

Last Building on Earth Chapter 106-110

Chapter 106

Zheng Lei bowed slightly as he spoke, showing a humble look, and when he turned his right hand, a white light flashed in his palm, like a thunderbolt that went out, and went straight to Wang Xuan's heart.

This is his strongest method. After the hatching beast he masters grows to a sub-body, he realizes the special ability "Palm Thunder" he masters. He suddenly flips his palm and is so close to Wang Xuan. Zheng Lei is confident. Nine out of ten.

With this "palm thunder" attack, even if Wang Xuan was wearing the double-defense goblin scale armor, a huge hole would have to be blown up in an instant, and the target of his attack was the heart.

"Even if you are a sub-body, you are bound to die!" A sneer finally appeared on Zheng Lei's face.

Ren Zhongyuan, who was following behind him, immediately followed after he released his palm thunder. Wang Xuan was definitely dead, so he was ready to make a quick decision and solve these initial clues.

With Yatai against Chu Kai, even if there are seven people on the other side, they can still crush it.

Ren Chongyuan's hatching beast appeared in the form of a sword. In the palm of his right hand, the sword with scales on its surface had just been stretched out halfway when he heard a muffled groan from Zheng Lei's mouth.

His head shattered like a watermelon.

Standing in front of Zheng Lei, Wang Xuan was like killing a fly. He stretched out his right hand and slapped Zheng Lei's head.

Zheng Lei's skull was shattered, his head burst open, and blood and flesh mixed with white brain pulp burst out.

Ren Chongyuan's scale sword was only half stretched out. At this moment, he was like petrified there, motionless. He didn't know whether to continue shooting or turn around and flee.

He was stunned.

Zheng Lei didn't understand what was going on until he died. He was very sure of the "palm thunder" blow. How could this person suddenly move half a foot to avoid him like a prophet, and then he felt his head sink, like Mount Tai pressing the top, there was a "buzz" in his ears, and then he didn't know anything.

All of this happened in an instant. The metal tentacles on Wang Xuan's right hand surged and rushed out, splitting into two, wrapping around Ren Chongyuan's legs respectively, lifting it up in the air, and tearing it to both sides.

Ren Chongyuan reacted, roaring in his mouth, twisting his body, and shooting the scale sword, he also wanted to cut off the metal tentacles that wrapped around his thighs.

Unfortunately, it's all too late.

The blood rained, and a lot of internal organs splashed down, Ren Chongyuan was torn in half from his legs and crotch.

The four Chukai who came with them were all dumbfounded, and then they all showed their hatching beasts and wanted to make a move.

Wang Xuan looked at them and shook his head secretly. At this time, they also showed that the hatching beast wanted to attack, which was like courting death.

Two metal tentacles stretched out, swiped to both sides, and with a "snap" sound, two of them screamed in agony, and they were beaten until their bones were shattered, and their bodies folded in half and flew out.

Gu Manyao, Zhang Haofei, Zhao Lei, Tie Jun, and Bai Yan all attacked one after another, using the strongest means such as "Demon Chi Slash", "Whirlwind Bone Claw" and "Savage Clash", and immediately killed the remaining two people.

Zhang Haofei succeeded, and the "Whirlwind Bone Claw" shattered the head of one of them. A white light appeared in this person's body, which was quickly absorbed by the "skeleton" in his right hand.

Several of them are on the verge of breaking through at any time. Before, they failed to find goblin warriors in the Southern District Cinema, otherwise they would have broken through long ago.

Later, because of curiosity, they followed Nama Dongcheng and Lu Ge into the playground, and as a result, they spent a lot of time, so that they still haven't been able to break through to the sub-body to this day.

At this moment, he succeeded in killing a Chuqi. Zhang Haofei immediately felt the drastic change in the skeleton in his right hand. A message appeared in his mind. A new force was expanding in his body. The bones in his body appeared one by one, not only on the outside of his right arm. A boneless arm appeared, and even his right shoulder bone and right rib appeared outside the flesh, as if a skeleton monster was about to emerge from his body.

Gu Manyao used the Yaochi to kill another person. She also felt the Yaochi in her right hand fluctuate violently, but after all, it was a little short, and she failed to be promoted to the sub-body.

Seeing the fierce struggle of the skeleton in Zhang Haofei's body, everyone understood that he had made a breakthrough.

Feeling the changes in his body, Zhang Haofei showed excitement on his face.

This time, he finally broke through faster than Gu Manyao, and became the first person in the team to grow into a sub-body besides Wang Xuan.

Wang Xuan put away the metal tentacles, looked at the six corpses lying on the ground, and said, "Are these people out of their minds and took the initiative to die?"

Although he sensed the bad intentions of these people, he really didn't expect them to suddenly attack him.

Although Zheng Lei's palm thunder is fast, for Wang Xuan, who has a certain precaution and has evolved into the fourth form, it is not much different from slow motion.

Zhao Lei, Tie Jun, Li Haotian, and Bai Yan have already started to peel off the armor from several corpses.

"These guys are crazy. Is it because the armor you are wearing, Wang Xuan, is too conspicuous, so they are moved?"

Zhao Lei took off the armor of Zheng Lei and Ren Chongyuan, and found that both of them had a pair of excellent second-order equipment, one of which was a pair of second-order excellent boots, because Zhang Haofei did not have a second-order excellent equipment yet, these two excellent second-order equipment The boots were given to him.

Now Zhang Haofei has a set of Tier 2 equipment, one is excellent and four are ordinary.

Everyone now basically has a second-order excellent equipment, only Bai Yan and Yu Shanshan do not have it, and the remaining second-order excellent equipment is given to Bai Yan.

In addition to these two excellent second-order equipment, there is also a second-order ordinary handguard for Gu Manyao, and a second-order ordinary knee pad for Zhao Lei.

As for the inferior equipment on them, Wang Xuan is too lazy to put them into the Xumi mustard seed space.

In addition to these equipment harvests, 103 crystal scales and 45 bottles of primary nutrient solution were also received.

Wang Xuan put it away, and the number of crystal scales he owned immediately increased to 714. As for the primary nutrient solution, after deducting what they ate before they set off, the number of crystal scales they own is still about to exceed 100 bottles.

"Zhang Haofei, you have grown to a sub-body, what are the new abilities you have acquired?" Zhao Lei was a little curious when he saw Zhang Haofei's excited expression.

Zhang Haofei smiled, the skeleton in his body now not only stretches out a right arm, but can extend his upper body slightly out of the body, and his attack limit has changed from one foot to two feet.

"Phantom Ghost Claw, Zhao Lei, would you like to try it?" Zhang Haofei squinted at Zhao Lei, and while speaking, he controlled the skeleton in his body and moved his bone arm.

Not to be outdone, Zhao Lei said, "Wait, I'll break through the sub-body very soon, then let's compare."

Wang Xuan had just killed Zheng Lei, Ren Chongyuan, and the two Chu Kai in a row. Although he killed four of them in one go, the energy from them would hardly change his monsters.

"It seems that my monsters want to evolve again, and the energy they need is unimaginable. After killing two sub-bodies, there was no response."

"Let's go, don't talk nonsense. I hope you can all go to Yatai today. Let's go to the upper floor early to see it." Wang Xuan said as he walked towards the oncoming movie hall first.

Zhao Lei followed closely and said, "Wang Xuan, you forgot there are the West and North Districts? Do you want to go in before you go? Do you think the monsters in the West and North Districts will be more powerful?"

Wang Xuan said, "I'll find out later when I go and have a look."

Zhang Haofei said: "Yeah, after actually arriving at the sub-body, there is no challenge in this southern district, except for the clown of course."

While talking, everyone entered the oncoming movie hall. The movie hall was full of goblin warriors. They were originally wandering in it. As they approached, these goblin warriors rushed out in groups.

Zhang Haofei rushed up and activated the new ability "Phantom Ghost Claw" he had just mastered, wanting to try it out.

Wang Xuan was also paying attention. As soon as the phantom claws came out, a phantom rose up from the right arm of the skeleton inside his body, as if a few bones had suddenly grown.

"Chichi" sounded a few times, and the goblin warrior in front of him had blood grooves with deep visible bones on the surface of the body, all of which were caught by the skeleton bone claws.

Seeing this, Wang Xuan understood that the destructive power of the "phantom ghost claw" is not as good as that of the "cyclone bone claw", but it is superior in speed, but it is a very apt name.

Killing a goblin warrior, the energy gained made the skeleton unresponsive, and Zhang Haofei lost interest in the group of monsters in front of him.

Gu Manyao clasped the Yaochi Saber in both hands, and slashed out from the sky, splitting a goblin warrior in half, harvesting a white scale energy. Immediately, her eyes flashed slightly, and the Yaochi Saber in her hands was changing.

Wang Xuan looked at her and knew that she had also broken through to the sub-body.

The Yaochi knife in her hand did not grow longer this time, it was still 15 meters in length, but there were pieces of black thin scales protruding from both sides of the blade, and these thin scales could be slightly tilted, like a living thing.

Feeling the change in her body, Gu Manyao suddenly let out a shout, leaped forward, clasped her hands together, and slashed the changing Yaochi sword in the air again.

In the demon chi knife cut out this time, three sword lights were shot in a row. The three sword lights were separated by a word, and they were instantly cut from the body of the three-headed goblin warrior facing him. The goblin warriors were all beheaded.

"Amazing." Wang Xuan's eyes lit up, and he couldn't help but praised softly.

Hearing Wang Xuan's praise, Gu Manyao couldn't help but turn her head back, showing a smile, and said, "This is the ability I just realized, it's called three consecutive slashes, and it can slash three sword qi at one time."

Wang Xuan nodded slightly towards her, Zhao Lei, Tie Jun, Bai Yan and Yu Shanshan all rushed in, and Li Haotian was also earnestly firing arrows in succession.

Seeing that Zhang Haofei and Gu Manyao had broken through to the sub-body, they were also anxious and wanted to break through as soon as possible.

Soon the more than 30 goblin warriors in this movie hall were all killed, and 32 crystal scales were harvested. The number of crystal scales Wang Xuan now has increased to 746.

"Sword Comes"

Afterwards, they went to several other theaters, and in one of the theaters, they saw the bodies of goblin warriors all over the ground. These goblin warriors were slowly being melted by the ground. Obviously, these goblin warriors had been killed for some time.

Unable to find new goblin warriors in these theaters, everyone entered the back door of the theater and arrived at the playground.

Entering the playground, Wang Xuan found that the merry-go-round that had been destroyed before had not recovered. Below the pirate ship on the other side, there were six people gathered there, standing back to back, forming a circle. Around them, there were a group of goblin warriors. It's the Musket Goblins, most notably the emergence of a more powerful Goblin Knight among this group of Goblin Warriors and Musket Goblins.

This goblin knight has a danger level of three stars, and is a monster of Kambia.

Among these six people, the first one has reached the sub-body, and the remaining five are the first ones, and the first one is fighting against this goblin knight.

The eight of them entered, and immediately attracted a group of goblin warriors and musket goblins, and behind the oncoming ticket office, more goblin warriors emerged.

Wang Xuan has also mastered a rule now, that is, the more people enter the same place, the number of these monsters will increase accordingly.

Seeing the hordes of goblin monsters surging up, Zhao Lei and Tie Jun immediately greeted them with happy faces.

Zhang Haofei looked at the goblin knight not far away, his hands were itchy, and said, "Wang Xuan, Gu Manyao, do you think we should take action to deal with the goblin knight?"

In order to let Zhao Lei and Tie Jun break through earlier, the three of them did not make any more shots, and gave these goblin warriors and musket goblins to the five Zhao Lei.

Gu Manyao shook his head and said, "It's not necessary, that person is not weak, and can deal with that goblin knight, why should we steal other people's blame?"

Zhang Haofei twisted his neck and said with a regretful expression: "The main reason is that I just broke through the sub-body, and I want to find some powerful monsters to practice my hands. Unfortunately, there are some goblin monsters here, and it's not enough to watch, so the goblin knight is still good, and it needs more. Just a few out."

Wang Xuandao: "Just wait for them to break through. Later, we will go to the western and northern districts to have a look. I hope the monsters in these two districts will be more powerful."

His feelings were deeper than Zhang Haofei's. With his current strength, let alone killing goblin warriors and gun goblins, even killing goblin knights would have no effect.

In the chat between the three of them, Zhao Lei finally succeeded in breaking through after killing a goblin warrior.

His hatching beast "Xiansheng" has grown into a sub-body form, the cross on the back of his right hand is turned up to both sides, and a white light shaped like an eyeball emerges from the center. This is the third special ability he has grasped and mastered: "Holy Eye".

The holy eye opened, and Zhao Lei's holy eye sensed that the speed of the goblin warriors in front of him, including the musket bullets shot by the musket goblins in the distance, was slowing down.

Everything around seemed to be in slow motion, only he maintained a normal speed.

With a huff, he easily avoided the musket bullet shot by a musket goblin, and cut the fish-scale knife in his right hand sideways. The fish-scale knife was covered with a layer of white light, and instantly fell into the neck of a goblin warrior. , chopped off his head.

After Zhao Lei was promoted to the sub-body, he began to slow down and retreated to Wang Xuan and the others. Now they are only protecting themselves, rarely attacking actively, and leaving the goblin warriors around them to others as much as possible.

Only when Tie Jun and Li Haotian were in danger would they help.

At the pirate ship not far away, the sub-body headed successfully killed the goblin knight with a three-star danger. He had already noticed Wang Xuan and the eight people. Fortunately, there was a little distance between the two parties and they did not disturb each other.

The number of goblin warriors that appeared around them gradually became less and less. The number of monsters that Tie Jun and Li Haotian hunted along the way were not as good as those of Gu Manyao and Zhang Haofei. It was a little harder for them to break through, and it was even more difficult for Bai Yan and Yu Shanshan.

Seeing that the goblin warriors are about to be killed, and the four of them have not yet broken through, Wang Xuan is a little impatient. The monsters here are too weak, and they can hardly help him. He wants to wait for a new batch of goblins to appear. until when.

"Everyone, pick up the crystal scales on the ground. Let's go directly to the West District. It's too slow to kill these monsters."

As Wang Xuan spoke, he shot out, released the metal tentacles, wrapped around the necks of the two goblin warriors, and threw them towards the Iron Army. By the way, he picked up a few crystal scales on the ground.

When Wang Xuan spoke, Zhang Haofei, who had been waiting anxiously, immediately went to pick up the crystal scales. He was the most excited and wanted to go to the other two districts for a long time.

On the other side of the pirate ship, the six people also killed a group of goblin monsters surrounding them and picked up the crystal scales. Instead of leaving, they rested in place, waiting for new goblin monsters to appear.

Everyone harvested 39 crystal scales this time, and the number of crystal scales in Wang Xuan's pocket increased to 785. After that, he didn't wait any longer and turned to leave.

"What kind of monsters do you think will be in the West District and North District?" Zhang Haofei looked excited.

Gu Manyao said, "The goblins in the southern district are stronger than the goblins in the eastern district. I hope the monsters in the western and northern districts will be stronger than the goblins here."

Li Haotian hesitated: "If the monsters in the western and northern districts are too strong, and the four of us are just starting, will it be very dangerous?"

Wang Xuan glanced at him and said, "Don't worry, we will help you all break through to the sub-body. If you can find a monster with a danger level of three or more, killing one can only be worth ten such goblin monsters, there is no need to be here. waste time."

Just now, he was the only one who became a body, and the other seven people were all beginners. They rushed into the unknown West and North Districts. If they really encountered powerful monsters, Wang Xuan would not dare to guarantee that he could protect everyone by himself. I decided to come to the southern area first~www.mtlnovel.com~ Now that Gu Manyao, Zhang Haofei, and Zhao Lei have all broken through to the sub-body, Wang Xuan feels that he can enter a more dangerous area and try.

Hearing Wang Xuan say this, Li Haotian closed his mouth.

As soon as he walked out of the playground, he saw six people, Zheng Cheng Aiguo, Meng Lian, Lu Weichao and Feng Yuan.

"Wang Xuan." Cheng Aiguo had a smile on his face.

Wang Xuan also greeted him with a smile.

"Are you going to leave?" Cheng Aiguo asked with a questioning look.

Wang Xuan nodded and said, "I'm going to go to the West District to have a look."

Cheng Aiguo was slightly startled and said, "Western District?"

Everyone is not a fool. According to the comparison of the monsters in the east and south districts, it is guessed that the dangers of these four districts should be higher than each other. For Cheng Aiguo and others, the clown in the southern district is scary enough. , not to mention the West End.

Zhang Haofei said, "Yes, the monsters here in the southern district are too weak to suit us."

Cheng Aiguo glanced at Zhang Haofei and felt that he was a little embarrassed. He didn't like this kind of people in his heart, but he was more disciplined and still had a smile on his face: "There are too many people in the southern district, we have come all the way, a good place They were all robbed, so I can only come in the playground to see, there should be no one in the west area now, and going to the west area is indeed a good choice."

Chapter 107

Wang Xuandao: "Brother Cheng, do you want to go to the West District together?"

Cheng Aiguo shook his head and said, "They are still just beginning. It is safer to hunt these goblins, but we still have to wait for a few sub-bodies among them before we go to the Western District to be safer."

Cheng Aiguo is more cautious. He is the only sub-body, and it is too risky to enter the West District with five Beginnings, which may be much more dangerous than the South District.

Wang Xuan just casually said that he didn't really want to invite the six of Cheng Aiguo together, and then left. Cheng Aiguo and the six entered the amusement park, and they left the amusement park and entered the cinema.

As Cheng Aiguo said, the cinema is full of goblin monster corpses, and the team of hunting monsters has become five, all occupying a place to rest at the moment, waiting for a new round of goblin monsters to appear.

Eight people from Wang Xuan appeared, attracting these people who were sitting and resting. Among them, there were three Yu Kai.

The three of Yu Kai and Zheng Lei and Ren Chongyuan were originally in a team of six. They had a disagreement just now about whether to attack Wang Xuan. Although the three of Yu Kai did not go

with Zheng Lei, they did not leave. He wanted to help his two companions today. He broke through to the sub-body, and was resting at the moment, when he suddenly saw Wang Xuan and eight people appear, his heart was shocked.

Although he didn't see Zheng Lei and Ren Chongyuan appear for a long time, he had a vague premonition in his heart, but the premonition was a premonition, and he didn't see it with his own eyes. After being horrified in secret, she felt a sense of luck again.

"It seems that my hunch is accurate. These eight people are definitely not as simple as they seem on the surface. Zheng Lei and Ren Zhongyuan should have suddenly attacked, and none of these eight people have died. Seven of these eight people are obviously in the beginning, it turned out to be such a result, there is only one possibility, that man wearing green scales is too scary."

Yu Kai and the two men beside them looked at each other and saw the horror and happiness in each other's eyes.

Yu Kai even kept Wang Xuan's appearance in his heart, and secretly warned himself that this person must not be provoked.

Naturally, Wang Xuan didn't know that the three people in this corner would comment on him so secretly, and he didn't pay attention to the three of Yu Kai at all. Now he's thinking more about entering a higher floor.

As long as Tie Jun, Li Haotian, Bai Yan and Yu Shanshan break through to the sub-body today, they can go to the higher floor together to see what happens.

As for the certificate of the king needed to go out, judging from the current situation, there is a high probability that it is not at this level.

Otherwise, Ma Dongcheng and Lu Ge came down from the upper floor, just because they wanted to get the powertrain of the initial state, they went to the southern district to kill the clown king, and they never thought of looking for the king's certificate on this floor.

Leaving the South District, continued to go deeper along the curved corridor, and after walking about twenty meters, they arrived at the entrance of the West District.

At the entrances of the east and south areas, you can see people entering and leaving from time to time, while the entrance to the west area is deserted and very quiet.

"Will we be the first to enter the West District?" Zhang Haofei showed excitement and curiosity.

Zhao Lei said: "That's not necessarily true. Maybe some people will come in and take a look out of curiosity. We are mainly too cautious, so we haven't entered and have a look."

Wang Xuandao: "Be careful. I'll be in front after entering. Zhao Lei and Gu Manyao are on the left and right. After Zhang Haofei is broken, the four of you, Tie Jun, walk in the middle."

Everyone nodded to show their understanding. Wang Xuan released the metal tentacles and gently pushed open the door of the west district.

The door opened, and everyone did not enter immediately, but looked inside.

Inside is a huge passage, with no end in sight, nearly 20 meters in width and 20 meters in height, with a large number of stone statues placed inside.

These stone statues look ferocious and terrifying, just like the legendary evil spirits, their positions are not regular, but randomly placed.

Other than that, nothing else.

Wang Xuan opened the "eye of the illustrated book" to capture and observe these stone statues, but there is no information.

He released metal tentacles to protect him, and he walked in first.

Then there were Tie Jun and Li Haotian who followed behind him, Zhao Lei and Gu Manyao walking on both sides.

Zhao Lei also opened the "Sacred Mark" to gain insight into the danger.

The eight people walked in slowly, and the door to the west side closed silently behind them.

"Sure enough, it's completely different from the Southern District. There's no one at all. It's so quiet." After Zhang Haofei was broken, he showed a skeleton and twisted his neck slightly.

He is not stupid. He suddenly entered this completely unfamiliar West District. No one knew what was here. How dare he not be on guard?

Wang Xuan said, "That's fine. At least there are monsters, and no one will rob us."

Just as he said this, the surface of the several goblin gargoyles in front of him suddenly made a light "click" sound, and small cracks appeared on the surface. These goblin gargoyles actually came to life.

Seeing the resurrection of the stone statues, everyone was shocked. Gu Manyao took the lead and launched the "Demon Chi Slash", heading towards one of the stone statues.

A pale blade light flew out and hit the stone statue that was being resurrected. A harsh sound sounded. The rock that was shattering on the surface of the stone statue suddenly splashed out, and a terrifying low whistling sounded inside. One was exactly like the ghost stone statue. The gray-skinned monster appeared, opened its **** mouth, saliva, roared, stretched out two ghost claws, and rushed towards Gu Manyao.

Wang Xuan kept his eyes open in the picture book. Originally, he could not capture the data of these stone statues. With the resurrection of these stone statues, the information and pictures immediately appeared in them.

"Name: Gargoyle, Race: Gargoyle, Danger: ★★★ (Three Stars), Gargoyle is a cursed race, they are loyal followers of the devil, with the seal of the devil, the gargoyle They are also cursed, because of the power of the curse, they are in a petrified state all year round, and only temporarily release the petrified state when they encounter an invasion."

After capturing the information and seeing the gargoyle statues in front of him being resurrected, Wang Xuan's spirit was lifted.

The danger level of three stars means that the strength of these resurrected gargoyles is equivalent to that of goblin knights.

In the southern district, the number of goblin knights is very rare, and Wang Xuan only killed one, but when he arrived in the western district, just after entering, he encountered this group of gargoyles that were being resurrected. The danger in the western district is higher than that in the southern district. much more.

"Everyone, be careful, these are called gargoyles, their strength is equivalent to goblin knights, and they can be compared with sub-body hatching beasts."

Wang Xuan put away the eye of the picture book and warned everyone that two metal tentacles extended out, immediately entangled the two newly resurrected gargoyles in front of him, hung them around their necks, and smashed them behind him.

Gu Manyao, Zhao Lei, and Zhang Haofei were all tense. This gargoyle could fight Yatai. Now that there were so many gargoyles in front of them, they didn't dare to be careless.

As for Tie Jun and Li Haotian, they were even more nervous.

Bai Yan activated the witch blood, waved his right arm, and sprinkled it out.

His witch blood can reduce the enemy's combat power.

The three-star gargoyle can threaten Gu Manyao and Zhao Lei, who have just broken through to the sub-body, but it is nothing to Wang Xuan. The two gargoyles in front of him are caught by him and smashed to the rear, and handed over to the four iron army .

Tie Jun seized the opportunity, the steel knife in his right hand fell, and cut off the gargoyle's head.

Killing a gargoyle with three-star danger is better than killing ten goblin warriors. The Iron Army harvested the gargoyle's white scales and broke through immediately.

His "King Kong" has grown to a sub-body, and the diamond shield held in his right hand has changed. A tentacle grows behind the shield and extends into his right hand. At the same moment, he realizes a new ability.

With a low drink from his mouth, Tie Jun opened his eyes wide and took a step forward. Now that he has broken through to the sub-body, he is no longer afraid of this gargoyle, and threw the shield in his right hand into the air.

The tentacles extending from the back of the shield also extended.

With a "bang", the shield thrown out was like a boulder with infinite power, and it hit a gargoyle that came up.

This gargoyle roared and filial piety, was smashed by the diamond shield, and fell to the ground. White substance mixed with fresh blood flowed out of its head. The power of this diamond shield was too powerful, and it had been broken as hard as it was. Iron skull.

This is the new ability "shield strike" he just realized.

After a blow, the tentacles shrank, and the diamond shield returned to his right hand. Although Tie Jun was calm, he couldn't hide his excitement.

Wang Xuan smiled when he saw Tie Jun's breakthrough. Killing gargoyles in their initial form was equivalent to a leapfrog challenge, and the effect was much better than killing goblin monsters.

Li Haotian killed another gargoyle thrown by Wang Xuan, and succeeded in breaking through to the sub-body like Tie Jun.

Feeling the surging power in the body, Orion was promoted to the sub-body, Li Haotian suddenly let out a slight growl, the Orion bow in his hand was drawn into a full moon, and on the bowstring, terrifying white rays of light were converging, and soon it turned into a handle with a length of two. Meter's giant arrow.

With a sound of "Hugh", this two-meter giant arrow shot out in the sky, dragging the white light, like a white long rainbow going through the sky.

In the distance, a gargoyle who had just been resurrected didn't understand what was going on when it was pierced by the white rainbow and exploded.

With a loud bang, the gargoyle was blown apart and killed immediately.

The power of this arrow made Gu Manyao and Zhang Haofei see it, and they couldn't help but take a deep breath.

Gu Manyao's "Yao Chi Slash" just failed to kill a gargoyle that was in the resurrection state. She immediately understood that this kind of gargoyle could not be killed when it was resurrected. "Three consecutive cuts".

Three huge sword lights flew out, and the two gargoyles made a terrible roar. Although they resisted with their claws and arms, the "Three Continuous Slash" was too powerful. They cut off their claws and arms, and then penetrated the body. Later, two gargoyles were beheaded by her.

Zhao Lei activates the "Holy Eye". In his "Holy Eye", these powerful gargoyles move slower, and he can avoid their attacks with great precision. "The holy light, its power increased, and cut off the head of the gargoyle.

No one knows how many gargoyle statues there are in this giant passage that can't see the end. These statues are constantly being released from petrification. Once they are resurrected, they will immediately rush towards the crowd.

In order to ensure safety, Wang Xuan did not lead the crowd deeper, but stopped at the exit of the West District, waiting for these gargoyles to arrive at the door, and then he easily entangled the gargoyles and threw them back.

Right now, only Bai Yan and Yu Shanshan were left in the crowd.

The witch blood launched by Bai Yan began to work, and the surrounding gargoyles became swaying and their strength declined.

"Everyone first help Bai Yan and Yu Shanshan to break through." Wang Xuan said while throwing the two gargoyles to Bai Yan and Yu Shanshan.

"Okay!" Tie Jun also responded and launched "Shield Strike" again, this time targeting the gargoyle's legs.

This gargoyle was swaying and swaying, and he could not dodge it. He was smashed by the "shield strike" and broke his legs and fell to the ground.

Gu Manyao also attacked the siblings of these gargoyles instead, avoiding the key points. Everyone only severely injured or wounded these gargoyles and left them to Bai Yan and Yu Shanshan to kill.

Killing this three-star dangerous gargoyle in their initial form, the energy they harvested excited their hatching beasts. Soon, Bai Yan and Yu Shanshan made breakthroughs one after another and successfully advanced to the sub-body.

"Haha, I can finally let go of my hands and feet and kill!" Zhang Haofei felt relieved when he saw that Bai Yan and Yu Shanshan had also broken through. Haha laughed wildly, and immediately rushed towards the gargoyle in front of him.

Now he doesn't need to help Bai Yan and Yu Shanshan, he can play to the fullest.

Wang Xuan didn't keep his hands anymore. The two five-meter-long metal tentacles were like two giant pythons, entangling the two gargoyles, twisting their necks, and killing them easily.

Absorbing the white scales of the gargoyle, there is no reaction in the body. Wang Xuan understands that this three-star dangerous gargoyle is still too weak for himself. powerful monster.

Thinking of this, he began to kill these gargoyles while walking towards the inside.

The others followed him and killed him.

With Bai Yan around, everyone felt that it was much easier to hunt down these gargoyles. His witch blood could penetrate into the bodies of these gargoyles and weaken their combat power.

Now the seven people have been promoted to the sub-body, and it becomes difficult to break through to the adult body. Although they hunt gargoyles of the same level as them, harvesting the white scales of this gargoyle can feel the hatching in the body. The beast has a fluctuating reaction, but it is not so easy to grow into the fourth form again.

The eight people gradually went deeper, and Wang Xuan noticed that on the left and right sides of the giant passage, there was an identical giant passage. There were also a large number of statues on both sides. However, this statue was slightly different from a gargoyle. Wearing armor.

Knowing that this must be a more powerful gargoyle monster, Wang Xuan immediately approached the passage on the left.

As they approached, the statues in the passage on the left began to come back to life, and armored gargoyles appeared one after another. They were bigger than ordinary gargoyles.

Wang Xuan observed with the eyes of the illustrated book and caught these armored gargoyles, the degree of danger is ★★★☆ (three and a half), according to the degree of danger, their strength is to surpass the general sub-type, comparable to the average sub-type of hatching beasts. of the strong.

These armored gargoyles rushed out. Wang Xuan saw that their movement speed and momentum were faster and stronger. He combined the two metal tentacles and turned them into an incomparably thick five-meter giant tentacle. past.

There was a crackling sound of "pop", and an armored gargoyle was beaten so that its head exploded.

Harvesting the energy of the white scales in the armored gargoyle, Wang Xuan's body finally showed slight energy fluctuations.

Although this energy fluctuation is not strong, it at least means that it has a little effect. Unlike the previous killing of gargoyles, there is almost no response.

"Bai Yan!" Wang Xuan tried out the strength of these armored gargoyles. With the strength of Gu Manyao's seven people, there was a certain danger. He immediately let Bai Yan take the first shot to reduce the strength of these armored gargoyles.

Bai Yan didn't say a word, and in a flash, he came to Wang Xuan's side, launched the witch blood, and a large amount of witch blood was sprayed out.

This is the new ability he realized and mastered after he was promoted to the sub-body. It is called "Wizard's Blood Spray". He can spray the witch's blood in a large area in an instant, like a rain of blood, which is unpredictable. Can hit a group of enemies.

Unlike before, he needed to wave his right arm in order to throw out some witch blood.

After losing his previous memory, Bai Yan's personality has changed a bit. He has become a lot more indifferent, he hardly speaks much, and occasionally holds his head, which means that his head hurts again, this is falling The sequelae, even the ability to hatch beasts, cannot be cured.

Yu Shanshan is slightly better than him. She has always wanted to get close to Bai Yan, but unfortunately Bai Yan keeps her distance from her.

Groups of armored gargoyles rushed out, and Wang Xuan began to exert his strength gradually. The metal tentacles were continuously drawn out like steel whips. Blood produces effect~www.mtlnovel.com~ The movement speed of these armored gargoyles starts to slow down.

"Go!" Wang Xuan rushed forward and rushed forward, followed by Gu Manyao, Zhao Lei and others.

For them, the effect of hunting this three and a half dangerous armored gargoyle is much better than that of the gargoyle, and as the witch blood takes effect, the threat of these armored gargoyles to them immediately diminishes, and it becomes quite at the level of common subtypes.

Following the passage on the left, he kept pushing inward. Wang Xuan was in a good mood. Now that everyone has reached the sub-body, they have met the requirements for entering the elevator to go to the higher floor. They can go to the higher floor at any time to see what happened.

Of course, before going, you can also go to the "North District" to see what's going on inside.

If the monsters in "North Zone" are stronger than these armored gargoyles, by what level?

Wang Xuan was thinking, when he suddenly faced a sharp low roar from the depths of the corridor. Following this low roar, there was a loud bang in front of him, and a huge black figure appeared in front of everyone more than ten meters away.

This is a giant gargoyle with a height of three meters. Compared with it, whether it is an armored gargoyle or an ordinary gargoyle, it looks like a group of dwarfs.

This giant gargoyle was covered in heavy armor, blue-faced and fangs, and in his right hand was holding a giant chopping knife that was more than two meters long.

Chapter 108

The giant gargoyle suddenly appeared, with a sharp roar from its wide open mouth, and the armored gargoyles who had been blocking it were busy dodging and making way out.

Wang Xuan opened the eye of the illustrated book and immediately captured the information of this giant gargoyle.

"Name: gargoyle leader, race: gargoyle clan, danger: ★★★★★ (four stars), because of the curse, the gargoyle leader has been in petrification for a long time, and its strength has been seriously weakened, so it is so , it is still much stronger than the armored gargoyle, and the danger level reaches four stars, which can threaten the hatching beast in its adult form. Only those who break into the west promenade for the first time may wake up the gargoyle leader and kill the gargoyle leader. , there is a certain probability to obtain the black iron treasure chest."

Sensing this information, Wang Xuan's heart moved slightly, and he understood that the giant gargoyle in front of him was the leader of the gargoyle. Killing it might get a black iron treasure chest, and only those who entered here for the first time would be alarmed.

"So next time we come again, it won't appear again?"

With a hint of curiosity in his heart, Wang Xuan stood in front of the crowd, kicked his feet, and rushed towards the gargoyle leader.

The leader of the gargoyle with a four-star danger level is comparable to an adult hatched beast, and his strength is already comparable to the clown king that Ma Dongcheng and the others have painstakingly summoned through a special ceremony.

Under normal circumstances, the Joker King does not appear in the South District.

The leader of the gargoyle danced the giant chopping knife that was more than two meters long in his hand, and a strong wind blew up. It was so fast that Gu Manyao, Zhang Haofei, and Tie Jun were all dazzled. They immediately understood that the giant stone statue in front of them was dazzled. Ghosts are not something they can fight against.

They followed and retreated a little, Bai Yan launched the "Wizard's Blood Jet" from afar, trying to help Wang Xuan reduce the strength of this gargoyle leader.

With a loud bang, Wang Xuan swung out the metal tentacle like a giant python. It collided with the giant chopper slashed by the gargoyle leader, and sparks exploded. Wang Xuan only felt a terrifying force from the metal tentacle. , the giant knife that the gargoyle leader chopped over was bounced high.

In the first round, neither side was able to take advantage.

The gargoyle leader let out a low roar, and the armored gargoyles who had retreated to both sides immediately followed him and roared, swarming up and rushing towards Wang Xuan.

The giant tentacle controlled by Wang Xuan was divided into two and turned into two metal tentacles that were five meters long. It was like two steel boots swept out left and right. The armor shattered immediately, and flesh and blood burst out.

Gu Manyao, Zhang Haofei, Zhao Lei, and Tie Jun rushed forward. They were not the opponents of this gargoyle leader, but they still had some confidence in dealing with these armored gargoyles eroded by witch blood.

The leader of the gargoyle raised his hands high and lifted the giant chopper. The two-meter-long giant chopper began to rotate above its head, and soon formed a knife wheel with a diameter of over two meters.

As soon as it stomped its feet, it jumped up, and the knife wheel cut towards Wang Xuan with an invincible force.

Wang Xuan controlled the two metal tentacles to meet them, and there was a crisp sound. His two metal tentacles collapsed at the touch of a touch, unable to withstand it, and were bounced back by the knife wheel.

Wang Xuan was startled, and he was busy retreating. The knife wheel cut into the ground as hard as iron, and immediately sparks splashed around, emitting green smoke and a pungent smell.

"Be careful!" Wang Xuan suddenly shouted, and with a wave of his right hand, the metal tentacle that had just bounced back volleyed it, and hit the arm of a helmeted gargoyle with a slap, smashing its arm and claws, and then smashed it. His neck was entangled, and he lifted it up in the air.

Gu Manyao broke out in a cold sweat. If it wasn't for Wang Xuan's action, she would have been grabbed by this armored gargoyle with its claws from behind and her head might have been twisted off.

"You all stand back a little, don't rush forward!" Wang Xuan shouted again, and threw the armored gargoyle at the gargoyle leader.

This gargoyle leader is too strong, if everyone is hit by the knife wheel it launches, they will be killed or injured.

Hearing Wang Xuan's stern shout, the people who had just rushed up retreated again. They gathered together, and there were armored gargoyles all around. In this giant passage, more and more armored gargoyles were gathered. Although people have been promoted to the sub-body, they still feel the difficulty.

If Wang Xuan can't get rid of the gargoyle leader quickly, they will all be in big trouble.

Although Bai Yan's witch blood can reduce the combat power of these monsters, as the monsters become stronger and the resistance becomes stronger, the effect of witch blood reducing the combat power is not as good as before, and the time to take effect is also much slower, and there are groups around. When the armored gargoyle rushed up, the witch blood was not as good as everyone imagined.

The leader of the gargoyle controlled the knife wheel and swept it in the air. The armor stone statue thrown by Wang Xuan was swept by the knife wheel, and the flesh and blood flew, and was immediately cut by the knife wheel.

It roared again and stomped its feet. The huge three-meter-high body was like a real devil. This time, it did not attack Wang Xuan, who could evade flexibly, but rushed towards Gu Manyao and Zhao Leiqi, who had gathered together. people.

"This guy is not stupid." Wang Xuan shook his head, knowing that if the seven Gu Manyao were rushed by it, the consequences would be unimaginable. He no longer hesitated, put his hands together, and the two metal tentacles wrapped around his arms along his hands, reaching the Shoulder.

He grew to the fourth form and realized the ability of "Double Demon Arms", and finally activated it.

This is the most powerful ability he has currently mastered, and it has not been really used in battle. Although this ability is powerful, it has obvious shortcomings, that is, it requires a lot of physical energy.

It is difficult for him to maintain it for a long time now. Even if he is combined with the mechanical beast, with the help of the energy of the initial state powertrain, although the fighting time of the arms of the two demon beasts can be prolonged, the high-intensity outbreak that continues for a long time is equivalent to the body's super-strength. The load bears the strength, there will be some damage, so it is not absolutely necessary, he will not use it casually.

The metal tentacles wrapped around his arms began to fuse with his body flesh and blood under the special ability of the "Double Demon Arms".

Two huge arms, each one meter long, appeared, with their hands hanging down, they were longer than the knees. Wang Xuan felt the terrifying power surging in his arms. , caught up with the leader of the gargoyle from the other side, waved his right arm and snorted, leaving an afterimage of the huge arm in the air, and the huge fist went straight to the forehead of the gargoyle.

This punch has no power, and Wang Xuan can't imagine what level of power and speed this blow has reached. It has evolved into a full-fledged monster. With the explosion of the power of the "arms of monsters", plus the flesh and blood of his body The energy of the blue crystal scales that had been fused before had strengthened the body and was stronger than the normal adult body. At this moment, these forces exploded and were extremely powerful.

The leader of the gargoyle didn't seem to expect Wang Xuan's punch to be so powerful. When it wanted to dodge, it was too late, so he could only instinctively raise his arm to block it.

"Boom", the punch hit the left arm raised by the leader of the gargoyle, with a terrifying sound like thunder.

The gargoyle leader's screams were mixed with the blood and flesh flying. Its left arm, which was covered with armor and tough as steel, immediately broke and exploded.

Wang Xuan's body seemed to be dragged and caught up by the giant arm of the monster, and the giant arm of the monster on the left started to shoot.

The power in the body was surging, and this punch was like a cannonball, and it fell to the chest of the gargoyle leader in an instant. The power of this punch was even stronger than before.

At this moment, Wang Xuan suddenly felt oppressed by an invisible force.

He couldn't describe what this power was and where it came from. It was as if it suddenly appeared in all directions of him. He was bound by this power, especially the left arm of the beast he shot out. He felt this invisible power even more.

His fist was counteracted by this invisible force, and the original terrifying lethality attenuated immediately. For this reason, this punch hit the gargoyle leader's chest, still punching a transparent blood hole.

The leader of the gargoyle screamed and rolled in the air, and fell heavily. Although its right hand grasped the giant slashing knife in its hand, it had no ability to fight back against the attack of Wang Xuan's pair of giant arms.

A look of uncertainty appeared on Wang Xuan's face. The invisible force that suddenly appeared just now bound the power of his giant arm of the beast, otherwise the punch just now could break the gargoyle leader's body from his chest.

Could this gargoyle leader still possess such a strange and magical ability?

The thoughts of Wang Xuan kept spinning, but Wang Xuan's hands kept going. Just as the monster's left arm succeeded, the monster's right arm swung up and down, and the huge fist was swung towards the head and face of the gargoyle leader who fell to the ground.

The leader of the gargoyle is worthy of being a monster with a four-star danger level. In this situation, he can still raise his right arm, while protecting his head and face, he wants to swing a giant knife up to counterattack. Unfortunately, Wang Xuan's speed is too fast. Just after raising his arm to protect his face, he heard a pop, and the beast's fist hit its raised right arm, the flesh burst open, and the right arm of the gargoyle leader was interrupted.

Wang Xuan felt the invisible power again. This power was not emanating from the leader of the gargoyle, but was everywhere like air, filling the space all the time. Under normal conditions, he could not perceive the existence of this power. , only when his speed and strength reach a certain level can he touch this power and cause it to be restrained and suppressed.

"If this power doesn't come from the leader of the gargoyle, what is it... Is it really a force that exists naturally here, because my power exceeds a certain limit, so it is triggered?"

Wang Xuan's thought vanished in a flash, and the beast fist in his left hand fell closely. This time, the gargoyle leader couldn't dodge any longer. The head and face were hit by this punch and immediately collapsed.

This time, the restraint and suppression of the invisible force that Wang Xuan felt was more obvious. The power of this punch was at least halved, but it still shattered the head and face of the gargoyle leader.

Even a powerful monster with a danger level of four stars will die quickly if its head is shattered.

A white scale appeared in the body of the gargoyle leader. This scale was covered with a layer of white light and sank into his right hand.

Wang Xuan felt the fluctuation of the white light in his right hand, and killing this four-star monster made his Warcraft feel excited.

It's a pity that there are too few four-star monsters. According to the information of the gargoyle leader, it is the first time that he and others have entered here, so that they can be resurrected from the petrified state, which means that even if they want to enter here next time It is also impossible to hunt down the gargoyle leader.

After the leader of the gargoyle was killed, Wang Xuan put away the giant arm of the beast. He had just activated the giant arm of the beast several times in a row, and lost a lot of physical energy. When he stopped at this moment, he immediately felt exhausted.

Wang Xuan stopped to rest, and the armored gargoyles around him also began to flee after the leader's death, and soon disappeared.

The crowd did not chase, but stopped. Just in order to deal with the gargoyle and the armored gargoyle, almost everyone used the strongest special abilities to attack. These special abilities are like Wang Xuan's giant arm of monsters. The energy is serious, and everyone feels a little tired.

This kind of gargoyle did not grow crystal scales on its body. Everyone killed the gargoyles and armored gargoyles in this place, but failed to harvest a single crystal scale.

Wang Xuan looked at the giant corpse of the fallen gargoyle leader, and found that a basketball-sized meat cocoon rolled out of it. His heart moved. He remembered that the information on the gargoyle leader he just saw mentioned that killing the gargoyle leader, There is a certain probability to obtain the black iron treasure chest.

"I don't know what's here." Zhao Lei was refreshed when he saw the meat cocoon. Seeing Wang Xuan signaling to do it himself, he took a fish scale knife and cut open the meat cocoon.

Inside the meat cocoon was a relatively small black iron treasure chest. Zhao Da took out the black iron treasure chest and put it in front of Wang Xuan.

Several other people also gathered around to look at it.

Wang Xuan gently opened this relatively small black iron treasure chest with a metal tentacle, and saw a pair of short boots.

He took it in his hand and looked at it with the eye of the illustrated book. These were gargoyle boots, second-order excellent quality, which could increase the speed by 15%, and had the same quality and attributes as his current knight boots.

Among the eight people, only Yu Shanshan did not have any second-order equipment of excellent quality, and Wang Xuan gave her the pair of gargoyle booties.

"Thank you, Brother Wang." Yu Shanshan had a happy look on her face. After losing part of her memory, she is now in awe of Wang Xuan and calls him Brother Wang.

In this black iron treasure chest, in addition to the pair of gargoyle boots, there are 100 crystal scales and a rolled up parchment.

Wang Xuan put away the 100 crystal scales, and the number of crystal scales he has now became 885, and then picked up the parchment.

Both Zhao Lei and Gu Manyao stuck their heads over, wanting to record something on this parchment.

Wang Xuan slowly unfolded the rolled parchment, and saw a line of words in his eyes.

"Quest Name: Goblin's Redemption, Difficulty: ★★★★★"

After that, there is a map with the East District written on it, and the side of the map is marked with dense small characters, introducing the content of the task.

"Completing Goblin's Redemption will give you a mysterious treasure chest full of patina, and there will be additional surprises when you open it."

Wang Xuan read the last line of the above record lightly, but thought that Ma Dongcheng and Brother Lu came here from above. According to the records of the parchment, they summoned the Clown King, but unfortunately they failed to kill the Clown King. On the contrary, he made himself a bargain, and not only was promoted to the adult body, but also obtained the initial powertrain.

Right now, the parchment with the words "Goblin's Redemption" written on it is the same as the previous "Call of the Clown King" parchment. It needs to complete the task according to the records on the parchment. If it can be completed, you can get a reward. .

Zhao Lei had seen the parchment of "The Call of the Clown King" before, and he was no stranger to seeing this parchment again, with a hint of joy on his face: "We are lucky this time, according to the content of the task written on it. It's not difficult, as long as it's done, we'll get a treasure chest reward."

Wang Xuan pointed to the first line of the parchment: "I remember the parchment 'The Call of the Clown King', the difficulty is also four stars, this difficulty is equal to that, you actually said it was not difficult, you forgot to kill it at that time. How tragic was the clown king?"

Zhao Lei said with a smile: "We now have seven sub-body, plus you are an adult, and the eight of us join forces. What is this four-star difficulty? We met the Clown King before, and we were all just beginning, and we couldn't help. Now But it's different, and besides you are here, isn't it easy to get hold of it?"

Wang Xuan was also very excited about the reward of this mysterious treasure chest. He slowly rolled up the parchment, and put it away in his pocket, saying, "It's not in a hurry anyway, let's take a rest first, and then discuss the next plan, everyone. They are all sub-body, and according to the requirements of the elevator, we can all enter the elevator and enter the higher floor now."

As soon as these words were said, the faces of everyone sitting around became solemn.

Everyone was curious, excited, and nervous about taking the elevator to the higher floor.

Li Haotian said: "I just don't know what's on this higher floor, I'm afraid there are more dangerous things. Would it be safer if we all rose to adulthood?"

Gu Manyao glanced at him and said, "It's not easy to become an adult. We just killed so many gargoyles. I don't think Yaochi's reaction and changes have changed much. It seems that it is still too early to break through again."

Wang Xuandao: "Speaking of which, I just encountered something. When I attacked the leader of the gargoyle with the giant arm of the beast, I felt that there was an invisible force here. At first I thought it was some kind of power controlled by the leader of the gargoyle. Power, but soon found that this is not the case, this invisible power is like air, everywhere, but under normal conditions, we cannot sense it."

Wang Xuan recounted the invisible power he sensed with the giant arm of the beast just now.

"You said, why do I feel like this power is restraining and suppressing my attacks, and this suppression is becoming more and more obvious."

Hearing Wang Xuan's words, the seven of them opened their eyes wide, showing expressions of surprise.

"Is there such a thing?" Zhao Lei touched his nose and said, "There is an invisible force here that suppresses you?"

Wang Xuan nodded and said, "Yes, I was thinking, could it be that the power of adult body or above is not allowed here? Once the power exerted exceeds a certain limit, it will be restricted?"

Zhao Lei said: "It makes sense. You said before that people who suspect that people who come down from above can't do anything to people here. If you add power to suppress it, it makes more sense. This kind of rule should be to protect this layer. After all, if there are no restrictions, if there is a very powerful murderer or pervert, won't he kill everyone here?"

Tie Jun smiled and said: "If there is such a rule, it means that Wang Xuan, you are starting to be restricted now. This is mainly because you are too powerful. Although you are not the one who came down from above, you are also included in this category. Among the restrictions, I estimate that at this level, you are the only person receiving this kind of special care."

Wang Xuan smiled bitterly and said, "If this is the case, then it means that those of us who have reached adulthood must leave here."

Zhao Lei said: "The minimum requirement to get out of here by elevator is the sub-body, which has already explained the problem. According to this rule, if you have ascended to the sub-body, you should leave here, not to mention that you have reached the adult body."

Wang Xuan said: "Let's not talk about this for now, let's discuss what to do next."

He has lost interest in this Western District. Although the gargoyles and armored gargoyles here are not weak, they are not very helpful for his promotion. Zhao Lei and the seven people want to kill these gargoyles and they don't know how long it will take to rise to adulthood. This made Wang Xuan a little anxious.

Zhao Lei said: "My suggestion is that we go to the North District first, then complete this Goblin quest, and then go upstairs to have a look. If the upstairs is more suitable for us, we will stay, and if it is not suitable for us, we will come down. It's not too late, before, I was mainly afraid of not being able to come down, but now that I know I'm willing to come down, I don't have to worry about it."

Zhao Lei knows Wang Xuan best, and understands that keeping Wang Xuan in the West District to accompany them to kill gargoyles is basically not helpful to Wang Xuan, and the seven of them will break through the sub-physique soon. How many gargoyles can be killed to break through, which is equivalent to dragging down Wang Xuan in disguise~www.mtlnovel.com~ Li Haotian hesitated: "The monsters in the western district are already so strong, how about the northern district? Let's go to the northern district for some adventure. Bar?"

Zhao Lei glanced at him and said, "How do you know if you don't go and have a look? Besides, Wang Xuan is here, so what are you afraid of? If it's really dangerous, we'll just leave."

Being choked by Zhao Lei, Li Haotian closed his mouth and stopped talking.

Gu Manyao looked at Wang Xuan and said, "Wang Xuan, what do you say, we will listen to you."

Tie Jun said: "Yeah, Wang Xuan, it's up to you to call the shots, otherwise the eight of us have eight ideas and we won't be able to negotiate anything."

Wang Xuan smiled slightly and said, "Well then, let's stay here for a long time. You can try your best to see if there is any hope of reaching adulthood. If there is no hope, let's go to the North District to see."

"Okay." Tie Jun stood up first.

Everyone rested for a while, and their physical strength basically recovered. They exited the giant passage on the left and walked to the right.

There are also a large number of gargoyles in armor in the giant passage on the right.

Everyone just exited the left passage, but they heard exclamations coming from the direction of the exit. Wang Xuan looked towards the distant exit, but there were six more people.

These six people had just opened the door of the west district to enter, and were attacked by a group of gargoyles.

Chapter 109

Except for the first person to reach the body, the remaining five people are the beginning of Kai, how can they resist the attack of groups of three-star gargoyles.

In the exclamation, one person was immediately killed by the gargoyle, and the remaining five people were all dead, desperately turning their heads and fleeing towards the exit.

Fortunately, these people were alert and just stood at the door. When they saw something was wrong, they immediately fled.

Wang Xuan and eight people just saw this scene, watching the door at the far exit closed again, leaving a corpse on the ground, Zhao Lei couldn't help shaking his head: "These people are really over the top."

Wang Xuandao: "It's probably out of curiosity. I want to come to the Western District to see, but their strength is indeed weak. At least they need a few subtypes before they can come to the Western District."

Although one person died there, it was a small episode for Wang Xuan and the others. They didn't take a closer look and entered the right passage. As they approached, the withered statue of the armored gargoyle in the right passage, begins to revive from petrification.

There are about seventy or eighty armored gargoyles in the giant passage on the right. Everyone killed them all the way. Wang Xuan controlled two metal tentacles and did not deliberately fight with everyone. He only appeared when he saw danger. Rao In this way, he also killed nearly ten armored gargoyles, but the energy harvested was not as good as the gargoyle leader he had just killed.

The armored gargoyles in the right passage were eliminated, and everyone exited the passage and returned to the original passage that led directly to the exit. Except for the group of gargoyles now wandering at the exit, the gargoyles and armored gargoyles they could see. They were basically wiped out.

"How's it going?" Wang Xuan looked at Zhao Lei and Gu Manyao.

Zhao Lei shook his head and said, "I feel like it's too early to make a breakthrough. Although there seem to be quite a few of these monsters, there aren't many of them assigned to each of us. If we want to make a breakthrough, I'm afraid we still need to kill a lot of gargoyles."

Wang Xuan said, "Let's go, let's go to the North District to see what's there."

Except for the group of gargoyles wandering at the door, the gargoyles and armored gargoyles that can be seen in the western district have basically been eliminated. It is impossible for Wang Xuan to accompany them and wait here all the time. No one knows how long it will take. It was only possible that a new gargoyle appeared, and everyone had no objection. They followed the giant passage to the exit, and the group of wandering gargoyles surrounded them.

With the previous experience, everyone became more and more tacit with each other. First, Bai Yan launched "Wizard's Blood Jet" to weaken the strength of these gargoyles, and then everyone launched their special abilities. Almost every attack can kill one. Only gargoyles, these dozen or so gargoyles were quickly killed by everyone.

Everyone looked at the corpse at the door. It was a young man in his twenties. He was killed by a gargoyle before entering here. He was wearing a set of inferior equipment. Zhang Haofei reached out and touched the corpse for a while, but there was not a single crystal scale. turn up.

"Poor ghost, no wonder he died." Zhang Haofei pouted.

There were gargoyle corpses all over the ground, but there was not a single crystal scale. After everyone killed them, they didn't need to pick up the scales, they just opened the door and walked out.

After leaving the West District, go back to the curved promenade, and then follow the promenade to the end, and you will arrive at the North District.

"Tell me, are there all four-star monsters in the northern district?" Zhang Haofei asked curiously, "If there really are a group of four-star monsters, if we find a way to kill a few, it will definitely be easy to break through to adulthood, Wang Xuan. , you also broke through because you killed the clown king."

Small Book Pavilion

Wang Xuan hummed, and Li Haotian said, "If it's really a group of four-star monsters, then it would be too dangerous for us to go there."

Zhang Haofei glanced at him and said, "Li Haotian, why do you feel that you are becoming more and more timid now, you were not like this before, we still have Bai Yan's witch blood, what are you afraid of?"

Li Haotian smiled awkwardly.

Zhao Lei said: "It would be better if there were a group of four-star monsters. Think about it, let Bai Yan weaken these monsters first, and then we will take action together. Killing a four-star monster is probably more effective than killing ten gargoyles. Well, then we really hope today that everyone will break through to adulthood."

Gu Manyao said, "I'm afraid it's not that simple."

Wang Xuan released the metal tentacles and said, "Everyone should be vigilant, I'm going to open the door."

Hearing Wang Xuan's words, everyone immediately shut their mouths, Tie Jun showed a diamond shield, Yu Shanshan opened the light mirror, and everyone began to improve their spirits. Thinking that this is the last North District of the four districts, according to the previous Judging from the rules of the three districts, the monsters here are very likely to surpass Samsung.

Seeing that everyone was ready, Wang Xuan carefully used the metal tentacles to push the door of the North District.

The metal tentacles pushed against the door, and the door remained motionless.

"Um?"

This is the first time I have seen this situation. The doors of the previous three areas were opened naturally with a slight push.

Wang Xuan frowned, and immediately stepped forward, stretched out his right hand, and pushed it against the door.

With Wang Xuan's current strength, even if he pushes it casually, ordinary doors can't bear it, but when he pushes the door in front of him, it's like a mud ox into the sea, and there is no reaction at all.

At this moment, he sensed a message in his mind.

"Hidden quest is triggered, the legend of the king, to open the northern district, you need Cerberus' Teeth."

Sensing this information, Wang Xuan's heart trembled slightly.

"The hidden mission, the legend of the king, the king, is it related to the certificate of the king?"

Wang Xuan frowned, with a thoughtful look on his face.

"Can't this door be opened?" Zhao Lei asked as he stepped forward, Zhang Haofei also followed, and the two tried it together, no matter how hard they tried, they couldn't shake it.

Then, they sensed the same information, and they all looked shocked.

"This northern area seems to be related to the king's certificate, but unfortunately it needs some hellhound's teeth to open it."

"What is the Cerberus' tooth?" Gu Manyao said while pushing forward. After everyone tried it, they all felt the information and looked at each other with surprise and joy on their faces.

If they want to leave this terrifying world, they need the certificate of the king. They have never been able to find any information about the certificate of the king. It can be said that it is the first time, and it is suspected to be related to the certificate of the king.

"The legend of the king... Judging from the name, it is very likely related to the certificate of the king. In any case, we finally found a clue." Tie Jun was very excited. What he wanted most in his heart was to leave this world. He misses his wife all the time. Female.

Wang Xuandao: "Regardless of whether this North District is related to the King's Certificate or not, if you want to open the door to this North District, you need Cerberus Teeth. Listening to the name, I'm afraid this Cerberus Teeth is not easy to get."

Zhao Lei said: "There is a three-headed dog in the myth and legend, and the Cerberus Teeth here is not referring to the three-headed dog of hell."

Wang Xuan turned around and said, "Don't think about it for now. Since this door can't be opened, it's useless to think about it more. Let's get ready and go to the East District to have a look."

"Why don't you take a break before going, I feel a little hungry." Zhao Lei suggested.

"Okay." Wang Xuan opened his pockets, took out the nutrient solution, and divided each person into two bottles.

As everyone has risen to the sub-body level, it is difficult for this kind of primary nutrient solution to keep up with the needs of everyone. Now everyone can drink two bottles at a time.

Wang Xuan decided to drink the primary nutrient solution and then switch to the intermediate nutrient solution in the future.

Everyone drank the nutrient solution and rested for another half an hour. They all felt that they had almost rested, so they got up and walked towards the East District.

Arriving at the gate of the East District, I immediately saw that the door was opened, and a group of people walked out covered in blood. These people were exhausted, and obviously they had just finished their hunting and left from the East District.

These people are all wearing inferior equipment and their strength is not high. It is possible that they are newcomers who have just arrived. When they suddenly saw Wang Xuan and eight people, they were all shocked.

Now Wang Xuan is a full set of second-order high-quality equipment, and Zhao Lei and Gu Manyao are all second-order quality equipment in one suit, and there is another second-order high-quality equipment.

It can be said that the equipment on the eight of them is too dazzling for a newcomer who only has one inferior equipment.

Wang Xuan was accustomed to this kind of awe and envy in his eyes, so he ignored them and walked straight into the East District.

Returning to the East District again, everyone has a strange feeling that something is different.

As soon as everyone walked into the East District, they heard monsters' filial piety and shouts of slaughter. Compared with the South District, the East District was really lively.

They saw a huge supermarket with a large number of fixed containers. Between the containers, they saw a large number of dwarf monsters with green skin, only about one meter and two in height. They were ordinary goblins.

This kind of ordinary goblin has a danger level of one and a half stars, and its strength is between the prototype and the beginning, and it is most suitable for newcomers who have just entered here.

When they entered the East District before, there were no such ordinary goblins, but in the East District at the moment, the number of such ordinary goblins has reached an astonishing amount. At a glance, there are ordinary goblins between and above the containers. The number of Brin, at least a few hundred.

The number of ordinary goblins is so amazing, and the number of newcomers who enter here to hunt goblins is equally astounding.

These newcomers have the strength to start, and some are not even rudimentary. At first glance, Wang Xuan doesn't know any of them, and he knows that they should all be newcomers who have just entered this layer.

Because there are too many people and there are too many monsters, there is no obvious dividing line between these people, but they are mixed with each other, fighting and killing these goblins.

Wang Xuanba walked in and immediately attracted the attention of the goblins and these people.

The people who saw them were all taken aback. For the newcomers who couldn't even put together a set of inferior equipment, Wang Xuanba was like a magic weapon, and their eyes were full of surprise. Such a strong man, how can it suddenly appear in the East District.

Zhang Haofei showed his skull's right arm and smiled, he enjoyed this feeling very much.

This feeling of being followed, respected and envied by countless people is really cool.

He saw a young and beautiful woman not far away who was being attacked by an ordinary goblin. She exclaimed that the situation was a little dangerous.

With a sigh of relief, Zhang Haofei rushed towards her instantly, and with a wave of the skull's right arm, the short goblin was lifted into the air.

The young woman was still in shock, and before she understood what was going on, Zhang Haofei came to her.

Zhang Haofei's attention was drawn to her, her face flushed, she came back to her senses, and hurriedly lowered her head and said, "Thank you."

As soon as Zhang Haofei twisted his claws, he severely injured the goblin and threw it in front of her, "I'll kill it for you, killing this thing is useless to me."

Surprised and happy, the young woman was busy killing the goblin.

"What's your name?" Zhang Haofei enjoyed this feeling. Those ordinary goblins were not stupid. Knowing how powerful they were, they all took the initiative to avoid them and didn't attack Zhang Haofei.

Wang Xuan and Zhao Lei also came over. These goblins avoided one after another and took the initiative to make a way. Seeing this in the eyes of everyone around them, they were all amazed, and they were even more in awe of Wang Xuan and the others.

"My name is Lin Xinru." The young woman's heart was like a deer, and she was in such a chaotic and dangerous world. The powerful and mysterious Zhang Haofei was not small for her.

"Lin Xinru, right? I remember you, remember, my name is Zhang Haofei."

Zhang Haofei gave a wicked smile that he thought was handsome, and Wang Xuan, who saw him walking over, couldn't help laughing and laughing.

"I give full marks to this pretending." Zhao Lei whispered softly.

The four men who followed Lin Xinru's team defended against the goblins that appeared around them, and also looked at them curiously and excitedly. If Lin Xinru really joined a master like Zhang Haofei, then they would have a good life. .

However, most of their eyes fell on Wang Xuan. Although they were newcomers, they were not fools. They could still tell which equipment was bought and which equipment had to be obtained by hunting monsters.

Wang Xuan had a whole set of equipment, and he bought none of it. At first glance, it was the most high-end equipment among the crowd. They guessed that Wang Xuan was the leader among the eight people.

"Zhang Haofei, leave." Zhao Lei called out.

Wang Xuan didn't stop, he followed the container facing him and walked towards the end.

Seeing everyone leaving, Zhang Haofei smiled and said, "Lin Xinru, right? I'll find you when I'm done with my work."

While talking, he was busy keeping up with the team. UU Reading www.uukanshu.com

Lin Xinru looked at Zhang Haofei with a complicated expression on her face.

She is not stupid, she can see what Zhang Haofei means to her. With her previous vision, she doesn't look down on Zhang Haofei at all, but in this precarious world, if she can really rely on a big backer, she is still willing to do it. make some sacrifices.

"It's a pity that the one who looked the most powerful didn't like me. He looks much more handsome than this Zhang Haofei. It would be great if I could follow him, but unfortunately he didn't even look at me..." Lin Xinru sighed inwardly with regret, seeing it again and again. When a goblin monster appears, he can only restrain his mind and resist the monster attack.

Wang Xuanba and the others quickly walked to the aisle at the end of the supermarket. There were also many goblins fighting people in this aisle. Wherever they went, the goblins would give in and disperse. The newcomers who were desperately trying to grow up were dumbfounded.

Passing through the passage, there is a huge shopping mall with counters one by one. In this huge shopping mall, the situation is similar to the outside, and a large number of goblins and newcomers are still fighting.

However, there are occasionally more powerful elite goblins, whose strength is comparable to the first.

The people who enter here are slightly stronger than those outside, and most of them have reached the initial stage.

Eight people appeared, and they still attracted the attention of adults.

Wang Xuan stopped and took out the parchment from his body.

Chapter 110

"Goblin's redemption, the first step in this mission is to protect the goblin nest for half an hour. You can't kill violent goblins, otherwise the mission will be considered a failure."

Wang Xuan unfolded the parchment, read out the contents of the task written on it, and reminded everyone.

"When you do it later, if there is a violent goblin, you must remember not to kill it."

While talking, he walked forward, and the ordinary goblins who had gathered in front of him immediately gave way.

For ordinary goblins who couldn't even reach the initial strength, even if Wang Xuanba didn't make a move, the aura they exuded made them feel fearful.

Inside the mall, many people couldn't help but stop, watching these monsters automatically make way, letting Wang Xuan walk towards the end of the mall.

This scene is a bit strange. These people are whispering and talking in low voices, guessing the identity and origin of Wang Xuanba.

"Could it be someone who came down from above?" Someone whispered to the people around him: "I heard that there were four people who came down from above and recruited new people to go to the southern district, but they all seem to have died."

"It's spread all over, and I've heard of it. It seems that he was killed by the clown in the southern district."

"Speaking of which, I'm really looking forward to it, but when can we go to the southern district to see that clown."

"At least we'll have to wait until we've all reached the beginning of time before we're qualified to go. Now let's honestly hunt goblins here."

"You said they have such strength, what are they doing here in the Eastern District."

"I don't know, maybe there are some treasures in this eastern district."

In the whispers of these people, Wang Xuanba passed through the mall and arrived at the passage at the end of the mall. Several elite goblins appeared in front of them.

This elite goblin is much taller than ordinary goblins, with a height of about 1.5 meters, and a danger level of two stars, which is comparable to that of Chukai.

These elite goblins did not flinch like those ordinary goblins, they bravely rushed up and wanted to attack Wang Xuanba.

Zhang Haofei fluttered all over because of what happened to Lin Xinru just now. When he saw these elite goblins without long eyes rushing up, he greeted them with a snort and laughed: "Beast, let me teach you how to be a human being!"

The skeleton and white bones appeared from the right side of the body, easily grabbed the neck of an elite goblin, and twisted it with a click.

Zhao Lei raised the fish-scale knife in his right hand and slashed it out diagonally, slicing the other elite goblin from the left shoulder to the right waist.

The Iron Army launched "Shield Strike", and the diamond shield in his hand flew over and hit an elite goblin.

This elite goblin groaned, his body was smashed into the air, and flew backwards. After landing, his chest collapsed in, his face was twisted, his eyes were exposed, and he died of anger.

The three shot and killed three elite goblins instantly. Seeing these newcomers in the mall, they all took a deep breath.

"It's amazing..." For the newcomers who are not yet in the beginning, how powerful it is to be able to instantly kill elite goblins.

Wang Xuan ignored these elite goblins that appeared and continued to walk towards the passage.

There are two teams in this giant passage, a team of five and a team of seven.

The seven-person team was right at the edge of the passage, fighting with groups of ordinary goblins and elite goblins all around.

Wang Xuan saw that among the seven people, four were just starting, three were prototypes, and the four formed a circle, standing firmly on the spot, fighting against these goblin monsters. There were many goblin corpses on the ground. It is not difficult to advance from the prototype to the initial opening. It should take a while for these people to be promoted to the initial opening.

At the end of this giant passage, there is a rudimentary goblin hive, and at this moment, there is an endless stream of ordinary goblins and elite goblins crawling out from this goblin hive.

In front of them, there is a five-man team.

Wang Xuan understood at a glance that this five-member team, four of whom were just starting out, led by one, had already reached the sub-body level.

The man who reached the sub-physique was a man in his thirties. He was wearing two pieces of second-order ordinary quality equipment. He stood among the four with his arms in his arms. Teammates, he will only shoot when teammates are in danger.

The five-member team is slowly approaching the goblin hive.

When Wang Xuan and the eight people appeared, they saw a green monster emerge from the top of the goblin nest. With green muscles all over his body, he looks full of strength.

Wang Xuan knew at a glance that the ruthless goblin that only gave birth to one at a time in the primary goblin brood appeared.

This violent goblin appeared, roared, jumped up suddenly, and jumped down from the mother's nest.

In the five-person team, the man in his thirties who was already a sub-body finally made his move.

"Not good!" Wang Xuan was shocked when he saw it from a distance, and with a thud, he shot at him instantly.

"Stop!" Wang Xuan shouted, and stretched out his right hand, a long metal tentacle madly stretched out.

There are two necessary conditions for this "Goblin Redemption" mission. One is to protect the primary goblin nest from being attacked within half an hour, and the other is that the violent goblins that appear cannot die.

Either of these two conditions is not met, and the mission will fail.

Now the Violent Goblin has appeared, and its strength is between the first and the sub-body. This 30-year-old man hatching beast has grown to the sub-body, and it is not difficult to kill this Violent Goblin.

Wang Xuan shouted like thunder, which caused echoes in this passage and shocked everyone. He burst out with all his strength. With the terrifying power of his body and the 15% speed of the knight boots, he could step out of every step. A few meters, running at full speed, this speed is terrifying.

The man in his thirties stretched out his right hand, revealing a translucent ice sword, facing the violent goblin who jumped down from the sky, stabbed the ice sword out.

The speed of his shot was faster than that of the violent goblin. The violent goblin that jumped in the air was unavoidable. Seeing that the ice sword was about to pierce its head and face.

Because Wang Xuan ran too fast, a gust of wind blew up, and the metal tentacle on his right hand stretched to the limit of five meters.

There was a crackling sound, and the metal tentacles went around the body of the man in his thirties, and hit the ice sword with precision from behind.

The man's right arm shook violently, and the tiger's mouth in his right hand split immediately, blood spurted out, and the ice sword in his hand could not withstand the blow of the metal tentacle, and immediately broke.

He groaned, staggered and fell back, before he understood what was going on, Wang Xuan had already swept up like a gust of wind, stretched out his left hand, grabbed the violent goblin's chest muscles, and smashed it down. .

According to the parchment, the Violent Goblin can't be killed, but it doesn't say that it can't be hurt.

With a crisp "click", the violent goblin fell into Wang Xuan's hands, like a chick under the claws of a goshawk, without the strength to resist and struggle, his legs hit the ground and were immediately broken.

The metal tentacles wrapped around its arms again, and with two clicks, it also twisted its arms.

After breaking its limbs and making it powerless to resist and escape, Wang Xuan threw the violent goblin on the ground.

The man in his thirties who fell back, his face full of shock, his left hand covering his right, looking at Wang Xuan who suddenly appeared, watching his actions, he was both horrified and confused.

The ice sword he held in his hand was shattered, and his entire right arm has yet to regain consciousness. The terrifying blow of Wang Xuan just now made him terrified, and he did not know what happened, why Wang Xuan suddenly shot .

The other four people who followed him were busy protecting him and slowly backed away together. Everyone looked at Wang Xuan with a hint of panic in their eyes.

"Don't be nervous, I don't have any ill will towards you. I'm just completing a mission. This savage goblin cannot be killed for the time being." Wang Xuan knew that he had just frightened this one with a blow, and with a smile on his right The metal tentacles split in two and extended out, easily wrapping the two elite goblins who wanted to attack him, and then smashing them towards the other approaching goblins.

These goblins were powerless to resist, they slammed into each other, and their bones shattered immediately.

Hearing what Wang Xuan said, the five secretly breathed a sigh of relief. Looking back, Zhao Lei, Gu Manyao, Zhang Haofei, and Tie Jun also came up and saw that they were all covered in Tier 2 equipment. Obviously, each of them was a strong man. , these people are even more afraid.

Zhang Haofei said loudly, "This place is reserved by us now, you all hurry up and leave!"

Said he showed his skeleton arms completely, twisted his neck, and there was a crisp sound of bones in his body, and looked at the five in front of him and the seven-member team at the entrance of the passage.

Among the five, the man in his thirties didn't dare to meet Zhang Haofei's eyes, and said in a low voice, "Let's go."

After saying that, he hugged his right arm that had not recovered yet, and ran towards the outside first.

The other four didn't dare to speak, so they hurriedly followed him.

When the seven people at the entrance of the passage saw this, they no longer fought with those goblins, but turned around and ran out.

Soon only the eight of them were left in the passage, and there were groups of goblins all around.

Ordinary goblins dare not approach, only some elite goblins want to attack them and save the violent goblins.

Wang Xuan stepped on the violent goblin whose limbs were broken, and placed it under his protection to prevent it from being accidentally killed by others. Zhang Haofei and Zhao Lei shot and easily attacked their elite goblins. kill.

Soon the remaining elite goblins stopped attacking, and seemed to understand that the difference in strength between the two sides was too great. They retreated to the edge of the hive, just watching them from a distance.

Everyone stopped, and now they have to wait for half an hour to end, and the first step of their mission is complete.

"Looking at so many people in the East District, I estimate that there are more than 200 people in this entire floor now." After the quiet, everyone started chatting, and Zhao Lei expressed his guess.

Wang Xuandao: "Almost, we have been here for a few days, and the number of people here has grown quite fast."

Zhang Haofei smiled and said, "After we finish this task, we can go upstairs. Tell me, will we meet that woman who went up a few days earlier than us?"

Hearing Zhang Haofei mention that woman, Wang Xuan immediately thought of that hot woman, and said, "If we were on the same floor, we should meet, but I don't know what level she has grown to now."

Zhao Lei said: "When she went up a few days ago, she should have been a sub-body, of course she could be an adult. If she was a sub-body, she might not be stronger than Wang Xuan you now. If she was a full-body a few days ago, then she will now It's amazing, it's really not a good evaluation."

Gu Manyao said: "By the way, when I talk about this, I remember one thing. Do you remember the four people who came down from above in Ma Dongcheng? What level do you say they are? If you say they are adults, is it too weak? One point, Wang Xuan, you said that the Joker King's danger level is four stars, isn't that the same as the gargoyle leader you killed in the Western District before?"

Zhao Lei said: "Yes, according to the comparison of the degree of danger, these four-star clown kings should be equivalent to adults. If these four people are adults, it is impossible for four adults to beat a clown king of the same level. It seems that the sub-body is much stronger than the normal sub-body, and the clown is stronger than the normal sub-body, but he can be killed instantly by them."

Wang Xuan said: "Among the four, Brother Lu has the strongest strength. His performance at that time should have been close to the strength of an ordinary adult. The other three were slightly weaker. The body is much stronger."

Zhao Lei said: "In this way, these four people may not be fully grown, they are just four stronger sub-body, if only one is strong, there may be some kind of adventure, but all four of them are like this, won't they? Could it be that there are some special methods above that can make the sub-body stronger?"

Wang Xuan said, "We'll know when we get to the top."

A few people chatted, and after an unknown time, they noticed a sudden change in the goblin hive.

The eight people stopped talking immediately, and Wang Xuan, who had sat down to rest, immediately stood up, but saw the goblin hive move up, and suddenly pulled out a thick tentacle from below, followed by the second, The third root...

Soon the goblin nest pulled out eight giant tentacles, which transformed from the original goblin nest into a movable goblin queen.

Although she is only a primary goblin queen, her danger level reaches three stars, and her strength is stronger than that of the ruthless goblin, and it can rival the sub-type.

The goblin queen didn't attack them, but moved her body, and the giant tentacle slammed into the wall at the end of the passage behind it.

There was a loud bang, and the wall at the end was hit by its giant tentacles, and it shattered and collapsed into a huge hole. Squeeze away.

It's leaving here.

Wang Xuan and the others were quietly watching the changes in front of them.

"It turns out that this is the entrance to the world of goblins introduced on the parchment." Wang Xuan whispered to himself. According to the records on the parchment, they guarded the goblins without killing the violent goblins. If the mother nest is not attacked by the enemy for half an hour, the entrance to the goblin world will be opened, and they need to enter the goblin world to defeat the power of evil spirits, so that the goblin family can be redeemed and rewarded.

As for the entrance to the Goblin world and how to fight off the power of evil spirits, this parchment is not clearly written. At this moment, seeing the goblin mother punching a huge hole in the rear wall, Wang Xuan immediately understood, it must be It is the entrance to the Goblin world.

Watching the goblin mother squeeze in, Wang Xuan immediately followed and said: "Everyone, be careful, the difficulty of this task is four stars, it shouldn't be too difficult, but it won't be too easy, everyone should be alert. "

Seeing that the goblins who were originally guarding the goblins' nest had also escaped into the gaps in the collapsed wall, Wang Xuan released metal tentacles, protecting them in front of him, and approached carefully.

Tie Jun held a diamond shield and followed him closely to prevent emergencies.

In the gap in the wall, there was a dark passage. With Wang Xuan's vision, he could only vaguely see that the walls around the passage were made of bricks. There was a lot of moss on the surface, and the brick walls and the ground looked very damp.

In just a short period of time, the goblin queen who had just squeezed in had already penetrated dozens of meters down the dark passage, and its movement speed was very fast.

"Go, follow and have a look." Wang Xuan determined that there was no other danger in this dark passage, so he chased after him first, followed by the other seven.

This dark passage is about 100 meters deep. Wang Xuan chased the moving goblin mother out of the dark passage, and the space in front of him suddenly expanded, turning into a vast space with no end in sight.

This space looks dark, with green light spots flickering everywhere. With the help of these flickering green light spots, this space will not be completely dark.

The eight people all stopped and looked at the hills that appeared in front of them one after another. These hills were big and small, tall and short. From a distance, they looked like mountains, but these hills were bare. There are no trees and plants, and it is not as tall as a real mountain. According to Wang Xuan's eyesight, the tallest hill should be no more than 100 meters high.

The goblin mother, who entered first, exited the passage, continued to move forward for about tens of meters, and stopped. After that, it re-rooted the eight giant tentacles on the ground and stopped there.

After that, it seemed to be absorbing the energy of the ground, and its body began to grow further and slowly expanded.

"Is this the Goblin World? Why haven't I seen a Goblin? Even the Goblins who just escaped don't know where they are going." Zhao Lei narrowed his eyes and tried his best to look into the distance. Those undulating hills of varying sizes did not see a single goblin.

Wang Xuan is also silently looking into the distance, watching the goblin mother rooted on the ground and then turning into a goblin mother's nest again. Looking at its shape, if you can't see the true face from a distance, it's not like a goblin mother. Small hills? They were just so close that they could see clearly if it was a hill, there were a lot of holes on the surface, it was a goblin nest.

Thinking of this, he suddenly sucked in a breath of cold air and said, "Those in the distance are not hills, they are all goblin nests."

"Those hills are all goblin nests?" Zhao Lei and Gu Manyao cried out, and everyone was shocked when they heard it.

If this is true, how many goblin broods must there be in this goblin world? The most shocking thing is the far-off hill, which is as high as 100 meters. What kind of goblin nest is so huge?

Wang Xuan's face was ugly, and he said, "We are just too far away to see their true appearance, so from a distance, they look like hills with different heights. The goblin nest in front of us is so close because of its closeness. We can see clearly."

Hearing what Wang Xuan said, everyone carefully compared and gradually began to believe Wang Xuan's speculation.

"This Goblin Redemption is really only a four-star danger. How do you get the reward? If you really can't do it, let's go back. This is too scary." Zhang Haofei had always been fearless, but at this moment he felt a little weak in his legs.

Wang Xuan opened the parchment again. The records on it were unclear. In fact, he didn't know how to complete the next task.

At this moment, he saw that the content of the task originally recorded on the parchment was disappearing, and a few lines of new words were emerging.

"The land of the Goblin world was invaded by evil spirits. The Goblin Mother Nest absorbed the power of the evil spirits of the earth, was eroded by evil spirits, and grew into a nest of evil spirits. It will give birth to powerful evil spirit mages to kill evil spirits. Spirit mage, destroy the nest of evil spirits, complete a Goblin redemption, you can get a treasure chest full of rust."

Looking at the records above, Wang Xuan knew the complete content of this mission.

Put away the parchment, look at the expanding goblin brood not far away, and understand that it is absorbing the power of evil spirits in the earth and growing into a nest of evil spirits. The holes on the surface are full of juices. Flowing out, soon one after another figure struggled out from these holes.

"This goblin hive has been transformed into a nest of evil spirits~www.mtlnovel.com~ This time the mission is to kill the evil spirit mage and destroy this nest of evil spirits."

As Wang Xuan spoke, he began to approach the evil spirit's nest dozens of meters away, followed by the other seven people. Soon, a large number of dwarf-shaped monsters crawled out of the evil spirit's nest. They looked like goblins. Almost, the only difference is that instead of green skin, they have black skin.

Wang Xuan opened the eyes of the illustrated book and immediately caught their information.

"Name: Evil Spirit Goblin, Race: Evil Spirit, Dangerousness: ★★☆☆, The Goblin Brood infected by the power of Evil Spirit mutates into a Nest of Evil Spirit, which can give birth to Evil Spirit Goblin, They are the lowest evil spirits, without consciousness, only instinct, the only advantage is that they are not afraid of death, do not know pain, as long as they do not destroy the nest of evil spirits, they can appear endlessly."

Sensing the information, these evil spirit goblins are two-and-half-star dangerous, and their strength should be between the first and the sub-body, which is comparable to the violent goblins.

When Wang Xuan and seven people rushed to within ten meters in front of the evil spirit's nest, dozens of evil spirit goblins appeared in front of them. They had no consciousness and only had the instinct to kill. Come, want to kill any creature that dares to come near the lair of evil spirits.

Wang Xuan released two five-meter-long metal tentacles, bowed left and right, and snapped, and immediately two evil spirit goblins were knocked into the air. With his current strength, the power contained in these metal tentacles was terrifying. , with just one blow, the two evil spirit goblins were beaten to pieces, their bodies folded in half, and they died instantly.
