

King of kings

1728

Half a month passed in the blink of an eye, Omi and the others, all of them were in seclusion until half a month later, when everyone's realm was almost stable.

Omi, Mu Qianji, Yan Xinyi, Lu Yuxi, Tang Huan, and the five of them were all in the Merging Stage.

"Let's go, let's go have a meal, then if there's nothing else, we'll prepare to enter the Five Seas, there's no point in staying in the Four Seas anymore." Omi said.

Arriving at the inn's restaurant, Omi ordered a large table of sumptuous dishes to celebrate everyone's promotion to the Merging Stage.

Of course, in the inn, the other patrons were all talking about the incident about half a month ago, when the entire Four Heavy Seas, all the families were robbed.

This matter could definitely go down in the history books, even ten thousand years later, it was expected that someone would still know about it, after all, the entire Four Seas where all the families were robbed and all the sixth grade spirit stones were scavenged almost to extinction, there was no one before or after.

Omi smiled slightly, no one knew that the robbers were eating right here.

At that moment, one person walked in at the door and said, "Latest news, the Mo Family's Merging Stage Ancestor, has just returned from the Five Heavy Seas."

"What? Really or not?"

"Lying to you guys as puppies, just half a quarter of an hour ago, someone from the Teleportation Hall to the Five Seas came out, and when I looked, it was an ancestor of the Mo Family named Murdie who had returned. I guess, at this moment, I'm sure that Murdie has already arrived home."

"Wow, what a timely return, the Mo Family will definitely tell Murdie about this. Mo Di will definitely not ignore it, and Mo Di can also help bring letters to the Five Heavy Seas to inform the other families' Merging Stage Ancestors of the Five Heavy Seas, and then the other families' Merging Stage Ancestors will also return." One second to remember to read the book

"Wow, so many Merging Stage ancestors are back, the Fourfold Sea is going to be lively."

The atmosphere at the inn was high, Omi frowned slightly.

However, Omi wasn't worried, all five of Omi's people were now in the first stage of the combined body, and, Omi's magic weapon would soon be sacrificed to a high-grade magic weapon.

At this moment, in the Murdie family.

"Greeting Old Ancestor Mo Di, you've finally returned."

"What's going on? Why is it that when I returned from the Teleportation Hall on the first floor, everyone who saw me had a strange look in their eyes? Did something happen to the Four Seas?"

"Old Ancestor Murdie, something big has happened in the Four Seas."

"Big event? What's the big deal?"

"Alas, just half a month ago, an unknown strong man, whose realm is the ninth stage of Exaltation and whose strength seconds all of his peers, went to the sixty-three families of the Four Seas one by one in one night, instantly made his move, hijacked the strongest person in each family, and then forced everyone to exchange all of their sixth grade spirit stones for their lives. As you know, the strongest person in each family is in charge of all the family's savings. So, the entire Fourfold Sea was robbed, and that's not all, the next night, that person came back and robbed the second third and fourth strongest person of each family, he was going to scavenge all the sixth grade spirit stones. In the end, it was really as he wished, all the families in the entire Four Seas, barely a single sixth grade spirit stone was left, they were all robbed."

"Surprisingly there is such a thing, even if that person is strong, he can't be so lawless, there aren't a few cultivators of the ninth stage of the Fourfold Sea who are out of their tricks, right, can't they even fight together?"

"Murdie Ancestor, that son of a bitch, he came at night and went one family at a time, we didn't know at first, that he robbed all the families, each family thought, only them. And in order not to affect the family prestige, each family blocked the news. After a few days, all the families

The clan only found out that it had all been robbed, thanks to everyone deliberately hiding it, and as a result, alas."

"Who was so bold? How dare you openly provoke the entire Four Seas."

"Don't know that person."

"How is it possible that you don't know him, there are only a few dozen families in the Four Heavy Seas, and I believe that everyone is aware of the ones who can reach the ninth stage of Exaltation. The person who robbed everyone is at the ninth stage of Exaltation, have you never seen that before?"

"I really haven't seen it, and I can assure you that it's never from the sixty-three families, I suspect it's from the Five Heavy Seas."

"Came out of the Five Seas?" Mo Di's gaze gazed, this was highly unlikely.

Murdie shook his head, "It shouldn't be out of the Five Seas."

"Why are you so sure?"

"Strength to reach the ninth stage of Exaltation, to be able to kill you guys in seconds, that means this person is very talented and strong, then, it's impossible to come to the Four Seas to rob, with such a strong strength, it's not difficult for him to get spirit stones in the Five Seas, so why bother coming here to rob, even if you want to rob, you can still rob in the Five Seas."

"Could it be, then, that the Combination Stage of the Five Seas came out to rob?"

"It's even more unlikely that a sixth grade spirit stone is almost useless to cultivators above the Combined Body Stage. It's almost impossible to find any seventh-grade spirit stones in the Sea of Five, seventh-grade spirit stones are already becoming extinct, and sixth-grade spirit stones are useless to

those above the Combination Stage, so strong people above the Combination Stage don't need spirit stones at all in the Sea of Five anymore."

"Ah, so ah, then I don't understand."

At that moment, that Merging Stage ancestor of the Mo family, Mo Di, was shocked, "There are Merging Stage powerhouses approaching."

"What? Are the Combined Body Stage ancestors from other families also back?"

"No, I'm the only one who came back, in the Five Seas, all of us in the Four Seas are together, and we look out for each other, I know very well that I'm the only one who came back. In the Four Seas, I don't know when, but there is a combined stage again." After saying that, Murdie swooshed and stood on the roof.

Sure enough, in the distant sky, five people flew in, and the leader, was Omi.

In one fell swoop, Omi flew over Murdie.

Omi looked at Mo Di, and Mo Di also looked at Omi.

Only, Omi's eyes were filled with fearlessness while Murdie looked at Omi with vigilance.

I don't know why, also at the combined first stage, Omi gave the impression that he was much too strong, and there were five combined first stages. What was even more unbelievable was that all five of them were so young, and one of them still looked like a little girl, what the hell was this. To be able to become a Combined Body First Order at such a young age, this talent had exceeded Murdie's knowledge.

"Who are you guys?" Murdie asked vigilantly.

Omi smiled, "Old man, don't be nervous, we're not bad people."

The more Omi said that, the more wary Mo Di became, usually the bad guys said they weren't bad guys.

Omi asked, "You are the ancestor of the Mo family who came back from the Five Seas, right?"

"Exactly."

"Then what's your name?"

"Murdie, who are you again?"

"Oh, I'm Omi, and the three of them are called Mu Qianji, Tang Huan, Lu Yuxi, and Yan Xingyi." Omi introduced.
