

# King of kings

1779

"Alright, clean up the battlefield and hurry back to the bottom of the sea, don't be discovered, or else my Shura clan will be destroyed along with it." Wang Pi said to Omi.

"Good."

Wang Pi instantly disappeared into the sea surface.

Omi quickly removed the traces from the sea surface.

Mu Qianji flew to Omi's side and looked at Omi with some concern.

"Tzichen."

"I know what you want to ask." Omi interrupted Mu Qianji to continue, using his eyes to signal her not to say anything yet.

Omi drove the flying sword, carrying all of Tang Huan and a few others on it, then flew off into the distance.

Omi stopped only when he was tens of thousands of meters away from the Shura Clan's main camp.

"Tang Shao, why did you have to go so far?" Lu Yuxi asked.

"Must be afraid of that Wang Pi eavesdropping." Tang Huan said. One second to remember to read the book

Mu Qianji said, "Omi, people's hearts are separated, no one can guarantee that that Wang Pi will do anything to you ah. You have Immortal Qi in your body, this Immortal Qi is so rare in the Seven Seas, it's something that all the big shots fight over, what if Wang Pi he also has ill intentions towards you?"

Yan Xinyi also nodded, "Yes, Master, fear not ten thousand, just in case, I think it's better for us not to go back to the waters of the Shura clan, lest we be poisoned."

Omi frowned, "What if he's not like that?"

"If not, why would he set you up? Now he has determined that you have immortal energy in your body."

Omi said depressedly, "I'm also to blame for being too kind-hearted, I thought he had seen through all my secrets, so I didn't bother hiding it, so I just said it."

"It's not your fault, people have the heart to trap you."

"So what now, to go back or not?"

Everyone was looking at Omi.

Omi was also a bit hesitant, there was always a feeling that that place of the Shura clan was a bit of a wolf's den, if Wang Pi really had malicious intentions, Omi would not be able to escape no matter what once he went back. If people didn't have malice at all, Omi defending against them would definitely affect the relationship, maybe, all the original no malice had turned malice.

"What to do is good?"

Mu Qianji said, "In that case, we might as well do an experiment."

"What kind of experiment?"

"If Wang Pi has malicious intentions, he will definitely find out that we haven't returned to their Shura Sea, and he will definitely come out to pursue us for a while."

Omi said, "When he pursues, how can we still escape? Don't forget, he's a strong half-immortal and can also drive a flying sword. His speed will only spike me."

"You silly, if he comes after us, we'll just pretend to be here hunting for treasure well, don't let him think we're leaving, the initiative is still in our hands when we haven't torn off our faces yet. Well, if we really want to do this experiment, we'll have to start it right away, or it might be too late."

"Okay, let's try it then."

Mu Qianji said, "You make a boundary with your Immortal Qi now, then we'll enter the sea floor."

"Good."

With a stroke of his hand, Omi instantly made a boundary, and they hid in it, then entered the sea floor.

Not long after, a strong man flew in from the distant sky, that strong man was still frowning, and in his heart, he said, "Where did he go all of a sudden?"

This person was none other than Wang Pi.

As he flew, Wang Pi used his Spiritual Sense to scan and would soon scan the sea floor where Omi was.

And Omi was now aware that Wang Pi was coming after him.

Omi immediately cancelled the boundary.

Omi's boundary had immortal energy within it, so

Wang Pi was unable to sense it from a great distance, so that's why he pursued it.

After Omi cancelled the boundary, Wang Pi sensed it right away.

Wang Pi hesitated in the sky and secretly said, "Omi just drew a boundary, why? Could it be that he suspects that I'm going to hurt him? But if you suspect it, why don't you just run, his boundary has an immortal component and I can't fully sense it, he could have just walked right away ah?"

Wang Pi's gaze shifted for a while, as if he was torn inside as well.

After all, Omi had a connection with their Tai Ancestor and had helped him open the old ancestor's treasure. However, the Immortal Qi on Omi's body was so alluring, and most importantly, it was very pure.

In the end, Wang Pi said inwardly, "If Omi has already sensed something, then I must make a decision, I had hoped that he would help me snatch the fake immortal weapon together."

At this moment, Omi floated out from the sea surface.

Omi laughed and said, "Yay, you lost."

Mu Qianji and the others also floated out and said to Omi, "You cheated."

"Che, who's cheating."

"You just clearly used the boundary on purpose so that we couldn't find it, you're cheating."

Omi and a few girls were frolicking on the sea.

In the sky, Wang Pi's eyebrows raised, "What's the situation?"

Omi looked up and deliberately acted as if he had just seen it, busy saying, "Hey, Senior Wang Pi, what are you doing here."

"Uh, I, I just happened to pass by here, what are you guys doing?"

"Haha, I was just playing hide-and-seek with a few of them."

Tang Huan shouted again, "You cheated, it doesn't count, start over."

Cooperating really well, making it seem as if, just now, they were really playing a game of hide and seek.

King Pi in the sky couldn't help but believe it, or maybe it was easier to believe because he wanted it to be that way inside.

"Then you guys play, right, go back early, don't play too long." Wangpi instructed.

"Okay."

Wang Pi nodded his head and flew away.

After Wang Pi flew away, Omi continued to pretend to play the game, just in case Wang Pi was still watching nearby.

After playing for over an hour before they stopped acting, Wang Pi must have left, he was never interested in spying for as long as an hour.

"Phew, man, boring as hell." Mu Qianyi sighed.

Tang Huan and Lu Yuxi said, "I feel fine, this game is good, I didn't always play hide and seek when I was a kid."

"Tang Shao, would Wang Pi believe it? I don't suppose he's spying anymore now, is he?"

Omi said, "There shouldn't be any more."

Mu Qianji said, "Omi, now it has been confirmed by us that Wang Pi does indeed have ill intentions towards us."

Omi was furious, "This son of a bitch, he even called me brother before and said something about half of the Shura clan."

"There's no use scolding him, after all, we're not related."

"Alright, things have come to this, we can only return to the mainland first." Omi said.

"What about the new relics that will be born in three months?"

"When we get back to the continent, I'll change my face with Thousandfold, and then we'll wait for the opportunity to act."

"Good."

After that, Omi quickly drove his flying sword and left in a hurry.

However, half a day later, Omi had a bad feeling that someone was coming after him.

"I feel that someone is coming after me, what should I do?" Don Omi said.
