

## Last Building on Earth Chapter 14

The figure with the sword-shaped weapon flashed and disappeared from the sight of Wang Xuan and the others, followed by a few whispers of monsters in the distance.

Suddenly, all the sounds disappeared, and the surroundings became deadly silent again.

The few people in the van didn't even dare to breathe, and silently observed the distance.

After watching for a long time, Wang Xuancai let out a sigh of relief and whispered, "Who is that person, he's amazing, have all those monsters been killed by him?"

Zhang Haofei said, "It seems so, how about... let's go and see what's going on there?"

He was very curious about this figure, but Zhang Haofei was daring, but he didn't dare to see the situation over there alone. He wanted to drag Wang Xuan with him.

Wang Xuan was a little moved, and he was also full of curiosity about the figure who seemed to be holding a sword-shaped weapon.

Zhao Lei opened his mouth and said, "You tell me, what is the origin of this person? Is it someone who is trapped here like us, or is there something else? I don't know if he knows how to get out of this parking lot."

Hearing the method of leaving the parking lot, Zhang Qianwen, who was behind, immediately got some energy, rushed over and said, "What method? Who are you talking about?"

She sat in the back, and she was timid. She didn't see everything that happened in the distance just now. She only heard the low scream of a terrible monster.

Wang Xuan's thoughts changed, he quickly made up his mind, and said, "Let's go take a look."

As he spoke, he picked up the steel pipe at his feet, opened the door, and walked out.

Seeing Wang Xuan's agreement, Zhang Haofei immediately opened the car door and went out, saying, "Let's go, let's go take a look."

Wang Xuan and Zhang Haofei got off the bus, and Zhao Lei, Gu Manyao and Zhang Qianwen also got off.

Although Zhang Qianwen was reluctant to leave the relatively safe car, she was even more reluctant to leave her alone in the car.

Knowing that Zhang Qianwen was afraid, Gu Manyao let her walk among the four.

Wang Xuan and Zhang Haofei walked in front, Gu Manyao and Zhao Lei broke up.

Zhao Lei was holding a steel rod in his right hand and looked a little nervous. He kept looking around to prevent a monster from suddenly rushing out of a dark corner.

The five of them walked cautiously into the distance. The leaders, Wang Xuan and Zhang Haofei, were on guard, walking slowly and slowly approaching.

Soon Wang Xuan saw the corpse of a monster that had lost half of its head.

The white scale on the monster's neck had disappeared, and half of its head rolled to one side, as if it had been chopped off by an extremely sharp weapon.

At first, he was trapped in this underground parking lot. Wang Xuan felt very uncomfortable when he saw these \*\*\*\* scenes, but this day, he saw it several times in a row. He even killed two monsters with his own hands. The \*\*\*\* scene will no longer have much reaction.

Zhang Haofei took a step forward and walked around a car that was facing him. He let out a soft squeak, his voice full of surprise.

Wang Xuan followed, and immediately saw at least seven or eight monster corpses lying on the other side of the car.

These monsters all have wolf-headed ape bodies and are covered with scales, exactly the same as those they encountered before.

These monster corpses were all mutilated, or their heads were cut off, or their waists were cut off, or their limbs were cut off. The scene was very bloody.

Apart from the monster corpses all over the ground, the figure with a sword-shaped weapon they had seen before had disappeared.

"Who is this person? It's amazing. One, two, three, four... good guy, a total of eight monsters, all of them were killed by this person."

Zhang Haofei counted the corpses of these monsters lying on the ground, and determined that there were eight monsters in total. Thinking that the man could kill eight monsters with his own power, he was very angry.

Wang Xuan noticed that there were no white scales on the necks of the eight monster corpses, which should have been obtained by this person.

After obtaining eight white scales at one time, what kind of power will this person gain?

Zhao Lei, Gu Manyao, and Zhang Qianwen all had shocked expressions on their faces.

"To be able to kill eight monsters in one go, this person is too scary. I don't know the origin, but unfortunately I missed it. Otherwise, I might be able to know some specifics about this place through this person." Zhao Lei's tone was full of regret.

Zhang Haofei said, "You dare to contact him rashly? What if this guy is a murderer and kills anyone he sees? We are not his opponents."

Gu Manyao rolled his eyes at him and was about to refute, but after thinking about it, she felt that this possibility could not be said to be non-existent.

Wang Xuan pondered: "Will this person be like us, but trapped here earlier than us? He became so powerful because he hunted monsters to get more white scales than us?"

Gu Manyao said: "If that's the case, then it's terrible. It means that this person has been trapped here for a long time and has not been able to find an exit to leave here. Then we..."

When she said this, Wang Xuan and the others stopped talking, feeling a slight chill on his back.

One of the biggest reasons they were able to persevere was that they never gave up hope and believed that they would definitely find a way out and escape from this underground parking lot. UU Reading

Like Gu Manyao said, if this person is really like them, how long has this person been trapped here?

This person can't find a way out, is there any hope for them to escape?

Zhang Qianwen also understood, and there was a look of despair in her eyes.

As if feeling the solemn atmosphere, Zhang Haofei suddenly raised the baseball bat in his hand and hit the window of a car beside him. As the white scales were activated, his strength was much stronger than before, and the window shattered in response. .

He said cursingly: "Why do you think so much, take one step at a time, there is no such thing as a dead father, and there will always be a way."

As he spoke, he reached out and opened the car door, then got in and searched, hoping to find something.

"Yes, there is no way out, there will always be a way. The important thing now is that we all can't give up hope, and we must do everything possible to survive."

Wang Xuan also walked towards the other car: "Everyone should pay attention when searching to see if any car has car keys in it."

As soon as he said this, he suddenly stopped, followed by quickly retreating to Gu Manyao and Zhao Lei's side, and shouted, "Zhao Lei, Zhang Qianwen, get in the car!"

Zhang Haofei was still rummaging through things in the car. Hearing Wang Xuan's low voice, he stuck his head out, looked outside, and said, "What's wrong?"

Seeing this, he suddenly shuddered and stopped.

About ten meters away, there were five cars parked. At this moment, black shadows appeared one after another from among the five cars.

These black shadows have their hands over their knees and look like gorillas. They are covered with jet-black and shiny scales. Only a white scale at the center of their necks, like the inverse scale of a dragon, is very eye-catching.
