

King of kings

1752

At this moment, Omi arrived at the residence of the Spiritual Ke Heavenly King.

"Spiritual Ke Celestial King."

"Spiritual Ke Heavenly King, are you there?"

Don shouted several times with no response.

"Fuck, where's the man? Where did he die at a critical moment." Omi was fuming, he had expected the Spiritual Ke Heavenly King to help Blue Fox Lily, but everyone was nowhere to be seen.

A maid said, "The Spiritual Ke Heavenly King isn't here, he went out of town."

"Grass, why did he go out of town." Omi didn't look good.

"He's gone to look for that who."

Omi was startled, the Spiritual Ke Heavenly King had gone to look for him.

It seemed that, expecting him to come to just Tang Huan, Tang Huan was afraid that he was pregnant.

"It's better to ask for help than to ask for help, it's the only way to go now." Omi immediately took out his heavenly magic weapon and ruthlessly cut over the Blue Fox Family. One second to remember to read the book

"Boom." There was a loud bang, the ground was cut out of a large hole, and many buildings fell down.

All of the strong Heavenly Kings of the Blue Fox Family were sensing it right now.

Including the Blue Fox Immortal.

"Ah, the momentum of a Heaven-ranked magic weapon?" The Blue Fox Immortal, who was choking the Light Water and calling for her flesh to be killed, sensed the momentum of the Celestial Grade magic weapon and immediately threw away the Light Water in his hands, rushing out into the sky without any hesitation.

No matter how beautiful a beautiful woman was, she couldn't be more attractive than a Heaven Grade magic tool, so how could the Blue Fox Immortal have the heart to think about the beautiful woman.

Light Water was finally saved, and Tang Huan was not violated.

"Tang Huan, let's go quickly." Light Water was busy saying to Tang Huan.

"What's happening?" Tang Huan was puzzled.

Light Waterway: "It must be Tang Shao, he was over the Blue Fox Family, he deliberately sent out the Qi of a Heavenly Grade magic weapon out to attract away the Blue Fox Immortal."

"Ah, isn't that dangerous, the previous eight major immortal cultivation families have tracked him down for more than half a year, how could he be inside the Blue Fox Family just."

"Tang Shao must have risked himself to save us, hopefully he can escape from the Blue Fox Family. Just now Blue Fox didn't die to chase after him, I'm sure the other Mahayana Heavenly Kings of the Blue Fox Family have gone after him."

"I'm to blame." Tang Huan looked self-condemned, if it wasn't to save her, why would Omi need to risk his life.

"Don't blame yourself, now let's immediately leave here first, Tang Shaoji should be fine."

At this moment, Omi rushed towards the Blue Fox Family's city gate at fire speed, the reason why he didn't choose the sky was because there was a formation protection above the sky, Omi didn't have the confidence to break through that protection in one go.

However, when Omi was about to reach the city gates, he found that two Mahayana Heavenly Kings were waiting at the city gates.

It was as if Omi had been caught in a jar.

"Fuck." Omi cursed, his Spiritual Sense swept around and found at least eight or nine Mahayana Heavenly Kings approaching in all directions.

Omi had nowhere to run.

This time, Omi was indeed very risky, but he had no choice, he had to do this in order to attract that Blue Fox Immortal out.

Omi didn't have time to think about it much and rushed into the sky.

Omi could only hope that his heavenly magic weapon would break the protective formation in the sky.

"Shura Twelve Blades." Omi shouted and slashed at the protective shield in the sky.

"Boom." The sky darkened and at the same time, the entire ground of the Blue Fox Clan trembled, as if the protective formation had been subjected to a huge impact, causing the entire city to shake.

Unfortunately, the protective formation was too tough, and Omi couldn't break it with one slash.

Omi continued with his second slash.

"Boom." The entire city continued to shake.

The mountain shook up.

However, the protective formation still hadn't broken.

Omi, however, was running out of time.

He was surrounded by at least ten Mahayana Stage powerhouses surrounding him.

Omi also stopped bombarding the protective formation, as there was no point.

One of the old men looked at Omi and snorted, "Go on, go on."

Omi said, "Do I continue you, old devil."

"Hmph, death is near, you know?" The other old man said.

Omi seemed like someone who had been forced into a corner.

Although it was true that Omi couldn't escape, Omi didn't panic, and calmness was the only way to survive.

That strongest old man said, "You're the one from half a year ago, the one who had the eight great immortal families tracked down, right?"

"Hmph, knowingly asking about the heavenly artifact in my hand, you're blind and can't see it." Omi trailed off.

"Raubo, don't talk nonsense with him, snatch his heavenly magic weapon and kill him, this matter must not be known by the other seven major immortal cultivation families, otherwise, they will definitely come to snatch the heavenly magic weapon." Blue Fox Immortal said.

"No, it can't be killed yet, the martial skill he just performed is most likely the Shura Eighteen Blades, which is related to a treasure." That strongest old man said.

"Hey, kid, was what you just performed the Shura Eighteenth Blade?" Blue Fox asked immortally.

Omi snorted, "Asking knowingly."

"Haha, it really is the Shura Eighteen Blades."

A group of Heavenly Kings rejoiced, they felt lucky.

"Kid, hand over the secret method of the Shura Eighteen Blades." One of the Heavenly Kings said.

Omi said, "It's in my brain, come and dig it out if you have the guts to do so."

"Kid, you have no way out, I advise you to cooperate honestly, otherwise, you will only die."

Omi said, "Speak as if I have no way out now."

"Hmph, you've been caught by us, what chance of life do you have, you can live if you want to live or die if you want to die." Blue Fox said immortally.

Omi laughed and said, "Come on, kill me and never know the secret method of Shura's eighteen knives."

At that moment, that strongest Heavenly King called Laobo snorted, "There's no need to worry, I have a way."

"Laobo, what's your way to force him to reveal the secret method?"

That old man snorted, "My lifespan is less than a hundred years, but it's almost hopeless for me to go further, so it's worth a try no matter which way I look at it."

"Laupo, what do you mean?"

"I will give up my own flesh and seize him, and when I have seized him, it will not be difficult to acquire his memories, and at that time, the Eighteenth Blade of Shura will be at my fingertips."

"Huh, that is indeed a good idea."

Omi smirked in his heart, to seize him, what a great wish.

However, this time, Omi willingly let him seize him.

Omi would let him know what it meant to surrender.

At that moment, that old man immediately YuanYing rushed towards Omi and drilled directly into Omi's brain.

Come on, Omi welcomed him.

In the next second, that old man snatched Omi away.

Of course, on the surface, it looked like he had snatched it away, but was that really the case in reality?

Only Omi and that Laupo himself knew.

As soon as Laobo's infant entered Omi's brain, he felt his infant sink, as if he had been locked up, and not only could he not control Omi's body, he couldn't even withdraw his own infant.
