

King of kings

2463

Omi sighed, it was just a sigh, after all, Omi had gotten the information from her mother, no matter what, for her mother's sake, it couldn't really be too much.

"Alright, get up, I'll go check on Nian Shi first, and then I'll take you there."

"Thank you Immortal Emperor." Caiyun Fei Fei was trembling with excitement.

The rest of them suddenly all knelt down as well.

"Ew, what do you all want?"

The Blue Emperor said, "Immortal Emperor, we would also like to have the ability to follow you and assist you, can you, help us and find our inheritance as well, please?"

Omi said, "Not everyone has an inheritance, among you, only five of you, Caiyun Fei Fei, Blue Emperor, Ancient Yan, Purple Rain, and Black Stone, are descendants of gods. Xing Yue, Tian Gao, none of them are."

Star Moon and Tian Gao were busy saying, "Immortal Emperor, even if we are not the offspring of gods, then we must be the offspring of a once powerful party, we two, will we also have an inheritance ah, but a smaller one."

Omi flew away and said as he flew away, "Since you are both willing to follow me, I will help you, after all, we all live in the same world, in the future, there might be a common resistance against foreign enemies."

After saying that, Omi disappeared and instantly appeared in the center of the Evil God's ruins.

At a glance, he saw Nian Tides. Remember the URL . kanshu8 . net

Nian Tze was very close to that ball of light.

At that moment, Nian Tides opened her eyes and smiled, "You're here."

"Nian Tides, it's been a million years, and you're already about to receive your inheritance."

"Hmph. Give me a few more tens of thousands of years and I'll definitely get the inheritance, Tzu-Chen, thank you."

"Son what minister, call the Prime Minister."

Nian Xie snapped, then closed her eyes again.

Omi laughed and scolded, "What a need to clean up, when you inherit the inheritance, let's see what I'll do to you, hehehehe."

After that, Omi took Caiyun Fei Fei to the underwater ruins at the edge of the uninhabited area of the South China Sea.

The Blue Emperor and the others were also curious and went along.

Soon, they arrived at the underwater ruins.

Omi said, "Everyone, close your eyes and use your Three No Man's Fields."

Everyone did as they were told, and soon after, they felt someone coming up behind them and a voice came out, "Omi, thank you."

"You're welcome, Senior."

"You can open your eyes now."

Everyone opened their eyes and saw at a glance that in front of them stood an imaginary woman, a woman that looked quite five points similar to Caiyun Fei Fei.

"You are my mother?" Caiyun Fei Fei asked excitedly.

That imaginary woman said, "Caiyun, my daughter."

"How do you know my name is Caiyun?"

"Your name was given to you by your father and struck into the depths of your souls, the moment you woke up, you already knew what your name was, right."

"Uh-huh, pay your respects to your mother."

"Caiyun, I'll give you the inheritance now, I hope you can become a god soon."

"Thank you, Mother."

"Wait." At that moment, the Blue Emperor shouted.

The imaginary woman looked at the Blue Emperor and smiled, "Looking at your looks, you are somewhat similar to the Blue Sea, you are the son of the Blue Sea."

"Senior, now that only Caiyun Fei Fei's inheritance has been found, can you tell us if we have

Seung, where is it?"

"That's a good question." That imaginary woman smiled and said, "Fortunately you asked in time, otherwise I wouldn't exist once Caiyun inherited it."

"I still hope that senior will inform."

"I can't tell you the details, after all, I don't know what the Heavenly World is like after it's reorganized, I can only give you the approximate location of your gods before the Heavenly World collapsed, the rest can only depend on you." After saying that, the Void Woman waved her hand and a map appeared in the void, which indicated ten points, each point representing the location where a god used to reside.

Everyone immediately memorized the map.

“Thank you, senior.”

After that, Caiyun Fei Fei successfully inherited the legacy, because this relic had been destroyed, so it wasn't as difficult as the Evil God's relic, and there were so many obstacles, here it could be inherited directly.

Poor Nian Shi, however, had to break through many obstacles to be able to inherit the Evil God's will.

However, the Evil God's will wasn't damaged, so the will that Nian Tides inherited must be stronger and more complete than anyone else's.

That imaginary woman disappeared, and this place, too, was completely devoid of any oddities, and anyone coming here in the future would only run into 'ghosts'.

Omi said, “Next, let's go together to help the others find their inheritance.”

However, Caiyun Fei Fei was: “Can I not go? I'm staying here to absorb my mother's will, this is the best place for me, it's my home after all.”

Omi nodded, “Alright, then you absorb well here, and when it's almost time, report back to the Immortal Realm.”

“Good.” Caiyun Fei Fei nodded.

Omi left with everyone, leaving only Caiyun Fei Fei to change her face and close up in that relic.

Flying out of the sea, Omi's hand spread out, the virtual map appeared like a sandbox, Omi said, “Let's use the point of Caiyun Fei Fei's mother as a benchmark, and combine the points on the map with reality, now, the closest to us is in the southeast, Zi Yu's father, Zi Yan's divine residence, so let's go to find Zi Yu's inheritance first.”

“Okay, you arrange it.” Everyone nodded happily, now everyone could find their inheritance.

Omi suddenly said, “Everyone, it's not that I want to pour cold water on you ah, after all, this world has gone through a great collapse, if the destruction is complete, even if we find the location, we may not have an inheritance, of course, I also hope that everyone will still be able to find an inheritance.”

“It's up to the gods,” Blue Emperor said.

Then, everyone headed to the southeast.

They found the location of the Purple Inferno Residence according to the map's proportions, but there was nothing.

“How could there be nothing?” Zi Yu was so anxious that she was about to cry.

Omi said, “Ziyu, don't be alarmed, this map, after all, is from before the collapse, the reason why I asked everyone to come together to find it, is that there is strength in numbers, we'll search within a radius of hundreds of thousands of kilometers, and dig ten thousand feet into the ground, we'll definitely find traces of it. Let's get to work everyone, it must be buried deep, so we'll have to go down at least tens of thousands of meters deep.”

Everyone ordered the sky.

At this time, a person flew in from afar, and everyone looked, it was Caiyun Fei Fei.

Caiyun Fei Fei flew up and said, "I'm sorry, I thought about it, I can't be so selfish, so I'd better help everyone find their respective inheritance first."

Omi smiled, "Good, you know how to think of everyone, I hope that in the future, we can all become good people and help each other, instead of all only thinking about ourselves and thinking about becoming stronger."

"Yes, Immortal Emperor." Everyone nodded with a hehehe smile.
