

King of kings

1699

"Hmph, settlement, I'll settle your sister, I'm here today, I don't want to talk nonsense with you, give me the 47 pieces of sixth grade spirit stones that I deserve from the ones you pitted me against."

Omi thought to himself, "If I recover the 47 spirit stones that were trapped, plus the 2 left over from last night, there will be 49, then Omi will be able to hit the 5th Step of Exaltation, although there is still one short of one, but the difference of one can easily be made up."

The Fifth Step of Exaltation and the Fourth Step of Exaltation, but there was a world of difference!

Of course, the key was whether or not Yu Jin was willing to take out the ones that pitted him against the others.

In short, 47 pieces of sixth grade spirit stones were enough for Omi to take a butcher's knife to the entire Yu family.

If it were any other family in the Four Seas, 47 sixth grade spirit stones would take at least 20 years to save up before taking them out. Previously, the Ning family ancestor used 180 sixth grade spirit stones to purchase away Omi's flying sword, which seemed like an easy task, but the 180 sixth grade spirit stones he took out cost his family nearly a hundred years of savings.

It could be seen how deeply Omi had been screwed.

It was a pity that Yu Jin saw Omi's whims and still wanted those 47 sixth grade spirit stones back.

Yu Jin sneered, "Get lost."

"You."

"Liu Fan, don't be so greedy, you're a spirit healing 5th stage, what do you need so many spirit stones for, do you know that more than a hundred 6th grade spirit stones, the families of the four seas have to save up for decades? I've given you so many spirit stones, it should be enough." First URL

"Yu Jin, I'm only asking you, will you give it back to me yet?"

"There's nothing to pay back, it's already settled with you clearly."

"Yu Jin, you should know that my cousin is Omi, aren't you afraid that I'll tell my cousin about this?" Omi said.

That Yu Jin grunted, "Tell me if you like."

"Bang." Yu Jin slammed the door shut in one go.

Omi let out a sneer.

Okay, don't blame Omi for not giving them a chance.

Omi and Mu Qianji left the auction site.

Two days later, Omi wrote a letter and had the inn boy deliver it to the auction site.

In Yu Jin's office, Yu Jin opened the letter and it read, "Yu's auction house, you dare to trap my cousin Liu Fan, I'm warning you now, within three days, return the 47 spirit stones that trapped my cousin to him honestly, otherwise, I, Omi, will definitely pursue the matter, Omi book."

Yu Jin saw Omi's letter and snorted in his heart, "You really take yourself seriously."

However, the Tang family did have quite a reputation in the Four Seas recently, so Yu Jin didn't dare to make a decision and was going to take the letter back to the family and let the family executives decide.

At the inn.

Mu Qianji said, "That letter from Omi, is it really valid? If they were really afraid of Omi, they wouldn't have dared to utter you before."

Omi said, "I'm giving them one last chance to see if they give it back using Omi's name, if they really don't give it back and aren't even afraid to offend Omi, then I really can't be blamed, I'm bound to start killing for the clan." Omi's gaze was cold, 47 sixth grade spirit stones, the number was considered huge, it was worth it to move the sword for such a large amount of spirit stones. So, Omi gave them one last chance. If they saw Omi's handwritten letter and returned it honestly, then Omi could forget about it, after all, Omi didn't want to have another enemy.

That afternoon, in one of the Yu Clan's main halls, a dozen or so Exaltation Stage powerhouses were sitting in the main hall.

Yu Jin put a

The envelope was handed to an old man of the eighth stage of the out of the box.

"Third Ancestor, this is Omi's personal letter, what should we do now? Previously, Omi's cousin Liu Fan's side of the flying sword, did auction off 180 pieces of sixth grade spirit stones, but, he's a Spiritual Healing fifth stage, and giving it to him would be a waste, so we withheld some more. I didn't expect Liu Fan to be unrelenting and insist that we pay him back, and we won't, but he told Omi that he received a personal letter from the self-proclaimed Omi this morning. I didn't dare to make a rash decision, after all, that Omi, does have some skills, and he killed two out-of-body stages in the Ning family."

That old man looked at the letter and asked, "How much was withheld from him?"

"Originally it was twenty-eight percent, but that day your grandson didn't know him and drove him away, Liu Fan was so angry that he didn't sell it, and in order to coax him to continue auctioning the flying sword, he agreed to the nineteen percent he proposed, so if you go by that, it's 47 pieces that were withheld, and if you go by twenty-eight percent, it's 31 pieces that were withheld from him. Of course, the spirit stones that were deducted have now been sent to the family warehouse."

Yu's Third Ancestor snorted, "Once it's in our family's warehouse, how can it be moved further out?"

"What about Don's tribute?"

"Wow." The Third Ancestor of the Yu Clan tore up Omi's letter of respect and snorted, "He's not even able to protect himself, he's still threatening us, giving that Liu Fan over a hundred sixth grade spirit stones is generous enough, he's still shameless, he's really not greedy enough, there's no need to bother with him. Send someone to tell that Omi, and tell him that our Yu Clan isn't so easy to provoke, and if he continues to pester us, don't blame my Yu Clan for being rude."

"Yes, Third Ancestor."

Yu Jin returned to the auction room and immediately called Yu Mo over.

"Yu Mo, you know where Liu Fan lives, right?"

"Know."

"You go tell Liu Fan to stop pestering him, this matter will end like this, otherwise, I'll make him eat his heart out, also, tell Liu Fan to tell Omi, being he? arrogant, if he dares to provoke our Yu Clan, our clan will let him die without a burial place."

"Ah, you really want to say that?" Yu Mo's heart trembled, wouldn't this be a complete enemy with Omi.

"This is what the family's third ancestor said, not my decision."

"Oh."

Yu Mo had to go find Omi.

Omi and Mu Qianji were still at the same inn.

Omi had been sacrificing his flying sword every day, striving to bring it to high grade as soon as possible.

However, it seemed that it wasn't so easy now, and I'm afraid it would be difficult to sacrifice it to high grade in a short period of time.

"Knock knock, Liu Fan, are you there?" Yu Mo's voice came from outside the door.

Mu Qianji opened his eyes and said in his heart, "Could it be that the auction house received a letter of respect from Omi and they sent back the withheld spirit stones so quickly?"

Omi also thought that he was sending spirit stones and was busy going to open the door.

"Haha, Yu Mo, finally you've come, it's to deliver the spirit stone, right?" Omi chuckled, it seemed that his Omi's threat was still somewhat useful, it was not, and the spirit stone was sent back in the afternoon. As such, Omi would not hold a grudge against the Yu Clan.

"Oh, Liu Fan, you guys are still in the Four Seas ah."

"Of course, if you're not in the Four Seas then where are you."

"I thought it was almost time for you guys to go back to the First Sea, and your temporary residence cards, they're about to expire."

Omi said, "Alright, never mind when I'm going back to the One Heavy Sea, bring it out."
