"So, Omi he's in Jubal City at the moment?" Ning Baojun's face chilled and he let out a cry of anger that could no longer be contained.

The fact that Omi had killed so many Ning family members in Zhubai City already proved that Omi was in Zhubai City right now. Thanks to Ning Baojun, he thought that Omi would never dare to return to Zhubai City, because Zhubai City was the most dangerous place, and Omi would be sent to his death as soon as he returned, so Ning Baojun had spent the past few days looking for Omi in other places. As a result, Omi, however, simply believed that Zhubai City was the most dangerous place, and this feeling of self-righteousness and beating his own face made Ning Baojun very angry, no longer able to control the anger within, never wanted to kill as much as today.

"Yes, Ninth Uncle, Omi is in Zhubai City at the moment."

"If I don't find him and kill him this time, I'm not worthy of being a member of the Ning family." Ning Baojun said through clenched teeth.

At this moment, Omi and Mu Qianji were resting in the inn room, Omi had no idea that Ning Baojun had returned to Zhubai City and was looking around for him, this time, Ning Baojun didn't shout in the sky, but secretly searched for him, this way, Omi couldn't prevent it beforehand, once he found Omi, he could just get Omi killed, no matter how fast Omi escaped, it would be useless.

Three days later, Mu Qianji also Omi were all rested.

"Omi, it's time for us to enter the Four Seas, it's almost time to auction." Early in the morning, Mu Qianji said.

"Good, then it's almost time to enter the Four Seas."

Omi and Mu Qianji were about to leave the inn when they suddenly saw that Ning Baojun was searching the inn.

"Hmm, Ning Baojun? Why is he here?" Omi's brow furrowed.

"Omi, let's go through the back door." A second to remember to read the book

Omi snorted with disdain, "Just in time, I also want to try my chain man, now can I rip him alive. Thousand Jedi, you disguise yourself and go far away."

"Alright." Mu Qianji immediately went to the far distance.

Only then did Omi shout towards Ning Baojun who was not far away, "Hey, Ning Baojun, are you looking for me?"

"Ah, Omi." Ning Baojun's body trembled when he saw Omi, he didn't expect that Omi had discovered him in advance again, so that he wouldn't be able to catch up again if he sacrificed his flying sword to escape.

"Omi, you killed more than twenty members of my Ning Clan in Zhubai City, don't leave if you have the guts." Ning Baojun growled.

Omi sneered, "You're so distressed when I kill more than twenty of your family's clansmen, then you're so distressed when you kill three hundred thousand civilians in Tian Bao City?" Omi really couldn't understand this kind of people, as if his family's life was precious, and everyone else was a cheap life.

"Omi, don't talk too much, if you have the guts, don't run away."

Omi laughed disdainfully, "Don't worry, Ning Baojun, I won't run away, it's really time to make an end between us, I don't want to destroy the inn, after all, the inn is the property of the common people, if you dare to come, come to the empty place next to it." After saying that, Omi very inn, came over a nearby open pond and stood there waiting.

Ning Baojun followed without even thinking about it, and the two of them confronted each other over the pond.

Not long after, many people around them came up.

Many people recognized that one of them was Omi, while the other, who had a terrifying aura about him, was definitely an out-of-body powerhouse of the Four Seas Ning Clan, although many didn't recognize him, but they could also guess that he was definitely an out-of-body powerhouse of the Four Seas Ning Clan.

"Wow, that really

Is it the Omi who beat up Lanyi earlier? Oh my god, now he actually dares to confront the Four Heavy Sea's Exaltation Stage, it looks like a battle is inevitable."

"Tsk tsk, Omi has really turned our three views upside down, he looks completely less imposing than that Exaltation Stage senior ah, what kind of base does he use to F*ck with the Exaltation Stage?"

"Omi, worthy of being the man of my dreams." A man with a bearded face and obsessive eyes said as he looked at Omi. Fortunately, Omi didn't see him as a sissy, or else he would have to vomit in disgust.

Mu Qianji was also in the crowd, silently watching Omi over the pond.

People, more and more, all of a sudden the entire area around the pond, up and down, was filled with people.

"Omi, you really won't run?" Ning Baojun was wary of Omi, every time Omi had fled before, he didn't even escape this time, which made Ning Baojun a bit unpredictable!

"I said, between us, it's time to make an end, I've been running away before and I can't run away anymore, come on, Ning Baojun, today, it's either you die or I live." Omi offered up his flying sword while extending his right hand, the black chain wrapped around Omi's wrist began to slowly expand.

"Wow." In the next second, that black chain expanded into a fifteen to sixteen meter tall steel cable giant.

As Omi's mind moved, the steel cable giant also followed the gorilla's example and thumped a few punches on his chest, like a steel cable version of King Kong.

"Wow." The onlookers saw such a cool magic weapon and worshipped with satisfaction.

Ning Baojun was a little surprised to see Omi's chain man, which had doubled in size, no wonder it could kill that first-stage out-of-the-box nine-year-old of his family.

"Drink." In the next second, the Steel Cable Giant punched fiercely, smashing into Ning Baojun, while at the same time, Omi's Celestial Furnace Mirror, Shura Blade Technique, and the three pronged attack.

This also meant that Omi's single-mindedness and triple-use was not really possible for anyone else, and even if he could, I'm afraid that his spiritual energy wouldn't be able to support the consumption of the three magic tools. It was the same as electric wires, a switch socket, plugged into three power water heaters, induction cookers, and air conditioners, it was estimated that the socket's wires would burn out.

Ning Baojun subconsciously wanted to offer his flying sword, but only then did he realize that he no longer had a magic weapon.

"Ah." Ning Baojun only felt that his body was locked in an invisible pressure, as if he couldn't avoid it no matter which direction he dodged in.

It was as powerful as a thousand pounds, as fast as lightning.

Ning Baojun's body subconsciously detached from his infant body.

"Bang." Ning Baojun's body was smashed by the Steel Cable Giant's fist, as if it were an exploded watermelon.

Ning Baojun's infant, however, had just detached its body, but in the next blink of an eye, Omi's Shura Blade slashed down. It was as if, Omi's Shura Seventh Blade was specifically aimed at Ning Baojun's infant, as if he had anticipated that Ning Baojun's infant would detach from his body.

Just like that, within a second, Ning Baojun's body and infant were cut down by the Chain Man and the Flying Sword, respectively.

The crowd of onlookers at the pond felt incredulous, their eyes looking at Omi in mid-air.

"Omi actually killed the Exaltation Stage."

"Is this a dream?"

At the scene, there were a good number of One Heavy Hailan Family Immortals, they all felt a chill down their backs at the moment when they saw Omi kill Ning Baojun, before they were fortunate to have reconciled with Omi in time, otherwise, the consequences were unpredictable.
