

# King of kings

1713

"Hugh, don't run away."

"Omi, you pervert."

"Hmph, it's no use getting angry, Hugh will have to flee."

"Omi, do you really want to drive them to extinction?"

"Ridiculous, you chose the path yourself, and you're still blaming me."

"Omi, you've already killed so many of my Yu's ancestors, what more do you really want."

"I don't want anything, I just want to kill you again."

"Omi, you can't do that."

"Hahaha, since it's already started, it can't end like this." Omi said mercilessly.

Omi chased after Yu's third ancestor while talking to him.

Omi's spiritual energy was always at its peak while Yu's Third Ancestor was constantly depleted, and Yu's Third Ancestor was as anxious as an ant on a hot pan. One second to remember to read the book

Soon, Omi was about to catch up with Yu's third ancestor.

"Watch the sword."

As Omi entered the optimal attack range, Omi Tian Luo killed it.

Yu's Third Ancestor, who was busy running away, could not resist and was instantly hit.

"Ah." Yu Clan's Third Ancestor screamed as his flesh was suddenly cut into pieces.

Yu's Third Ancestor's infant immediately detached, but unfortunately, Omi was not able to control Yu's Third Ancestor's infant this time.

"Don't come over, or I'll self-destruct." Yu's Third Ancestor threatened.

Omi snorted, "What if I had to come over?"

"Omi, no matter how strong you are, your flesh can't possibly resist my infant's self-destruct, I advise you not to seek death, at worst, I'll die with you." The Yu Clan's Third Ancestor's YuanYing threatened.

"To die with you, ridiculous to die with you."

"Do you have to force me to do this?"

Omi said, "Fine, in that case, I'll let you go." Omi immediately flew back and prepared to walk away.

The Yu Clan's Third Ancestor's infant was relieved when he saw that Omi had indeed retreated.

However, it was when he was relieved that a flying sword behind him cut his YuanYing in half.

"Ah." Yu's Third Ancestor was stupid.

Omi turned back and grunted, "Stupid, you don't know that I have several magic weapons, and that my control over them is thousands of meters away."

Ordinary people's, once they were more than a few hundred meters away from a magic weapon, their control over it was greatly weakened, but Omi was different, he could still control the magic weapon even if he was thousands of meters away from it. Omi had just pretended to leave, then left behind a flying sword and circled behind Yu's Third Ancestor's infant to take his life while he wasn't paying attention.

Omi put away Yu's Third Ancestor's storage ring.

Omi roughly scanned the storage ring to see if there were any spirit stones.

There were actually over two hundred sixth grade spirit stones inside.

"Yay, sixth-grade spirit stones, this time I can upgrade to the fifth or even sixth stage of Exaltation." Omi was overjoyed, once he upgraded to the sixth stage of Exaltation, then Omi would be able to trample the entire Four Seas under his feet, scouring the entire Four Seas for Spirit Stones and reaching the Merging Stage as quickly as possible.

Omi quickly returned to the original spot.

There were still many people in the original place, but the fourth and fifth ancestors of the Yu Clan that he hadn't been able to kill just yet were nowhere to be found at the moment.

"Where are the other two?" Don Zimmer asked the onlookers.

"They've already run away."

"Hmph, count them as fast runners." Since they ran away, Omi wouldn't go after them, only those who didn't have confidence in themselves would go after them, because Omi wasn't afraid of them seeking revenge on him in the future.

Omi said to the crowd of onlookers, "Alright, don't be an onlooker, do what you have to do." The onlookers immediately dispersed, seemingly terrified of Omi because Omi had killed all of Ning's and Yu's out-of-body ancestors one after the other, feeling like Omi was a demon that sent shivers down their spines. In fact, the feeling of these melon eaters was quite accurate, Omi was indeed about to become the devil head of the Four Seas, Omi was going to raid the Four Seas and would surely become the devil head of everyone.

Omi returned to the inn.

Mu Qianji had already returned to the inn one step ahead of him.

Omi took out all the storage rings.

“Qianji, take an inventory of how much loot there is.”

“Good.” Mu Qianji immediately started counting.

“Omi, there are a total of 290 sixth-grade spirit stones and two middle-grade upper-grade magic weapons.”

“Well, so, I already have eight middle-grade superior magic weapons now, good, hahaha. I’m going to sell five of them.”

Omi prepared to use the 290 sixth grade spirit stones to refine them.

“Thousands of them, I’ll raise you first.”

“No need, you refine it yourself first, only when you’re stronger will I have a chance.”

“Just as well.” Omi did not excuse himself and immediately began refining the spirit stones.

Omi’s realm, from the fourth stage of Exaltation, slowly, soared up to the seventh stage of Exaltation.

However, after soaring to the seventh stage of Exaltation, Omi’s sixth grade spirit stone still had more than 90 pieces left, and including the bit left over from before, there were still almost a hundred pieces left over.

“Thousands of points, I’ve already risen to the seventh stage of Exaltation, and this hundred or so points is just enough to give you the ability to ascend to the fourth stage of Exaltation.”

“What about you?”

“This hundred or so pieces is not enough for me to upgrade to the eighth stage of Exaltation again, I’m refining it now for nothing, I have to upgrade to the eighth stage of Exaltation again, I have to refine another 200 pieces at once to do it.”

“But.”

“Don’t but, refine it.”

With the help of Omi, Mu Qianji quickly upgraded from the first stage of Exaltation, to the fourth stage of Exaltation.

After the upgrade, Mu Qianji felt the momentum of her realm and sighed deeply, In the Four Seas, other Immortals, from the first stage of Exaltation, to the fourth stage of Exaltation, might not be able to reach it in a lifetime, or it might take three or four hundred years, or even longer. And she, it had only been how long. Mu Qianji even felt that it was very unfair, why was she able to be so speedy.

But how could the world be fair.

“Lamenting again isn’t it.” With a roll of his eyes, Omi instantly guessed what Mu Qianji was lamenting, Omi said, “Everyone else wants to cultivate and upgrade fast, no one has ever been like you, who thinks it’s too fast.”

"Oh, Omi, I'm just afraid, we're cultivating and upgrading so fast, it's hard for others to raise a step in a hundred years, and we're four or five steps all of a sudden, this, this makes me feel a bit scared and insecure."

"Khan, what are you afraid of?"

"I'm afraid, we're so fast, nothing will happen in the future, right? Like, God said we cheated and knocked us back to our original form or something."

"You're really overthinking it, there's a reason why we're so fast, and it can't always be this fast, now we have to upgrade to the combined stage, with our individual abilities, we can't gather up the sixth class spirit stones anymore, when we reach the combined stage, our unit of consumption will be the seventh class spirit stones, at that time, it's probably hard for the whole world to gather up the seventh class spirit stones, and we have nothing to upgrade."
