

King of kings

Chapter 2487

Saying that, Omi looked at the side of the mountain hole in the opposite direction.

That white shadow was heading to that mountain hole. Omi was preparing his own mountain hole, but at that moment, another group of people came.

When Omi took a look, it was the distinguished gentleman he saw yesterday at the Hunter's Union.

"Hey, kid, see a white shadow yet?" The noble prince asked.

Omi shook his head, "No."

"You really didn't f*cking see that?"

Omi's heart was filled with angry brains, this distinguished gentleman, who looked almost as old as Omi, was so rude to Omi, Omi was upset.

"No."

At this moment, another God King level person asked, "Then did anyone else just pass by here?"

"There, they seem to be chasing something, heading this way assuredly." Don Zimmer pointed.

"Chase." Remember the URL . kanshu8 . net

That distinguished gentleman looked at Omi and said, "Dislike this kid very much, kill him."

"Yes." A superior god was busy.

"Wait." Just as they were about to do it, a few more people came, one of them, a young girl, turned out to be the Eldest Miss of the Per Beast Meat Shop.

The eldest Miss said, "Mr. Gojun, can you spare him for my sake."

"Miss Arlo, what do you mean? I can't seem to understand."

"This man is a hunter in my Per Beast Butcher Shop, and I didn't expect to meet him here by coincidence. If he has offended you in any way, I hope you'll forgive me, I owe you a favor."

"Hahaha, good, Miss Ah Luo's favor is worth it." Thus, the honorable gentleman immediately ordered that man, "Let him live a cheap life."

"Yes."

That group of men immediately ran away.

Only Eldest Miss and a few people were left, and the few people Eldest Miss brought with her were also at the level of God King.

The eldest Miss ordered, "You guys go after them."

"Miss Arlo, what about you?"

"Don't mind me, I'm low on strength anyway, and I'm holding you back, so I'll catch up slowly later."

"Good." A few of Miss Arlo's men were busy going after her.

Omi's heart was furious, that noble princess just now was also too bullying, killing people at the first disagreement, no, killing people at the first displeasure, she didn't treat Omi as a life at all. If it wasn't for Miss Ah Luo, I'm afraid it would have been hard for Omi to escape, after all, Omi couldn't be a match for several Godkings no matter what.

"Thank you, Miss Luo, for saving my life." Omi busily said.

Ah Luo said, "Wind Lightning, why are you here?"

"I'm here to hunt the Per Beast."

"What about the others?"

"The others went back, I came to hunt alone, of course, my purpose is not only to obtain the Per Beast, but to practice, right?"

Missy nodded, "That's right, the reason you entered my shop is because you said where to go for practice."

"Yes."

"Wind Lightning, that Gojun gentleman just now, how did you offend him?"

"I didn't ah, he asked me if I had seen any white shadows, I said no, so he said he didn't like the look of me and had someone kill me."

"Alas, Wind Lightning, in the future, when you encounter this kind of person, if you can go around it, you can't really go around it, you should quickly kneel down."

"Why should I kneel." Omi reluctantly said.

"Why else could it be, of course it's to live, do you know why he looks at you unpleasantly?"

"I don't know."

"It's because you ran into him and actually stood up to talk, if you kneeled down to answer his questions, maybe he wouldn't bother to look at you anymore. In the future, if you run into a male like him, cut it out or you'll cause another killing."

"Fuck." Omi scolded in anger.

"Wind Lightning, don't be angry, unless you don't want to live, you must endure the humiliation if you want to live, goodbye." After saying that, Missy also ran away, very fast.

Omi originally wanted to call out to her and tell her where the white shadow was, but, running so fast, it wasn't even close.

The frustration in Omi's heart could not be pacified for a long time.

These so-called dudes must be the children and grandchildren of some god emperor of the main world, what a dog fighting against people, Omi has learned what bullying is.

Omi no longer thought about these angry matters and looked over to the side of the mountain hole.

Omi saw the shadow that was hiding there.

Only, Omi didn't dare to act rashly.

"If I can't even capture so many Godkings, why should I be able to? Even if I'm lucky and run into it, where would I have to be able to catch it?" Omi said inwardly.

"I just heard someone say divine deer, and I don't know what kind of good thing it is, but it should be a relatively great tonic, so if I can get it, then I can also make up for it ah."

"I can't catch it by hard, I have to think of other ways."

Just then, Omi had a flash of wisdom.

"Hey, can I set a trap?"

So, Omi immediately produced something like a mouse trap.

Omi didn't expect to be able to trap it, but it was possible to catch it by holding it for just a few moments.

The reason why Omi used such an earthy method was because, Omi believed that even the God King couldn't catch it, so he must have begged him for some sort of ban or something, and he would definitely not be able to catch it, so perhaps it had a way to resist the list of bans.

So, Omi used the 'Mouse Trap' to try.

Of course, it wasn't an ordinary mouse trap, just similar.

Omi placed the trap at the entrance of the hole in the mountain and concealed it beside him.

Omi waited and waited for a day and a night without blinking an eye.

Finally, suddenly the clip moved, so fast that it was really good to see shadows.

However, that clip, very used, I'm afraid that the white shadow, who had never seen such a thing, did not prevent it at all, and as a result, it was caught by the most rustic and primitive clip.

Omi pounced on it fiercely.

Suddenly, Omi felt like he had thrown something into his arms.

Omi's reaction was also fast enough, after all, the clip could only hinder that thing for a fraction of a second at most.

After grabbing the thing, Omi stuffed it into the spatial ring without saying a word, because Omi was afraid that it wouldn't be able to escape if it got away and stuffed into the spatial ring.

"Haha." Omi found that he had really caught it, what a surprise.

That white shadow didn't have much strength, and the only scary thing about it was its speed.

Omi hurriedly left the original place, after all, it was too easy to have a life to catch and a life to enjoy.

Omi made his way to the main world.

However, the more you fear something, the more you come to it.

Omi suddenly saw that the distinguished gentleman from before had met up with him again.

"My grass, how come I'm so unlucky." Omi cursed in his heart.

But . Having already met up with him, Omi couldn't get around it in time.
