

King of kings

1608

Tang Hu Lai was cut down by Omi, with a single sword.

The entire palace was silent.

Omi looked at the two corpses on the ground, a move of the Flame Palm, incinerated cleanly, of course, the Flame Palm is too low level, only dead can burn, not dead probably can not burn.

Omi swept his eyes over the crowd and said, "Everyone, from now on, I am the Tang Family's head, Tang Jingtian is the acting head of the Tang Family, any family problems are referred to the acting head to deal with, do you hear me?"

Although many people were not very comfortable, no one dared to object, so everyone nodded silently.

Omi walked out of the main hall and left.

Tang Huan and Tang Jingtian also hurriedly followed.

Only once Omi and the others left did the entire palace become hotly debated, filled with sounds of anger and rebuke, as if they had suffered such an unfair event.

Unfortunately, they were only able to force Omi's back.

Omi's three returned to Tang Jingtian's courtyard.

"Tzichen." One second to remember to read the book

"What do you have to ask me, Uncle V?"

"Too much, Omi, how did you get so strong? You're only at the first level of Open Light, huh?"

"Oh, Fifth Uncle, my true realm has reached the first stage of Heart Illumination, and Tang Huan's true realm has also reached the first stage of Heart Illumination."

"What? How is that possible?"

"We're just hiding it, otherwise, it's not good to be too ostentatious."

"Yes, father, but I was able to ascend to the First Order of Heart Illumination thanks to my younger brother, who has a secret refining method that can very quickly refine spirit stones and transform them into realms. Moreover, my younger brother can also refine talismans, and in the Flying Cloud Sect we earned a lot of spirit stones by selling talismans before soaring all the way up to the First Order of Heart Illumination. But unfortunately, the further we go, the harder it is to rely on spirit stones to refine them, because we really can't earn that many."

Tang Jingtian heard incredulously, Tang Huan didn't know, but Tang Jingtian knew clearly that Omi had stepped into the void from the mortal realm.

Omi, a man with no background, had played around with the Flying Cloud Sect, Tang Jingtian felt truly ashamed of himself.

"Fifth Uncle, from now on, the Tang family will be managed by you, and like Tang Hu Lai, you will take over half of the family's monthly harvest for yourself."

"But."

"If a man is not for himself, the heavens will punish him." After saying that, Omi took out a few talismans and handed them to Tang Jingtian.

"This is?"

"This is a fixation talisman and an extreme speed talisman that I have refined, and it can be used up to the eighth step of heart illumination."

"Ah, such a precious talisman."

"Yes, in the world, this talisman is estimated to cost dozens of third-grade spirit stones to exchange, and it's not always for sale." Omi said.

Tang Jingtian nodded and put away the talisman Omi had given him.

Omi no longer had any extra talismans on him, the few third grade spirit stones he had left from before were used to buy talisman refining materials.

At that moment, Omi saw several red baskets in the house, along with cloth and other things.

"Hm?What's this?" Omi finished being busy.

Tang Jingtian was a little depressed, "This is Huanhuan's bridal gift."

"What? Dad, I'm getting married?" Tang Huan was shocked, her bride-price, she didn't even know she was actually getting married.

"Fifth Uncle, what exactly

Back to the matter."

Tang Jingtian said, "This is a young master of the Ancient Nun Family, knowing that our family's Huan'er has a national appearance, he wants to marry Huan'er, with the power of the Ancient Nun Family and us being a vassal family to their family, there is naturally no possibility of disagreeing, so they have sent the bride-price and are preparing to pick a day to marry."

Tang Huan said anxiously, "Father, I don't want to marry."

"Alas, the Ancient Slave Family, is our Tang Family's main family ah, how can we resist. The strongest members of the Ancient Slave Family are already at the Spiritual Harmony Stage, and there is also a senior in their family who serves as an elder in the Flying Cloud Sect, how do you think we can resist the Tang Family anymore." Tang Jingtian said with a helpless face.

Omi snorted, "If you want to marry my sister, then take your life as a bride-price, just a few boxes of gold, silver and jewels, and a few bundles of cloth, but you also dare to come and give a bride-price." Omi carried anger in his heart, as an immortal, gold, silver and jewels are not half meaningful, not to mention cloth, what immortal doesn't use things like spirit stones, magic treasures, secret methods, spirit herbs, talismans, etc. to place a bride price. Therefore, this young master of the Ancient Nun Family was practically robbed for nothing.

"Death." Omi said inwardly.

"Fifth Uncle, what's the name of that person who deludedly wants to marry Tang Huan?"

"Called Ancient Slave Seal, he graduated from the Flying Cloud Sect just last year."

"Just graduated from the Flying Cloud Sect, that means he reached the first stage of Heart Illumination."

"Yes, that Ancient Nun Seal graduated from Flying Cloud Sect at the age of forty, his talent can't be said to be very strong, but it's considered slightly good. Compare that to me, who's only at the second stage of heart illumination at two hundred years."

"Hmph, he's dead." Omi kicked the gifts in the hall into the sky.

Omi had now reached the Heart Shining Order as well, remembering that Tang Jingtian had been able to descend to the heavens, I wondered if Omi could descend as well.

"Fifth Uncle, I'm also at the Heart Illumination Order, how do I get to the Mortal Realm?" Omi asked.

"Ah, you're going to the mortal realm?"

"Yes, it's been a year since I stepped into the void, and I'd like to go back to my hometown," Omi said.

"That's easy, but it requires depleting some of your cultivation."

"How's that?"

"If you descend to the mortal world, your realm is expected to fall to the ninth step of enlightenment, are you really willing?"

"This." Omi didn't expect that it would deplete his cultivation.

"Then it's better to forget it, I'm only nostalgic for the mortal realm anyway, there's no real meaning to it. All of my relatives have long since left me, and my revisiting my old haunts will only add to my grief." Omi inwardly thought of his wife, friends, and children in the mortal realm and couldn't help but feel despondent. After stepping into the spirit world, Omi went to think of his relatives in the mortal realm for the first time.

"Omi, the past has passed, although you have only been in the Spiritual Realm for a year, it has been ten years in the Mortal Realm." Tang Jingtian consoled.

At this moment, at the door, Tang Huan was carrying a plate of tea, but her expression was stunned as she heard the incredible conversation.

"Mortal Realm?Stepping on the void?Family?What does that mean?"Tang Huan never knew that in this world, there was any mortal realm, Tang Huan only knew that the misty immortal realm existed, not knowing that there was a lower level of mortal realm.

Omi had found Tang Huan outside.

"Come in."Omi said.

Tang Huan walked into the house, his eyes looking at Omi strangely.

Omi saw Tang Huan's face and knew that Tang Huan had heard everything, so he had to sigh.In that case, Omi's career as a 'younger brother' would be over, as he couldn't pretend to be young if he knew Omi's past.
