

Last Building on Earth Chapter 141-145

Chapter 141

The Rakshasa leader let out a roar like a wild beast, turned around suddenly, and two terrifying rays of light shot out from his eyes. Before, he had no intention of fighting, but he focused on opening the pentagram and gaining the power of the legendary god.

Now the five-pointed star and the giant figure fell into the dark hole below and disappeared, and in his anger, he vented all his anger and resentment on Wang Xuan's head.

He stomped his foot, his figure swayed, he avoided the attack of his monster's giant arm at a faster speed than Wang Xuan, went around to his side, raised his right hand, and the power inside swelled, although the right hand looked broken, even the bones were broken. It was exposed, but under his amazing recovery ability, the flesh and blood of this right hand was healing at an accelerated rate. At this moment, the right hand was showing signs of swelling, calling towards Wang Xuan.

Wang Xuan understands that his speed and reaction are faster than his own. On the right hand he called.

The two of them responded very quickly. They opened their hands almost at the same time and grabbed the other's arm. There was no way to take advantage of this kind of power contest.

Wang Xuan grabbed his right arm and violently tried to pull the leader of the Rakshasa to the ground. The leader of the Rakshasa was less powerful, and was pulled into the air, but his attack was faster. The left fist shot instantly, trying to blow Wang Xuan's head.

Wang Xuan raised his left arm to protect his head and face. He wanted to grab his left arm with his backhand. He didn't want the Rakshasa leader to change his moves in an instant. The left fist fell down and hit his right shoulder firmly. superior.

Wang Xuan groaned, the double defense on his right shoulder couldn't stand it, and he immediately sank, and there was a sound of bone shattering inside.

The right shoulder was smashed to pieces, and a right arm suddenly lost its strength. The Rakshasa leader took advantage of the situation to turn his body, like the death of a crocodile rolling, to twist the entire rotation of the giant arm of the monster on Wang Xuan's right.

Wang Xuan received a blow on his right shoulder, and he knew that it was not good. He pulled the Rakshasa leader back with his body, and kicked his right foot upward, kicking the belly of the Rakshasa leader who was torn up by him.

This kick was learned and sold now. The Rakshasa leader did not expect Wang Xuan to learn so fast. He was instantly stunned. He only felt that his belly was kicked to pieces, and he flew out into the air with a groan. The death of the crocodile couldn't be turned over either.

After escaping the calamity of the broken arm, Wang Xuan also broke out in a cold sweat. Just now, he used too much force with his left foot, and he couldn't support it with his left foot, and he also fell heavily to the ground.

The Rakshasa leader rolled to the ground, and quickly took out a bottle of primary healing water with his left hand and poured it into his mouth. A faint white light appeared all over his body, especially concentrated on his right hand and belly. He jumped up and attacked Wang Xuan again.

Wang Xuan was no slower than him, and almost at the same time he took out a bottle of primary healing water and poured it into his mouth.

He originally had four bottles of primary healing water. He and Gu Manyao each drank one bottle each at the Immortal Outer Sect. Now they are using the third bottle, and there is only the last bottle left in his Xumi belt.

Although the flesh hurts, there is not much to care about between life and death.

The primary healing water drank in, and immediately played a huge role, focusing on his just injured right shoulder, healing the shattered bones in the shoulder at an astonishing speed.

With the primary healing water and the blue crystal scales, the injury he had just received healed almost instantly, and when he stood up, the Rakshasa leader stretched out his arms and rushed towards him.

Suddenly, a burst of white light shot, but it was Li Haotian from afar who once again launched a two-meter giant arrow and shot it from the air.

The six of them just couldn't bear the terrifying power, and they were all moving out. Now that the power has disappeared, they are relieved, but the Rakshasa leader is too terrifying, and everyone dare not get too close. Li Haotian first launched a two-meter giant arrow to attack.

It was followed by the "shield strike" thrown by the Iron Army.

The leader of the Rakshasa was extremely angry. Although he did not take these attacks seriously and knew that these attacks would not hurt him, he had to smash the two-meter giant arrow with a fist, and another punch hit the iron army thrown over by the iron army. King Kong Shield.

With a bang, King Kong Shield was punched by him and flew back at a faster speed.

Tie Jun's face changed color, although it was his own diamond shield, he didn't dare to reach out to pick it up, but dodged away.

The Rakshasa leader punched out, smashing the two-meter giant arrow and the diamond shield that blasted back to the Iron Army. Suddenly, metal tentacles appeared around his body, wrapping around him and surrounding him.

Two six-meter-long metal tentacles contracted, entangling him.

The Rakshasa leader was not afraid at all, he grabbed the metal tentacles wrapped around his body with both hands, and the terrifying power erupted.

Wang Xuan knew that the "twisting and strangling" of the metal tentacles could not kill the Rakshasa leader, and his real purpose was to make Bai Yan shoot the witch blood jet.

The blood of the witches scattered all over the sky, covering him and the Rakshasa leader. No matter how fast the Rakshasa leader was, he was entangled in the metal tentacles and could not dodge or resist.

The witch blood dripped onto his body and began to penetrate into his body along the armor.

The Rakshasa leader roared in his mouth, the skin and muscles of his arms seemed to be inflated and became bright, and the metal tentacles wrapped around him were torn off by him. Wang Xuan groaned and fell back, and the two broken metal tentacles turned back. It wound up along his arms, fused with flesh and blood, and re-turned into a giant arm of beast.

The leader of the Rakshasa punched, but Wang Xuan used the giant arm of the beast to block it. The fists of the two sides collided head-on again. The witch blood infiltrated into the leader of the Rakshasa came into play at the same moment. He suddenly felt dizzy. Wang Xuan's punch volleyed backwards and flipped out.

He fell heavily to the ground, the five fingers of his right hand were twisted and deformed, and the phalanx inside was broken. The punch just now almost completely blew his right hand.

The right hand was injured, and the Rakshasa leader fell to the ground with a grim face, and suddenly roared: "Little devil, you forced me!"

With this low roar, a crack appeared in the palm of his right hand, and went all the way up his right arm. As before, the crack opened to both sides, and rows of jagged teeth appeared in it.

Wang Xuan has seen this monster twice, except for the first time when he was suddenly swallowed, and then he already knew how to deal with it, so there is nothing to be afraid of. Now that the Rakshasa leader summoned this monster for the third time, he immediately With both fists out, he was ready to rely on the giant arm of the beast to blast the thrown monster directly.

I don't want that this time, after the crack opened on the right arm of the Rakshasa leader, there was no Pokemon inside. Zip-like all the way to crack.

Wherever the crack cracked, there were rows of teeth opening from it.

Wang Xuan, who was about to hit the giant arm of the beast, suddenly stopped. He instinctively felt a strong danger. It seemed that the Rakshasa leader in front of him had become extremely terrifying. If he was a little careless, he would die immediately.

Bai Yan, who retreated to the side, tried his best to activate the blood of witches, but found that the blood-shamanic statue that had penetrated into the body of the Rakshasa leader had been cut off, and

there was no response. Zhao Lei, Yao Tiande, Tie Jun and others couldn't hide their shocking expressions.

In their eyes, this Rakshasa leader really turned into a monster.

No monsters appeared in the cracks from his right arm to his waist, but the cracks that opened turned over to cover other parts of his body, as if his flesh was turned over, and as if his body was swallowed by monsters, the rows of teeth were As the flipped flesh emerged, it soon covered half of his body and turned into a half-human, half-demon monster.

"If it weren't for the fear of being too strong, it would be bound and suppressed by this world, and it would be easy to lose control and be backlashed... brat, with a state like yours, I would have killed it a long time ago—"

Half of the Rakshasa leader's face was covered with blood-red flesh full of teeth, and the other half of his face was still wearing a mask and helmet. The mouth trembled slightly and made a gloomy and low voice, which seemed to be indescribably strange and terrifying.

Hearing these words, Wang Xuan suddenly understood that the Rakshasa leader in front of him was a superpower who surpassed his perfect state.

Almost at the moment when these words fell, the leader of the Rakshasa suddenly moved, and the speed of the movement was so fast that Wang Xuan was dazzled.

Wang Xuan felt a strong sense of danger in his heart, knowing that it was not good, and suddenly retreated.

With a "boom", the Rakshasa leader instantly approached and appeared in front of him, and the blood-red right arm covered with dense teeth hit him.

The speed of the Rakshasa leader was too fast, and Wang Xuan had no time to dodge, so he could only barely raise his arms of the beast, crossed them, while protecting his head, face and heart, and at the same time he almost blocked the blood-red right arm that came over.

Wang Xuan had five fingers on both hands, and was about to clamp and twist the blood-red right arm, when the full-grown teeth on the blood-red right arm suddenly burst out.

Suddenly, the teeth that shot out were like snow-white bone blades, cutting the mechanical shell and metal equipment on his body, and the sound of Chi Chi could not stop.

At this moment, Wang Xuan didn't know how many sharp teeth were shot into his body. These teeth shot in from the front of his body, and came out of his back with blood.

His back is like a sudden growth of dense blood spikes, like a hedgehog.

The Rakshasa leader narrowed his eyes slightly, and only the left half of his mouth, which was exposed outside, rose slightly, obviously showing a smug grin.

These shot out teeth are not only extremely sharp and penetrating, but more importantly, he can control these teeth.

Once the enemy's body is hit by this kind of teeth, he can control the teeth to destroy inside the enemy's body and kill people easily.

Wang Xuan's body was instantly shot into dozens of teeth. In the eyes of the Rakshasa leader, Wang Xuan was already dead.

Wang Xuan's strength made him fearful. A mere fifth form of perfection could force him to this step, and the Rakshasa leader knew that he could not grow up any longer.

"It's over..."

He was reciting a sentence, and the five blood-red fleshy fingers grasped, controlling the teeth to retract back into Wang Xuan's body, destroying all the internal organs of his body, and even allowing these teeth to be easily concentrated on his head. Brainstorm again.

Wang Xuan's body was shot through by dozens of teeth. Looking at the Rakshasa leader in front of him, at this moment of life and death, a strange look appeared on his face.

The Rakshasa leader did not see panic in his eyes, nor did he see the fear and despair of dying, but a very strange and unexplainable look.

The Rakshasa leader didn't understand why Wang Xuan had such a look on his face, why...

Wait, the Rakshasa leader suddenly woke up. Although Wang Xuan was facing him, he was not looking at himself, but raised his head slightly and looked behind him.

"Behind?"

The leader of the Rakshasa suddenly stood up, turned his head sharply, and saw a big hand with five fingers outstretched blocking his sight.

I don't know when, the giant androgynous figure that had fallen into the dark hole in the ground and disappeared, has silently crawled out of the dark hole again.

It stretched out its left hand from the dark hole and hit the ground, and its right hand stretched out from behind the Rakshasa leader.

As soon as the Rakshasa leader turned his head, he saw the big hand and grabbed him.

In the face of the ten-meter-high giant statue, its big hand is almost the size of the Rakshasa leader, and when five fingers are tight, it can easily grab the Rakshasa leader.

"what--"

The Rakshasa leader came back to his senses and let out a roar of fear. The bones in his body creaked and crunched. When the giant figure was only lightly grasped, at least a dozen bones in his body could not withstand the force and were broken and shattered. There was a lot of blood splattered from the eyes and ears.

Wang Xuan was also shocked by the scene in front of him. Seeing that the Rakshasa leader was caught, he immediately stepped back, while Zhao Lei and Tie Jun rushed up.

They saw that Wang Xuan was seriously injured, and hurriedly came up to help him extract a large number of teeth protruding from his back.

The Rakshasa leader was in extreme panic, how could he still think of controlling his teeth to kill Wang Xuan, he screamed with all his strength: "Stop, I opened the seal and released you, you have to repay me, so that I can get the power of the gods. ..."

Before he could finish speaking, the giant figure grabbed the five fingers of his body and tightened it again. This time, the armor of the Rakshasa leader immediately shattered and deformed, his mouth suddenly opened, and a large amount of blood spurted out like a fountain. , there was a crisp sound like popping beans in his chest, and every rib was shattered.

Even if he is a super powerhouse beyond his perfect state, facing this giant portrait, he is still as fragile as a humble ant when facing a human being. This kind of crushing is absolutely despairing.

Wang Xuan and the others stepped back one after another, everyone was pale, and their hearts were terrified.

While Zhao Lei was busy helping him to pull out the sharp teeth that came out of his back, he followed him back.

Yao Tiande's face turned pale, and he murmured, "What kind of book of giant gods, what kind of gods... These legends are all lies..."

In the roar and screams of the Rakshasa leader, he was pinched by the giant figure in his hand, his body was constantly twisted and deformed, and a lot of blood was bubbling out from his mouth, nose, eyes and ears. Because his body was squeezed, his eyes gradually bulged. Protruding, like goldfish eyes, are emerging.

The giant figure placed its left hand on the ground, and its body swayed outward. Seeing that it was about to crawl out of this dark hole, suddenly a mass of darkness emerged from the underground hole, and this darkness was attached to the giant figure's body. On the surface, it stretched up along its legs, and there was a oozing crackling sound inside, like the sound of something nibbling on food.

The pair of empty eyes of this giant figure immediately opened wide, his face trembled, showing a look of pain, his mouth opened and closed unconsciously, as if he wanted to let out a painful roar, but it couldn't make a sound, it could only make Painful facial expression.

This scene seemed extremely bizarre. Wang Xuan, who had been retreating, couldn't help but stop, but saw the visible and qualitative darkness extending from the dark hole below, like a tide flowing backwards, following the body of the giant figure, and soon it covers most of the body.

Its covered body began to decompose into countless black fine sand, which fell like dust. The giant stone statue quickly released the hand that was holding the Rakshasa leader. It waved its hands and twisted its body desperately, trying to resist, that pair of hands grabbed towards the darkness that was spreading up from behind. As soon as the hands touched the darkness, they were immediately eroded by the darkness and began to decompose.

The leader of the Rakshasa fell to the ground, his body was twisted and deformed, and the black gold armor he was wearing was completely shattered. His mouth, nose, eyes and ears were full of blood, and he finally spit out the breath filled in his chest with a big mouthful of blood.

After escaping from death, he was full of palpitations and panic, and was busy taking out a bottle of primary healing water from the blood crystal belt and pouring it into his mouth.

Suddenly, a large amount of black fine sand fell on him. He raised his head www.mtnovel.com and was horrified to find that it was only in this instant that the giant figure was completely submerged in darkness, turning into black fine sand and falling down.

The visible and qualitative darkness surging up from the dark hole below spread out violently, like a dark tide, filling the space instantly, forcing the surrounding black fog away, those who were originally hidden in the black fog are looming. One of the mummified statues of the 20th century has revealed its true appearance.

Including Wang Xuan, Zhao Lei, Bai Yan, Tie Jun, Li Tianhao, Yao Tiande, and Duan Chen who fled far away, everyone was drowned in this darkness in an instant.

Watching the darkness submerge the giant statue before, Wang Xuan felt that the darkness was like a tangible substance, like black water, but after being submerged in the darkness at this moment, he suddenly realized that the darkness was just a visual feeling, not a feeling. He can't reach out and touch or sense anything that really has shape and quality, and even its existence is not as good as air.

However, the naked eye and sight can actually see it.

This feeling is very strange. If Wang Xuan was forced to use words to describe it, this feeling is more like a kind of light, a kind of black light, illuminating the entire space in front of him.

At this moment, everyone is in this darkness. Fortunately, everyone was not decomposed into black dust like the giant statue. Wang Xuan was shocked and suddenly felt that something flew out of Xumi's belt, but it was the one. Only a palm-sized book of giants.

The Book of Giants flew out, turned into a golden light, disappeared into the boundless darkness, and then, in the deepest part of the dark hole, came the sound of crawling and moving, and everyone suddenly felt their hearts tighten. His throat was sore, and it seemed that suddenly, his heart felt as heavy as a mountain.

Chapter 142

This is different from the previous physical oppression by force, this is a purely spiritual oppression.

At this moment, Wang Xuan finally understood that the giant figure sealed in the pentagram was not the **** mentioned in the book of giant gods. At this moment, the darkness extending from the dark hole below was the true face of the god. .

Whether it was Wang Xuan, Zhao Lei, Yao Tiande and others, or the Rakshasa leader who escaped from the dead, all of them were swaying at the moment, almost unsteady. All of their inductions, everyone seems to be caught in endless chaos.

At this moment, Wang Xuan seemed to have passed a century, he became confused, and a faint consciousness slowly emerged in his mind, it seemed to be a woman, and a man's voice was whispering .

The voice seemed to whisper in his ear, and it seemed to come from an ancient time and space.

"The master of ancient power... the womb of the underworld... the king of mummies... the lord of the pentagram..."

This voice seemed to be absent, and it sounded in the depths of everyone's mind. Every time everyone heard a word, it seemed like a knife had been inserted in their minds.

But it's just a purely spiritual suppression, and it doesn't actually cause any harm to their bodies.

But this kind of purely spiritual suppression is equally terrifying. Among them, Duan Chen and Li Haotian, who have the weakest mental endurance, can't bear it after hearing only two or three words. They suddenly opened their mouths, spurted blood, and fell over. Going down, his eyes turned white, and he had already passed out.

As they fainted, the power that directly acted on their spiritual soul disappeared, as if the existence in the boundless darkness ignored them.

After that, Zhao Lei and Tie Jun also vomited blood and fell down, followed by Yao Tiande and Bai Yan.

Soon, in the entire darkness, only Wang Xuan and the Rakshasa leader were still standing barely.

In the body of the Rakshasa leader, there is a faint white light, and he is constantly recovering from the heavy injury he just suffered. In terms of mental endurance, he is already a strong person who has broken through the state, and he is naturally extremely powerful. In just a short time, only himself and Wang Xuan were still holding on, and he suddenly understood.

This existence in the darkness is choosing the successor, he and Wang Xuan, whoever persists to the end will be chosen by this existence.

And what this existence tests is not who is stronger or who has stronger power, but tests their mental endurance, or, to see who has a stronger soul.

His growth level is higher than Wang Xuan, and the power of his spiritual soul naturally surpasses Wang Xuan. He will definitely be selected, and he will be on par with the gods.

All the previous efforts have paid off. The Rakshasa leader has a feeling that his hardship has come to an end, his eyes suddenly wet, and there is an urge to cry.

The mental pressure on his heart is getting stronger and stronger. The Rakshasa leader feels his heart beating like a drum, and the consciousness in his mind is about to burst. He has reached the limit of what he can bear. shattered under pressure.

He has reached his limit, what about Wang Xuan?

He reluctantly looked at Wang Xuan, and suddenly realized that Wang Xuan was still standing there, struggling to support him just like him, but did not fall down.

"impossible--"

The Rakshasa leader's eyes widened, his eyes became blood red due to congestion, a large amount of blood spurted out from his nose and mouth, and his eyes showed an unbelievable look.

He has already seeped blood from seven holes, and the world is spinning in front of him. He may collapse and fall down at any time. How can Wang Xuan be more tenacious than him, and he can still stand there, even only the corners of his mouth oozing blood.

This performance turned out to be much stronger than him.

The Rakshasa leader was full of unwillingness and confusion. He couldn't believe that he would never lose to a rookie who had just broken through.

"I'm not willing to..."

The leader of the Rakshasa was roaring in his throat, but the sound could not be transmitted. He almost drained the last potential in his body, and he had to insist on it. He did not believe that he would lose to Wang Xuan.

Suddenly, with a thud, his bloodshot eyes spurted out of their sockets with blood. Because of his persistence, the endurance of his spirit and soul finally exceeded the limit. His last consciousness was a cracking sound like glass shattering in his mind. The sound of the broken spirit and soul, and then rolled over and fell down.

Wang Xuan watched the Rakshasa leader turn over and fall down, motionless, not knowing whether to live or die, he still stood there, struggling to support.

The leader of the Rakshasa is a powerhouse beyond the perfect state. He is confident that his spiritual and soul power is far stronger than Wang Xuan, but he never imagined that Wang Xuan's soul absorbed the soul consciousness from the fusion of monsters and blue crystal scales. He is equivalent to gathering the power of three souls into one.

No matter how strong the soul power of the Rakshasa leader is, how can it be compared to Wang Xuan after the three-in-one soul power?

When the Rakshasa leader turned over and fell down, in this dark space and time, only Wang Xuan was left standing there, although blood began to flow down from his nose and mouth, his headache was splitting, and his spirit and soul seemed to be dying. It exploded, but he barely felt he could hold on.

Suddenly, the darkness began to converge with him as the center, and under his feet, a dark pentagram slowly appeared.

Wang Xuan saw this change, and his heart suddenly became enlightened.

As the Rakshasa leader, Zhao Lei, Yao Tiande and others fell down, some ancient existence in the depths of the darkness finally chose him.

All the darkness was gathering towards him, and the pentagram under his feet appeared, rose up, and soon a pattern of pentagrams appeared around his body.

Wang Xuan felt that his hands and feet were being pulled apart by an invisible force, and he was pulled into a "big" shape. His head, hands, and feet just corresponded to the five corners of the pentagram. In an instant, a large number of complex and confusing symbols and information suddenly flooded into his mind.

These symbols are messy and seem to be some kind of ancient text, but he doesn't know any of them, and the information is even more chaotic, with a lot of memory fragments mixed in it, but these fragments are very messy, like countless memory fragments.

In these fragments, he saw the endless darkness, and saw the invisible and intangible figure wrapped in the darkness.

Soon these memory fragments returned to chaos and settled deep in his mind. At the same moment, a faint consciousness appeared in his mind.

"Start... contract..."

With the emergence of this consciousness, a piece of golden paper only the size of a palm appeared in the darkness, which was the Book of Giants.

At this moment, the Book of Giants was shrouded in a faint golden light, appeared in front of him, and slowly descended.

At this moment, he suddenly felt a tightness in his chest, as if he was being oppressed by an invisible force, so he couldn't help opening his mouth, and when his throat was sweet, a stream of blood spurted out.

The blood was sprayed on the falling gold paper, and the gold paper was like a living creature, and began to greedily absorb the blood sprayed on it, and soon the surface released a strong blood-gold light, forming a ray pattern of a pentagram.

"Contract...complete..."

The vague consciousness in his mind reappeared, and the pentagrams around Wang Xuan's body converged and disappeared. He suddenly felt that he had regained his mobility. Looking at the falling golden paper, he stretched out his right hand and took it. inside.

The light just released on the gold paper converged and disappeared. Wang Xuan saw that the surface of the gold paper had changed slightly, and the original map had disappeared. A dark pentagram appeared on it, with a human figure in the center.

This human pattern is different from the androgynous portraits he has seen before. In Wang Xuan's view, the human face looks almost exactly like himself.

With a slight shock in his heart, he suddenly understood that this represented the completion of his contract with the Book of Giants, and now he was the true holder of the Book of Giants.

The darkness that originally filled this void is receding, and soon it will return to the dark hole on the ground like a low tide and disappear. After that, pieces of earth and rocks appear, filling up the dark hole, and the filled place goes up. A pentagram protrudes, and the pentagram is inlaid with a human-shaped pattern in the shape of a "big". This human-shaped face is similar to Wang Xuan, and the head, hands and feet are facing the five horns of the pentagram, which is different from before. This time, there is no human figure with six chains locking the center of the pentagram.

The black mist that was forced away before slowly reappeared, shrouding the place in darkness, everything around became silent, and the mummy statue that appeared was shrouded in black mist again, becoming looming.

Everything he just experienced was like a dream, the only difference was that Wang Xuan sensed something in his mind, and in his right hand was holding the Book of Giants that he had completed a contract with.

"It turns out that the true function of this book of giants is similar to a book of contracts. By completing the contract, you can obtain the power of the gods."

His heart trembled, but Wang Xuan also understood at the same time that with a mortal body, if he wanted to gain this power, the price he would have to pay was unimaginable.

He quickly calmed down, put away the book of giant gods, and immediately rushed towards the Rakshasa leader who fell motionless on the ground.

This Rakshasa leader is a powerhouse beyond his perfection. Although he seems vulnerable to the power of the Book of Giants, he is actually stronger than him in actual combat. Now that he is lying on the ground, Wang Xuan's first reaction is To kill him, or let him recover again, it would be troublesome.

With a wave of his right hand, the metal tentacles stretched out, and instantly stabbed into the heart of the Rakshasa leader who fell to the ground, but found that the Rakshasa leader was motionless and unresponsive.

The brows were slightly wrinkled, and the second metal tentacles followed, shattering the head of the Rakshasa leader. The Rakshasa leader still did not respond, apparently already dead.

Just now, the Rakshasa leader was unwilling to fail. He drained all the potential of his body and struggled to support Wang Xuan. As a result, the spiritual power he could bear exceeded the limit he could bear. His spirit and soul collapsed, and his body became an empty shell. , without the spiritual soul, and ultimately attributable to death.

Seeing the death of the Rakshasa leader, Wang Xuan was shocked. He naturally couldn't think of the reason, and immediately thought of Zhao Lei, Tie Jun and others who had fallen before him. Are they all dead?

I was busy to check the situation of Zhao Lei and Tie Jun. Fortunately, they were just unconscious on the ground, breathing and beating, but not dead.

"Also under the oppression of that willpower, why are they just in a coma, but this Rakshasa leader is dead?"

Wang Xuan felt strange, thinking that Zhao Lei and the other six soon fell into a coma, but the Rakshasa leader supported him for a while, which may be the reason why he died.

"Fortunately, I assimilated the consciousness in the monsters and the blue crystal scales. The power of the spiritual soul is much stronger than that of ordinary people. Otherwise, the leader of the Rakshasa will get this book of giant gods, and all of us will be killed here by him. "

Wang Xuan recalled what he had just experienced, and secretly called it a fluke, so he woke Zhao Lei and the six Tiejun one by one, then released the union with Xiaojiao, and then walked to the corpse of the Rakshasa leader.

Seeing that the black metal equipment on the Rakshasa leader's body was almost damaged, it made him secretly feel a pity. Fortunately, the black metal boots hadn't been damaged. Wang Xuan opened the eye of the illustrated book and saw the information immediately.

"Name: ghost boots, quality: third-order excellent, ghost boots made of high-grade ghost beast skin, with two characteristics of lightness and toughness, light and beautiful, and have a strong defensive effect, ghost boots contain two special kinds of special Energy crystal, an energy crystal can increase the wearer's speed by 25, and an energy crystal can increase the jumping power by 25. The nano-crystal inside can be activated through blood, and it has a strong self-healing ability. Before the energy is completely lost, as long as If the damage does not exceed half, it can be repaired automatically."

Sensing the information, Wang Xuan took off the ghost boots on the corpse of the Rakshasa leader. This was the first time he had seen Tier 3 equipment of excellent quality.

The third-order ordinary quality alloy boots can increase the movement speed and jumping power by 20. These third-order fine-quality ghost boots can increase the speed and jumping power to 25. However, Wang Xuan looked at the ghost boots, but shook his head and only It was put away and was not replaced immediately.

Because he now has a full set of metal equipment, the energy crystals in the five pieces of equipment can stimulate each other, and various abilities can be increased to 24. If you put on the ghost boots, although the speed and bounce force will be increased from 24 to 25, but other All kinds of abilities will be reduced to 23, which can be said to be worth the loss.

"Unless you can get another piece or two of ghost equipment, it's worth changing."

Although the four pieces of ghost equipment on the Rakshasa leader were damaged, the blood crystal belt around his waist was also damaged. Fortunately, a storage pocket was placed in the blood crystal belt, which was not damaged and could be opened.

After opening it, he took out the various items stored in it one by one, and Wang Xuan's eyes lit up.

As expected of the Rakshasa leader, the items in his pockets exceeded the sum of Wang Ziren and Lu Bingbing.

The number of medium crystal scales alone reached 116, the small crystal scales were not many, 207, 129 bottles of advanced nutrient solution, 8 bottles of primary stamina water, 12 bottles of primary healing water, and 11 explosive crystals. , 7 Smoke Crystals, 7 Flame Crystals, 4 Lighting Crystals, 2 Tracking Crystals, 2 Mechanical Beast Hearts, Insect Town Map, Scorpion City Map, Insect Country Map, 3 Parchments, Some Machinery Shell armor used by beasts, as well as some third-order ordinary quality equipment and some daily necessities.

Looking at these gains, Wang Xuan himself was a little stunned. The gains this time were too amazing.

Open the heart of one of the mechanical beasts and find that there are five crystals installed in the heart of the mechanical beast, not only the powertrain and three kinds of shells, but also weapons. Obviously, the strength is not inferior to Xiaojiao, but he has not used it. .

"This guy is too self-righteous, maybe in his heart, it's too easy for him to kill us, so even if there are mechanical beasts, you don't need to use the ability to combine..."

Wang Xuan understands that the combination of mechanical beasts can enhance physical strength, but for the Rakshasa leader, he does not need to use the physical strength of the combined mechanical beasts to kill them.

Putting all these materials into his Xumi belt, he now has 154 medium-sized crystal scales, 2134 small-sized crystal scales, 176 bottles of advanced nutrient solution, and primary stamina water. 11 bottles, 13 bottles of primary healing water, 12 explosion crystals, 8 smoke crystals, 7 flame crystals, 4 lighting crystals, 2 tracking crystals, etc. In addition, there are three rolled up parchments .

Zhao Lei and others slowly woke up. Basically, there was no physical damage, but they felt that their minds were still drowsy, and the mental damage was difficult to recover in a short period of time.

Zhao Lei staggered over and said, "Wang Xuan, what's the matter... what happened later..."

Then I saw the body of the Rakshasa leader.

"This guy, finally died..." He kicked as he said, but he almost fell.

"Stop moving, sit down and have a good rest."

As Wang Xuan spoke, he opened the four pieces of parchment~www.mtlnovel.com~ to see what records were inside.

The first parchment was opened, and a line of words came into view.

"Task Name: Insect Tide Hunter, Difficulty: ★★★★★"

Looking at the content of the task, it is a reminder that one hundred bullet giant ants must be hunted when the insect tide breaks out.

This task is special, it must be done when the insect tide erupts, and the difficulty is five-star, which is not difficult with Wang Xuan's current strength.

Wang Xuan shook his head, rolled up this piece of parchment, put it away, and opened the second piece of parchment.

"Task Name: Stealing Insect Eggs, Difficulty: ★★★★★★"

Seeing this difficulty, Wang Xuan moved slightly. The difficulty of the six-star quest was comparable to the difficulty of the "Cerberus's Call" he had obtained before. Let's look at the content of the quest.

"Sneak into the insect kingdom and steal a king insect's egg"

"Entering the worm country to steal worm eggs, no wonder it is as difficult as calling the hellhound." Wang Xuan understood a little, and put away the parchment.

Look at the last piece of parchment again.

"Task Name: Hunting the Seven-star Spider King, Difficulty: ★★★★★★"

It is another six-star difficulty mission, but unfortunately, it is also necessary to hunt down the seven-star spider king when the insect tide occurs, for this mission to take effect.

After putting away the three pieces of parchment, Zhao Lei, Tie Jun, and Yao Tiande slowly gathered around them. After resting for a while, their mental state was slightly better.

Wang Xuan suddenly heard the faint footsteps coming from the exit, and his heart moved, and everyone heard it, and they turned their heads to look, and saw that three vague figures gradually appeared in the dark mist in the distance.

Chapter 143

"Another enemy?" Duan Chen was startled.

Zhao Lei glanced at him and said, "How is it possible, it should be Gu Manyao and Zhang Haofei."

As the three figures gradually approached, Zhao Lei guessed correctly, it was Gu Manyao, Yu Shanshan and Zhang Haofei.

They rested outside for a long time, and their injuries gradually recovered. Seeing that there was no news of Wang Xuan and others, they were anxious and entered the gate of immortality to find them.

"Wang Xuan—" Gu Manyao called out from a distance, with a look of anxiety and worry on his face, and he was relieved when he saw that Wang Xuan and everyone were safe.

Wang Xuan stood up, relieved to see Gu Manyao returning to normal, and waved to her, Gu Manyao ran over, and immediately saw the body of the Rakshasa leader on the ground.

The ten people reunited, Zhang Haofei saw the corpse of the Rakshasa leader on the ground, he kicked it hard, and then he could not wait to ask what happened here before.

Wang Xuan roughly talked about it, and they all felt shocked when they heard it.

"The leader of the Rakshasa is dead, so the current Rakshasa is not a leaderless group of dragons? Or Wang Xuan, you can take over as the leader of the Rakshasa." Zhang Haofei saw the head of the leader of the Rakshasa being smashed, and he couldn't know his true appearance. Pity.

Wang Xuan glanced at Zhang Haofei and said, "Although this Rakshasa leader is dead, people inside Rakshasa may not know that there are still more than a dozen perfect states in Rakshasa, which should not be underestimated."

Zhang Haofei said: "This Rakshasa leader is too thief. I don't know when he followed us, and he endured it until the gate of immortality opened."

Zhao Lei showed a contemplative look and said, "I just thought about it for a while. After reasoning, I straightened out the line and understood a few doubts."

Wang Xuan said, "What did you think of?"

Zhao Lei said: "This Rakshasa leader must know the legend of the Book of Giants, and looking at his appearance, he knows it in more detail."

Wang Xuan nodded slightly, Zhao Lei's statement made sense, so he would endure it until the gate of immortality was opened by himself before taking action. It can be said that if it wasn't for the spiritual power of his fusion of magical beasts and blue crystal scales, he surpassed him, He was the one who finally got the approval of the ancient existence in the dark depths of the ground.

"Because the leader of the Rakshasa knows the Book of Giants, and also knows that Wang Ziren is related to the Book of Giants, he has been paying close attention to Wang Ziren, and may even have done something to Ziren, so he will know immediately when Ziren dies. According to the news, Lu Bingbing and Li Xing were sent to investigate the cause of Wang Ziren's death."

"If I guess correctly, it is possible that the Rakshasa leader followed behind Lu Bingbing and Li Xing at that time, but he did not show up, but wanted us to take the lead and find the gate of immortality. What danger is there, it is us who are unlucky, otherwise if everything goes well, he will take the shot at the critical moment, and he will be able to reap the benefits of the fisherman."

"This guy is too sinister." Zhang Haofei couldn't help but feel indignant when he heard this.

Gu Manyao frowned slightly and said, "What if we lose to Lu Bingbing and those people? Didn't the Book of Giants fall into their hands?"

Zhao Lei said with a smile: "It's the same if the Book of the Giants falls into the hands of Lu Bingbing, who can resist the temptation of the Book of the Giants? I will definitely come here to see what happens, and I can still take the lead for him, with his strength. , at the critical moment, it would not be difficult to kill Lu Bingbing and Li Xing."

"Yeah, what kind of strength is this guy? Yao Tiande, you said that there can't be anyone who exceeds the real state, but if he is the real state, how can he be so powerful?" Zhang Haofei thought of a question and immediately asked Yao Tiande.

Yao Tiande smiled bitterly and said, "I also heard what Huang Tao said. He said that this place can't hold the power beyond the perfect state, but such a Rakshasa leader... I don't know."

Wang Xuandao: "The leader of the Rakshasa has indeed surpassed the state of being. He also said when he took action that he has been restraining his own strength for fear of being too powerful, causing the world to suppress or even backlash. This shows that Huang Tao It's not wrong, this world really can't hold the power beyond the perfect state. As for this Rakshasa leader, there are two possibilities. One is that he is in the gate of immortality and is not restricted by this rule, so he can play the role. Beyond the strength of the state, another possibility is that his strength has not surpassed the limit of the state, it is not that he is too strong, it is just that we are too weak."

Listening to Wang Xuan's analysis, everyone nodded slightly.

After that, Wang Xuan took out the third-order ordinary quality equipment he had just obtained, and distributed it to everyone, each of whom was given one piece.

After resting for a while, Zhao Lei and Tie Jun's spirits recovered a little. They were no longer dizzy when they walked, and everyone got up and left here one after another.

Walking back from the space shrouded in black mist, Wang Xuan saw the mummy statues on both sides, and thought of the ancient existence in the darkness, which had the title of "King of Mummies" in the consciousness he had sensed before. related to these mummified statues.

Walking out of the gate of immortality, Wang Xuan glanced back at the gate of immortality, but found that the gate of immortality began to be repaired as they walked out. The humanoid vacancy was filled, and this new giant human figure looked very much like Wang Xuan.

"Wang Xuan, the person in the pentagram on the ground looks like you. I didn't expect another one to appear here."

Everyone felt the strangeness, and Zhao Lei couldn't help but said: "The Book of Giants said that by opening the gate of immortality, you can obtain the power of the gods, so now you can really be compared with the gods and leave this **** world?"

Wang Xuan shook his head slightly and said, "If you want to get this power, you will have to pay an unimaginable price. This Book of Giants is actually a contract signed with the gods. If you want to get the power of the gods, you need to pay a price."

Gu Manyao said, "What's the price?" She looked worried.

"I don't know now, I only know that the cost is huge, and I only know when I actually use it."

Wang Xuan thought of the book of giant gods in Xumi's belt, and he was not excited or happy. He vaguely felt that the contract was equivalent to a shackle. He thought of the giant androgynous portrait that was imprisoned in the pentagram by six chains, and finally was The darkness swallowed the weathered appearance, and there was a faint chill in his heart. Now he is equivalent to replacing the giant androgynous portrait, so will his future end be similar?

As for whether the mysterious antiquities sleeping in the dark depths of the ground are gods, or some kind of terrifying existence, who knows their true colors?

Seeing that Wang Xuan was in a low mood, Gu Manyao didn't dare to ask any more questions. Everyone went out along the passage, and soon reached the black water edge covered with stone pillars, and followed these stone pillars towards the rock wall on the opposite bank. .

Fortunately, the next journey was safe, and there were no monsters or dangers. When everyone reached the other side, they climbed up the rock wall.

Find the cave on the rock wall, and after entering, the giant bat in the cave is alarmed.

These bats are not strong, and everyone quickly made a **** path and walked out of the cave.

When everyone finally walked out along the rotating steps and returned to the top of Centipede Island, everyone let out a long sigh of relief. At this time, everyone could confirm that they were truly safe.

"This legend of the Book of Giants... It really is false..." Zhao Lei let out a long sigh, recalling everything he had encountered before, with lingering fears. If it wasn't for luck, everyone would have died there now.

He thought that although Wang Xuan obtained a contract with the so-called **** through the Book of Giants, he did not really get the power of the gods. According to him, if he really wanted to obtain this power, he had to pay a huge price.

Wang Xuan looked at the sky in the distance, it was already a little gloomy, and he understood that they had just put on a lot of time, and it should be not far from the dark.

"What do you say now? Are you going directly back to Insect Town? The Rakshasa leaders are dead, so it should be safe to go back now." Li Haotian looked at the crowd and asked.

The energy he needs to break through is long enough, but he can't sense the hatching beast. He understands that it is still too early to break through into the adult body. Now that he is tired, he wants to go back to Insect Town to rest.

Gu Manyao said: "I want to hunt some more centipedes, I feel that the breakthrough is not far away."

After she hunted monsters to get white scales, the energy no longer overflowed, which meant that she only needed enough energy to break through.

Wang Xuan nodded and said, "Okay, then when we encounter a centipede, everyone should give it to Gu Manyao as much as possible."

Everyone nodded and agreed, Yao Tiande said with some envy, "I've been here for more than a month, and I haven't been able to wake up the hatching beasts, and I can't break through. I never thought that you would only need a day or two to break through to the adult body."

Zhang Haofei laughed and said, "This is called a genius, Lao Yao, you can't compare. In fact, I'm fast too. It shouldn't take two days, and I may break through."

The eyes of everyone looking at Gu Manyao were full of envy. Wang Xuan was able to break through, but everyone was not surprised.

Once it breaks through to the state, it is the real rebirth, and it is a big man in the entire insect town.

Next, everyone followed the center of this centipede island to the direction of insect town. The road down the mountain was extremely easy. There were few people here, and the surroundings were very quiet. They soon encountered a group of six-winged centipedes.

There are thirty or forty six-winged centipedes in this group. Their strength is between the adult and the perfect state, and the danger level is four and a half stars. Bai Yan immediately launched the "Wizard's Blood Jet" to reduce them to four-star dangerous monsters. .

Wang Xuan swayed and rushed in, two metal tentacles spread out and drew towards these six-winged centipedes.

The battle with the Rakshasa leader made him realize that he still has too many shortcomings. Although his body has been strengthened by blue crystal scales, it is stronger than the normal state, and coupled with the increase in physical strength, he can now borrow blue Crystal scale energy, as long as it is well controlled, basically will not have any serious side effects. With the use of blue crystal scales, his combat power is even more powerful, similar to the general state of Lu Bingbing and Li Xing. Not his opponent at all.

However, Wang Xuan felt that his strength could be further improved. Soon after he was promoted to the perfect state, he needed more battles to familiarize himself with his now further strengthened body, and he also needed to accumulate more battle experience.

During the movement, he controlled the two metal tentacles to continuously wave out, and with each attack, two six-winged centipedes were severely injured and fell from the air.

He only inflicted heavy damage on these six-winged centipedes, leaving Gu Manyao to carry out the final blow, so that she could obtain the energy of these six-winged centipedes.

Others have the same idea as Wang Xuan. No matter how many monsters they hunt now, their energy will overflow and be wasted. It is better to help Gu Manyao to break through.

As long as Gu Manyao breaks through, they will have a second real-level powerhouse in their team, and their strength will be even stronger. It can be said that in Worm Town, apart from "Phoenix", "Xuan Gang", "Dynasty" and "Dynasty" Except for the four leaders of the "Justice League", they basically no longer need to fear any person or force.

Gu Manyao followed behind Wang Xuan, easily killed the severely wounded six-winged centipede that had fallen to the ground, and absorbed the energy of the white scales that appeared in their bodies. The energy is more powerful than the silver-backed centipede and the giant pincer.

When Gu Manyao absorbed the energy of more than a dozen white scales in connection with the harvest, finally, she felt the white light in her right hand shatter and explode.

The energy contained in it surged out like a tide, along her right hand to her right arm, and then spread to her whole body, moisturizing every inch of her body.

There was a look of amazement on her face. She broke through from the adult body and grew into the fifth form. This change is too shocking. This is a real rebirth.

The demon chi knife living creature in her right hand, the black dragon scales on the surface vibrated piece by piece, making a slight sound, and soon it turned into a black dragon that was two meters long, and was about to fly out of her right hand.

Gu Manyao's expression became solemn and straight, she stretched out her right hand and grabbed the tail of the two-meter-long black dragon. With this grab, the tail of the Yaochi quickly mutated to form a hilt, which was then two meters long. The black demon chi mutated to form a two-meter-long black giant knife.

The surface of the knife was covered with dragon scales, half a dragon and half a knife. Gu Manyao held it in his hand, danced it, and slammed it out.

With a "chi" sound, a huge knife light penetrated the body and flew out in an instant, splitting a pile of rocks in front of it, and then cut through the body of a flying six-winged centipede, cutting it in two in an instant. .

The distance the knife flew out was more than ten meters, and then the power was exhausted and disappeared into the air. Everyone couldn't help but widen their eyes when they saw it, and were shaken by the power of this knife.

"Gu Manyao, you broke through? The power of this knife is too terrifying." Zhao Lei muttered to himself.

Zhang Haofei had an urgent look on his face, seeing Gu Manyao holding a two-meter giant sword and slashing such a powerful sword, his heart became more and more itchy, and he wanted to break through the body as soon as possible and become the third powerhouse.

"Breakthrough." A smile finally appeared on Gu Manyao's face. When her right hand was loosened, the two-meter monster chi giant sword converged and deformed, and quickly retracted her right hand and disappeared.

Tie Jun said: "Now we have two perfections in our team."

He was filled with emotion when he thought of the anxiety he felt when he first came here, and now that there are two great people in Worm Town.

"Which one is about to break through? If not, we will return to Insect Town."

Wang Xuan understood that everyone was tired, and looked at Zhang Haofei and Zhao Lei as he spoke.

Next, if anyone still has hope of breaking through, it is Zhang Haofei and Zhao Lei who have more hope.

As for other people wanting to break through, at least there is no hope for a short time.

Zhang Haofei said, "I'm still almost there, but after drawing energy now, the speed of its energy overflow is getting slower and slower. It is estimated that after a day or two, there should be no energy overflow."

Wang Xuan snorted and looked at Zhao Lei again.

Zhao Lei coughed lightly and said, "I should be about the same."

Seeing that he was so guilty, Wang Xuan knew that he just verbally didn't want to lose to Zhang Haofei, but in fact it should not be as good as Zhang Haofei's current situation.

The remaining six-winged centipedes all escaped, and everyone picked up 26 small crystal scales, and then began to return to Insect Town.

Seeing that the sky was getting dark, everyone accelerated their pace, and encountered several groups of silver-backed centipedes and giant pincers on the way, but everyone did not take action, but quickly bypassed them.

The closer you get to Insect Town, the more teams you can see, but most of them start to return to Insect Town one after another.

The road from Centipede Island back to Bug Town became lively.

Wang Xuan put away the little girl. He doesn't like publicity. Since he wants to return to Insect Town, there is no need to bring the mechanical beast with him.

Seeing this, Gu Manyao and Yu Shanshan also put away their own mechanical beasts.

Even Wang Xuan has accepted mechanical beasts, how dare they bring publicity with them.

"Old Yao, you are a regular visitor here. To be honest, do you have any good projects at night in Bug Town? You understand what I said." Zhang Haofei approached Yao Tiande, stretched out his hand, and put his arms around his shoulder, as if it was convenient. Very familiar, winked at him.

Yao Tiande coughed lightly and said, "Insect Town is still very lively at night, especially the pub, which is full every night."

"Tavern? I know the name. I've always wanted to go and see it, but I haven't had a chance. I must go and see it tonight." Zhao Lei's face showed excitement.

Zhang Haofei pushed Yao Tiande and said in a low voice, "I'm talking about another project. With so many people here, there must be some women who don't want to go out to hunt monsters, so will some special service industries be born."

Yao Tiande shook his head and said: "Last time I said that if you stay here for half a year and don't break through to the state, you will be sent away. Women really have this idea, it is easy to catch up with a stronger man, and there is no need to do so at all."

"Of course, this is just a superficial phenomenon. I don't know if it is secretly there. If you have this idea, you should go to the tavern~www.mtlnovel.com~ There are many women in the tavern every night, and most of the women who can join the tavern They are more open, and after drinking, as long as you have some means, it is not difficult to hook up with one."

Duan Chen smiled and said: "Yes, but it is difficult to last long without enough strength. These women are all gamers, and most of them are one-night stands."

Zhang Haofei's eyes flashed: "Fuck, one night stand... It's so exciting, you must go to this tavern."

Gu Manyao listened to her ears, kept shaking her head, her face speechless, looking at Wang Xuan with a smile on her face, she seemed to agree with Zhang Haofei's point of view, she couldn't help but feel angry, and said, "Wang Xuan, you also want to go to a pub for a one-night stand. is not it?"

Wang Xuan was stunned for a moment, then smiled and said, "What are you talking about? There are more men than women here. It is estimated that women choose men for one night stand? How can it be so easy."

Gu Manyao smiled and said, "So you're not interested in taverns."

Wang Xuan said: "I haven't been there, but you can go and see it."

Gu Manyao snorted softly: "After a long time, don't you want to go?"

Everyone walked and chatted, and soon they arrived in front of the south gate of Insect Town. There were many people gathered at the south gate. People from the five major forces were checking one by one before they were released.

Wang Xuan was wearing a full set of Tier 3 alloy equipment, which was unusual and attracted the attention of many people.

In Bug Town, it is not a simple role to be able to wear a set of Tier 3 alloy equipment.

When it was about their turn to ten, the three people who belonged to the "Rakshasa" who were interrogating at the door saw Yao Tiande and Duan Chen inadvertently, and there was a hint of surprise in their eyes.

However, they concealed it quickly, turned their faces away, and returned to their normal appearance.

Chapter 144

When it was Wang Xuan's turn, the three members of the Xuan Gang saw Wang Xuan wearing Tier 3 alloy equipment. Gu Manyao, Zhao Lei and others who followed him all had one or two Tier 3 equipment on them, and several of them were wearing storage belts. , and even a mid-level storage belt worth a thousand crystal scales.

With so many Tier 3 alloy equipment and storage belts on everyone, if you use crystal scales to estimate, I am afraid that nearly 10,000 crystal scales will be needed.

For them, this is a huge amount of money that can make people completely crazy.

Looking at Wang Xuan and the others, it can be said that everyone around them couldn't hide a hint of surprise on their faces, especially the Xuan Gang.

They still remember Wang Xuan, a newcomer who joined the Xuan Gang before. At that time, they also carefully checked the detailed information about Wang Xuan, how did they put on a set of Tier 3 equipment in a blink of an eye? Even the people who followed him had one or two more Tier 3 alloy equipment?

Such a configuration, even the general big figures and their core subordinates who have reached the state of the five major forces may not have it, unless it is a few big figures who are the real core of the five forces.

They looked at Wang Xuan's profile card. Yes, he was a newcomer who joined the Xuan Gang yesterday.

"Wang Xuan, you really belong, you are making a fortune."

It was a man in his thirties who checked Wang Xuan's data card. While returning the data card to him, he looked at Wang Xuan and Gu Manyao with a smile, but his smile was a little weird.

He naturally doesn't think that Wang Xuan and the others have killed a few elite powerhouses to get so many Tier 3 equipment. He guessed that they might have completed a special task and rewarded a lot of

crystal scales and equipment. Of course, they may also be lucky. , directly found a treasure trove and obtained these equipment or crystal scales.

This situation is not unique. Before, there was an adult person in Insect Town who unintentionally found a treasure and obtained a large number of treasures such as crystal scales. Unfortunately, this person was too flamboyant and did not know how to restrain. This news leaked out, very He soon disappeared in Worm Town, and no one saw him again.

At that time, the people in Bug Town were tacit and understood what was going on. No one sympathized with that person, only envious of the person who secretly shot.

Without enough strength, they have obtained a lot of treasures, and they are as ostentatious as Wang Xuan and the others.

After checking the information cards of everyone, they let everyone in. As for Yao Tiande and Duan Chen, they were both old people here and were very familiar with the guards. The three guards just nodded towards them and let them go.

"Have you seen the look in their eyes?" Entering the town of Insects, Zhang Haofei couldn't wait and looked excited.

Zhao Lei said: "Of course I saw it."

Zhang Haofei smiled and said: "That appearance is both envious and shocked, and full of jealousy. Damn, I like this kind of look so much, looking at their appearance, it feels like drinking a glass of iced drink on a hot day. People are cool from head to toe, haha."

Li Haotian smiled and asked Yao Tiande and Duan Chen: "Our current strength should be able to walk sideways in Insect Town."

Yao Tiande smiled slightly, but before he spoke, Duan Chen lowered his voice and chuckled: "We killed even the Rakshasa leader, do you think you can walk sideways?"

Yao Tiande said: "Probably the only leaders who can threaten us are the leaders of the remaining four forces, but these four leaders, like the Rakshasa leaders, are mysterious and will not show up basically, and we have not offended them. Thinking about it now, no one can threaten us except them. It is a bit exaggerated to say that walking sideways, but it is almost the same, but we still have to keep a low profile, there is no need to be too public."

Zhang Haofei couldn't see Yao Tiande's cowardice, he laughed and said, "Let's go, let's go to the tavern."

On the square opposite, it was very lively with people coming and going. From time to time, people entered the east gate and south gate. The most lively one was the street in the trading area, where many people flocked.

Watching Wang Xuan ten people enter the insect town and head towards the trading area in the distance, waiting for them to walk away, the three people who belonged to the "Rakshasa" guarding the

south gate looked at each other, one of them two The teenage man with a little tattoo on his neck whispered, "Then I'll report."

"Okay." The other two nodded.

The tattooed man in his twenties left the south gate, entered Bug Town, and ran towards the area with a large number of single buildings on the other side.

At this moment, Wang Xuan and ten people have wandered to the trading area, and they can see from a distance on the other side of the square, there are five people embracing a woman riding a silver unicorn like a star.

When the other people around saw these six people, they all kept their distance from each other.

Seeing this woman riding a unicorn once again, Wang Xuan's heart moved, knowing that these six people were all members of the patrol team. This patrol team was jointly formed by the five major forces, and they took turns to serve, mainly to maintain the security of the insect town. Prevent people from fighting and killing in Bug Town.

"That woman is Xiao Bichen, right?" Wang Xuan asked Yao Tiande, pointing at the woman who was patrolling on a unicorn in the distance.

"Yes, she is a big figure in the 'Phoenix'. I heard that she is very trusted by the 'Phoenix' leader and has great power, but she seems to like patrolling, and she can often be seen leading patrols in Bug Town. During the inspection, most people are afraid of her."

Duan Chen replied, "This Xiao Bichen is beautiful, but she is very arrogant. It is said that there is an investigation, that is, among the objects used for **** in private, she ranks first."

Hearing this, Wang Xuan couldn't help laughing.

Zhang Haofei laughed and said, "It seems that men are similar. The more arrogant and indifferent she is, the more she wants to conquer her, haha."

Fortunately, Xiao Bichen and the others were far on the other side of the square, patrolling the area on the other side, and they were not afraid that she would hear them. Everyone laughed and entered the trading area.

It was getting dark, and the shops on both sides of the trading area were brightly lit, and people came in and out of the shops on both sides from time to time.

The shops on the left have weapons shops, armor shops, supplies shops, etc. Wang Xuan remembered that he had met Wu Yi and Yao Tiande at the material shop before, and he was dragged in.

As for the shop on the right, I didn't visit it last time, but now I look at it, and the first shop I see has the word "Exchange" written on it.

"Exchange?" Wang Xuan couldn't help but walk over when he saw that there was no one inside.

"Crystal scales can be exchanged here." Yao Tiande followed him, busy explaining.

Zhao Lei understood as soon as he heard it, and said, "Meaning the exchange between small and medium crystal scales?"

Yao Tiande nodded and said: "Yes, there are also large crystal scales. One hundred medium crystal scales can be exchanged for one large crystal scale, which is equal to 10,000 small crystal scales, but generally no one can exchange them for large crystals. The scales are probably only the leaders of the five major forces, according to Huang Tao, they will change once a month."

Wang Xuan thought that there were more than 100 medium-sized crystal scales in the pocket of the Rakshasa leader, which could indeed be exchanged for one large-sized crystal scale.

"These five major forces exploit everyone, and every leader has to get rich." Tie Jun sighed.

Zhao Lei asked curiously, "Why do these leaders change once a month? Can't they just change?"

Yao Tiande lowered his voice and said, "I also heard what Huang Tao said. He meant that there are shadows behind the five major forces. These crystal scales are not mainly obtained by them, but as offerings. It seems that they need it every month. Last time."

Zhao Lei looked at him and said, "Really?"

Yao Tiande shook his head and said, "I don't know about this either. It may be true or false. It is estimated that only those who are strong in the five major forces can know."

Wang Xuan entered the exchange shop and took a look. There were two rows of self-service machines for exchange, and three kinds of crystal scales could be exchanged for each other at will.

After that, I walked out and looked at the second store on the right. The word "recycling" was written on it. After listening to Yao Tiande's explanation, I realized that this "recycling" store can be used to sell some unwanted materials, which can be exchanged for Crystal scales.

"All the materials that are bought or obtained by doing tasks can be sold if you don't want them, but generally they can only be sold for half the price when they were bought, or even lower."

After that, I went to the third shop on the right, with the word "mission" written on it.

"This is the quest line, where you can buy parchment and get quests."

Hearing Yao Tiande's explanation, Wang Xuan was startled, and only then did he know that the parchment could be purchased directly.

He walked in, but saw that the task row was very large, and both rows were full of self-service machines. There were more than 20 people in it. Ten of them walked in, which attracted the attention of these people, but it was just a matter of reading more. After a few glances, they ignored it.

Although Wang Xuan's full set of Tier 3 alloy equipment is very conspicuous, but after all, there are many big figures in Worm Town, and everyone is used to it. They will be a little surprised when they see it, but there will be no other indication.

Wang Xuan saw that these machines for selling parchment were divided into six layers, the bottom layer was empty, and the top five layers, from low to high, sold parchment with different degrees of danger.

These parchments are all rolled up, they can only know the danger of the tasks on these parchments, but they don't know the specific content recorded on them.

"The top tier sells all six-star dangerous quests, which are also the most expensive, requiring ten medium-sized crystal scales."

Wang Xuan clicked on the screen on the side of the vending machine. He had already seen the price. One sheet of parchment with a six-star danger level would require 1,000 small crystal scales.

"Don't say we won't buy it, even if it's a strong person in the state, we generally won't buy it, let's not say whether the task can be completed, even if it is completed, sometimes we are unlucky, and the things obtained in it may not be worth the price. ." Yao Tiande said while shaking his head: "The second floor sells parchment paper with a five-star danger level, and it requires 500 small crystal scales."

"The people who buy the five-star danger are generally the strong ones. Of course, if a group of very powerful adults, they may join hands to buy one to try their luck."

Zhao Lei said, "Will you lose money by completing these tasks?"

Yao Tiande said: "Of course, so it depends on luck. For example, a five-star hazard mission will usually get a bronze treasure chest. After opening the treasure chest, there may be some worthless things or treasures in it. It all depends on luck, of course. , the higher the risk, the higher the probability of treasures appearing in the treasure chest. In addition to the treasure chest, there will also be specific props or items, but generally there are not many. To obtain this kind of parchment is generally to pick up treasures. The props or treasures are generally precious."

"The third layer is the parchment with a four-star danger level."

Wang Xuan looked all the way, and saw that the parchment with a four-star danger level sold on the third floor was priced at 300 crystal scales. After completing the task, you can usually get a patina treasure chest.

The fourth floor sells parchment with a three-star danger level, which is priced at 200 crystal scales. After completing the task, there is a high probability of a black iron treasure chest.

"The fifth layer of parchment is the most special. It is not dangerous. It's all tasks with no difficulty or unknown. Each piece of parchment has 100 small crystal scales."

"A lot of people often spend 100 crystal scales to brush these parchments. The parchments that appear here are very special, most of them are garbage, and there are even blank parchments that have no quests, but occasionally there will be rewards. Good parchment, it's just a game of luck."

Wang Xuan thought that he also had two such parchments on his body. One was the parchment for finding the hometown of the mechanical beast with unknown difficulty, and the other was the task of helping others with no difficulty. It seemed that they all came from here.

Wang Xuan now has a lot of parchment tasks on his body that have not been completed, so naturally he will not buy it again. After shopping around, everyone walked out.

Wang Xuan saw a lot of people squatting not far away, with various items placed in front of them.

"What is that?" Wang Xuan asked Yao Tiande beside him.

Yao Tiande said: "These are all unnecessary items and equipment. The price of selling them to recycling shops is too low, so I thought of setting up a stall here and selling them to those in need. The prices are cheaper than those sold in shops. For a piece of Tier 3 alloy equipment, there are 300 pieces in the store, and the price of the recycling store is only 100. They set up a stall and sold it for 200, and there are a lot of people rushing to ask for it."

Wang Xuan nodded slightly.

"Look, the largest building there is the tavern. It has three floors and can accommodate four or five hundred people at the same time."

Yao Tiande is in a good mood. Now that he has found a real backer and follows Wang Xuan, he has an unprecedented sense of security.

The sky was completely dark, but the tavern looked brightly lit. Many people walked towards the tavern. Wang Xuan originally planned to go to the place where the stall was set up, but when he saw Zhang Haofei, Li Haotian and the others, they all looked anxious. Looking at the tavern, he obviously wanted to go to the tavern first, so he changed his mind and said with a smile, "Then let's go to the tavern."

Zhang Haofei and Li Haotian, including Duan Chen, were all excited.

Although Duan Chen has been here for a long time, he rarely comes to the tavern. After all, the consumption of the tavern is not low. Although he is a core member of the Rakshasa, he is not rich. On average, he can come to spend at most once or twice a month.

The equipment of Wang Xuan and his group of ten looked extraordinary. When they walked to the tavern, many people looked at them sideways.

Entering the tavern, you can see a huge hall with three floors. There are corridors on the second and third floors, and there are stairs to go up on the left and right sides. At this moment, there are hundreds of tables in the hall, although it was just dark, and half of these tables were already occupied.

Around this huge hall, except for the two stairs that go upstairs, there are huge machines in a circle. Wang Xuan saw from a distance that these machines were full of wine.

Wang Xuan said, "Is this also a self-service liquor store?"

Yao Tiande nodded busily and said, "Yes, it's all self-service, and there are all kinds of wine and drinks, but the price is not cheap, and ordinary people can't afford it."

Zhao Lei saw that there was a person standing beside each of these self-service vending machines. Looking at the signs on his body, there were all five major forces.

"What are the people standing by the vending machine doing, maintaining order?"

"Yes, every night, there are too many people gathered here, and when there are too many people, it is inevitable that it will be easy to mess up, and everyone has been drinking, and it is more likely to cause conflicts and troubles, so the five major forces will Some people will be sent here to maintain order."

Everyone walked in while talking, Wang Xuan saw that the tables in this hall were relatively small, basically five or four people sat at the table, and said: "It seems that we have to sit at two tables, those above are the boxes? "

"Well, the second and third floors are separate boxes. Generally, the big people who come here will enter the box. Because opening the box requires a separate fee, most people can't bear it."

Hearing Yao Tiande say this, Wang Xuan smiled and said, "Then let's go to the box to have a look. It's too noisy outside."

Speaking of walking towards the stairs on the left, Yao Tiande and Duan Chen were a little excited. Although they had been here before, this was the first time they entered the box.

Although they were the subordinates of Wang Ziren, Wang Ziren had never brought them into the tavern.

On the second floor, Wang Xuan looked at the nearest box, and saw that the box door was locked, and there was a screen on the handle, click to open it, and to open the box door lock, 20 small crystal scales were needed .

"This box needs 20 crystal scales to open for one night?" Zhao Lei also saw it on the side, and said, "It's really expensive. The tables and chairs in the hall below can sit for free, but this box costs money, no wonder there are fewer people entering the box~www. mtlnovel.com~ Wang Xuan smiled slightly, opened Xumi's belt, and took out a small number of crystal scales. He didn't bother to count the exact number, and handed it directly to Zhao Lei to let him open the box first.

He is now rich and powerful, not to mention the core figures of the major forces, even the leaders of the major forces are just like this, twenty small crystal scales are a drizzle to him.

Zhao Lei was busy counting twenty crystal scales and placed them in the slot above the handle of the box door.

Everyone heard a soft click, and the box door opened.

At this moment, six more people came in at the door of the tavern, and immediately many people who were seated came up to greet them, looking very enthusiastic.

Wang Xuanzheng was standing by the corridor on the second floor, and he noticed the six people downwards. He saw that they had metal tags hanging around their necks, indicating that they were from the "Justice League".

The first of the six was wearing a full set of Tier 3 alloy equipment. He was tall and calm, and his face looked serious.

The other five were four men and one woman, all following him.

Wang Xuan only glanced at the man's bearing and clothes to understand that this man must be a strong man, a big man in the "Justice League".

Those who came up were basically people from the "Justice League". When they suddenly saw the big men of the league coming, whether they knew it or not, they wanted to come up and get close.

Although the man's face was serious, he still showed a smile from his serious face when he saw the crowd around him, and responded one by one, looking very kind.

Then they walked towards the stairs, apparently to enter the box.

The man raised his head and saw Wang Xuan ten people in the corridor on the second floor.

Chapter 145

Seeing that Wang Xuan was wearing a full set of Tier 3 alloy equipment, and several people around him were wearing storage belts, the man's heart moved.

"Xuan Gang has another perfection? Looking at the equipment on this group of people, it is very valuable."

The man's eyes flickered slightly, and he walked up the stairs to the side.

He is a big man in the "Justice League", a strong person, and naturally disdains crowding the hall with everyone.

In the corridor on the second floor, Zhao Lei opened the door of the box, looked inside, and found that the box was not small. There was a round table in the center, which could seat at least 15 people, and two vending machines were placed against the wall. They are stocked with a variety of drinks and beverages.

Everyone walked in one after another, and Yao Tiande said, "I heard that the vending machine in the box also sells some high-end drinks, which are not found in the outside hall, and I don't know if it is true or not."

He said as he walked over to look at the drinks.

Everyone was curious, and they all gathered around. Wang Xuan saw that the two vending machines were filled with transparent glass bottles that looked very delicate and compact. There are various colors of wine, which look very beautiful, and the name and the number of crystal scales needed are written under each bottle of wine.

Wang Xuan found that the names of these drinks were very nice. For example, one of the blue drinks was named "Blue Enchantress", which was sold for 10 small crystal scales, and a bottle of red wine was named "Bloody Ballet". The price is 15 small crystal scales, a bottle of golden wine is "Golden Blood", and the price is 25 small crystal scales.

Wang Xuan took a look at it. The price of these drinks is basically between 10 and 30 crystal scales. For him now, it is not expensive, but for ordinary people, hunting a monster is only enough. To harvest one crystal scale, the cheapest drink here requires ten crystal scales. For the vast majority of people, coming here to consume is definitely a luxury.

Wang Xuan was about to order a cup of blue enchantress to taste first, only to realize that if he wanted to buy it, he needed to buy at least ten bottles.

"Want to buy ten bottles at a time? There are so many people in the hall willing to spend?" Wang Xuan was a little bit incredulous. Even if he bought ten bottles of the cheapest blue enchantress, he would still need 100 small crystal scales.

"There is no such restriction in the outside hall, you can buy and sell freely. This is probably the reason for the box. You have to buy at least ten bottles at a time." Yao Tiande also saw it. .

"It turns out that there are exactly ten of us, and everyone will order a bottle first." Wang Xuan smiled and took out a handful of crystal scales and handed them over to Zhao Lei, asking him to count the number of crystal scales to buy and sell.

Soon everyone ordered one after another. Most of them ordered relatively cheap drinks. Only Zhang Haoifei ordered "Golden Blood" which required 25 crystal scales.

Zhao Lei paid for 115 crystal scales, and soon ten bottles of drinks that everyone ordered appeared at the bottom of the vending machine.

Everyone took the drinks they ordered and sat around the table. Except for Yao Tiande and Duan Chen, everyone was curious to taste the drink.

Wang Xuan ordered a cup of blue enchantress and took a small sip. It tasted good and sweet. It was more like a drink than a drink.

This small bottle was only 100 ml, and everyone drank it quickly.

Wang Xuan smiled and took out another 100 crystal scales, but this time, he only bought the cheapest drinks, otherwise even he would feel pain based on this consumption speed.

In just a short time after coming here, they consumed 235 crystal scales.

Everyone is slowly tasting and chatting. After coming to this world for so long, it is rare to be able to enjoy this kind of relaxation.

"Unfortunately, there is only wine here, no food." Zhao Lei gently shook the glass bottle in his hand, treating it as a glass, as if tasting red wine, squinting slightly, feeling a little intoxicated.

"Now I finally understand why there are so many people in this tavern. After such a **** and cruel fight, it is really rare to be able to come here, sit down and drink a glass of wine and enjoy this rare leisure time." Wang Xuan also had some emotions in his heart.

Gu Manyao was sitting beside him, sipping a sip of the blue enchantress, looking at Wang Xuan silently with a sullen smile on his face.

Zhang Haofei took the small bottle of blue enchantress that he just bought, and suddenly stood up and said, "It's boring to stay in the box, just the ten of us staring at it, why don't we go outside and take a look?"

Duan Chen said: "Actually, the hall outside is more lively."

"Then let's go to the hall to have a look." Zhang Haofei heard the noise in the hall and the laughter and laughter of many women, which made his heart itch.

Seeing Zhang Haofei and Duan Chen stand up, Li Haotian also stood up.

The three walked out together with the drinks in their hands.

Zhao Lei looked at Wang Xuan and said, "How is it? Shall we go to the lobby too?"

Wang Xuan smiled and shook his head: "I don't like too much noise. It's a good place. You can listen to the noise outside without being disturbed. If you want to go, just follow them down."

Zhao Lei smiled and said, "If you don't go down, then I won't go down either."

Tie Jundao: "There are not many big people in the tavern. Since we came to now, we have just seen those people from the 'Justice League'. The man at the head should be a strong person. I didn't see it."

Yao Tiande said: "Those who can become powerful people are big figures in the five major forces. They usually have their own villas, and there will be many women who want to give their arms to them and seek shelter. It can be said that At that step, in Worm Town, it is basically calling for wind and rain. If you want women to have women, if you are bored and want to drink or something, you can let people come here to order a batch of drinks, and you can hold a cocktail party or dance directly in the villa. , For them, they don't bother to come here at all. Most of the people who come here are adults who can't break through. Since there is no hope, and earn some crystal scales every day, they come here to buy drunk entertainment, or try their luck to see if they can catch up. a woman."

Yao Tiande sighed and looked envious, thinking about the immortal lives of those who have reached the power level.

Wang Xuan frowned and said: "This drink is not cheap, how many crystal scales do you need to hold a cocktail party? It's really the perfect state, I'm afraid that more thoughts are on how to become stronger, and I really want to enjoy the perfect state. The strong? Even if there are, there are very few."

I thought that most of what Yao Tiande just said was his self-imagination.

Hearing what Wang Xuan said, Yao Tiande couldn't help laughing awkwardly. The truth was really guessed by Wang Xuan. What he just said was his own guess. As for how these powerful people lived in private, he didn't know.

Everyone was chatting here, when Wang Xuan suddenly heard a "bang" sound from the originally noisy hall, followed by the sound of "squeak", and then an angry shout. Listening to this sound, it was Zhang Haofei. came.

Hearing this, the seven people in the box immediately understood that something had happened in the hall.

"This guy Zhang Haofei is really a troublemaker. I guess he caused trouble."

Zhao Lei shook his head as he spoke, and all the seven stood up. Wang Xuan was the fastest, and with a bang, he appeared in the corridor outside the box, commanding a commanding view of everything in the noisy and lively hall.

In another box next to them, a few people also came out. It was the six people from the "Justice League". They also heard the movement in the hall. It was suspected that someone had a conflict, and they came out curiously to watch.

In the hall at the moment, some people are still sitting on the table, holding the wine they bought in their hands, watching the fun from a distance, and more people have already stood up, retreated to the back, and made a circle, in this In the circle, Li Haotian stood on the side, with the Orion bow already showing in his hand, he pulled it away, showing a giant two-meter-long light arrow on it, but it didn't shoot out.

Zhang Haofei fell to the ground together with a table and chair, the armor on his chest collapsed into a fist pit, at least several ribs were broken in his chest, the corners of his mouth were bloody, and he looked very embarrassed.

Duan Chen, on the other hand, was lying on the ground, with his head and face being trampled on with his feet, his hands and feet were twisted in the direction of the anti-joint, apparently his limbs were twisted off, and his body was twisted like a snake on the ground, but he His hands and feet were interrupted, his head was trampled, and he didn't dare to resist at all. He was afraid that the opponent's foot would be forced to burst his head immediately.

The man who stepped on Duan Chen's head and face was a man wearing Tier 3 alloy equipment, and there were six people behind him.

The people sitting on the table close to him retreated one after another. Just by looking at the man wearing a full set of Tier 3 alloy equipment and his murderous aura, he knew that he was a big man in Insect Town, and who would dare to provoke him easily.

Yao Tiande came out following Wang Xuan, his face changed drastically after just one glance, and he whispered: "Liu Ming, he is one of the 18 core characters in the Rakshasa, and he is a powerhouse, I didn't expect him to come. ."

"Where is Yao Tiande?" Liu Ming, who was stepping on Duan Chen's head, raised his voice and looked around, trying to find Yao Tiande in the crowd.

Before he could finish his sentence, suddenly a figure flashed diagonally above him from the corner of his eyes. He was stunned and hurriedly raised his head when he saw a figure jumping down from the corridor on the second floor.

With a "bang", the figure jumped from the second floor and landed on a table about three or four meters away from him.

The tables and chairs in this tavern are made of special materials, non-gold and non-iron, which are difficult to damage.

It was Wang Xuan who suddenly jumped down. He landed on the table, and jumped up in the air again, without giving Liu Ming a chance to react. come over.

Wang Xuan's shot was too fast, and everyone around couldn't react. Only Liu Ming, who was a strong man, barely raised his arm to lift it.

As soon as his right arm was raised, a glass-like crystal substance appeared on it.

With a crisp sound, he used his right arm to block the drawn metal tentacle. He didn't want a gust of wind in front of him, but Wang Xuan jumped out, like a goshawk attacking a rabbit, almost approaching with the metal tentacle. The right fist hit him in the chest.

This time, Liu Ming couldn't resist anymore, he let out a groan, opened his mouth, spit out a mouthful of blood, and flew out in the air, fell backwards, and hit a table at the back. One side of the chair, roll out together.

The power of this punch was astonishing. Many people around saw Liu Ming being beaten and flew out. Only then could they react. The six people who came with Liu Ming were shocked and retreated, each showing their own hatching beast guard. body, but no one dared to shoot at will.

Wang Xuan stopped, the figures around him flashed, but Gu Manyao, Zhao Lei, Tie Jun, Yao Tiande and other six people jumped down from the corridor on the second floor one after another and quickly gathered around him.

Yao Tiande was busy checking Duan Chen's injury, seeing that his hands and feet were broken, he looked very miserable, and his heart was full of anger.

Zhao Lei went to see Zhang Haofei's injury. He was punched by Liu Ming. Although he broke a few ribs, luckily the injury wasn't too serious.

At this moment, there were at least a hundred people gathered in the tavern. When they saw Liu Ming appear, suddenly injured Duan Chen, and then punched Zhang Haofei who was about to shoot, everyone felt refreshed and knew that there was a good show to watch.

There are not many opportunities to see the strong players in the state.

But he didn't want to follow another more powerful one. He even smashed Liu Ming, who was a powerhouse, with one punch. This made everyone surprised and excited. It seemed that this was another powerhouse. There is a good show tonight, and the crystal scales spent in the tavern today are worth it.

In the corridor on the second floor, several people from the "Justice League" were watching, and the man headed had a surprised look on his face.

good romance novel

The speed of Wang Xuan's shot just now and the mighty punch of that punch made him feel awe-inspiring. If it was him, it would be difficult for him to be sure whether he could avoid it.

"Damn—" Liu Ming, who was kicked out, roared, rolled over and quickly got up from the ground, stroking his chest that had collapsed into a fist pit, feeling that at least several ribs were broken in his chest, and his face was slightly broken. With a twisted expression, he stared at Wang Xuan, and said, "Who are you? I'm here to arrest Rakshasa's traitor, and the members of your Xuan Gang want to interfere in our Rakshasa's family affairs?"

He saw that Wang Xuan was wearing a bracelet from the Xuan Gang, with Tier 3 equipment all over his body, and the punch he just punched, at least he was a powerhouse. Although he didn't know it, he could guess that it was from the Xuan Gang. The newly-promoted powerhouse.

It's just why he helped Yao Tiande and Duan Chen to attack him, Liu Ming didn't understand.

There are many people who maintain order in the tavern, all of whom belong to the five major forces. When they saw the conflict here, they all surrounded it and wanted to stop it.

They didn't want to see Liu Ming, and they recognized that this was a strong person, which made their scalps tingle, knowing that they were not qualified to take care of them, and those who were more nimble immediately ran out of the tavern quietly and went to inform the patrol team.

Each patrol team has a leader of the elite, and only the patrol team can stop this dispute tonight.

Wang Xuan glanced at Zhang Haofei and Duan Chen, and said, "These are my brothers. The punch just now was for Zhang Haofei to pay you back. Since you dare to break Duan Chen's limbs, I will break your limbs too."

As soon as the words fell, Wang Xuan shot.

He saw that among the six people who came with Liu Ming, there was a man in his twenties with a tattoo on his neck, and he already understood what was going on.

It seems that in the Rakshasa, Yao Tiande and Duan Chen have been identified as traitors. This tattooed man is one of the three "Rakshasa" members who were at the South Gate. He saw Yao Tiande and Duan Chen, the two traitors. It was only after they entered Worm Town that they tipped off and reported it to Liu Ming. Liu Ming took them to arrest Yao Tiande and Duan Chen.

Although the tattooed man knew that Wang Xuan was with Yao Tiande and Duan Chen, and also saw Wang Xuan wearing a set of Tier 3 equipment, he knew that he was a newcomer and could never be a strong person. , only if they were lucky enough to get the treasure, so the team had these Tier 3 equipment.

Wang Xuan shook his body, and the metal tentacle on his right hand volleyed over again.

"Do you really want to provoke a war between Xuan Gang and Rakshasa? I'm afraid your Xuan Gang leader won't spare you if he knows!"

Liu Ming was so angry that his eyes seemed to burst into flames. In the town of worms, the powerhouses of the state level were strictly forbidden to fight. This was the restraint imposed by the leaders of the major forces. They are all core characters. The fight between the general members of the major forces has not had much impact. If the two sides are fighting against each other, it will involve a big deal, and it may even evolve into a conflict between the two major forces. It will result in a lose-lose situation.

Liu Ming saw that Wang Xuan was a strong person, and must be a core member of the Xuan Gang. Naturally, he knew this rule, and now he was able to take action against himself without any hesitation. UU reading www.uukanshu.com This surprised him again He was angry again, and even suspected that this was the instigation of the leader of the Xuan Gang behind the scenes, otherwise how could he have such courage? Could it be that the Xuan Gang wanted to fight their Rakshasa?

Surprised and angry, Liu Ming's entire right arm completely turned into translucent glass. This vitrification continued to extend up his body along his right arm. He grabbed the metal tentacle that was drawn, and immediately smashed Wang He grabbed the metal tentacles that Xuan had drawn.

The surface of the metal tentacle he grabbed started to become translucent and vitrified.

Suddenly the metal tentacle split into two, and the separated metal tentacle wrapped around Liu Ming's left arm, twisting and twisting, Liu Ming was caught off guard, only to hear a crisp sound, he opened his mouth and let out a scream, The left arm was twisted into a twist, and the bones inside were twisted and broken into several pieces.

Everyone around looked at them, their hearts jumping, and those who were close were slowly backing away, excited and nervous in their hearts. These people all understood that this matter was going to be a big deal tonight.

The two powerhouses, representing the faces of Rakshasa and the Xuan Gang, actually fought here, and now the powerhouse of the Xuangang broke Liu Ming's arm representing Rakshasa. Can the leader of the Rakshasa and those core members endure it?

It can be said that this kind of thing has not happened in Bug Town for a long time.

Wang Xuan didn't care about the conjectures of the people around him, twisted Liu Ming's left arm, and then controlled the metal tentacles to wrap around Liu Ming's left leg, twisting his left leg too.

"Stop it!" An angry shout sounded, but the crowd suddenly separated from it, a tall figure stepped in, appeared with a thunderous power, a knife appeared, and the surface was faint. There was lightning flashing, and he slammed in and picked it up, picking up the metal tentacles controlled by Wang Xuan and flying up.
