

# King of kings

2254

Just ten minutes later, suddenly, in that empty picture in the palace, a brave and invincible person appeared, that person, as soon as he made a move, a whole bunch of demon soldiers died around him.

The killing speed was so fast that it was almost unimaginable, everyone else was killed one by one, while he, on the other hand, was killed piece by piece.

The more people demon soldiers attacked him, the more demon soldiers around him, but the more demon soldiers attacked him, the faster he killed.

A man sitting above the Immortal Court said, "This person is not bad."

At this moment, Ding Cangding, who was in the palace, panicked, "Reporting back to the Immortal Emperor, he is my son-in-law, Omi."

"Yo, what a coincidence, your son-in-law."

"Yes."

"Well, if he doesn't die, I will reward him heavily for this battle."

"Thank you, Immortal Emperor."

On the battlefield, everyone killed red, to the back, no one had time to care about anyone, all the celestial soldiers just kept on killing.

However, the movement on Omi's side had attracted the attention of powerful demon soldiers. One second to remember to read the book

"Earth Crab, go kill that man."

"Yes."

A Xuanxian level demon king rushed towards Omi. Previously thinking that Omi was just a small celestial soldier, the demon soldiers naturally wouldn't go to specifically kill him, everyone king to king, soldier to soldier, the war would only end if the upper level was finished killing. For example, if the Old Heavenly Demon died, these demon soldiers naturally scattered away in a huddle.

But I didn't expect that a Heavenly Immortal's Heavenly Soldier would have such a great killing power, it felt like a Xuan Xian killing an ordinary demon soldier, this was still true, immediately, a Xuan Xian demon king killed Omi.

Omi instantly felt a powerful killing aura.

Omi immediately swept his eyes towards the place where the killing aura was coming from, and indeed a Xuan Immortal was killing towards him, Omi didn't have time to think about it and diverted the attacks of all the demon soldiers that were besieging him to that killing Xuan Immortal demon soldier.

"Boom." That Xuanxian demon soldier's body stalled, but unfortunately, this bit of strength couldn't hinder him at all.

"Go die." That Xuanxian Demon Soldier raised a spear in his hand and stabbed straight at Omi.

In the next second, it stabbed right in front of Omi, but a layer of blue light immediately emerged on Omi's body, and Omi instantly reversed the power of the attack coming from that spear back to the other party.

"Wow." That Xuanxian Demon King's body took a few steps backwards, as if he had been punched back.

"You, you actually have two strikes." That Demon King was startled.

Omi had just blocked a blow from the Xuanxian Demon King, and was suddenly much weaker. Just like what the captain had said before, although his Star Shifting Technique could block the Xuan Xian, it couldn't block a few blows, and he couldn't afford that power with his current realm.

However, no one came to Omi's rescue at all, as everyone was fighting throughout the battlefield and had no time to care about anyone else, and this was especially true of the Heavenly Soldiers as the side with an even smaller number.

"What should we do? Without someone to save me, how many times can my astral shift technique block Xuanxian?"

Helplessly, Omi could only back away first.

"Hmph, if you want to leave, no way." That Xuanxian Demon King chased after him at once.

Omi was quickly stopped in front by that demon king.

"Run, have the guts to keep running." That Xuanxian Demon King was full of disdain.

After saying that, the Xuanxian Demon King once again killed Omi.

&nbsp;

; Omi could only use the Star Shifting Great Law on him again.

"Boom." Omi's Star Shifting Great Law once again repelled the other party.

Omi used his opponent's power to repel him, this form could not seriously injure him at all.

"I must think of a countermeasure, if, I can store all the energy of the demon soldier's attack in my body and explode with a single strike when needed, so that I can greatly strengthen my power, but, the Star Shift Great Law doesn't have this function at all ah. The Star Shift Great Law can only transform someone else's attack into power and transfer it back to them while they attack you."

Omi's idea was like a storage battery that could store power in his body, if he met a stronger one, he would take out a stronger power, if he met a weaker one, he would take a part of it and store a part of it, in that case, it was suddenly much stronger.

Omi escaped again, and when Omi escaped for a few dozen meters, that Xuanxian Demon King came after him, but then, Omi closed his eyes in place.

Omi instantly entered the depth space, but he only had a few seconds to do so.

After entering the depth space, Omi immediately upgraded the Star Shift Great Law.

Omi had to modify the Star Shifting Great Law so that the Star Shifting Great Law could not only divert attacks, but also store power, already achieving the purpose of exploding with a single strike when needed.

Perhaps thinking particularly freely in times of crisis, Omi quickly modified the Star Shifting Grand Law.

The modified Star Shifting Great Law, to be precise, was no longer the Star Shifting Great Law, but an Immortal Law more advanced than the Star Shifting Great Law that could not only divert attacks, but also store them.

Omi named his upgraded Star Shifting Great Law: the Star Storage Great Law.

At this moment, in the outside world, it was only a second or two before that Xuanxian Demon King had caught up to Omi.

"Hmph, it's already this time, and you're still sleeping, go to hell."The Xuanxian Demon King seemed to have run out of patience, after all, a Heavenly Immortal had actually let him escape twice without killing him.This time, a single strike would kill him.

"Buzz."When Omi opened his eyes, the Xuanxian Demon King's spear had already reached Omi's chest and was about to pass through it.

However, in the next second, a blue light appeared on Omi's skin, and the Demon King's spear head resisted that blue light, unable to advance half a point further, the power carried by the spear was instantly absorbed by that blue light.

That's right, Omi, in the nick of time, used the Star Hidden Law, instantly storing the opponent's power in himself.

After storing the other party's power in himself, Omi made another unexpected discovery, he had just been a bit exhausted, but now that he had stored the other party's power, he suddenly became full of power.

Omi smiled, "Come on, continue."

"What's going on?What kind of immortal magic did you practice?"That Demon King asked in shock, he had already made three consecutive kills against Omi, the first two kills were blocked by Omi and he was also somehow blown back.The third kill, however, was still blocked, the difference was that he himself was not blown back.

"Cut the crap and keep killing me."

Omi now had to store up his power a few more times, and then kill him all at once, and then it would be to kill him back with several times his opponent's power.

That Xuan Xian Demon King was furious and killed Omi again.

"Boom."

**“Boom.”**

Two more times in a row.

At this moment, Omi’s body had stored the power of the other party’s three attacks.
