

Last Building on Earth Chapter 121-125

Chapter 121

Wang Xuan took the black bracelet. The workmanship of this black bracelet is not bad, at least much better than the red belt of Rakshasa. It is worn on the left wrist. Looking at the card, there is information about them, even the information about the hatching beasts. Yes, there are 30 spaces on it, the first of which is written with the words June 5th.

With a move in his heart, Wang Xuan said, "Today is June 5th?"

Starting from the underground parking lot trapped in Longmao Plaza, let alone the date, it is difficult to even have a concept of the time. At this moment, seeing this June 5th, I am a little confused. Is today June 5th?

Yuan Xiao smiled and said, "This is based on the time we are here. As for the day of the month outside, no one knows." When he said this, the smile on his face narrowed, and he seemed to think of the past and his emotions. suddenly became low.

The man who gave Wang Xuan a black bracelet and a card said, "This bracelet should be worn on the left wrist, and the card is equivalent to your identification card. It must be kept and cannot be lost. Registration is required every time you enter or leave. On the 5th of June, it will expire on the 5th of the next month, and you must reclaim it."

"Of course, if you can make merit and be promoted to core members, you don't need this card to prove yourself."

"There is another point, no one cares about you when you leave the town of insects, but when you enter the town of insects, don't fight with people, otherwise you will be severely punished, and even losing your life is not uncommon, remember to be sure Follow the rules here."

Zhang Haofei couldn't help but said, "Then if someone else tries to kill us, we can only hold back and not fight back?"

"The Guard is Here"

Yuan Xiao glanced at him and said, "If someone else did it first, try to escape as much as possible to avoid conflict. Of course, if your life is really threatened and you are forced to fight back, you can fight back. There will be no punishment for fighting back under the circumstances, but there is a precondition that there must be witnesses who can prove it."

Zhao Lei nodded and said, "So that's the case, we understand."

As the registration of the eight people ended one after another, Yuan Xiao and others gradually showed a hint of surprise. They did not expect that all the eight newcomers in front of them had reached adulthood.

"Amazing, Wang Xuan." Yuan Xiao remembered Wang Xuan's name, looked at them, and said, "Are you really a newcomer who only came here yesterday? It's only half a day, you're all adults, it's not easy. ."

As he spoke, he raised his thumb.

He saw that Wang Xuan's equipment was the best among the eight, and he was wearing a belt around his waist, so he should be the leader of the eight.

Wang Xuan just smiled at Yuan Xiao and said nothing.

After the registration, Wang Xuan paid 480 crystal scales. The 1487 crystal scales he originally owned immediately turned into 1007, which made his heart hurt, but fortunately, he is now a member of the Xuan Gang, and he is no longer a family. The newcomers in their mouths, since private fights are strictly prohibited in the town, they don't have to be afraid of Duan Chen, Yao Tiande and others, but they don't know why Wu Yi sneaked into the insect town in the middle of the night.

Because according to this rule, he can completely return to town to buy nutrient solution during the day, or is there any rule they don't understand?

During the formalities of the eight people, five newcomers came, similar to them. Before, they entered the Snake Domain because the crystal scales were not enough, and now they finally gathered the crystal scales and returned to the town.

The people of the five major forces still rely on the notes to decide their belonging. This time they were taken by the people of Phoenix, and these five newcomers belong to the Phoenix side.

When these five people handed over the crystal scales and prepared to go through the formalities, Wang Xuan and eight people had already received their black bracelets and cards, said goodbye to Yuan Xiao, and entered Worm Town.

Returning to the town, everyone was in a good mood. Wearing a black bracelet on their left wrist, they were no longer newcomers, and their waists would be straighter.

Entering along the east gate, not far away is a block of buildings, where there are rows of single-family buildings of varying sizes.

In the square in the distance, people come and go, but most of them are in a hurry. Wang Xuan is looking at these people. They are basically wearing the symbols of the five major forces, and almost no newcomers who have no symbols on their bodies can be seen. .

Wang Xuan understands that new entrants must either pay enough crystal scales to obtain a sign of a certain power. If they do not have enough crystal scales, they will be immediately driven to the Snake Territory outside the East Gate, and they will not be left in Worm Town for newcomers at all. .

Therefore, the people who can stay in the insect town are basically those who have obtained the symbols of the five major forces.

Zhao Lei approached Wang Xuan and said, "Wang Xuan, do you want to go to Centipede Island to do the quest immediately, or go to the trading area first? I was forced to leave before I finished it last night. I still want to see that tavern."

Wang Xuandao: "Then go to the trading area and have a look."

The eight people walked along the square and saw that around the giant glass column in the center of the square, there were people from the five major forces standing there.

Usually there are people here during the day, but they leave at night.

Wang Xuan looked around at these people. Most of the equipment he was wearing was second-order fine-quality armor, plus one or two purchased third-order ordinary-quality armor. Basically, only the leader of each team would have a belt on his waist. material belt.

After all, the storage belt is as high as 500 crystal scales, and one team is enough for a team. In the case that they have not been able to collect a complete set of Tier 3 equipment, few teams will be extravagant enough to buy several storage belts.

Of course, you can occasionally see people wearing a full set of Tier 3 armor. Wherever such people go, they will attract envious eyes.

Wang Xuan and eight people, looking at the people around them with curiosity, walked along the square in the direction of the trading house. Before they got close, they saw a lot of people gathered at the entrance of the trading house. Screams and roars.

"Something happened?" Wang Xuan's heart was moved, but he saw the group of people gathered at the entrance of the trading house scattered, followed by a huge explosion sound, the flame and knife light lit up together, but saw eleven people. They even showed their hatching beasts, shot each other, and fought together in an instant.

Of the eleven people, six of them wore red belts around their waists, representing the people of the "Rakshasa", and the other five had metal plaques on their chests, representing the people of the "Justice League".

Wang Xuanba had just approached, and he didn't know what had happened before. All he could see was that the people on both sides suddenly mixed together to fight, and those who were originally onlookers gave in to avoid being involved.

Wang Xuan saw that these eleven people shot, all of them were formed, and each of them was very powerful. One of the men belonging to the "Justice League" controlled the flames and formed huge fireballs. They smashed wildly, and the fireball hit the ground. The target immediately exploded with astonishing power.

Another man who belongs to "Rakshasa" controls a giant sword with his right hand. The giant sword rotates at high speed in his hand, forming a huge sword wheel. Mars, leaving streaks of white marks on this hard ground.

The melee broke out too suddenly, and a scream rang out. Wang Xuan saw a man who belonged to the "Justice League" wearing a metal plate on his neck. A sword and a knife were inserted into his chest and back respectively. A ball of fire hit his head, it exploded, and the flesh and blood flew. The head of this "Justice League" man blossomed and was swallowed up by the flames. Seeing that he could not survive.

These six "Rakshasa" men were very ruthless, and they joined forces in a surprise attack, killing this "Justice League" person in an instant.

Among the people looking around, there are people from all forces. Since there are "Rakshasa" people with red belts, there are also people from the "Justice League" wearing metal plates, but these people are only from a distance, even still backing away so as not to be involved, no one has stepped in to help those of his own power.

Suddenly, on the top of the armor shop on one side, someone shouted loudly: "Come on, the people from the patrol team are here!"

At this time, Wang Xuan noticed that on the top of the armor shop, there were still people standing far away, as if they had been looking at something from afar.

With this voice, the two people from the "Rakshasa" and the "Justice League", except for the dead man, the remaining ten people immediately took the hatching beast, turned around and fled, and fled in different directions. Soon mixed into the crowd and disappeared.

Following the direction of the square in the distance, there was the sound of horse hooves. Wang Xuan turned his head to look, but saw a woman wearing five pieces of Tier 3 alloy equipment, riding a silver-white mechanical unicorn. The fast speed rushed towards here.

The speed of that mechanical unicorn is very fast, faster than a normal adult galloping at full speed.

When the people in the square saw the woman galloping on a mechanical unicorn, they all ducked to get out of the way, and no one dared to stand in front of her.

Wang Xuan noticed that her slightly bulging left breast was wearing a Phoenix badge, and understood that she belonged to the "Phoenix" of the five major forces.

Behind her, there are also five people. These five people are quite strange. Judging from the signs on their bodies, they are different. They belong to the five major forces. The only thing they have in common is that they are the same as the woman on the mechanical horse. Wearing a white epaulette on his arm, the white epaulette is painted with crossed swords and the word patrol is written in the middle.

The speed of the unicorn that the woman was riding was too fast, and she quickly got rid of the five people and rushed to the entrance of the trading house.

However, she still came a step late. The ten people who had been fighting before had already mixed into the crowd and fled. There was only one corpse on the ground with a scorched head.

She stopped on her horse with a grim look on her face.

Wang Xuan looked at the mechanical unicorn under her crotch, and understood that it was a mechanical beast just like his little girl, but the unicorn was covered with a shell and armor, which made it look huge and could be ridden.

This woman rode a mechanical beast, looking down at the people around her from a height, majestic and majestic, and a look of envy appeared in Wang Xuan's eyes.

"It seems that this mechanical beast can really be used for riding." Wang Xuan moved his mind and thought of his little girl.

However, the little boy's limbs look slender and shorter, and compared to the body wearing the goblin mechanical armor, it looks nondescript, and it is a little embarrassing to let him ride now.

The mechanical beast of the woman in front of her did not have such a situation. The overall balance was very balanced. It should be equipped with a mechanical shell all over the body.

Everyone around didn't dare to approach, but just watched from a distance. Wang Xuan and eight people also mixed in the crowd to watch the excitement. Everyone around was looking at this woman with envy, awe, and curiosity in their eyes.

"Fuck, didn't that Yuan Xiao say that private fights are strictly prohibited here, and you can't do it? Why did you just come and see that guy killed? It's not the so-called rules and bullshit." Zhang Haofei muttered in a very low voice.

Looking at the scene in front of him, Wang Xuan also understands why Wuyi sneaked in in the middle of the night. It seems that although this insect town is ruled by the five major forces, it is also stipulated that no action can be taken in the town, but private fights and murders cannot be completely prohibited. .

The five people behind the woman also rushed over quickly. Wang Xuan looked at the white epaulettes on the left shoulders of the six of them with the word "patrol" on them, guessing that their mission should be to patrol here, and no one is allowed to fight privately. However, just now those people were already prepared, and they arranged for people to ventilate on the top of the store. When they saw a "patrol team" coming from a distance, they immediately tipped off the news and told them to escape in advance.

And the person who just stood above the store has long since withdrawn.

"Captain, it's from the Justice League." The five people who followed, checked the corpse on the ground, and reported to the woman on the mechanical horse.

Wang Xuan saw that this woman was young, no more than twenty-five years old, and she was beautiful, but her face was arrogant, which made it difficult for people to have a good impression. , but waiting for the people below to report.

She just nodded slightly and didn't answer.

One of the five people suddenly reached out and said to a man in the crowd, "Come here and tell me what you've been through."

There was a hint of fear on the face of the accused man, but he still walked up and said, "I just came here, I don't know very well, I only saw two groups of people fighting."

"Which two parties are they, and how many people are there?"

"One is from Justice League, five are from Rakshasa, six are from Rakshasa, and I don't know the rest."

After the man answered, the woman on the mechanical horse stretched out her left hand and waved slightly, signaling him to step back.

Then she looked at the two men wearing metal plates and wearing red belts among the five members of the "Patrol" who came with her and said, "Xiao Nan, Wei Zixuan, since you are from the Justice League and Rakshasa. There was a conflict, and now that someone in the Justice League has been killed, let the two of you take full responsibility for this."

Then Xiao Nan and Wei Zixuan responded together, Xiao Nan, who belonged to the "Justice League", reached out and lifted the corpse on the ground, saying: "Captain, this is not the core member of the Justice League, it should be two gangs. There is a conflict in private, and since everyone has escaped, there is no way to trace this matter."

Wei Zixuan said with a smile: "These guys are really brave. They started to move at the entrance of this trading house in the daytime, but let them escape quickly, otherwise they would be caught, and they would look good."

Obviously, as long as the core members are not involved, they don't care. Dead individuals are too common for them.

The woman riding the mechanical horse nodded slightly and said, "Dispose of the body, you guys can patrol here for a while to prevent similar situations from happening again."

"Got it." The five responded, and the woman rode a mechanical horse and turned to leave.

Watching the woman leave, these five people just shouted at the people around them: "Be honest, don't make trouble." Then they left with the corpse.

Everyone around saw that there was no drama to watch, and they also dispersed with laughter.

Wang Xuan and eight people watched the whole process silently, and then they understood that there are strategies above and countermeasures below. It seems that although the five major forces stipulate that killing is strictly prohibited in the town of insects, they have also formed a patrol team to maintain the security here. Public security, but the actual situation is that the management is not strict. As long as the core members of the five parties are not involved, the life and death of ordinary people, as long as the murderer is not caught on the spot, they will not go deep.

After all, it's none of their business, and no one wants to spend a lot of energy to really track down the real culprit.

After watching this scene, everyone lost their interest in entering the trading tavern. Originally, they thought they were in broad daylight. Even if Duan Chen and others discovered them, they would definitely not dare to do so, but now they realize that it is not at all. Such a thing.

This worm town is not absolutely safe during the day. Wan Duanchen and others found them and found stronger helpers to deal with them. They can completely attack them in the worm town, as long as they are not caught by the "patrol team". Caught, no worries at all.

The most terrifying thing is to look at the current situation. If Duan Chen and others are really the core members of the "Rakshasa", I am afraid that even if they are caught, they will be covered up by these patrols, while the eight of them are just ordinary members. Rather be punished.

Wang Xuan understands that in this kind of place, there is no fairness at all.

"Let's do the quest first, it doesn't seem safe here." Zhao Lei approached Wang Xuan and whispered, "The two of Duan Chen are most likely the core members of 'Rakshasa', it seems that the core members have power It's very big, we can't make trouble by staying here too much."

Wang Xuan snorted and looked at the clock on the glass column in the distance. It was already half past eleven in the morning, but he had taken the intermediate nutrient solution before, but he didn't feel any hunger or thirst.

"Let's go, let's go to the South Gate." Wang Xuan's face was a little solemn, and the woman who just appeared on a mechanical horse caused a lot of pressure on his instinct.

Although he couldn't see the strength of this woman, his instinct after assimilating the beast told him that this woman is very scary and must not be provoked.

He had a faint doubt in his heart, whether this woman would be a powerhouse that surpassed the fifth form of her body.

There is a huge gap between the adult body of the fourth form and the sub-body of the third form, so how big is the gap between the strong person of the fifth form and the adult body?

Now it seems that only by breaking through into the body is truly safe in this insect town, which makes Wang Xuan eager to go out to hunt monsters in order to seek a breakthrough.

Everyone left the trading house and walked towards the south gate of Bug Town.

When we arrived at the South Gate, the situation at the South Gate was similar to that of the East Gate. There were also people from the five major factions guarding here.

Wang Xuan and eight people arrived, and immediately three people from the "Xuan Gang" came up.

"Good face, is it a newcomer who just joined?"

Wang Xuan nodded yes, then took out the card.

I checked the cards and found that they only joined today. After that, the three of them matched their cards one by one, and they were released after confirming that the information was correct.

Maybe because they were new recruits, they had to check it very carefully this time, and even let them show the hatching beasts to match them one by one.

"Don't mind, after all, it's the first time, everyone is unfamiliar, next time we are familiar with it, we won't have to do this." The man at the head seemed to be afraid that Wang Xuan and eight people would be dissatisfied, and explained with a smile.

Wang Xuan and the others could only nod their heads to show their understanding.

Compared with the public security in the town, the four entrances and exits of the insect town are strictly managed, which is related to the collection of crystal scales, which has huge benefits and should not be sloppy.

This made Wang Xuan understand that it would be very difficult to steal other people's logos and cards and try to impersonate them and sneak into Insect Town.

After the inspection, the eight people walked out of the south gate and looked at the ten-meter-wide avenue in front of them, and then heaved a long sigh of relief.

"I feel depressed in Bug Town, but I feel much more comfortable after leaving the town." Zhao Lei smiled, and everyone walked along the avenue towards Centipede Island.

On both sides of the avenue, is the sparkling river, and Wang Xuan is also in a good mood.

This avenue is about one or two hundred meters long. Everyone passed through the avenue and just stepped on the island. Suddenly, they saw seven people coming from behind a pile of giant rocks, and they quickly surrounded them.

These seven people were all wearing red belts, and the two leading them, a slightly fat round-faced man and a black-faced man, were Duan Chen and Yao Tiande in "Rakshasa".

Chapter 122

Suddenly seeing Duan Chen and Yao Tiande surrounding them with five people, Wang Xuan took a deep breath and showed a wry smile.

They were afraid of being encountered by Duan Chen and the others in Worm Town and causing trouble, so they decided to leave Worm Town and come to Centipede Island to see, but they didn't expect the other party to come here early, so they would guard here in advance.

Yao Tiande's face was gloomy, and he stared at Wang Xuan, holding the metal stick with blue-white electric light on the surface in his right hand. Among the eight people, Wang Xuan was the one he was most afraid of.

"Boy, I knew you would come to Centipede Island. We chose to wait here and wait for the rabbits, and it really didn't go to waste." A sneer appeared on Yao Tiande's face, but his eyes turned to Wang Xuanba's left wrist.

In the shop that sold supplies last night, the eight Wang Xuan did not have the symbols of the five major forces. They were obviously eight newcomers. Now only half a day has passed, and they all wear black bracelets on their left wrists, which means they have joined. Xuan Gang.

Duan Chen held the earth shield formed by the gathering of dirt in his right hand, and shouted: "Where's Wu Yi who killed tens of thousands? You killed Lan Lan together with him. This feud is so big that none of you can run away today. ."

While talking, he slammed forward, and the earthen shield held in his right hand volleyed over.

Wang Xuan was not afraid at all, the metal tentacles exploded in an instant, and hit the earth shield with a bang. The earth shield shattered and exploded into countless pieces of earth.

Several people who came with Duan Chen all showed their hatching beasts, and surrounded them with murderous aura.

Zhao Lei, Gu Manyao, Zhang Haofei, Tie Jun, Li Haotian and others did not show weakness, and immediately showed their hatching beasts, waiting for them.

There is a huge difference between the sub-body and the adult body. Everyone shows that they are hatching beasts. The imposing manner of the adult body is completely different from that of the sub-body. Yao Tiande and Duan Chen Qi are not fools, and they immediately felt that something was wrong.

Yao Tiande shouted loudly, "Stop!" He lifted the metal stick in his hand and stopped the other five people who wanted to shoot, staring at Wang Xuan, then looked at Zhao Lei, Zhang Haofei and others, suddenly said: "Have you all reached adulthood?"

There are eight adults in front of them, and they are now playing seven against eight, but they can't take advantage of it at all. Although Yao Tiande is not afraid, he also understands that if they really fight, even if the seven of them can really kill the eight people in front of them, they will have to pay extremely heavy. price.

Don't say he didn't want to, the other five people who came with them wouldn't even want to.

Sure enough, after the five people found that Wang Xuan and the others were all adults, they all retreated immediately without Yao Tiande speaking.

Just kidding, who wants to go to **** in a situation like this? Who doesn't cherish their own life?

"Yao Tiande, don't you just have one or two adults? Why are all this group?" Among the five people, a man looked at Yao Tiande with dissatisfaction.

Yao Tiande's face was very ugly, Duan Chen also retreated, and most of the arrogance just now disappeared immediately.

They are here today mainly for Wu Yi, not for Wang Xuanba.

The four places outside the worm town have different degrees of danger. The snake domain outside the east gate is the safest and suitable for newcomers like the sub-body. As for the scorpion city in the west and the insect country in the north, even adults dare not enter. If you want to die, you dare to go.

Wu Yi is an adult, and the most suitable place for him is Centipede Island outside the South Gate.

After Duan Chen and Yao Tiande thought about it, they realized that Wu Yi escaped from Insect Town, and the only places he could go were Snake Domain and Centipede Island, and among them, it was most likely to enter Centipede Island.

After thinking over and over again, they united five other adults to form a team, and then entered Centipede Island. First, they could hunt down suitable monsters here to improve themselves, and second, they could try their luck to see if they could catch Wu Yi. .

Wu is alone, even if he enters Centipede Island, he cannot enter the depths of Centipede Island alone, and will only move in the area at the entrance of Centipede Island.

They searched in this area all morning and couldn't see Wu Yi, so they guessed that Wu Yi was mostly hiding in the Snake Domain. They decided to rest for a while and then go to the Snake Domain to have a look.

But when he didn't want to rest, he suddenly noticed that on the road leading to the South Gate, Wang Xuan and eight people were walking towards Centipede Island.

Since they couldn't catch Wu Yi, they were going to take out Wang Xuanba's anger, but they didn't want to prepare to do it, and suddenly found out that Wang Xuanba was not the newcomer they imagined, but they were all adults.

Looking at the performance of the seven people in front of him, Wang Xuan let out a sigh of relief, realizing that he had guessed right before. As long as all eight of them reached adulthood, Duan Chen and Yao Tiande would not dare to touch them casually. decide everything.

Not far away, there are several teams of people resting. These people have the symbols of the five major forces on their bodies. At this moment, they are all excited and looking forward to looking here.

Seeing the conflict between the eight Xuan Gang people and the seven Rakshasa people, many people immediately opened their eyes and wanted to watch the play.

"The Lan Lan you mentioned was killed by Wu Yi. I can understand your desire to seek revenge on Wu Yi, but we are also victims who were involved. It seems unreasonable for you to seek revenge from us?"

Wang Xuan calmed down and looked at Duan Chen and Yao Tiande in front of him. The metal tentacle in his right hand swayed slightly. If the other party was really unreasonable, even if they were the core members of Rakshasa, he would not hesitate to fight back.

Duan Chen took a deep breath, glared at Wang Xuan fiercely, and said, "What about Wu Yi? If you hand over Wu Yi, we will naturally go to him to settle the account!"

Wang Xuan nodded and said, "Okay, then I'll give Wu Yi to you."

After speaking, he opened the pocket on the left, took out a package wrapped in clothes from the Xumi mustard space, and threw it in front of Duan Chen and Yao Tiande.

Seeing that Wang Xuan suddenly threw the package over, Duan Chen and the others were startled, thinking that Wang Xuan wanted to plot against them, and immediately protected the hatching beasts in front of him, and they all retreated. to ten meters away.

Seeing that the package fell to the ground quietly, and there was no explosion or any other dangerous situation, Yao Tiande said with a confused face: "What does this mean."

Wang Xuan said nothing, stretched out his metal tentacles, and untied the clothes wrapped on the ground at a distance of several meters, and a **** head was immediately revealed inside.

"Wu Yi?" Duan Chen suddenly cried out.

Yao Tiande opened his mouth wide with a horrified look on his face, then slowly looked at Wang Xuan and said, "You...you killed...Wuyi?"

They wanted to capture Wu Yi and seek revenge for him, but they never expected that Wu Yi's head would appear in the hands of this group of newcomers.

Wang Xuan said slowly: "What kind of conflict and enmity do you have with Wu Yi, which has nothing to do with us originally, but Wu Yi shouldn't drag us into the water, he wants to use us to back up, so he should die."

Zhao Lei replied: "Now that Wu Yi is dead, your revenge has been avenged, and we should be evened out."

Zhang Haofei said, "No, we killed Wu Yi, the great enemy, for you. You should be grateful to us."

Duan Chen and Yao Tiande looked at Wu Yi's head on the ground, and looked at each other. The expressions on their faces were a bit ugly, and there was unspeakable grievance.

Especially when Zhang Haofei said they should be grateful, it made them feel depressed and uncomfortable.

Seeing that Duan Chen and Yao Tiande didn't speak, the atmosphere became dull, Zhao Lei couldn't help but said: "Wu Yi is dead, everyone said that the death of the person is gone, your friend's revenge can be avenged, I believe that Lan Lan The girl can also rest her eyes."

I thought that even if these two had a deep relationship with that Lan Lan, now that Wu Yi is dead, this matter should be ended here, do they really want to fight with the eight of them and fight to the death? If this is the case, then the two of them are really stunned.

Yao Tiande suddenly sighed, stepped forward, wrapped Wu Yi's head in clothes again, and lifted it up.

"Since Wu Yi is dead, if it's just us, we naturally hope to stop here. If Wu Yi is alive, it would be easier for us to capture him alive, but now that he is dead, this matter is not easy to handle."

Wang Xuan was slightly startled and said, "What do you mean by that?"

Yao Tiande waved his hand and said, "Forget it, strictly speaking, you are indeed involved in this matter, and you have suffered an unwarranted disaster, but... sigh..."

When he said this, he hesitated before he said: "We are not unreasonable people, the people who actually came here, everyone's experience is probably the same, we are all trapped in this **** world, can't we go back? Poor man to go."

Wang Xuan and the others looked at each other, unexpectedly, Yao Tiande suddenly fell in love.

When Yao Tiande said this, his mood was a little down, and he continued: "It's clear that everyone is trapped in the same poor people, but they can't unite and find a way to escape together. Instead, they are divided into three, six, nine, etc., each faction, each other. The strife continues."

"Cough!" Duan Chen heard Yao Tiande's words getting worse and worse. He couldn't help coughing lightly, then gently pushed him and said, "Let's go back."

Wang Xuan listened quietly. Seeing Yao Tiande's appearance, if he realized something in his heart, he wanted to come to this worm town to be occupied by the five major forces.

After that, Duan Chen and Yao Tiande left and went to the south gate. Although they got Wu Yi's head, they seemed to be in low spirits. They didn't seem to have the feeling of a friend's revenge, which made Wang Xuan see it. , I always feel weird.

Those people in the distance originally wanted to watch the play, but they all felt disappointed that the two sides could not fight, and then they dispersed one after another.

Watching Duan Chen and Yao Tiande leave, Wang Xuan frowned slightly, and Zhao Lei suddenly said, "I think this is weird."

Zhang Haofei said, "What's so weird? Wu Yi died, and they took revenge. This matter has already been resolved, and it's so weird."

Zhao Lei shook his head and said, "No, there must be something wrong." He narrowed his eyes as he spoke. Every time he thought about it, he was accustomed to squinting.

"It's really strange. Then Yao Tiande said that if Wu Yi was alive, it would be better to capture him alive, but it would be bad if he died. Is there some secret about Wu Yi, and what secret are they trying to capture alive?"

Tie Jun used his imagination and thought of a possibility.

As soon as he said this, Wang Xuan and Zhao Lei all looked at him.

Zhao Lei opened his squinted eyes, but lowered his voice, looked into the distance, made sure no one was paying attention to them, and said, "Brother Tie, your guess is really possible, but it's a pity that Wu Yi is dead, even if He really has a secret, and we don't know it anymore."

Wang Xuan pondered slightly, then stretched out his hand and pointed at the pile of giant rocks facing him: "Let's go there to rest for a while."

The eight people came to the pile of giant rocks, made sure they were safe, and then sat down to rest.

"Wang Xuan, why do you think about taking a break?" Zhao Lei didn't understand.

Wang Xuan pondered: "As you said just now, this Yao Tiande's reaction is a bit strange. He seems to want to say something, but he is hesitant to say anything. If it is really like what Brother Tie said, what secret is this Wu Yi hiding? Now Wuyi is dead, will they suspect that we know this secret?"

Zhao Lei was shocked and said: "If that's the case, I'm afraid they will come to us?"

Gu Manyao said: "If this is the case, then we really can't tell. We really didn't get any secrets from Wu Yi. Of course, these are just guesses here, and they may not be true."

Wang Xuan snorted, and after thinking about it, he opened his left pocket and took out two belts.

These two belts are all primary storage belts, from Lanlan and Wuyi. They look exactly the same. Wang Xuan can't tell which one belongs to Lanlan and which one belongs to Wuyi.

He took one of them, checked it over and over again, and saw nothing, and then took another one to examine it carefully.

Everyone stopped talking and looked at Wang Xuan silently, knowing that he was checking Wu Yi's relics to see if they could find any clues.

Wang Xuan checked the two belts carefully, and found nothing. As for the inner space, everyone had explored it before. Except for the crystal scales, nutrient solution, armor and some daily necessities, there was nothing special.

Suddenly, as if he thought of something, he put away the two belts again, opened the Xumi mustard space, and took out a second-order ordinary-quality heart-protecting iron armor and a second-order ordinary-quality iron lock knee pads.

In addition to daily necessities, hooks, nutrient solution, crystal scales and maps, Wuyi's storage belt was obtained, as well as this heart protection iron armor and iron lock knee pads.

Wu Yi wears a full set of Tier 2 sophisticated equipment and a Tier 3 alloy armor. This Tier 2 ordinary quality heart and knee pads cannot be used, so it is not uncommon to store them in a storage belt for backup.

After Wang Xuan saw it at the time, he kept it in the Xumi mustard space without looking at it, and only got up at this moment to check it carefully.

This careful inspection really found the problem. Inside the armor, there was a thin layer of gold paper on the back.

If it wasn't for suspicion and careful inspection, Wang Xuan would not have noticed it at all.

With the discovery, Wang Xuan's heart skipped a beat, he first put the iron lock knee pads away, and then made sure that no one around them was paying attention to them. The thin gold paper was quietly torn off.

I don't know what material this gold paper is. It is only the size of a palm. It is very soft in the hand. It looks like paper, but it is much tougher than paper. Wang Xuan looked at the gold paper and saw four large golden characters.

"Book of Giants"

Seeing these four golden characters, Wang Xuan frowned slightly.

There is another line of small print below.

"Complete the Book of Giants ceremony, awaken the power from ancient times, open the door of immortality, and stand side by side with the gods."

Looking at this line of small characters, Wang Xuan's brows furrowed even more, because this line of characters was written so mysteriously that he strongly doubted its authenticity.

"Wake up the ancient power, open the door of immortality, and stand side by side with the gods, so big."

Wang Xuan was a little speechless. Could it be that Duan Chen, Yao Tiande and others chased and killed Wu Yi, and the real purpose was not to avenge Lan Lan, but for this Book of Giants?

In addition to these two lines of characters on this side, there are very exquisite patterns drawn around it. When you touch it with your hands, it is still a little embossed. Looking at the other side, there are also exquisite patterns all around, and a map is drawn with gold lines in the center. This map is very Strangely, if you shake the golden line slightly, the map will have a three-dimensional floating effect.

Wang Xuan squinted his eyes slightly. This three-dimensionally protruding map has an island in the center and sparkling water around it. Isn't this environment the Centipede Island?

My heart skipped a beat. Since the map of the Centipede Island was drawn on the Book of Giants, could it be said that what was written on it was true?

Look carefully at this map with a three-dimensional floating effect. The more you pay attention, the stronger the three-dimensional effect of the map. Gradually, Wang Xuan feels that in front of his eyes, the centipede island is completely floating, like a three-dimensional image. At the center of the three-dimensional Centipede Island, at the highest point, there is a downward vortex channel, and along the vortex channel down ~www.mtlnovel.com~ there is a palace suspended at the bottom of the island.

In this palace, there is a stone gate, and this stone gate is engraved with the exact same pattern as the gold paper. He immediately understood that this stone gate is the immortal gate written on the gold paper.

"If this book of giants is true, it does not mean that as long as you enter the deepest part of this centipede island, find this hidden palace below, and open this immortal gate, you will be able to awaken the ancient power and be able to stand side by side with the gods."

Wang Xuan took a deep breath and barely suppressed his beating heart. Although he didn't fully believe the words written on it, the Book of Giants was indeed magical. The map that was raised in three dimensions made people feel incredible.

Anyway, this stuff is amazing.

He can now be sure that Duan Chen, Yao Tiande and others are looking for Wu Yi for this golden paper.

"But it's strange. If they were for this golden paper, why didn't they mention it just now? At least they should find an excuse to ask for Wuyi's relic, or maybe they didn't know the existence of this golden paper? Or You think you are no match for us, so you show weakness and leave, and then go back and bring rescue troops to deal with us?"

Although it was not completely clear whether the book of giant gods mentioned on the golden paper was true, Wang Xuan understood that this thing must be extremely important. After reading it, he kept the map in his heart and immediately put it away.

"How is it? I feel that this thing is written too mysteriously, you won't believe it." Zhao Lei asked softly.

He had just seen the Book of Giants and the following line of small print, but he looked at the map from a different angle than Wang Xuan. This map was very strange. From a different angle, the effect was different.

The map did not appear to have a three-dimensional effect in his eyes. From his point of view, the map was a bit like a lake, and he could not tell that it was Centipede Island.

Chapter 123

Wang Xuan said: "I don't know either, anyway, no matter if this thing is true or not, now we are probably in big trouble."

Zhao Lei pondered slightly: "This paragraph Chen, Yao Tiande and others are nothing to be afraid of, unless they can find more powerful people, but if they really want this thing, then it's a big deal to give them."

"Never mind, let's try this centipede hunter mission first."

Wang Xuan stood up, his current strength is stronger than the average adult body, and with the blue crystal scales trump card, he is not very afraid of Duan Chen and others, even if the other party really finds more powerful people, desperately In World War I, it is hard to say who will kill the deer.

If what is recorded in this Book of Giants is true, then there is no need to be afraid to find the gate of immortality.

Looking up at the Centipede Island, the shape of the Centipede Island is similar to a huge pot lid, with short sides and a high center. Compared with the three-dimensional map that appeared in the Book of Giants just now, the entrance to the underground palace is on the Centipede Island. At the highest point, there should be a downward vortex channel.

Wang Xuan decided to use an excuse to complete the mission of the centipede hunter. He approached the central area of the centipede island to take a look. If there is a vortex passage leading to the bottom, it means that the records in the Book of Giants are very likely to be true.

"If the record is true, if you open the door of immortality, you can really stand by the gods, and you can leave this **** world?"

Wang Xuan also doesn't know what the gods mentioned above are mentioned in the above, but the gods in myths and legends are all open heaven and earth, and they are omnipotent and omnipotent. If you think about it, you must have an incomparably powerful ability, so it should not be difficult to leave this building world.

"Let's go." With this idea, Wang Xuan no longer hesitated, bypassed the pile of giant rocks in front of him, and started towards the center of Centipede Island.

The other seven naturally followed his lead.

There are no tall trees on this centipede island, all of them are piles of strange rocks, and there are sounds of fighting from time to time in the distance.

Wang Xuan took out the parchment that recorded the centipede hunters, and the task written on it, the first one was to hunt down a hundred silver-backed centipedes.

But now Wang Xuan's mind is all on the Book of Giants, and he doesn't care much about the centipede hunter's mission.

They walked towards the central area for about 100 meters. There was a rustling sound in the piles of strange rocks in front of them, followed by a flash of silver light, only to see giant centipedes crawling out of the cracks in these strange rocks.

These centipedes are about three or four meters long and have a silver line on their backs. They move very fast, so fast as lightning. When they appeared, because of the speed, they immediately rushed towards everyone with a foul smelling wind. come up.

As soon as Wang Xuan's eye of the illustrated book was opened, his information was immediately captured.

The silver-backed centipede is a four-star dangerous monster.

On this centipede island, the weakest monsters have reached four stars, and those who dare to enter here are at least adults.

"Everyone, be careful, these centipedes can spew poisonous juice!" Zhao Lei opened the Sacred Scar and immediately caught the special ability of these silver-backed centipedes that can spew poisonous juice, and was busy reminding them.

"This is a four-star silver-backed centipede, everyone be careful!" Wang Xuan immediately reminded.

Four-star danger level means that their strength is comparable to that of an adult body. Everyone's heart is tight, and they don't dare to be careless, and they show hatching beasts one after another.

Bai Yan launched the "Wizard's Blood Jet", which turned the witch's blood into a long rain of blood and sprayed it towards the silver-backed centipedes rushing up.

These silver-backed centipedes moved like the wind, and in the blink of an eye, at least a dozen of them rushed over. As Zhao Lei reminded them, they had just rushed in front of the crowd, opened their mouths, and sprayed green poison from them.

Tie Jun stood in front and raised the diamond shield to protect the front. Yu Shanshan opened the light mirror and opened a huge mask to protect everyone in it.

All the poisonous juice sprayed was blocked by the mask.

Zhang Haofei let out a roar, showing his skeleton arms, and rushed up.

Wang Xuan activated two metal tentacles and pulled them out.

It was the first time that they encountered more than a dozen four-star monsters, and everyone felt excited.

The encounter with a four-star monster before can make everyone excited and nervous.

The two metal tentacles Wang Xuan pulled out instantly hit the two silver-backed centipedes.

The two silver-backed centipedes screeched, and cracks appeared in the hard shell with silver stripes on the surface of the body, and green juice splashed out. However, the two silver-backed centipedes were only injured and were not killed. Their body shells were so hard. Can withstand Wang Xuan's metal tentacle attack.

They were in pain and screamed, and the two rows around them jumped into the air, spraying two green poisonous juices from their mouths, and madly rushed towards Wang Xuan.

Wang Xuan was slightly startled, the power of this silver-backed centipede was beyond his imagination.

Before he had time to think about it, he closed his hands together, and two metal tentacles wrapped around his arms along his hands, merging with the flesh and blood of both arms, and immediately formed two giant arms of beasts.

The strongest force erupted, and Wang Xuan swayed, narrowly avoiding the two poisonous juice attacks, and the giant arm of the demon beast in his right hand slammed into the mouthpart of a silver-backed centipede.

The silver-backed centipede's open mouth could not withstand the force, and it rotted immediately, bursting open together with its head.

Although it has a hard shell and can resist metal tentacles, it cannot stop the terrifying giant arm of Warcraft.

With one blow, the head of the silver-backed centipede was smashed, and a white scale with white light was harvested. After absorbing the energy of the white scale, Wang Xuan was refreshed and felt the energy in his body. The giant arm of the monster in his left hand followed closely blasted out.

With a loud bang, the giant arm left an afterimage in the air, and when it reappeared, it blasted the head of another silver-backed centipede that came up.

Killing two silver-backed centipedes in a row and harvesting two white scales with powerful energy, the scale energy of this four-star monster made Wang Xuan excited.

Bai Yan started to activate the special ability of the witch blood, but he soon discovered that the silver-backed centipede was immune to the special ability of the witch blood and was not affected.

Gu Manyao shouted, and stretched out his right hand, the demon chi mutated, as if it came alive, and volleyed into a silver-backed centipede.

The open mouthpart of this centipede was bitten by the demon chi, it roared, twisted its body desperately in place, swung its body, and suddenly swept Yu Shanshan on the other side.

Yu Shanshan groaned and fell out.

The witch blood failed, and more than a dozen silver-backed centipedes rushed up frantically, and everyone immediately felt a huge pressure.

Bai Yan's right arm and front chest were covered with a layer of blood crystals. He jumped up and waved the blood crystal giant sword, which severely injured a silver-backed centipede. He was also hit by the silver-backed centipede. Fortunately, the blood crystal protected him. The body, only pain but not hurt, the body swayed and fell back.

Tie Jun let out an angry shout, and the diamond shield he held in his right hand slammed to the ground, and a golden light faintly appeared on the surface, which was the fourth energy "heavy blow" he realized.

This blow was so powerful that it hit the head of the silver-backed centipede from behind, and only a thud was heard, and the head of the silver-backed centipede exploded, killing it instantly.

Li Haotian launched a two-meter giant arrow and successfully penetrated a silver-backed centipede, but he was also shot by the poisonous juice of another silver-backed centipede. The juice keeps corroding.

Eight people fought with more than a dozen silver-backed centipedes, and it was almost a face-to-face encounter. Except for Wang Xuanneng who killed two silver-backed centipedes in an instant, the remaining seven people killed three silver-backed centipedes, but several people were injured.

"Fuck, these silver-backed centipedes are really powerful, and they deserve to be four-star monsters." Zhang Haofei launched "Whirlwind Bone Claw" and just killed a silver-backed centipede, but was caught in the back by another centipede's claws. , even the armor on his body was cracked, and there was blood surging out from the cracked armor.

Zhao Lei used the "Holy Eye" and the "Cross Light" to successfully avoid the attack of a silver-backed centipede, and then used the "Cross Light" to hit its head, blasting the silver-backed centipede's head.

Wang Xuan maintained a terrifying speed, and a pair of monster arms shot out again, killing the third and fourth silver-backed centipedes.

Of the dozen or so silver-backed centipedes that had just rushed up, Wang Xuan killed four by himself, and the remaining seven teamed up to kill five, successfully killing most of the dozen or so silver-backed centipedes, and the remaining few were nothing to be afraid of. .

Everyone just breathed a sigh of relief, but they heard angry shouts coming from the front. Five people were running towards them at full speed. Behind them, they were chasing more than 30 silver-backed centipedes.

These five people wore Phoenix badges on their left chests. They belonged to the "Phoenix" people in the five major forces. Judging from the equipment they wore, they all had one or two pieces of Tier 3 alloy equipment, each of which was a powerful adult.

But no matter how strong these five people were, they encountered more than 30 silver-backed centipedes, and they were so frightened that they all fled.

Once surrounded by these thirty or so silver-backed centipedes, it would be a dead end.

"Not good!" Zhao Lei killed a silver-backed centipede, just took a breath, suddenly looked up and saw more than 30 silver-backed centipedes chasing five people rushing towards them, his face changed greatly, he couldn't help it Screamed aloud.

Gu Manyao, Zhang Haofei, Tie Jun, Li Haotian and the others all gasped and changed their expressions.

At this moment, everyone understands that the danger of this Centipede Island is far more terrifying than they imagined. You must know that everyone is only entering the edge of Centipede Island, and has not penetrated into the real hinterland at all.

The five-star difficulty centipede hunter mission was not something they were capable of completing.

Wang Xuan killed four silver-backed centipedes in a row, and absorbed the energy of four white scales in one breath. The white light in his right hand fluctuated violently. When he reached an adult body, he could only feel the excitement of beasts by killing such a dangerous four-star monster.

The power of the monster's giant arm is combined with his body strengthened by blue crystal scales, and even a silver-backed centipede with a four-star danger level can be crushed.

But at the same time, the physical energy lost by using the two giant arms of the monsters is also huge. With his now strengthened body, he can't support it for long. At this moment, he suddenly sees more than 30 silver-backed centipedes rushing towards them, stronger than Wang Xuan also changed his face slightly.

In Insect Town, Duan Chen and Yao Tiande are standing in the hall of the small building in a three-story building.

The hall was decorated with grandeur, but the two of them seemed a little restless.

In front of them stood a flamboyant young woman with heavy make-up, looking at the two of them, and pouted, "I said, Ziren went to Scorpion City the day before yesterday, but he said that he would be back around noon today, but what time will it be? It's not clear at the time, if you want to wait, just wait outside, I'm going to have a lunch break, it's inconvenient to keep you here."

Duan Chen said politely, "I know Sister Qingya, then we'll wait outside the door for a while."

After speaking, the two left the hall and came to the door.

This elegant woman closed the door unceremoniously.

The two of them looked at the closed door behind them with a slightly wry smile on their faces.

"Duan Chen, what do you want to do?" Yao Tiande said, "The boss has repeatedly told us to arrest the live one, but now that Wu Yi is dead, should we take his head for an errand?"

Duan Chen's face was also ugly, and he said, "People can't be resurrected from the dead, they are dead, what else can I do? I can only tell the truth. Speaking of which, the boss and Wu Yi were still such good friends before, and the companions who lived and died together. , I heard that we still came together from the second floor of the newcomer hall on No. 5, but I never imagined that now they have turned against each other and made such a fuss."

"Well, I don't know the specific reason. It seems that they followed a woman to Centipede Island together. After that, they had an accident and were attacked by terrible monsters. Almost all of them died. Only the boss and Wuyi survived. That's right, I heard that the woman they were following was from above."

Yao Tiande pointed upwards as he spoke, with a hint of mystery on his face.

"Above?" Duan Chen was taken aback and said, "Who did you listen to, you can't talk nonsense."

Yao Tiande said: "You can listen to it, but don't spread it indiscriminately. Anyway, it is said that after the woman's death, it caused a great disturbance. That is to say, after this incident, the eldest broke through the adult body, and he has today's status. Only the old people who have been here for a long time know about it, you came later than me, of course you haven't heard of it."

"I also heard from an old man who you have seen before."

"Who?" Duan Chen was a little curious.

Yao Tiande said, "Huang Tao."

"Huang Tao?" Duan Chen was startled, then thought for a moment before saying, "It turned out to be him. Didn't he leave here last month."

Yao Tiande snorted, a sad expression suddenly appeared on his face, and he murmured: "Yes, he came much earlier than us, when I came, he was about to leave, because he and I are fellow villagers, yes. I took good care of him, and he told me this before he left."

"Yao Tiande, you said, where did these people who will be forced to leave after half a year go?"

Yao Tiande suddenly shuddered and lowered his voice: "This matter is not for discussion, in short... If you can't break through the adult body within half a year, you will basically be hopeless for life. For such people, there will be other arrangements from the top, as for the end. Where it is, I don't know."

Duan Chen sighed and said, "I've heard a lot of rumors, some say that it was sent to the front line of the battlefield, some said that it was sent to the ground to dig some mines, and even more outrageous, it was said that the women sent some breeding to give birth to children. Men send it to feed something, and it will be eaten."

When Duan Chen said this, his face became a little pale, and he said: "This last rumor is the most terrifying, but it has become more and more true these days. It seems that many people believe it to be true. The power can't be suppressed."

The more Yao Tiande listened, the more ugly his face became, his lips were trembling slightly, and he whispered: "I heard it too, now you understand why so many people get drunk every day in that tavern, in fact, you only need to stay here on Centipede Island for ten days. In half a month, if you can't break through, you're basically hopeless... What else can you do except get drunk every day to anesthetize yourself?"

He then said slowly: "I heard Huang Tao say a terrible rumor, saying that this building is actually some indescribable existence that was born when the universe first opened. It fell to the earth, and those of us were sucked into it by it. In the time and space in the abdomen, it treats us as food, feeds us first, and then eats us when we are almost grown up. It is said that life outside the earth has already been eaten by it."

Duan Chen widened his eyes, looked at Yao Tiande and said, "Where did Huang Tao hear this rumor? It's really getting more and more mysterious, do you believe it?"

Yao Tiande shook his head and said: "I also think this rumor is not credible, it's too unbelievable, but I just don't understand why these people who can't break through the adult body will be sent away when they arrive in half a year, and they don't know where to send it, it's inevitable. People are apprehensive."

"I'm afraid we won't be able to break through the body. Listening to these various rumors that are not true or false, it is inevitable that I feel a little uneasy."

Duan Chen said: "Fortunately, we are the core members of Rakshasa, and we are covered by the boss. With the ability of the boss, we can continue to stay here even after half a year."

Yao Tiande smiled bitterly and said, "Yeah, so we have to be honest and obedient and not make the boss unhappy."

"But the situation in Bug Town is indeed getting worse and worse..."

They were sitting by the gate chatting without a word, and suddenly saw a man riding a giant mechanical wolf in the distance, rushing towards here at a very fast speed.

When they saw it, they stood up immediately with awe on their faces.

This is a twenty-seven or eight-year-old man, with a pale face and a habitual smile on his face. His appearance is not ugly, but his eyes are a little longer and narrower.

He was wearing a Tier 3 alloy suit all over his body, riding a giant mechanical wolf, running all the way. Many people saw it from a distance and were busy dodging, and no one dared to block him at will.

The giant mechanical wolf led him to Duan Chen and Yao Tiande, and stopped in front of the gate of the three-story building.

"Boss." Duan Chen and Yao Tiande saluted respectfully.

With a smile on his face, the man rolled over to the ground, and with a wave of his left hand, the giant mechanical wolf made a screeching sound, and soon it shrank into the heart of a mechanical beast, which he tucked into his waist and tied inside the intermediate storage belt ~www.mtlnovel.com~ go.
"He opened the door and walked in."

Duan Chen and Yao Tiande hurriedly walked in.

"Ziren, I haven't come back for a few days, I want to die." The beautifully dressed Qingya reappeared, greeted him with a look of joy and sorrow, and threw herself into the man's arms.

Wang Ziren laughed, reached out and patted her plump buttocks hard, and said, "Okay, you go upstairs, I want to talk to them about something."

Qing Ya was very obedient and obedient, she hummed and went upstairs obediently.

There were only the three of them left in the hall, Wang Ziren sat down and said, "You came to me, it's about Wu Yi? By the way, where's Lan Lan?"

Duan Chen and Yao Tiande hummed together, then looked at each other, Yao Tiande said, "Lan Lan is dead."

Wang Ziren was stunned, sat upright, and said, "She died? Was it killed by Wu Yi?"

"Yes." Yao Tiande recounted in detail what happened in the store in the trading area last night, including how they blocked Wu Yi, including Wang Xuanba, including how Lan Lan shot, was killed by Wu Yi, and their The matter of meeting Wang Xuan and eight people on Centipede Island today has been discussed in detail.

The smile on Wang Ziren's face slowly disappeared after hearing that Wu Yi was dead. The blue veins on the backs of his hands were beating slightly. He was obviously very uneasy, but he was barely restraining himself and listened to him quietly.

When Yao Tiande took out Wu Yi's head from the storage belt and placed it in front of Wang Ziren, he suddenly flashed and punched out at the same time.

With a "bang", he shot too fast, Yao Tiande and Duan Chen didn't have time to dodge, blood spurted out of their mouths, their chests and their armors collapsed into a big pit, and their bodies flew upside down, smashing two pieces. The chair fell heavily to the ground.

Chapter 124

Duan Chen and Yao Tiande fell to the ground, their mouths full of blood, and Wang Ziren hit them hard with just one blow.

Wang Ziren stepped forward and stepped on Yao Tiande's collapsed chest. With a little force, blood bubbles rushed out of Yao Tiande's mouth.

Yao Tiande and Duan Chen both had expressions of fear and pain on their faces, but they did not dare to struggle and resist.

"Two wastes, I told you many times that you want to catch the live ones, but Wu Yi died and was killed by a few outsiders."

"Since these people killed Wu Yi, they must have gotten his relics. You didn't want Wu Yi's relics back?"

Wang Ziren stared at Yao Tiande, who was trampled under his feet, and then looked at Duan Chen. Seeing the faces of the two were ashen, he thought that he had hunted down Wu Yi himself for a long time and failed, and after a long time, he handed it over to Yao Tiande. Together with Duan Chen and Lan Lan, they were the main team responsible for arresting Wu Yi, but they didn't tell them too many details. When these people saw Wu Yi's death, they didn't even know what Wu Yi's relics were. .

Slowly retracting his feet, Wang Ziren took a breath and said, "Get up."

Yao Tiande and Duan Chen were in a cold sweat, and after hearing Wang Ziren's words, they felt that they had come back to life after turning around in front of the gate of hell.

"Wu Yi can kill Lan Lan, and it has nothing to do with these people. If it wasn't for these people who influenced Lan Lan, she wouldn't die. Just because of this, she couldn't let them go."

Wang Ziren paced slowly in the hall, and seemed to have finally found a reason to attack Wang Xuan's eight people, and finally nodded slightly: "Since you are eight adults, it is understandable that you are not defeated, but Lan Lan As my most beloved subordinate, I have no choice but to repay this hatred, so I will accompany you on a trip to meet these eight newcomers."

Wang Ziren's words made Duan Chen and Yao Tiande have a hint of confusion deep in their eyes, but they didn't dare to ask any more questions, they just slowly stroked their chests and stood up.

Lan Lan and them were of equal status. They were all subordinates to Wang Ziren. They also knew that in Wang Ziren's heart, the three of them were only equivalent to three obedient dogs.

Lan Lan died today, and why did Wang Ziren go so far as to take revenge for her?

Although Duan Chen and Yao Tiande were not lightly injured just now, the good thing is that they are both adults and their recovery ability is amazing. come over."

Wang Ziren waved his hand and said, "No need, just the two of you will be fine with me. To deal with eight newcomers, you still need to use labor and teachers to move the crowd? Let's go."

As soon as he finished speaking, he headed outside.

Duan Chen and Yao Tiande glanced at each other, and both saw a trace of fear in each other's eyes.

Today's Wang Ziren is a bit abnormal. There are eight people on the other side, but he doesn't want to bring more people, but only takes them two. This is completely different from Wang Ziren's usual style.

Could it be that he wanted to kill Wang Xuan's eight people, and then kill them both together?

So, why don't you want to bring more people?

For some reason, the two seemed to have the same mind, and they thought of this terrible answer at the same time.

"Let's go." Wang Ziren usually rides a giant mechanical wolf when he goes out, but today he did not take out the giant mechanical wolf, just let Duan Chen and Yao Tiande take the lead.

The two bowed their heads slightly, not daring to say anything more. While clutching their still unrecovered chests, they trotted towards the south gate.

Wang Ziren didn't say a word, his face was gloomy and uncertain, no one knew what he was thinking, and silently followed behind.

Centipede Island, Wang Xuan and eight people have just killed nine silver-backed centipedes. They don't want to see five people who belong to "Phoenix" fleeing towards them. Behind them, they are chasing more than thirty silver-backed centipedes. Centipede.

Qiang Yu Wang Xuan also felt a little tingling in his scalp when he saw so many silver-backed centipedes.

Four-star monsters are comparable to the average adult strength. Bai Yan's witch blood is ineffective against them. They feel difficult to fight against so many monsters.

"Wang Xuan, shall we escape?" Zhao Lei couldn't help shouting, thinking that these five people could escape, and they turned around and ran away together, which is not ashamed.

"Escape for what?" Wang Xuan took a deep breath, swayed his body, and rushed forward to meet the two silver-backed centipedes. With so many silver-backed centipedes appearing, it was a great opportunity to hunt for energy and he naturally wouldn't miss it.

If the eight of them can join forces with the five who escaped, it will not be difficult for them to fight against more than thirty silver-backed centipedes with thirteen people.

With a low roar from Wang Xuan, he exploded his entire body strength to the limit, a pair of monster beast arms volleyed out, and the terrifying green juice splashed out, the two silver-backed centipedes could not dodge his attack at all, and their heads burst open in an instant. Immediately killed.

After absorbing the energy of two white scales again, Wang Xuan's body was like lightning, and he rushed towards the remaining three silver-backed centipedes.

The people who were a little panicked at first saw Wang Xuan's great power and even killed two silver-backed centipedes, and they all calmed down.

"Don't run away, we will definitely kill them together!" Zhang Haofei shouted loudly towards the five adults who rushed in front of him.

The five people saw that Wang Xuan killed the silver-backed centipede in a row, and saw that the dozen or so silver-backed centipedes surrounding them were about to die in the blink of an eye. After hearing Zhang Haofei's words, they all stopped and started to turn around to fight back.

Gu Manyao, Zhao Lei, Zhang Haofei, Bai Yan, Yu Shanshan, Tie Jun, and Li Haotian rushed up one after another, and immediately joined with these five people, a total of twelve adults joined forces, and all

kinds of strongest attacks were sent out one after another. Immediately stabilized the battle, even the impact of more than 30 silver-backed centipedes was blocked by them.

And Wang Xuan, the most terrifying among the crowd, rushed into the group of silver-backed centipedes alone, the energy in his body was boiling, and every time a pair of monster arms waved, leaving an afterimage in the air. Blast another silver-backed centipede.

Just as the silver-backed centipede jumped into the air, it was hit by the belly of the monster's huge arm, and immediately broke from the middle, bursting into two pieces.

Wang Xuan, who has a pair of giant arms of monsters, is simply unstoppable. Seeing the changes on the faces of these five adults from "Phoenix", his heart is horrified.

They almost doubted whether Wang Xuan was a strong man who had broken through the adult body, otherwise how could he be so powerful?

Although Wang Xuan's giant arm of demon beast is powerful, it consumes too much physical energy. After he killed more than ten silver-backed centipedes in a row, he began to feel tired.

Although the white light in his right hand absorbed the white scales of more than ten silver-backed centipedes, the energy fluctuated violently like boiling, but his physical energy could not be recovered.

At this moment, more than 30 silver-backed centipedes that had rushed up had been killed by everyone, and the remaining 20 silver-backed centipedes were killed by Wang Xuan, and there were faint signs of defeat.

Although Gu Manyao, Zhang Haofei and the others were injured from time to time, fortunately they were not seriously injured.

Seeing that the silver-backed centipede gradually failed, everyone became more and more excited.

This time, the silver-backed centipede was hunted, and the white scale energy of this four-star monster was continuously absorbed. Everyone gained a lot and felt excited.

Wang Xuan felt exhausted, took a breath, opened the pocket on the left, and took out the heart of the mechanical beast.

The heart of the mechanical beast and the goblin scales fused into his body, the mechanical metal extended out, attached to the scales on his body, forming a second layer of defense, on the shoulders on both sides, each stretched out a Only mechanical claws, of course, the defense that Xiaojiao has enhanced for him is not the most important, what he needs is Xiaojiao's initial powertrain, which can enhance his physical fitness after fusion with him.

Feeling a powerful force pouring out from the heart of the merged mechanical beast, his body that was dry and about to be exhausted immediately gained a new physical nourishment, Wang Xuan's spirit was refreshed, and he immediately jumped out again, and let out a sigh of relief. , the giant arm of the beast left an afterimage in the air, and the next moment, only a bang was heard, the head of a silver-backed centipede burst open, and the green juice mixed with the broken shell fragments splashed together.

Another silver-backed centipede was killed. Wang Xuan only felt that his physical strength was turbulent. This physical strength seemed to exceed his original physical strength, which made him feel excited.

With enough physical support, plus the extra layer of defense covered by Xiaojiao, Wang Xuan can almost ignore the poisonous juice sprayed by the silver-backed centipede. Silver-backed centipede.

When the last silver-backed centipede was killed by him, Wang Xuan only felt the white light in his right hand fluctuate violently. In this battle, nearly fifty silver-backed centipedes appeared in the front and back, and he killed almost half of them by himself. , the remaining twelve people killed the other half.

Looking at the corpse of the silver-backed centipede all over the ground, Wang Xuan shook his body, put away the giant arm of the beast, and fell directly onto a boulder.

He was released from the fusion state.

The continuous explosion of the giant arm of the beast, each blow is almost the strongest blow, the pressure on the flesh and bones of the body is unimaginable, although his body has undergone a trace of energy enhancement from the blue crystal scales, but it is also unbearable for a long time. break out.

Xiaojiao peeled off his body and turned into a mechanical dog again. It immediately guarded Wang Xuan, with its metal tail raised high, in a fighting stance to prevent anyone from approaching and hurting Wang Xuan.

Sitting down to rest, Wang Xuan was almost too tired to move his little finger, but his heart was excited.

This is the first time that I have been combined with Xiaojiao in battle. With the powerful physical strength obtained by the initial state powertrain, I can use a pair of monster arms without any worries. This feeling is really cool, but unfortunately the side effects afterwards Make him feel a little uncomfortable now.

Zhao Lei, Gu Manyao, Zhang Haofei and others also stopped. Everyone was injured to some extent. Looking at the corpses on the ground, several people laughed. This was a group of four-star monsters, and they were all killed by them. , There is still a sense of achievement in the hearts of everyone.

Those five adults from Phoenix looked at Wang Xuan with awe in their eyes.

Now they can see that Wang Xuan has not yet broken through the adult body, but since he has not broken through the adult body level, he was able to kill so many silver-backed centipedes, which is really rare, and his strength and potential are even more awe-inspiring.

These five people thanked Wang Xuan and the others, and then reported their names and asked Wang Xuan and others their names. Originally, they were thinking about whether they could temporarily form a team with Wang Xuan and the others to hunt silver in this area. Back centipede, this is a rare opportunity, and they don't want to miss it.

But hearing Wang Xuan said that they would continue to go deeper into Centipede Island, which shocked them. The silver-backed centipede in this area was already so terrifying, would it be worth it to go deeper?

They just went a little deeper, only to attract more than 30 silver-backed centipedes. Now they don't dare to go further, even if they follow Wang Xuan. In the end, they can only leave with regret and leave, ready to go. On the fringes, look for some lone or fewer silverbacked centipedes to hunt.

While resting, Wang Xuan took out the parchment and found that the content of the centipede hunter's quest had changed a bit. The words "21/100" were added after the quest to hunt a hundred silver-backed centipedes.

"It seems that since the parchment is in my hand, this quest only counts the number of silver-backed centipedes I kill."

Wang Xuan frowned, which meant that he needed to kill a hundred silver-backed centipedes alone.

Each silver-backed centipede has a crystal scale under its abdomen, which will automatically peel off after death.

Just after the five people left, they did not go to pick up the crystal scales. They were satisfied that they could kill so many silver-backed centipedes with Wang Xuan and others, and they did not dare to pick up the crystal scales greedily.

Everyone rested for a while, and the injuries slowly recovered. They began to pick up these crystal scales. A total of 48 crystal scales were harvested and handed over to Wang Xuan.

Wang Xuan received the crystal scales, and he now has 1055 crystal scales.

From time to time, there were sounds of fighting and roars in the distance. This was another team hunting silver-backed centipedes.

While resting, Wang Xuan raised his head and looked at the highest point in the center of Centipede Island in the distance, with a solemn expression on his face.

They have just approached the edge, and the silver-backed centipede is already so terrifying. If they go deeper, will they encounter more silver-backed centipedes?

It seems that it is not easy to break into the center of this centipede island, but Wang Xuan still wants to try it to see where he can go in the end.

After resting and recovering all his physical strength, Wang Xuan took the little girl and moved his siblings. He faintly felt that his physical strength had increased. It seems that he was constantly fighting against powerful monsters, especially draining all the physical strength in his body, and then he recovered. Such constant stimulation of potential is also a way to strengthen yourself.

"Let's go, let's move on." Wang Xuan looked at the seven people, and everyone stood up one after another.

"Wang Xuan, why do you feel like you've been beaten by chicken blood? If you go further in, I'm afraid you will encounter more silver-backed centipedes." Zhao Lei looked at him in surprise. He hadn't seen Wang Xuan like this for a long time. Excited performance.

Wang Xuan smiled slightly and said, "It's okay, I really can't fight us and come back. Just relying on these silver-backed centipedes can't really threaten us."

Zhao Lei smiled and said, "That's right. I feel like I just fought for a while. Now that I have recovered, it seems that my physical strength and strength have improved, especially the control of various abilities is more precise."

Gu Manyao nodded and said, "Yes, it seems that we have to fight against powerful monsters before we can become stronger."

Before Bai Yan's blood witching ability, even if they encountered monsters of the same level, after the witch blood was reduced, they became less powerful than everyone else. In this way, although everyone hunted monsters easily, but there was no pressure, everyone also It is difficult to get further improvement.

Everyone showed their hatching beasts, Wang Xuan still took the lead, Tie Jun followed closely, Gu Manyao and Zhao Lei were on the left and one on the left, and Li Haotian belonged to the long-range attack and lived among the crowd.

To prevent being surrounded by a large number of silver-backed centipedes, although everyone pushed forward, they did not go fast.

Everyone jumped forward on the strange rocks on Centipede Island, and soon saw a team of eleven people in the distance. These eleven people are very powerful and cooperate with each other tacitly. Obviously, they are not just promoted. The newcomers, who wear yellow scarves on their heads, belong to the "dynasties" of the five major forces. These eleven people form a circle and are fighting with groups of silver-backed centipedes around them. There are already many silver-backed centipedes on the ground. corpse.

Wang Xuan looked at it from a distance, and there were more than a dozen silver-backed centipedes still alive, and more than ten silver-backed centipedes died on the ground.

These eleven people can withstand the siege of more than twenty silver-backed centipedes, and their strength is not weak, especially three of them are extremely powerful, and they are the best among adults.

Everyone continued to go in, and soon saw a team in the distance. This team had more people, there were fifteen people in total. These fifteen people belonged to the "Justice League" people. Together, they also fought against twenty people. Multiple silver-backed centipedes.

"It seems that there are a lot of people in the team here." Zhang Haofei muttered.

Zhao Lei said: "Of course, these silver-backed centipedes are too strong. Each of them is comparable to an adult. There are dozens of them in a group, and there is not a sufficient number of adults. Surrounded by a group of silver-backed centipedes, I'm afraid that there will be more bad luck than good luck."

Gu Manyao glanced at Wang Xuan who was walking in front of him, and said, "We have Wang Xuan with us, otherwise we wouldn't dare to go deep here because of the number of people we have now."

Wang Xuandao: "Gu Manyao, don't hold me back, you guys just broke through to adulthood just now, I think as long as you pass a few rounds of fighting and training, everyone's strength will be further improved, there are so many here. Silver-backed centipede, we have no shortage of breakthrough energy, and only when we really break through into adulthood can we truly stand firm in this insect town."

As he spoke, he thought of the female captain of the patrol team riding a unicorn. When he saw her before, he had a feeling of being suppressed instinctively. He felt that at least his strength had to reach the level where he was no longer afraid of this woman. It can be said in insect town.

Zhao Lei said: "Then Yuan Xiao said that it is difficult to break through into the body. They haven't broken through for a long time, and they don't know if what they said is true or not."

Gu Manyao said: "They shouldn't have to lie to us. Maybe the breakthrough after adulthood requires not only enough energy, but also something else. He said that on average, only one or two out of ten can break through, so there are eight of us. , it is estimated that only one or two can make it."

Zhao Lei smiled and said, "This is not right. If we say that we need to look at our talents to break through into an adult body, in case all eight of us are top talents, it is normal for all eight of us to make breakthroughs. It is only one or two breakthroughs out of ten on average. It doesn't mean that for every ten people, there can only be one or two breakthroughs."

Wang Xuan smiled and said, "If all eight of us can break through into the body, then it will be amazing. Then we will simply merge these five major forces together."

Chapter 125

Zhao Lei's eyes lit up and said: "Wang Xuan, if you have this idea, we will support you with all our strength. I think you can definitely do it. If you really merge these five forces, then this insect town thinks we are the leader."

Wang Xuan laughed and said: "I just said casually, in fact, I am not very interested in this insect town, do you still want to stay here for the rest of your life? What I want most now is to find out what is going on in this building, How do we get out of here?"

Zhao Lei was disappointed when he heard Wang Xuan say this.

Gu Manyao said: "Speaking of which, have you ever thought that there are a lot of people here long before us. We were trapped in the underground parking lot of Longmao Plaza. Where did these people come from? Could it be that it happens all over the world? Something like the Longmao Plaza parking lot? And these people are earlier than us."

Wang Xuan glanced at her and said, "Remember that the elevator we came out was No. 10, and there are nine other elevators. I was thinking, if the No. 10 elevator we took represents Longmao Square, it means There are at least nine other places like that."

"It's scary to think about it. I've been thinking a lot these days. What is the real face of this building with nine floors above ground and three floors underground? It's definitely not Longmao Plaza anyway." Gu Manyao smiled bitterly and shook his head.

"Wang Xuan, you said that after Yao Tiande and the others go back, will Wu Yi leave this matter alone, or will they come to us again?"

Wang Xuan said: "I don't know about this either, but this Centipede Island is not small, and it will not be so easy for them to find us again."

When he said this, he suddenly stretched out his right hand, and the metal tentacles wound up along his right arm.

"Come on." Wang Xuan sighed, but saw a "rustle" sound among the piles of strange rocks in front of him, and silver-backed centipedes appeared one after another.

They opened their mouthpieces, made a slight noise, and the two rows of footsteps sprinted towards them at an extremely fast speed.

At a glance, the number of silver-backed centipedes that rushed out of this batch exceeded twenty.

Everyone's heart tightened, but they were not afraid, but followed Wang Xuan to greet him without hesitation.

With the previous experience, everyone dealt with it more calmly this time. Yu Shanshan first opened the mask to resist the venom sprayed by these silver-backed centipedes.

These venoms were completely blocked by her mask. Wang Xuan's arms showed the giant arms of the beast, and his body was like an arrow from the string. Hit the head of a silver-backed centipede, followed by the left arm, and headshot the other silver-backed centipede.

Instantly killed two silver-backed centipedes, Bai Yan jumped forward, with blood crystal protection on his chest and back, he was not afraid of the venom and attacks of these silver-backed centipedes, and the blood crystal giant sword formed by his right arm volleyed down.

A silver-backed centipede screeched and blocked it with its feet.

With the previous experience, Bai Yan swayed his body to avoid the opponent's footsteps, and inserted the blood crystal giant sword into the open mouthpart of this silver-backed centipede. The blood crystal giant sword that came out splashed out.

Gu Manyao released the demon chi, which let go and turned into a black dragon two or three meters long. It looked like a living creature. It slammed into a silver-backed centipede and burrowed into its mouthparts.

The head of this silver-backed centipede immediately began to swell from its mouthparts, and the crowd looked extremely strange and terrifying as they watched the monster chirped into its body along the silver-backed centipede's mouthparts.

Soon the silver-backed centipede was burst open from the inside, and the monster chi was bursting out of its body.

Zhao Lei swayed, and under the holy eyes, he could accurately grasp the attack and movement trajectory of these silver-backed centipedes, avoid their attacks, and then launch the holy light of the cross to strike from the air.

Everyone took action one after another, using various abilities, and they were much more proficient than before. Only then did everyone truly exert the true strength of the adult hatching beast.

Although Wang Xuan killed two silver-backed centipedes in one face-to-face, everyone joined forces and also killed four of them. Compared with the previous result, where Wang Xuan killed almost half of them by himself, the strength of everyone was obviously greatly improved.

When Wang Xuan killed four silver-backed centipedes, the crowd had already killed eight of them, and more than twenty silver-backed centipedes had already been killed by the eight of them in the blink of an eye.

Half of the silver-backed centipedes were killed, and the remaining half of the silver-backed centipedes were nothing to fear, and the crowd became more and more brave and rushed up.

Wang Xuan felt the energy in his body boiling, especially the energy in the white light in his right hand fluctuating violently.

As he continued to absorb the white scales of the silver-backed centipede, he had always felt that in the white light like a bottomless abyss, he finally clearly felt that the energy was gradually filling it.

With a clear mind, Wang Xuan understood that according to this speed, within today, he would be able to fill up all the energy in the white light and hit the fifth higher form of the hatching beast.

What is the fifth form above the adult body, and what kind of power will it have?

Wang Xuan was very eager.

He kicked his feet on a boulder, and he rose into the air like a goshawk swooping at a rabbit. He swung out a giant arm of a one-meter-long beast, without a single sound, facing a silver-backed centipede that raised its head and wanted to spray poisonous juice. Brain exploded.

Wang Xuan fell to the ground, his body collided, and the left arm that was retracted, like a white crane's wings, swept the head of another silver-backed centipede.

The two silver-backed centipedes were killed by him, Wang Xuan turned his head and saw Yu Shanshan on the other side suddenly shouting, a faint layer of light appeared on the surface of her body, like a mirror, and a silver-backed centipede shot onto her. The green poisonous juice was actually bounced back by this layer of light.

This is the fourth ability that Yu Shanshan has mastered after being promoted to adulthood, "mirror reflection".

"Mirror Reverse" bounced the poisonous juice of the silver-backed centipede back, and she followed suit, and the two-foot lightsaber in her right hand stabbed the silver-backed centipede's open mouth to the end.

With the constant fighting, Yu Shanshan's fighting ability is also gradually growing.

Li Haotian stood in the crowd, a two-meter-long light arrow condensed on the Orion bow, seized the opportunity of a silver-backed centipede to lift its body and wanted to attack the iron army, and shot the two-meter light arrow out, instantly piercing through it. Belly of the silver-backed centipede.

The two meters of light arrows were so powerful that they exploded from them, instantly blowing the silver-backed centipede into two pieces.

Soon, the twenty-two silver-backed centipedes were all killed by everyone.

Wang Xuan killed eight by himself, while Gu Manyao and Zhao Lei joined forces to kill fourteen. Everyone looked at the corpses of twenty-two silver-backed centipedes on the ground and looked at each other with excited expressions on their faces.

In this battle, everyone was hardly injured, and they could feel that their strength had improved significantly.

Wang Xuan opened the parchment and saw that there were 29 silver-backed centipedes hunted on it.

Everyone picked up twenty-two crystal scales from the ground, and now the number of crystal scales in Wang Xuan's possession has become 1,077.

Everyone rested for about ten minutes, and felt that the physical strength that had just been used for various abilities had recovered, and immediately continued to go deeper.

Soon they saw a group of thirteen people gathered in front of them. There were a group of corpses of silver-backed centipedes on the ground around them. They were sitting around a boulder to rest.

They looked up and saw the eight Wang Xuan who appeared, and couldn't help but take a few more glances.

There are almost no teams that dare to go deep into this area with less than ten people. The more people go in, the more people in the team. In the face of these four-star monsters that appear in groups, everyone can only rely on more people to fight. .

Wang Xuan saw that among the thirteen people, seven were wearing red belts and belonged to the Rakshasa, and the other six were wearing yellow turbans on their heads, and they were "Dynasty" people.

Apparently the two teams were put together on a temporary basis to hunt the silverback centipede.

The thirteen people looked at Wang Xuan's team of only eight people, and they continued to go deeper, and they all admired their courage.

"There will be more silver-backed centipedes in there. There are not many of you, so it's best not to go in."

Among the thirteen people sitting, there was a middle-aged man in his 40s who seemed to have a more charitable face. Seeing that Wang Xuan and the others were still walking inside, he couldn't help but remind him.

Wang Xuan looked over and knew that the middle-aged man was kind, so he smiled and said, "Thank you eldest brother for reminding us, we are just going to have a look, and if the situation is not right, we will turn back."

The middle-aged man shook his head and said, "You guys, be careful." Seeing the expressions of the eight people, he knew that he couldn't persuade him, so he stopped talking.

The thirteen people sitting in the rest are watching Wang Xuan and eight people go up along these strange rocks. The central area of Centipede Island is the highest, and now Wang Xuan and the others are heading towards the central area of this island.

The speed of the eight people was very fast, and after a while, they went forward and penetrated 100 meters. Suddenly, a rustling sound was heard, followed by a foul smell. In the gap formed by a large number of strange rocks around, a silver-backed centipede appeared, especially if it was not facing the front. In the distance, a large cave formed by a few strange rocks looks like a centipede's lair, from which swarms of silver-backed centipedes emerge. Among these silver-backed centipedes, there are even larger centipedes.

These centipedes are larger than the silver-backed centipede, with two giant crab-like pincers growing in front of them, and they look more ferocious than the silver-backed centipede.

Wang Xuan opened the eyes of the illustrated book and immediately captured their information.

"Name: Giant Claw Centipede, Race: Zerg Collateral, Danger: ★★★★★, similar to Silverback Centipede, Giant Claw Centipede is also an indigenous centipede living on Centipede Island, they can't spray venom like Silverback Centipede, But it has a pair of powerful pincers, which can easily break a small tree, and the danger is comparable to that of a silver-backed centipede."

Looking at the information, this giant pincer centipede is a four-star danger like the silver-backed centipede. They are mixed with the silver-backed centipede, surging out of the cave, and surrounded by

a fan. In the blink of an eye, there are at least more than 30. centipedes, including both the silver-backed centipede and the giant pincer centipede.

"Wang Xuan, do you want to continue?" Zhao Lei asked. There were more than 30 centipedes appearing all at once, and he was a little hesitant, especially the giant pincer centipede appeared among them.

Wang Xuan once again showed a pair of giant arms of demon beasts and said, "Those are called giant pincer centipedes, and they are also four-star dangerous. They are comparable in strength to silver-backed centipedes. There is nothing to fear!" go.

He hunted the silver-backed centipede to complete the task of "centipede hunter", and at this moment, he mainly selected the silver-backed centipede to hunt.

Bai Yan fired the "Wizard Blood Jet" again. This silver-backed centipede contains highly poisonous poison, so maybe it can be immune to witch blood. Now he wants to see if this giant pincer centipede is also immune to witch blood.

Bai Yan spewed a large amount of blood rain, contaminating the silver-backed centipede and giant pincer centipede that rushed up. Under his control, these witch blood began to infiltrate into the two kinds of centipedes.

Silver-backed centipedes have strong resistance and immunity to witch blood, even if witch blood penetrates, Bai Yan can't control their perception.

But the giant pincer centipede was not. Bai Yan soon discovered that his witch blood could affect the giant pincer centipede.

Under the influence of his witch blood, these giant pincer centipedes holding giant pincers and rushing viciously became slow immediately. The giant pincer centipede, which originally had a four-star danger level, immediately dropped to three-star danger to them. Half.

"Bai Yan, can your witch blood affect this giant pincer centipede?" Zhao Lei was surprised and delighted when he saw this detail immediately.

Bai Yan nodded, swung the blood crystal giant sword, and slashed towards a giant pincer centipede that was slowing down.

Among the more than thirty centipedes, half of the giant pincers were affected by the witch blood and slowed down. As a result, the threat of these centipedes to everyone was not as great as that of the twenty or so silver-backed centipedes just now.

Everyone was overjoyed and rushed up.

Wang Xuan launched the giant arm of monsters and killed four silver-backed centipedes in a row. Everyone concentrated on attacking these giant pincers. With the advantage of speed, these giant pincers could not threaten them, and soon more than a dozen giant pincers Kill them all, and then join forces to attack these silver-backed centipedes.

This time Wang Xuan killed seven silver-backed centipedes, and all the remaining silver-backed centipedes and giant pincers were killed by Zhao Lei's seven people.

"This feels very cool. Sure enough, the blood of witchcraft can be effective, it will be much easier." Zhang Haofei laughed: "If there are more giant pincers, let's kill it, and I'm afraid it won't take long, we will kill it. get enough energy."

Wang Xuan had just absorbed the energy of the seven white scales again, and felt the feeling of energy filling in the white light in his right hand getting stronger and stronger. He understood that as long as he killed a few more silver-backed centipedes, he wanted to break through the needs of becoming an adult. energy is enough.

He was also very curious, if he needed enough energy, would he be able to directly break through into the adult body.

Or is it really like what Yuan Xiao said, it is very difficult to break through into the adult body, and there is only a one-two-tenth probability.

Everyone took a rest while picking up crystal scales, a total of 32 pieces.

Wang Xuan put these crystal scales into his pocket. At this moment, he heard the sound of fighting in the distance, and turned to look, but found three people appeared a hundred meters away, trapped in a group of silver-backed centipedes. surrounded.

"Three people dare to come?" Everyone noticed it, and they were all taken aback.

There were nearly twenty silver-backed centipedes surrounding the three people. Wang Xuan saw that one of them was holding a familiar metal stick. The surface of the metal stick was faintly flickering, and he recognized it immediately.

This is Yao Tiande.

Another person, controlling the earthen shield in his hand, changed the earthen shield to the size of a round table, and threw it towards a silver-backed centipede that came up. With a loud bang, the earthen shield exploded, and the head of the silver-backed centipede was thrown. Fried to smithereens.

This is Duan Chen.

Yao Tiande and Duan Chen appeared. Although they were both adults with strong strength, they were all dead and dead just because they were surrounded by the silver-backed centipede.

But everyone's eyes were attracted by the one among them.

This is a man of about 27 or 8 years old wearing a full set of Tier 3 alloy equipment. He stretched out a right hand and controlled a long sword with a metallic luster in the air.

Everyone looked at him with a wave of his right hand, and the long sword flew out from the air, and swept over the head of a silver-backed centipede that was rushing towards him. The head of the silver-backed centipede suddenly cracked from the middle. Come on, a lot of green juice splashed out.

He kept speeding, striding forward, and the long sword controlled by his right hand kept flying out, slicing off the head of the silver-backed centipede that was standing in front of him. The heads of the centipedes cut by the long sword were split open one by one, and these four-star silver-backed centipedes were vulnerable to a single blow in front of this man.

"Good guy..." Zhang Haofei was stunned and took a deep breath.

Wang Xuan's face was hard to look at.

Seeing Yao Tiande and Duan Chen accompanied by such a powerful character suddenly appear here, and they are heading in their direction, he is not a fool, he immediately guessed seven or eight points.

Zhao Lei's buttocks were on fire, he jumped up and shouted, "Let's go, this person must be coming for us, damn, we guessed it, this Yao Tiande is really going back to rescue soldiers, they don't want to leave us alone."

Seeing that this person controls a sword and easily kills the silver-backed centipede in an instant, everyone can't see it. This is definitely a powerhouse that surpasses the adult body. Otherwise, even if he is stronger than Wang Xuan, he will not be able to kill the silver-backed centipede so easily. .

These nearly twenty silver-backed centipedes could not stop the man in the slightest. He saw his figure like electricity, and a few flashes in a row brought the distance between the two sides to within 80 meters.

Zhao Lei, Zhang Haofei, Gu Manyao and others jumped up one after another, and their first reaction was to run away.

Wang Xuan was sitting on a big rock and didn't move. He could understand the man's terrifying speed. Now the two sides were only less than 100 meters apart. Lost.

"Could it be true that the records in the Book of Giants are true? Otherwise, how could they be so persistent... Centipede Island is so big, and I deliberately went to a remote place, so Yao Tiande and Duan Chen chased us so easily? Could it be that they have moved on us? What hands and feet?"

Wang Xuan pondered and said in a deep voice: "Don't be nervous, just calm down, if it really comes at us, we will be killed by him one by one if we escape, as long as we don't panic, no one can easily kill us. "

Followed softly: "Bai Yan, remember your witch blood."

Bai Yan nodded and stood beside him, his muscles tensed slightly. Bai Yan understood that if he really did move his hands, it would be extremely important whether he could cover the opponent with witch blood jets as soon as possible~www.mtlnovel.com~Tie Jun , Yu Shanshan, remember to cover Bai Yan. "

Wang Xuan quickly ordered two words, Tie Jun and Yu Shanshan nodded one after another, everyone showed a nervous look, and stood around Wang Xuan. At this moment, only Wang Xuan was still sitting on the stone, seemingly calm and composed, but in reality His heart was beating violently, and all the muscles in his body were stretched to the limit, ready to explode with the strongest force at any time.

The other party is a powerhouse that surpasses the adult body. If they really shoot at them, this will be the most serious life and death test they have faced since they entered the second floor.

The temptation recorded in the Book of Giants is too great. Unless it is really necessary, Wang Xuan is not willing to hand it over at will.

"Hope...we all guessed wrong...the other party may not have malicious intentions..." Zhao Lei murmured in his mouth. On the back of his right hand, in the crack of the cross, an eyeball was rolling, and he had used the holy eye to the extreme.

The person who came was Wang Ziren. His movement speed was terrifying. Wang Xuan only said two words, and he had already shortened the distance between the two sides, approaching within 20 meters. Seeing his approaching speed, everyone gasped. Air-conditioning, understand why Wang Xuan did not choose to escape, because the speed difference between the two sides is too big, if the other party really wants to chase, they can't escape at all.
