

# King of kings

Chapter 2146

"Yes, forget it, I fell on my own." Xing Luo didn't say, he was the family ancestor after all.

omi turned back and said, "Hu De, Lu Yun, someone beat my wife, what do you say?"

"Since we don't know who it is, we'll both do it together."

omi said, "Okay, you two, one of you will fight, no need to kill, after a minute, whoever fights worse, will be my little brother."

Before omi had even finished speaking, Hu De and Lu Yun turned into light smoke and ran towards Xing Xi and Yan Qing Gang respectively, that action was faster than anything else, as if they were afraid that omi would regret it.

"This." Xing Luo was speechless and said to omi, "Zichen, don't, let's make peace."

omi said, "I just want them to know that bullying my woman will end up worse than bullying me directly."

"Speechless."

Not far away, Hu De pressed Xing's ancestor into the gutter and punched him hard, with each punch, the ground trembled, bang bang bang, making quite a rhythm, was he in music in his previous life?

And Lu Yun, with two fingers thrust into Yan Qinggang's nostrils, hung Yan Qinggang in the air and punched him hard in the face.

Xing Luo was busy saying, "Zichen, you tell them to stop." One second to remember to read the book

"Don't worry, I didn't ask them to kill, so I won't kill them." omi showed no mercy.

At this time in the distance, the rest of the Star Clan, Elder Star Yao, Elder Star Zheng, and others, came.

"Ah, old ancestor." Star Yao and the others were all silly when they saw their family's ancestor, who was being pressed into the gutter and beaten up.

In their eyes, the towering, sacred and unoffendable ancestor, ah, was being pressed into the gutter.

However, they didn't dare to go forward.

A minute seemed incomparably long, but of course, it was for the Xing Clan ancestor and Yan Qinggang.

After one minute, omi shouted, "One minute is over, stop it."

Hu De and Lu Yun were busy dragging their respective beatings over and throwing them in front of omi, so that omi could judge who had beaten them worse.

Although Xing's ancestor and Yan Qinggang were furious in their hearts, however, they couldn't do anything about it.

"Boss, you quickly judge who beat up worse."

omi saw that Xing's ancestor's face was fine, and his body was swollen from Hu De's beating.

As for Yan Qinggang, his body was fine, his face and head were all swollen like anything, and his eyes were so swollen that he couldn't see.

omi smiled, "According to visual inspection, Yan Qinggang will be a bit worse, so Lu Yun, you're my little brother now."

"Greetings, Boss." Lu Yun was overjoyed.

"Ah, why." Hu De looked puzzled.

Lu Yun harrumphed, "Want to know why? Because I specialize in hitting the head, and you hit the body, and you can't see with your clothes on, hahaha."

Donomi said, "Yes, hitting the head does look worse."

Hu De was depressed, why didn't he think of that.

omi squatted down and said to Yan Qinggang, "Remember, don't touch my woman ever again."

"Yes yes yes." Yan Qinggang busily nodded.

omi said to Xing Xi again, "Xing's ancestor is it, even if you're an ancestor, you don't touch anyone else's woman, that's even if he's a member of your family, got it?"

"Got it."

"Now that I know, the heavens have the good fortune to see Star Luo's face and the face of the vast Star Clan clan, you only need to answer me one question, and if you answer correctly, I won't do anything more cruel to you."

"Fine, you ask."

omi asked, "Whose wife is Star Luo? Answer a, extension

Qinggang's; answer b, Ah Huang's; answer c, Zhou Niu's; answer d, omi's."

"Er, this." Both Xing's ancestor and Yan Qinggang were startled.

"Answer ah."

"But." Neither of them knew which answer to choose, in case they got it wrong.

Xing Luo sighed, perhaps she had compassion on her heart, and said, "Tzu-Chen, count it."

At that moment, Xing's ancestor and Yan Qinggang were busy saying, "Answer d, omi's."

They heard Xing Luo call Tzichen, so they knew the answer.

omi angrily said, "Xing Luo, look at you, you revealed the correct answer. Well, since they got the right answer, I won't embarrass them anymore, you guys go."

"Thank you, Boss."

"Don't mess up the word boss."

"Yes yes yes." The two of them flew away in a panic.

They came to a place where there was no one before they stopped.

"Ahhh, what a disgraceful day today, what face will I have in the future to be based in the Upper Firs." Yan Qinggang shouted in anger.

The ancestor of the Xing Clan said, "Forget it, it's good to stay alive, I don't know what that brat's origin is, the one who can make Hu De and Lu Yun both call him boss must most likely be someone from the Upper Four Continents."

"Ah, the Upper Four Continents, how could that be, how could someone from the Upper Four Continents appear here."

"We'd better hide first, lest he go back on his word."

"Just as I thought." After saying that, Xing Clan's ancestor and Yan Qinggang ran away in a flash.

At Xing Luo's residence.

Hu De said, "Boss, why don't you just take me in along with you."

omi sighed, these two people were also really, good people don't do it, they had to be lowly and be omi's little brother.

Unfortunately, they were a handful of old bones, omi really wasn't interested ah, moreover, bringing them around would expose all the secrets omi had on him.

"Alright, I accept your kindness, in my heart, you are my seniors, even if you are not, then you are equal to me, you are brothers, why do you need to be my little brother, I know, probably because of the blue stone, let's say, today I owe you a favor, if there is anything you need me for in the future, feel free to come to me, alright?"

Hu De and Lu Yun's old faces flushed, they were both old men and still so childish.

"Just as well, everything is fate." Hu De and Lu Yun said.

"Master Tang, we'll be leaving first then."

"Okay. Take care."

Only then did Hu De and Lu Yun fly away, turning back into serious people, not shouting about bosses anymore, it would be humiliating to shout again.

Star Luo was angry at omi, "Look at you, what kind of a beating you've given my family ancestor, I'm a family sinner now."

"You are now my people, and still family family, even family, that's my Tang family."

Star Luo lovingly looked at omi, the two of them were like no one else.

Not far away, Xingyao and the others saw omi and Star Luo's intense show of affection, a little embarrassed, busy turning around and walking away.

Of course, one of the girls, who was still watching motionlessly, full of envy at omi and Star Luo, was Star Goose.

Xing Zheng panicked and pulled Star Yan and said, "Go away, don't look at it, you don't have that life, what's the point of looking at it."

Star Goose was dragged away with eyes full of loss.

Star Luo eyes to the departing Star Goose, looking at her lost back, sighed, "I don't know if I'm lucky, or she's not lucky enough, if I hadn't met you first, maybe, you and Star Goose could I be the same as you. Zichen, why don't you call Star Goose over."

omi said, "Not interested."
