

King of kings

2422

Fairy Mother came up.

"Fairy Emperor."

"What is it."The Immortal Emperor didn't have a good look, the thought of the Immortal Mother being naked by the Dragon King didn't make his heart feel good, and now that he had wiped out the Dragon Clan, the hatred in his heart couldn't be diminished at all.

"Immortal Emperor, was it all worth it?In order to exterminate those forces that call Omi king, you have enhanced the Three-Eyed War God and dozens of others by five hundred times, is it worth it?"

"I don't know, but when I think of Omi's arrogant face, I can't stand it."

"Immortal Emperor, if, I mean if, the Three-Eyed War God, the Heavenly Ling War God, all of them, one day they also go to the Earth Immortal Realm to become king, then, at that time, who do we rely on to destroy?Will we be able to develop the new Warlord any more?Your bottom card is gradually and gradually diminishing.Until one day, there will be no more bottom cards, at that time, it will be the day of true extinction."

"I don't know, but I don't have a choice, that Omi, who is so strong at only the first stage Immortal, once he becomes a high stage Immortal, then the original Three Eyed War God and the others will be no match, and my Immortal Court will be messed up and even destroyed by him.And now that I have enhanced them five hundred times, I think that even if Omi becomes a High Tier Battle God, he may not be able to defeat them, besides, I won't give Omi any chance to grow, and this time, I will make sure he dies."After saying that, the Immortal Emperor said, "I'm going to go to court, they're all waiting for me."

The Immortal Emperor arrived at the Nine Heavens Temple.

The Three-Eyed War God, Leng Tian Ling, Wind and Fire, Purple Hairpin War God, Free and Easy War God, Luo Tian War God, Long Hair War God, Black and White War God, Magic Taro War God, and more than thirty war gods all stood in the palace.

"I pay my respects to the Immortal Emperor."

"All of you War Gods level up." A second to remember to read the book

"Thank you, Immortal Emperor."

These war gods seemed to have even more respect for the Immortal Emperor, perhaps having tasted something sweet.

The Immortal Emperor said, "I summoned you here today, do you know what it is about?"

"Please command the Immortal Emperor."

"Now, I have easily extinguished all of the Earth Immortal Realm's kingly powers, and although their primordial gods have all escaped, there is no longer any danger, at least my sense cannot sense what they will bring in the future. However, there is only one person who still terrifies me, and that is Omi. Next, I want you to go after Omi, and whoever among you can kill Omi, then I will enhance him to 600 times again."

"Ah." Thirty War Gods face aside, it can still be enhanced, how strong is the Immortal Emperor's card.

"Yes, Immortal Emperor."

So hoo, more than thirty war gods set off, now with their enhanced strength 500 times, they could definitely kill Omi in seconds when they encountered him, not to mention that Omi was still only a first stage Immortal.

At this moment, Omi was underground in a mountain range.

"Ahhhh." Omi shouted in frustration.

"We've been hiding here for a year, how the hell do we plan." Don Omi said.

Shenny said, "Again, if you take your relatives with you, they will die, and if you don't, they too will be found and killed by the Immortal Emperor. It's an unsolvable question, and I have no way to decide for you."

It was because of this problem that Omi was still here after only a year.

Although it was possible for Thousand Extremities and the others to all hide in Omi's Qiankun Stele, the place the divine Nun said was extraordinary, and it was useless to hide anywhere.

Right at this moment, Gao Xiaolian shouted, "Zi

Minister, there seems to be someone on the next mountain."

Omi immediately rushed up, and on the next mountain, he saw a figure made up of Yuan Shen.

"What kind of person?" Omi shouted.

The man turned back and said in fear, "Fellow Daoist, don't be impulsive, I'm the Destruction Sect Master."

"The Lord of Destruction?" Omi took a serious look at it, and it was really the Yan Sect's Destroyer.

Omi had gone to talk to him about an alliance before, but unfortunately, he was rejected.

Omi snorted, "Good you Destruction Sect Master, where's your flesh?"

"Alas, forget about it, my flesh was destroyed, and now my Yuan Shen is still seriously injured."

Omi said in shock, "What happened?"

"The Immortal Court has annihilated my Inferno Cult." The Cult of Destruction said.

"What? Your Yan Religion was also annihilated?" Omi was horrified, the Ten Thousand Purple Mountains and the Dragon Clan had only been exterminated for just over a year, and the Yan Sect was gone? What is this Immortal Emperor doing.

"Brother Tang, don't you know?"

"I'm sorry, I haven't heard, I've been in this mountain range for over a year, I don't know anything about the outside world, of course, I know that the Ten Thousand Purple Mountains and the Dragon Clan were exterminated."

Destroyer Patriarch said, "Brother Tang, nowadays, it's not only the Ten Thousand Purple Mountains and the Dragon Clan that have been exterminated, as far as I know, the Horned Goat Sacred Ground, the Dark God Palace, the Earth Demon Clan, the Green Man Family, and the Thunder Valley, all have been exterminated, as for how many people are still alive, I don't know."

Omi's face changed dramatically, oh my god, he had only been hiding at the bottom of the mountain for a year, and so much had happened in the outside world, several of the strongest forces in the Earth Immortal Realm had been exterminated.

"How did this happen?"

The Destroyer Patriarch said, "Brother Tang, it's fortunate that you've cancelled your claim to the throne ah, otherwise, I'm afraid that you would have died physically as well, even the primordial spirit."

Omi snorted, "Don't call it so dear, what brother Tang, when I went to your alliance, how did you treat me, and bombarded me away, and said I shouldn't harm you, the result, hmm."

The Destroyer Patriarch was ashamed, "Brother Tang, I was wrong about that incident, I didn't f*cking expect that it would end like this. Originally, I only wanted to offend no one, but I never expected that the Immortal Emperor would never tolerate us. The Immortal Emperor seems to have enabled his Hong Meng heart card, using a year to strengthen the Immortal Court's more than thirty war gods by several hundred times. We are far from being a match. And the Immortal Emperor is afraid that we'll go up to the Immortal Court and cause trouble within that year, and trick us into acknowledging our legitimacy, heck."

"Alright, it's not appropriate for me to be away from my loved ones for too long now, I'll be living in the next mountain." After saying that, Omi flew away.

The situation was now very unfavorable.

The Destroyer Patriarch said, "Brother Tang, can you let me stay with you? You can shield the Immortal Emperor's senses, and I'm afraid that the Immortal Emperor will pursue me relentlessly."

"Whatever."

"Thanks." The Destruction Patriarch immediately followed Omi and felt much relieved, if he didn't follow Omi, he might have been found tomorrow, he was now severely injured and had no resistance at all.

Omi asked, "Destroyer Patriarch, is it that other people, like you, are also afraid of being found by the Immortal Emperor?"

"Of course, the previous Ten Thousand Violet Great Sage, his Primordial Spirit also escaped, and the Dragon King's Primordial Spirit also escaped, they all must be afraid of being discovered and hide every day."

"Ah." Omi said inwardly, "I must quickly go to Grandpa Dragon and find his Primordial Spirit, so that I can shield him from being discovered by the Immortal Emperor."

Omi seemed to have found the most important thing at the moment.
