

King of kings

1922

Originally, Omi didn't have these worries, but now he did.

As for the good aspects, there were some, for example, Omi could now remember many of the methods of immortal cultivation, which would allow Omi to become an immortal faster.

As for the others, Omi didn't go to read those memories, for example, the person he had a crush on in his previous life, Omi didn't want to read that memory because it had nothing to do with him now.

The woman that Omi had a crush on in his past life was something that Omi couldn't match and couldn't afford to offend .

Omi closed his eyes and cultivated for half a month.

Half a month later, Omi had broken through to the sixth stage of Tribulation.

"Haha, finally breaking through to the sixth stage of Tribulation, the Family's "Immortal Interception Method" from the previous life is still very powerful, if it were to be passed on to the Spirit World, there's no telling how many immortals it would cultivate."Omi laughed out loud.

The Intercepting Immortal Dharma Gate, it was a very powerful immortal cultivation method, in his previous life, Omi had the impression that people who were usually geniuses after all, could break through to the immortal level before the age of fifteen.Of course, there were also those who broke through to Immortal only when they were over a hundred years old.Why so fast?There were two reasons, the first was that in the former Immortal World, there were very many immortal cultivation methods, and the second was that the Immortal World had plenty of spiritual energy and there was also immortal energy, so naturally it wasn't comparable to this spiritual world.Therefore, there were many immortals in the Immortal Realm.Of course, there are even more immortal cultivators.

The foundation of the composition of the Immortal Realm was still the immortal cultivators, an endless number of them.It was just that the Immortal Realm's immortal cultivators, who were at the bottom of the hierarchy, especially those at the YuanYing stage, the Merging stage, and the like, were as numerous as a dime a dozen in the Immortal Realm, and were the most stateless in the Immortal Realm.In order to get by in the Immortal World, one had to become an Immortal.

After Omi ascended to the Immortal World in the future, he would naturally be an Immortal, and he wasn't the lowest status in the Immortal World, let alone the weakest.Although there were many Immortals in the Immortal World, not everyone could become an Immortal, and some of the ones who had no influence could hardly become Immortals because they didn't have an Immortal cultivation method.On the other hand, some big powers, big families, immortal kingdoms and the like, because they occupied the most favorable resources and had all kinds of immortal cultivation methods, it was often easier to become immortal, and there were many who became immortals in their teens.

In short, the gap between the 'rich and poor' was far greater than in the Spirit World, and the social competition and cruelty was even greater. Remember the website . kanshu8 . net

Omi walked out of the main hall after breaking through to the sixth stage of Tribulation.

Now that he had the Immortal Cultivation Method, he was confident that he would ascend within thirty years.

Omi arrived at Mu Qianji's cultivation room.

Mu Qianji just happened to have finished his cultivation.

"Omi, did you succeed in your research?" Mu Qianji asked with worried eyes, she was afraid that Omi hadn't succeeded, but instead had lost the memories of this life.

Omi smiled hehely, "What a beautiful little beauty oh, hehe, what kind of luck did I have, I was actually reborn and saw such a beautiful woman, hahaha."

"Hey, Omi, don't scare me." Mu Qianji's body trembled.

Omi laughed, "I'm just kidding with you la."

"You're scaring me to death." Mu Qianji stared.

"Told you I was joking with you."

"You succeeded?"

"Yes, and I've now recovered my memories of my previous life."

"Ah, so fast."

Omi said, "Alas, it's hard to explain, there's good and bad let's say, fortunately, I studied it for half a year to minimize the bad side, and I'm only slightly affected by my past life a little bit now. Qianji, if in the future you find that I'm different from the past in any way, or more that, it means that I'm affected."

Mu Qianji said, "The fact that you're able to talk to me like that now means that you're hardly affected at all, I'm relieved."

"Oh, Qianji, I'm now passing on to you a Cultivation Method, this Cultivation Method is the method of my former family."

"What's an immortal cultivation method?"

; "To put it simply, it's the Cultivation Exotica, and with this Cultivation Exotica, the speed of becoming an immortal will be accelerated, except that the Spirit World is after all the Spirit World, and the air conditions here can't be compared, so it can't have as strong an effect as the Immortal World. However, it's also already unbelievable that I've just broken through to the sixth stage of Tribulation. Originally, I was stuck at the sixth stage of Tribulation, but now that I have this immortal cultivation method, it's no longer a matter at all, and I'm confident that I can soar within thirty years, or even twenty, ten."

"Ah, so fast."

"Well, I'll pass it on to you now."

"Good." Omi immediately passed on his family's ancestral immortal cultivation method from his previous life, the Immortal Interception Method, to Mu Qianji.

Mu Qianji was shocked, "How strong, why didn't anyone in our spirit world create this method? No wonder you said it's a fairy cultivation outfitter."

"Oh, otherwise, why do you think there are so many immortals in the Immortal World, just by virtue of the air resources in the Immortal World?"

"I'm not talking to you la, I need to close the door immediately." Mu Qianji couldn't wait to say.

"Good!! I'll go find Tang Huan and the others and teach them the Dharma Gate by the way."

Omi immediately went to find Lu Yuxi and taught the Immortal Dharma to Lu Yuxi.

Then, Omi came to Mo Yuyan's place.

"Yuyan, I'll let you recover your past life memories now, but you now have two choices: first, let this life become dominant, and second, let your past life become dominant. Your own choice?"

"I, I don't know, you help me choose, I'm whoever you want me to be."

"I want you to be Mokuyan, after all, this life is this life, the former WHO cherry is just a memory in your mind, you just know it, you don't have to be."

"Well, I hear you."

"Well then, let's begin."

Ten minutes later, Mo Yuyan recovered the memories of her past life, but the memories of her past life were stored in her mind, she needed to know what she needed to know to read it, it would have little to no effect on her personality in this life.

"Omi, huh, my brother." Mo Yan smiled.

"Haha, yes, you were one of my brothers and sisters in a previous life."

"Haha, Omi, I have so complicated feelings now that I've learned the memories of my past life, I finally know, what happened to us in my past life."

"Yes."

Mo Yuyan said, "So many of your siblings in your past life, if they can all find their reincarnations and restore their memories, how good is the odd one out."

"I don't know, I shouldn't be so lucky, I've found someone I knew in my past life twice in a row, the heavens wouldn't be so partial to me."

"Then everything will be as fate would have it." Mo Yuyan looked at Omi with emotion, gaining the memories of her past life, the way she looked at Omi was definitely different, more affectionate than before, as if, they had known each other long ago.

Omi originally wanted to teach Mo Yuyan the immortal cultivation method, but, seeing Mo Yuyan's affectionate gaze, Omi felt that if he didn't do something right now, he would feel sorry for the atmosphere, so Omi had no choice but to do something with Mo Yuyan.

It was only after an hour that Omi passed on the Immortal Cultivation Method to Mo Yuyan.

"Alright, I'll go find Tang Huan, Tang Huan also needs to recover his past life memories."

"Tang Huan's mother from his previous life, I heard that she was very powerful." Mo Yuyan asked.

"Tang Huan's previous life was at least more powerful than my previous life, I know whether she chooses her previous life as dominant or this life, if she chooses her previous life as dominant, I'm afraid she might not like me anymore."

"Ah, how come." Mo Yuyan was shocked.

"With her status and vision in her previous life, it's impossible for her to look at me." Omi said in a somewhat complicated mood.
