

King of kings 1266–1270

1266

After Omi shot the man to death, he immediately used the corpse-cleaning water to remove the traces, then evacuated to a distant location.

After waiting like this for a few more days, the deadline was approaching, and I'm sure the strongest people from various other sects had already arrived. Thus, Omi entered the Soup Mountain School again with Mu Yihao, and Samira returned to the Endless Gate, this was to reduce unnecessary trouble.

"Boneless Senior."

"Wind Light Cloud, when did you come."

As soon as he entered the city at the foot of the Soup Mountain Sect, Omi ran into Elder Boneless.

"I've just arrived as well."

"Don't you have a black jiao as a flying tool? Why it's only just arrived too."

"Oh, Black Jiao was sick and didn't bring it." Omi smiled.

Bony Senior no longer asked so many questions.

"Senior Bone Free, when are you going to go up to the mountain?"

"I don't know," Boneless said. Remember to read the book in one second

"You're the strongest person in the entire Jianghu, so everyone is looking at you."

Bony snorted, "Don't you know that the group of people who came from the mountain had the strongest people in the Dengfeng realm? I count ass."

"Oh, now that it's happened, let's go up."

"Let's go." The boneless old man said with a hard scalp.

Omi and Bony Old Man flew up to the Soup Mountain Sect together.

In the main hall of the Soup Mountain Sect, there was a group of people living there, and the people of the Soup Mountain Sect who hadn't been killed yet were serving the group like servants.

"Stop." After Omi and Boneless flew up, there were immediately several Ancestor Perfectionists who stopped them.

"What for?"

Boneless said, "Didn't you say, 'Let the leaders of the various schools and sects come here?'"

"What sect are you from?"

"Mojo."

"What about you?"

"The Endless Gate." Don Omi said.

"Go in."

Omi and Boneless walked inside the main hall.

Omi took a look, there was a group of people kneeling in the main hall, old man Wang Rufang, as well as some other sects' grand masters, even Liu Xuan of the Divine Dragon Sect and old witch Wang Yang, had arrived and were kneeling in the main hall, other than that, no one else was seen.

As soon as Omi and Bony Old Man entered, Liu Xuan of the Divine Dragon School said, "Senior Bonyless, Windy Cloud, kneel down quickly."

Boneless's eyebrows furrowed, "Why kneel, where is that group of people? Didn't I say that there is a peak-denying powerhouse, why is it missing?"

"Quickly kneel down." Liu Xuan shouted.

The boneless old man snorted, "I won't kneel."

At this moment, a voice suddenly came from the side of the palace, "You're not kneeling? Then go to hell."

Old Man Bony turned his head in a panic, but before he could see who that person was, Old Man Bony's head rolled off the ground, too strong, not even on the same level, Old Man Bony, the strongest Ancestor Grand Perfection, didn't even have a chance to see the other person's appearance in front of the Peak Ascension Realm.

"Ah." The Bony Old Man's head rolled right under Omi's feet, the Bony Old Man's eyes were still wide open and his mouth smashed and moved a few times, obviously not completely dead yet.

Omi felt a chill on his body, and when he looked up, a man's eyes pressed right into Omi's and asked, "Aren't you going to kneel too?"

Before Omi could speak, Mu pressed Omi violently, Omi also kneeled down helplessly, if he hesitated for a second, Omi's head would also roll to the ground, someone as strong as the boneless old man would have to die, not to mention Omi.

Everyone kneeling in the palace was pale, no one dared to breathe loudly, and the entire air of the palace exuded a palpable pressure.

That strong man sat down on a chair above the main hall, swept a glance at the group of people kneeling in the main hall, and asked, "Which other sects have not come?"

Everyone looked at each other as if there were still a few sect leaders who hadn't come.

"Still, there are a few more." The strongest one kneeling at the front of the group said.

"Fine, then you can continue kneeling until all the sect leaders come together, and if anyone dares to get up, you know the result." After saying that, that man left again through the side door of the main hall.

Once that man left, all of them were relieved, as if the oppressive boulders on their bodies had disappeared.

However, no one dared to stand up.

At this moment, Omi's face was also very white.

Omi was filled with anger, not expecting to be insulted in such a way as soon as he went up the mountain, and right now, the head of the boneless old man was still rolling peacefully at Omi's side, which seemed to remind Omi not to act rashly.

"Fuck." Omi cursed.

"Shh, don't be loud." The Muyoung beside him was busy.

Omi really wanted to get mad at the moment, but what could he get mad about when even the boneless old man died in seconds.

"Is it, really, just kneel down? All of you here are in the Jianghu, the ancestors of various schools, how can you endure such humiliation." Omi said.

An old man kneeling in front of Omi snorted, "Present?Whoever is seated is clearly kneeling."

"Senior, if the leaders of the few remaining sects never come, do they keep kneeling?"Don Omi said.

"Or what? Don't you dare get up!Even Boneless is dead, who dares to get up, it's better to put down all dignity in front of the strong.Wind Lightning, you're young and full of promise, it's a pity that you're dead, but it doesn't matter if we're dead, we won't be able to advance to the Dengfeng realm anyway, and the big day will not be long."

"Yes, Wind Lightning, you are so young, you are the most promising, you'd better endure, if we all die, we'll expect you to avenge us in the future, if possible."

Omi gritted his teeth and said, "I will definitely take revenge."

Just at this moment, an old man of great mastery came in from outside, not knowing which sect's ancestor he was.

"You guys?"As soon as that old man entered the main hall, he was shocked to see kneeling in the main hall, strong men from various sects.

"Black pupil, kneel down quickly."One of the kneeling old man reminded.

"What, what's going on here?"

"It's too late if you don't kneel down, the boneless old man was just a second too late and ended up dead."

The old man called Black Pupil immediately saw the ground, the skull of the boneless old man.

"Ah."Black Pupil's face went white.

"Swoosh."Just at that moment, a blade flashed.

"Knock."The old man who had just entered this, called Black Pupil, his head rolled off.

The crowd sighed, it was too late to tell him to kneel down quickly, he was still there in a daze and ended up dead.

The old man called Black Pupil, after his head rolled off the ground, rolled and rolled, and came back to Omi's side.

"I'll go."Omi was depressed, rolling the head of the boneless old man on his left, and then another one on his right, two heads rolling on his left and right sides.

Although Black Pupil was dead, the hall didn't see the strong man from the peak-denying realm who had just walked in.

Everyone was still kneeling there, and no one dared to get up.

1267

To that group of people, anyone in this Jianghu was just like chickens, ducks, cows and sheep that could be slaughtered indiscriminately, so no one dared to take their own lives seriously.

After about two hours, a man suddenly walked in outside the main hall, this man was about thirty years old.

The clothes this man wore were noble.

"Yoho, still kneeling." After that man walked in, he teased the crowd a bit, and then, that man walked to the front.

The man who was kneeling at the front right now was the old man, Wang Rufang.

That thirty-something year old man sat on Wang Rufang's back on his butt like he was riding a horse.

"You." Wang Rufang was furious, who could stand to be insulted like this.

However, that man sneered, "What, I still can't do your back? Do you know who I am? Let me tell you, my name is Yuan Linghua, that peak-denying realm powerhouse just now is my father, hahaha."

It turned out that this man in his thirties was the son of that peak-denying realm powerhouse, Yuan Jie, no wonder he was so arrogant, he had a peak-denying realm father.

That man called Yuan Linghua, his own realm, he was only at the early stage of the Ancestor Realm, in this hall, he was considered super weak, even the weakest one, Mu, was a complete Ancestor, but unfortunately, he had a Dengfeng Realm father.

That man called Yuan Linghua, probably because Wang Rufang's back is all bones, sitting uncomfortable, stood up, humming, "An old bone, still not going to die, damn, diaphragm of my butt hurts." First URL m.kanshu8.net

After saying that, Yuan Linghua walked away from the side door of the main hall.

Wang Rufang's body trembled with anger, but he was Wang Rufang ah, in the Jianghu, what a position that was, this Jianghu Conference, he was the strongest person who had defeated the boneless old man ah, at this moment he was actually humiliated here.

Thinking of this, Wang Rufang stood up.

“Senior Wang Rufang, why are you standing up, quickly kneel down.” Everyone was busy advising.

Wang Rufang said, “Everyone, I’m sorry, I won’t take this insult, anyway, my big day is approaching, if I die, it will be as if I’ve reached my big day earlier.”

Omi also stood up at once and said, “Senior everyone, the more we are afraid of death, the more they will bully us, everyone stand up, have the guts to kill us all, they summoned us here for the purpose of getting us to help them with their business, I don’t believe they would dare to kill us all, kill us who will work for them, everyone stand up.”

After that, everyone stood up.

At that moment, everyone suddenly felt a strong pressure, and the man who had just reached the peak realm walked in.

“Who told you to stand up?”

Wang Rufang huffed, “I let it.”

“Are you looking for death?”

“Hahaha, yes, I’m looking for death, my great day is near, am I still afraid of death?” Rufus Wang sneered.

“You.”

The rest of the old men were also busy saying, “Yes, our big day is almost up, so what’s the harm in dying, you have the guts to kill us all.”

The man in the Dengfeng realm laughed, “A bunch of useless trash, only Ancestor Grand Perfection, and you’re already nearing your big day, how pathetic. Just as well, I won’t torment you anymore, I have something I need your help with now, if I can’t do it right, I will exterminate all the clans in the entire continent, if I do it right, I can spare you poor natives.”

“Humph.”

“Anyone who dares to grunt again, I will immediately send someone to exterminate him

of the clan, you can be afraid of death, I don’t believe that your clan can be afraid of death as well.”

Everyone didn’t dare to speak anymore, even Wang Rufang didn’t speak anymore, the reason everyone came here to be humiliated was because of the clan.

"What do you want us to do for you?" An old man for.

The man in the peak realm said, "I'm looking for someone, who this person is, what's his name, I don't know, I only know that about fifty or sixty years ago, someone came from across the distant ocean, the Great Martial Empire where we are."

"You can't find it like that at all."

"Hmph, if it's so easy to find, why would I invite you here, you give me one by one, pour out the power of the entire river, I don't believe I can't find a single child who came here fifty years ago."

"At least tell us what characteristics the person you're looking for has," Liu Xuan of the Divine Dragon Sect said.

Omi was a bit nervous at the moment, Omi was very clear that the person they were looking for was him, nine times out of ten, if they were to know that the person they were looking for was standing right in front of them, then Omi, today, already had a chance of dying, maybe not right away, but definitely he would be captured, and after he was captured, needless to say, he would definitely be dead, and they would have to cut off the root of the problem.

Omi tried his best to act calm and not let that peak-denying powerhouse see anything, but fortunately he was standing at the end.

"There aren't any characteristics, the only thing that can be confirmed is that that person, now between fifty and sixty years old, if nothing else, that person should not be weak in martial arts, and his talent must be stronger than the average person, after all, he is a famous general. That's all the information I can provide."

"Martial skills aren't weak? Strong talent." Everyone suddenly thought of a person, Omi.

Omi was now breaking out in cold sweat, and although he didn't have any features to offer, being only fifty or sixty years old, his talent for martial arts wasn't weak, which made people think of him.

Several people in the palace thought of Omi, but no one spoke for a moment.

If it was really Omi, then Omi would definitely not be able to escape today.

"Alright, you guys can go now, remember, you only have half a month, after half a month I want you to bring me the person I'm looking for, otherwise, you know, get out."

Everyone panicked and went to the main hall and quickly went down the mountain.

Omi also immediately flew away.

Arriving at the bottom of the mountain, Mu said, "Omi, it looks like we can't stay here for long, it's easy for people to think of you, after all, your performance at the Jiang Hu Conference, everyone saw it, you have such achievements at such a young age, it fits with the person they are looking for. Although I know that you're definitely not the person they're looking for, but what if they'd rather kill the wrong person than let go."

Omi said, "Let's go back to the Endless Gate first."

At that moment, behind him, Rufang Wang shouted, "Young Master Feng, please wait a moment."

"Senior Wang Rufang, what is it?"

Wang Rufang said, "Young Master Feng, can you tell me if the person they are looking for is you? I'm sorry, it's because you're so outstanding that we thought of you in the first place."

Omi said, "How could it be me, if it was me, why would I be foolish enough to come here, I would have left already."

"That's right."

"Senior Wang Rufang, then we'll go back first, I'll be sure to look for you in my jurisdiction."

"Good."

Omi and Muyoung left the range of the Tang Mountain School in flames and went back to the Endless Gate.

1268

Half a day later, Omi returned to the Endless Gate.

"Windy, how's the situation?" Omi's teacher's wife was busy asking.

"Sensei, the situation isn't too good, that group of people really did come looking for someone, saying that they are some kind of leaky fish, if nothing else, they must be looking for me."

"Ah, what then?"

"I'm sure that in the end, when push comes to shove, someone will report it to them, and I'm someone who fits their requirements perfectly. It's fortunate that they didn't ask around on their own when they came to this continent, or else they would have already come to us."

"Then hurry up and think of something, if it doesn't work, we'll have to run first, we have Little Black and Little Fire anyway, they won't be able to catch up." The teacher's wife said.

"It's no use, they have more than a dozen black jiao, and they're bigger and definitely faster than Little Black, and with so many of them, there's no escape for us."

"Ah, wouldn't that be the end of it, decades ago, your parents, both parents, fought so hard to put you in a box and cross the ocean to come here to save your life, and now, they're coming to us."

Omi gritted his teeth, now Omi's biggest worry was the Endless Gate, if he had known that, he hadn't bothered to set up the Endless Gate in the first place, once it happened, it would definitely harm the Endless Gate.

The teacher's wife said, "Disband the Endless Gate before they find out it's you."

"Disband it, easy to say, with so many people, disbanding it would definitely cause a stir in the rivers and lakes, isn't this more suspicious." Remember the URL .kanshu8.net

"If you don't disband, according to you, sooner or later someone will come to your door, and by then they'll slaughter the Endless Gate clean."

Omi thought about it for a long time, he thought he could start living a stable life for a while, who knew that the enemies were coming and were in a very passive state.

Omi gathered all his family and friends together for a meeting.

Omi said to everyone, "Everyone, I'm sure many of you still don't know what's going on, I'll start by saying something about my identity, actually, I wasn't born into this continent, I was."

Yan Xinyi interrupted Omi and said, "It's better for me to say it."

Yan Xinyi told everyone everything about the incident that picked up Omi in the first place.

Mu was shocked and said, "Oh my god, so that group of people from the Tangshan School, what they are looking for, is you?"

Omi nodded his head, "Not entirely sure, but I think it's pretty close, these bastards must be the ones who killed my parents, but I was only two or three years old when they killed my parents, they didn't know I existed, that's why I got away with it, but there's no impermeable wall in the world, now they still know I exist, I should be the only fish that escaped. The purpose of coming here this time is to find me, the fish of omission, back then my master, nine times out of ten, also lost his life because of this."

"Ah, gosh, it's over." Everyone's face changed, I never thought that Omi was hiding such a big secret of his life, Omi hardly told anyone about this, only a few people knew about it.

Yan Xinyi said, "Now no one knows about this matter except you guys, when Ding Ru and I discovered Feng'er, we never told anyone, except for Song Dingtian who stumbled upon it, but Song Dingtian is already dead."

Muyou said, "But Wind Lightning is so famous now, a sensation, sooner or later they will focus their attention on Wind Lightning, I

We must prepare for this early."

Simran said, "However, if we think that Omi is the one they are looking for, surely the entire Jianghu will be looking for him, there is nowhere for us to hide, and with so many of them and so many black jiao, where can we escape to."

Everyone was silent for a moment.

Omi said, "Things have come to this, we have no other way out, there are only two paths."

"Which two paths?"

"First, let them not suspect me; second, disband the Endless Gate and escape as soon as possible."

"If it's possible to avoid suspicion, that's certainly best, but how do you keep them from suspecting you?"

Omi thought about it and asked his teacher's wife, "Teacher's wife, was that chest still there when you first found me?"

"In."

"Where is it?"

"In the Divine Dragon Sect, we hid it in the beginning."

Omi said, "If I want them not to suspect me, then it must be with the help of this thing, we get this chest back, and then notify the major factions, and make up a story, let's say that a commoner living by the sea found this chest, but unfortunately, the child inside the chest has died, I think it will be more convincing, after all, that chestIt can be proven to be something from across the distant ocean."

Mu nodded and said, "That's an idea that we can try, but what if we find a random fisherman to pose as the person who found the chest, but what if the other party uses mesmerism?"

: "I have an idea, let's find a pair of children's skeletons and pretend we found this chest, and the skeletons in the chest are the ones they are looking for, that way, death is no guarantee."

"Haha, pretty good idea, I'm not sure if it will work, but we can give it a try, if we can really fool them, then Omi will be safe for now, and we'll have more time to deal with it. After all, at this stage, we can't deal with this kind of enemy no matter what."

Omi said, "Then me and my aunt, we'll immediately go back to the Divine Dragon School, retrieve that chest, then find other sects and we'll all send the chest up to the Tangshan School."

"Why do we need to find other sects to send it up together?"

"This is to make all the other major factions think they've found it too, so don't let them draw attention to me."

Omi and Shizun immediately set off on their journey, and made their way to the Divine Dragon Sect in a few hours.

However, both Liu Xuan and Old Witch Wang Yang of the Divine Dragon Sect had yet to return from the Tang Mountain Sect, and they did not have the means to travel as fast as Little Fire and Little Black.

The teacher's wife found that and box in a hidden cave, inside the box, all the clothes that Omi wore in the beginning were still there, I don't know what kind of fabric they were made of, they are still not completely rotten, of course, that letter, Omi also saw it, the handwriting was very beautiful, it looked like it was written by a woman.

Omi looked at the letter, tears flowed down his face, this letter, it was definitely written by his mother, but unfortunately, Omi didn't even know what his mother looked like, perhaps, his mother was not as old as the current Omi when she wrote this letter.

"Mother, I will definitely take revenge for you." Omi gritted his teeth.

"Feng'er, don't be sad, to take revenge, you must first let yourself live, the enemy is too powerful, we can only take it one step at a time."

1269

"I understand, let's go, we're going to find the bones of a three or four year old child now."

"Well, it's just a pity that you can't preserve the clothes that you wore as a child."

Omi looked at the clothes, which were more than two-thirds rotten, and said, "Forget it, it's already rotten like this."

Omi soon found the bones of a child of about three or four years old in a local Yi Zhuang.

After Omi's disguise, it looked quite decent now.

Omi then headed straight for the Yanshan School, and also sent people to inform the other major factions that they should immediately go to the Yanshan School, which had a clue.

The reason why Omi went to the Inkstone Sect was because, Omi wanted Wang Rufang to handle the matter.

Omi rushed to the Yanshan Sect, but unfortunately, Wang Rufang had not yet returned from the Yanshan Sect, and not having quick transportation was trouble.

Omi waited in the Yanshan Sect for a few days before Wang Rufang finally returned.

"Senior Wang Rufang."

"Uh, Wind Lightning, why are you in my Inkstone Mountain Sect?" Wang Rufang's eyebrows furrowed, as he had the impression that only a few days ago, each returned from the Tangshan School. A second to remember to read the book

Omi said, "I possess a very fast ride, I've been to several places, Senior Wang Rufang, I'm looking for you because, I've found some clues about what those people are looking for."

"What, what did you find?"

Omi said, "Please senior follow me."

Omi brought Wang Rufang to an inn, and in front of Wang Rufang, moved out that box and opened it.

"What is this?"

Omi said, "I'm not sure, this box is absolutely no one in this continent of ours can make it."

Wang Rufang touched the box and said, "Indeed, this is a very, very clever mechanism box, we don't have such a clever mechanism master in this continent, where did this come from, and also, why is there a child's bone inside?"

Omi said, "It doesn't matter how you found it, what's important is this letter, you can read it."

Omi showed the letter to Wang Rufang.

“Senior Wang Rufang, do you think it could be what that group of people are looking for? I don’t dare to go up to the Tang Mountain School by myself to hand it over to them, so I’ve come to find you, you are after all the strongest person in the Jiang Hu, I can only leave it to you, of course, before I came here, I’ve also sent someone to notify the other sects so that they can come here and focus.”

Wang Rufang said, “Wind Lightning, you’ve worked hard, if this is really what they’re looking for, then you’ve really saved the entire Jianghu.”

“You think, is it really what they are looking for?”

“I think it’s nine times out of ten, the box, and the letter.”

“That’s wonderful.”

“Now let’s wait for the other major factions to come and send this up to Tangshan together.”

Omi requested, “Senior Wang Rufang, when the major factions come, please don’t say that I found this thing, okay?”

“Sure. I don’t have long to live anyway, I don’t care if I live or die, so I’ll say I found it.”

“Thanks.”

Omi and his wife waited for about seven or eight days at the Yanshan School, and after receiving the news, all the major factions came to the Yanshan School to find Wang Rufang.

“Wang Rufang, you had someone send a letter to say that you have a clue, where is the clue?”

When the various factions came, they pursued Wang Rufang.

Wang Rufang set out that box.

Wang Rufang said, “When everyone is here, let’s send this up to Tang Mountain together.”

A few days later, Omi and Wang Rufang, as well as the other major sects’ Ancestor Great Perfection level powerhouses, brought the box together and rushed to the location of the Tangshan School.

After arriving at the Tangshan School, Omi said, “Senior, I won’t accompany you to the mountain, so you can send the box up.”

“Wind Lightning, why don’t you go, you are the top leader of the Endless Gate.” An old man said.

"Oh, please forgive me seniors, I am still young after all, what if that group of people on the mountain see something found and fall down, so I'd rather not go up there."

Everyone didn't say anything, after all, Omi was the youngest, in case of death was the most unjust, while they were all old bones, death as an early deadline.

Wang Rufang brought the box and walked into the Tang Shan Sect's main hall.

That Dengfeng realm powerhouse had already seen it and was waiting in the main hall.

"Everyone, have you found the person I want?"

Everyone was trembling with fear, not daring to speak.

Rufus Wang said, "People didn't find it, because they really couldn't, but, having found this, I don't know if it's what you're looking for."

"A box? Are you guys playing games with me?" That Dengfeng realm powerhouse snorted.

"This box, is a very precise and wonderful mechanism box, in this Jianghu of ours, no one has made it at all, you might as well take a look at what's inside the box first."

"Open the box."

Wang Rufang opened the box.

In the palace, including that Dengfeng realm powerhouse, more than a dozen people gathered together to look.

"A pair of rotting child bones? What the hell is this?"

"Hey, guys, look at the clothes on this kid, there's a totem mark on this shirt."

"This is, this is, their totem."

That Dengfeng realm powerhouse also frowned, this totem, he knew it.

"Boss, look, underneath this chest, there's also a marker, it's a machine treasure chest forged by the Crow Wolf Narra of the Crow Wolf Clan, this wolf head marker is representative of his work."

A group of people gathered around the chest to discuss.

Wang Rufang and the others stood quietly at the entrance of the main hall, they all hoped that this was really what they were looking for, and then they would turn in from there.

“Boss, this machine treasure chest, which is specially used for storing living things at sea, will not sink to the bottom of the sea under normal circumstances, and will not enter seawater under the premise that air is guaranteed to enter the chest. According to this situation, it seems that they should have put that remnant, who was only a few years old, into this box and thrown it into the sea, but they didn’t expect that it would take too long and that remnant would end up dying in the organ treasure box.”

The man in the Dengfeng realm half-heartedly said, “Is that really the case?”

“From the traces of this chest, like this, I think, it should be true, these natives, can’t even get this kind of chest, and the clothes inside the chest, the patterns on the clothes, all represent meaning, how would these natives understand.”

The man in the Dengfeng realm thought for a moment, nodded, and laughed, “It seems that it is indeed so, hahaha, I thought that remnant was really alive, but I didn’t expect that it had already turned into a corpse, not in vain I came here. Someone, pack up this chest and take it with you when you go back, it should prove that the remnant is dead, so that the higher-ups don’t have any worries.”

1270

Wang Rufang and the others were also completely relieved, it was really what they were looking for.

Wang Rufang said, “Can we go now?”

The Peak Climbing Realm man looked at them and grunted, “A bunch of pathetic old bones, I’m sure they won’t live long, it’s just that I’m in a good mood today, so get out.”

Wang Rufang and the others immediately exited the main hall, everyone was completely relieved, finally, this matter was over, otherwise, all the sects in the entire Jianghu would have been bleeding to death.

“Wind Lightning, it’s over, you can go back, I’m sure those people on the mountain will leave soon.” Wang Rufang arrived at the bottom of the mountain and said to Omi.

“Good.” Omi was also relieved.

However, Omi always had a sense of reluctance within him.

“Wait for me, one day, I will find you.” Omi said in his heart.

"Now it seems that I can't stay at the Endless Gate every day, I have to go out more, staying in the Endless Gate every day in closed-door cultivation is not very productive at all, even if there are opportunities, then I have to go out to get them, opportunities are for people who are not afraid of hard work and death and are happy to run around."

Omi had already decided within himself to set sail once again after this incident.

"Senior Wang Rufang." First URL m.kanshu8.net

"Wind Light Cloud, what else do you want."

"Senior Wang Rufang, I wonder if you are interested in going to sea with me." Omi asked.

"Go to sea? Where to?"

"Oh, if people from across the distant ocean can come to us, then why can't we go to them? I think that in that place, there might be different opportunities that might even give you a chance to step into the Peak Ascension. Chance is something you search for and discover on your own, not something that comes to you." Omi said.

Wang Rufang's eyes gleamed and nodded, "Yes, perhaps there are new opportunities across the distant ocean to help me transcend my ancestors, but how can we get through this boundless ocean, throughout the ages, there have been many people who wanted to cross this ocean and travel to distant places to find opportunities. In the past, the previous ancestors of the Divine Dragon School also crossed the ocean to the other side of the sea, but nowadays, there is no news of them long ago, and perhaps they are all dead."

Omi smiled, in the past, one of the Divine Dragon Sect's ancestors, after reaching the Grand Master's Perfection, went out to the sea not long before the great limit to find a new chance, and there was no news from then on, this matter, Omi heard from his master and master's wife when he was still young.

Omi said, "Senior Wang Rufang, instead of waiting here to die, why don't you go and expose yourself, besides, in the past, when people went out to the sea to look for opportunities, it was relying on traditional ships, huge oceans, and ships were simply difficult to cross. And now if you're willing to go on an adventure with me, I have the Black Jiao and Fire Demon Beast to assist me, so my speed is naturally extraordinary, and besides, I have dozens of flying machines, so crossing the ocean is no problem at all."

"Really?"

"More true than pearls."

"Good, Wind Lightning, then the old man will go with you, I have always thought that you are a person with great opportunities, otherwise it would be difficult for you to step into the Master Perfection in your fifties." Wang Rufang said.

Omi laughed to himself, "A clan master's perfection, nowadays, in front of those at the Dengfeng realm, it's only fart, my goal, to surpass the clan master and step into the Dengfeng."

"Hehe, the tone is big, but there is motivation only when there is a goal, in that case, I won't go back to the Ink Mountain Sect anymore, I'll go with you now." Wang Ru.

Fang said, "Indeed, there's no point in him going back to the Yanshan Sect except to wait for death."

"Good, then come back to the Endless Gate with me first."

At that moment, two old men flew in not far away, it was the Divine Dragon Sect's Ancestor Liu Xuan, and Old Witch Wang Yang.

Ancestral Master Liu Xuan seemed to have heard something and smiled, "Senior Wang Rufang, Wind Lightning, are you guys going somewhere?"

Omi said, "I don't need to report to you where I'm going, right."

"Oh, of course I don't need to, but I just heard Wang Rufang say that he's not returning to the Yanshan Sect and is ready to go with you, what is so attractive that Wang Rufang won't return to the Yanshan Sect to sit in town, and without a Grandmaster to sit in town, he's not afraid of any accidents happening to the sect?"

Wang Rufang snorted, "Ridiculous sitting, how many people, sit in the sect every day, just for the sake of the sect, but I no longer want to sacrifice my time for the sake of the sect, I don't care if something will happen to the Yanshan Sect, from today onwards, I will continue to fight for myself, upwards, although surpassing the sect, sounds incomparably shameful, but if I don't fight a little, how knowing that there is no possibility."

Liu Xuan and Wang Yang both thought that it was a big joke for Wang Rufang to try to surpass the clan master, but they couldn't laugh because Wang Rufang's words were nothing more than the words of their hearts.

Liu Xuan asked, "Where are you guys going? Is it trying to cross the ocean? To the far side of the ocean? Just like my Master was back then?"

That's right, the one that Omi knew as a child, the one who crossed the ocean, was Liu Xuan's grandfather, a generation away from Omi.

Old Witch Wang Yang said, "With our voyage technology, Hugh can't cross the huge ocean."

"There is no need for you to worry about this, don't you know that Wind Lightning is a capable person, haha, Wind Lightning, let's go."

"Good." Omi and Wang Rufang immediately flew away together.

Liu Xuan watched them fly away.

Liu Xuan hesitated and said to Wang Yang, "Sister, you go back to the Divine Dragon School, I'm not going back."

"Senior brother, you want to go with them?"

"Wang Rufang is right, even though that dream is so unattainable, why not give it a try, I will also go out to the sea to find the chance."

"But, senior brother, back then our grandfather might have already been buried at the bottom of the sea, why do you want to let your old age be so torturous, why not enjoy your old age, this life, it's not easy to cultivate to this extent anymore, it's time to stop and rest properly, we're already old, we don't have a few years to live, why bother."

"Sister, my mind is made up, you should go back, perhaps, this is the last time we will see each other in this life."

"Senior brother." Old witch Wang Yang shouted with a cry, eternal farewell, what a painful thing, this departure of Liu Xuan may indeed be eternal farewell.

Liu Xuan flew away after Omi Wang Rufang.

Old Witch Wang Yang watched Liu Xuan's figure disappear into the sky and secretly said, "Brother, I wish you a safe journey."

Omi and Wang Rufang were about to sit on Little Fire's back when someone behind them shouted, "Wait for me."

"Wait for me."

"Uh, it's Liu Xuan, what's he following for."

Omi had already figured out that it must be Liu Xuan who wanted to follow Omi as well.
