Omi felt very smooth, he took the essence of the Heavenly Yuan Great Sorrow Sword and completely integrated it into the Five Ultimate Blades.

Originally, the Five Ultimate Daggers was just an ordinary, uncommon duel, but after Omi upgraded it, it was almost not the original Five Ultimate Daggers anymore, it was a complete makeover, more than a thousand times stronger than the original.

Omi regretted offering such a good duel to the Dragon Clan, but if he didn't choose it in the end, it would be too much of a loss. The Five Ultimate Blades that Omi had upgraded were completely as powerful as his previous Heavenly Yuan Great Compassion Sword, which had been a first-rate martial art.

In the end, Omi had figured out that he already had the Shadowless Divine Sword anyway, it didn't matter, and that he could still practice the true Ultimate Sword after the Overturning Mirror was completely restored in the future.

"Phew, it should be almost time." Omi opened his eyes.

When Omi looked, the number of people sitting in place in the main hall was more than ten times greater than before.

Everyone was closing their eyes, and the entire palace was incredibly quiet.

Omi should have been the first to open his eyes.

Omi didn't know until he asked around that it had only been half a year since the time had passed.

There were still half a year left until the end of this level, and everyone else was scrambling for time, but Omi was like a student who handed in his papers early, waiting for the end of time.

"No, waiting like this isn't an option, I'll simply use the remaining time to see if I can upgrade a bit more powerfully, so I'll be more confident." Remember the URL .kanshu8.net

So, Omi upgraded for the second time.

This time, Omi came up with a bold idea.

"Why can't I incorporate a little bit of the essence of the Shadowless Divine Sword into it? If I incorporate the essence of the Shadowless Divine Sword, then the power of the Five Ultimate Blades that have been upgraded by me can at least increase again, and it's possible that they're hundreds of thousands of times stronger than the original Five Ultimate Blades."

"However, it's too cheap for the Dragon Clan for me to make out such a strong duel, and the Five Ultimate Blades that are integrated into the Shadowless Divine Sword, I dare say that although it's not as powerful as the real Shadowless Divine Sword, it's up to a tenth of the real Shadowless Divine Sword."

“Do I need to fight so hard?”

For some reason, Omi’s never-failing personality told him that it was needed.

Thus, Omi decisively upgraded again.

Omi took some of the essence of the Shadowless Divine Sword and incorporated it into the Five Ultimate Blades.

Finally, Omi opened his eyes just as a voice sounded in his ears, “The one-year period has come to an end, please everyone, stop and sort out your dharma, the fairest test will be held later.”

Omi took out a memory stone and memorized his upgraded Five Ultimate Blades into the stone.

Ming Cheng came over and asked, “Brother Tang, how are you doing?”

“Me? That’s good.”

“I’m probably miserable, my upgraded heavenly arts don’t seem so good.”

“Why are you so unconfident.”

“You know, I haven’t even created or upgraded any of my own techniques before ah.”

“It’s fine, it’s heavy participation.”

“I’ve heard that there are a few truly superb geniuses among the participants in the son-in-law selection contest this time, and two of them, moreover, were rated by the Immortal Court as one of the top twenty geniuses.”

“Oh, judged by the Immortal Court ah.”

“To be judged by the Immortal Court, that’s by no means ordinary, that monetary content is hundreds or thousands of times more than the title of Heavenly Wolf War God.”

“Oh, so terrifying.” Omi was also looking forward to it, he also wanted to see who was stronger and weaker between the Five Ultimate Blades that others had upgraded and the Five Ultimate Blades that he had upgraded.

sp;At this moment, a strong dragon shouted, “Everyone, in front of you, there are two doors, one of them is called the Heavenly Dao Door, and the other one is called the Five Ultimate Blades Door. Now, each of you, use your upgraded Heavenly Dao technique, or the Five Ultimate Blades, to attack the corresponding door, if you can open it, it means that your upgraded dharma is eligible to be scored, if you can’t open it, it means that your upgraded dharma is so bad that it’s not even eligible to be scored, and you don’t have to enter the next hall to be scored, so hurry up and leave.”

“One by one, start.”

All the people in the main hall walked to the two doors in front of them and used their upgraded Heavenly Dao techniques, or the Five Ultimate Blades, to attack the protection brought on that door.

This protection wasn’t strong, but not everyone could break it either.

Out of ten people, almost only one, or even zero, could break the protection on that door.

Those who couldn't break the protection, suddenly felt very ashamed, indicating that their upgraded magic duel was too poor, and left quickly, not daring to stay longer to avoid being conspicuous.

Soon, it was Ming Cheng's turn.

"Heaven's blessing, I must be allowed to pass through this gate, otherwise, so humiliating."

Ming Cheng came up and used his upgraded Heavenly Dao technique to attack.

"Boom."

The first strike didn't break.

"Damn."

Ming Cheng immediately made a second attack.

Each person only had three attacks to make.

"Boom."

The second time, it still didn't break.

Ming Cheng felt a bit humiliated, there were still many people watching him from behind.

At this time, Omi transmitted: "Concentrate on attacking the very center of the protection, don't think about it, so as not to bring in distractions and affect the power."

Ming Cheng seemed to have comprehended.

Ming Cheng closed his eyes and didn't think about anything, concentrating his attack on the most central point.

"Boom."

"Pop."The protection of the Heaven's Path Gate broke.

"Yay."Ming Cheng was so happy that he happily walked in through that door.

After passing through that door, he entered another majestic palace.

Soon it also reached Omi.

Omi didn't put it in his eyes at all, Omi chose of course the Five Ultimate Gates, this kind of protection of the Five Ultimate Gates, it was estimated that as long as it was upgraded to be more than ten times more powerful than the original, it would be possible to pass through, and Omi, the upgraded Five Ultimate Blades were at least hundreds of thousands of times stronger than the original.

Omi casually used a bit of the Five Ultimate Blades, without even using his strength.

"Pah."The protection broke.

"Wow." The few Dragon Race experts responsible for guarding the scene were shocked, Omi didn't even use his strength to break the protection of the Five Ultimate Blades, even they didn't know when the Five Ultimate Blades had been so powerful. Of course, what Omi used was indeed an upgrade of the Five Ultimate Blades, they could testify to that, otherwise it would be considered cheating.

Omi passed through that door and entered the next great hall.

As soon as he entered the next palace, Omi immediately felt that there were many powerful impositions coming from the front of the palace.

Omi's eyes lifted, and he actually saw the Three-Eyed War God, the Wind and Fire War God, the Dragon Bone War God, and even the Heavenly Ling War God sitting in a similar place in front of him at a judge's table.

These powerful War Gods were all invited by the King of the Dragon Clan to be judges, they were certainly happy to sell the King of the Dragon Clan this face, so they all came.

Omi was a little embarrassed when he saw the Tian Ling War God, but of course, at the moment, the Tian Ling War God was smiling and looking at Omi meaningfully.
