"Boom." Omi felt his body receive a strong force and violently flew backwards.

However, in the next second, Omi came to his senses.

Cheng Yu's distance from Omi returned to reality.

"Omi, are you considered to have lost?"

"You're the Ouroboros Galaxy, what's going on, why do I feel like I'm a galaxy away from you."

"So, I'm this Great Luo Galaxy, my opponent can't attack me at all."

"Then aren't you invincible, looking at the three realms, even the Three Eyes War God may not be able to attack beyond the galaxy."

Cheng Yu rolled his eyes, "How is that possible, first of all, someone higher than my realm, my Da Luo Galaxy may not be effective against him, and secondly, if there are many people attacking me, I can't make every one of them some. Just like those savages, I can currently, only make five hundred savages at the same time, effective against my Da Luo Galaxy."

"Understood." Omi nodded his head.

"Then, you lost to me la, which means, do you still have the strength to pass the fourth level oh." Cheng Yu smiled.

Omi said, "I said I understand, meaning, the principle of your Da Luo Galaxy spell, I understand, nonsense, you're not the one practicing this, how would you understand, you have to understand, at least the practice is more profound than mine, right?" One second to remember to read the book

"No, I've got it, Naru, I dare you to do it again."

"You're a guy who doesn't admit defeat."

"That one just now, I admit to losing, but I want to do it again."

"What if you lose to me again?"

"If I lose to you again, I'm at your disposal, you can do whatever you want me to do, even if you want me to give you a back massage."

"Hmph, I won't take advantage of you if you want to take advantage of me, but since you still want to compete with me, I'll give you a chance, and I don't believe that you've increased your strength just a few minutes before and after."

"Come on."

After saying that, Cheng Yu's eyes suddenly appeared in the nebula again.

However, this time, Omi didn't feel a galaxy away from her.

Cheng Yu didn't know that Omi was already immune to kicks, but if it was a battlefield, a sword kill would do.

Before Cheng Yu's kick reached Omi's chest, Omi caught it, a counter.

"Bang." Cheng Yu was pinned to the ground by Omi's neck, unable to move.

"Ah."

Omi let go of Cheng Yu and smiled, "You lose."

"How is this possible, how did you resist my Da Luo Galaxy spell?"

Omi laughed, "It's simple, don't think about anything, and your spell will be ineffective against me."

"Don't think about anything?"

"Yes, think of yourself like a wooden man, no matter how strong your spells are, they can't work on a wooden man, can they?"

"Hmph, that's easy to say, but the truth is, there's no one who can think of themselves as a wooden man."

"Right, so I'm the only one who can do this, and your Ouroboros Galaxy spell is ineffective in front of me."

"Damn it." Cheng Yu stomped his foot in anger.

"Alright, now take me straight through to the fourth level."

"What about the third level?"

"You can pass the fourth level, is there any need to go to the third level? Those of the Xuanxian class.

Straight through to the ultimate level, they jumped all the previous levels."

"Everyone else went through one level at a time, only you were able to jump, you're awesome. Let's go, I'll take you to the fourth level."

Soon, Omi came to a tribe, where there were five hundred savages.

"This is it, Omi, as long as you rush up there and kill all five hundred savages, you'll have passed the fourth level."

"Hehe." Omi immediately rushed up.

Omi was quite confident inside, after all, his current strength was much, much stronger than when he first came in, which was yesterday, it seemed that this Sacred Ancient World was really a place to test one's strength.

"Ow." Not long after, a group of savages rushed up and strangled Omi.

Omi also started killing furiously, and pieces of savages died under Omi's blade.

In the distance, Cheng Yu secretly said, "This guy, definitely a divine genius, only came in yesterday, and today he's so powerful. Moreover, he must be very good at close combat arts, and those who are strong in close combat are actually the ones who have the best way out, far more powerful than those of us who are strong by spells. Because spells are deadly, once they meet a deadly nemesis, they're almost useless, but close combat arts, however, can be changed at any time according to the situation, and their battleworthiness is far stronger than spells. Who the hell was he? I've never heard of him before, and besides, he's so handsome."

A minute later, when Cheng Yu looked at that tribe again, there were already bodies and rivers of blood everywhere.

Omi exhaled deeply, although this Saint Ancient World was virtual, but everything was real, killing so many savages was disturbing inside, but these savages, surely they would be resurrected again, they were just tools.

Omi picked up his palm and looked at it, it was written in his palm, the fourth level passed.

"Hehe." Omi walked back to Cheng Yu.

"Congratulations, Omi, you've passed the fourth level, I entered the Sacred Ancient World more than a thousand years before you, yet the progress is the same as the person you are today for a day, should I be sad, or am I sorrowful." Cheng Yu said with a sigh.

"Come on, you're not like me, you're a spell practitioner, as long as your spells improve, your ability to kill enemies improves, while I'm not a spell practitioner, I'm able to kill five hundred people, but I don't know how to improve my strength if I have to kill another eight hundred people. In addition, the Sun and Moon Divine Sword and the Shura Divine Saber that I refined are both just very ordinary air tearing techniques compared to the Heavenly Realm."

"Right, right, I was just about to ask you, how did you become so strong when you practiced such an ordinary Air Tearing Technique? The Sun Moon Divine Sword and the Shura Divine Saber are the last few Air Tearing Techniques ranked in the Heavenly Realm, but you, you're practicing as powerful as the top ten ranked Air Tearing Techniques."

"Haha, you're asking a good question, because, what I've practiced is no longer exactly considered the Sun-Moon Divine Sword and the Shura Divine Saber, I've fused these two, combining the strongest aspects of these two Air Tearing Techniques into a new set of Air Tearing Techniques, named, Sun-Moon Shura. Not only that, I also perform Sun and Moon Shura with both hands at the same time."

"You are truly an absolute genius."

Omi shook his head, "No, there are too many people who are more talented than me, you were able to enter here, your talent is not inferior to mine at all, it's just that we are not in the same place, perhaps your talent is in spells, while my talent is in, the creation of the Air Tearing Technique."

Right at this moment, Omi suddenly seemed to come to a realization.

Yes, Omi had always been gifted in this area, starting from the mortal realm, and the secret of martial arts was something as simple as a villain's book to Omi.

Omi said inwardly, "I should, focus on this aspect, I don't have to demand every aspect to be powerful, focus on one thing, one direction, I will be able to succeed ah. I want to learn alchemy, and I want to learn magic, and so on. I must make a choice, give up the others and specialize in one."
