other sects who had been observing from the ground rushed over.

"Ally Master, Ally Master."

When everyone saw the crash of the flying machine, they were both sorry and happy, sorry that such a good flying treasure was destroyed, and happy that everyone didn't get it.

The ally was buckled off the stone wall and was already unconscious, everyone rushed to help save the ally and finally held onto one of the ally's lives.

However, everyone knew that the life of the ally master was saved, but the person, I'm afraid, was completely useless, everyone was sorry on the surface, but inside they felt quite happy, this is the end of trying to monopolize ah.

Song Dingtian, the head of the Divine Dragon Sect, also had a strange expression at the moment, there was a feeling that could not be explained.

Omi, at this moment, had already left the Inkstone Mountain Sect.

After throwing the flying machine to the ally, Omi immediately ran away while everyone was fighting chaotically, so he didn't know everything that happened to the ally after that. Anyway, after the people in the Jianghu learned that he had given the flying machine to the ally, they wouldn't come looking for him, and he could clear his mind and study the martial arts.

However, Omi would never have thought to his death that the ally would find an air crash while flying and end up barely saving his breath, but it had been completely ruined.
