

King of kings

1738

"How are we going to blend in?"

"There's no rush, let's wait here for a while, when someone comes out, we'll kill that person and then disguise ourselves as that person and enter the Fire Cloud Family instead."

Omi and Mu Qianji waited at the gate for almost three days before a man and a woman finally came out.

The man was very handsome and young, and the woman had beautiful skin.

"Young Master Ming, Miss Yue, the few strong men you have guarding the gate greeted those two.

"Well, we'll be around, don't worry."

"Okay."

After that, the man and woman left the city gate and headed straight towards a certain direction.

"Keep up, wait until there's no one there and finish those two off." Omi said, then, the two quietly followed.

When they reached a few hundred kilometers away, Omi saw that it was almost time, and immediately flew out to stop the man and the woman.

This man and woman, the man was at the third stage of Exaltation, and the woman was at the first stage of Exaltation. The first website m.kanshu8.net

And Omi and Mu Qianji were both in the combined stage, so finished them off.

"What are you guys? How dare you stop me." The man looked at Omi and Mu Qianji with great anger.

Omi snorted, "Death is near, and you're still F*cking tough-mouthed."

"Dying to the end? Well, are you seriously going to do something stupid?" That young man's disdainful tone.

"Damn, you're a third stage out of the box, showing a disdainful tone to me, you wouldn't F*cking know that I'm a Combination Stage, would you." Omi really didn't understand.

At this time, that beautiful woman said, "Two of you, I don't know who you are, but I advise you, it's best not to move us, this is the Fire Cloud Family, the grandson of the Twelve Great Heavenly Kings, think about it."

"Yoho, and the Twelve Heavenly Kings, that's hilarious, are the Twelve Heavenly Kings awesome?" Omi sneered.

That beautiful woman sneered, "The Fire Cloud Family, with a population of 1.8 billion, out of these 1.8 billion people, there are only twelve people whose realms have reached the Mahayana stage, these twelve people are the Twelve Heavenly Kings. This one beside me at this moment, called Fire Cloud Ming, his own grandfather, is one of the twelve Heavenly Kings, a Mahayana stage powerhouse. Now, do you know what that means? In the entire Five Seas, no one dares to touch the sons and grandsons of the Twelve Heavenly Kings, not even the other seven great families, which mountain of little thieves are you that you dare to touch us."

That young man's mouth was also agape, as if he wasn't afraid of Omi in the slightest.

Mu Qianji said, "Don't talk nonsense with him, kill him before you speak."

"Good." Omi immediately flew his sword to kill.

At that moment, an accident happened, only to see that man called Fiery Cloud Ming, who didn't know what he had activated, suddenly, his and the woman's bodies, turned illusory.

Omi's flying sword cut down, completely cutting off the air, and that body turned illusory, Fire Cloud Ming said viciously, "Wait for me, I'll be right out to hunt you down." After saying that, their bodies completely turned into illusions, and then disappeared.

At this moment, in one of the main halls of the Fiery Cloud Family, a man and a woman suddenly appeared, the same two people from earlier.

That man said angrily, "Son of a bitch, how dare you kill me, causing me to lose a teleportation jade pot."

The woman said, "Brother Ming, don't be angry, those two sons of bitches who just killed us are only a few hundred kilometers away from the northwest gate of Fiery Cloud City, we'll immediately send someone over there now, and we'll definitely easily

They can be found, captured, or killed. Then investigate their origins and completely exterminate their nine clans." This pale skinned and beautiful woman didn't expect her heart to be so ruthless, and she didn't even blink an eye when she said such words as exterminating the nine clans.

"This is nonsense." That Firecloud Ming's gaze was cold.

The Firecloud Family's twelve Heavenly Kings' own grandson also dared to intercept and kill them in the middle of the road, he really didn't want to mingle, this was something that would make the entire Five Seas tremble, and it was still a few hundred kilometers away from the Firecloud Family.

At this moment, Omi was extremely depressed.

"Why did they disappear?" Originally, with Omi's strength, it would have been like crushing an ant.

Mu Qianji said, "Omi, that man is after all the grandson of the Twelve Heavenly Kings of the Fiery Cloud Family, I think his grandfather must have given him some kind of self-defense magic that can instantly teleport a thousand miles away when activated, no wonder they are so arrogant and even look so disdainful in the face of us."

"Damn, I was careless." Omi said.

"It's something no one expected, and we still don't know, what kind of magic they used."

"So what do we do now, the people weren't killed, once they escape back, they definitely won't stop."

Mu Qianji said, "I think we need to get out of here now, if nothing else, a large number of strong people will soon come after us."

"What a firestorm, out of the way."

"Go." Omi and Mu Qianji had no choice but to withdraw first, but instead of returning to Horse Head Village, they went somewhere else.

Sure enough, not long after Omi and Mu Qianji had left, in the distant sky, three Separation Stage powerhouses, with more than a dozen Merging Stage powerhouses, were heading straight towards them, among which, the man and woman who were just there were also there.

"Chase, they're heading in this direction, make sure to catch up with those two."

"Yes."

Omi and Mu Qianji, didn't fly very far, they were temporarily hiding in a valley a thousand kilometers away.

"Omi, why don't we go to another big family."

"That's fine."

Just as Omi and Mu Qianji were about to make their move and go to another family, a group of people surrounded them in the sky.

It was the pursuing troops sent by the Fire Cloud Family.

"Damn, how can this be catching up so fast." Omi and Mu Qianji both thought that they had run out over a thousand kilometers and would definitely not be able to find them, but they didn't expect that they would catch up with them all of a sudden.

"Run, why don't you keep running." The man called Fiery Cloud Ming looked at Omi and Mu Qianji with a sneer.

Omi and Mu Qianji were surrounded by that group of people, this group of people, not afraid of anything else, but afraid of those three divisions.

With the power of Omi's celestial magic weapon, and the strength of the Shura Eighteenth Blade trained to the twelfth blade, Omi could kill all but the three distraction stages in one slash.

Then, Omi could escape with Mu Qianji, and with the speed of the Heavenly Grade magic weapon, I'm afraid that those three Distraction Stages would only eat dust.

Omi said, "Since you want to seek death, I'll fulfill you, I originally wanted to let it go like this, but I didn't expect that you would chase even to come after me to die, so if I don't fulfill you, how can I live up to your desire to seek death so much."

That Fiery Cloud Ming sneered, "Kill me? You didn't even kill me when I was alone just now. Now, do you think you have a chance? See, these three are all distractors, and they're all under my grandfather's command."
