

King of kings

1830

Mu Qianji said, "After all, he's Mo Yuyan's father, he doesn't look at the face of a monk, you mustn't do anything to him."

"Don't worry, if he really continues to be rude, I'll use force to give him a little warning." Omi said.

"It has to be done in moderation."

"I know, then I'll go look for Song Complaint Sky." Omi said, "Song Complaint Sky is one of the half-immortals of the first stage of the Mo Dynasty."

"Why do you need to go find Song Complaint Sky?" Everyone looked at Omi in puzzlement.

Omi's eyebrows locked, as if he had something to say, but couldn't say it.

"What's wrong?"

Omi said, "I don't know if it's an illusion or not, but I always feel like I'm a bit unclear at this first stage of my current robbery realm."

"Uh, unclear?"

"Yes, I originally wanted to ask Mo Qing, but after what happened, it's not good for me to ask Mo Qing again, I can only go and consult the other two tolls of the Mo Dynasty, Song Complaint Sky and Liu Bing."

"Could it be because we are fast soaring up? A little unsteady?" One second to remember to read the book

"No, I feel steady, but, indescribable, okay, I'll go first." Omi walked away.

Soon, Omi arrived at Song Complaining Tian's cultivation cave.

Song Complaint was very warm when he saw Omi coming.

"Omi, I learned that you can step into the marrow, congratulations ah." Song Complaining Tian welcomed him, at the same time, he was very confused, how on earth did Omi step into the tribulation so quickly, was there a connection between the loss of aura before and Omi?

Omi said, "Don't call me Tang's horse, if you think highly of me, call me Brother Tang."

"Oh, that's good, what is it that Brother Tang came to find me?"

Omi asked, "Truth be told, I do have something to ask, I've stepped into the first stage of Tribulation now, I can clearly feel it myself, I'm in the first stage of Tribulation and my realm is very stable, but why do I have a feeling of emptiness, of not being real?" Omi voiced the doubts in his heart.

Song Complaint laughed, "Brother Tang, this is the basics of immortal cultivation ah, why didn't the Long Emperor tell you."

"This, I didn't ask him."

"Alright, I'll tell you then, actually, although you are now at the first stage of Tribulation, you are not really at the first stage of Tribulation, that is to say, everyone who reaches the Tribulation stage has to be baptized by a thunderstorm, you haven't been baptized by a thunderstorm yet, you are only up in the realm, only after being baptized by a thunderstorm, you are truly at the first stage."

"Oh, so that's how it is, the realm goes up first, and then after being baptized by the thunderstorm, you're only a true first stage of the tribulation."

"Yes."

"Then when will you be baptized by the lightning tribulation?" Omi asked.

"Usually within half a month to three years after you cultivate to that realm, you will sense the thunder tribulation, how long depends on the individual."

"I see, then I understand, how do you cross the thunder tribulation then?"

"That's a good question, legend has it that in ancient times, when immortal cultivators underwent thunderstorms, they would directly descend from the sky, but I don't know when the thunderstorms started to no longer descend in reality, but instead you would enter a virtual space to receive them."

"Okay, thanks for instructing me."

"It's too kind of Brother Tang to say that."

"Then I'll leave first."

"Okay, then you go first."

Omi had just left Song Complaint's cave.

, Omi suddenly felt a message within.

"Ah, a thunderstorm? Could this be the meaning of sensing a thunderstorm?"

Omi immediately sat on the ground, and in the next second, Omi suddenly felt that he had entered a virtual space, this virtual space was white, Omi stood in the virtual space, the entire virtual space only Omi.

At that moment, Omi felt the white sky above him suddenly turn dark, as if a storm was coming, the sky was dark.

Not long after, a huge thunderstorm descended in the sky, and at the moment the thunderstorm descended, Omi seemed to recall the contents of his life. Omi suddenly remembered his wives in the mortal realm.

"No." Omi's heart did not seem to be relieved.

At this moment, Omi fell into a heart attack.

The most feared thing for those who had transgressed was the demon of the heart, which was what some immortal cultivators were afraid of, not wanting to leave any regrets behind, because regrets would magnify a thousand times at the moment of transgressing, becoming an obstacle that could not be passed in the heart, so the transgression turned out to be a failure.

Omi thought that he had already gotten over it, but it wasn't until the moment of the robbery that he realized that deep down, he still couldn't figure out the great departure of his mortal realm wives, forming a knot in his heart.

It was a hurdle he couldn't get past.

"Boom." A huge thunderstorm instantly descended.

Omi was smashed to the ground, his entire body blackened.

In the next second, Omi opened his eyes and found himself sitting in front of Song Complaint's house.

Song Complaint's voice could be heard in his ears, "Congratulations, Brother Tang, you've successfully crossed the marauding stage, you're now truly at the first stage."

In Omi's mind, it was all about the scene in the virtual space that he had just witnessed.

"Me, I've succeeded?"

"Yes, you've been successfully robbed."

"But, I was clearly cleaved and my entire body was scorched."

"Haha, virtual space was cleaved, in reality you're fine at all."

"No, I obviously created a demon, I have a regret in my heart that can never be mended, I have such a big demon, how could I have succeeded."

Song Complaint was startled, "You created a heart demon while you were transmogrifying? This, how is this possible, normal people, once they have a demon, are bound to fail."

"Yeah, I thought I was going to be finished." Omi was also puzzled.

Song Complaint smiled, "Brother Tang, this shows that your physical body is very strong, even if you produce a mind demon, it won't be able to make you fail, Brother Tang, you just need to solve the problem of mind demons now, you won't have any problem in the future to survive the tribulation."

Omi stood up and nodded his head and left.

After returning home, Omi told everyone about the marauding.

Everyone was shocked out of a cold sweat when they learned that Omi had developed a mind demon while he was in the middle of the tribulation.

"Fortunately, your body is very strong, so even the heart demon can't destroy you." Mu Qianji said.

Yan Xin Yi worried, "However, the first thunder tribulation was weaker and he was able to resist it, but in the future when it gets stronger and stronger, what if it continues to produce a heart demon."

Omi didn't say anything, Omi himself didn't know how he couldn't let go, he thought he had already seen through it.

Mu Qianji said, "At this point, there is no other way, Omi, you must completely let go of your experiences in the mortal realm, otherwise, every time you cross the thunderstorm, a heart demon will arise."

Omi shook his head and said, "I don't know how to completely let go, I feel like I've already let go."
