Chapter 1781

Right now, Omi was flying at a rapid pace.

“Hurry up, wait until he catches up.”

“I’m already at my fastest speed, and I don’t know how long this acceleration scroll can be used.”

“Alas, it’s all we can do now, let’s run forward as fast as we can.”

Mu Qianji said, “Don’t run forward, run to the side, right now we are much ahead of Wang Pi for now, if we run to the side, we might still be able to make it in time.”

“Also, let’s run to the side, run for a while and then fork off, and so on and so forth, only then will we be most able to avoid Wang Pi.”

Thus, Omi immediately forked off and ran to the side.

The rest could only rely on luck, Omi used the boundary to the side, Wang Pi was more difficult to find Omi’s traces for a while, and according to normal thinking, he must have continued to rush forward.

In this way, Omi had a chance of survival.

A few minutes later, Wang Pi chased after Omi to the spot where he had just gone to the side.

As expected, Wang Pi chased after the spot and completely lost all traces of Omi, Wang Pi scanned the scene and found that Omi wasn’t hiding there, so Wang Pi continued to chase forward. Remember the URL . kanshu8 . net

And at this moment, Omi had already flown a long distance to the side, and then, Omi continued to fly back to the side, so that he forked off every time he flew, so that even if Wang Pi caught up when he first went to the side, he would gradually lose Omi’s direction behind him.

In a blink of an eye, half a day passed.

“Haha, without catching up, we’ve managed to evade opening Wang Pi’s trail.” Omi laughed.

“How can you be sure that Wang Pi didn’t catch up to us?”

Omi snorted, “I’ve been flying sideways every few minutes, and now I don’t even know where I’m flying to, I don’t believe that Wang Pi can still catch up to me after being circled dozens of times, and it’s been half a day, if Wang Pi’s direction hadn’t been off, he would have caught up to us by now.”

Mu Qianji also laughed, “Yes, we’re safe, but where are we now? We don’t even know our bearings anymore.”

Light Water said, "Now it's best for us to hide in place and come out when we've passed the absolute safety period. Otherwise, if we continue to fly around now, what if we run into Wang Pi?"

"Light Water's suggestion is good, Omi, let's hide at the bottom of the sea first, we'll dig a deep pit and hide in it for ten days and half a month, by then it should be safe, and Wang Pi definitely won't have the patience to look around for us blindly."

"OK."

Omi rushed into the bottom of the sea, then threw out the steel rope giant to dig a hole in the sea floor, and kept digging very, very deep for safety's sake.

"It's always safe now, it's over 100,000 meters from the ground, I'm afraid, even if Wang Pi passes by at the surface, the spirit stones may not be able to scan this place." Omi said.

"Then we'll hide here and go out again in half a month."

Omi sighed, "This rubbish king skin has messed up my plans, and I don't know if I'll still have my share of the new relics that will be born in a few months."

Mu Qianji consoled, "This kind of relic, even the Seven Heavy Seas big brother came here personally, the Seven Heavy Seas big brother, not even Wang Pi is a match, let's forget about it. Although the relics are precious, life is equally precious, in case, some other strong man discovers the Immortal Qi in your body, wouldn't it be even more finished?"

Tang Huan and the others all nodded, advising Omi to give up on it

The Sea of Death's newly born relic.

Omi shook his head, "This isn't quite my style ah, to think that back in the mortal realm, when I was still in high school at Baiyun High School, I was known as the campus desperate mad god, as well as the number one villain, but now, I have to hide from an enemy, and I don't dare not go under the sea for half a month, alas."

Mu Qianji was speechless: "What time is this, and you're still picking up that old story. That Wang Pi is a half-immortal, the immortal energy you have in your body has almost no advantage over a half-immortal, unlike before, the strongest people you encounter are all still spirits."

Omi bobbed his head, feeling that from now on, Omi would really have to start officially cultivating on his own.

Right at this moment, Omi suddenly felt a scurry of immortal energy within his body.

"Hm? Why is the fairy energy in my body scurrying? Could it be that King Pi is coming after us?"

"Ah." Mu Qianji and the others were all shocked, if that was the case, then wouldn't that be a sure death in a jar.

Omi closed his eyes and said, "Don't talk, let me be quiet and still."

After a while, Omi opened his eyes and said, "I feel that it's not Wang Pi chasing after us, but rather, we are very close to the Nine Daoist Demons' spirit stone cave."

"What? The Spiritual Stone Cave of the Nine Daoist Demons?" Everyone was shocked.

"Follow me." Omi immediately drove the Steel Cable Giant and dug into the depths of the ocean floor.

Digging and digging, after digging for about tens of thousands of meters.

Suddenly, intense aura came up from the deeper seabed.

"Quick, keep digging."

After digging for another hour or so, suddenly, the ground collapsed.

"Boom," Omi and the others fell into a huge pit, an underground pit that was buried at least 150,000 meters deep under the sea.

"Omi, look quickly." Mu Qianji shouted, his eyes looked towards the front of the pit, only to see a snow-white jade mansion in front of him, the mansion was small, just over three hundred square meters.

There was a door sign hanging outside of the residence, which read 'Nine Dao Royal Residence'.

"Heavens, it really is the Nine Daoist Demon King's cave residence." Omi and the others sighed incredulously as they looked at this white as jade mansion.

"Omi, we've been too lucky, just fleeing and fleeing without direction in order to avoid the chase, and as a result, we escaped to the Nine Daoist Demon King's cave residence." Mu Qianji said.

"Yeah, we're too lucky, no, it's Master's luck, we're all getting his blessing." Yan Xin Yi smiled.

Omi shook his head and said, "It's not that I'm too lucky, but, rather, in the underworld, the Nine Daoist Demons are guiding."

"Uh," everyone was startled, it seemed to make some sense.

Omi looked at the entire mansion built of spirit stones and smiled, "Everyone, today, refine to your heart's content, it's as far as you can go, in the future, there will be no more spirit stones to refine, and even if there were, it's unlikely that spirit stones will be able to raise the realm."

"Charge." Omi shouted and was the first to dash towards that spirit stone cave in front of him, with Mu Qianji and the others following closely behind.

"Bang." Omi just happened to reach the gate, suddenly an invisible restriction appeared, Omi was dizzy from the collision and his person was bounced several dozen meters away.

"Everyone be careful, there's a ban on protection."

"Bang." Omi's voice had just fallen, the others had also been unable to collect themselves and crashed headlong into it.
