

# King of kings

## Chapter 2431

"Khan, there are thousands of people inside, where can I save them, besides, what good would it do me to save them."

Dragon Bone War God said, "That can't be said ah, only those of us who have been sucked in know how painful that feeling of having no hands and no feet is, if you can, save them, I think they will be grateful to you. Besides, throughout the ages, those who have the guts to come here are definitely not weak, maybe every single one of them is a high-ranking War God, if you have so many high-ranking War Gods under you, what do you think will happen?"

Omi's heart moved and said, "You're not wrong about one thing, they are indeed all at the level of high ranking gods, but are they really willing to be my underlings if I save them?"

"They don't have a choice, and in terms of fighting alone, they're certainly no match for you, after all, you're the first person to make the Immortal Emperor use his Hong Meng heart, and no one else in history has been able to do it but you."

"Well, I can think about it. Let's stop talking for now, I'll take you to meet up with the others."

Omi brought the divine nun and the Dragonbone War God to the entrance of the Evil God's ruins.

The others were all there cultivating.

The Ten Thousand Violet Sage was the first to see it and shouted, "Omi is back."

"What? He's really back, and he's even rescued both Godni and Dragonbone."

Everyone gathered around, very excited.

"Omi, how did you find them?" The Dragon King is busy asking. A second to remember to read the book

Omi briefly told everyone about the situation there.

"Tsk tsk, Brother Chen, you're amazing." Thunder Valley Master said with an adoring face.

Omi smiled, "I can't say that, I'm also lucky, it just so happens that the emptiness of that place is what I know about the Three Null Spaces, if not, I'm afraid I'll never get out when I go in."

Omi felt chills thinking about it, because there were still thousands of people inside, still floating there, the earliest of these people, it was estimated that they had been floating for tens of billions of years, what a long time.

Omi had ventured in to save the people, and it was also very daring.

The Destroyer Patriarch said, "That's true, but no one in the world knows what the Three Null Spaces are, just you, it's not luck, in short, we're really following the right person by following you."

“Oh.”

Omi looked towards the Evil God Relic.

Inwardly, Omi said, “If I’m not wrong, I’m afraid the Evil God Relics are all similar places, Senior Blue Emperor said that my strength isn’t enough to enter, perhaps, it’s just that my current strength can’t resist the three no-space. Unfortunately, he doesn’t know that I’m insightful of the rules of the Three Nothing Spaces, hehe, so to speak, I’m capable of entering the Evil God’s Relic, I must go in and make my way through.”

Omi said, “You continue to cultivate here.”

“What about you?” The crowd asked.

“I want to enter the Evil God’s ruins to take a look.”

“You’re crazy, didn’t Blue Emperor tell you that with your strength, you can’t go in yet.” Nian Shi was busy.

Omi laughed, “That’s because, I didn’t know before that the space in the Evil God’s Relic was similar to the Three Nothing Spaces, and also, the Blue Emperor didn’t know that I understand the Three Nothing Spaces, and I’m fully capable of coming and going in the Three Nothing Spaces, so I’m already qualified to enter the Evil God’s Relic.”

Everyone didn’t speak.

Gao Xiaolian asked, “What kind of space is the Three Nothing Spaces, can you describe it.”

“Haha, ask this question to Jie and the Dragon Bone War God, they know it well

.”

The Dragon Bone War God said, “I’ll be damned if I ever want to feel that feeling again, in that kind of space, you only have one thought, the rest, you can’t feel any, you can’t feel your limbs, you can’t feel space, you can’t feel time, nothing, you’re very, very anxious, but there’s just nothing you can do, you’re like a drop of air, it’s so hard.”

The Dragonbone War God was terrified.

So was the divine nun, and she didn’t want to experience this feeling of having no hands or feet anymore.

The more this happened, the more everyone worshipped Omi.

Omi, however, was one who had insight into this kind of rule, how smart of a brain it had to be.

Previously, Omi had used this kind of rule to create the Three No-God Swords, so Omi’s strength, which was only at the first stage of Immortality, had hung on to so many War Gods.

However, Omi knew that the Three Nothing Divine Swords he created were only one-sided.

Omi said inwardly, “If I could create a Three Nothing Space, then I would be truly invincible and would have already killed Immortal Emperors hundreds of blocks in seconds.”

However, this was delusional for the time being, as the Blue Emperor, Qin Zhong, and such powerful people were not yet capable. And the fact that this Evil God Relic had such a space meant that the owner of this Evil God Relic, he definitely had the ability, and perhaps, really had to become a 'God' level to do so.

Omi said, "You guys wait for me here, I'm going in."

"Really go in."

"Or what, I'm leaving."

Omi didn't hesitate at all and immediately rushed inside the gate of the Evil God Relic.

After entering a certain distance, Omi really felt the presence of the Three Nothing Spaces.

If it was anyone else, they would definitely not be able to enter and float there, but Omi, however, flew straight ahead.

Omi flew for a long time and didn't see any, feeling very much like outer space.

"Damn, the Evil God Relic is so huge."

It was as if, the Evil God Relic was as big as a bird's nest, while Omi, was a speck of dust in the nest.

Just then, Omi saw, far ahead, a glowing house in the void, as if it was as bright as the sun.

Omi immediately rushed towards the glowing house.

After rushing for almost three days, Omi approached the glowing house.

Omi saw at a glance that in that glowing house, several people were sitting inside, and Blue Emperor and Qin Zhong were among them.

"Ah, they're here." Omi said in his heart.

At that moment, a gaze from inside the house suddenly shot out, and that person was shocked to see Omi outside in the void, seemingly because he was shocked that Omi was able to come in when he was only a Beginning Immortal.

The Blue Emperor also took a glance outside the house, because this was the space in the Evil God's Relic, so with their kind of strength, they couldn't feel Omi even if he was standing behind them, and the space here couldn't be measured by the normal space outside.

"Omi." The Blue Emperor was shocked when he saw Omi.

Qin Zhong and the others were also awakened and looked outside.

"How could he come in." Qin Zhong's body trembled.

Omi walked in from the doorway of that house.

"Senior Omi, pay my respects to a few seniors." Omi paid his respects.

The Blue Emperor said incredulously, "Omi, how could you have entered?"
