When Omi saw that flying sword, she recognized it as the same Burial Moon Sword she had acquired in the Mortal Realm. At that time, this Buried Moon Sword was magical and transformed Omi's brothers and women who didn't have much talent for martial arts training, and in the end, they all reached the Unity Realm and the Dengfeng Realm. At that time, no one could understand why, but now, seeing that Mu Qianji was still holding that Buried Moon Sword in his hand, Omi knew that that Buried Moon Sword must be extraordinary, a flying sword filled with spiritual energy. It was even a natural flying sword, not a flying sword sacrificed by some strong man.

Two hours passed quickly, and the stone devil fruit on that stone finally matured into a white crystal-like orb that stuck to the stone, looking like it was ready to detach at any moment.

The crowd that had been guarding the boulder for many hours underneath leapt to try to attract the first falling stone devil fruit.

At this moment, Omi couldn't wait any longer.

Omi stood at a distance, and without waiting for the stone devil fruit to fall off automatically, he made the immortal qi in his body to jump in his palm, and Omi's palm was a glorious sight like a lotus flower.

To no one's surprise, as Omi made his body's Immortal Qi, all the Stone Devil Fruit on the ten pieces suddenly fell off, and then flew, or even excitedly shot towards Omi.

In the blink of an eye, all of the dozen Stone Devil Fruits voluntarily fell into Omi's palm and danced with the lotus flowers in Omi's palm.

"Ah." The crowd standing under the boulder was dumbfounded, when the stone devil fruits used to mature and fall off one by one, they had never fallen off together like this and then ran together to someone.

Omi smiled inside, his Immortal Qi was truly full of infinite attraction, and all the stone devil fruits were drawn away at once.

With a flip of his hand, Omi put all the stone devil fruits into his storage bag, at the same time, Omi quickly offered his flying sword, if he didn't escape now, what's more, Omi swooshed and stepped away with his flying sword.

"Stop, don't go." The first website m.kanshu8.net

"Chase."

The group of people under the boulder, where could Omi just take away the entire Stone Devil Fruit, sacrificed their flying swords and chased after them.

Sixty to seventy strong men, all at the lowest Vice Sovereign level, chased after Omi furiously.

Omi used his Immortal Qi to urge the flying sword, his speed was incomparably fast, the group of people behind him, there were not many people who could soon keep up with his speed, except for

those few YuanYing stage, only Mu Qianji was still able to keep up, and Mu Qianji was actually above those YuanYing stage Sovereigns.

Omi was a bit surprised, Mu Qianji's strength was clearly several levels below those YuanYing Stage Sovereigns, yet his speed was not slow at all. Worthy of being Omi's woman in the mortal realm, she was just different.

With his hands behind his back, Omi looked like he was in a leisurely mood, looking at the few people chasing after him with a slight smile and said, "You can't catch up to me, so don't waste your energy."

"Stop for me, otherwise, don't blame me for being rude." One of the YuanYing stage powerhouses roared, he had been waiting for this Stone Devil Fruit for a hundred years, and he was about to get it, but then a person appeared from nowhere and took it all away.

Omi looked at the roaring strong man and said, "Which sect master are you, speak up and I promise not to come to your door to trouble you."

"You." That strong man was furious, Omi was running while screaming that he wouldn't come to the door to beat him up, he was so angry, if he was really that capable, don't run ah.

sp;The Feiyun Sect's Sovereign also roared, "Kid, eating alone is not a good habit, I advise you to stop, let's all work together on how to share."

Omi sneered, "Sorry, I'm used to eating alone, I don't like sharing with others."

Mu Qianji's master also gritted his teeth, "Kid, you can't escape."

"Really? Then you guys will catch up and show me."

Omi's speed wasn't slow in the slightest, but it wasn't much ahead either, but it was always faster, so Omi gradually closed the distance between him and them.

At this time, Mu Qianji's master said, "Qianji, I'll get on your flying sword and we'll maneuver your flying sword together, it'll be faster."

"Good."

And so, Mu Qianji's flying sword was suddenly accelerated by the combined efforts of the two of them, puffing out.

"I'll go." Omi, frightened, also hurriedly accelerated with all his strength.

Soon, all the others were left behind, leaving only Mu Qianji and his disciples still chasing after Omi, but they seemed to be a bit weak.

Omi, on the other hand, was still full of energy.

Omi smiled and said, "What, are you running out of energy?"

"Boy, we're the only ones left now, won't you stop and share?"

Omi snorted, "I haven't even gotten to you yet, yet you still want to share with me, huh?"

"Who the hell are you? Why do you know Wind Lightning's name?" Mu Qianji's master asked.

Omi didn't hide anything and said, "Old woman, listen, I am Wind Lightning, I am Mu Qianjie's man in the mortal realm, what crime do you deserve for taking my woman in the mortal realm privately, do you think I will let you off the hook for this?"

"What, you, you're Wind Lightning?" Bai Qingze was silly, the man in front of him who had robbed all the Stone Demon Fruits was actually Mu Qianji's man in the Mortal Realm, how was this possible.

"No, it's impossible for a mortal like you to come to the Spirit Realm."

"Old woman, I don't have time to beep with you, so answer me honestly now, why doesn't Mu Qianji know me anymore? What the hell did you do to her?" Omi.

"Hmph, even if you're her man, where so what, your love affair is over, I already made her take the dispelling pills."

It dawned on Omi, no wonder Mu Qianqi looked so strange to him, Omi hated him for a while, but Omi was not a match for that old woman at the moment, so he couldn't do anything to her yet.

Omi took out two Stone Demon Fruits from his pouch, threw them at Mu Qianyi and said, "These two Stone Demon Fruits are from me to her, old woman, we'll meet again in the coming day." After saying that, Omi accelerated for a while, while Mu Qianji and the old woman couldn't accelerate, and soon they lost sight of Omi.

However, they had always obtained two Stone Devil Fruits.

Mu Qianji asked, "Master, why did you block my six senses just now, what did you say to that man? Why did he end up giving me two Stone Devil Fruits?"

"Nothing, alright, if we can't catch up, let's go back to the Thousand Waters Sect." That old woman said with a grunt. She had shielded Mu Qianji's Six Senses when she had just talked to Omi, so Mu Qianji didn't know anything about the conversation.

Omi quickly landed on the outskirts of the Flying Cloud Sect, then changed back to his original appearance.
