

## Last Building on Earth Chapter 116-120

Chapter 116

"Task Name: Treasure of Snake Clan, Difficulty: ★★★★★"

He looked at another piece of parchment opened by Zhao Lei next to him, which also had a line of words written on it.

"Task Name: Centipede Hunter, Difficulty: ★★★★★"

The two pieces of parchment represented two tasks. Wang Xuan took a look at the rewards. "The Treasure of the Snake Clan" was rewarded with a rust treasure chest. The five-star difficulty "Centipede Hunter" rewarded a bronze treasure box.

"This woman didn't even complete the task of having two pieces of parchment, or has it been completed, but the parchment hasn't been lost?" Zhao Lei took a look at the parchment and was a little curious.

Wang Xuan glanced at it and said, "Neither of these two tasks have been done yet."

Zhang Haofei said, "Why, Wang Xuan, how do you know?"

Wang Xuandao: "You can see the content of this task. I have discovered a pattern now. The content of the task on this parchment will change. Now the content of the task displayed on these two pieces of paper is the first step. Obviously, neither of these two tasks has been done yet, and if it is completed, the content of the tasks above will become the last step."

This is a small detail that he noticed when he went to complete the Goblin Redemption quest before. As long as you carefully look at the content of the quest, you can understand whether these quests have been completed.

Zhao Lei smiled and said, "So that's the case. This woman got two parchments, but she didn't do it for some reason. It's cheaper for us."

Wang Xuan stood up and said, "Maybe it's not too late to do it. Since this is the area of the Snake Territory in the east of Zhen, it happens that the address of the 'Treasure of the Snake Clan' is in the Snake Territory. Let's complete this task first."

As he spoke, he raised his head, only to feel the darkness around him, and only to see a large number of rock piles undulating in the distance. It is estimated that it should be after four in the morning, but they were resting before they came up to the second floor. No one is tired now.

I'm only here now, and it will take a few days to get used to it if I want to reverse the biological clock.

"Wang Xuan, what should I do with this woman and Wu Yi's corpse, they will be discarded here. If Duan Chen's people see it, will they suspect that we are here."

Wang Xuan carefully looked at the two corpses, and gradually found that there were signs of melting under them. Although it was very slow, it also represented that the ground here had the same self-purification function as the first floor. The two corpses were placed here, the most In half a day, it will definitely be completely swallowed up by the earth and disappeared.

"Don't worry, the two corpses will slowly melt away." Wang Xuan said while unfolding the parchment in his hand.

Zhao Lei also gave him the parchment with the words "Centipede Hunter" written on it.

This time, I also got two junior storage belts. Zhao Lei took one by himself, and Zhang Haofei took the other.

Gu Manyao didn't care about this belt. She thought that she would always stay by Wang Xuan's side anyway. With Wang Xuan there, there was no need for an additional storage belt.

"The difficulty of this snake clan's treasure is only four stars, so it shouldn't be too difficult, but we are here for the first time, everyone should be careful." Wang Xuan held the parchment in his left hand, and released a metal tentacle in his right hand. Ahead, one rises above his head, just in case.

Zhao Lei followed closely behind him, showing the marks of the Holy Spirit, and kept looking around, and couldn't help sighing: "It's all to blame for Wu Yi, otherwise we can take a good tour in Worm Town now, I look at the map It shows that there are many good places in this worm town. The names are different from the previous lobby on the first floor. For example, there are exchange areas, recycling areas, task lines, and the most attractive tavern. Now we can't go there. ."

Zhang Haofei said bitterly: "It's not a pity for this guy to die a hundred times. Damn, we can only live in the wilderness now, and we don't know whether Huichong Town is safe or not."

Wang Xuan also smiled bitterly and said, "Don't think about this for now, at least until you all reach adulthood, don't think about Huichong Town, fortunately we have a lot of nutrient solution now, and we haven't carried it for a month or two. question."

Zhao Lei said with a smile: "In a month or two, why don't we just become an adult, I'm afraid we can grow to a higher form, yes, I don't know what form is above this adult, Wang Xuan, you just killed that one. Wu Yi is also an adult, you have obtained his energy, will you break through again soon?"

Gu Manyao also showed concern. If Wang Xuan made another breakthrough, why should he be afraid of Duan Chen, Yao Tiande and others?

Wang Xuan shook his head and said: "It feels too early. After reaching the adult body, the white light in the right hand seems to have turned into a Wangtan. No amount of energy is filled in without much response. According to the current situation, this adult body wants to break through again. , it's just a long way off."

Zhang Haofei said in surprise: "It won't reach the top after reaching an adult body, will it? Can it no longer evolve?"

Tie Jundao: "Listening to the name, adult body should mean adulthood. There is a possibility."

Wang Xuandao: "It's hard to say right now, if it's just Duan Chen and Yao Tiande, we don't need to be afraid even if they are both adults, it's mainly the Rakshasa that Wu Yi said, we need to find out exactly what this Rakshasa is, is it? An individual is still an organization. If it is an organization, what kind of strength does it have, what position does Duan Chen and Yao Tiande have in this organization, and how much energy can they mobilize? In short, everything is unknown now, and we need to find a way to find out. "

Zhao Lei said: "Yes, by knowing ourselves and our enemies, we can know what to do."

While chatting in a low voice, the eight people walked along the piles of rocks under the darkness of the night and walked into the distance.

The parchment in Wang Xuan's left hand is exactly the map of the Snake Territory. According to the map, they need to walk out of the east gate of Insect Town and go all the way east.

At the end of this eastern snake field, there is a giant rock pile nearly 100 meters high, and this "treasure of the snake family" is hidden there.

It's just that the night is too dark now, and everyone looks at the darkness in the distance. They can't see the huge pile of rocks that is 100 meters high. They can only follow the prompts and walk towards the east.

Yu Shanshan's injuries were not minor before, but fortunately, her "light mirror" played a huge self-healing effect. Although she has not fully recovered, she has no problem walking with everyone. During the walk, her injuries are still continuing. In recovery, it will take a long time to fully recover.

Soon everyone walked two or three hundred meters ahead. Except for rock piles of different sizes and weeds everywhere, they didn't see half a snake and were not in danger.

"This snake domain name doesn't match the truth. Is it because these snakes are sleeping at night?" Zhang Haofei felt a little itchy in his nostrils.

He is now looking forward to the emergence of a group of snakes, so that he can kill a lot and gain enough energy to advance to adulthood.

The unknown Rakshasa brought him great pressure. Although he was in the Snake Territory, no one could guarantee that he would never meet Duan Chen and Yao Tiande in the wild. Come up, it's dangerous.

As soon as he said this, Wang Xuan, who was walking at the front, suddenly stopped, followed by a pile of rocks not far ahead, and two heads suddenly appeared, followed by two figures standing up. Two pairs of vigilant eyes appeared in the night, staring at them.

Suddenly seeing two people here, all eight were slightly startled.

Wang Xuan looked at the pile of rocks behind the two people, the figures flickered one after another, and soon there were four more people, and a total of six people gathered together.

The six people were a little nervous at first, but when they saw Wang Xuan and eight people, they seemed to be relieved after looking at them carefully.

Wang Xuan saw that these six people were basically wearing Tier 2 equipment, both ordinary quality purchased with crystal scales and fine quality obtained by hunting monsters, but they did not have a piece of Tier 3 equipment. Wearing a red belt, at least it should not be in the same group as Duan Chen and Yao Tiande.

Thinking of being worried that he could not find anyone to inquire about Rakshasa, seeing these six people suddenly in front of him was an opportunity.

Wang Xuan had a similar idea and was about to speak, but he didn't want one of the six women to suddenly take the initiative to say, "You don't have to be nervous, you are newcomers to Bug Town, right?"

Wang Xuan was slightly startled, and couldn't help but ask curiously, "How do you all know that we are newcomers?"

Thinking about the equipment, the equipment of the six people in front of him is not better than them. He also has a third-order alloy boots on his body. In addition, he is wearing a Xumi belt. Zhao Lei and Zhang Haofei also have storage belts around their waists. This equipment, no matter how you look at it, doesn't look like a new talent.

This woman is about twenty-three or four years old. Although she looks average, her smile looks very friendly. She smiled and said: "One is because you have no signs, and second, most of the people who can come to this snake domain are all newcomers, plus this time point, if I guess correctly, you should be the newcomers who came tonight, and then bought a map, and came here according to the map, but I remember that the four doors of Bug Town will be closed at night. , most of you came out over the wall."

Wang Xuan thought that although she was not completely accurate, she was able to guess these things very well. She nodded with admiration and said, "You guessed right, my name is Wang Xuan, I don't know what you call them, yes, you say What does the sign mean?"

As he spoke, he brought seven people up, came a few meters away, and stopped.

The two sides maintain a certain safety distance, which is good for both sides. After all, it is the first time to meet each other, and they are still a little wary of each other.

The woman said: "Actually, we are also newcomers who have only been here for a day. My name is Li Haitang, this is Wu Yunyue, this is Zhang Zhao..."

Both parties introduced their names to each other and nodded to each other. It was considered that they knew each other. Perhaps because they were both newcomers, the six of them were very friendly to Wang Xuan and eight of them, so Li Haitang explained the sign.

"Because you came at night, you may not have met people from the five major forces. This worm town is ruled by the five major forces. All newcomers who come in must join one of these five forces and get the badges granted by them. They sheltered, otherwise they would not be able to get along."

Wang Xuan frowned slightly and said, "The five major forces, which five major forces are they?"

Li Haitang said, "Phoenix, Rakshasa, Xuan Gang, Dynasty, and one called Justice League."

Hearing this, Wang Xuan took a deep breath. It seemed that his guess was accurate. This Rakshasa was really the name of an organization, and it was also one of the five major forces that ruled this worm town.

Wang Xuan was relatively calm, Zhang Haofei and Li Haotian all changed their faces when they heard this, and understood who they were provoking.

Li Haitang couldn't help laughing when she saw their faces changed: "You don't have to be afraid, it's nothing in reality. To put it bluntly, they are just trying to extort newcomers. The so-called joining them is a bit like paying a protection fee. It has to be handed in when you first come here. According to the regulations, each newcomer needs to hand them two crystal scales every day, and they will be handed in for one month at a time, that is, 60 crystal scales, which means that the newcomer has obtained their shelter during this month. , after one month, it depends on the situation, the sub-body is still two crystal scales a day, and then hand in one month, the adult body is halved, one a day, only 30 pieces a month."

When everyone heard this, they looked at each other in dismay. Each newcomer had to hand in 60 pieces, and the eight of them would have to hand over 480 crystal scales at one time.

"Do these five forces have the same rules? Everyone must pay them? What if they don't? Or what if they don't have so many crystal scales?" Zhao Lei couldn't help but ask.

Li Haitang said: "No matter which faction you choose to join, the rules are the same. When you come here, who else would dare not pay? If there is really no crystal scales, they won't make it difficult for you, they will let you come anyway. The Snake Domain tried to earn crystal scales, and next time they get it together and then hand it in. They are more humane in this regard. Just like us, we don't have crystal scales, so we dare not go back tonight, we can only gather what we need. of the crystal scales before returning to Insect Town."

Wang Xuan was a little confused, he pondered slightly, and then said: "If this is the case, it is not that everyone in this worm town belongs to a certain faction? Everyone has backers behind their backs, so this kind of protection you said has What's the point?"

Zhang Zhao next to Li Haitang laughed and said, "Yes, that's why Sister Haitang just said that joining the five major forces is a pretext. To put it bluntly, except for some of their core members, everyone else's so-called joining is just hanging. It's just a name, and the bottom line is to force all of us to pay protection fees. These core members can make a lot of money without saying anything. It is said that as long as you need enough crystal scales, you can buy anything here. , especially some private transactions, all kinds of special treasures can be bought, of course, we also heard from a few people who came two days earlier than us."

When Wu Yunyue heard this, he coughed lightly and said, "Forget it, everyone, pay attention to what you say, it's not good to spread these words out."

He looked at Wang Xuan and the others with some vigilance. Li Haitang and Zhang Zhao said that there was dissatisfaction and resentment against the five major forces. If Wang Xuan and the others spy, it would be dangerous for them.

With Wu Yunyue's reminder, both Li Haitang and Zhang Zhao showed unnatural expressions on their faces.

Knowing what they were worried about, Wang Xuan immediately murmured: "I can't imagine that the so-called five major forces are like this. Isn't that the five cancers in this insect town? Does anyone want to resist them?"

Hearing Wang Xuan say this, and he said it more boldly than them, they were relieved and a little surprised. Although they had some resentment against the five major forces, they were not so bold to say this.

Li Haitang immediately said in a low voice: "Wang Xuan, it's okay to talk about it here, don't talk about it in front of other people, especially when you return to Bug Town, you don't even know who is the core of these five forces. Members, a little carelessness will lead to a catastrophe."

Wang Xuan snorted, thinking of the fear of Duan Chen and Duan Chen. Could it be that Duan Chen, Yao Tiande, and the slain woman are the core members of the Rakshasa?

"Thank you, Sister Haitang, for your concern." Wang Xuan smiled and called her Sister Haitang along with Zhang Zhao and the others. He further improved the relationship between the two parties. He could see that Li Haitang was very kind to him, and he should have a good impression of himself. Then he said: "Then what are the symbols of these five major forces, such as the symbol of the Rakshasa? What is the symbol of the phoenix."

When he mentioned Phoenix, he suddenly remembered that he had just entered Worm Town. Among the rows of single-family buildings, he saw a five-story building with a flag on the roof. There is a picture of a phoenix. Could it be the "Phoenix", one of the five major forces?

Li Haitang said: "We don't know this very well. We came here a day earlier than you, and we don't know much. Let me think about it. By the way, the symbol of Rakshasa is a red belt. As long as you pay sixty With a crystal scale, you can get a special red belt, which can be worn for a month, and after a month, you need to pay again."

Zhang Zhao said with some disdain: "What kind of red belt, to put it bluntly, it's just a red cloth belt, it's worthless, they just used it to make money."

Zhao Lei's heart moved, thinking that the red belts around Duan Chen and Yao Tiande's waists are really ordinary, they are indeed ordinary red cloth belts. Some belts, I couldn't help but wonder: "Then if we make some red cloth belts as belts, will we get away with it?"

Li Haitang smiled and said, "We haven't thought about this, and I guess no one dares. If they are caught, it would be incredible. Besides, they must have their own way of distinguishing. How can people get over it so easily."

Wang Xuan nodded slightly, Li Haitang and the other six were only a day earlier than them, and they didn't know much information. Originally, he wanted to ask the core members of the five major forces in detail, how strong they are, so as to know the details of the Rakshasa, but unfortunately Li Haitang six people knew nothing about it.

Everyone chatted for a while, and when they could not ask any more clues, Wang Xuan left.

The six Li Haitang watched them leave, and the other five sat down along the pile of rocks, only Li Haitang was still standing.

The six of them are newcomers who only came yesterday. If they can't pay the crystal scales, they can only come to the Snake Domain. They must collect the crystal scales that the six people need to pay before they can return to the insect town again. Rest outdoors.

"Wang Xuan, can you see the strength of these six people? I feel that Li Haitang seems to be interested in you. Before we leave, she is still a little reluctant to part." Zhao Lei secretly glanced back and said softly: " Look back, Li Haitang is still standing there watching you."

Wang Xuan turned around curiously and found that the other five were sitting down to rest, only Li Haitang was still standing there, his eyes seemed to glow faintly in the night, he didn't know if it was an illusion, as if he was really looking at him.

It seemed that she also saw Wang Xuan looking back at her, so she smiled, then raised her hand and waved goodbye to him.

Wang Xuan smiled embarrassedly, turned his head back in a hurry, and whispered to Zhao Lei: "Don't talk nonsense, people are just enthusiastic, maybe she looks at you." Thought this Li Haitang is not ugly, but it's not pretty either, and it's really unremarkable in terms of looks, but it's quite friendly, and it's easy to make people feel good when they see it, at least it's not annoying.

Hearing the whispers of the two men, Gu Manyao hummed slightly, and said with a stern face: "I really have you, and sure enough, no matter when the man is lustful, we are all anxious not to know what to do with the Rakshasa thing, you guys. It's good, we can also discuss which one of you girls likes."

Wang Xuan said: "Gu Manyao, don't talk nonsense, what is \*\*\*\* heart immortality..."

As soon as he said this, he suddenly closed his mouth again, his eyes narrowed slightly, and his eyes landed on the edge of a rock pile dozens of meters ahead.

Just now, he heard a movement from there.

Gu Manyao wanted to say more, but suddenly saw Wang Xuan's words and stopped halfway through. She knew Wang Xuan better, and immediately understood that he must have found out. As soon as her right hand tightened, the Yaochi Knife appeared.

"There is movement there. Let's take a look at it slowly. Everyone spreads out a little distance from each other, so as to avoid unexpected situations and can't use their hands and feet. Of course, the maximum distance should not exceed five meters." Wang Xuanfang In a low voice, he pointed at the stone pile dozens of meters away, while reminding everyone.

The people behind him heard his words, and they all spread out slowly, keeping a little distance from each other, even if there is an emergency, they have room to adapt and move.

In the shop that sold supplies before, just because Zhao Lei and Gu Manyao were close to Wang Xuan, Wu Yi suddenly rushed between Bai Yan and Yu Shanshan. Although Wang Xuan reacted, he wanted to intercept Wu Yi, even if he used it. The metal tentacles must bypass Zhao Lei and Gu Manyao in front of them, pass Zhang Haofei and Tie Jun, and make a big circle before they can intercept Wu Yi.

As for Wu Yi, he was a strong man, his speed was almost no slower than Wang Xuan, and he was simply too late.

If he could have rushed into the space between Bai Yan and Yu Shanshan to intercept him at that time, then there would be no such thing.

They have come here all the way, and have experienced countless times of teaming up to hunt monsters, and they have a tacit understanding of each other, but there has never been a problem because of the distance between everyone's standing. The ability to take care of everyone, the slight difference between the distance and the distance, has no effect on him.

But as his current strength is getting stronger and stronger, especially his metal tentacles have grown to five meters long, and he can attack from the air at a distance of five or six meters, he began to gradually realize that the distance between everyone The distance of the space began to affect his performance.

## **Chapter 117**

Sometimes when everyone stands close, it may block his teleportation, and it may also affect the air-attack of his metal tentacles. Of course, it can't be too far away. In case of an emergency, he can't take care of everyone. .

As they approached slowly, everyone finally saw that the sound was a snake.

This is a python with a length of about five meters. Compared with ordinary pythons, it looks thicker. The thickest part of the body must be as thick as a bucket, and there are four short claws under the abdomen, which looks like a giant python. The body of the lizard, the limbs of the lizard, although its body is huge, its movements are very flexible. It climbed onto the pile of rocks, raised its head slightly, spit out snake letters, and stared at the approaching Wang Xuanba from a distance with a pair of green eyes.

On the metal tentacles released by Wang Xuan, an eye had long been opened, and the eye of the illustrated book captured the information of this huge python with four limbs.

"Name: Lizard, Race: Snake, Danger: ★★★ (Three Stars), Lizard is a low-level creature in the snake family, it is a hybrid of the snake family and the lizard family, and it has some lizard genes in its body , so

they are regarded as the shame of the snake clan, the pure snake clan do not regard them as snake clan, and the lizard clan do not regard them as the same clan, which leads to the misery of lizard claw snakes, the twisted mind makes them character Violent, slaughter-loving, and swarming, if you encounter a lizard in the wild, you must be prepared to fight against a group."

When sensing the information, the lizard spit out a red letter and whistled in the air. Suddenly, there was a sound of crawling around the pile of stones. In the darkness, one after another. The lizard snake appeared and surrounded it like a fan.

The one who climbed to the top of the stone pile and raised his head seemed to be the leader of this group of lizard-clawed snakes. He raised his head proudly and stared at Wang Xuanba as if he was staring at a group of prey.

"This is a three-star lizard snake, don't be nervous." Wang Xuan sensed the information and immediately reminded everyone.

Now everyone knows what three stars represent, and a three-star danger level means that their strength is about the same as a normal sub-body, and their strength is similar to the gargoyle that everyone encountered in the first floor of the west area.

The eight people quickly formed a battle, and took the initiative to rush up to meet the lizard-clawed snake.

Wang Xuan splits, the metal tentacles are divided into two, the left and right bows are opened, and the snapping sound is brittle. These three-star dangerous lizards are vulnerable. When his metal tentacles hit the head, their heads shattered. The bones are rotten and the flesh falls down.

Bai Yan jumped up and first launched the "Witch Blood Jet" to weaken the strength of these lizard snakes.

Although Wang Xuan was there, everyone was not afraid, but in the face of a group of kamplike lizard-clawed snakes, everyone still felt the pressure, and they had to use their strongest abilities to kill them, but with Baiyan weakening the lizard-clawed snakes, everyone relaxed. too much.

Killing these lizard-clawed snakes is almost useless to the current Wang Xuan, so he took the shot and broke through forward. white scales.

In the distance, Li Haitang and the other six also heard the movement here and guessed that they should be fighting the lizard-clawed snake, but they did not get up and rush over.

The lizard-clawed snake is the weakest snake in the snake domain. It is only comparable to the sub-type, and the people who can enter the second-layer world are at least sub-type, so Li Haitang and the others are not worried about the safety of Wang Xuan and the others.

Besides, they killed all the lizard snakes in this area during the day. Now they want to vomit when they see the lizard snakes. Now they just want to rest and don't want to fight anymore.

"It's a pity that this lizard-claw snake doesn't have crystal scales. Otherwise, the lizard-claw snakes we killed today would have enough scales that we need to turn in. Tomorrow morning, we have to go deep into the snake field to find snakes with crystal scales."

The six Li Haitang were talking in a low voice while listening to the movements of Wang Xuan and the others from a distance.

Soon, they didn't hear any movement. They couldn't help but look up and found that the eight people in Wang Xuan had already left.

"The Age of Rebirth"

"So fast?" The six people were a little surprised. As long as these lizard-claw snakes appeared, they were basically a group, no less than fifty, or even more. Can't think of Wang Xuan and eight people being cleared so quickly?

This performance made them admire Wang Xuan, the newcomer who just arrived tonight.

The group of lizard snakes that Wang Xuan and the eight encountered were about fifty or sixty. Although it looked scary, it was nothing to the eight. The blood of Bai Yan's witches weakened their strength and made Samsung's dangerous. The strength of the lizard snake had dropped to the level of only two and a half stars or even two stars, and everyone killed them all with ease.

Because there are no crystal scales on the lizard snake's body, everyone doesn't need to stop to pick up the scales.

The further inwards they went, the larger the piles of stones appeared around them. Soon, they once again alerted a group of lizard-clawed snakes and were besieged.

These lizard snakes gather in groups to rest at night. Only when the enemy approaches their territory and alerts them will they be attacked.

Wang Xuanba didn't know about this situation, they just went deeper according to the parchment map, and they were quickly alerted by the group of them who were entrenched around a pile of rocks.

The second group of lizard-clawed snakes also numbered fifty or sixty, and they were still easily killed by everyone.

From killing gargoyles in the West District to now killing so many lizard-clawed snakes, Gu Manyao and Zhang Haofei, who killed the most monsters, began to feel the energy in the white light in their right hand expanding, and there was a faint sense of tearing. They understood that this was Signs of an impending breakthrough.

"I'm about to make a breakthrough." Zhang Haofei was very excited. He was finally about to break through to the adult body. When he reached the adult body, it was completely different from the sub-body.

Before Wang Xuan killed Wu Yi, he originally hoped to absorb the white light energy from his body to help him break through again, but he didn't want this energy to enter the white light of his right hand, like a mud bull into the sea, without causing much movement, he knew that it was still too early for my adult body to break through again.

Of course, there is also another possibility, that is, it will reach its peak when it grows into an adult, and it cannot evolve any further.

Under the premise that he has no hope of breaking through, what he is most looking forward to now is that all seven Zhang Haofei and Gu Manyao will be promoted to adult bodies. This is the main method for them to improve their strength.

When the eight adults join forces, and Wang Xuan is confident that his current strength is stronger than ordinary adults, Wuyi is no longer weak in the adult body, otherwise he will not be able to kill the woman of Rakshasa, but in a one-on-one confrontation, Wu Yi will also be crushed by him.

In particular, he also has the hole card of blue crystal scales.

He believed that the eight of them together would definitely be a force that should not be underestimated in Bug Town.

This made him hardly take any action when he was attacked by two groups of lizard-clawed snakes in a row, and gave as much as possible to Gu Manyao and Zhao Lei.

Hearing Zhang Haofei say this, Wang Xuan showed a smile, looked at Gu Manyao and Zhao Lei and said, "How about you? How is it?"

Gu Manyao said, "I feel like it's getting too soon."

Zhao Lei waved the fish-scale knife in his right hand, and he stabbed twice in the void, saying, "I'm still close, I can't help it, Gu Manyao kills monsters too fast."

"Let's go, before it's dawn, try to get two more adults among us." Seeing the faces of everyone, Wang Xuan knew that Gu Manyao and Zhang Haofei should be breaking through, and the remaining five people would be slower, but among the five of them, There is a big difference.

Among them, Yu Shanshan is the slowest. Her ability is originally a large-scale defense, especially breaking through the sub-body. She realizes that the ability she masters is not an attack type, but a defensive type mask, which can be supported in an instant. Open a huge mask to protect a group of people.

This ability can be said to be an upgraded version of the octagonal light curtain. Wang Xuan understands that this light shield is very useful and may save their lives at a critical moment.

It is precisely because of this reason that he values Yu Shanshan and Bai Yan very much now, and their abilities are very important.

It's just that although Yu Shanshan's ability is good, her fighting instinct and awareness are a bit unsatisfactory. In addition, her ability is mainly defensive, so she is much weaker in attack. Now she only has the "light saber", and she holds a two-foot long in her right hand. With the lightsaber, the speed of hunting lizards is difficult to keep up with the speed of everyone.

Several times, Wang Xuan couldn't bear it any longer. He didn't kill the lizard snake himself, but deliberately threw it in front of her and gave it to her for the final blow.

Bai Yan is completely different from her. Bai Yan was originally the leader of a team, and his fighting consciousness and talent are not weak. Especially after the clown incident, he forgot everything before entering Longmao Square, and his personality has also undergone some changes. Be silent.

It is precisely because of this change that he seems to have no emotions now. The advantage is that he can keep calm at all times when he encounters danger. His fighting talent seems to be stimulated. The speed of his hunting monsters is completely Keeping up with Gu Manyao and Zhang Haofei, in Wang Xuan's eyes, he even faintly showed signs of surpassing.

After killing two groups of lizard-clawed snakes, everyone did not rest, and continued to move forward, bypassing rock piles and weeds of different sizes, and encountered people again.

This time, I met five people. These five people were leaning against a pile of giant rocks, four rested, and one was on guard. In this way, they took turns to keep one person awake at all times.

Wang Xuanba didn't notice them at first, but when they approached, the guard had quietly woken up the four companions.

In this early morning, it is rare for people to walk in the snake field. Whether it is a snake clan or a human, they are basically in a state of rest at night.

Wang Xuan saw that the equipment of these five people was similar to that of his own, and there was no sign representing the five major forces on their bodies. They should all be newcomers who had just arrived.

The five looked at them from a distance, with vigilant expressions in their eyes.

Seeing their vigilant appearances, Wang Xuan did not approach them, but took Zhao Lei and Gu Manyao to avoid them.

Seeing them take a detour, the five people let out a sigh of relief and continued to rest.

Next, they didn't encounter the lizard snake again, but they encountered three resting teams in a row.

These resting people should all be newcomers. Wang Xuan didn't have too much contact with them. He just walked around in a hurry, and the originally dark distance gradually became a little brighter.

Wang Xuan understood that it was almost dawn.

When they broke into the middle of a circle formed by several piles of rocks, they were attacked a third time.

It was not the lizards that attacked them this time, but a new species.

Compared with the lizard snake, they are smaller in size, about three or four meters long, with a thick sea, with crystal scales on their foreheads, and a pair of small fleshy wings on their backs. They do not look as vicious as lizard snakes, but The speed of action is very fast, and it can bounce and shoot up in an instant, as if it can slide in the air, attacking fiercely, much more terrifying than the lizard snake.

Wang Xuan opened the eye of the illustrated book to check the information, and immediately observed that it was called a flying-winged snake.

Like the lizard-clawed snakes, these flying-winged snakes are also in groups, suddenly rushing out from all around, dozens of them appear in the blink of an eye, and they frantically surround them. They jump on the giant rocks, glide down, and go from mid-air. down attack.

Yu Shanshan's mask played a huge role, and immediately opened the mask to protect everyone from a group of flying winged snakes that fell from mid-air.

Bai Yan launched the "Witch Blood Jet" to weaken these flying winged snakes, and everyone attacked.

When Gu Manyao launched the "Three Continuous Slash" and instantly killed the three flying winged snakes whose movement speed was slowed down by the witch blood, he took out three white scales in a row, and only felt the white light in his right hand fluctuate violently, and finally faintly resembled Hearing the crisp sound of "Katha", the white light in the right hand seemed to explode, and a terrifying energy roared and roared, sweeping the whole body.

The skeletal muscles of her whole body were making a crisp sound, like a cicada breaking out of its cocoon.

From the sub-body to the adult, this step is much more difficult than the previous several growths, but the change is also the most drastic. It can be called a real rebirth. There is an insurmountable gap between the adult and the sub-body.

With this breakthrough, the Yaochi Saber in Gu Manyao's hand has undergone surprising changes.

Originally, some thin black scales had appeared on the surface of the Yaochi knife, but at this moment these black scales grew, and the pieces seemed to come alive.

Gu Manyao held the knife in his right hand, watching Yaochi's changes, with an incredible look on his face.

At this moment, she felt that what she was holding in her right hand was not a knife, but a living creature that resembled a knife. The black scales on the surface changed ~www.mtlnovel.com~ to resemble the shape of the legendary dragon scales.

This demon chi knife is alive.

With a slight movement of her mind, she held the alive Yaochi knife in her right hand, and suddenly slashed out into the air.

This time, the Yaochi Saber, which was originally 1.5 meters long, was stretched and turned into a black dragon that was 2 to 3 meters long. The dragon scales covered on the surface of the body vibrated, making a crunching sound, and instantly slammed into a small dragon. Only flying winged snake.

With just one pounce, the flying-winged snake's flesh suddenly cracked and peeled off from the bones in its body. The peeled flesh unexpectedly disappeared and was swallowed by the monster chi.

This kind of attack was very strange, and Wang Xuan couldn't help his heart skip a beat when he saw it.

When Gu Manyao took back the Yaochi knife in his right hand, the flying-winged snake had only one long white bone left, with a little snake meat remaining on it, and most of the snake meat had disappeared mysteriously.

After that, Gu Manyao heard the sound of eating from the knife in his right hand.

This demon chi knife is really alive, and it devoured most of the flesh and blood of this flying-winged snake.

Not to mention that Wang Xuan gasped when he saw it, and even Gu Manyao opened his eyes wide, and there was no joy, only a trace of horror.

This Yaochi Saber, no, it should be said that this hatchling beast Chi is getting more and more bizarre.

At this moment, Zhang Haofei let out a low roar, his bones cracking, and just now, he also broke through.

## **Chapter 118**

Zhang Haofei's throat let out a low beast-like roar, and there was a crisp sound of bones vibrating in his body. Inside his body, it was like a sleeping skeleton monster, and he was struggling to get out.

Pieces of white bones appeared on the surface of his body. Suddenly, he twisted his body, and within his left arm, a white bone arm stretched out.

With the breakthrough and promotion to adult body, his left arm of the skeleton finally got rid of the shackles of the body and stretched out.

He has two white bone arms, his front chest and back, and pieces of white ribs stick out from the armor he wears. As these two white bone arms swing, they move constantly, which is very strange.

Feeling the terrifying power surging out of the skeleton, Zhang Haofei had a satisfied look on his face. Between his eyebrows, he looked a little hideous. He raised the pair of white bone arms, and suddenly activated the "Whirlwind Bone Claw" at the same time, two white bone arms. All spinning at high speed, he jumped up and rushed towards the two flying winged snakes in front of him.

The two "Whirlwind Bone Claws" swept across the two flying-winged snakes, and immediately flew their flesh and blood, twisting the bodies of the two flying-winged snakes into flesh.

With the promotion breakthrough to the adult body, the speed, strength, and reaction ability have been improved exponentially. He felt an unprecedented power. A pair of bone palms were tightly clasped together. With the arms he originally had, he is now equivalent to With four arms, he looks like a weirdo with four arms.

Seeing that Gu Manyao and Zhang Haofei made breakthroughs one after another, the other five had envious expressions in their eyes, and rushed to hunt these flying snakes even harder, hoping to make breakthroughs earlier.

Wang Xuan looked at the performances of Gu Manyao and Zhang Haofei. Zhang Haofei's skeleton had reached a full body. This change was unexpected to him. It was similar to his Warcraft, but the change of Gu Manyao's hatching beast Chi was really astonishing.

This made him feel a little worried.

The higher the evolution level of this hatching beast, the more powerful it is, but the more obvious its signs of life are. Is this a good phenomenon or a hidden danger?

Fortunately, his monsters were assimilated, and they were no longer separated from him. The monsters were him, but he was not just a monster.

Gu Manyao also clearly realized that Yaochi's changes were a little strange, with an indescribable look on his face, looked up at Wang Xuan, and then looked at the Yaochi knife in his hand.

A group of flying-winged snakes that came up around were quickly killed by everyone. Zhao Lei and his group were busy picking up the crystal scales that had fallen off their bodies. They picked up a total of 53 pieces and handed them over to Wang Xuan.

Wang Xuan put it into the Xumi Tea sub-space, and the number of crystal scales he has now has reached 1,208.

"Its daybreak."

Zhao Lei looked up and looked into the distance, and found that above this pile of rocks and weeds, there was a faint mist floating in the air. In a short period of time, the sky became much brighter. According to their previous life experience, looking at the sky, about It should be equivalent to about six in the morning.

"Wang Xuan, do you want to take a break?" Tie Jun looked at Wang Xuan.

Wang Xuan said, "Then take a rest here, Gu Manyao, Zhang Haofei, congratulations to you."

Zhang Haofei smiled, put away a pair of bones, and said, "I've finally become a body. It's a great feeling. It can't be compared to a sub-body. You should also break through quickly, and you'll understand when you're an adult."

Zhao Lei said, "Gu Manyao, you also made a breakthrough, why don't you seem very happy."

Gu Manyao put away the Yaochi knife and said, "No, I just feel that the changes of this Yaochi knife are a little weird, and I am a little confused."

Zhao Lei also saw the scene where the demon chi changed and devoured the flesh and blood of the flying-winged snake just now, and said, "Don't think too much, do you know what a chi was in ancient times?"

He didn't wait for Gu Manyao to answer, and continued: "In ancient times, Chi was a kind of dragon, referring to a kind of dragon without horns, your hatching beast, Chi, actually means a demon dragon, I think, this demon Chi grows, it should be the constant dragon transformation, you just attacked, it looks like a black dragon, it is a demon dragon, it is not unusual to devour flesh and blood, don't think about it."

Hearing Zhao Lei's explanation, Gu Manyao nodded slightly and said, "I'm not thinking wildly, I just think that Wang Xuan and Zhang Haofei have evolved into adults, and they both seem normal, but my Yaochi is a little weird."

Yu Shanshan couldn't help but said: "Manyao, don't worry, I think maybe it's because your demon beast is very powerful, stronger than ordinary hatching beasts, so it looks different."

Yu Shanshan's mouth is sweet. Gu Manyao's words made Gu Manyao very comfortable, and a smile appeared on her face. Her character was a bit strong from the beginning, but Yaochi's blow just now was strange, but her ability was indeed terrifying.

Wang Xuan was also thinking about the hatching beast. Since he thought of his own magical beast, he also thought of Zhang Haofei's skeleton and Gu Manyao's beast. He was thinking about the nature of the hatching beast and what it was.

Just simply possessing weapons that life can grow? Or they regard the human body as a parasitic mother.

"Now three of the eight of us have become adults. I hope we can all become adults today, so that we can return to Insect Town before it gets dark." Zhao Lei said confidently: "I'm sure I can do it anyway, how about you? Are you confident?"

Tie Jun didn't speak, he took out a pack of cigarettes from his body, threw one to Zhang Haofei, and lit one himself.

He was a big smoker, and he and Zhang Haofei were the only ones who smoked.

The cigarettes they were carrying have been smoked long ago. Fortunately, there are cigarettes sold in the place where the supplies are sold. One crystal scale can buy ten ordinary-grade cigarettes, which is enough for them to smoke for a long time.

Now they are often fighting, and they have fewer and fewer opportunities to smoke every day. A pack of cigarettes can last for several days.

Every time Tie Jun smokes, he looks at the smoke rings he exhales, and he always thinks of his wife and children.

He has always believed that one day, he will be able to obtain the certificate of the king, get out of here, and be reunited with his wife and children.

By the time they finished smoking, the sky had completely brightened up, everyone had almost rested, and stood up one after another.

As the sky brightened, everyone's field of vision widened, and they immediately saw a 100-meter mountain peak at the far end, the peak almost touching the ceiling above.

Seeing this 100-meter mountain, Wang Xuan took out the parchment for comparison, and was immediately certain that this 100-meter mountain was the target of their mission, and the treasure of the Snake Race was hidden there.

"Let's go." Wang Xuan immediately increased his speed and walked towards the 100-meter peak.

The eight people all speeded up. After a while, there was a sound of fighting in the distance. Wang Xuan followed the sound and looked at it from a distance. He saw that six people were surrounded by groups of flying winged snakes. The six people formed a circle back to back. Fight with these winged snakes.

Wang Xuan saw that among the six people, there were two adults and four sub-types. The two adults rarely took action. They would only help when their companions were in danger. Obviously, they gave these flying snakes to the four. Companion, help them to break through the sub-body.

Wang Xuanba did not approach, but left after a few glances from a distance, and continued to walk in the direction of the 100-meter mountain.

This time, after walking about 100 meters, they were attacked by a group of flying winged snakes.

In the weeds in front of them, groups of flying-winged snakes suddenly appeared, depending on the number, there were hundreds of them.

With so many flying winged snakes surrounding them, Zhao Lei, Tie Jun, and Li Haotian couldn't help showing joy on their faces.

Now that Gu Manyao and Zhang Haofei have also been promoted to adults, they will not compete with them for these flying-winged snakes. These hundreds of flying-winged snakes will mainly be killed by five of them, which means that they all have hope of breakthrough.

Li Haotian pulled the Orion bow in his hand and let out a low shout. Three light arrows shot at the flock of flying winged snakes.

Yu Shanshan stretched out her right hand, a two-foot lightsaber appeared, Bai Yan raised her right arm, and launched the "Wizard's Blood Jet".

Tie Jun raised the diamond shield in his right hand, and suddenly threw it out in the air. He launched a "shield strike" and attacked from the air. A flying winged snake that swooped in the sky was hit by the diamond shield and immediately flew backwards and fell out.

Zhao Lei held the fish-scale knife in his hand, and there was a faint layer of light on the surface of the blade. This was the holy light released by the first saint, which could enhance the power of the fish-scale knife. He shook his body and rushed up.

Zhang Haofei twisted his neck, all the bones in his body were making a crisp sound, he showed two skeleton arms, obviously he was very itchy and wanted to do it, but considering what Wang Xuan said before, if he encounters a monster with a danger level of four stars or less, All of them should be handed over to the five Zhao Lei, and the three of them should try their best not to shoot, unless the five of Zhao Lei are in danger, they can help each other.

Hundreds of flying winged snakes surrounded them, putting a lot of pressure on Zhao Lei and the other five. Fortunately, Wang Xuan three adults were protecting them. If anyone was in danger, Wang Xuan, Gu Manyao and Zhang Haofei would take action in an instant. Remove the danger for them, and the five of them only need to concentrate on hunting monsters, and they don't have to worry about their own safety.

As the flying winged snakes fell one by one, the white scales one after another were absorbed into the body by everyone. Finally, Zhao Lei let out a low drink and clenched his right hand tightly. The light fluctuated violently.

Just now, after absorbing a white scale, he finally succeeded in breaking through, and was promoted from a sub-body to an adult body.

This time, in the cross crack on the back of his right hand, two white rays of light lit up, forming a crossed white rainbow light.

Zhao Lei jumped out, his speed suddenly increased, avoiding the attack of a flying-winged snake, and handing the fish scale knife in his right hand to his left hand, his right hand volleyed out, and the bright cross rainbow light shot out through his palm, hitting Flying Winged Snake.

The cross rainbow light penetrated through the body of the flying-winged snake, and the crossed white rainbow light expanded in its body, immediately breaking the flying-winged snake's body, and two huge white rainbow lights appeared inside, with The criss-cross form exploded, splashing blood and rain.

Looking at the power of this blow, Zhao Lei was stunned for a while, and then his face was full of joy.

For a long time, his "first saint" did not have any attacking ability that he could do well. He could only rely on the fish scale knife to cooperate with "Holy Light" to kill the enemy, but now, he finally mastered the attack method that really belonged to him. The Holy Light, which can only exert its power by relying on weapons, has evolved into the Holy Light of the Cross. It can come out through the palm of the hand and directly attack the enemy. Its power is amazing.

"Zhao Lei, amazing." Wang Xuan grinned when he saw the power of Zhao Lei's strike of the Holy Light of the Cross, and was happy for him.

Zhao Lei's promotion to an adult body can be said to be truly reborn. With the attack power of the Holy Light of the Cross and the peeping and insight capabilities of the "Sacred Eye" and "Sacred Scar" that he originally mastered, his strength will have a very high level. Amazing boost.

"Zhao Lei, your ability is pretty good. When you have time, let's learn from each other." Zhang Haofei is a belligerent. Seeing Zhao Lei's ability, his eyes flashed, and his hands were itchy.

Neither Wang Xuan nor Gu Manyao are suitable opponents to learn from. Zhang Haofei likes to squeeze soft persimmons, and Zhao Lei is the soft persimmon in his mind. Although the two are at the same level now, Zhang Haofei still feels that he can beat Zhao Lei, and it is a challenge to discuss with him. sex, and enjoy the pleasure of bullying him.

Naturally, Zhao Lei would not show weakness and immediately nodded in agreement. He was also very unhappy with Zhang Haofei, especially since he had grasped the Holy Light of the Cross this time, he felt that he had hope of defeating Zhang Haofei.

Among the people, besides Wang Xuan, Zhao Lei was the third person to break through to adulthood. After him, it was not Tie Jun or Li Haotian that everyone thought, but Bai Yan, who had been silent and was almost ignored.

Bai Yan was only one minute slower than Zhao Lei to break through to the adult body.

Bai Yan broke through, and the blood of the witch that formed the blood sword fluctuated violently, extending along his right arm to the body, and soon along the right arm and shoulder to the front chest and back, forming a blood-colored crystal, covered with witch blood. The right arm extends forward to form a blood crystal giant sword, and covers the front chest and back to form a blood crystal armor.

Everyone turned their heads to see the changes on the surface of Bai Yan's body, and immediately understood that he had broken through to the adult body this time. Not only did the original blood sword increase its lethality and form a more powerful blood crystal giant sword, but also his upper body was covered with blood crystal armor, enhancing the defense.

Bai Yan's promotion this time can be said to be quite satisfactory.

Two more people have successfully made breakthroughs. Now, among the eight, there are already five adults. Only Tie Jun, Li Haotian, and Yu Shanshan are still sub-bodied.

Seventy or eighty of the hundreds of flying-winged snakes were killed by the crowd, and the rest seemed to be in bad shape, and they fled and disappeared into the surrounding weeds.

The crowd did not chase, and began to pick up the crystal scales that were peeled off after the death of these winged snakes.

A total of 79 crystal scales were harvested, and they were still kept by Wang Xuan.

He now has 1,287 crystal scales in the Sumeru mustard space.

Zhao Lei glanced at Bai Yan, then at Tie Jun and Li Haotian, and said, "It's up to you now."

He didn't expect Bai Yan to catch up with his breakthrough speed, surpassing Tie Jun and Li Haotian, and breaking through to the adult body faster than them, which is really surprising.

Li Haotian had a depressed look on his face. Originally, Bai Yan and Yu Shanshan had always been at the bottom, but now that Bai Yan has overtaken him, he and Tie Jun have been compared, and his face is a little bit overwhelmed.

Wang Xuandao: "Each person's ability is different, and the breakthrough speed will also be different. If you can meet a group of flying snakes later, the three of you should be almost the same. It's not difficult for everyone to reach adulthood today."

Zhang Haofei clenched his fists of bones and laughed, "Actually, I'm looking forward to returning to Insect Town. How would Duan Chen and Yao Tiande react if they saw us again?"

Eight adults, he didn't believe that Duan Chen and the others dared to trouble them, most likely he saw Wu Yiren's head, and this matter was revealed.

"Duan Chen and these people don't seem to be scary now. The key is to pay the crystal scales when they go back. If Li Haitang and the others lie, the newcomers who pay for the first time, no matter how strong they are, will each be 60 pieces. Personally, I have to pay 480 pieces of crystal scales, and I finally saved a few crystal scales, and I just give it to others for nothing. I really feel unwilling to think about it." Zhao Lei frowned, his expression helpless.

Zhang Haofei looked at Wang Xuan and said, "Wang Xuan, do we really want to hand over crystal scales? If I tell you, we will pull some more people, and if we set up a gang ourselves, it will be the sixth largest in this worm town. Power, what do you think?"

Gu Manyao glanced at him and said, "It's naive to think, we don't know whether these five major forces are strong or weak, and what are their real strengths, so dare you to think wildly?"

Wang Xuan pondered slightly, and said: "It is not easy for these five major forces to divide up Bug Town. Even if we all reach adulthood, we must be as low-key and cautious as possible. You remember Li Haitang said that newcomers enter Bug Town, no matter how strong they are. Weak, each person needs to hand in 60 crystal scales, and after one month, according to the strength, the sub-body will remain the same, while the adult body can be halved, and only 30 crystal scales need to be handed in each month."

"Think about it, what does it mean that these five major forces can make adults continue to hand in crystal scales?"

Hearing Wang Xuan's words, everyone looked at each other in dismay, Zhang Haofei shouted and said, "It means that in their eyes, the adult body is nothing!"

Wang Xuan nodded and said, "Yes, if hatching beasts have a higher fifth form than adults, I think there must be such masters in these five major forces, and only such masters can hold a group of them. adult."

Hearing Wang Xuan say this, everyone looked at each other in dismay. Tie Jun thought for a while and said, "That's right. Only in this way can it be justified. Otherwise, why are these five major forces exploiting adults? All adults should also hand in crystal scales."

"Forget it, it's useless to think about this now. Let's finish this task first and see what good things will be in the treasure chest." Zhao Lei said as he habitually stretched out his hand to push the glasses on the bridge of his nose, and then thought of My myopia has long since returned to normal, but this habit has not been completely changed.

"Let's go." Wang Xuan first walked towards the distance. The 100-meter mountain in the distance seemed to be not far away, but it was not really close. Ten meters of giant rocks, between these giant rocks, there are a lot of weeds, these weeds are growing taller and taller, there are weeds that are as tall as one person, and the surrounding environment suddenly becomes dangerous.

Everyone was vigilant and tried their best to avoid these weeds that might hide monsters. Suddenly, there was a slight sound, but a large number of weeds began to shake, and one giant python rushed out of it.

These giant pythons are four or five meters long and have silver rings on the surface. Wang Xuan opened his eyes to see that these are called silver ring pythons. The difficulty is the same as that of the flying wing snake. Like the previous lizard snakes, there are no crystal scales on the body surface. Killing them can only harvest the energy of white scales.

"These are called silver-ringed pythons, and they are about the same strength as the flying winged snake." Wang Xuan reported the information immediately after seeing the information.

Hearing that the silver-ringed python was as powerful as the flying-winged snake, Gu Manyao and Zhang Haofei regretted, while Tie Jun, Li Haotian, and Yu Shanshan went straight up, facing these silver-ringed pythons.

There are five adult protections in the team now. In the face of this silver-ringed python, they can hunt and kill as much as they want without worrying about their own safety. What they need to do is to kill the monsters as much as possible to gain energy.

Bai Yan swung his body and overtook them, raised his right hand, and launched "Witching Blood Jet".

In just a short period of time, the number of silver-ringed pythons rushing out from the weeds ahead and around them exceeded hundreds. They opened their mouths, spit out snake letters, made slight noises, and rushed up at a very fast speed.

When Bai Yan reached an adult body, the power of the "Wizard's Blood Jet" he launched increased, and the scope was wider. A large amount of shaman's blood sprayed out like rain, covering the silver-ringed giant python in this area.

The witch blood penetrated into their bodies, and Bai Yan began to rely on the witch blood to interfere with their balance and thinking, making their movements sluggish and their attacks slow.

Tie Jun launched a "savage collision", hit a silver-ringed python, and then threw the diamond shield in his right hand, launched a "shield strike", and smashed the other silver-ringed python.

Li Haotian pulled the Orion bow in succession and shot out the light arrow in his hand.

Yu Shanshan held a two-foot-long lightsaber and killed the silver-ringed python.

Wang Xuan released two metal tentacles, entangled the two silver-ringed giant pythons, and threw them to Yu Shanshan.

Gu Manyao, Zhang Haofei, and Zhao Lei also took action one after another~www.mtlnovel.com~ They did not kill the silver-ringed python, but severely wounded it, disrupted its battle, and left it to the three iron army to hunt and kill.

In the process of inflicting heavy damage on the silver-ringed python, they kept trying the abilities they had just realized, adapting to the greatly improved strength, speed and reaction due to the breakthrough, and getting familiar with the strengthened body.

This time, Li Haotian made the first breakthrough. His hatching beast Orion evolved into an adult body, and the bow in his hand changed again. Its size increased and became heavier and heavier, and its length was comparable to his body.

The thicker the bow becomes, the more powerful the light arrows fired.

When Li Haotian realized the fourth ability, a look of surprise appeared in Li Haotian's eyes. He clenched the Orion bow in his right hand and raised it diagonally. A white rainbow light appeared on the surface of the bow. At the same moment, a dense array of light arrows appeared on the bow. He drank lowly in his mouth. These light arrows shot out into the sky, and it seemed like a rain of light appeared.

In order to prevent Tie Jun and Yu Shanshan from being affected by a single blow, Li Haotian did not target the surrounding silver-ringed pythons, but instead shot at a pile of giant rocks with a height of 20 meters not far away. go.

Everyone saw the huge amount of light and rain falling on the giant rock, and the sound of chi chi was in their ears. In the blink of an eye, the giant rock became pitted.

Compared with the two-meter giant arrow, the lethality of this rain of arrows may not be so terrifying, but the attack range is the highest among all.

## **Chapter 119**

Li Haotian had just made a breakthrough, and Tie Jun followed closely.

King Kong was promoted to the adult state of the fourth form, and the King Kong Shield immediately began to change. The surface grew densely packed with King Kong thorns about half a foot long, which enhanced the lethality of the King Kong Shield. His fourth ability was realized.

Wang Xuan retracted the two metal tentacles that had just been extended. Now, among the eight, only Yu Shanshan is missing.

Yu Shanshan bit her lip and said nothing, trying her best to kill the silver-ringed python that had been hit hard by everyone.

Seeing that everyone broke through, she also became anxious.

In all directions, hundreds of silver-ringed pythons were easily injured by everyone. Now there is no silver-ringed python that has the ability to crawl and move. Ring python final blow.

With the help of everyone, Yu Shanshan absorbed enough energy from the white scales to finally break through. She successfully broke through her own hatching beast "Light Mirror" to an adult state. All kinds of abilities were improved, and her body was strengthened. She successfully realized the fourth ability.

This ability is quite special, called "mirror reflection". When in the "mirror reflection" state, all the enemy's attacks will be reflected.

Feeling the changes in her body, Yu Shanshan let out a sigh of relief, lowered the lightsaber in her hand, a smile on her face, she finally broke through, it's really not easy to think about it, she never thought about it before, can become so powerful.

"The hard work pays off, the eight of us are finally all adults." Zhang Haofei smiled, moving a pair of skeleton arms, looking a little itchy.

He is eager to encounter more powerful monsters, and monsters with a danger level of less than four stars, he can't even look down on them.

"Take a rest, you don't have to keep your hands when you encounter a snake later."

Wang Xuan sat down, feeling a little thirsty, opened the Xumi mustard seed space, and took out eight bottles of intermediate nutrient solution, one for each person.

This kind of intermediate nutrient solution can be used for three days in one bottle, and if eaten for a long time, it can gradually improve the physique. The effect is much better than that of the primary nutrient solution.

Everyone finished drinking the intermediate nutrient solution, rested for a while, and continued on their way. They didn't encounter anyone else along the way, but if they looked back, they could vaguely hear various sounds of fighting there. Enter the Snake Domain and start hunting the Snake Domain, not only for growth breakthroughs, but also to obtain crystal scales.

"Unfortunately, only flying winged snakes have crystal scales. No matter how many silver-ringed pythons are killed, they are useless now." Zhao Lei looked at the corpses of the silver-ringed pythons all over the ground with regret.

Everyone only rested for a while this time, and then continued on their way. Now that the eight people are all adults, they no longer have any worries. They started to speed up, and soon they started running towards the direction of the 100-meter mountain in the distance.

After a while, they encountered a silver-ringed python, and everyone did not hold back, nor deliberately hunted, but cut a \*\*\*\* path from it, kept walking, and continued to rush into the distance.

After growing into an adult, hunting and killing this silver-ringed python has no effect, and there are no crystal scales. When everyone sees these silver-ringed pythons, they are too lazy to start.

This way, I encountered several waves of silver-ringed pythons. The number of these silver-ringed pythons appeared more and more. At first, there were only about a hundred in a group, and gradually a group of two or three hundred. There are snakes like this everywhere.

"This snake clan's treasure mission is really only four stars? It's also thanks to the fact that all eight of us are adults. If there were few people, I wouldn't dare to rush in." Zhao Lei looked at more and more silver-ringed pythons, his face Look, a little surprised.

Wang Xuandao: "Stop talking nonsense, hurry up, the destination is not far away."

Everyone looked up, and about three or four kilometers ahead, there was a giant rock standing tall. This rock pile was too huge, nearly 100 meters high. It looked like a mountain in the distance. When viewed from a close distance, it was actually a pile of giant rock piles. complete.

"This 100-meter giant rock is so big, we said we were looking for a treasure, where is the treasure?" Zhang Haofei shot out with a pair of skeleton arms, constantly killing the silver-ringed giant python blocking his way, while running away, showing a puzzled look.

Among the groups of silver-ringed giant pythons, everyone slashed a \*\*\*\* path and gradually approached the 100-meter giant rock.

Soon, the crowd approached within 100 meters of the giant rock, and the silver-ringed pythons surging up around them became more and more crazy, as if they wanted to stop them from approaching.

Suddenly, a fishy wind blew in the distance, followed by shrieks, but saw a group of silver-ringed giant pythons beside the huge rock in confusion and scattered to both sides.

Between them, a giant python with a length of seven or eight meters rushed out.

This python has a silver ring, a pair of fleshy wings on its back, and lizard-like limbs under its belly. It actually combines the characteristics of a silver-ringed python, a flying-winged snake, and a lizard-clawed snake.

It was very fast, its fleshy wings fluttered, its limbs alternated, its mouth opened, and it charged up like lightning with a stench.

When everyone suddenly saw this giant python, their spirits were lifted, and they understood that the leader of these snake groups should have appeared.

Wang Xuan opened the eye of the illustrated book and captured the information about the giant python.

"Name: Silver-ringed snake, Race: Snake family, Dangerous degree: ★★★★★ (four stars), Silver-ringed snake is the leader of the silver-ringed giant snake, the flying-winged snake and the lizard-clawed snake, which gathers these three snake species. It has the winding ability of the silver-ringed snake, the volley and speed of the flying winged snake, and the sharp claws of the lizard-clawed snake, which makes it more dangerous than the three major snake species, reaching four stars. Only adults can fight it."

Wang Xuan looked at the parchment in his left hand, and the content of the task on it really changed.

"The silver-ringed snake is the guardian of the treasure. In order to protect the treasure of the snake family, it swallowed the treasure into its body, killed the silver-ringed snake, obtained the rust treasure chest in its body, and completed the task of the snake family's treasure."

As soon as Wang Xuan finished reading the task content on the parchment, Gu Manyao and Zhang Haofei rushed up to the left and right, carrying two winds.

Now that everyone is fully grown, they have just mastered this powerful power and are eager for their opponents. The appearance of the silver-ringed snake is exactly what they want.

"This is a four-star silver-ringed snake." Wang Xuan said as he swept up, catching up with Gu Manyao and Zhang Haofei.

With a wave of Gu Manyao's right hand, the Yaochi Saber suddenly changed in her hand, and rushed out in the air. The Yaochi Saber, which was originally 1.5 meters long, came to life, and the black dragon scales on the surface were raised one by one, making a clatter. With the slight sound of la, the demon chi sword seemed to have transformed into an ancient demon dragon. The silver-ring winged snake shrieked and swung its body, and the giant tail behind it swept over.

With a "pop", he swept the demon chi that rushed up.

The demon chi devoured the body, the strong tail of the silver-ringed snake was centered on the bone inside, and the flesh began to peel off and crack.

In its pair of snake eyes, there was a look of shock.

The Demon Chi bit its tail and began to eat flesh and blood.

Zhang Haofei jumped up, the skeleton in his body appeared, he almost wanted to struggle out of his body completely, a pair of skeleton arms stretched out and grabbed a fleshy wing that was swept over by the silver-ringed snake.

With a "hiss" sound, blood sprayed, and a fleshy wing of the silver-ringed snake was torn off alive by the skeleton.

The silver-ringed snake was in pain, and slammed its head into Zhang Haofei. Zhang Haofei, who was grinning, was caught off guard and groaned and was sent flying.

In the face of a joint blow from the two adults, the silver-ringed snake could hit Zhang Haofei, which was somewhat unexpected to Wang Xuan.

Of course, the more reason for this is not how strong the Silver Ring Winged Snake is, but Zhang Haofei's mentality was a little flustered just now that he had mastered the powerful power, and he was careless.

This lesson was actually a good thing for him.

Wang Xuan released the metal tentacles, and the silver-ringed snake raised a paw, just wanted to block the metal tentacles, but didn't want the metal tentacles to be divided into two, one wrapped around its claws, and the other volleyed up and pulled it on its side. head on.

The silver-ringed snake's head exploded immediately, and was shattered by Wang Xuan's metal tentacles.

The huge silver-ringed snake swayed and fell to the ground, and a white scale with light appeared and sank into Wang Xuan's right hand.

Now, only by killing this four-star dangerous monster can he have a more obvious energy response.

As the silver-ringed snake was killed, the silver-ringed python that had crazily surrounded it began to retreat.

"Cut its body open, the rust treasure chest should be inside it." After Wang Xuan finished speaking, Zhao Lei stepped forward with a fish-scale knife and cut open the belly of the silver-ringed snake. Sure enough, there was a giant meat cocoon inside. Open the meat cocoon, which is the reward for this mission, a box full of green patina on the surface.

"I don't know what the reward this time is." Everyone came over, a little curious and a little looking forward to it.

Zhao Lei opened the rust treasure chest and took out the contents one by one.

There are three rewards in total, namely two hundred crystal scales, a thumb-sized red crystal, and a bottle of white liquid in a glass vessel.

Wang Xuan observed with the eyes of the illustrated book, the red crystal is called flame spar. Once broken, the special substance inside will burn violently when it encounters the air. The white liquid contained in this glass vessel is called primary physical strength water, which is also a one-time loss. The white liquid inside is made by a special process. When your physical strength is severely depleted, drinking a bottle of this physical strength water can instantly restore your physical strength.

Wang Xuan never thought that there is such water of physical strength.

As for the flame spar, it is more tasteless.

"This time the reward is not very good. Unfortunately, I originally thought that there would be Tier 3 equipment." Zhao Lei felt a little regretful.

Wang Xuan first put away the 200 crystal scales, and now he has 1487 scales, and then put away the flame spar and the water of primary stamina.

"This water of physical strength is useful, but unfortunately there is only one bottle. If there is a large amount of this water of physical strength, it will be amazing."

"Fairy Wood"

Wang Xuan explained the magic of the water of physical strength, and everyone was surprised, Gu Manyao said: "When we use powerful abilities, the biggest trouble is that these abilities consume a lot of physical strength. If we can really spare some water of physical strength, there is no such worry already."

"This kind of thing is hard to come by, and it's not like a nutrient solution. You can buy it in large quantities with just a few crystal scales. Don't think about it."

Wang Xuandao: "Since it is a reward in this rust treasure chest, it means that this thing is also very rare here. It is only a primary level, and there should be intermediate and advanced physical water."

When he said this, when he heard a sound from afar, he raised his head, but saw four figures appearing among a group of boulders in the distance. There were a large number of silver-ringed pythons around them. These four people were killed from these silver-ringed pythons. A \*\*\*\* road is approaching here.

When Wang Xuan saw the speed and power of their attacks, he understood that they were four adults.

The speed of these four people was very fast, and they kept approaching here. Those silver-ringed pythons could not stop the four adults. They also saw Wang Xuanba, and there was a strange look in their eyes.

"What are these four people doing here? They're all grown up and they're here to kill the silver-ringed python? Could it be that they're here to do a mission?" Zhao Lei's heart moved, and he whispered beside Wang Xuan.

Wang Xuan said, "It's possible, let's go."

He saw a unified sign on these four people, that is, a black bracelet is worn on each left wrist.

Seeing this unified black bracelet, he immediately understood that these four people should belong to one of the five major forces in Insect Town. Rakshasa was a red belt, but he didn't know which faction the black bracelet represented.

Knowing that the other party came from the five major forces, Wang Xuan was reluctant to contact too much, and immediately prepared to leave.

"Wait a minute!" Seeing that Wang Xuan and the others were about to leave, one of the four men in his twenties spoke loudly, speeding up as he spoke, rushing towards them.

Hearing the man's words, Wang Xuan frowned slightly, not knowing what the other party meant, but the other party was only four adults, so they were not afraid, so they stopped.

This man was very fast, and the silver-ringed pythons in the distance could not stop him at all. He quickly arrived in front of Wang Xuanba, and the other three men followed closely behind.

Perhaps because of the corpse of the silver-ringed snake here, it is a deterrent to these snakes. Those silver-ringed pythons approached here at a distance of 20 to 30 meters and stopped, and then began to retreat.

The four of them looked at Wang Xuan and the eight, and saw that Wang Xuan, Zhao Lei, and Zhang Haofei had belts on their bodies, and also saw the dead silver-ringed snake corpse on the ground. They couldn't hide a trace of surprise in their eyes.

"Are you newcomers who have just arrived?" The man at the head was more handsome, with a fair complexion, and he was the same type of person as Zhao Lei.

"Not bad." Wang Xuan knew that his eight people did not wear the symbols of the five major forces, and it was not surprising that the other party knew that they were newcomers.

"I don't know who the four are..." Wang Xuan behaved more politely. Although he was not afraid of the four, he didn't need to offend him.

The handsome man chuckled and said, "We are members of the Xuan Gang, do you know the Xuan Gang? It's one of the five parties that manage Bug Town. By the way, my name is Fang Yixuan."

Fang Yixuan's tone and attitude were all good, and he was not arrogant because Wang Xuanba was a newcomer.

"I stopped you just now because I saw that you didn't have any signs on your body. It should be that you haven't joined the party yet. We want to represent the Xuan Gang and invite you to join the Xuan Gang."

"Join the Xuan Gang?" Zhao Lei couldn't help but talk. In his impression, these five forces were equal to the five cancers of Insect Town, exploiting newcomers. He really didn't expect Fang Yixuan and the four to take the initiative to invite them to join.

Fang Yixuan said with a smile: "Yes, the atmosphere inside our Xuan Gang is very good, everyone is very united and loving, it's definitely not wrong to join us, by the way, our boss also particularly appreciates talents, if it is a potential newcomer, you can still get it The boss's personal instructions."

Wang announced his name. Seeing that Fang Yixuan invited them to join the Xuan Gang so enthusiastically, he also mentioned the boss of the Xuan Gang, and thought to himself, are they the core members of the Xuan Gang that Li Haitang said?

As for the boss of the Xuan Gang, Wang Xuan was very curious. If he could know the strength of the boss of the Xuan Gang, he would probably also be able to understand the strength of the Rakshasa. After all, these five forces can stand together in the town of insects, and there should be little difference in strength between them.

"We just came to Insect Town, and we don't know much about many things here. I just heard from Brother Fang that you would join the Xuan Gang and have a chance to get advice from your boss. If we join the Xuan Gang, will we be able to meet him?" Wang Xuan showed curiosity and fascination with the boss of the Xuan Gang, and wanted to inquire about the boss of the Xuan Gang from Fang Yixuan's mouth.

Fang Yixuan had a smile on his face, glanced at the corpse of the silver-ringed snake on the ground, and said, "It's not difficult to meet him, as long as the new hatchlings grow to adulthood, there is a chance. By the way, this silver-ringed snake has a chance. Did you kill the winged snake? It is a four-star dangerous monster, no weaker than the average adult. If you can come here to kill it, there are at least several adults, right?"

Before Wang Xuan could answer, Zhang Haofei said proudly, "Eight of us have reached adulthood."

Hearing Zhang Haofei say this, Fang Yixuan was slightly startled, and then he laughed: "Amazing, awesome, I said, it's not easy for you to come all the way here, originally I thought you were newcomers, you could have two or three. It's amazing to be promoted to an adult body, but it's amazing that you are all adults."

Fang Yixuan raised his thumb as he spoke, showing admiration and praise.

Wang Xuandao: "Brother Fang, I think you are all adults, why are you still here to hunt these silver-ringed pythons?"

Fang Yixuan took out a piece of parchment with a smile, and said, "We came here to do a mission based on the records above, and we happened to see you from a distance, and seeing that there were no signs on your body, we knew that you were newcomers, so we came over and thought of inviting you. Join the Xuan Gang."

Zhao Lei said: "It's a pity that if you want to join, everyone needs 60 crystal scales, and the eight of us need 480. We don't have enough crystal scales now, yes, Brother Fang should be a big man in the Xuan Gang, if there are any. For your face, can we communicate less?"

Hearing this, Fang Yixuan showed a hint of embarrassment on his face, and said, "Insect Town has always had this rule, everyone needs to abide by it, I really can't help you with this, but when you meet again next time, I will. You can think of a way to halve each of you, and you only need 30 crystal scales per month."

Everyone was stunned when they heard this. They thought that according to what Li Haitang said, when they handed in for the second time, the sub-body was still 60 per month, and the adult body was 30 per month. Now all eight of them are adults. According to the regulations, the next payment, originally only 30 pieces per person, how did it come to his mouth that he found a way to help them reduce half of it? Obviously, this is to take credit for the original regulations.

Zhang Haofei's lips moved, and he couldn't help but want to ask clearly, Zhao Lei knew what was wrong with him, and he was afraid that he would embarrass Fang Yixuan if he asked.

Zhang Haofei didn't watch out for him, but when he was caught by him, he was startled, stared at Zhao Lei and shouted angrily, "Zhao Lei, what are you doing?"

Zhao Lei retracted his hand, looked at his palm, and said, "I just saw a spider-like monster parked on your shoulder, but unfortunately it didn't arrive. Now I don't know where it went."

Zhang Haofei was startled and said, "Spider?" He turned his head to look at his shoulders and body, and slapped and shook his body, trying to shake the spider that didn't know where it was going.

Fang Yixuan showed a look of surprise on his face, and said, "A strange insect like a spider? You are all adults, and you can't hit at your speed?" Obviously, he was surprised what kind of insect could escape a slap from an adult.

Zhao Lei was just talking nonsense. Hearing him say that, he could only say, "It's too fast, I didn't expect it."

Wang Xuan coughed lightly and said, "Brother Fang, thank you for your kindness. Then we have something else to do, so let's leave first and talk later."

"Okay." Fang Yixuan nodded and said with a smile, "When you return to Worm Town, you must join the Xuan Gang. By then, we will be brothers of the same gang."

Wang Xuan smiled at him, and then left here with the other seven people.

Fang Yixuan and the others still had to complete the task, so they did not leave, but watched Wang Xuan and the others disappear into the distance.

"Alas..." Fang Yixuan sighed after watching Wang Xuan and the others leave. His tone was a little disappointed and helpless.

"The abdomen of this silver-ringed snake was cut open. They should have come here to complete the mission. Kill the silver-ringed snake and get a treasure chest. I don't know if there are any good things in the treasure box~www.mtnovel.com ~Unfortunately, eight adults..."

Beside Fang Yixuan, a very thin man looked at the corpse of the silver-ringed snake on the ground, and shook his head as he spoke.

Fang Yixuan said in a low voice, "Fortunately, we were more restrained just now. We didn't rashly take action because they were newcomers.

"These eight people are a bit complicated. All three wear belts. A basic storage belt needs 500 crystal scales, let alone three. Not to mention newcomers, even some old people may not be able to be so extravagant. ."

"I guess they must have encountered some kind of opportunity, got treasures and the like, and it is possible to get any treasures that we don't know, but unfortunately, I thought that there would be at most two or three of them. With the four of us, enough to be easily crushed and killed, so that newcomers who do not join any party will be killed, but I can't think of it, damn, even eight of them are adults."

Fang Yixuan's face was ugly. Seeing that Wang Xuan, Zhao Lei, and Zhang Haofei all had storage belts worth 500 crystal scales, Wang Xuan's Xumi belt in particular was a little different from ordinary storage belts. It's a bit more high-end, plus I just completed the task and obtained the rust treasure chest, it is inevitable that I will be moved, and I will have a little evil thoughts.

But when he heard that Wang Xuanba were all adults, the evil thoughts in his heart were extinguished immediately. He knew that if the four of them wanted to hit Wang Xuanba, they would be the ones who would die, so they could only stand with a smile on their faces. Watch them go.

## **Chapter 120**

"You said, are they lying to us? All eight are adults? How can I not believe it." The tallest man among the four had a suspicious look on his face.

The thin man kicked the corpse of the silver-ringed snake on the ground and said, "This silver-ringed snake is a four-star monster that only appears when doing the 'Treasure of the Snake Clan' quest. It is stronger than ordinary four-star monsters, even It is more powerful than the average adult, since they can kill it, their strength is definitely not weak, even if not eight are adults, at least a few have reached the adult."

Fang Yixuan said: "I'd rather believe what it has, not what it doesn't. Besides, since they can kill all the way here, they should all be about the same level. After all, it's not difficult to advance to the level, as long as you hunt monsters and draw enough energy. , With the qualifications of most people, they can break through, of course, except for some useless firewood, but it is really useless firewood, it was eliminated long ago, and it is difficult to reach the second floor alive."

"Yeah, as long as you work hard enough, your talent isn't too bad, and it's not difficult to reach an adult body, but it's a pity that after you reach an adult body, you want to grow up again, hey..."

The thin man among the four suddenly let out a long sigh, his face full of disappointment.

"The energy we have obtained has long been enough. For so long, we have not been able to break through."

Fang Yixuan said: "It's easier said than done if you want to break through the adult body. The boss also said last time that the average probability of breaking through the adult body is only one-tenth of two."

Not to mention that the four of them were sighing here, but they said that the eight Wang Xuan left, and soon they were 100 meters away. Zhao Lei turned his head and saw the four Fang Yixuan who were slowly turning into small black dots. Then he whispered to Wang Xuan: "Wang Xuan, I always feel that these four people don't seem to have a good heart. Could it be that I think too much."

Wang Xuan said: "You don't think too much, I feel the same as you." He assimilated with the beast and obtained the instinctive sense of the beast, and the beast can vaguely perceive the hostility of the beast to anyone.

Just now, Wang Xuan could vaguely sense the slight hostility of Fang Yixuan's four people, so he had been secretly guarding against these four people's shots, and prepared to fight back at any time.

But they didn't want the four to watch them leave, and they didn't do anything in the end.

"This is strange. They are hostile to us, but they pretend to be very good friends. What are these people trying to do? Are they really inviting us to join the Xuan Gang?" Zhao Lei narrowed his eyes slightly and began to think about the reason.

Wang Xuan said, "Probably because of Zhang Haofei's words."

Zhao Lei understood immediately, and said, "I see, because Zhang Haofei said that we were all adults, which frightened these four people. If they said that, they would stop us at first, and they really didn't feel at ease."

Zhang Haofei regretted hearing this and said, "I wouldn't have said it if I knew it earlier. If they dared to do it, Lao Tzu would just move his muscles and bones."

When he said this, there was a grim smile on his face. For him, killing people was more exciting than killing monsters.

Gu Manyao rolled his eyes at him and said, "Of course, if you can't do it, try not to do it. We have already offended the Rakshasa, do we still want to offend the Xuan Gang?"

Li Haotian said: "It seems that we still have to join the party. At least we have a sign on our body. People won't see that we are newcomers at a glance. I think this can save a lot of unnecessary trouble."

Wang Xuan pondered slightly, looked at Zhao Lei and Zhang Haofei, and said, "I just thought about it, Fang Yixuan and the four had bad intentions at first, maybe it has something to do with the belts on the three of us, a junior storage belt, We need five hundred crystal scales, we are only newcomers in the eyes of outsiders, all three are wearing belts, it is too conspicuous, and it is easy to cause unnecessary trouble, so we came to Insect Town, it is better to keep a low profile."

Zhao Lei nodded and said: "This makes sense. Anyway, our storage belt is useless for the time being. Let's keep it for you. The three of us are wearing belts, which are indeed conspicuous." The storage belt above was given to Wang Xuan.

Wang Xuan took the belt and looked at Zhang Haofei again.

Although Zhang Haofei was reluctant, seeing that Zhao Lei had already unfastened the storage belt, he could only slowly untie the belt around his waist and hand it over to Wang Xuan.

After putting these two storage belts into the Xumi mustard seed space, Wang Xuan breathed a sigh of relief, and then looked at the eight of himself. Now he has only one Xumi belt, and it doesn't look too conspicuous.

I just came to Insect Town, and I can only know the names of the five major forces at present, and I still don't know anything else. Wang Xuan doesn't want to be too busy, just wants to be as low-key as possible and cause less trouble.

Everyone went back all the way, and from time to time they heard various sounds of fighting from afar. A team appeared in the distance, ranging from three to five people, as many as ten or so, most of them were newcomers who did not have the symbols of the five major forces. of hunting silver-ringed pythons and winged snakes.

Everyone was also attacked by the silver-ringed python again.

The eight people easily rushed out of these silver-ringed pythons and approached the distant insect town. As they continued to reach the insect town, more and more people appeared in this snake area, especially the flying winged snakes gathered. This area has the largest number of people.

Compared with lizard-claw snakes and silver-ringed pythons, hunting flying-winged snakes can get crystal scales, which makes everyone concentrate in this area. It can be said that groups of flying-winged snakes have just appeared, and they will soon be killed. , and then these people will stay in place, waiting for the next batch of winged snakes to appear.

After a while, they met Li Haitang, Wu Yunyue and Zhang Zhao.

They also entered the area occupied by this winged snake from the area where the lizard snakes were originally gathered.

"Wang Xuan!" Li Haitang greeted Wang Xuan from a distance when she saw Wang Xuan, her face a little excited.

Wang Xuan just saw Li Haitang easily kill a flying winged snake that rushed over, and saw that she is also a full-scale strength, but in her team, only she and Wu Yunyue have been promoted to full-scale, Zhang Zhao and the other four are still Asian The body is struggling to hunt down the flying winged snakes that come up around.

Wang Xuan also waved at Li Haitang.

Zhao Lei said in a low voice, "I guessed it right, look, this Li Haitang called you first, and he really has an interest in you."

Wang Xuan was a little speechless, he couldn't help but want to kick him, and said, "You are so boring." As he spoke, he gestured to Li Haitang from a distance, and pointed in the direction of Worm Town, meaning that the eight of him wanted to Return to Insect Town and talk to you next time.

Li Haitang was a little disappointed, nodded towards him, and said nothing.

The eight people went all the way back, and there were too many people hunting flying snakes. These snakes were almost killed by people as soon as they appeared. They were not attacked by the flying snakes until they were about to approach. Insect Town was attacked by a group of lizard snakes.

The people who hunted the lizard-clawed snake were much less visible to the naked eye, but the lizard-clawed snake with a three-star danger was too weak for everyone now, and they easily smashed a passage and reached the town of insects.

The ten-meter-high thick wall gave people a sense of oppression. It was too dark last night, and everyone fled out again. They didn't take a close look. Looking at the tall wall at the moment, it was hard to imagine that this was just a small town. From a distance, it looks more like an ancient city.

In the middle of the eastern wall is the east gate for entering and leaving Worm Town. Every night when night falls, this gate will be closed tightly. At this moment, the east gate is opened, and Wang Xuan can see the city gate from a distance. There are many people staying there and occasionally can watch until someone comes in and out.

"Should we go in and take a look, or do we go to another mission first?" Zhao Lei looked at the crowd gathered at the east gate, and suddenly felt a little stage fright in his heart.

Although eight of them are all adults, who knows how strong these five major forces are, and whether there are really stronger than adults, whether Duan Chen and Yao Tiande of Rakshasa are core members? He won't invite more powerful characters to deal with them, all this is unknown, and seeing that he is really going to return to Bug Town, he suddenly becomes uneasy.

Gu Manyao said: "The difficulty of this centipede hunter is five stars, but with our current strength, we should be able to do it, and the new Goblin redemption quest can also be tried, but we must return to the first floor. Just do it."

Wang Xuan was also a little hesitant. After thinking about it, he said, "Well, let's try this centipede hunter's mission first, and then go back to Insect Town."

"Fairy Wood"

Seeing Wang Xuan's decision, Zhao Lei and the others breathed a sigh of relief, at least for now, they don't have to return to Insect Town to face possible dangers.

Next, everyone began to walk along the wall of the insect town and walked towards the south.

Wang Xuan took out the parchment for the centipede hunter quest.

This is a 5-star difficulty quest, but the reward is also better, a bronze chest that is one level higher than the rust chest.

The mission location is Centipede Island, south of Bug Town.

The eight people walked south along the wall, preparing to enter Centipede Island directly from the Snake Domain, but they stopped quickly.

They saw that there was a big river to the south of the Snake Territory, the depth of which was unknown. There was a giant island in the center of the river. According to the map, this giant island was the Centipede Island. There were no boats or bridges on this big river. There is a big road about two or three hundred meters long and ten meters wide, leading directly to Centipede Island, which is the only way to the island.

"It seems that the only way to enter Centipede Island is to go back to Insect Town first, and then go through the road outside the South Gate." Wang Xuan shook his head, a little speechless. He originally thought of completing the mission of this centipede hunter and then returning to town. It's impossible to come.

Zhang Haofei said with a smile: "Actually, we should be able to swim. I don't think the Centipede Island is too far from the shore. With our current physical strength, swimming is not difficult."

Gu Manyao said, "I want to swim by yourself." She wasn't very good at swimming. She had a headache when she saw this river, and she didn't even want to go into the water, let alone swim.

Zhao Lei smiled and said, "Zhang Haofei, go down if you want to die. No one knows if there are some monsters hidden in this water. When you are in the water, no matter how powerful you are, you can only use one or two percent of your abilities."

Zhang Haofei pouted and said, "I'm just making a suggestion, what are you excited about?"

Wang Xuan said: "Don't talk about it, let's go back to town."

After he finished speaking, he turned around and walked towards the east gate of Insect Town.

Everyone didn't speak anymore, and followed him towards the east gate.

As they approached, Li Haotian, Yu Shanshan, and Zhao Lei showed a hint of nervousness on their faces.

At the east gate, a group of people gathered, most of them were sitting there resting, and a few were patrolling, looking like guards guarding the east gate.

Wang Xuan saw that five people walked in before them. These five people wore the symbols of the five major forces and wore a unified yellow turban on their heads, but they still accepted the investigation and questioning of these people before letting them in. town.

"It seems...you can't enter and leave Wormtown freely, and you have to be interrogated even with signs, let alone newcomers. It seems that the management is very strict..."

Wang Xuan frowned slightly, and then carefully looked at the people gathered at the door, and immediately noticed that these people were actually divided into five factions, each with different signs, four of which were wearing red belts around their waists, which were very conspicuous and naturally represented The "Rakshasa" among the five major forces.

The other three people wore black bracelets on their left wrists. Like Fang Yixuan and the others they met before, they represented the "Xuan Gang" of the five major forces.

There were three other people, two men and one woman. They wore leather badges on their left chests. The badges had a phoenix painted on them. They were the most prominent and obvious of the five forces. Wang Xuan knew immediately that this should represent the The "Phoenix" of the five major forces.

The remaining four had yellow headscarves on their foreheads, and three others had square metal plaques around their necks, which should represent the remaining "Dynasty" and "Justice League" among the five major forces.

When Wang Xuan and the others approached, they were like wolves smelling blood, and most of them stood up with a hula.

"Rookie, have you gathered the crystal scales?" Immediately, one of the men in his thirties with a metal plate around his neck said with a smile.

Many newcomers enter Worm Town. Because they can't get the crystal scales together, they will be driven by the five major forces to the Snake Domain outside the East Gate, and they will make up when they gather the crystal scales.

There are only four entrances and exits in Insect Town, and each entrance and exit has people from the five major forces. As long as newcomers want to return to Insect Town, they will inevitably be intercepted by these people. Only after paying enough crystal scales can they enter.

This is also the reason why many newcomers are forced to rest in the Snake Domain.

"Would you like to join our Justice League? Our Justice League takes good care of newcomers." The man said with a smile, looking at Wang Xuan's eight people, and found that Wang Xuan was wearing a belt that he had never seen before. Insect Town can only buy primary and intermediate storage belts, but Wang Xuan has never seen the belt around his waist. He guessed that it should be the equipment obtained by hunting some kind of monster.

"Bao Jianzhang, you've committed your old problem again, didn't you say we won't fight for newcomers in the future?" A horse-faced man who belonged to "Rakshasa" with a red belt around his waist came over and said: "It's still the old rules and simple and easy, come on."

As he spoke, he stretched out his hand, holding five folded notes in his left hand, and said, "This time it's just your Justice League's turn to be the first to pick."

Bao Jianzhang smiled and took one of the five notes in the man's left hand.

Then a man with a yellow turban on his head representing the "dynasty" force took a note.

Seeing that they all took a note one after another, the last remaining note belonged to the "Rakshasa" horse-faced man.

Wang Xuan and the others looked at each other, looking at this posture, could it be that the people of the five parties decided which faction they should belong to through a note?

Wang Xuan looked at it and felt a little speechless, but when Bao Jianzhang of the "Justice League" opened the note, he immediately shook his head and said, "It's a pity."

The five of them opened the note in their hands one after another, and the man with the thick eyebrows and big eyes from the "Xuan Gang" with a black bracelet on his left hand smiled and showed the note in his hand, saying, "I'm sorry. All of you, I got it this time, and these eight newcomers belong to our Xuan Gang."

The other people from the Quartet shook their heads, and immediately lost interest in Wang Xuanba and the others. They didn't even bother to say anything. They just handed the note in their hands to the man with thick eyebrows and big eyes, and then walked back separately. He sat down on the side, ignoring Wang Xuan and the others.

The man with thick eyebrows and big eyes folded all the five notes again and put them away. Next time there is a new person, he will have to choose the other one, and pick the last remaining note and give it to him.

"My name is Yuan Xiao, what do you call them, each with 60 crystal scales, you will be members of my Xuan Gang from now on."

Yuan Xiao put away the note with a smile on his face, and two other members of the Xuan Gang also came over, one of them was still holding a pen and paper, preparing to register the details one by one.

"Name, gender, age, name, ability and growth level of hatched beasts need to be registered one by one."

Wang Xuan's brows were slightly wrinkled, but he didn't expect that it was not as simple as paying sixty crystal scales per person, but also needed to register detailed information.

Thinking that Fang Yixuan had invited eight of his own to join the Xuan Gang before, UU reading [www.uukanshu.com](http://www.uukanshu.com) can't imagine that he has really become a member of the Xuan Gang, but Wang Xuan also knows that when he said that he joined the Xuan Gang, it was actually just a name. That's it.

"By the way, the sixty crystal scales paid this time can only last for one month. After one month, you need to continue to pay. Of course, if you reach adulthood, the amount paid will be halved."

Wang Xuandao: "Do you have to keep paying as long as you stay in Bug Town? Is there any circumstance where you don't need to pay?"

"You don't have to pay? Yes, as long as you can break through the adult body, you don't have to pay it." When Yuan Xiao said this, Zhao Lei's eyes lit up and said: "You don't need to pay after breaking through the adult body?"

When Wang Xuan heard this, he understood that among the five major forces, there were indeed a fifth-form powerhouse that surpassed the adult body. Fortunately, the eight of them did not mess around.

Yuan Xiao said with a smile, "Do you think breaking through the body is easy?"

As he spoke, he stretched out his finger and pointed at the people around him, and said with a smile: "We have been in the adult body for a long time, and all of us have been unable to break through. Now you know how difficult it is to break through into the adult body. The probability is only about one in ten or two, but according to the probability, the eight of you have hope of one."

Hearing what he said, Bao Jianzhang, who belonged to the "Justice League", laughed and said: "Yuan Xiao, then you must hurry up and flatter yourself. At that time, you will have a good backer in the Xuan Gang, at least you don't have to be assigned to it. Look at the door here."

Yuan Xiao was a little embarrassed by what he said, and waved his hand: "Okay, the eight of you come here to register."

The two people who followed him, one was responsible for registering the name, age, name and growth stage of the hatched beast, and the other was responsible for collecting crystal scales, and then each was given a black bracelet and a card.
