Omi said, "You just want to test me, right."

This man, who was also an early Xuan Xian, didn't know how strong he was.

"Hahaha, talk about not testing, just wanting to cut and cut with the newcomers, and by the way, ravage the newcomers to find the balance of the old team members who ravaged me when I was new." The man said, "Every newcomer gets ravaged by the old team, that's the rule. Finally, today he could too."

Omi said in his heart, "I still don't know who ravages who."

When Omi went through the Sacred Ancient World Ultimate Pass assessment, it only took him ten seconds to complete it, which showed that Omi's strength was far superior to anyone other than those who came in through the assessment.

Moreover, this man was still using a sword, and swords were something that Omi thought that no one should know better than him.

Omi said, "Then I'll understand."

"Kid, aren't you nervous at all? If you plead with me, I might be a little lighter." The man said back.

At this moment, in the distance, a few people from the Sky Wolf Battle Team were looking at this place.

One of them said, "Back then, Du Fei, he was abused very badly, that's why he's so actively proposing to test the newcomer this time, so he wants to avenge the abuse he suffered back then."

"Ugh, I'm now worried that this newcomer will be abused by Du Fei and leave some kind of psychological shadow." Remember the URL [.kanshu8.net](http://kanshu8.net)

"Pray for that new kid."

A woman said, "Should we go persuade Du Fei to do something a little more measured?"

"Xiao Yao, you're too kind, Du Fei can't kill the new kid, besides, every new kid has to go through this hurdle."

"Alright, stop it, Du Fei has already done it."

Those few people were busy looking over, and sure enough, in the distance, the one called Du Fei, suddenly drew the sword on his back that side.

"Haha, boy, have a taste of my Taiyi Divine Sword." This Du Fei, he practiced the Taiyi Divine Sword, which was a very advanced sword technique.

Omi felt the hairs on his body stand on end, the moment Du Fei made his move, Omi seemed to feel that this person's sword technique was brilliant.

"What a brilliant sword, slow in the fast, slow in the fast, false in the false, as soon as you strike it seems like it's over, but it ends as if it's just been struck, high, high."

Omi was delighted, and in a flash, he realized it, and, in the blink of an eye, Omi added this sword intent to his own Heavenly Yuan Great Compassion Sword.

When it was too late, Du Fei's sword was already in front of Omi.

Omi also suddenly killed it with a sword.

"Ah." Du Fei was shocked.

It was as if Omi's sword had an overwhelming advantage, scattering all his sword power.

In the next second, Omi's sword was pointed at Du Fei's neck.

"This."

It was over as soon as it was done.

This was Omi's sword.

Originally, Omi's sword wasn't this clever because it had just added the essence of Du Fei's Taiyi Divine Sword, so Omi's Tian Yuan Great Compassion Sword was several times stronger than before.

It could be said that at the moment, Omi's Heavenly Yuan Great Compassion Sword was now incorporating the essence of the twelve sword techniques.

"You've lost." Omi said.

"How is that possible, you're new here, why, why did I lose to you." That Du Fei seemed to be stupid.

Omi snorted, "You're too weak."

"Bang." Omi kicked Du Fei flying.

Du Fei screamed and flew down.

At this moment in the distance, the ones watching were dumbstruck.

"Oh my god, this isn't real.

, Du Fei actually lost in one move."

"This newcomer is too strong, but Du Fei practiced the Taiyi Divine Sword."

"I really don't know what Du Fei's grandfather, Taiyi Immortal, would think if he knew that his grandson had actually lost to someone else in one move."

"Don't you all see that the sword issued by that newcomer also carries a little bit of the flavor of the Taiyi Divine Sword?"

"Alright. Don't say that, the next person to test, Yao Fang, hurry up, there are a total of six of us testing him, we don't want to all lose to him."

The woman called Yao Fang nodded, "Don't worry, I'll make sure he knows how powerful our old team members are, we can't let a newcomer bully him, or else it'll be humiliating."

After Omi defeated Du Fei, he continued to walk forward.

Omi knew that there must be someone else testing him at the back, there couldn't be just one, and the further he went, the stronger he would definitely be.

Omi also wanted to know how strong his Great Sorrow Sword was, especially after just incorporating that person's very profound sword intent again.

As Omi continued to walk forward for a few minutes, a woman in a pink dress jumped down from a tree.

This woman was average looking, but the two dimples on her face were very obvious, the woman smiled slightly, "Newcomer, not bad, actually defeated Du Fei."

Omi said, "You're also here to test me, right, introduce yourself before you do it, my name is Omi, what about you?"

"I want Yao Fang."

"Okay, I'll let you do it first."

"Uh, why let me?"

"Because you're a woman, and I'm afraid the fight will be over once I make the first move."

"Yoo-hoo, newbie, you're wild."

"I just fought the first person who made a move, and the fight ended once I did."

"Omi, why are you so confident that you can defeat me? Do you know that Du Fei has lost to me." That Yao Fang said.

Omi said, "Because, the sword you are using is also a sword, I am self-confident that no one at the same level as me has been able to beat me in the sword."

This was the reason why Omi dared to be wild, if the other party was using spells and such, Omi wouldn't dare to lie, after all, spells weren't Omi's strong point, but swords, Omi was full of confidence, after all, he was a man who had become an immortal from a mortal because of swords.

"Good, then I would like to see if you can beat me, take out the sword, no one has to let go."

"Buzz." That Yao Fang took out his sword.

At the same time, Omi also took out his sword.

It was as Omi said.

That Yao Fang's sword hadn't even been completely pulled out, Omi's sword was already pressing over like a landslide, and this pressure from the sword was suddenly like a king of the forest, oppressing the ten thousand beasts into submission. It was as if Yao Fang's sword was scared by Omi's sword and didn't dare to sheath it.

In the next second, Omi's sword was already pointed at that Yao Fang's neck.

"Ah." Yao Fang's face went white.

Omi said, "It's over."

Yao Fang felt ashamed when she heard the three words ended, and sure enough, Omi had ended it as soon as he shot his sword.

Yao Fang saw a hint of the Taiyi Divine Sword from Omi's sword, but not entirely, in short, it was very complicated.

"I lost, Omi, you're amazing, you're simply the second generation of the Sword God." Yao Fang said.

"Thank you."

"Welcome to Team Skywolf, but don't get carried away just yet, there are four brothers waiting for you down there. One of them is stronger than the other, especially the last one, the team leader of our Skywolf Team 9."

"Good." After saying that, Omi continued to walk forward.
