

King of kings

2434

"Tzu-Chen, tell me about you." The Dragon King smiled with anticipation.

Omi nodded and said, "Before I entered, I had an inspiration that I was going to create a three-nothing domain, and now, after fifty million years, plus deep space, and an actual research time that is estimated to be no less than a billion years, I've finally succeeded."

"Wow, really?"

"Brother Chen, tell me quickly, what exactly is your Three Nothing Realm."

Everyone looked at Omi with burning eyes, the Dragon King and Nianxi's point of peeking through the rules of the Three Nothing Space was far from Omi's.

Omi said, "It's just a pity that my three no-space field is at most within five meters, please try to get as close to me as possible and within five meters of me."

Everyone immediately stood within Omi's five-meter range.

Omi suddenly launched the Three Nothing Domain.

"Ah." In the next second, everyone floated involuntarily, and although it was far from the void in the ruins, it just made everyone unable to control their bodies.

The Dragon King and Nian Tides, as well as Mu Qianji, quickly escaped from Omi's three no-space restrictions and left the five-meter radius.

At this moment, Nianxie was shocked inside, although she had peeked into the rules and could get rid of the restraints, it was far from the five meter range that Omi could create on his own. One second to remember to read the book

"Alright." Omi instantly cancelled the three no-space.

The green man old king said with an adoring face, "Brother Chen, you're too strong."

"Oh, it's okay."

At that moment, Fa Wu Tian asked, "Brother Minister, I have a question."

"Please speak."

"The three of them, the Dragon King, have peeked into the rules of the Three Nothingness Space, so wouldn't your Three Nothingness Domain be ineffective against them? Just now, they got rid of your Three Nothing Realm Binding."

Omi said, "They can only just get rid of my Three Nothing Domain Binding, but they will never be a match for me."

The Dragon King said, "Omi, why don't you come with me and try?"

"Yes, Grandpa Long."

"Omi, then I'm not going to be polite." After saying that, the Dragon King attacked towards Omi.

Unfortunately, Omi didn't even look at it.

Any attack from the Dragon King, as soon as it entered the range of Omi's Three Nothing Domain, it was reduced to zero, and the Dragon King couldn't even touch a piece of Omi's clothes.

Omi, on the other hand, blew a random breath of air from his mouth in his Three Nothing Realm.

"Boom." The Dragon King was instantly blown thousands of meters away, as if he had been struck hard, and smashed headfirst into the mud thousands of meters away.

"Ah." Everyone was stupid.

Omi blew a breath, and the Dragon King was, oh my god.

You know, the Dragon King's strength at the moment was three or four hundred times stronger than before.

The Lord of Destruction, the Lord of the Byzantine Palace, the Lord of the Thunder Valley, Fa Wu Tian, and others were all looking at Omi foolishly.

Even Nian Xie was staying there right now, although Nian Xie was stronger than the Dragon King, but if they fought Omi, then the result would not be any different from the current Dragon King.

It took about a minute before everyone calmed down.

Unbelievably, "Brother Chen, you're too strong, too."

"Oh my god, tell me that's not true."

"My god, if Brother Chen had just farted instead of blowing a breath of air, he probably would have been able to collapse the Dragon King just the same."

Omi chuckled, in fact, this guy was really

That's right, just a casual breath of air followed by a fart is about the same, so it's established that a fart can collapse the Flying Dragon King.

Nian Shi said, "Omi, you honestly tell me, how far have you reached now that you've researched the Three Nothing Spaces? Let's say it's based on an ordinary high level Battle God multiplier."

Omi looked at Nianzhi, smiled slightly, and said, "I'm not sure about the specifics, but I think it's around a thousand times."

"What? A thousand times, wouldn't that be." Nianxie's face changed.

Omi knew what Nianxi was referring to and said, "Yes, the position of Immortal Emperor, I'm already capable of acquiring it, and the Immortal Emperor's Hongmeng Heart can increase my strength by 1000 times unconditionally, and I'm now, almost as strong as I can be."

Nian Shi sighed, "I know."

The Ten Thousand Violet Sage shouted excitedly, "Brother Minister, great, now that I'm back, I can finally kill the Immortal Emperor's old son."

The Thunder Valley Lord said, "After Brother Minister becomes an Immortal Emperor, then do we count ourselves as Founding Fathers."

"Yay, as expected, it's right to follow brother minister." The Old Demon of Heaven said with a fawning face.

Omi was looking at them differently right now, after all, Omi's strength was as much as 1,000 times that of their ordinary high ranked war gods, and right now, Omi was actually still only a Beginning Immortal.

For 50 million years, Omi had been researching the Three Noetic Spaces and had not enhanced his realm, after all, 50 million years was actually not that long.

At that moment, the Dragon King returned with a grey face.

Everyone laughed loudly.

Omi was busy saying, "Grandpa Dragon, I'm sorry, it's also my first time fighting with someone, I didn't expect it."

"It's fine, it's fine, I'm happy that you're so strong, Grandpa."

The Lord of Destruction said, "Dragon King, see, but Brother Chen just blew you away in one breath."

"If that breath had just been replaced by a fart, you would have been blown away by a fart from Brother Minister, hahaha."

"Hahaha." Everyone laughed, except for Omi and the others of course.

Omi was busy saying, "Alright, everyone, don't laugh at my Grandpa Long."

"Brother Chen, what are you afraid of, the Dragon King's skin is brown." The Horned Goat Grand Sage said.

The Dragon King said, "No harm, whoever likes to mock, go ahead and mock me anyway, no matter how much you guys mock me, I'm still three to four hundred times stronger than you guys, hahaha."

The group of people became depressed and stopped talking.

Omi said, "Next, I'm going to rescue the people in the Void, then I'm going back to the Immortal Realm."

Gao Xiaolian said, "Those people floating in there haven't been able to peek through the rules of the Three Unholy Spaces until now, it seems that their strength is average, just a very ordinary high rank."

"Oh, even if it's an ordinary high rank, that's still tens of thousands of them, and there are only thirty or so under the Immortal Emperor's hand." Omi said.

After Omi said that, he disappeared and went back into the underground void.

It took Omi several hours to finally retrieve everyone who had been sucked in.

The total number of people, surprisingly, reached ten thousand and nine.

Ninety-nine percent of these ten thousand and nine people were at the level of High Grade War Gods, and among them, those who had been trapped inside for the longest time, several tens of billions of years.

After these people came out, they were all grateful to Omi and, willingly became Omi's servants and served Omi.

Omi could say that it only took a few hours to have an army of tens of thousands of high-ranking War Gods.

The Immortal Emperor, on the other hand, only had a pitiful thirty or so.
