“Very well, that doesn’t disappoint me, so let’s go and go for the assessment.”

Omi followed the Three-Eyed War God to a magnificent hall.

The Three-Eyed War God pointed to a doorway in front of him and said, “Go in.”

“Oh.” Omi walked into that doorway in the grand hall, which was dark.

At that moment, Omi’s ears rang with the voice of the Three-Eyed War God, “Omi, you are about to enter the Sacred Ancient World, your assessment is simple, live in the Sacred Ancient World.”

“How long do I have to live? How many days?”

“Not a few days, but a long time, when you step into the Xuanxian, you leave the Sacred Ancient World, but of course, you must successfully pass the final assessment, so cheer up.”

“Ah, so long.” Omi was dumbfounded, he was now a mid-Dao Immortal, to step into the Xuan Immortal, it wasn’t something that could be achieved in a short period of time, and what final assessment was there.

The Three-Eyed War God said, “Everyone who enters the Heavenly Wolf Battle Team has been assessed this way, truth be told, at this moment in the Sacred Ancient World, there are two others like you who have yet to come out of the assessment inside, well, good luck.”

After saying that, Omi felt his surroundings suddenly change, Omi appeared in a primitive place filled with savages, the kind of ancient tribes.

The savages here were so ugly that they simply couldn’t be described as human. A second to remember to read the book

Just then, a wild man saw Omi, and that wild man immediately whined, not knowing what words he said, and then jumped at Omi.

Omi’s eyes looked, and the savages that jumped at him, surprisingly, every single one of them was a mid-Dao Immortal, and even a child savage not far away was also a mid-Dao Immortal.

“This, how is this possible.” Omi was dumbfounded.

Countless wildlings, countless mid-Dao Immortals.

Omi no longer had time to think too much and immediately made a sword move to kill the savage that jumped on him.

However, no matter how Omi killed it, in less than a minute, the dead savage came back to life intact, which was just to hell.

With just this nest of savages, Omi could not finish killing them even after several hours, Omi seemed to be in an endless killing spree.

However, the savages wouldn't die, while Omi would die, and the strength in his body gradually diminished.

Omi had been killing for several hours and could no longer carry it a bit.

"Ahhhh, is it, am I going to die just after I f*cking come in? I can't even finish killing them if they die and come back to life like this, no, I have to run first."

Although they were both mid-Dao Immortals, these savages were no match for Omi, but a swarm of them could bury Omi with all their blood.

At this moment, in the distance, a man and a woman were standing on top of a tree.

The man said, "Here comes another assessment."

The female nodded, "That man, his fighting strength is not bad, all at the same level, he feels like he's killing weaker ones."

"As strong as he is, he's not as strong as you."

"That's not necessarily true, maybe he's saving a hand."

"It's been hours and he still hasn't finished killing, it's not like he's saving a hand. If he doesn't kill all the savages within a minute, the savages will keep resurrecting all the time, but there are a hundred savages besieging him at the moment, and killing a hundred of the same level in a minute is not something that a normal newcomer can do."

"I don't know what's going on with this kid, when we first entered the Sacred Ancient World assessment, our first encounter was only fifty or so savages, and he, directly a hundred, this appetizer is good."

&nb

sp; "Random, anywhere from fifty to a hundred."

"Are we going to go up and help him a bit?" The woman said.

"Or no he can still manage on his own, but if he really can't, let's talk about it."

Omi tried to run, but he couldn't, because no matter how he ran, he was within range of this nest of savages.

"Shit, do, do I have to kill all the wildlings?"

At this time, Omi had a clever idea, these savages, usually resurrected in about a minute, if, he killed all the savages in a minute, wouldn't that smooth his escape? But killing a hundred of his peers a minute, Omi had never done it before, and the savages here were much stronger than the ordinary mid-Dao Immortals outside.

"Looks like I have to kill all the savages in a minute."

Omi began to work in this direction.

Omi put out his milk strength, and finally, he killed over fifty within a minute.

"No, it's still halfway there."

"Come again."

Omi continued again, but unfortunately, his combat power was already at its highest, no matter how much he killed, he still couldn't kill all of them within a minute, and Omi didn't hide his combat power, so it was useless to try again.

Omi's Star Hidden Technique couldn't be of much use in this situation.

For the first time, Omi felt that he was actually quite weak.

Omi was getting exhausted, if he continued like this, he was really going to die here.

"I must have my fighting power, the power of my Star Hidden Great Law, increase in an instant."

Omi immediately closed his eyes and entered the depth space.

Unfortunately, when Omi opened his eyes half a second later, he didn't do it, meaning that Omi's idea to upgrade the Star Hidden Great Law had failed.

Of course, it could also be that there was too little time.

"It seems that I can only start with the Sun and Moon Divine Sword and the Shura Divine Blade. The Sun and Moon Divine Sword and the Shura Divine Saber, I've trained to more than eighty layers, and the combination of the swords is as powerful as 130 layers, I must now upgrade these two Air Tearing Techniques to at least one hundred layers."

Omi closed his eyes again.

Half a second later, Omi failed again.

Half a second was about a few hours after entering the depth space, so short, it wasn't enough time.

Omi was a bit anxious.

"What to do, they all failed, which means I can't increase my fighting strength, if this continues, I'll be exhausted in a few hours."

At that moment, Omi had a flash of wisdom.

"The swords are combined, no matter how much they are combined, it's still the Sun and Moon Divine Sword and the Shura Divine Saber, what if, I can make these two air tearing techniques, fuse them together? Has it increased in power? Blade and sword fusion?"

Omi seemed to have found a way out.

Thus, Omi closed his eyes seven or eight times in a row, and when he opened them for the ninth time, the corners of Omi's mouth smiled slightly.

“Blade and sword fusion, I’ve completed it.”

After the blade and sword fusion, Omi was no longer using the Sun and Moon Divine Sword and the Shura Divine Saber with his two hands separately, but instead, he had fused the two Air Tearing Techniques into one, turning it into a brand new kind of Air Tearing Technique.

Omi named it ‘Sun and Moon Shura’.

The power of the Sun and Moon Shura was made by fusing the strongest power points of the two Air Tearing Techniques, the Sun and Moon Divine Sword and the Shura Divine Saber.
