

# King of kings

1872

"Windy, do we have to go through the Rainbow Bridge? With your current half-immortal strength, can't you force your way into the Six Seas? Why don't you try it." Yan Xin Yi said to Omi.

"Good." Omi leapt into the sky and flew to an illusion like the sea and lips, then Omi tore through that illusion with a palm, and suddenly, tore open an opening.

"Haha, as expected, I can force my way into the five seas, fortunately, my aunt reminded me, otherwise I would have been foolish to really spend years."

After that, Omi effortlessly brought thousands of people to the Six Seas, and then returned to the Tang Chi Gate in the Six Seas.

Finally, Omi returned, and although it had only been gone for a year for those in the Spiritual Realm, for Omi, it had been gone for five or six years.

Xu Qing'er looked at the several huge characters of Tang Ji Gate and asked, "Old Ancestor, is this the sect you founded in the Spiritual World?"

"Right."

Mu Qianji and the others learned that Omi had returned and came out in a panic to greet him.

"Omi, you're back." Mu Qianji came up happily.

"Qianji, nothing happened at home during the year I was away, right?"

"No, but a few months ago, a survey team from the Seven Seas came to Tang Ji Gate." Mu Qianji said. A second to remember to read the book

"A survey team? What survey team?"

"A survey team from the I Clan of the Seven Seas, I heard that the I Clan wants to establish a branch of the I Clan in the Six Seas and is in the process of picking an address."

"What about now?"

"Now I don't know, but after they explored the terrain of our Tang Ji Gate a few months ago, they told us to wait for news, and if they end up choosing our place, then we must move away and set up a branch for them." Mu Qianji said.

Omi said angrily, "The Yi Clan is bullying people too much, if they don't take care of the Seven Seas, then they come to the Six Seas to establish some kind of family branch, they're sick."

Mu Qianji said, "We're just waiting for news now, hopefully they won't choose our place to establish a branch, otherwise, I'm afraid we'll really have to move."

Omi's face paled.

Mu Qianji consoled, "Alright, just got back, don't be in such a bad mood, be happy, maybe they didn't choose our place in the end. It's not like we're the only place they've visited, the eight imperial cities of the imperial dynasty."

Mu Qianji looked towards Xu Qing'er behind Omi and asked, "Who is this?"

Omi introduced, "Her name is Xu Qing'er, a descendant of Xu Mei Qian's family."

"Oh."

Xu Qing'er was busy greeting Mu Qianji, "Greeting senior Mu."

"You're welcome." Mu Qianji smiled slightly.

Omi then ordered people to make arrangements for these people brought up from the mortal realm.

"Brother Chen." Little Fire saw Omi fly out.

"Uncle Minister." Zi Hitomi also flew out.

Omi was surprised to find that Little Fire had reached the second stage of Tribulation.

"Little Flame, when did you reach the Second Stage of Tribulation?" Omi was busy asking.

"Haha, just last month." Little Fire smiled hehehe.

"Great, congratulations, Little Flame." Omi was delighted.

"Brother Chen, you went to the mortal realm .

There shouldn't be much to gain." Little Fire asked, after all, the mortal realm doesn't even have aura.

Omi smiled heedlessly, "That's not necessarily true, I've already touched the threshold of the Third Stage of Tribulation twice, I think I'll be able to step into the Third Stage of Tribulation even faster if I come back and close the door a bit."

"Wow damn, no way."

"Alright, nothing to be happy about." Omi was in a bad mood at the thought of the Seven Seas Yi Clan, which might choose this place to establish a family branch, feeling that these Seven Seas families were too tuggy, doing whatever they wanted without considering anyone else's opinion in the slightest.

Although there was still no news about where the specific site was chosen, Omi had to prepare in advance, in case they did choose to establish a family branch in Tangji Gate, then did Tangji Gate really move away and let them have it?

The answer was, no way.

However, this would definitely upset the Yi Clan of the Seven Seas, but Omi wasn't ready to confront the forces of the Seven Seas, besides, Omi hadn't reached the Third Stage of Tribulation yet, if he reached the Third Stage of Tribulation, then Omi's strength would increase some more.

Ten days later, the people brought up from the Mortal Realm were all arranged properly, and they were gradually adapting to life in the Spiritual Realm, Omi was no longer so concerned about them, and the route after that was for them to go on their own.

Omi came to the Nine Fifts bed and prepared to close the door for comprehension.

Although the aura wasn't as useful when reaching the tribulation stage, it would definitely be better than nothing if there was an aura, as a dense aura would help communicate the space between heaven and earth, thus better aiding in comprehension. It's like, you can grow up eating rice, and you can grow up eating mountains and seafood, but if you have mountains and seafood to eat, of course it's better, and the nutrition is more complete and more conducive to growing up. For the transmigration stage, the difference between having aura and not having aura is the difference between eating rice and eating mountains and seafood.

Omi spent three months in solitary confinement on the bed of Nineveh.

After three months, Omi opened his eyes.

"Brother Chen, you're out of the gate." When Little Fire saw Omi come out, he was busy being concerned and came over to ask.

"Mm."

"Brother Minister, looking at your face, it can't be that you've broken through to the Third Stage of Tribulation."

"Yes, the pressure forced me to break through to the third stage of Tribulation in the end, but this is only a realm breakthrough to the third stage of Tribulation, it hasn't been verified by the lightning tribulation, if you can't survive the third stage of Tribulation, then you'll be ashes and ashes."

"Brother Chen, with your physical strength, do you still need to worry about the thunderstorm, haha, congratulations brother Chen. You've now stepped into the third stage of Tribulation, so you can at least practice your twelve sword formations up to the fourth set, and if there are no pseudo-immortal weapons to fight you, I'm afraid you'll be able to compete with someone of the seventh stage of Tribulation."

Omi nodded, "If the other party doesn't have a pseudo-immortal artifact, then I can indeed compete with the Seventh Stage of Tribulation. But if the other party has pseudo-immortal artifacts, then even if the other party is only at the Third Stage of Tribulation, I may not be able to win against him. As for the Seven Seas, the five people who have pseudo-immortal weapons, they're all at the eighth stage of the Robbery Transgression. In other words, if I want to compete with them, I have to reach at least the same realm as them."

"Brother Chen you're still worried about the Seven Heavy Seas Yi Clan establishing a branch?"

"By the way, is there any news on this yet?" Don Omi was busy asking.

"Not yet, but it's definitely coming soon."

Omi nodded and said, "I've sensed the thunder tribulation, I'll go through it first."

"Ah, so soon."

Omi immediately sat down on the ground and closed his eyes, his body and mind entering an unknown space.
