

King of kings

2464

After that, everyone separated to search.

The place they were in was a plain indeed, and on the surface, there was nothing.

Therefore, it was necessary to probe deeper into the ground, at least diving tens of thousands of meters underground, perhaps to find the ruins, even though they were all strong, it was no small project.

Omi was the strongest, and he was the fastest.

As such, they searched for over a hundred years, turning over tens of thousands of kilometers in all directions.

Finally, a relic was buried in the ground at a depth of over 50,000 meters.

All the ruins that could be preserved to this day were of some origin.

Omi was the first to discover it, and after discovering it, Omi immediately called everyone here.

"Everyone, this, I believe, is the former Ziyang Divine Residence, but there are no more underground rocks to bury it in, we still need to dig it out properly." Omi said.

The Blue Emperor was busy saying, "Immortal Emperor, the ruins were discovered by you, leave the excavation to us."

"Good." Omi was not polite, after all, it was mainly Omi's work to find this Ziyang Divine Residence, after all, he was an Immortal Emperor and had more ability. One second to remember to read the book

Leave the excavation of such things to them.

Half a month later, the entire Violet Inferno divine Residence was excavated.

In one of the excavated halls, they met a Void Shadow old man.

"You guys, you've finally come."

Zi Yu busily said, "Are you my father?"

"Oh, Violet Rain, I'm your grandfather."

"Ah, grandfather."

"Yes, Ziyu, it's finally time for you, if you don't come, I'm afraid my will will perish."

"Grandpa."

“Zi Yu, no more idle words, hurry up and inherit my will, the sooner you inherit it, the more complete it will be.”

“Thank you, Grandpa.”

“Don’t be silly, child, in the future, you must work hard to cultivate and become a true god.”

That vapid old man, turned into a stream of light and rushed into Zi Yu’s brow.

After a moment, Zi Yu said, “I’ve inherited my grandfather’s will, thanks to everyone, especially Immortal Omi, if it wasn’t for you, it would have been difficult for us to discover this relic.” Zi Yu bowed to Omi.

Omi said, “There’s no need, since you’ve already inherited it, then don’t waste any more time, continue looking for the next place. The closest relic to the Purple Rain divine residence is the Blue Moon divine residence, Blue Moon City, which is now the Blue Emperor family’s divine residence.”

“Depart.”

They, immediately moved on to the next place.

After that, it was another hundred years of searching, turning the river over, diving tens of thousands of meters underground, and then, they found the Blue Moon God’s Residence underground.

The Blue Emperor had also successfully inherited the will of the god.

One by one.

In the blink of an eye, more than two thousand years later.

“Phew, the last God’s residence.” Omi said as he looked at this divine residence buried under the ground.

In these twenty million years, Omi and the others had saved each other to find the Purple Inferno God Residence, the Blue Moon God Residence, and the Ancient Pagoda God Residence, the Black Wind God Residence.

Of course, it didn’t take so much time to find the above mentioned divine residences, Omi and the others also found the divine residences of those who died, the Bitter Shu divine residence, the Qin Tian divine residence, the Huangdu divine residence, and the White Moon divine residence.

The reason why Omi had found all the god residences, Lord, could the two people, Star Moon and Tian Gao, who were not descendants of gods, also receive their inheritance.

Unfortunately, it turned out not to be possible.

Thus, despite passing on the Bitter Sacrifice, Huang Xue, White Fox, Qin Zhong, the four

The Seung Shen Residence was found, but no one inherited it.

“Immortal Emperor, you were able to resurrect Gu Yan before, so why can’t you resurrect Bitter Sacrifice, Huang Xue, White Fox and Qin Zhong ah. Now all four divine residences have been found, but they’re empty for nothing.” Blue Emperor said.

Omi smiled, "Resurrect them?"

"Yes, so that we can have more gods in the future, and the overall strength of our Heavenly World is also stronger."

Zi Yu also advised, "Immortal Emperor, resurrect them, your lordship won't remember their mistakes."

Omi depressedly said, "I, Omi, when did I become so benevolent, resurrect them, they were all trying to kill me before. Of course, I can consider resurrecting Qin Zhong, but as for the Bitter Sacrifice and Huang Xue, I won't resurrect them."

"Then let's resurrect Qin Zhong, it just so happens that this divine residence we've found now is the Qin Tian divine Residence, which belongs to the Qin Zhong family."

Omi nodded, resurrecting him for the sake of the fact that Qin Zhong had pleaded for Omi once.

Omi immediately used the Hong Meng divine Stone to refine a body, then communicated with the Qin Zhong's dead spirit in the Three Nothing Spaces.

In less than half an hour, Qin Zhong appeared alive in front of everyone.

"Ah, me, I'm really resurrected?" Qin Zhong looked at the crowd incredulously.

"Qin Zhong, don't thank the Immortal Emperor yet." The Blue Emperor was busy.

Qin Zhong immediately knelt down to Omi and kowtowed, "Thank you Immortal Emperor for your resurrection, I, Qin Zhong, will never forget it, I will definitely follow the Immortal Emperor around in this life."

Omi nodded and said, "Alright, this is your family's divine residence, you should quickly go and inherit it."

"Thank you, Immortal Emperor."

After Qin Zhong was resurrected, his strength also immediately returned to his original, it wasn't that fast as he was originally very powerful.

After Qin Zhong inherited the will of the gods, their group of eight or nine people returned to the Evil God Relic together.

Omi said, "You don't need to follow me, each of you find a place to absorb your will and return to the Immortal Court when it's almost time."

"Yes."

Omi entered the Evil God Relic, Nianxie had already obtained the Evil God's will earlier.

"Congratulations, Nian Tides."

"No, I'm the one who wants to thank you, without you, I couldn't inherit this will."

"Oh, no matter how strong the will you inherit now, it's not as strong as the will of the gods of my Honored Heart, originally, this Honored Heart belongs to you."

"Don't be silly, I was the one who couldn't make up my mind to kill my father in the first place, as such, it doesn't belong to me."

"Alright, don't say anything, you should quickly absorb the Evil God's will."

"Okay, I'll absorb it here, and when I'm almost done, I'll return to the Immortal Court to find you."

"En."

Omi returned to the Immortal Court one step ahead.

Finally, everything had been done.

It was just waiting for each person who inherited the will of God to become a god.

If all of them could become gods, this time, including Omi, there would be exactly ten gods.

But whether or not their fate was the same as the ten gods that had been there, that was unknown.

Omi instructed the crowd, "I'm going to close the door for 100 million years, so please don't disturb me if you have nothing to do. In the meantime, if the descendants of those gods come looking for me, you tell them all to go to their own seclusion, and to become gods as fast as possible."

"Yes."

Omi entered the cultivation room and set up a restriction.

This time, Omi would not leave the confinement until he reached God, because, Omi had a feeling inside, as if, there was another crisis coming.
