After everyone had received their Determining Talismans, Vice Patriarch Bai Ming shouted, "Everyone, when I give the order later, everyone will immediately enter the Desolate Beast Forest from here, and keep going until you get out of the Desolate Beast Forest. As you go through the Desolate Beast Forest, the farther you go in, the more powerful the desolate beasts you will encounter, you must do what you can, and when you can't win, quickly use the Immobilizing Charm to retreat, or else you will suffer the consequences."

"One, two, three, start."

After Vice Patriarch Bai Ming shouted start, all the teenagers rushed into the Desolate Beast Forest.

Omi was no exception.

Omi said inwardly, "I must reach the exit as fast as possible and become the first in the assessment."

So, Omi's legs ran quickly, and among everyone, Omi was almost in the lead.

Everyone was a bit surprised when they saw Omi running so fast.

About four or five kilometers into the Desolate Beast Forest, the large group of people that had just poured in had gradually dispersed, and Omi didn't know if he was the leader.

At this moment, on a tree hundreds of meters high in the Desolate Beast Forest, a man was standing on the tip of the tree, overlooking the Desolate Beast Forest.

He clearly saw a group of people pouring into the Desolate Beast Forest, however, his gaze was locked on only one person, Omi.

That man's gaze moved with Omi, and four to five kilometers after Omi entered the Desolate Beast Forest, the man landed on the ground from a tree several hundred meters high, then headed straight for Omi. Remember the URL .kanshu8.net

Omi was being stopped by a magical beast.

"Roar." The magical beast roared at Omi.

Omi didn't even think about it and charged straight towards the beast.

"Bang." Omi punched that beast's head, and with a bang, the beast's head exploded.

With Omi's strength at the fourth stage of Body Tempering, there wasn't any magical beast here that was a match for Omi, who completely crushed it.

Omi also didn't know how strong the beast was.

After Omi smashed the beast's skull, Omi saw a reddish, green bean-sized crystal.

"Hm?What's this?" Omi was a bit strange.

It looked quite beautiful, Omi didn't think so much and put that crystal away, giving it back to Tang Huan, girls should like diamonds.

Omi actually thought of the magic core as a diamond.

Then, Omi continued to move forward, he couldn't be blocked by any magical beasts.

Omi ran forward for hundreds of meters and suddenly saw an adult man in the forest ahead blocking the way.

"Where else to run, Omi." The man looked at Omi with a cold snort.

Omi felt a powerful killing aura.

"No good, this is a strong man whose realm far exceeds mine." With a shock, Omi felt his killing aura and the pores on his body unconsciously expanded. Omi, through the other party's Qi, and then based on his own Qi, roughly judged that the other party should be a person at the sixth to seventh stage of Body Refining. Two or three realms more than Omi, no wonder he looked so powerful, in the cultivation world, the difference between a realm was as if it was heaven and earth.

"Who are you?" Omi asked.

"Hahaha, well, so what if I tell you when I'm dying, my name is Tang Go Bing."

"Don Go Bing? Are you the son of that turtle bastard Tong Hu Lai?" Don Omi.

"You.

Say what?" Tang Go Bing saw Omi call his father a Turtle Bastard and yelled.

"What? You're not happy when I say your father is a turtle bastard?" Omi snorted.

"Omi, good, good, I'll let you be arrogant before I die, you'll know when I break your neck."

"Haha, ridiculous, what can you do to kill me, a seventh stage body refiner."

"How ignorant indeed, no wonder you became a laughingstock in the Flying Cloud Sect before you even entered it, it's easy for me, a seventh stage of Body Tempering to kill you, a first stage of Body Tempering." Tang Go Bing said disdainfully.

Omi said, "Really, are you sure I'm a first stage of Body Tempering?"

"Doesn't it?"

"Then you watch." Saying that, the Immortal Qi in Omi's body was no longer hidden and directly released the Qi of the Fourth Stage of Body Refining.

"What." Tang Go Bing was shocked, he had roughly judged that Omi was at the fourth stage of Body Tempering through his Qi at the moment.

"You."

"Hahaha, that's right, I'm not at the first stage of Body Tempering, I'm at the fourth stage of Body Tempering." Omi said.

"This, how is this possible, you're only twelve years old, how can you be at the fourth stage of Body Refining."

"Hmph, there are many things you don't know in the world, but you won't have the chance to find out because, I will send you to hell." Omi's gaze chilled.

"Hahaha, send me to hell? Omi, even though you're at the 4th level of Body Tempering, do you think you're my opponent? For me, it's easy for me to kill you no matter how many stages of Body Tempering you are. Since you're at the fourth stage of Body Tempering, it's all the more important for me to eliminate you before it's too late." Tang Go Bing let out a full body killing aura.

Omi took out a sharp blade behind his back, always ready. This world didn't have swords because it wasn't the time for martial arts, and Omi hadn't started learning spells yet, but this blade was still something Omi had a hard time getting.

"Die." Tang Go Bing's mouth shouted, then he killed Omi with a fist, his fist technique looked peculiar, and it was worlds apart from the kind of fist technique refined by people in the mortal world. It seemed particularly profound, and it also came with a dizzying function.

Omi exercised his old body technique and fought against the Spiritual Realm for the first time.

A very powerful force in Tang Go Bing's body, Omi felt that his current strength was still unable to resist Tang Go Bing's power, as if Tang Go Bing's strength was that of a cow, while Omi's was still only that of a cat, the difference was too great.

Therefore, Omi didn't dare to confront Tang Go Bing, or else he would surely die with a single punch.

Omi flinched violently just as Tang Go Bing's punch killed Omi.

With his Mortal Realm lightness as well as his combat experience, Omi didn't let Tang Go Bing kill him with a single punch.

After Omi dodged Tang Go Bing's punch, the knife in his hand quickly circled like a fire snake, and with a swoosh, Omi's knife slashed Tang Go Bing's wrist.

After Omi cut Tang Go Bing, he quickly rolled on the ground tens of meters behind him, facing someone with so much more strength than him, Omi must always keep his distance.

Tang Go Bing busily turned around and looked at his wrist, but he had been cut by Omi's knife.

"What?" Omi was shocked when he saw that there was no blood on Tang Go Bing's hand, only a mark.

Tang Go Bing snorted, "Not bad, Omi, so agile at such a young age. Unfortunately, the more you amaze me, the more I will behead you."
