

# King of kings

1810

"Senior Wang Ting, hello." Omi greeted the man of the ninth stage of divination.

"Fellow Daoist Tang, the new relic will be coming out soon, you're here because of this, right?"

"Right." Omi nodded his head.

Wang Ting asked, "Right, Daoist Tang, have you seen our clan leader, he hasn't seen anyone for two months, it's reasonable to say that he shouldn't be running outside, the new relic is about to be released, the clan leader will definitely try to give it a try, and the Sea of Death is our territory."

Omi smiled, "Truth be told, I've never seen Senior Wang Pi either."

"Oh, it's really strange, it's this time of the year and he's still not back." Wang Ting muttered, he would never have thought to death that Wang Pi had already been killed by Omi anyway.

"Fellow Daoist Tang, who is this?"

"This is the elder emperor of the Mo Dynasty, Senior Mo Qing, Fourth Stage of Tribulation, currently I am a Daoist couple with his daughter Mo Yuyan, I came here early this time and thought of coming down to rest my feet, so I brought him along, I hope Senior Wang Ting doesn't mind."

"It's fine, since he's your father-in-law, he's naturally our guest, I'll order down tonight and host a banquet to welcome you."

"Senior Wang Ting, don't be so polite, we'll just do as we please, you go busy with your business, I don't need your hospitality. After all, I've lived here for several months before, I'm familiar with this place as well."

"Alright then, you guys feel free, I'm also going to look for our clan leader." First URL m . kanshu8.net

"Okay, you're busy."

Wang Ting went off to busy himself, rushing to find Wang Pi.

Omi still returned to the small bubble room they had lived in in the beginning.

However, it felt a bit strange for two grown men to live here.

Mo Qing still looked very old on the outside.

"Uncle Qing, how old are you this year?" Don Omi asked.

"Over nine hundred years old." Mo Qing Dao.

"Wow, over nine hundred years old, that's still young." Omi gave a cry of surprise, the Blue Fox Lily that he had encountered in the Five Heavy Seas before, the one that Light Water had taken over, she was already 1500 years old, so her lifespan had only turned out to be a hundred years old.

Mo Qing said, "I had a lot of resources since I was a child, that's why I was able to reach the fourth stage of tribulation at the age of 900."

"Well, by the way, how old is Yuyan? When I ran into her before, she'd already reached the merging stage."

"Forty-six."

"Wow." Omi was surprised, Mo Yuyan was 46 years old, so that was five or six years older than Mu Qianji's age in the Immortal World.

"The reason why Yuyan reached the Merging Stage at such a young age is because her grandfather, went out of his way to help her refine spirit stones, otherwise, at a normal cultivation rate, it would take around 150 to 200 years to reach the Merging Stage. Omi, how old are you, I can't always feel your age." Mo Qing asked.

"Haha, me, if you don't count the Giant Fruit I took earlier, I should be less than 18 years old this year. If you count the Giant Fruit's rapid growth, I'm almost 25 or so."

"Ah, no way, how could you."

"Uncle Qing, I'll be honest with you, I don't think you'll have evil intentions towards me."

"Don't worry, I'm not this

Kind of people."

"In fact, I happened to get an Immortal Qi, which is like a body, that's why I was able to cultivate very fast, of course, almost by refining spirit stones. That's why I was able to help Mo Yuyan cultivate to the Mahayana stage so quickly."

"I see, I thought you had some secret method, your immortal cultivation chance is really excellent, you will definitely be able to step into the immortal realm in the future."

"Oh, this is necessary, what I'm worried about now is not me, but my friends, they I can only help up to the first stage of the Mahayana stage, after that, I can't help the path, I'm afraid that by then, I'll have ascended but they'll still be here, what should I do." Omi said full of worry.

"Don't worry, as long as I'm not dead yet, I'll help you protect them."

"Let's not go that far for now, I'm afraid it will take a few hundred years for me to ascend to the Immortal Realm."

Mo Qing said, "Omi, if you can travel to the Seven Seas, then you should be able to cultivate up there very quickly."

"Why? What's so special about the Seven Seas? I only know that the Seventh Sea has ample aura, hundreds of times more than the First to Sixth Sea."

Mo Qing smiled, "Spiritual Qi is secondary to the needs of those who have reached the Half Immortal level, it's not that important anymore. For those at the Half Immortal level, what they need more is Immortal Qi. Therefore, just a little bit of Immortal Qi was enough for a Half Immortal level person to progress forward. In the Seven Seas, there's often immortal qi leaking down through the spatial cracks, do you understand now?"

"I see, it seems that I really want to go to the Seven Heavy Seas."

"Oh, for now, this is just your fantasy, the Seven Heavy Seas are dominated by the five families that possess pseudo-immortal weapons, and no one else can travel to the Seven Heavy Seas except them. However, it's not completely without a chance."

"What chances?"

"Every ten years, the Seven Heavy Seas will hold a grand meeting martial, where those who obtain a token will be able to travel to the Seven Heavy Seas to cultivate for a year."

"Ah, only one year."

"Of course, in fact, those strong geniuses who have obtained tokens, after they entered the Seven Heavy Seas, they were all pulled in by the five families, so the meeting martial that takes place once every ten years is also known by everyone as the 'Entering the Family Conference'."

"Entering the Family?"

"Yes, the reason why the five great families of the Seven Seas hold such a huge meeting martial is to discover geniuses and then pull those geniuses into their families in time to become a part of their families. That way, it would not only strengthen their families, but also weaken the overall power of the Six Heavy Sea. Otherwise, if these geniuses were allowed to develop in the Six Seas, in case one of them became very powerful in the future, the safety of the Seven Seas would be endangered. Therefore, at the Meeting Martial, anyone who could obtain a token was a super genius. These super geniuses could qualify for one year of cultivation in the Seven Seas. During this one year, these super geniuses were all joined by the five great families of the Seven Seas, with men marrying into them and women marrying into them. Therefore, everyone again jokingly called it the 'Incoming Club'."

"Oh, the Seven Seas is really interesting."

Mo Qing said, "There are still about two years until the next Entering Association, and after two years, the five major immortal cultivation forces of the Seven Seas will jointly hold another meeting. Omi, if you want to cultivate in the Seven Seas, this is your only chance. With your strength, you will definitely be able to obtain a token at the meeting martial and enter the Seven Seas to cultivate for a year, and then, you understand."

Omi said, "It's impossible for me to join the family, besides, two of the five major immortal cultivation forces of the Seven Seas, I've even killed two of them."
